Notes to Consolidated Schedule of Investments:

Investments in bank debt generally are bought and sold among institutional investors in transactions not subject to (A) registration under the Securities Act of 1933. Such transactions are generally subject to contractual restrictions, such as approval of the agent or borrower.

Non-controlled affiliate – as defined under the Investment Company Act of 1940 (ownership of between 5% and (B) 25% of the outstanding voting securities of this issuer). See Consolidated Schedule of Changes in Investments in Affiliates.

(C) Non-income producing security.

(D) Principal amount denominated in foreign currency. Amortized cost and fair value converted from foreign currency to US dollars. Foreign currency denominated investments are generally hedged for currency exposure. At September 30, 2015, such hedging activities included the derivatives listed at the end of the Consolidated Schedule of Investments. (See Note 2)

(E) Restricted security. (See Note 2)

Controlled issuer – as defined under the Investment Company Act of 1940 (ownership of 25% or more of the (F) outstanding voting securities of this issuer). Investment is not more than 50% owned nor deemed to be a significant subsidiary. See Consolidated Schedule of Changes in Investments in Affiliates.

(G) Investment has been segregated to collateralize certain unfunded commitments.

(H) Non-U.S. company or principal place of business outside the U.S. and as a result the investment is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.

(I) Deemed an investment company under Section 3(c) of the Investment Company Act and as a result the investment is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.

(J) Publicly traded company with a market capitalization greater than \$250 million and as a result the investment is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, the Company may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of the Company's total assets.

(K) Negative balances relate to an unfunded commitment that was acquired and valued at a discount.

Edgar Filing: TCP Capital Corp. - Form 10-Q

(L) In addition to the stated coupon, investment has an exit fee payable upon repayment of the loan in an amount equal to the percentage of the original principal amount shown.

(M) All cash and investments, except those referenced in Notes G above, are pledged as collateral under certain debt as described in Note 4 to the Consolidated Financial Statements.

LIBOR or EURIBOR resets monthly (M), quarterly (Q), semiannually (S), or annually (A).

Aggregate acquisitions and aggregate dispositions of investments, other than government securities, totaled \$423,348,068 and \$305,505,796 respectively, for the nine months ended September 30, 2015. Aggregate acquisitions includes investment assets received as payment in kind. Aggregate dispositions includes principal paydowns on and maturities of debt investments. The total value of restricted securities and bank debt as of September 30, 2015 was \$1,268,961,209, or 97.3% of total cash and investments of the Company.

Options and swaps at September 30, 2015 were as follows:

Investment	Notional Amount	Fair Value
Interest Rate Cap with Deutsche Bank AG, 4%, expires 5/15/2016	\$25,000,000	\$-
Euro/US Dollar Cross-Currency Basis Swap with Wells Fargo Bank, N.A., Pay Euros/Receive USD, Expires 3/31/2017	\$16,401,467	\$2,868,748

1. Organization and Nature of Operations

TCP Capital Corp. (the “Company”) is a Delaware corporation formed on April 2, 2012 as an externally managed, closed-end, non-diversified management investment company. The Company elected to be treated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). The Company’s investment objective is to achieve high total returns through current income and capital appreciation, with an emphasis on principal protection. The Company invests primarily in the debt of middle-market companies as well as small businesses, including senior secured loans, junior loans, mezzanine debt and bonds. Such investments may include an equity component, and, to a lesser extent, the Company may make equity investments directly. The Company was formed through the conversion on April 2, 2012 of the Company’s predecessor, Special Value Continuation Fund, LLC, from a limited liability company to a corporation in a non-taxable transaction, leaving the Company as the surviving entity. On April 3, 2012, the Company completed its initial public offering.

Investment operations are conducted in Special Value Continuation Partners, LP, a Delaware limited partnership (the “Partnership”), of which the Company owns 100% of the common limited partner interests, or in one of the Partnership’s wholly owned subsidiaries, TCPC Funding I, LLC, a Delaware limited liability company (“TCPC Funding”) and TCPC SBIC, LP, a Delaware limited partnership (the “SBIC”). The Partnership has also elected to be treated as a BDC under the 1940 Act. The SBIC was organized in June 2013, and on April 22, 2014, received a license from the United States Small Business Administration (the “SBA”) to operate as a small business investment company under the provisions of Section 301(c) of the Small Business Investment Act of 1958. These consolidated financial statements include the accounts of the Company, the Partnership, TCPC Funding and the SBIC. All significant intercompany transactions and balances have been eliminated in the consolidation.

The Company has elected to be treated as a regulated investment company (“RIC”) for U.S. federal income tax purposes. As a RIC, the Company will not be taxed on its income to the extent that it distributes such income each year and satisfies other applicable income tax requirements. The Partnership, TCPC Funding, and the SBIC have elected to be treated as partnerships for U.S. federal income tax purposes.

The general partner of the Partnership is SVOF/MM, LLC, which also serves as the administrator of the Company and the Partnership (the “Administrator” or the “General Partner”). The managing member of the General Partner is Tennenbaum Capital Partners, LLC (the “Advisor”), which serves as the investment manager to the Company, the Partnership, TCPC Funding, and the SBIC. Most of the equity interests in the General Partner are owned directly or indirectly by the Advisor and its employees.

Company management consists of the Advisor and the Company’s board of directors. Partnership management consists of the General Partner and the Partnership’s board of directors. The Advisor and the General Partner direct and execute the day-to-day operations of the Company and the Partnership, respectively, subject to oversight from the respective board of directors, which sets the broad policies of the Company and performs certain functions required by the 1940 Act in the case of the Partnership. The board of directors of the Partnership has delegated investment management of the Partnership’s assets to the Advisor. Each board of directors consists of five persons, three of whom are independent.

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification (“ASC”) Topic 946, Financial Services – Investment Companies. The following is a summary of the significant accounting policies of the Company and the Partnership.

Reclassifications

Certain prior period amounts relating to lease income have been reclassified to conform to the current period presentation.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although management believes these estimates and assumptions to be reasonable, actual results could differ from those estimates and differences could be material.

Investment Valuation

The Company’s investments are generally held by the Partnership, TCPC Funding, or the SBIC. Management values investments at fair value in accordance with GAAP, based upon the principles and methods of valuation set forth in policies adopted by the board of directors. Fair value is generally defined as the amount for which an investment would be sold in an orderly transaction between market participants at the measurement date.

All investments are valued at least quarterly based on affirmative pricing or quotations from independent third- party sources, with the exception of investments priced directly by the Advisor which together comprise, in total, less than 5% of the capitalization of the Partnership. Investments listed on a recognized exchange or market quotation system, whether U.S. or foreign, are valued for financial reporting purposes as of the last business day of the reporting period using the closing price on the date of valuation. Liquid investments not listed on a recognized exchange or market quotation system are valued using prices provided by a nationally recognized pricing service or by using quotations from broker-dealers.

Investments not priced by a pricing service or for which market quotations are either not readily available or are determined to be unreliable are priced at fair value using affirmative valuations performed by independent valuation services approved by the board of directors or, for investments aggregating less than 5% of the total capitalization of the Partnership, using valuations determined directly by the Advisor. Such valuations are determined under a documented valuation policy that has been reviewed and approved by the boards of directors.

2. Summary of Significant Accounting Policies (continued)

Pursuant to this policy, investment professionals of the Advisor provide recent portfolio company financial statements and other reporting materials to independent valuation firms as applicable, which firms evaluate such materials along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented and discussed with senior management of the Advisor. The audit committee of the board of directors discusses the valuations, and the board of directors approves the fair value of the investments in good faith based on the input of the Advisor, the respective independent valuation firms as applicable, and the audit committee of the board of directors.

Generally, to increase objectivity in valuing the investments, the Advisor will utilize external measures of value, such as public markets or third-party transactions, whenever possible. The Advisor's valuation is not based on long-term work-out value, immediate liquidation value, nor incremental value for potential changes that may take place in the future. The values assigned to investments that are valued by the Advisor are based on available information and do not necessarily represent amounts that might ultimately be realized, as these amounts depend on future circumstances and cannot reasonably be determined until the individual investments are actually liquidated. The foregoing policies apply to all investments, including those in companies and groups of affiliated companies aggregating more than 5% of the Company's assets.

Fair valuations of investments in each asset class are determined using one or more methodologies including the market approach, income approach, or, in the case of recent investments, the cost approach, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets. The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present value amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that may be taken into account include, as relevant: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparables, the principal market in which the investment trades and enterprise values, among other factors.

Investments may be categorized based on the types of inputs used in valuing such investments. The level in the GAAP valuation hierarchy in which an investment falls is based on the lowest level input that is significant to the valuation of the investment in its entirety. Transfers between levels are recognized as of the beginning of the reporting period.

2. Summary of Significant Accounting Policies (continued)

At September 30, 2015, the Company's investments were categorized as follows:

Level	Basis for Determining Fair Value	Bank Debt	Other Corporate Debt	Equity Securities
1	Quoted prices in active markets for identical assets	\$-	\$-	\$-
2	Other observable market inputs * Independent third-party pricing sources that employ significant	101,347,633	43,940,470	-
3	unobservable inputs	986,414,413	94,850,874	39,055,086
3	Advisor valuations with significant unobservable inputs	1,124,503	-	2,427,660
	Total	\$1,088,886,549	\$138,791,344	\$41,482,746

* For example, quoted prices in inactive markets or quotes for comparable investments

Unobservable inputs used in the fair value measurement of Level 3 investments as of September 30, 2015 included the following:

Asset Type	Fair Value	Valuation Technique	Unobservable Input	Range (Weighted Avg.)
Bank Debt	\$ 763,574,930	Market rate approach	Market yields	4.3% - 22.7%
	152,703,450	Market quotations	Indicative bid/ask quotes	(12.0%)
	45,619,986	Market comparable companies	Revenue multiples	1 - 4 (1) 0.4x - 5.8x
	25,640,550	Market comparable companies	EBITDA multiples	(3.0x) 3.3x - 16.5x
Other Corporate Debt	4,889,204	Market rate approach	Market yields	13.2%
	80,693,670	Market quotations	Indicative bid/ask quotes	(13.2%)

	\$ 1,123,872,536			(7.0x)

Generally, a change in an unobservable input may result in a change to the value of an investment as follows:

Input	Impact to Value if Input Increases	Impact to Value if Input Decreases
Market yields	Decrease	Increase
Revenue multiples	Increase	Decrease
EBITDA multiples	Increase	Decrease

Investment Transactions

Investment transactions are recorded on the trade date, except for private transactions that have conditions to closing, which are recorded on the closing date. The cost of investments purchased is based upon the purchase price plus those professional fees which are specifically identifiable to the investment transaction. Realized gains and losses on investments are recorded based on the specific identification method, which typically allocates the highest cost inventory to the basis of investments sold.

Cash and Cash Equivalents

Cash consists of amounts held in accounts with brokerage firms and the custodian bank. Cash equivalents consist of highly liquid investments with an original maturity of generally three months or less. Cash and cash equivalents are carried at amortized cost which approximates fair value. Cash equivalents are classified as Level 1 in the GAAP valuation hierarchy.

Restricted Investments

The Company may invest without limitation in instruments that are subject to legal or contractual restrictions on resale. These instruments generally may be resold to institutional investors in transactions exempt from registration or to the public if the securities are registered. Disposal of these investments may involve time-consuming negotiations and additional expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted investments is included at the end of the Consolidated Schedule of Investments. Restricted investments, including any

restricted investments in affiliates, are valued in accordance with the investment valuation policies discussed above.

2. Summary of Significant Accounting Policies (continued)

Foreign Investments

The Company may invest in instruments traded in foreign countries and denominated in foreign currencies. Foreign currency denominated investments comprised approximately 1.4% and 1.7% of total investments at September 30, 2015 and December 31, 2014, respectively. Such positions were converted at the respective closing foreign exchange rates in effect at September 30, 2015 and December 31, 2014 and reported in U.S. dollars. Purchases and sales of investments and income and expense items denominated in foreign currencies, when they occur, are translated into U.S. dollars based on the foreign exchange rates in effect on the respective dates of such transactions. The portion of gains and losses on foreign investments resulting from fluctuations in foreign currencies is included in net realized and unrealized gain or loss from investments.

Investments in foreign companies and securities of foreign governments may involve special risks and considerations not typically associated with investing in U.S. companies and securities of the U.S. government. These risks include, among other things, revaluation of currencies, less reliable information about issuers, different transaction clearance and settlement practices, and potential future adverse political and economic developments. Moreover, investments in foreign companies and securities of foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the U.S. government.

Derivatives

In order to mitigate certain currency exchange and interest rate risks, the Partnership has entered into certain swap and option transactions. All derivatives are reported at their gross amounts as either assets or liabilities in the Consolidated Statements of Assets and Liabilities. The transactions entered into are accounted for using the mark-to-market method with the resulting change in fair value recognized in earnings for the current period. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in interest rates and the value of foreign currency relative to the U.S. dollar. The Partnership is required under the terms of its derivative agreement to pledge assets as collateral to secure its obligation under the derivatives. As of September 30, 2015, \$492,045 of cash was pledged as collateral under the Partnership's derivative instrument.

The Partnership did not enter into any new derivative transactions during the nine months ended September 30, 2015. At September 30, 2015, the Partnership held an interest rate cap with a notional amount of \$25,000,000 and a cross currency basis swap with a notional amount of \$16,401,467. Gains and losses from derivatives during the nine months ended September 30, 2015 were included in net realized and unrealized loss on investments in the Consolidated Statements of Operations as follows:

Instrument	Realized Gains (Losses)	Unrealized Gains (Losses)
Cross currency basis swap	\$ -	\$ 1,151,138

Debt Issuance Costs

Costs of approximately \$1.6 million and \$1.5 million were incurred during 2015 and 2013, respectively, in connection with the amendment and extension of the Partnership's credit facility (see Note 4). Costs of approximately \$1.9 million, \$1.8 million and \$1.6 million were incurred during 2015, 2014 and 2013, respectively, in connection with placing and extending TCPC Funding's revolving credit facility (see Note 4). Costs of approximately \$3.4 million were incurred in 2014 in connection with placing the Company's unsecured convertible notes (see Note 4). Costs of approximately \$0.3 million and \$1.5 million were incurred during 2015 and 2014, respectively, in connection with placing the SBIC's SBA debentures (see Note 4). These costs were deferred and are being amortized on a straight-line basis over the estimated life of the respective instruments. The impact of utilizing the straight-line amortization method versus the effective-interest method is not material to the operations of the Company or the Partnership.

Revenue Recognition

Interest and dividend income, including income paid in kind, is recorded on an accrual basis. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts, earned with respect to capital commitments are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are recognized when receivable and are included in interest income.

Certain debt investments are purchased at a discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. GAAP generally requires that discounts on the acquisition of corporate bonds, municipal bonds and treasury bonds be amortized using the effective-interest or constant-yield method assuming there are no questions as to collectability. When principal

payments on a loan are received in an amount in excess of the loan's amortized cost, the excess principal payments are recorded as interest income.

2. Summary of Significant Accounting Policies (continued)

Income Taxes

The Company intends to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, pertaining to regulated investment companies and to make distributions of taxable income sufficient to relieve it from substantially all federal income taxes. Accordingly, no provision for income taxes is required in the consolidated financial statements. The income or loss of the Partnership, TCPC Funding and the SBIC is reported in the respective partners' income tax returns. In accordance with ASC Topic 740 – Income Taxes, the Company recognizes in its consolidated financial statements the effect of a tax position when it is determined that such position is more likely than not, based on the technical merits, to be sustained upon examination. As of September 30, 2015, all tax years of the Company, the Partnership, TCPC Funding and the SBIC since January 1, 2011 remain subject to examination by federal tax authorities. No such examinations are currently pending.

Cost and unrealized appreciation and depreciation of the Partnership's investments (including derivatives) for U.S. federal income tax purposes at September 30, 2015 and December 31, 2014 were as follows:

	September 30, 2015	December 31, 2014
Unrealized appreciation	\$39,427,027	\$32,342,656
Unrealized depreciation	(80,333,641)	(73,638,935)
Net unrealized depreciation	\$(40,906,614)	\$(41,296,279)

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Topic 605, Revenue Recognition. Under this new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 applies to all entities and, for public entities, is effective for annual periods beginning after December 15, 2017, and interim periods within those fiscal years. Early application is permitted, but no earlier than annual periods beginning after December 15, 2016 and interim periods within that reporting period. The Company is currently evaluating the impact this ASU will have on its consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, Interest – Imputation of Interest (Subtopic 835-30) - Simplifying the Presentation of Debt Issuance Costs, which generally requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability, consistent with the presentation of a debt discount. ASU 2015-03 is effective for annual periods beginning after December 15, 2015, and interim periods within those fiscal years. Early application is permitted. In August 2015, the FASB issued ASU 2015-15, Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements – Amendments to SEC Paragraphs Pursuant to Staff Announcement at June 18, 2015, which clarified the SEC staff's position on presenting

and measuring debt issuance costs incurred in connection with line-of-credit arrangements. ASU 2015-15 should be adopted concurrent with the adoption of ASU 2015-03. The Company does not expect adoption of this guidance to have a material impact on its consolidated financial statements.

3. Management Fees, Incentive Compensation and Other Expenses

The Company's management fee is calculated at an annual rate of 1.5% of total assets (excluding cash and cash equivalents) on a consolidated basis as of the beginning of each quarter and is payable to the Advisor quarterly in arrears.

Incentive compensation is only paid to the extent the total performance of the Company exceeds a cumulative 8% annual return since January 1, 2013 (the "Total Return Hurdle"). Beginning January 1, 2013, the incentive compensation equals 20% of net investment income (reduced by preferred dividends) and 20% of net realized gains (reduced by any net unrealized losses), subject to the Total Return Hurdle. The incentive compensation is payable quarterly in arrears as an allocation and distribution to the General Partner and is calculated as the difference between cumulative incentive compensation earned since January 1, 2013 and cumulative incentive compensation paid since January 1, 2013. A reserve for incentive compensation is accrued based on the amount of additional incentive compensation that would have been distributable to the General Partner assuming a hypothetical liquidation of the Company at net asset value on the balance sheet date. The General Partner's equity interest in the Partnership is comprised entirely of such reserve amount, if any, and is reported as a non-controlling interest in the consolidated financial statements of the Company. As of September 30, 2015 and December 31, 2014, no such reserve was accrued.

The Company and the Partnership bear all respective expenses incurred in connection with the business of the Company and the Partnership, including fees and expenses of outside contracted services, such as custodian, administrative, legal, audit and tax preparation fees, costs of valuing investments, insurance costs, brokers' and finders' fees relating to investments, and any other transaction costs associated with the purchase and sale of investments.

4. Leverage

Leverage is comprised of convertible senior unsecured notes issued by the Company (the "Convertible Notes"), amounts outstanding under a term loan issued by the Partnership (the "Term Loan"), amounts outstanding under a senior secured revolving credit facility issued by the Partnership (the "Revolving Credit Facility," and together with the Term Loan, the "Partnership Facility"), amounts outstanding under a senior secured revolving credit facility issued by TCPC Funding (the "TCPC Funding Facility"), debentures guaranteed by the SBA (the "SBA Debentures"), and amounts outstanding under a preferred equity facility issued by the Partnership (the "Preferred Interests") which were fully repurchased and retired by the Partnership on September 3, 2015.

Amounts outstanding under the Partnership Facility, the TCPC Funding Facility, the Convertible Notes and the SBA Debentures are carried at amortized cost in the Consolidated Statements of Assets and Liabilities. As of September 30, 2015, the estimated fair values of the Partnership Facility and the SBA Debentures approximated their carrying values, and the TCPC Funding Facility and Convertible Notes had estimated fair values of \$223.1 million and \$107.5 million, respectively. The estimated fair values of the Partnership Facility, the TCPC Funding Facility, the Convertible Notes and the SBA Debentures are determined by discounting projected remaining payments using market interest rates for borrowings of the Company and entities with similar credit risks at the measurement date. At September 30, 2015, the fair values of the Partnership Facility, the TCPC Funding Facility, the Convertible Notes and the SBA Debentures as prepared for disclosure purposes were deemed to be Level 3 in the GAAP valuation hierarchy.

Convertible Notes

On June 11, 2014, the Company issued \$108 million of convertible senior unsecured notes that mature on December 15, 2019, unless previously converted or repurchased in accordance with their terms. The Convertible Notes are general unsecured obligations of the Company, and rank structurally junior to the Partnership Facility and the TCPC Funding Facility. The Company does not have the right to redeem the Convertible Notes prior to maturity. The Convertible Notes bear interest at an annual rate of 5.25%, payable semi-annually. In certain circumstances, the Convertible Notes will be convertible into cash, shares of the Company's common stock or a combination of cash and shares of common stock (such combination to be at the Company's election), at an initial conversion rate of 50.9100 shares of common stock per one thousand dollar principal amount of the Convertible Notes, which is equivalent to an initial conversion price of approximately \$19.64 per share of common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 12.5% above the \$17.46 per share closing price of the Company's common stock on June 11, 2014. At September 30, 2015, the principal amount of the Convertible Notes exceeded the value of the conversion rate multiplied by the per share closing price of the Company's common stock. Therefore, no additional shares have been added to the calculation of diluted earnings per common share and weighted average common shares outstanding.

Prior to the close of business on the business day immediately preceding June 15, 2019, holders may convert their Convertible Notes only under certain circumstances set forth in the indenture governing the terms of the Convertible Notes (the "Indenture"). On or after June 15, 2019 until the close of business on the scheduled trading day immediately preceding December 15, 2019, holders may convert their Convertible Notes at any time. Upon conversion, the Company will pay or deliver, as the case may be, at its election, cash, shares of the Company's common stock or a

combination of cash and shares of the Company's common stock, subject to the requirements of the Indenture.

4. Leverage (continued)

The Convertible Notes are accounted for in accordance with ASC Topic 470-20 – Debt with Conversion and Other Options. Upon conversion of any Convertible Note, the Company intends to pay the outstanding principal amount in cash and to the extent that the conversion value exceeds the principal amount, has the option to pay the excess amount in cash or shares of common stock (or a combination of cash and shares), subject to the requirements of the Indenture. The Company has determined that the embedded conversion option in the Convertible Notes is not required to be separately accounted for as a derivative under GAAP. At the time of issuance the estimated values of the debt and equity components of the Convertible Notes were approximately 97.7% and 2.3%, respectively.

The original issue discount equal to the equity component of the Convertible Notes was recorded in “paid-in capital in excess of par” in the accompanying Consolidated Statements of Assets and Liabilities. As a result, the Company will record interest expense comprised of both stated interest and accretion of the original issue discount. At the time of issuance, the equity component was \$2,515,594. As of September 30, 2015, the components of the carrying value of the Convertible Notes were as follows:

Principal amount of debt	\$ 108,000,000
Original issue discount, net of accretion	(1,994,767)
Carrying value of debt	\$ 106,005,233

For the nine months ended September 30, 2015, the components of interest expense for the Convertible Notes were as follows:

Stated interest expense	\$4,252,500
Accretion of original issue discount	308,402
Total interest expense	\$4,560,902

The estimated effective interest rate of the debt component of the Convertible Notes, equal to the stated interest of 5.25% plus the accretion of the original issue discount, was approximately 5.75% for the nine months ended September 30, 2015.

Partnership Facility

The Partnership Facility consists of a \$100.5 million fully-drawn senior secured term loan and a senior secured revolving credit facility which provides for amounts to be drawn up to \$116 million, subject to certain collateral and other restrictions. The Partnership Facility matures on July 31, 2018. Most of the cash and investments held directly by the Partnership, as well as the net assets of TCPC Funding and the SBIC, are included in the collateral for the facility.

4. Leverage (continued)

Advances under the Partnership Facility through July 31, 2014 bore interest at an annual rate equal to 0.44% plus either LIBOR or the lender's cost of funds (subject to a cap of LIBOR plus 20 basis points). Advances under the Partnership Facility for periods from July 31, 2014 through September 3, 2015 bore interest at an annual rate equal to 2.5% plus either LIBOR or the lender's cost of funds (subject to a cap of LIBOR plus 20 basis points). Advances under the Partnership Facility from September 3, 2015 through July 31, 2016 bear interest at an annual rate equal to 1.75% plus either LIBOR or the lender's cost of funds (subject to a cap of LIBOR plus 20 basis points). Advances under the Partnership facility from July 31, 2016 through the maturity date of the facility will bear interest at an annual rate of 2.5% plus either LIBOR or the lender's cost of funds (subject to a cap of LIBOR plus 20 basis points). In addition to amounts due on outstanding debt, the Revolving Credit Facility accrues commitment fees of 0.20% per annum on the unused portion of the facility, or 0.25% per annum when less than \$46.4 million in borrowings are outstanding. The facility may be terminated, and any outstanding amounts thereunder may become due and payable, should the Partnership fail to satisfy certain financial or other covenants. As of September 30, 2015, the Partnership was in full compliance with such covenants.

SBA Debentures

As of September 30, 2015, the SBIC is able to issue up to \$75 million in SBA Debentures, subject to funded regulatory capital and other customary regulatory requirements. As of September 30, 2015, the Partnership had committed \$75 million of regulatory capital to the SBIC, \$58.0 million of which had been funded. SBA Debentures are non-recourse and may be prepaid at any time without penalty. Once drawn, the SBIC debentures bear an interim interest rate of LIBOR plus 30 basis points. The rate then becomes fixed at the time of SBA pooling, which occurs twice each year, and is set to the then-current 10-year treasury rate plus a spread and an annual SBA charge.

SBA Debentures outstanding as of September 30, 2015 were as follows:

Issuance Date	Maturity	Debenture Amount	Fixed Interest Rate	SBA Annual Charge
September 24, 2014	September 1, 2024	\$18,500,000	3.02 %	0.36 %

TCPC Funding Facility

The TCPC Funding Facility is a senior secured revolving credit facility which provides for amounts to be drawn up to \$350 million, subject to certain collateral and other restrictions. The facility's maturity is March 6, 2020, subject to extension by the lender at the request of TCPC Funding. The facility contains an accordion feature which allows for expansion of the facility to up to \$400 million subject to consent from the lender and other customary conditions. The cash and investments of TCPC Funding are included in the collateral for the facility.

4. Leverage (continued)

Borrowings under the TCPC Funding Facility bear interest at a rate of LIBOR plus 2.25% per annum, or LIBOR plus 2.50% per annum subject to certain funding requirements, plus an administration fee of 0.25% per annum. In addition to amounts due on outstanding debt, the facility accrues commitment fees of 0.50% per annum on the unused portion of the facility, or 0.75% per annum when the unused portion is greater than 33% of the total facility and an administrative fee of 0.25% per annum. The facility may be terminated, and any outstanding amounts thereunder may become due and payable, should TCPC Funding fail to satisfy certain financial or other covenants. As of September 30, 2015, TCPC Funding was in full compliance with such covenants.

Preferred Interests

As of September 30, 2015, the Partnership had fully repurchased and retired all outstanding Preferred Interests. The Preferred Interests were comprised of 6,700 Series A preferred limited partner interests with a liquidation preference of \$20,000 per interest. The Preferred Interests accrued dividends at an annual rate equal to 0.85% plus either LIBOR or the interest holder's cost of funds (subject to a cap of LIBOR plus 20 basis points).

On June 30, 2015, the Partnership repurchased and retired 1,675 of the previously outstanding 6,700 Preferred Interests at a price of \$31,825,000. On September 3, 2015, the Partnership repurchased and retired the remaining 5,025 Preferred Interests outstanding at a price of \$100,500,000.

5. Commitments, Contingencies, Concentration of Credit Risk and Off-Balance Sheet Risk

The Partnership, TCPC Funding and the SBIC conduct business with brokers and dealers that are primarily headquartered in New York and Los Angeles and are members of the major securities exchanges. Banking activities are conducted with a firm headquartered in the San Francisco area.

In the normal course of business, investment activities involve executions, settlement and financing of various transactions resulting in receivables from, and payables to, brokers, dealers and the custodian. These activities may expose the Company and the Partnership to risk in the event that such parties are unable to fulfill contractual obligations. Management does not anticipate any material losses from counterparties with whom it conducts business. Consistent with standard business practice, the Company, the Partnership, TCPC Funding and the SBIC enter into contracts that contain a variety of indemnifications, and are engaged from time to time in various legal actions. The maximum exposure under these arrangements and activities is unknown. However, management expects the risk of material loss to be remote.

6. Related Party Transactions

The Company, the Partnership, TCPC Funding, the SBIC, the Advisor, the General Partner and their members and affiliates may be considered related parties. From time to time, the Partnership advances payments to third parties on behalf of the Company which are reimbursable through deductions from distributions to the Company. From time to time, the Advisor advances payments to third parties on behalf of the Company and the Partnership and receives reimbursement from the Company and the Partnership. At September 30, 2015, amounts reimbursable to the Advisor totaled \$731,172, as reflected in the Consolidated Statements of Assets and Liabilities.

Pursuant to administration agreements between the Administrator and each of the Company and the Partnership (the "Administration Agreements"), the Administrator may be reimbursed for costs and expenses incurred by the Administrator for office space rental, office equipment and utilities allocable to the Company or the Partnership, as well as costs and expenses incurred by the Administrator or its affiliates relating to any administrative, operating, or other non-investment advisory services provided by the Administrator or its affiliates to the Company or the Partnership. For the nine months ended September 30, 2015 and 2014, expenses allocated pursuant to the Administration Agreements totaled \$1,118,418 and \$1,002,418, respectively.

On November 25, 2014, the Company and the Partnership obtained an exemptive order (the "Exemptive Order") from the Securities and Exchange Commission permitting the Company and the Partnership to purchase certain investments from affiliated investment companies at fair value. The Exemptive Order exempts the Company and the Partnership from provisions of Sections 17(a) and 57(a) of the 1940 Act which would otherwise restrict such transfers. All such purchases are subject to the conditions set forth in the Exemptive Order, which among others include certain procedures to verify that each purchase is done at the current fair value of the respective investment. During the nine months ended September 30, 2015, the Company purchased approximately \$94.5 million of investments from affiliates (as defined in the 1940 Act), which were classified as Level 2 in the GAAP valuation hierarchy at the time of the transfer and the selling party has no continuing involvement in the transferred assets. All of the transfers were consummated in accordance with the provisions of the Exemptive Order and were accounted for as a purchase in accordance with ASC 860, Transfers and Servicing.

7. Stockholders' Equity and Dividends

On February 24, 2015, the Company's board of directors approved a stock repurchase plan (the "Company Repurchase Plan") to acquire up to \$50 million in the aggregate of the Company's common stock at prices at certain thresholds

below the Company's net asset value per share, in accordance with the guidelines specified in Rule 10b-18 and Rule 10b5-1 of the Securities Exchange Act of 1934. The Company Repurchase Plan is designed to allow the Company to repurchase its common stock at times when it otherwise might be prevented from doing so under insider trading laws. The Company Repurchase Plan requires an agent selected by the Company to repurchase shares of common stock on the Company's behalf if and when the market price per share is at certain thresholds below the most recently reported net asset value per share. Under the plan, the agent will increase the volume of purchases made if the price of the Company's common stock declines, subject to volume restrictions. The timing and amount of any stock repurchased depends on the terms and conditions of the Company Repurchase Plan, the market price of the common stock and trading volumes, and no assurance can be given that any particular amount of common stock will be repurchased. Unless extended or terminated by its board of directors, the Company expects that the Company Repurchase Plan will be in effect through the earlier of two trading days after the Company's third quarter 2015 earnings release or such time as the approved \$50 million repurchase amount has been fully utilized, subject to certain conditions. The following table summarizes the total shares repurchased and amounts paid by the Company under the Company Repurchase Plan, including broker fees, for the nine months ended September 30, 2015.

	Shares Repurchased	Price Per Share	Total Cost
Company Repurchase Plan	25,147	\$14.81*	\$372,843

8. Earnings Per Share

In accordance with ASC 260, Earnings per Share, basic earnings per share is computed by dividing earnings available to common shareholders by the weighted average number of shares outstanding during the period. Other potentially dilutive common shares, if any, and the related impact to earnings, are considered when calculating earnings per share on a diluted basis. The following information sets forth the computation of the net increase in net assets per share resulting from operations for the nine months ended September 30, 2015 and 2014:

	Nine Months Ended September 30, 2015	Nine Months Ended September 30, 2014
Net increase in net assets applicable to common shareholders resulting from operations	\$56,977,873	\$41,601,674
Weighted average shares outstanding	48,858,263	37,507,497
Earnings per share	\$1.17	\$1.11

9. Subsequent Events

On November 3, 2015, the Company's board of directors re-approved the Company Repurchase Plan, to be in effect through the earlier of two trading days after the Company's annual 2015 earnings release or such time as the approved \$50 million repurchase amount has been fully utilized, subject to certain conditions.

On November 3, 2015, the board of directors of the Company voted to add an additional independent director, Brian F. Wruble, to the board of directors effective as of November 5, 2015.

On November 5, 2015, the Company's board of directors declared a fourth quarter regular dividend of \$0.36 per share payable on December 31, 2015 to stockholders of record as of the close of business on December 17, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information contained in this section should be read in conjunction with our unaudited consolidated financial statements and related notes thereto appearing elsewhere in this quarterly report on Form 10-Q. Some of the statements in this report (including in the following discussion) constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which relate to future events or the future performance or financial condition of TCP Capital Corp. (the "Company," "we," "us," or "our"). The forward-looking statements contained in this report involve a number of risks and uncertainties, including statements concerning:

- our, or our portfolio companies', future business, operations, operating results or prospects;
- the return or impact of current and future investments;
- the impact of a protracted decline in the liquidity of credit markets on our business;
- the impact of fluctuations in interest rates on our business;
- the impact of changes in laws or regulations governing our operations or the operations of our portfolio companies;
- our contractual arrangements and relationships with third parties;
- the general economy and its impact on the industries in which we invest;
- the financial condition of and ability of our current and prospective portfolio companies to achieve their objectives;
- our expected financings and investments;
- the adequacy of our financing resources and working capital;
- the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the timing, form and amount of any dividend distributions; and
- our ability to maintain our qualification as a regulated investment company and as a business development company.

We use words such as "anticipate," "believe," "expect," "intend," "will," "should," "could," "may," "plan" and similar words to identify forward-looking statements. The forward looking statements contained in this annual report involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth as "Risk Factors" in this report.

We have based the forward-looking statements included in this report on information available to us on the date of this report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we have filed or in the future may file with the SEC, including annual reports on Form 10-K, registration statements on Form N-2, quarterly reports on Form 10-Q and current reports on Form 8-K.

Overview

The Company is a Delaware corporation formed on April 2, 2012 and is an externally managed, closed-end, non-diversified management investment company. The Company elected to be treated as a business development company (“BDC”) under the Investment Company Act of 1940, as amended (the “1940 Act”). Our investment objective is to seek to achieve high total returns through current income and capital appreciation, with an emphasis on principal protection. We invest primarily in the debt of middle-market companies as well as small businesses, including senior secured loans, junior loans, mezzanine debt and bonds. Such investments may include an equity component, and, to a lesser extent, we may make equity investments directly. Investment operations are conducted either in Special Value Continuation Partners, LP, a Delaware Limited Partnership (the “Partnership”), of which the Company owns 100% of the common limited partner interests, or in one of the Partnership’s wholly-owned subsidiaries, TCPC Funding I, LLC (“TCPC Funding”) and TCPC SBIC, LP (the “SBIC”). The Partnership has also elected to be treated as a BDC under the 1940 Act. The General Partner of the Partnership is SVOF/MM, LLC (“SVOF/MM”), which also serves as the administrator (“Administrator”) of the Company and the Partnership. The managing member of SVOF/MM is Tennenbaum Capital Partners, LLC (the “Advisor”), which serves as the investment manager to the Company, the Partnership, TCPC Funding, and the SBIC. Most of the equity interests in the General Partner are owned directly or indirectly by the Advisor and its employees. The SBIC was organized as a Delaware limited partnership in June 2013. On April 22, 2014, the SBIC received a license from the United States Small Business Administration (the “SBA”) to operate as a small business investment company under the provisions of Section 301(c) of the Small Business Investment Act of 1958.

The Company has elected to be treated as a regulated investment company (“RIC”) for U.S. federal income tax purposes. As a RIC, the Company will not be taxed on its income to the extent that it distributes such income each year and satisfies other applicable income tax requirements. The Partnership, TCPC Funding, and the SBIC have elected to be treated as partnerships for U.S. federal income tax purposes.

On April 2, 2012, Special Value Continuation Fund, LLC (“SVCF”) converted from a limited liability company to a corporation, leaving the Company as the surviving entity. On April 3, 2012, the Company completed its initial public offering.

Our leverage program is comprised of \$116 million in available debt under a senior secured revolving credit facility issued by the Partnership (the “Revolving Credit Facility”), a \$100.5 million term loan issued by the Partnership (the “Term Loan,” and together with the Revolving Credit Facility, the “Partnership Facility”), \$350 million in available debt under a senior secured revolving credit facility issued by TCPC Funding (the “TCPC Funding Facility”), \$108 million in convertible senior unsecured notes issued by the Company (the “Convertible Notes”) and \$75 million in committed leverage from the SBA (the “SBA Program,” and, together with the Partnership Facility, the TCPC Funding Facility, the Convertible Notes, and the SBA Program, the “Leverage Program”).

To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Internal Revenue Code of 1986, as amended, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

Investments

Our level of investment activity can and does vary substantially from period to period depending on many factors, including the amount of debt and equity capital available to middle-market companies, the level of merger and acquisition activity, the general economic environment and the competitive environment for the types of investments we make.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in “qualifying assets,” including securities and indebtedness of private U.S. companies, public U.S. operating companies whose securities are not listed on a national securities exchange or registered under the Securities Exchange Act of 1934, as amended, public domestic operating companies having a market capitalization of less than \$250 million, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We are also permitted to make certain follow-on investments in companies that were eligible portfolio companies at the time of initial investment but that no longer meet the definition. As of September 30, 2015, 84.5% of our total assets were invested in qualifying assets.

Revenues

We generate revenues primarily in the form of interest on the debt we hold. We also generate revenue from dividends on our equity interests, capital gains on the disposition of investments, and certain lease, fee, and other income. Our investments in fixed income instruments generally have an expected maturity of three to five years, although we have no lower or upper constraint on maturity. Interest on our debt investments is generally payable quarterly or semi-annually. Payments of principal of our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt investments and preferred stock investments may defer payments of cash interest or dividends or PIK. Any outstanding principal amount of our debt investments and any accrued but unpaid interest will generally become due at the maturity date. In addition, we may generate revenue in the form of prepayment fees, commitment, origination, structuring or due diligence fees, end-of-term or exit fees, fees for providing significant managerial assistance, consulting fees and other investment related income.

Expenses

Our primary operating expenses include the payment of a base management fee and, depending on our operating results, incentive compensation, expenses reimbursable under the management agreement, administration fees and the allocable portion of overhead under the administration agreement. The base management fee and incentive compensation remunerates the Advisor for work in identifying, evaluating, negotiating, closing and monitoring our investments. Our administration agreement with SVOF/MM, LLC (the “Administrator”) provides that the Administrator may be reimbursed for costs and expenses incurred by the Administrator for office space rental, office equipment and utilities allocable to us under the administration agreement, as well as any costs and expenses incurred by the Administrator or its affiliates relating to any non-investment advisory, administrative or operating services provided by the Administrator or its affiliates to us. We also bear all other costs and expenses of our operations and transactions (and the Company’s common stockholders indirectly bear all of the costs and expenses of the Company, the Partnership, TCPC Funding and the SBIC), which may include those relating to:

- our organization;
- calculating our net asset value (including the cost and expenses of any independent valuation firms);
- interest payable on debt, if any, incurred to finance our investments;
- costs of future offerings of our common stock and other securities, if any;
- the base management fee and any incentive compensation;
- dividends and distributions on our preferred shares, if any, and common shares;
- administration fees payable under the administration agreement;
- fees payable to third parties relating to, or associated with, making investments;
- transfer agent and custodial fees;
- registration fees;
- listing fees;
- taxes;
- director fees and expenses;
- costs of preparing and filing reports or other documents with the SEC;
- costs of any reports, proxy statements or other notices to our stockholders, including printing costs;
- our fidelity bond;
- directors and officers/errors and omissions liability insurance, and any other insurance premiums;
- indemnification payments;

direct costs and expenses of administration, including audit and legal costs; and

all other expenses reasonably incurred by us and the Administrator in connection with administering our business, such as the allocable portion of overhead under the administration agreement, including rent and other allocable portions of the cost of certain of our officers and their respective staffs.

The investment management agreement provides that the base management fee be calculated at an annual rate of 1.5% of our total assets (excluding cash and cash equivalents) payable quarterly in arrears. For purposes of calculating the base management fee, “total assets” is determined without deduction for any borrowings or other liabilities. The base management fee is calculated based on the value of our total assets (excluding cash and cash equivalents) at the end of the most recently completed calendar quarter.

Additionally, the investment management agreement and the Amended and Restated Limited Partnership Agreement provide that the Advisor or its affiliates may be entitled to incentive compensation under certain circumstances. According to the terms of such agreements, no incentive compensation was incurred prior to January 1, 2013. Beginning January 1, 2013, the incentive compensation equals the sum of (1) 20% of all ordinary income since January 1, 2013 and (2) 20% of all net realized capital gains (net of any net unrealized capital depreciation) since January 1, 2013, with each component being subject to a total return requirement of 8% of contributed common equity annually. The incentive compensation is payable to the General Partner by the Partnership pursuant to the Amended and Restated Limited Partnership Agreement. If the Partnership is terminated or for any other reason incentive compensation is not paid by the Partnership, it would be paid pursuant to the investment management agreement between us and the Advisor. The determination of incentive compensation is subject to limitations under the 1940 Act and the Advisers Act.

Critical accounting policies

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Changes in the economic environment, financial markets and any other parameters used in determining such estimates could cause actual results to differ. Management considers the following critical accounting policies important to understanding the financial statements. In addition to the discussion below, our critical accounting policies are further described in the notes to our financial statements.

Valuation of portfolio investments

We value our portfolio investments at fair value based upon the principles and methods of valuation set forth in policies adopted by our board of directors. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Market participants are buyers and sellers in the principal (or most advantageous) market for the asset that (i) are independent of us, (ii) are knowledgeable, having a reasonable understanding about the asset based on all available information (including information that might be obtained through due diligence efforts that are usual and customary), (iii) are able to transact for the asset, and (iv) are willing to transact for the asset or liability (that is, they are motivated but not forced or otherwise compelled to do so).

Investments for which market quotations are readily available are valued at such market quotations unless the quotations are deemed not to represent fair value. We generally obtain market quotations from recognized exchanges, market quotation systems, independent pricing services or one or more broker-dealers or market makers. However, short term debt investments with remaining maturities within 90 days are generally valued at amortized cost, which approximates fair value. Debt and equity securities for which market quotations are not readily available, which is the case for many of our investments, or for which market quotations are deemed not to represent fair value, are valued at fair value using a consistently applied valuation process in accordance with our documented valuation policy that has been reviewed and approved by our board of directors, who also approve in good faith the valuation of such securities as of the end of each quarter. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such

investments and may differ materially from the values that we may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of our investments than on the fair values of our investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where we believe that facts and circumstances applicable to an issuer, a seller or purchaser, or the market for a particular security cause current market quotations to not reflect the fair value of the security. Examples of these events could include cases where a security trades infrequently causing a quoted purchase or sale price to become stale, where there is a “forced” sale by a distressed seller, where market quotations vary substantially among market makers, or where there is a wide bid-ask spread or significant increase in the bid-ask spread.

The valuation process approved by our board of directors with respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value is as follows:

The investment professionals of the Advisor provide recent portfolio company financial statements and other reporting materials to independent valuation firms approved by our board of directors.

Such firms evaluate this information along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented and discussed with senior management of the Advisor.

The fair value of smaller investments comprising in the aggregate less than 5% of our total capitalization may be determined by the Advisor in good faith in accordance with our valuation policy without the employment of an independent valuation firm.

The audit committee of the board of directors discusses the valuations, and the board of directors approves the fair value of the investments in our portfolio in good faith based on the input of the Advisor, the respective independent valuation firms (to the extent applicable) and the audit committee of the board of directors.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in determining the fair value of our investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparables, our principal market (as the reporting entity) and enterprise values.

When valuing all of our investments, we strive to maximize the use of observable inputs and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing an asset, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances.

Our investments may be categorized based on the types of inputs used in their valuation. The level in the GAAP valuation hierarchy in which an investment falls is based on the lowest level input that is significant to the valuation of the investment in its entirety. Investments are classified by GAAP into the three broad levels as follows:

Level 1 — Investments valued using unadjusted quoted prices in active markets for identical assets.

Level 2 — Investments valued using other unadjusted observable market inputs, e.g. quoted prices in markets that are not active or quotes for comparable instruments.

Level 3 — Investments that are valued using quotes and other observable market data to the extent available, but which also take into consideration one or more unobservable inputs that are significant to the valuation taken as a whole.

As of September 30, 2015, none of our investments were categorized as Level 1, 11.4% were categorized as Level 2, 88.3% were Level 3 investments valued based on valuations by independent third party sources, and 0.3% were Level 3 investments valued based on valuations by the Advisor.

Determination of fair value involves subjective judgments and estimates. Accordingly, the notes to our financial statements express the uncertainty with respect to the possible effect of such valuations, and any change in such valuations, on the financial statements.

Revenue recognition

Interest and dividend income, including income paid in kind, is recorded on an accrual basis to the extent that such amounts are determined to be collectible. Origination, structuring, closing, commitment and other upfront fees earned with respect to capital commitments, as well as any end-of-term or exit fees receivable upon the repayment of a debt investment, are generally amortized or accreted into interest income over the life of the respective investment. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, are recognized as earned. Prepayment fees and similar income received upon the early repayment of a loan or debt security are included in interest income.

Certain of our debt investments may be purchased at a discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. GAAP generally requires that discounts on the acquisition of corporate bonds, municipal bonds and treasury bonds be amortized using the effective-interest or constant-yield method. GAAP also requires that we consider the collectability of interest when making accruals. Accordingly, when accounting for discounts and other interest accruals, we recognize income when it is probable that such amounts will be collected.

Net realized gains or losses and net change in unrealized appreciation or depreciation

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Realized gains and losses are computed using the specific identification method. Net change in unrealized appreciation or depreciation reflects the change in portfolio investment values during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

Portfolio and investment activity

During the three months ended September 30, 2015, we invested approximately \$120.6 million, comprised of new investments in 7 new and 4 existing portfolio companies, as well as draws made on existing commitments and PIK received on prior investments. Of these investments, 98.7% were in senior secured debt, comprised of senior loans (\$116.6 million, or 96.7% of total acquisitions) and senior secured notes (\$2.5 million, or 2.0% of total acquisitions). The remaining \$1.5 million (1.3% of total acquisitions) were equity investments. Additionally, we received approximately \$65.3 million in proceeds from sales or repayments of investments during the three months ended September 30, 2015.

During the nine months ended September 30, 2015 we invested approximately \$423.3 million, comprised of new investments in 16 new and 22 existing portfolio companies, as well as draws made on existing commitments and PIK received on prior investments. Of these investments, 99.5% were in senior secured debt, comprised of senior loans (\$379.2 million, or 89.6% of total acquisitions) and senior secured notes (\$41.9 million, or 9.9% of total acquisitions). The remaining \$2.3 million (0.5% of total acquisitions) were equity investments. Additionally, we received approximately \$305.5 million in proceeds from sales or repayments of investments during the nine months ended September 30, 2015.

At September 30, 2015, our investment portfolio of \$1,269.2 million (at fair value) consisted of 91 portfolio companies and was invested 97% in debt investments, of which 100% was in senior secured debt. In aggregate, our investment portfolio was invested 84% in senior secured loans, 13% in senior secured notes, and 3% in equity investments. Our average portfolio company investment at fair value was approximately \$13.9 million. Our largest portfolio company investment by value was approximately \$44.8 million and our five largest portfolio company investments by value comprised approximately 15.6% of our portfolio at September 30, 2015. At December 31, 2014, our investment portfolio of \$1,146.5 million (at fair value) consisted of 84 portfolio companies and was invested 97%

in debt investments, of which 100% was in senior secured debt. In aggregate, our investment portfolio was invested 82% in senior secured loans, 15% in senior secured notes, and 3% in equity investments. Our average portfolio company investment at fair value was approximately \$13.6 million. Our largest portfolio company investment by value was approximately \$41.8 million and our five largest portfolio company investments by value comprised approximately 14% of our portfolio at December 31, 2014.

Results of operations

Investment income

Investment income totaled \$35.5 million and \$27.2 million, respectively, for the three months ended September 30, 2015 and 2014, of which \$33.8 million and \$26.7 million were attributable to interest on our debt investments, \$0.4 million and \$0.3 million to lease income, and \$1.3 million and \$0.2 million to other income, respectively. The increase in investment income in the three months ended September 30, 2015 compared to the three months ended September 30, 2014 reflects an increase in interest income due to the larger investment portfolio in the three months ended September 30, 2015 compared to the three months ended September 30, 2014 and an increase in other income primarily due to amendment fees received during the three months ended September 30, 2015.

Investment income totaled \$107.3 million and \$74.4 million, respectively, for the nine months ended September 30, 2015 and 2014, of which \$102.9 million and \$70.3 million were attributable to interest on our debt investments, \$0.0 million and \$1.9 million to dividends from equity securities, \$1.0 million and \$1.0 million to lease income and \$3.4 million and \$1.2 million to other income, respectively. The increase in investment income in the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014 reflects an increase in interest income due to the larger investment portfolio in the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014 and an increase in other income primarily due to amendment and structuring fees received during the nine months ended September 30, 2015, partially offset by a decrease in dividend income.

Expenses

Total operating expenses for the three months ended September 30, 2015 and 2014 were \$11.2 million and \$8.0 million respectively, comprised primarily of \$4.7 million and \$3.5 million in base management fees, \$4.1 million and \$2.8 million in interest expense and commitment fees, \$0.5 million and \$0.5 million in amortization of debt issuance costs, \$0.4 million and \$0.4 million in administrative expenses, \$0.4 million and \$0.3 million in legal and other professional fees, and \$1.1 million and \$0.5 million in other expenses, respectively. The increase in expenses in the three months ended September 30, 2015 compared to the three months ended September 30, 2014 primarily reflects the increase in management fees due to the larger portfolio and the increase in interest expense and other costs related to the increase in available and outstanding debt.

Total operating expenses for the nine months ended September 30, 2015 and 2014 were \$32.8 million and \$19.0 million, respectively, comprised of \$13.7 million and \$9.5 million in base management fees, \$11.4 million and \$4.7 million in interest expense and commitment fees, \$2.0 million and \$0.8 million in legal and professional fees, \$1.6 million and \$1.3 million in amortization of debt issuance costs, \$1.2 million and \$1.0 million in administrative expenses, and \$2.9 million and \$1.7 million in other expenses, respectively. The increase in expenses in the nine months ended September 30, 2015 compared to the nine months ended September 30, 2014 primarily reflects the increase in management fees due to the larger portfolio and the increase in interest expense and other costs related to the increase in available and outstanding debt.

Net investment income

Net investment income was \$24.3 million and \$19.2 million respectively, for the three months ended September 30, 2015 and 2014. The increase in net investment income in the three months ended September 30, 2015 compared to the three months ended September 30, 2014 primarily reflects the increased interest and other income in the three months ended September 30, 2015, partially offset by the increase in expenses.

Net investment income was \$74.5 million and \$55.4 million, respectively, for the nine months ended September 30, 2015 and 2014. The increase in net investment income in the nine months ended September 30, 2015 compared to

the nine months ended September 30, 2014 primarily reflects the increased interest and other income in the nine months ended September 30, 2015, partially offset by the increase in expenses.

Net realized and unrealized gain or loss

Net realized gains for the three months ended September 30, 2015 and 2014 were \$5.7 million and \$0.9 million, respectively. The net realized gain during the three months ended September 30, 2015 was primarily comprised of a \$5.9 million gain on the disposition of most of our investment in NEXTracker, Inc.

For the three months ended September 30, 2015 and 2014, the change in net unrealized appreciation/depreciation was \$(7.6) million and \$(5.4) million, respectively. The change in net unrealized appreciation/depreciation for the three months ended September 30, 2015 was primarily comprised of a \$4.0 million unrealized gain on our investment in KAGY Holding Company, Inc., a \$3.6 million reversal of prior period unrealized appreciation on our investment in NEXTracker, Inc., \$2.4 million in unrealized depreciation on our loan to CORE Entertainment, Inc., and other mark-to-market adjustments primarily due to increases in market yields and spreads. The change in net unrealized depreciation for the three months ended September 30, 2014 was primarily a result of increases in market yield spreads and a markdown on an investment made prior to our initial public offering as part of our legacy distressed strategy which has yielded significant income for many years.

Table of Contents

Net realized losses for the nine months ended September 30, 2015 and 2014 were \$3.7 million and \$4.9 million, respectively. The net realized loss during the nine months ended September 30, 2015 was due primarily to the restructure of our loan to Edmentum, in which we received debt and equity in a delevered company, partially offset by the \$5.9 million gain on the partial disposition of our NEXTracker investment. Net realized loss during the nine months ended September 30, 2014 was due primarily to the disposition of our investment in ESP Holdings, Inc., an investment made prior to our initial public offering as part of our legacy distressed strategy which generated substantial cash interest income. For the nine months ended September 30, 2015 and 2014, the change in net unrealized appreciation was \$0.0 million and \$2.6 million, respectively. The change in net unrealized appreciation for the nine months ended September 30, 2015 and 2014 was primarily due to reversals of prior period net unrealized depreciation and other mark to market adjustments as a result of market yield spreads during the period.

Income tax expense, including excise tax

The Company has elected to be treated as a RIC under Subchapter M of the Internal Revenue Code (“the Code”) and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income. Any excise tax expense is recorded at year end as such amounts are known. There was no U.S. federal excise tax recorded during the three and nine months ended September 30, 2015 and 2014.

Gain on repurchase of Series A preferred interests

Gain on repurchase of Series A preferred interests was entirely comprised of a \$1.7 million gain on repurchase of 1,675 Preferred Interests on June 30, 2015 at a price of \$31.8 million.

Dividends to preferred equity holders

Dividends on the Preferred Interests for the three months ended September 30, 2015 and 2014 were \$0.1 million and \$0.4 million, respectively. The decrease in dividends on Preferred Interests during the three months ended September 30, 2015 was due to the full repurchase of the Preferred Interests on September 3, 2015. Dividends on the Preferred Interests for the nine months ended September 30, 2015 and 2014 were \$0.8 million and \$1.1 million, respectively. The decrease in dividends on Preferred Interests during the nine months ended September 30, 2015 was due to the full repurchase of the Preferred Interests on September 3, 2015.

Incentive compensation

Incentive compensation distributable to the General Partner for the three months ended September 30, 2015 and 2014 was \$4.8 million and \$3.8 million, respectively. Incentive compensation distributable to the General Partner for the nine months ended September 30, 2015 and 2014 was \$14.7 million and \$10.9 million, respectively. Incentive compensation for the three and nine months ended September 30, 2015 and 2014 was distributable due to our performance exceeding the cumulative total return threshold. The change in reserve for incentive compensation to the General Partner for the three months ended September 30, 2015 and 2014 was \$0.0 million and a reduction of \$0.9 million, respectively. The change in reserve for incentive compensation to the General Partner for the nine months ended September 30, 2015 and 2014 was \$0.0 million and a reduction of \$0.5 million, respectively. The change in reserve for incentive compensation for the three and nine months ended September 30, 2015 and 2014 represents the change in the amount in excess of distributable incentive compensation which would have been earned by the General

Partner had we liquidated at net asset value at September 30, 2015 and 2014, respectively.

Net increase in net assets resulting from operations

The net increase in net assets resulting from operations was \$17.5 million and \$11.5 million for the three months ended September 30, 2015 and 2014, respectively. The higher net increase in net assets resulting from operations during the three months ended September 30, 2015 is primarily due to the increase in net investment income and the decrease in net realized and unrealized losses, partially offset by the net increase in the incentive allocation. The net increase in net assets resulting from operations was \$57.0 million and \$41.6 million for the nine months ended September 30, 2015 and 2014, respectively. The higher net increase in net assets resulting from operations during the nine months ended September 30, 2015 is primarily due to the increase in net investment income, partially offset by a corresponding increase in the incentive allocation.

Liquidity and capital resources

Since our inception, our liquidity and capital resources have been generated primarily through the initial private placement of common shares of SVCF (the predecessor entity) which were subsequently converted to common stock of the Company, the net proceeds from the initial and secondary public offerings of our common stock, amounts outstanding under our Leverage Program, and cash flows from operations, including investments sales and repayments and income earned from investments and cash equivalents. The primary uses of cash have been investments in portfolio companies, cash distributions to our equity holders, payments to service our Leverage Program and other general corporate purposes.

The following table summarizes the total shares issued and proceeds received in the public offering of the Company's common stock net of underwriting discounts and offering costs as well as shares issued in connection with the Company's dividend reinvestment plan for the nine months ended September 30, 2015:

On October 3, 2014, we entered into an at-the-market equity offering program (the "ATM Program") with Raymond James & Associates Inc. and Cantor Fitzgerald & Co. through which we may offer and sell, by means of at-the-market offerings from time to time, shares of our common stock having an aggregate offering price of up to \$100,000,000.

We did not issue any shares under the ATM Program during the three months ended September 30, 2015.

On August 4, 2015, the Company's board of directors re-approved the Company's stock repurchase plan (the "Company Repurchase Plan"), pursuant to which the Company may acquire up to \$50 million in the aggregate of the Company's common stock at prices at certain thresholds below the Company's net asset value per share, in accordance with the guidelines specified in Rule 10b-18 and Rule 10b5-1 of the Securities Exchange Act of 1934. The Company Repurchase Plan is designed to allow the Company to repurchase its common stock at times when it otherwise might be prevented from doing so under insider trading laws. The Company Repurchase Plan requires an agent selected by the Company to repurchase shares of common stock on the Company's behalf if and when the market price per share is at certain thresholds below the most recently reported net asset value per share. Under the plan, the agent will increase the volume of purchases made if the price of the Company's common stock declines, subject to volume restrictions. The timing and amount of any stock repurchased depends on the terms and conditions of the Company Repurchase Plan, the market price of the common stock and trading volumes, and no assurance can be given that any particular amount of common stock will be repurchased. Unless extended or terminated by its board of directors, the Company expects that the Company Repurchase Plan will be in effect through the earlier of two trading days after the Company's third quarter 2015 earnings release or such time as the approved \$50 million repurchase amount has been fully utilized, subject to certain conditions. The following table summarizes the total shares repurchased and amounts paid by the Company under the Company Repurchase Plan, including broker fees, for the nine months ended September 30, 2015:

‡Anticipated total capacity of \$150 million

On September 3, 2015, we fully repurchased and retired the remaining 5,025 Preferred Interests outstanding at a price of \$100.5 million and expanded the Partnership Facility with a \$100.5 million fully-drawn term loan and extended the maturity date to July 31, 2018.

On March 6, 2015, we expanded the TCPC Funding Facility by \$50 million to \$300 million, increased the accordion feature by \$50 million to \$350 million and extended the maturity date to March 6, 2019. On August 5, 2015, we expanded the TCPC Funding Facility by \$50 million to \$350 million and increased the accordion feature by \$50 million to \$400 million. On September 1, 2015, we extended the maturity date of the TCPC Funding Facility to March 6, 2020.

On July 13, 2015, we obtained exemptive relief from the SEC to permit us to exclude the debt of TCPC SBIC LP guaranteed by the SBA from our 200% asset coverage test under the 1940 Act. The exemptive relief provides us with increased flexibility under the 200% asset coverage test by permitting the SBIC to borrow up to \$150 million more than it would otherwise be able to absent the receipt of this exemptive relief.

Net cash used in operating activities during the nine months ended September 30, 2015 was \$52.4 million. Our primary use of cash in operating activities during this period consisted of the settlement of acquisitions of investments (net of dispositions) of \$113.0 million, partially offset by net investment income less preferred dividends and incentive allocation (net of non-cash income and expenses) of approximately \$60.6 million.

Net cash provided by financing activities was \$59.7 million during the nine months ended September 30, 2015, consisting primarily of \$246.3 million of net borrowings and \$3.9 million of proceeds from common shares sold, reduced by the \$132.3 million repurchase of the Preferred Interests, \$52.8 million in regular dividends on common equity, payment of \$3.8 million in debt issuance costs, \$1.2 million in dividends on the Preferred Interests, and \$0.4 million in common shares repurchases.

At September 30, 2015, we had \$34.6 million in cash and cash equivalents.

The Partnership Facility and the TCPC Funding Facility are secured by substantially all of the assets in our portfolio, including cash and cash equivalents, and are subject to compliance with customary affirmative and negative covenants, including the maintenance of a minimum shareholders' equity, the maintenance of a ratio of not less than 200% of total assets (less total liabilities other than indebtedness) to the sum of total preferred equity and indebtedness (excluding indebtedness of TCPC SBIC LP), and restrictions on certain payments and the issuance of debt.

Unfavorable economic conditions may result in a decrease in the value of our investments, which would affect both the asset coverage ratios and the value of the collateral securing the Partnership Facility and the TCPC Funding Facility, and may therefore impact our ability to borrow under the Partnership Facility and the TCPC Funding Facility. In addition to regulatory restrictions that restrict our ability to raise capital, the Leverage Program contains various covenants which, if not complied with, could accelerate repayment of debt, thereby materially and adversely affecting our liquidity, financial condition and results of operations. At September 30, 2015, we were in compliance with all financial and operational covenants required by the Leverage Program.

Table of Contents

Unfavorable economic conditions, while potentially creating attractive opportunities for us, may decrease liquidity and raise the cost of capital generally, which could limit our ability to renew, extend or replace the Leverage Program on terms as favorable as are currently included therein. If we are unable to renew, extend or replace the Leverage Program upon the various dates of maturity, we expect to have sufficient funds to repay the outstanding balances in full from our net investment income and sales of, and repayments of principal from, our portfolio company investments, as well as from anticipated debt and equity capital raises, among other sources. Unfavorable economic conditions may limit our ability to raise capital or the ability of the companies in which we invest to repay our loans or engage in a liquidity event, such as a sale, recapitalization or initial public offering. The Partnership Facility, the Convertible Notes and the TCPC Funding Facility mature in July 2018, December 2019, and March 2020, respectively. Any inability to renew, extend or replace the Leverage Program could adversely impact our liquidity and ability to find new investments or maintain distributions to our stockholders.

Challenges in the market are intensified for us by certain regulatory limitations under the Code and the 1940 Act. To maintain our qualification as a RIC, we must satisfy, among other requirements, an annual distribution requirement to pay out at least 90% of our ordinary income and short-term capital gains to our stockholders. Because we are required to distribute our income in this manner, and because the illiquidity of many of our investments may make it difficult for us to finance new investments through the sale of current investments, our ability to make new investments is highly dependent upon external financing. While we anticipate being able to continue to satisfy all covenants and repay the outstanding balances under the Leverage Program when due, there can be no assurance that we will be able to do so, which could lead to an event of default.

Contractual obligations

In addition to obligations under our Leverage Program, we have entered into several contracts under which we have future commitments. Pursuant to an investment management agreement, the Advisor manages our day-to-day operations and provides investment advisory services to us. Payments under the investment management agreement are equal to a percentage of the value of our gross assets (excluding cash and cash equivalents) and an incentive compensation, plus reimbursement of certain expenses incurred by the Advisor. Under our administration agreement, the Administrator provides us with administrative services, facilities and personnel. Payments under the administration agreement are equal to an allocable portion of overhead and other expenses incurred by the Administrator in performing its obligations to us, and may include rent and our allocable portion of the cost of certain of our officers and their respective staffs. We are responsible for reimbursing the Advisor for due diligence and negotiation expenses, fees and expenses of custodians, administrators, transfer and distribution agents, counsel and directors, insurance, filings and registrations, proxy expenses, expenses of communications to investors, compliance expenses, interest, taxes, portfolio transaction expenses, costs of responding to regulatory inquiries and reporting to regulatory authorities, costs and expenses of preparing and maintaining our books and records, indemnification, litigation and other extraordinary expenses and such other expenses as are approved by the directors as being reasonably related to our organization, offering, capitalization, operation or administration and any portfolio investments, as applicable. The Advisor is not responsible for any of the foregoing expenses and such services are not investment advisory services under the 1940 Act. Either party may terminate each of the investment management agreement and administration agreement without penalty upon not less than 60 days' written notice to the other.

Distributions

Our quarterly dividends and distributions to common stockholders are recorded on the ex-dividend date. Distributions are declared considering our estimate of taxable income available for distribution to stockholders and the amount of taxable income carried over from the prior year for distribution in the current year. We do not have a policy to pay distributions at a specific level and expect to continue to distribute substantially all of our taxable income. We cannot assure stockholders that they will receive any distributions or distributions at a particular level.

We have elected to be taxed as a RIC under Subchapter M of the Code. In order to maintain favorable RIC tax treatment, we must distribute annually to our stockholders at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, out of the assets legally available for distribution. In order to avoid certain excise taxes imposed on RICs, we must distribute during each calendar year an amount at least equal to the sum of:

- 98% of our ordinary income (not taking into account any capital gains or losses) for the calendar year;
- 98.2% of the amount by which our capital gains exceed our capital losses (adjusted for certain ordinary losses) for the one-year period generally ending on October 31 of the calendar year; and
- certain undistributed amounts from previous years on which we paid no U.S. federal income tax.

We may, at our discretion, carry forward taxable income in excess of calendar year distributions and pay a 4% excise tax on this income. If we choose to do so, all other things being equal, this would increase expenses and reduce the amounts available to be distributed to our stockholders. We will accrue excise tax on estimated taxable income as required. In addition, although we currently intend to distribute realized net capital gains (i.e., net long-term capital gains in excess of short-term capital losses), if any, at least annually, out of the assets legally available for such distributions, we may in the future decide to retain such capital gains for investment.

We have adopted an “opt in” dividend reinvestment plan for our common stockholders. As a result, if we declare a dividend or other distribution payable in cash, each stockholder that has not “opted in” to our dividend reinvestment plan will receive such dividends in cash, rather than having their dividends automatically reinvested in additional shares of our common stock.

We may not be able to achieve operating results that will allow us to make dividends and distributions at a specific level or to increase the amount of these dividends and distributions from time to time. Also, we may be limited in our ability to make dividends and distributions due to the asset coverage test applicable to us as a BDC under the 1940 Act and due to provisions in our existing and future credit facilities. If we do not distribute a certain percentage of our income annually, we will suffer adverse tax consequences, including possible loss of favorable RIC tax treatment. In addition, in accordance with U.S. generally accepted accounting principles and tax regulations, we include in income certain amounts that we have not yet received in cash, such as PIK interest, which represents contractual interest added to the loan balance that becomes due at the end of the loan term, or the accrual of original issue or market discount. Since we may recognize income before or without receiving cash representing such income, we may have difficulty meeting the requirement to distribute at least 90% of our investment company taxable income to obtain tax benefits as a RIC and may be subject to an excise tax.

Table of Contents

In order to satisfy the annual distribution requirement applicable to RICs, we have the ability to declare a large portion of a dividend in shares of our common stock instead of in cash. As long as a portion of such dividend is paid in cash and certain requirements are met, the entire distribution would be treated as a dividend for U.S. federal income tax purposes.

Related Parties

We have entered into a number of business relationships with affiliated or related parties, including the following:

Each of the Company, the Partnership, TCPC Funding, and the SBIC has entered into an investment management agreement with the Advisor.

The Administrator provides us with administrative services necessary to conduct our day-to-day operations. For providing these services, facilities and personnel, the Administrator may be reimbursed by us for expenses incurred by the Administrator in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our officers and the Administrator's administrative staff and providing, at our request and on our behalf, significant managerial assistance to our portfolio companies to which we are required to provide such assistance.

- We have entered into a royalty-free license agreement with the Advisor, pursuant to which the Advisor has agreed to grant us a non-exclusive, royalty-free license to use the name "TCP."

Pursuant to its limited partnership agreement, the general partner of the Partnership is SVOF/MM, LLC. SVOF/MM, LLC is an affiliate of the Advisor and the general partners or managing member of certain other funds managed by the Advisor.

The Advisor and its affiliates, employees and associates currently do and in the future may manage other funds and accounts. The Advisor and its affiliates may determine that an investment is appropriate for us and for one or more of those other funds or accounts. Accordingly, conflicts may arise regarding the allocation of investments or opportunities among us and those accounts. In general, the Advisor will allocate investment opportunities pro rata among us and the other funds and accounts (assuming the investment satisfies the objectives of each) based on the amount of committed capital each then has available. The allocation of certain investment opportunities in private placements is subject to independent director approval pursuant to the terms of the co-investment exemptive order applicable to us. In certain cases, investment opportunities may be made other than on a pro rata basis. For example, we may desire to retain an asset at the same time that one or more other funds or accounts desire to sell it or we may not have additional capital to invest at a time the other funds or accounts do. If the Advisor is unable to manage our investments effectively, we may be unable to achieve our investment objective. In addition, the Advisor may face conflicts in allocating investment opportunities between us and certain other entities that could impact our investment returns. While our ability to enter into transactions with our affiliates is restricted under the 1940 Act, we have received an exemptive order from the SEC permitting certain affiliated investments subject to certain conditions. As a result, we may face conflict of interests and investments made pursuant to the exemptive order conditions which could in certain circumstances affect adversely the price paid or received by us or the availability or size of the position purchased or sold by us.

Recent Developments

From October 1, 2015 through November 4, 2015, the Partnership invested approximately \$15.0 million primarily in three senior secured loans with a combined effective yield of approximately 10.9% and a small yield generating equity position.

Edgar Filing: TCP Capital Corp. - Form 10-Q

On November 3, 2015, the Company's board of directors re-approved the Company Repurchase Plan, to be in effect through the earlier of two trading days after the Company's annual 2015 earnings release or such time as the approved \$50 million repurchase amount has been fully utilized, subject to certain conditions.

On November 3, 2015, the board of directors of the Company voted to add an additional independent director, Brian F. Wruble, to the board of directors effective as of November 5, 2015.

On November 5, 2015, the Company's board of directors declared a fourth quarter regular dividend of \$0.36 per share payable on December 31, 2015 to stockholders of record as of the close of business on December 17, 2015.

Item 3: Quantitative and qualitative disclosure about market risk

We are subject to financial market risks, including changes in interest rates. At September 30, 2015, 78.4% of our debt investments bore interest based on floating rates, such as LIBOR, EURIBOR, the Federal Funds Rate or the Prime Rate. The interest rates on such investments generally reset by reference to the current market index after one to six months. At September 30, 2015, the percentage of our floating rate debt investments that bore interest based on an interest rate floor was 77.5%. Floating rate investments subject to a floor generally reset by reference to the current market index after one to six months only if the index exceeds the floor.

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income. We assess our portfolio companies periodically to determine whether such companies will be able to continue making interest payments in the event that interest rates increase. There can be no assurances that the portfolio companies will be able to meet their contractual obligations at any or all levels of increases in interest rates.

Based on our September 30, 2015 balance sheet, the following table shows the annual impact on net income (excluding the related incentive compensation impact) of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

Basis Point Change	Interest income	Interest Expense	Net Income
Up 300 basis points	\$27,462,610	\$(12,915,000)	\$14,547,610
Up 200 basis points	16,654,872	(8,610,000)	8,044,872
Up 100 basis points	6,014,444	(4,305,000)	1,709,444
Down 100 basis points	(1,052,095)	1,425,386	373,290
Down 200 basis points	(1,052,095)	1,425,386	373,290

Item 4. Controls and Procedures

As of the period covered by this report, we, including our chief executive officer and chief financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on our evaluation, our management, including the chief executive officer and chief financial officer, concluded that our disclosure controls and procedures were effective in timely alerting management, including the chief executive officer and chief financial officer, of material information about us required to be included in our periodic SEC filings. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, are based upon certain assumptions about the likelihood of future events and can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. There has not been any change in our internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.
