Big 5's Largest Stockholder Nominates Three Highly Qualified, Independent Candidates to Company's Board

—Highlights Big 5's Sustained Underperformance—

NEW CANAAN, CT—March 17, 2015—Stadium Capital Management, LLC and its affiliates (collectively, “SCM”) today notified Big 5 Sporting Goods Corporation (NASDAQ: BGFV) that it will nominate three highly qualified, independent candidates to the Board of Directors of Big 5 at the 2015 Annual Meeting of Stockholders expected to be held in June 2015. The nominees are Dominic P. DeMarco, a Managing Director and Co-Chief Investment Officer of SCM and an existing member of the Board; Nicholas Donatiello, Jr., a consumer, media and technology strategist and a recognized corporate governance expert; and Michael J. McConnell, an investor and former chief executive officer of consumer-facing businesses with restructuring expertise. With beneficial ownership of over 11% of Big 5, SCM is the company's largest stockholder and has been an investor in Big 5 for nearly a decade.

Speaking for SCM's Investment Committee, Mr. DeMarco said: “It has become clear to us that the Board of Directors lacks a sufficient sense of urgency and the fresh perspectives necessary to unlock Big 5's full potential. Over the past one, five and ten years, Big 5 has underperformed its peer group, the S&P 600 Retailing Index and the Russell 2000 by a staggering amount. This level of underperformance is unacceptable, and we are confident that our fellow stockholders will agree that substantial change on the Board is needed.”

Mr. DeMarco continued: “We have tried to work constructively with the Board of Directors to improve Big 5's governance practices and board composition but have encountered resistance at every turn. At the upcoming annual meeting, we are delighted to offer stockholders a choice between the existing Board and its record of both weak governance and stockholder returns and our three highly qualified, independent nominees and their fresh perspectives.”

Also today SCM delivered a letter to Steven G. Miller, Big 5's Chairman, President and Chief Executive Officer, regarding SCM's continuing concerns with the company's governance practices. The full text of the letter follows:

March 17, 2015

Steven G. Miller

Chairman of the Board, President and Chief Executive Officer

Big 5 Sporting Goods Corporation

2525 East El Segundo Boulevard

El Segundo, CA 90245

Dear Steve:

As you know, Stadium Capital Management, LLC and its affiliates (“SCM”) currently own over 11% of the outstanding common stock of Big 5 Sporting Goods Corporation (“Big 5” or the “Company”), making SCM the Company’s largest stockholder. SCM has been a significant stockholder of the Company for nearly a decade. During this time, we

have done our best to work constructively with you and the rest of the Company's Board of Directors (the "Board") to improve the Company's operating performance and governance practices, in the furtherance of increasing stockholder value.

As part of this effort, Mr. DeMarco, a Managing Director of SCM, joined the Board in October, 2011. Upon arrival, he learned, among other things, that the Board did not have a comprehensive strategic plan, a systematic method to review store performance or a robust framework around capital structure decisions, among other things. We believe that Mr. DeMarco has taken a number of actions to remedy some of the Board's problems, including (i) helping the Board obtain and analyze the necessary data to improve rigor around topics including capital allocation and capital structure; (ii) formalizing the review of underperforming stores; and (iii) successfully advocating for the first multi-year strategic operating and capital plan produced by Company management in many directors' memories.

We believe that Mr. DeMarco's work on these and other issues has helped create substantial value for stockholders. Indeed, Mr. DeMarco's relatively short tenure on the Board encapsulates one of the few periods that the Company has generated acceptable stockholder returns. Recent events, however, as well as Mr. DeMarco's experience on the Board, have led us to conclude that having only one director who expresses a sense of urgency to improve stockholder value and improve the Company's operations and corporate governance is not sufficient.

For this reason, under separate cover, we have delivered formal notice of our nomination of two additional, exceptionally qualified candidates for election to the Board at the Company's 2015 Annual Meeting. We believe that these two candidates can bring insightful, experienced and new voices to the Board, and offer both the Board and stockholders the opportunity for substantial improvement in the Company's governance and ultimately its operating and stock price performance.

As we hope you will recognize upon a review of our nominees' qualifications, the candidates we are proposing in addition to Mr. DeMarco will bring fresh perspectives that will be essential to improving the Company's performance. SCM's candidates (other than Mr. DeMarco) are also independent of both SCM and the Company, which is critically important as the Company seeks to improve stockholder returns.

In contrast, the Company's existing directors (other than Mr. DeMarco) have served for many years on the Board, despite both conflicts of interest and minimal stock ownership in the Company. For example, one of the company's current "independent" directors, G. Michael Brown, whose term as a Company director expires this year, is a partner in a law firm that receives substantial fees from the Company. Institutional Shareholder Services ("ISS") actually recommended that stockholders "withhold" their votes from Mr. Brown during his last election to the Company's Board, and he received the support of less than half of the Company's outstanding shares. More generally, the Company's current independent directors (again excluding Mr. DeMarco), have an average tenure of greater than 9 years on the Board yet collectively own less than 1% of the Company's stock.

We believe that the Board’s unwillingness to take action to solve basic governance and performance problems at the Company can be traced to some of the issues outlined above. For example, despite the efforts of Mr. DeMarco and SCM, the Board has rejected efforts to adopt necessary changes in the Company’s governance structure, including (i) repealing the Company’s classified board so that all of the Company’s directors can be elected on an annual basis (ii) amending the Company’s bylaws to provide that directors seeking election to the board be elected by holders of a majority of the Company’s outstanding shares and (iii) eliminating the various provisions in the Company’s charter and bylaws that require “super-majority” votes and serve, in our view, to frustrate the will of a majority of stockholders.

As a result of the Board’s failure to fix these (and other) governance problems, the Company continues to receive unacceptably low and worsening marks for corporate governance. For example, the Company’s ISS “Quickscore” fell from 6 to 9 from 2013 to 2014 (with 1 indicating a lower risk and 10 being the highest risk). Specific “red flags”, which indicate that the “number of points in this subcategory are at the bottom of the possible range”, were cited for “takeover defenses” and “voting formalities”, problems that we believe would be solved if SCM’s proposals were adopted.

As stockholders know, an entrenched Board saddled with conflicts of interest and limited share ownership, coupled with poor governance practices, often produces subpar operating performance and unacceptable stockholder returns. Big 5, as illustrated by the charts below, is a most unfortunate example.

**Operating Income
Growth⁽¹⁾
1 Year 5 Year 10 Year**

Proxy Peer Group ⁽²⁾	-3.2%	156.8%	202.2%
Big 5	-46.9%	-33.2%	-60.8%

Underperformance vs. Proxy Peer Group -43.7% -190.0%-263.0%

**Total Stockholder
Return⁽³⁾
1 Year 5 Year 10 Year**

Russell 2000 Index	3.3%	93.8%	123.0%
S&P 600 Retailing Index	-0.8%	101.6%	88.0%
Proxy Peer Group ⁽²⁾	-8.9%	125.4%	135.2%
Big 5	-15.8%	-8.2%	-30.3%

Underperformance vs. Russell 2000 Index -19.0% -102.0%-153.3%

Underperformance vs. S&P 600 Retailing Index -14.9% -109.8%-118.3%

Underperformance vs. Proxy Peer Group -6.9% -133.6%-165.4%

The Company has produced negative long-term stockholder returns and underperformed both its peer group and relevant indices by staggering proportions.

There is no doubt that the status quo is no longer acceptable and that the time is now for the Board to operate with greater urgency, newer perspectives and without the obvious conflicts of interest that exist currently.

In closing, we have tremendous respect for Big 5's sixty-year history, strong culture and durable operating niche, and we believe the Company has the potential to generate substantial stockholder value. We hope that you will agree with us, however, that it is time to improve the Company's governance and Board, and that you will engage constructively with us to adopt the measures outlined above as well as reconstitute the Board with the most qualified and independent candidates. We have been patient, constructive investors in Big 5 for nearly a decade, and as the Company's largest stockholder we wish to continue to work with you and the Board, but we strongly believe that the Board must take urgent action to address the problems with the Company's current Board composition and governance structure. Stockholders have waited long enough.

Sincerely,

The Investment Committee of Stadium Capital Management, LLC
