(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number: 1-33472

TECHTARGET, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: TechTarget Inc - Form 10-Q

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)
275 Grove Street Newton, Massachusetts 02466
(Address of principal executive offices) (zip code)

Registrant's telephone number, including area code: (617) 431-9200

(Former name, former address and formal fiscal year, if changed since last report): Not applicable

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

(Do not check if a small reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 31, 2018, the registrant had 27,580,754 shares of common stock, \$0.001 par value per share, outstanding.

TECHTARGET, INC.

Notes to Consolidated Financial Statements

(In thousands, except share and per share data, where otherwise noted, or instances where expressed in millions)

1. Organization and Operations

TechTarget, Inc. and its subsidiaries (the “Company”) is a leading provider of specialized online content for buyers of enterprise information technology (“IT”) products and services, and a leading provider of purchase-intent marketing and sales services for enterprise technology vendors. The Company’s service offerings enable technology vendors to better identify, reach, and influence corporate IT decision makers actively researching specific IT purchases. The Company improves vendors’ ability to impact these audiences for business growth using advanced targeting, analytics, and data services complemented with customized marketing programs that integrate demand generation and brand advertising techniques. The Company operates a network of over 140 websites, each of which focuses on a specific IT sector such as storage, security, or networking. IT and business professionals have become increasingly specialized, and they have come to rely on the Company’s sector-specific websites for purchasing decision support. The Company’s content platform enables IT and business professionals to navigate the complex and rapidly changing IT landscape where purchasing decisions can have significant financial and operational consequences. At critical stages of the purchase decision process, these content offerings, through different channels, meet IT and business professionals’ needs for expert, peer, and IT vendor information and provide a platform on which IT vendors can launch targeted marketing campaigns which generate measurable return on investment. Based upon the logical clustering of members’ respective job responsibilities and the marketing focus of the products being promoted by the Company’s customers, the Company categorizes its content offerings to address the key market opportunities and audience extensions across a portfolio of distinct media groups: Security; Networking; Storage; Data Center and Virtualization Technologies; CIO/IT Strategy; Business Applications and Analytics; Application Architecture and Development; and Channel.

2. Summary of Significant Accounting Policies

The accompanying consolidated financial statements reflect the application of certain significant accounting policies as described below and elsewhere in these Notes to Consolidated Financial Statements. The Company’s critical accounting policies are those that affect its more significant judgments used in the preparation of its consolidated financial statements. A description of the Company’s critical accounting policies and estimates is contained in its Annual Report on Form 10-K for the fiscal year ended December 31, 2017, and in this note to the consolidated financial statements. There were no material changes to the Company’s critical accounting policies and use of estimates during the first six months of 2018, other than those related revenue recognition resulting from the adoption of a new accounting pronouncement, as described in this Note 2 under “Revenue Recognition”.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, TechTarget Securities Corporation (“TSC”), TechTarget Limited, TechTarget (HK) Limited (“TTGT HK”), TechTarget (Beijing) Information Technology Consulting Co. Ltd. (“TTGT Consulting”), TechTarget (Australia) Pty Ltd., TechTarget (Singapore) Pte Ltd., E-Magine Médias SAS (“LeMagIT”) and TechTarget Germany GmbH. TSC is a Massachusetts corporation. TechTarget Limited is a subsidiary doing business principally in the United Kingdom. TTGT HK is a subsidiary incorporated in Hong Kong in order to facilitate the Company’s activities in the Asia-Pacific region. Additionally, through its wholly-owned subsidiaries, TTGT HK and TTGT Consulting, the Company effectively controls a variable interest entity (“VIE”), Keji Wangtuo Information Technology Co., Ltd., (“KWIT”), which was incorporated under the laws of the People’s Republic of China (“PRC”). In 2018, TechTarget began modifying its

PRC operations and consolidating its activities with other TechTarget locations. TechTarget (Australia) Pty Ltd. and TechTarget (Singapore) Pte Ltd. are the entities through which the Company does business in Australia and Singapore, respectively; LeMagIT and TechTarget Germany GmbH, both wholly-owned subsidiaries of TechTarget Limited, are entities through which the Company does business in France and Germany, respectively.

PRC laws and regulations prohibit or restrict foreign ownership of internet-related services and advertising businesses. To comply with these foreign ownership restrictions, the Company operates its websites and provides online advertising services in the PRC through KWIT. The Company entered into certain exclusive agreements with KWIT and its shareholders through TTGT HK, which obligated TTGT HK to absorb all of the risk of loss from KWIT's activities and entitled TTGT HK to receive all of its residual returns. In addition, the Company entered into certain agreements with the authorized parties through TTGT HK, including Management and Consulting Services, Voting Proxy, Equity Pledge and Option Agreements. TTGT HK assigned all of its rights and obligations to the newly formed wholly foreign-owned enterprise, TTGT Consulting. TTGT Consulting is established and existing under the laws of the PRC, and is wholly owned by TTGT HK.

Based on these contractual arrangements, the Company consolidates the financial results of KWIT as required by Accounting Standards Codification (“ASC”) subtopic 810-10, Consolidation: Overall, because the Company holds all the variable interests of KWIT through TTGT Consulting, which is the primary beneficiary of KWIT. Despite the lack of technical majority ownership, there exists a parent-subsidary relationship between the Company and the VIE through the aforementioned agreements, whereby the equity holders of KWIT assigned all of their voting rights underlying their equity interest in KWIT to TTGT Consulting. In addition, through the other aforementioned agreements, the Company demonstrates its ability and intention to continue to exercise the ability to obtain substantially all of the profits and absorb all of the expected losses of KWIT. All significant intercompany accounts and transactions among the Company, its subsidiaries, and KWIT have been eliminated in consolidation.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted (Generally Accepted Accounting Principles or “GAAP”) in the United States (“U.S.”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the U.S. for complete financial statements. All adjustments, which, in the opinion of management, are considered necessary for a fair presentation of the results of operations for the periods shown, are of a normal, recurring nature and have been reflected in the consolidated financial statements. The results of operations for the periods presented are not necessarily indicative of results to be expected for any other interim periods or for the full year. The information included in these consolidated financial statements should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” contained in this report and the consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Reclassifications

Historically, the Company presented online revenues and online cost of revenues separately from events revenues and events cost of revenues. On the Consolidated Statements of Income, the Company has combined these into a single line item for revenues and a single line item for cost of revenues, since the events product line, which was phased out in the first quarter of 2017, generated immaterial revenues and cost of revenues for the six months ended June 30, 2017 and no revenues or cost of revenues in the other periods presented on the Consolidated Statements of Income. These reclassifications are not material and had no effect on the total reported revenues or cost of revenues.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, the Company evaluates its estimates, including those related to revenues, long-lived assets, goodwill, the allowance for doubtful accounts, stock-based compensation, earnouts, self-insurance accruals, and income taxes. The Company reduces its accounts receivable for an allowance for doubtful accounts based on its best estimate of the amount of probable credit losses. Estimates of the carrying value of certain assets and liabilities are based on historical experience and on various other assumptions that the Company believes to be reasonable. Actual results could differ from those estimates.

Revenue Recognition

The Company generates substantially all of its revenues from the sale of targeted marketing and advertising campaigns, which it delivers via its network of websites and data analytics solutions. Revenue is recognized when performance obligations are satisfied by transferring promised goods or services to customers, as determined by applying a five-step process consisting of: a) identifying the contract, or contracts, with a customer, b) identifying the performance obligations in the contract, c) determining the transaction price, d) allocating the transaction price to the performance obligations in the contract, and e) recognizing revenue when, or as, performance obligations are satisfied.

Recent Accounting Pronouncements

Recently Adopted Accounting Guidance

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) (“Topic 606”), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition (“Topic 605”). Topic 606 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Topic 606 provides that an entity should apply a

five-step approach for recognizing revenue, as described above in this Note 2 under “Revenue Recognition.” This guidance also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The Company adopted the standard effective January 1, 2018, using the modified retrospective approach. Under this method, the Company evaluated contracts that were in effect at the beginning of fiscal 2018 as if those contracts had been accounted for under Topic 606. Under the modified retrospective approach, periods prior to the adoption date were not adjusted and continue to be reported in accordance with historical, pre-Topic 606 accounting. The adoption of the standard did not have a material effect on the Company’s consolidated financial statements, systems, processes, or internal controls.

Accounting Guidance Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) (“ASU 2016-02”). ASU 2016-02 establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than twelve months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the Consolidated Statements of Income and Comprehensive Income. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements and disclosures. However, the Company anticipates that this standard will have a material impact on its financial position, primarily due to office space operating leases, for which the Company will be required to recognize lease assets and lease liabilities on its Consolidated Balance Sheets. The Company will continue to assess the potential impacts of this standard, including the impact the adoption of this guidance will have on its results of operations or cash flows, if any.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles-Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment (“ASU 2017-04”). ASU 2017-04 eliminates the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge (step 2 of the goodwill impairment test) and instead requires only a one-step quantitative impairment test, performed by comparing the fair value of goodwill with its carrying amount. ASU 2017-04 is effective on a prospective basis effective for goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for goodwill impairment tests performed on testing dates after January 1, 2017. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements and disclosures but does not expect that it will have a material impact.

3. Revenues

Revenue Recognition

On January 1, 2018, the Company adopted Topic 606 and, as such, recognizes revenue when performance obligations are satisfied by transferring promised goods or services to customers in an amount the Company expects to receive in exchange for those goods or services. The Company enters into contracts that can include various combinations of its offerings, which are generally capable of being distinct and accounted for as separate performance obligations.

The Company’s offerings consist of IT Deal Alert™ and Core Online categories.

IT Deal Alert provides a suite of products that leverages detailed purchase intent data that we collect about end-user IT organizations. Through proprietary scoring methodologies, we use this insight to help our customers identify and prioritize accounts. We provide this insight through Priority Engine™, TargetROI™, Qualified Sales Opportunities™,

Deal Data™, and Research™. Revenue from Priority Engine allows customers access to purchase intent data through the life of the contract and is recognized ratably over the contract period. Target ROI contains Priority Engine as well as other duration based demand solutions, which are discussed below, and revenue from Target ROI is recognized ratably over the contract period using the same time-based measure of progress for each of the distinct performance obligations included within TargetROI. Revenue from Qualified Sales Opportunities, Deal Data and Research is recognized at the point in time when control is transferred to the customer, which occurs when the related reports are provided to the customer.

Core Online consists primarily of demand solutions, brand solutions, and custom content. Demand solutions offerings provide the Company's customers the opportunity to maximize return on investment by capturing sales leads from the distribution and promotion of content to its audience. Demand solutions may contain the following components: white papers, webcasts, podcasts, videocasts and virtual trade shows, and content sponsorship, which the Company may utilize at its discretion. Brand solutions provide the Company's customers to target audiences of IT and business professionals actively researching information related to their products and services. This can be accomplished through on-network or off-network branding as well as through the hosting of

microsites. The Company will at times create custom content, such as white papers, case studies, webcasts, or videos, to our customers' specifications through its Custom Content team.

Revenue from demand solutions is primarily recognized when the transfer of control occurs. For certain demand solutions, the Company generates revenue on a cost per lead basis and the transfer of control occurs at the point in time each lead is generated. Certain of the contracts within demand solutions are duration-based campaigns which, in the event of customer cancellation, provide the Company with an enforceable right to a proportional payment for the portion of the campaign based on services provided. Accordingly, revenue from duration-based campaigns are recognized using a time-based measure of progress, which the Company believes best depicts how it satisfies its performance obligations in these arrangements as control is continuously transferred throughout the contract period.

Revenue from brand solutions is primarily recognized when the placement of the branding impression appears. Revenue from microsites is recognized ratably over the life of the contract. Revenue from custom content creation is recognized over the expected period of performance using a single measure of progress, typically based on hours incurred.

The Company's offerings can be sold separately but the Company's contracts often involve multiple offerings. The Company evaluates all contracts with customers at inception to determine whether they contain separate performance obligations. If the contract contains a single performance obligation, the entire transaction price is allocated to that performance obligation. If the contract contains multiple performance obligations, the transaction price is allocated to each performance obligation based on a relative standalone selling price. The Company has concluded that each of the performance obligations described above are distinct. As discussed above, certain demand generation solutions have different revenue recognition patterns. The Company evaluated the relevant contract terms associated with the individual solutions to determine the appropriate revenue recognition pattern.

To determine standalone selling price for the individual performance obligations in the arrangement, the Company uses an estimate of the observable selling prices in separate transactions. The Company establishes best estimates considering multiple factors including, but not limited to, class of client, size of transaction, available inventory, pricing strategies and market conditions. The Company uses a range of amounts to estimate stand-alone selling price when it sells the goods and services separately and needs to determine whether a discount is to be allocated based upon the relative stand-alone selling price to the various goods and services.

Disaggregation of Revenue

The following table depicts the disaggregation of revenue according to categories consistent with how the Company evaluates its financial performance. International revenue consists of international geo-targeted campaigns, which are campaigns targeted at an audience of members outside of North America.

Deferred Revenue and Contract Balances

Timing may differ between the satisfaction of performance obligations and the invoicing and collection of amounts related to the Company's contracts with customers. Liabilities are recorded for amounts that are collected in advance of the satisfaction of performance obligations. Deferred revenue is included in contract liabilities on the accompanying Consolidated Balance Sheets and was \$2.5 million and \$4.9 million at June 30, 2018 and December 31, 2017, respectively. Additionally, certain customers may receive credits, which are accounted for as a material right. The Company estimates these amounts based on the expected amount of future services to be provided to customers and allocates a portion of the transaction price to these material rights. The Company recognizes these material rights as the material rights are exercised. The resulting amounts included in contract liabilities on the accompanying Consolidated Balance Sheets were \$2.8 million and \$2.7 million at June 30, 2018 and December 31, 2017, respectively. During the first six months of 2018, revenues of \$2.5 million were recognized that had been included in the contract liabilities balance at December 31, 2017.

Edgar Filing: TechTarget Inc - Form 10-Q

Year-to-Date Activity	Contract Liabilities (in thousands)
Balance at December 31, 2017	\$ 4,088
Deferral of revenue	3,650
Recognition of previously unearned revenue	(2,473)
Balance at June 30, 2018	\$ 5,265

The Company reduced its accounts receivable by \$3.5 million from \$29.6 million to \$26.1 million as of January 1, 2018 as a result of the adoption of Topic 606. There was a corresponding reduction of \$3.5 million to its deferred revenue balance from \$7.6 million to \$4.1 million as of January 1, 2018 as a result of the adoption of Topic 606.

Payment terms and conditions vary by contract type, although terms generally include requirement of payment within 30 to 90 days. In instances where the timing of revenue recognition differs from the timing of invoicing, the Company has determined its contracts do not contain a financing component as they are generally less than one year. The Company increased its allowance for doubtful accounts by \$0.5 million and had direct write-offs of \$0.4 million, net of recoveries, during the six months ended June 30, 2018.

The Company elected to apply the following practical expedients and exemptions:

- The Company does not disclose the value of unsatisfied performance obligations for contracts with an original expected duration of one year or less.
- The Company expenses, as incurred, contract costs consisting of sales commissions and sales bonuses because the amortization period of the contract asset that would have otherwise been recognized would have been one year or less.

4. Fair Value Measurements

The Company measures certain financial assets and liabilities at fair value on a recurring basis, including cash equivalents, short-term and long-term investments and contingent consideration. The fair value of these financial assets and liabilities was determined based on three levels of input as follows:

- Level 1. Quoted prices in active markets for identical assets and liabilities;
- Level 2. Observable inputs other than quoted prices in active markets; and
- Level 3. Unobservable inputs.

The fair value hierarchy of the Company's financial assets and liabilities carried at fair value and measured on a recurring basis is as follows:

	Fair Value Measurements at				
	Reporting Date Using				
	Quoted				
	Prices				
	in				
	Active				
	Markets	Significant			
	for	Other	Significant		
	Identical	Observable	Unobservable		
	Assets	Inputs	Inputs		
	June 30,	(Level	(Level 2)	(Level 3)	
	2018	1)			
Assets:					
Money market funds (1)	\$ 11,418	\$ 11,418	\$ —	\$ —	—
Short-term investments(2)	4,006	—	4,006	—	—
Total assets	\$ 15,424	\$ 11,418	\$ 4,006	\$ —	—

	Fair Value Measurements at			
	Reporting Date Using			
	Quoted			
	Prices			
	in			
	Active			
	Markets Significant			
	for			
	Other	Significant		
	Identical	Observable	Unobservable	
	Assets	Inputs	Inputs	
	December 31,	(Level		
	2017	1)	(Level 2)	(Level 3)
Assets:				
Money market funds(1)	\$ 7,155	\$7,155	\$ —	\$ —
Short-term investments(2)	7,650	—	7,650	—
Long-term investments(2)	496	—	496	—
Total assets	\$ 15,301	\$7,155	\$ 8,146	\$ —

(1) Included in cash and cash equivalents on the accompanying Consolidated Balance Sheets; valued at quoted market prices in active markets.

(2) Short-term and long-term investments consist of municipal bonds, corporate bonds, U.S. Treasury securities, and government agency bonds; their fair value is calculated using an interest rate yield curve for similar instruments.

5. Cash, Cash Equivalents, and Investments

Cash and cash equivalents consist of highly liquid investments with maturities of three months or less at date of purchase. Cash equivalents are carried at cost, which approximates their fair market value. Cash and cash equivalents consisted of the following:

	June 30, December 31,	
	2018	2017
Cash	\$18,851	\$ 18,811
Money market funds	11,418	7,155
Total cash and cash equivalents	\$30,269	\$ 25,966

The Company's short-term and long-term investments are accounted for as available for sale securities. These investments are recorded at fair value with the related unrealized gains and losses included in accumulated other comprehensive income, a component of stockholders' equity, net of tax. The cumulative unrealized loss, net of taxes, was \$6 and \$17 as of June 30, 2018 and December 31, 2017, respectively. Realized gains and losses on the sale of these investments are determined using the specific identification method. There were no realized gains or losses during the six months ended June 30, 2018 or 2017.

Short-term and long-term investments consisted of the following:

	June 30, 2018			
	Gross		Gross	
	Amortized	Unrealized	Unrealized	Estimated
	Cost	Gains	Losses	Fair
				Value
Short-term and long-term investments:				
U.S. Treasury securities	\$999	\$ —	\$ (4)	\$ 995
Government agency bonds	1,001	—	(3)	998
Municipal bonds	1,518	—	(3)	1,515
Corporate bonds	500	—	(2)	498
Total short-term and long-term investments	\$4,018	\$ —	\$ (12)	\$ 4,006

	December 31, 2017			
	Gross		Gross	
	Amortized	Unrealized	Unrealized	Estimated
	Cost	Gains	Losses	Fair
				Value
Short-term and long-term investments:				
U.S. Treasury securities	\$1,499	\$ —	\$ (6)	\$ 1,493

Edgar Filing: TechTarget Inc - Form 10-Q

Government agency bonds	1,003	—	(4)	999
Municipal bonds	4,169	—	(14)	4,155
Corporate bonds	1,502	—	(3)	1,499
Total short-term and long-term investments	\$8,173	\$	—	\$ (27) \$ 8,146

The Company had eight debt securities in an unrealized loss position at June 30, 2018. All of these securities have been in such a position for no more than twenty-three months. The unrealized loss on those securities was approximately \$12 and the fair value was \$4.0 million. At December 31, 2017, the Company had fifteen debt securities in an unrealized loss position, and the unrealized loss on those securities was approximately \$27, and the fair value was \$8.1 million at that date. The Company uses specific identification when reviewing these investments for impairment. Because the Company does not intend to sell the investments that are in an unrealized loss position and it is not likely that the Company will be required to sell any investments before recovery of their cost basis, the Company does not consider those investments with an unrealized loss to be other-than-temporarily impaired at June 30, 2018.

The Company's investments have contractual maturity dates that range from August 2018 to January 2019. All income generated from these investments is recorded as interest income.

6. Goodwill and Intangible Assets

The following table summarizes the Company's intangible assets, net:

	June 30, 2018			
	Estimated	Gross		
	Useful	Carrying		
	Lives	Amount	Amortization	Net
	(Years)			
Customer, affiliate and advertiser relationships	5	\$6,910	\$ (6,910)	\$—
Developed websites, technology and patents	10	1,308	(926)	382
Trademark, trade name and domain name	8	1,790	(1,733)	57
Proprietary user information database and internet traffic	5	1,188	(1,188)	—
Total intangible assets		\$11,196	\$ (10,757)	\$439

	December 31, 2017			
	Estimated	Gross		
	Useful	Carrying		
	Lives	Amount	Amortization	Net
	(Years)			
Customer, affiliate and advertiser relationships	5	\$6,938	\$ (6,938)	\$—
Developed websites, technology and patents	10	1,342	(907)	435
Trademark, trade name and domain name	8	1,802	(1,731)	71
Proprietary user information database and internet traffic	5	1,202	(1,202)	—
Total intangible assets		\$11,284	\$ (10,778)	\$506

Intangible assets are amortized over their estimated useful lives, which range from five to ten years, using methods of amortization that are expected to reflect the estimated pattern of economic use. The remaining amortization expense will be recognized over a weighted-average period of approximately 2.82 years. Amortization expense was \$0.1 million for each of the six months ended June 30, 2018 and 2017. Amortization expense is recorded within operating expenses as the intangible assets consist of customer-related assets which generate website traffic that the Company considers to be in support of selling and marketing activities. The Company did not write off any fully amortized intangible assets in the first six months of 2018. The change in the gross carrying amount of intangible assets during the six months ended June 30, 2018 was due to foreign currency translation gains and losses.

The Company expects amortization expense of intangible assets to be as follows:

Years Ending December 31: Amortization

	Expense
2018 (July 1 – December 31)	\$ 54
2019	91
2020	77
2021	93
2022	124
Total	\$ 439

Goodwill and indefinite-lived intangible assets are not amortized but are reviewed annually for impairment or more frequently if impairment indicators arise. The Company did not have any intangible assets other than goodwill with indefinite lives as of June 30, 2018 or December 31, 2017. There were no indications of impairment as of June 30, 2018, and the Company believes that, as of the balance sheet dates presented, none of the Company's goodwill or intangible assets was impaired.

7. Net Income Per Common Share

A reconciliation of the numerator and denominator used in the calculation of basic and diluted net income per common share is as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2018	2017	2018	2017
Numerator:				
Net income	\$4,420	\$1,361	\$6,514	\$1,332
Denominator:				
Basic:				
Weighted average shares of common stock and vested,				
undelivered restricted stock units outstanding	27,541,273	27,476,869	27,526,977	27,504,573
Diluted:				
Weighted average shares of common stock and vested,				
undelivered restricted stock units outstanding	27,541,273	27,476,869	27,526,977	27,504,573
Effect of potentially dilutive shares (1)	1,218,052	856,510	1,137,494	756,471
Total weighted average shares of common stock and vested,				
undelivered restricted stock units outstanding and potentially				
dilutive shares	28,759,325	28,333,379	28,664,471	28,261,044
Net Income Per Share:				
Basic net income per share	\$0.16	\$0.05	\$0.24	\$0.05
Diluted net income per share	\$0.15	\$0.05	\$0.23	\$0.05

(1) In calculating diluted net income per share, 20,000 shares related to outstanding stock options and unvested, undelivered restricted stock units were excluded for each of the three and six months ended June 30, 2018, and 0.3 million shares related to outstanding stock options and unvested, undelivered restricted stock units were excluded for each of the three and six months ended June 30, 2017 because including them would have been anti-dilutive.

8. Term Loan Agreement

On May 9, 2016, the Company entered into a Senior Secured Credit Facilities Credit Agreement for a term loan (the "Term Loan Agreement"). Under the Term Loan Agreement, the Company borrowed and received \$50.0 million in aggregate principal amount pursuant to a five-year term loan (the "Term Loan"). The borrowings under the Term Loan Agreement are secured by a lien on substantially all of the assets of the Company, including a pledge of the stock of certain of its wholly-owned subsidiaries. As of June 30, 2018, the carrying amount of the Term Loan was \$27.3 million.

At the Company's option, the Term Loan Agreement bears interest at either an annual rate of 1.50% plus the higher of (a) the Prime Rate in effect on such day and (b) the Federal Funds Effective Rate in effect on such day plus 0.50%, or

the London Interbank Offered Rate (“LIBOR”) plus 2.50%. The applicable interest rate was 4.46% at June 30, 2018, representing LIBOR plus the applicable margin of 2.50%. Interest expense under the Term Loan Agreement was \$0.7 million during each of the six months ended June 30, 2018 and 2017. This includes non-cash interest expense of \$56 and \$53 for the six months ended June 30, 2018 and 2017, respectively, related to the amortization of deferred issuance costs. During the six months ended June 30, 2018, the Company made principal payments totaling \$5.0 million.

The Term Loan Agreement requires the Company to maintain compliance with certain covenants, including leverage and fixed charge coverage ratio covenants. At June 30, 2018, the Company was in compliance with all covenants under the Term Loan Agreement.

9. Commitments and Contingencies

Operating Leases

The Company conducts its operations in leased office facilities under various noncancelable operating lease agreements that expire through December 2029.

The lease for the Company's Newton office contains rent concessions, which the Company is receiving over the life of the lease. Certain of the Company's operating leases include lease incentives and escalating payment amounts and are renewable for varying periods. The Company is recognizing the related rent expense on a straight-line basis over the term of each lease, taking into account the lease incentives and escalating lease payments. Total rent expense under the Company's leases was approximately \$2.0 million and \$2.3 million for the six months ended June 30, 2018 and 2017, respectively.

Future minimum lease payments under the Company's noncancelable operating leases at June 30, 2018 are as follows:

Minimum Lease	
Years Ending December 31:	Payments
2018 (July 1 – December 31)	\$ 2,150
2019	4,184
2020	3,641
2021	3,736
2022	3,397
Thereafter	24,664
Total	\$ 41,772

Litigation

From time to time and in the ordinary course of business, the Company may be subject to various claims, charges, and litigation. At June 30, 2018 and December 31, 2017, the Company did not have any pending claims, charges, or litigation that it expects would have a material adverse effect on its consolidated financial position, results of operations, or cash flows.

10. Stock-Based Compensation

Stock Option and Incentive Plans

In April 2007, the Board approved the 2007 Stock Option and Incentive Plan (the "2007 Plan"), which was approved by the stockholders of the Company and became effective upon the consummation of the Company's IPO in May 2007. The 2007 Plan allowed the Company to grant ISOs, NSOs, stock appreciation rights, deferred stock awards, restricted stock units and other awards. Under the 2007 Plan, stock options could not be granted at less than fair market value on the date of grant, and grants generally vested over a three- to four-year period. Stock options granted under the 2007 Plan expire no later than ten years after the grant date. Additionally, beginning with awards made in August 2015, the Company had the option to direct a net issuance of shares for satisfaction of tax liability with respect to vesting of awards and delivery of shares. Prior to August 2015, this choice of settlement method was solely at the discretion of

the award recipient.

At the inception of the plan, the Company reserved for issuance an aggregate of 2,911,667 shares of common stock under the 2007 Plan, which expired in May 2017. The 2007 Plan was subject to an automatic annual increase of shares on January 1 of each year, beginning on January 1, 2008, equal to the lesser of (a) 2% of the outstanding number of shares of common stock (on a fully-diluted basis) on the immediately preceding December 31 and (b) such lower number of shares as may be determined by the compensation committee of the Board. The number of shares available for issuance under the 2007 Plan was subject to adjustment in the event of a stock split, stock dividend or other change in capitalization. Approximately 8,224,334 shares were added to the 2007 Plan in accordance with the automatic annual increase and other provisions. No new awards may be granted under the 2007 Plan; however, the shares of common stock remaining in the 2007 Plan are available for issuance in connection with previously awarded grants under the 2007 Plan. There are 922,715 shares of common stock that remain subject to outstanding stock grants under the 2007 Plan as of June 30, 2018.

In March 2017, the Board approved the 2017 Stock Option and Incentive Plan (the “2017 Plan”), which was approved by the stockholders of the Company at the 2017 Annual Meeting and became effective June 16, 2017. The 2017 Plan replaces the Company’s 2007 Plan. On that date, approximately 3,000,000 shares of Common Stock were reserved for issuance under the 2017 Plan and, generally, shares that are forfeited or canceled from awards under the 2017 Plan also will be available for future awards. Under the 2017 Plan, the Company may grant restricted stock and restricted stock units, non-qualified stock options, stock appreciation rights,

performance awards, and other stock-based and cash-based awards. Grants generally vest in equal tranches over a three-year period. Stock options granted under the 2017 Plan expire no later than ten years after the grant date. Shares of stock issued pursuant to restricted stock awards are restricted in that they are not transferable until they vest. Stock underlying awards of restricted stock units are not issued until the units vest. Non-qualified stock options cannot be exercised until they vest. Under the 2017 Plan, all stock options and stock appreciation rights must be granted with an exercise price that is at least equal to the fair market value of the stock on the date of grant. The 2017 Plan broadly prohibits the repricing of options and stock appreciation rights without stockholder approval and requires that no dividends or dividend equivalents be paid with respect to options or stock appreciation rights. The 2017 Plan further provides that, in the event any dividends or dividend equivalents are declared with respect to restricted stock, restricted stock units, other stock-based awards and performance awards (referred to as “full-value awards”), they would be subject to the same vesting and forfeiture provisions as the underlying award. There is a total of 700,000 shares of common stock that remain subject to outstanding stock grants under the 2017 Plan as of June 30, 2018.

Accounting for Stock-Based Compensation

The Company uses the Black-Scholes option pricing model to calculate the grant date fair value of an award.

The expected volatility of options granted has been determined using a weighted average of the historical volatility of the Company’s stock for a period equal to the expected life of the option. The expected life of options has been determined utilizing the “simplified” method. The risk-free interest rate is based on a zero coupon U.S. treasury instrument whose term is consistent with the expected life of the stock options. The Company has not paid and does not anticipate paying cash dividends on its shares of common stock; therefore, the expected dividend yield is assumed to be zero. The Company applied an estimated annual forfeiture rate based on historical averages in determining the expense recorded in each period.

A summary of the stock option activity under the Company’s plans for the six months ended June 30, 2018 is presented below:

Year-to-Date Activity	Options Outstanding	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term and Aggregate Intrinsic Value	
			Years	Intrinsic Value
Options outstanding at December 31, 2017	344,090	\$ 6.41		
Granted	20,000	28.42		
Exercised	(155,375)	5.68		\$ 2,372
Forfeited	—	—		
Cancelled	—	—		
Options outstanding at June 30, 2018	208,715	\$ 9.05	4.39	\$ 4,038
Options exercisable at June 30, 2018	168,715	\$ 6.61	3.17	\$ 3,677
Options vested or expected to vest at June 30, 2018	204,803	\$ 8.86	4.29	\$ 4,003

The total intrinsic value of options exercised (i.e. the difference between the market price at exercise and the price paid by the employee to exercise the options) was \$2.4 million and \$0.2 million during the six months ended June 30, 2018 and June 30, 2017, respectively. The total amount of cash received from exercise of these options was approximately \$0.9 million and \$0.3 million during the six months ended June 30, 2018 and 2017, respectively.

Restricted Stock Units

Restricted stock units are valued at the market price of a share of the Company's common stock on the date of the grant. A summary of the restricted stock unit activity under the Company's plans for the six months ended June 30, 2018 is presented below:

Year-to-Date Activity	Shares	Weighted-Average Grant Date Fair Value Intrinsic	
		Per Share	Value
Nonvested outstanding at December 31, 2017	1,414,000	\$ 9.37	
Granted	—	—	
Vested	—	—	
Forfeited	—	—	
Nonvested outstanding at June 30, 2018	1,414,000	\$ 9.37	\$ 40,158

There were no restricted stock units that vested during the three months ended June 30, 2018 or 2017.

As of June 30, 2018, there was \$8.4 million of total unrecognized compensation expense related to stock options and restricted stock units, which is expected to be recognized over a weighted average period of 1.4 years.

11. Stockholders' Equity

Reserved Common Stock

As of June 30, 2018, the Company has reserved 8,377,247 shares of common stock for use in settling outstanding options and unvested restricted stock units that have not been issued as well as future awards available for grant under the 2017 Plan.

Common Stock Repurchase Program

In June 2016, the Company announced that the Board had authorized a \$20.0 million stock repurchase program (the "Repurchase Program"), whereby the Company was authorized to repurchase the Company's common stock from time to time on the open market or in privately negotiated transactions at prices and in the manner determined by the Board. On May 5, 2017, the Company's Board reauthorized the common stock repurchase program to allow the Company to use the remaining balance of the unused authorization under the Repurchase Program after its original expiration in June 2017. The reauthorized program allows the Company to repurchase its common stock from time to time on the open market or in privately negotiated transactions at prices and in the manner that may be determined by management. The reauthorized program has no time limit and may be suspended at any time. Additionally, the Company may establish, from time to time, 10b5-1 trading plans that will provide flexibility as it buys back its shares.

Pursuant to the Repurchase Program, the Company repurchased 112,303 and 243,214 shares of common stock for an aggregate purchase price of \$1.6 million and \$2.1 million in the six months ended June 30, 2018 and 2017, respectively. As of June 30, 2018, the Company had \$2.4 million remaining for purchases under the Repurchase Program.

Repurchased shares are recorded under the cost method and are reflected as treasury stock in the accompanying Consolidated Balance Sheets. All share repurchases were funded with cash on hand.

12. Income Taxes

The Company's effective income tax rate before discrete items was 27.5% and 44.8% for the six months ended June 30, 2018 and 2017, respectively. The Company recognized income tax benefits for discrete items of \$0.6 million and \$0.2 million during the six months ended June 30, 2018 and 2017, respectively. The Company measures its interim period tax expense using an estimated annual effective tax rate and adjustments for discrete taxable events that occur during the interim period. The estimated annual effective income tax rate is based upon the Company's estimations of annual pre-tax income, the geographic mix of pre-tax income, and its interpretations of tax laws. The Company updates the estimate of its annual effective tax rate at the end of each quarterly period. The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense.

In December 2017, the legislation commonly referred to as the Tax Cuts and Jobs Act of 2017 (the "Act") was signed into law making significant changes to the Internal Revenue Code. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017 and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017.

On December 22, 2017, Staff Accounting Bulletin No. 118 was issued to address the application of US GAAP in situations when a registrant does not have the necessary information available, prepared or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Act. In the first quarter of 2018, the Company obtained additional information affecting the provisional amount initially recorded for the transition tax for the three months ended December 31, 2017. As a result, the Company recorded an immaterial adjustment to the transition tax. Additional analysis of historical foreign earnings is necessary to complete the calculation of the transition tax. Any subsequent adjustment to the amount will be recorded to current tax expense in the quarter of 2018 when the analysis is complete.

In the first quarter of 2017, the Company adopted ASU 2016-09, which requires that all excess tax benefits and tax deficiencies related to stock compensation be recognized as income tax expense or benefit in the Consolidated Statements of Income and Comprehensive Income in the period incurred. The Company recognized \$0.6 million and \$0.1 million of income tax benefits from excess deductions net of shortfalls during the six months ended June 30, 2018 and 2017, respectively. As part of adopting ASU 2016-09, the Company recorded deferred tax assets for the federal and state excess tax benefit net operating losses in the amount of \$0.2 million, with an offsetting entry to retained earnings.

13. Segment Information

The Company views its operations and manages its business as one operating segment based on factors such as how the Company manages its operations and how its executive management team reviews results and makes decisions on how to allocate resources and assess performance.

Geographic Data

Net sales to unaffiliated customers by geographic area were as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2018	2017	2018	2017
United States	\$23,270	\$18,810	\$42,960	\$35,995
United Kingdom	3,894	3,246	7,249	5,641
Other international	4,308	4,608	8,562	8,605
Total	\$31,472	\$26,664	\$58,771	\$50,241

Long-lived assets by geographic area were as follows:

	June 30,	December 31,
	2018	2017
United States	\$100,200	\$98,683
International	5,211	5,402

Total	\$ 105,411	\$ 104,085
-------	------------	------------

Net sales to unaffiliated customers by geographic area is based on the customers' current billing addresses, and does not consider the geo-targeted (target audience) location of the campaign. Long-lived assets are comprised of property and equipment, net; goodwill; and intangible assets, net. No single country outside of the U.S. accounted for 10% or more of the Company's long-lived assets during either of these periods.

14. Subsequent Event

On August, 1 2018, the Company acquired certain of the operating assets associated with the business-to-business contact management provider Oceanos Marketing, Inc., for total consideration of \$0.6 million. The consideration is subject to post-closing adjustments of up to a \$0.2 million reduction in consideration. The Company expects the acquisition to be neutral to slightly accretive to earnings for the Company in 2018.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and accompanying notes included elsewhere in this Quarterly Report on Form 10-Q. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors including those discussed below in this Quarterly Report on Form 10-Q, in our Annual Report on Form 10-K for the year ended December 31, 2017 under Part I, Item 1A, “Risk Factors,” and in the other documents we file with the Securities and Exchange Commission. Please refer to our “Forward-Looking Statements” section on page 30.

Overview

Background

We are a Delaware corporation incorporated on September 14, 1999. Through continued innovation around our specialized online content for buyers of enterprise information technology (“IT”), we have become a global leader in purchase intent-driven marketing and sales services that deliver business impact for enterprise technology vendors. Our offerings enable technology vendors to better identify, reach and influence corporate IT decision makers actively researching specific IT purchases. We improve vendors’ ability to impact these audiences for business growth using advanced targeting, analytics, and data services complemented with customized marketing programs that integrate demand generation and brand marketing and advertising techniques.

IT and business professionals have become increasingly specialized, and because each of the websites within our network of over 140 websites focuses on a specific IT sector such as storage, security, networking, or business applications, IT and business professionals rely on us for key decision support information tailored to their specific areas of responsibility.

We enable IT and business professionals to navigate the complex and rapidly-changing IT landscape where purchasing decisions can have significant financial and operational consequences. Our content strategy includes three primary sources which IT and business professionals use to assist them in their pre-purchase research: independent content provided by our professionals, vendor-generated content provided by our customers and member-generated, or peer-to-peer, content. In addition to utilizing our independent editorial content, registered members appreciate the ability to deepen their pre-purchase research by accessing the extensive vendor supplied content available across our website network. Likewise, these members derive significant additional value from the ability our network provides to seamlessly interact with and contribute to information exchanges in a given field.

We had approximately 19.5 million and 18.7 million registered members – our “audiences” – as of June 30, 2018 and 2017, respectively. While the size of our registered member base does not provide direct insight into our customer numbers or our revenues, the value of our services sold to our customers is a direct result of the breadth and reach of this content footprint. This footprint creates the opportunity for our clients to gain business leverage by targeting our audiences through customized marketing programs. Likewise, the behavior exhibited by these audiences enables us to provide our customers with data products to improve their marketing and sales efforts. The targeted nature of our member base enables IT vendors to reach a specialized audience efficiently because our content is highly segmented and aligned with the IT vendors’ specific products. With it, we have developed a broad customer base and, in 2018 expect to deliver marketing and sales services programs to approximately 1,300 customers.

Executive Summary

Our revenues for the six months ended June 30, 2018 increased by \$8.5 million, or 17%, to \$58.8 million, compared with the same period in 2017, driven by both higher IT Deal AlertTM revenues and higher revenues from our Core Online offerings. IT Deal Alert revenues were up 26% in the first six months of 2018, compared to the first six months of 2017, and quarterly IT Deal Alert revenues topped \$10.0 million for the fifth consecutive quarter. Revenues from our Priority EngineTM product, which is a component of our IT Deal Alert offering, increased more than 80% in the first six months of 2018, compared to the first six months of 2017.

We continue to have success selling longer-term deals of approximately twelve months and, in the second quarter of 2018, 34% of our revenue was derived from longer-term contracts, compared to 21% in the second quarter of 2017. The amount of revenue that we derived from longer-term contracts in the second quarter of 2018 increased 85%, compared to the amount that we recognized in the second quarter of 2017.

We continue to benefit from our customers' increasing demand for purchase intent data to fuel their sales and marketing outreach. Another important factor in our revenue trajectory relates to the evolving way our customers use our purchase intent data relative to our Core Online offerings. Our IT Deal Alert offerings help customers identify "in-market" prospects for their products and services – our Core Online offerings help them reach, influence, and activate these prospects. A growing number of customers

purchase “always on” programs from us that combine these offerings to identify and influence active buyers throughout the year. The growth in our longer-term revenue component is evidence of our continued traction for these types of integrated programs. Customers also use our core and IT Deal Alert offerings in varying combinations to support quarterly sales and marketing campaigns. These purchases are more fluid – customers of this type may focus more on IT Deal Alert offerings in a particular campaign, and shift a subsequent program to accomplish outreach objectives like branding or lead generation. This creates a dynamic in which revenue may shift back and forth between the product categories. We think this will make the distinction between core and IT Deal Alert less useful over time.

Our international geo-targeted revenues, where our target audience is outside North America (“International”), increased 14% for the first six months of 2018, compared with the prior year period, primarily driven by international IT Deal Alert growth.

Gross profit percentage was 77% and 73% for the three months ended June 30, 2018 and 2017, respectively. Gross profit increased by \$4.8 million, due to the increase in revenues as compared to the same period a year ago.

Business Trends

The following discussion highlights key trends affecting our business.

Macro-economic Conditions and Industry Trends. Because most of our customers are IT vendors, the success of our business is intrinsically linked to the health, and subject to the market conditions, of the IT industry. We have benefitted from the tapering of some of the headwinds that temporarily disrupted marketing budgets such as the strong dollar and acquisition and divestiture activity among some of our largest customers. We feel that the investments we have made over the last several years have paid off in increased market share and that we will benefit significantly when marketing budgets start to grow again and there are new incremental budget dollars that we can compete for.

Brexit. The announcement of the results of the United Kingdom’s referendum in which voters approved an exit of the United Kingdom from the European Union, commonly referred to as “Brexit,” has resulted in significant general economic uncertainty as well as volatility in global stock markets and currency exchange rate fluctuations. In March 2017, the United Kingdom’s government initiated the exit process under Article 50 of the Lisbon Treaty, commencing a period of up to two years for the United Kingdom and other European Union member states to negotiate the terms of the withdrawal. While both parties have reported constructive progress with respect to the negotiations to date, continued uncertainty remains regarding the terms of the United Kingdom’s new partnership with the European Union and its member states. The overall impact of Brexit may create further global economic uncertainty, which may cause a subset of our customers to more closely monitor their costs in the affected region. Our revenues generated from customers who have billing addresses within the United Kingdom were approximately 10% of our total revenues for each of the six months ended June 30, 2018 and 2017.

Customer Demographics. In the three months ended June 30, 2018, online revenues from our ten major global customers, which we believe have the most significant international exposure, increased approximately 19% compared to the same period a year ago. Online revenues from our mid-sized customers (our largest 100 customers, excluding the ten major global customers described above, who we believe generally have less exposure internationally) increased by approximately 15% compared to the same period a year ago. Online revenues attributable to our smaller customers, which tend to be venture capital-backed start-ups that primarily operate in North America, increased by approximately 25% over the prior year period.

Our key strategic initiatives include:

Geographic. During the three months ended June 30, 2018, approximately 33% of our revenues were derived from International campaigns.

-

Product. IT Deal Alert revenues were approximately \$14.0 million in the three months ended June 30, 2018, up from approximately \$11.7 million in the same period in 2017. This includes International IT Deal Alert revenues of \$3.7 million, which is also included in International revenues as discussed above. In the second quarter of 2018, we had more than 600 active customers utilizing our IT Deal Alert products and services, up from more than 500 active customers in the second quarter of 2017. We expect IT Deal Alert to continue to be a meaningful growth driver through 2018.

Our Core Online revenues were up 16% in the second quarter of 2018 compared to the second quarter of 2017.

Sources of Revenues

Revenue changes for the three and six month period ended June 30, 2018, as compared to the same periods in 2017, are shown in the table below. See Note 3 to our consolidated financial statements for additional information on our revenues.

	Three Months			Six Months Ended		
	Ended June 30, 2018	2017	Percent Change	June 30, 2018	2017	Percent Change
	(\$ in thousands)			(\$ in thousands)		
Revenues	\$31,472	\$26,664	18 %	\$58,771	\$50,241	17 %

We sell customized marketing programs to IT vendors targeting a specific audience within a particular IT or business sector or sub-sector. We maintain multiple points of contact with our customers to provide support throughout their organizations and their customers' IT sales cycles. As a result, our customers often run multiple advertising programs with us in order to target their desired audience of IT and business professionals more effectively. There are multiple factors that can impact our customers' marketing and advertising objectives and spending with us, including but not limited to, IT product launches, increases or decreases to their advertising budgets, the timing of key industry marketing events, responses to competitor activities and efforts to address specific marketing objectives such as creating brand awareness or generating sales leads. Our products and services are generally delivered under short-term contracts that run for the length of a given program, typically less than six months. In 2016, we began to enter into longer-term contracts with certain customers, and in the quarter ended June 30, 2018, approximately 34% of our revenues were from longer-term contracts of approximately twelve months. In the second quarter of 2018, demand generation and brand advertising remained our primary sources of revenues, while data analytics-driven intelligence solutions, driven by growth in our IT Deal Alert products and services, contributed approximately of 45% revenues as compared with approximately 44% for the same period in 2017.

Historically, we offered an events product line, which was phased out in the first quarter of 2017 and which did not generate material revenues or cost of revenues for any of the periods presented.

Product and Service Offerings

We use our product and service offerings to provide IT vendors with numerous touch points to identify, reach and influence key IT decision makers. The following is a description of the products and services we offer, which may be provided separately or combined as part of an integrated marketing campaign.

IT Deal Alert. IT Deal Alert is a suite of products and services for IT vendors that leverages the detailed purchase intent data that we collect about end-user IT and business organizations. Through proprietary scoring methodologies, we use this insight to help our customers identify and prioritize accounts whose content consumption around specific IT topics indicates that they are "in-market" for a particular product or service. We also use the data directly to identify and further profile accounts' upcoming purchase plans.

IT Deal Alert: Qualified Sales Opportunities™. Qualified Sales Opportunities is a product that profiles specific in-progress purchase projects, including information on scope and purchase considerations, in approximately 100 technology-specific segments.

-

IT Deal Alert: Priority Engine. Priority Engine is a subscription service powered by our Activity Intelligence™ platform, which integrates with customer relationship management and marketing automation platforms from salesforce.com, Marketo, Eloqua, Pardot, and Integrate. The service delivers information that enables marketers and sales personnel to identify and understand accounts and individuals actively researching new technology purchases and then to engage those active prospects within the organizations that are relevant to the purchase. We sell this service in approximately 200 technology-specific segments which our customers use for demand generation, account-based marketing and other marketing and sales activities.

IT Deal Alert: Deal Data™. Deal Data is a customized solution aimed at sales intelligence and data scientist functions within our customer organizations. It renders our Activity Intelligence data directly consumable by the customer's internal applications.

- IT Deal Alert: TechTarget Research™. TechTarget Research is a subscription product that sources proprietary information about purchase transactions from IT and business professionals who are making or have recently completed these purchases. The offering provides data on market trends, pricing dynamics and vendor win/loss and displacement trends.

Core Online. Our Core Online offerings enable our customers to reach and influence prospective buyers through content marketing programs designed to generate demand for their solutions, and through display advertising and other brand programs that influence consideration by prospective buyers.

Demand Solutions. Our suite of demand solutions offerings allows IT vendors to maximize return on investment by capturing sales leads from the distribution and promotion of content to our audience of IT and business professionals. Our demand solutions campaigns typically offer the Activity Intelligence Dashboard, a tool that gives our customers' marketers and sales representatives a near real-time view of their prospects including insights on the research activities of technology buying teams at the individual, team and account levels.

Our demand solutions offerings may also include the following program components:

• **White Papers.** White papers are technical documents created by IT vendors to describe business or technical problems which are addressed by the vendors' products or services. In a program that includes demand solutions, we post white papers on our relevant websites and our members receive targeted promotions about these content assets. Prior to viewing white papers, our registered members and visitors supply their corporate contact information and agree to receive further information from the vendor. The corporate contact and other qualification information for these leads are supplied to the vendor in real time through our proprietary lead management software.

• **Webcasts, Podcasts, Videocasts and Virtual Trade Shows.** Webcasts, podcasts, videocasts, virtual trade shows and similar content bring informational sessions directly to attendees' desktops and mobile devices. As is the case with white papers, our members supply their corporate contact and qualification information to the webcast, podcast, videocast or virtual trade show sponsor when they view or download the content. Sponsorship includes access to the registrant information and visibility before, during and after the event.

• **Content Sponsorships.** IT vendors, or groups of vendors, pay us to sponsor independent editorially created content vehicles on specific technology topics where the registrant information is then provided to all participating sponsors. In some cases, these vehicles are supported by multiple sponsors in a single segment, with the registrant information provided to all participating sponsors. Because these offerings are editorially driven, our customers get the benefit of association with independently created content as well as access to sales leads that are researching the topic.

Brand Solutions. Our suite of brand solutions offerings provides IT vendors exposure to targeted audiences of IT and business professionals actively researching information related to their products and services. We leverage our Activity Intelligence product framework to enable significant segmentation and targeting of specific audiences that can be accessed through these programs. Components of brand programs may include:

• **On-Network Branding.** These offerings enable our customers to influence prospective buyers through display advertising purchased on the websites we operate. Programs may include specific sites, or audience segments across our sites.

• **Off-Network Branding.** Our Off-Network offerings allow our customers to influence prospective buyers through display advertising when they are visiting other websites on the internet. We identify audience segments that can be targeted based on their activity and demonstrated interests against our content and websites, and offer an array of audience extension and retargeting solutions that leverage Activity Intelligence.

• **Microsites and Related Formats.** We have a range of solutions that create stand-alone websites for IT vendors, or "embedded" websites that exist within the context of our existing websites, to enable a more immersive experience for IT and business professionals with the content and brand messaging of the vendor.

Custom Content Creation. We will at times create white papers, case studies, webcasts, or videos to our customers' specifications through our Custom Content team. These customized content assets are then promoted to our audience within both demand solutions and brand solutions programs.

Cost of Revenues, Operating Expenses, and Other

Edgar Filing: TechTarget Inc - Form 10-Q

Expenses consist of cost of revenues, selling and marketing, product development, general and administrative, depreciation, amortization, and interest and other expense, net. Personnel-related costs are a significant component of each of these expense categories except for depreciation, amortization, and interest and other expense, net.

Cost Revenues. Cost of revenues consists primarily of: salaries and related personnel costs; member acquisition expenses (primarily keyword purchases from leading internet search sites); freelance writer expenses; website hosting costs; vendor expenses

associated with the delivery of webcast, podcast, videocast and similar content, and other offerings; stock-based compensation expenses; facility expenses, and other related overhead.

Selling and Marketing. Selling and marketing expenses consist primarily of: salaries and related personnel costs; sales commissions; travel-related expenses; stock-based compensation expenses; facility expenses and other related overhead. Sales commissions are recorded as expense when earned by the employee, based on recorded revenues.

Product Development. Product development includes the creation and maintenance of our network of websites, advertiser offerings and technical infrastructure. Product development expense consists primarily of salaries and related personnel costs; stock-based compensation expenses; facility expenses, and other related overhead.

General and Administrative. General and administrative expenses consist primarily of salaries and related personnel costs; facility expenses and related overhead; accounting, legal and other professional fees; and stock-based compensation expenses.

Depreciation. Depreciation expense consists of the depreciation of our property and equipment and other capitalized assets. Depreciation is calculated using the straight-line method over their estimated useful lives, ranging from three to twelve years.

Amortization of Intangible Assets. Amortization of intangible assets expense consists of the amortization of intangible assets recorded in connection with our acquisitions. Separable intangible assets that are not deemed to have an indefinite life are amortized over their estimated useful lives, which range from five to ten years, using methods that are expected to reflect the estimated pattern of economic use.

Interest and Other Income (Expense), Net. Interest and other expense, net consists primarily of interest costs and the related amortization of deferred issuance costs on amounts borrowed under our Senior Secured Credit Facilities Credit Agreement for a term loan (“Term Loan Agreement”) and amortization of premiums on our investments, less any interest income earned on cash, cash equivalents, and short-term and long-term investments. We historically have invested our cash in money market accounts, municipal bonds, government agency bonds, U.S Treasury securities and corporate bonds. Other expense, net consists of non-operating gains or losses, primarily related to realized and unrealized foreign currency gains and losses on trade assets and liabilities.

Application of Critical Accounting Policies and Use of Estimates

The discussion of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires us to make estimates, judgments and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to revenues, long-lived assets, goodwill, allowance for doubtful accounts, stock-based compensation, contingent liabilities, self-insurance accruals and income taxes. We based our estimates of the carrying value of certain assets and liabilities on historical experience and on various other assumptions that we believe to be reasonable. In some cases, changes in the accounting estimates are reasonably likely to occur from period to period. Our actual results may differ from these estimates under different assumptions or conditions.

Our critical accounting policies are those that affect our more significant judgments used in the preparation of our consolidated financial statements. A description of our critical accounting policies and estimates is contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Other than those noted in Note 2 to our consolidated financial statements, there were no material changes to our critical accounting policies and estimates

during the first six months of 2018.

Income Taxes

We are subject to income taxes in both the U.S. and foreign jurisdictions, and we use estimates in determining our provision for income taxes. We recognize deferred tax assets and liabilities based on temporary differences between the financial reporting and income tax bases of assets and liabilities using statutory rates.

Our deferred tax assets are comprised primarily of book to tax differences on stock-based compensation and timing of deductions for deferred rent, accrued expenses, depreciation and amortization. As of June 30, 2018, we had foreign net operating loss (“NOL”) carryforwards of \$0.7 million, which may be used to offset future taxable income in foreign jurisdictions until they expire at various dates through 2022. The deferred tax assets related to the foreign NOL carryforwards have been fully offset by a valuation allowance.

23

On December 22, 2017, the legislation commonly referred to as the Tax Cuts and Jobs Act of 2017 (the “Act”) was signed into law making significant changes to the Internal Revenue Code of 1986, as amended. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017. We have calculated our best estimate of the impact of the Act in our quarter end income tax provision in accordance with our understanding of the Act and guidance available as of the date of this filing and, as a result, have recorded \$14 thousand as additional income tax benefit in the first six months of 2018.

Results of Operations

The following table sets forth our results of operations for the periods indicated, including percentage of total revenues:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2018		2017		2018		2017	
	(\$ in thousands)				(\$ in thousands)			
Revenues	\$31,472	100%	\$26,664	100%	\$58,771	100%	\$50,241	100%
Cost of revenues	7,124	23 %	7,085	27 %	13,849	24 %	14,021	28 %
Gross profit	24,348	77 %	19,579	73 %	44,922	76 %	36,220	72 %
Operating expenses:								
Selling and marketing	11,419	36 %	10,745	40 %	22,774	39 %	21,438	43 %
Product development	2,069	7 %	2,016	8 %	4,187	7 %	3,959	8 %
General and administrative	3,327	11 %	3,198	12 %	6,726	11 %	6,254	12 %
Depreciation	1,112	4 %	1,093	4 %	2,192	4 %	2,184	4 %
Amortization of intangible assets	28	0 %	42	0 %	56	0 %	82	0 %
Total operating expenses	17,955	57 %	17,094	64 %	35,935	61 %	33,917	68 %
Operating income	6,393	20 %	2,485	9 %	8,987	15 %	2,303	5 %
Interest and other expense, net	(644)	(2)%	(94)	(0)%	(844)	(1)%	(257)	(1)%
Income before provision for income taxes	5,749	18 %	2,391	9 %	8,143	14 %	2,046	4 %
Provision for income taxes	1,329	4 %	1,030	4 %	1,629	3 %	714	1 %
Net income	\$4,420	14 %	\$1,361	5 %	\$6,514	11 %	\$1,332	3 %

Comparison of Three Months Ended June 30, 2018 and 2017

Revenues

	Three months ended June 30,		Increase (Decrease)	Percent Change
	2018	2017		
	(\$ in thousands)			
Revenues	\$31,472	\$26,664	\$ 4,808	18%

Revenues. The increase in revenues is attributable to increases from both our IT Deal Alert and Core Online product offerings.

Cost of Revenues and Gross Profit

	Three Months Ended June 30,		Increase (Decrease)	Percent Change
	2018	2017		
	(\$ in thousands)			
Cost of revenues	\$7,124	\$7,085	\$ 39	1 %
Gross profit	\$24,348	\$19,579	\$ 4,769	24 %
Gross profit percentage	77 %	73 %		

Cost of Revenues. Cost of revenues remained relatively flat in the second quarter of 2018 compared with the same period the prior year.

Gross Profit. Our gross profit is equal to the difference between our revenues and our cost of revenues for the period. Gross profit percentage was 77% for the second quarter of 2018 and 73% for the second quarter of 2017. Gross profit increased by \$4.8

million in the second quarter of 2018, as compared to the same period in 2017, primarily attributable to the increase in online revenues as compared to the same period a year ago. Because the majority of our costs are labor-related, we expect our gross profit to fluctuate from period to period depending on the total revenues for the period.

Operating Expenses and Other

	Three Months Ended June 30,			Percent Change
	2018	2017	Increase (Decrease)	
	(\$ in thousands)			
Operating expenses:				
Selling and marketing	\$11,419	\$10,745	\$ 674	6 %
Product development	2,069	2,016	53	3
General and administrative	3,327	3,198	129	4
Depreciation	1,112	1,093	19	2
Amortization of intangible assets	28	42	(14)	(33)
Total operating expenses	\$17,955	\$17,094	\$ 861	5 %
Interest and other expense, net	\$(644)	\$(94)	\$(550)	585 %
Provision for income taxes	\$1,329	\$1,030	\$ 299	29 %

Selling and Marketing. Selling and marketing expenses increased for the three months ended June 30, 2018, as compared to the three months ended June 30, 2017, primarily due to increases in employee-related expenses.

Product Development. Product development expense remained relatively flat for the three months ended June 30, 2018, compared with the same period in 2017.

General and Administrative. General and administrative expense increased for the three months ended June 30, 2018, compared to the same period in 2017, primarily due to an increase in variable compensation-related expenses.

Depreciation and Amortization. Depreciation expense remained relatively flat for the three months ended June 30, 2018 when compared to the same period in 2017. The decrease in amortization of intangible assets expense was attributable to the timing with which amortization expense for certain intangible assets is recorded.

Interest and Other Expense, Net. Interest and other expense, net increased for the three months ended June 30, 2018, compared with the same period in 2017, primarily due to fluctuations in currency exchange rates.

Provision for Income Taxes. Our effective tax rate was 23.1% and 43.1% for the three months ended June 30, 2018 and 2017, respectively. The effective tax rate differs from the statutory rate primarily due to permanent differences including non-deductible expenses, state income taxes, and foreign income taxes. These permanent differences may increase our tax expense on income or reduce our tax benefit on loss. The lower rate in the second quarter of 2018, as compared to same period in 2017, was primarily due to the impact of excess deductions from stock-based compensation in the second quarter of 2018 and to the reduction of the US corporate tax rate from 35% to 21% as a result of the enactment of the Act.

Comparison of Six Months Ended June 30, 2018 and 2017

Revenues

Six Months Ended June 30,
Increase Percent

2018 2017 (Decrease) Change
(\$ in thousands)

Revenues \$58,771 \$50,241 \$ 8,530 17%

Revenues. The increase in revenues is primarily attributable to an increase of \$5.6 million in revenues from our IT Deal Alert product offerings.

Cost of Revenues and Gross Profit

	Six Months Ended June 30,		Increase	Percent
	2018	2017	(Decrease)	Change
	(\$ in thousands)			
Cost of revenues	\$13,849	\$14,021	\$ (172)	(1)%
Gross profit	\$44,922	\$36,220	\$ 8,702	24 %
Gross profit percentage	76 %	72 %		

Cost of Revenues. Cost of revenues remained relatively flat in the first six months of 2018 compared with the same period the prior year.

Gross Profit. Our gross profit is equal to the difference between our revenues and our cost of revenues for the period. Gross profit percentage was 76% for the first six months of 2018 and 72% for the first six months of 2017. Gross profit increased by \$8.7 million in the six months ended June 30, 2018 compared to the same period in 2017, primarily attributable to the increase in revenues as compared to the same period a year ago. Because the majority of our costs are labor-related, we expect our gross profit to fluctuate from period depending on the total revenues for the period.

Operating Expenses and Other

	Six Months Ended June 30,		Increase	Percent
	2018	2017	(Decrease)	Change
	(\$ in thousands)			
Operating expenses:				
Selling and marketing	\$22,774	\$21,438	\$ 1,336	6 %
Product development	4,187	3,959	228	6
General and administrative	6,726	6,254	472	8
Depreciation	2,192	2,184	8	0
Amortization of intangible assets	56	82	(26)	(32)
Total operating expenses	\$35,935	\$33,917	\$ 2,018	6 %
Interest and other expense, net	\$(844)	\$(257)	\$(587)	228 %
Provision for income taxes	\$1,629	\$714	\$ 915	128 %

Selling and Marketing. Selling and marketing expenses increased for the six months ended June 30, 2018, as compared to the six months ended June 30, 2017, primarily due to increases in employee-related expenses.

Product Development. Product development expense increased for the six months ended June 30, 2018, compared with the same period in 2017, primarily due to a reduction in the amount of development costs that were capitalized year over year as some resources were dedicated to non-capitalized projects.

General and Administrative. General and administrative expense increased for the six months ended June 30, 2018, compared with the same period in 2017, primarily due to an increase in variable compensation-related expenses.

Depreciation and Amortization. Depreciation expense remained relatively flat for the six months ended June 30, 2018 when compared to the same period in 2017. The decrease in amortization of intangible assets expense was attributable to the timing with which amortization expense for certain intangible assets is recorded.

Interest and Other Expense, Net. Interest and other expense, net increased for the six months ended June 30, 2018, compared with the same period in 2017, primarily due to fluctuations in currency exchange rates.

Provision for Income Taxes. Our effective tax rate was 20.0% and 34.9% for the six months ended June 30, 2018 and 2017, respectively. The effective tax rate differs from the statutory rate primarily due to permanent differences including non-deductible expense, state income taxes, and foreign income taxes. These permanent differences may increase our tax expense on income or reduce our tax benefit on loss. The lower rate in the six months ended June 30, 2018, as compared to the same period in 2017 was primarily due to the impact of excess deductions from stock-based compensation in the second quarter of 2018 and to the reduction of the US corporate tax rate from 35% to 21% as a result of the enactment of the Act.

Seasonality

The timing of our revenues is affected by seasonal factors. Our revenues are seasonal primarily as a result of the annual budget approval process of many of our customers, the normal timing at which our customers introduce new products, and the historical decrease in advertising in summer months. The timing of revenues in relation to our expenses, many of which do not vary directly with revenues, has an impact on the cost of online revenues, selling and marketing, product development, and general and administrative expenses as a percentage of revenues in each calendar quarter during the year.

The majority of our expenses is personnel-related and includes salaries, stock-based compensation, benefits and incentive-based compensation plan expenses. As a result, we have not experienced significant seasonal fluctuations in the timing of our expenses period to period.

Liquidity and Capital Resources

Resources

At June 30, 2018, our cash, cash equivalents, and investments totaled \$34.3 million, a \$0.2 million increase from December 31, 2017, primarily driven by cash generated from operations, partially offset by investment in property and equipment, principal payments on our term loan, and the repurchase of shares under our Repurchase Plan. We believe that our existing cash, cash equivalents, and investments and our cash flow from operating activities will be sufficient to meet our anticipated cash needs for at least the next twelve months. Our future working capital requirements will depend on many factors, including the operations of our existing business, our potential strategic expansion internationally, future acquisitions we might undertake, and the expansion into complementary businesses. To the extent that our cash and cash equivalents, investments and cash flow from operating activities are insufficient to fund our future activities, we may need to raise additional funds through bank credit arrangements or public or private equity or debt financings. We also may need to raise additional funds in the event we determine in the future to effect one or more additional acquisitions of businesses.

	June 30,	December 31,
	2018	2017
	(in thousands)	
Cash, cash equivalents and investments	\$34,275	\$ 34,112
Accounts receivable, net	\$28,438	\$ 29,601
Cash, Cash Equivalents, and Investments		

Our cash, cash equivalents, and investments at June 30, 2018 were held for working capital purposes. Our investments were primarily in money market accounts and municipal bonds. We do not enter into investments for trading or speculative purposes.

Accounts Receivable, Net

Our accounts receivable balance fluctuates from period to period, which affects our cash flow from operating activities. The fluctuations vary depending on the timing with which we meet our performance obligations and on the timing of our cash collections, as well as on changes to our allowance for doubtful accounts. We use days sales outstanding (“DSO”) as a measurement of the quality and status of our receivables. We define DSO as net accounts receivable at quarter end divided by total revenues for the applicable period, multiplied by the number of days in the applicable period. DSO was 82 days at June 30, 2018 and 90 days at December 31, 2017.

Cash Flows

	Six Months Ended June 30,	
	2018	2017
	(in thousands)	
Net cash provided by operating activities	\$10,741	\$6,558
Net cash provided by investing activities	\$78	\$1,548
Net cash used in financing activities	\$(6,465)	\$(5,121)

Operating Activities

Cash provided by operating activities primarily consists of net income adjusted for certain non-cash items including depreciation and amortization, the provision for bad debt, stock-based compensation, deferred income taxes, and the effect of changes in working capital and other activities. Cash provided by operating activities for the six months ended June 30, 2018 was \$10.7 million, compared to cash provided by operating activities of \$6.6 million for the six months ended June 30, 2017.

The increase in cash provided by operating activities was primarily a result of an increase in revenue, partially offset by changes in operating assets and liabilities of \$(1.6) million compared to \$(0.8) million in the first six months of 2018 and 2017, respectively. Significant components of the changes in assets and liabilities in the first six months of 2018 included a \$2.3 million decrease in contract liabilities and a \$0.6 million decrease in accounts receivable.

Investing Activities

Cash provided by investing activities in the six months ended June 30, 2018 was \$0.1 million and was primarily a result of the proceeds from sales and maturities of investments, mostly offset by the purchase of property and equipment, primarily for leasehold improvements and internal-use software and website development costs and, to a lesser extent, computer equipment and related software. Cash provided by investing activities in the six months ended June 30, 2017 was \$1.5 million and was primarily a result of proceeds from sales and maturities of investments, partially offset by the purchase of property and equipment, which was made up primarily of internal-use software and website development costs, computer equipment, and related software. We capitalized internal-use software and website development costs of \$0.8 million for each of the three months ended June 30, 2018 and 2017, and \$1.5 million and \$1.6 million for the six months ended June 30, 2018 and 2017, respectively.

Financing Activities

In the first six months of 2018, we used \$6.5 million for financing activities, consisting primarily of \$5.0 million for the repayment of principal under the Term Loan and \$1.6 million for the purchase of treasury shares and related costs. In the first six months of 2017, we used \$5.1 million for financing activities, consisting primarily of \$2.5 million for the repayment of principal on the Term Loan and \$2.1 million for the purchase of treasury shares and related costs.

Common Stock Repurchase Program

In June 2016, we announced that our Board of Directors (our “Board”) had authorized a \$20.0 million stock repurchase program (the “June 2016 Repurchase Program”), whereby we were authorized to repurchase our common stock from

time to time on the open market or in privately negotiated transactions at prices and in the manner that may be determined by our Board.

On May 5, 2017, our Board reauthorized the common stock repurchase program to allow us to use the remaining balance of the unused authorization under the Repurchase Program after its original expiration in June 2017. The reauthorized program allows us to repurchase our common stock from time to time on the open market or in privately negotiated transactions at prices and in the manner that may be determined by our management. The reauthorized program has no time limit and may be suspended at any time. Additionally, we may establish, from time to time, 10b5-1 trading plans that will provide flexibility as we buy back our shares. As of June 30, 2018, we had \$2.4 million remaining for purchases under the Repurchase Program. During the three months ended June 30, 2018, we did not repurchase any shares of our common stock. During the six months ended June 30, 2018, we repurchased 112,303 shares of common stock for an aggregate purchase price of \$1.6 million, pursuant to the Repurchase Program. During the three and six months ended June 30, 2017, we repurchased 82,067 and 243,214 shares of common stock, respectively, for an aggregate purchase price of \$0.8 million and \$2.1 million, respectively, pursuant to the Repurchase Program.

Repurchased shares are recorded under the cost method and are reflected as treasury stock in our accompanying Consolidated Balance Sheets. All share repurchases were funded with cash on hand.

Term Loan and Credit Facility Borrowings

On May 9, 2016, we entered into the Term Loan Agreement, under which we borrowed \$50.0 million in aggregate principal amount pursuant to a five-year term loan (the “Term Loan”). The borrowings under the Term Loan Agreement are secured by a lien on substantially all of our assets, including a pledge of the stock of certain of our wholly-owned subsidiaries.

On June 22, 2017, we entered into a First Amendment to Credit Agreement with Silicon Valley Bank as Administrative Agent and Lender and the other lenders party from time to time thereto (the “First Amendment”). The First Amendment amends the existing Term Loan Agreement by, among other things, modifying the consolidated leverage ratio covenant and the liquidity requirement related to capital stock repurchases. Upon effectiveness of the First Amendment, our total consolidated leverage ratio (calculated in accordance with the Term Loan Agreement) may not be greater than 2.50 to 1.00 until the quarter ending March 31, 2018, with stepdowns thereafter to a maximum ratio of 1.50 to 1.00 for quarters ending on or after March 31, 2020. In addition, the minimum liquidity requirement (calculated in accordance with the Term Loan Agreement) with respect to any capital stock repurchased using borrowings under the Term Loan Agreement was increased from \$10.0 million to \$15.0 million.

Borrowings under the Term Loan Agreement must be repaid quarterly in the following manner: 2.5% of the initial aggregate borrowings are due and payable each quarter for the first loan year and 5.0% of the initial aggregate borrowings are due and payable each quarter during each subsequent loan year. At maturity, all outstanding amounts under the Term Loan Agreement will be due and payable.

The Term Loan Agreement requires us to maintain compliance with certain covenants, including leverage and fixed charge coverage ratio covenants. At June 30, 2018, we were in compliance with all covenants under the Term Loan Agreement.

At our option, the Term Loan Agreement bears interest at either an annual rate of 1.50% plus the higher of (a) the Prime Rate in effect on such day and (b) the Federal Funds Effective Rate in effect on such day plus 0.50%, or the London Interbank Offered Rate (“LIBOR”) plus 2.50%. As of June 30, 2018, the applicable interest rate was 4.46%, representing LIBOR plus the applicable margin of 2.50%. Interest expense under the Term Loan Agreement was \$0.3 million and \$0.7 million for the three and six months ended June 30, 2018, respectively, which includes non-cash interest expense related to the amortization of deferred issuance costs of \$28 thousand and \$56 thousand, respectively.

Borrowings under the Term Loan Agreement may be prepaid at our option without penalty and must be repaid upon the occurrence of certain events, including certain events of default.

We were required to pay a one-time upfront administration and arrangement fee on the closing date. Thereafter, a non-refundable fee will be due and payable on each anniversary of the effective date of the Term Loan Agreement. Total debt issuance costs paid in relation to the Term Loan Agreement were approximately \$0.4 million. The costs were recorded as a direct deduction from the carrying amount of the Term Loan and amortized as interest expense over the life of the Term Loan Agreement.

Capital Expenditures

We have made capital expenditures primarily for computer equipment and related software needed to host our websites, internal-use software development costs, as well as for leasehold improvements and other general purposes to support our growth. Our capital expenditures totaled \$4.0 million and \$2.0 million for the six month periods ended June 30, 2018 and 2017, respectively. A majority of our capital expenditures in the first six months of 2018 were for leasehold improvements and internal-use software and website development costs and, to a lesser extent, computer

equipment and related software. We capitalized internal-use software and website development costs of \$1.5 million and \$1.6 million for the six months ended June 30, 2018 and 2017, respectively. We are not currently party to any purchase contracts related to future capital expenditures.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Contractual Obligations

There were no material changes to our contractual obligations and commitments described under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2017.

Recent Accounting Pronouncements

See Note 2 and Note 3 to our consolidated financial statements for recent accounting pronouncements that could have an effect on us.

Forward Looking Statements

Certain information included in this Quarterly Report on Form 10-Q may contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act. All statements, other than statements of historical facts, included or referenced in this Quarterly Report on Form 10-Q that address activities, events or developments which we expect will or may occur in the future are forward-looking statements, including statements regarding the intent, belief or current expectations of the Company and members of our management team. The words “will,” “believe,” “intend,” “expect,” “anticipate,” “project,” “estimate,” “predict” and similar expressions are also intended to identify forward-looking statements. Such statements may include those regarding guidance on our future financial results and other projections or measures of our future performance; our expectations concerning market opportunities and our ability to capitalize on them; and the amount and timing of the benefits expected from acquisitions, new products or services and other potential sources of additional revenues. Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties. These statements speak only as of the date of this Quarterly Report on Form 10-Q and are based on our current plans and expectations, and they involve risks and uncertainties that could cause actual future events or results to be different than those described in or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to, those relating to: market acceptance of our products and services, including continued increased sales of our IT Deal Alert offerings and continued increased international growth; relationships with customers, strategic partners and employees; difficulties in integrating acquired businesses; changes in economic or regulatory conditions or other trends affecting the internet, internet marketing and advertising and IT industries; and other matters included in our filings with the Securities and Exchange Commission, including those detailed under Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the year ended December 31, 2017. Actual results may differ materially from those contemplated by the forward-looking statements. We undertake no obligation to update our forward-looking statements to reflect future events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss that may impact our financial position due to adverse changes in financial market prices and rates. Our market risk exposure is primarily a result of fluctuations in foreign exchange rates and interest rates. We do not hold or issue financial instruments for trading purposes.

Foreign Currency Exchange Risk

We currently have subsidiaries in the United Kingdom, Hong Kong, Australia, Singapore, Germany and France. Additionally, we have a wholly foreign-owned enterprise formed under the laws of the People's Republic of China ("PRC"), and a variable interest entity in Beijing, PRC. Approximately 26% of our revenues for the three months ended June 30, 2018 were derived from customers with billing addresses outside of the United States and our foreign exchange gains/losses were not significant. We currently believe our exposure to foreign currency exchange rate fluctuations, including any impact of the United Kingdom's decision to withdraw from the European Union, ("Brexit"), is financially immaterial and therefore have not entered into foreign currency hedging transactions. We continue to review this issue and may consider hedging certain foreign exchange risks through the use of currency futures or options in the future. The volatility of exchange rates depends on many factors that we cannot forecast with reliable accuracy. Our continued international expansion increases our exposure to exchange rate fluctuations and as a result such fluctuations could have a significant impact on our future results of operations.

Interest Rate Risk

At June 30, 2018, we had cash, cash equivalents, and investments totaling \$34.3 million. The investments were primarily in money market accounts and municipal bonds. The cash, cash equivalents, and investments were held for working capital purposes. We do not enter into investments for trading or speculative purposes. Due to the short-term nature of these investments, we believe that we do not have any material exposure to changes in the fair value of our investment portfolio as a result of changes in interest rates. Declines in interest rates, however, would reduce future investment income.

Our exposure to market risk also relates to interest expense on borrowings under the Term Loan Agreement. At our option, the borrowings under the Term Loan Agreement bear interest at either an annual rate of 1.50% plus the higher of (a) the Prime Rate in effect on such day and (b) the Federal Funds Effective Rate in effect for such day plus 0.50%, or the London Interbank Offered Rate ("LIBOR") plus 2.50% (see Note 8 to the consolidated financial statements). At June 30, 2018, there was \$27.5 million of aggregate principal amount outstanding under the Term Loan Agreement.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We are required to maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer) as appropriate, to allow timely decisions regarding required disclosure.

In connection with the preparation of the Quarterly Report on Form 10-Q for the period ended June 30, 2018, management, under the supervision of the Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), conducted an evaluation of disclosure controls and procedures as of June 30,

2018. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting, identified in connection with the evaluation of such internal control, that occurred during the second quarter of 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

We are not currently a party to any material legal proceedings and we are not aware of any pending or threatened litigation against us that could have a material adverse effect on our business, operating results or financial condition.

Item 1A. Risk Factors

Our business is subject to a number of risks, including those identified in Item 1A – “Risk Factors” of our 2017 Annual Report on Form 10-K, that could have a material effect on our business, results of operations, financial condition and/or liquidity and that could cause our operating results to vary significantly from period to period. As of June 30, 2018, there have been no material changes to the risk factors disclosed in our 2017 Annual Report on Form 10-K. We may disclose changes to any risk factors presented or disclose additional factors from time to time in our future filings with the Securities and Exchange Commission.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Sales of Unregistered Securities

None.

(b) Use of Proceeds from Registered Securities

None.

(c) Purchases of Equity Securities by the Issuer

None.

Item 6. Exhibits

The exhibits listed below are filed as part of this Quarterly Report on Form 10-Q.

Exhibit

No.	Description of Exhibit
31.1	<u>Certification of Michael Cotoia, Chief Executive Officer of TechTarget, Inc., pursuant to Rules 13a-14(a) and 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
31.2	<u>Certification of Daniel Noreck, Chief Financial Officer and Treasurer of TechTarget, Inc., pursuant to Rules 13a-14(a) and 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.</u>
