**Item 1.01. Entry Into a Material Definitive Agreement.**

On January 12, 2016 (the “**Execution Date**”), Phibro Animal Health Corporation (“**Phibro**”) entered into an Asset Purchase Agreement (the “**Agreement**”) among Phibro, MVP Laboratories, Inc., a Nebraska corporation (“**MVP**”), Mary Lou Chapek (the “**Principal Shareholder**”) and AVP, LLC, a Nebraska limited liability company (“**LLC**” and, collectively with MVP and the Principal Shareholder, the “**Sellers**”).

The Sellers, through MVP, are engaged in the registration, development, importation, manufacturing, marketing, sale and distribution to veterinary clinics and livestock operations of vaccines, adjuvants and other products (“**Sellers’ Business**”). MVP is the manufacturer of an autogenous vaccine against porcine reproductive and respiratory syndrome that Phibro exclusively distributes pursuant to an agreement between Phibro and MJ Biologics, Inc.

Pursuant to the Agreement, the Sellers have agreed to sell, and Phibro has agreed to acquire, all of the assets used or held for use in the conduct of the Sellers’ Business (the “**Transaction**”), including intellectual property, working capital, manufacturing equipment and real property and facilities owned by MVP and LLC (the “**Assets**”). Pursuant to the Agreement, the Assets will be acquired by Phibro for an aggregate purchase price of approximately \$46.5 million (the “**Purchase Price**”) payable at closing. The Purchase Price is subject to net working capital and certain other adjustments at and after closing.

The Agreement may be terminated (i) by mutual consent; (ii) by the non-breaching party due to a material, unwaived breach of the Agreement by either Phibro or the Sellers; (iii) by Phibro or the Sellers due to the failure of their respective conditions to closing to be satisfied or waived within 60 days of the Execution Date; or (iv) by Phibro or the Sellers due to the failure of the Transaction to close within 60 days of the Execution Date, provided that a party may not terminate the Agreement if its breach prevented the consummation of the transactions contemplated by the Agreement.

The Agreement contains customary representations, warranties and covenants by the Sellers and Phibro. A portion of the Purchase Price will be held in escrow for a limited time to secure the indemnification obligations of the Sellers.

Phibro intends to draw on its current revolving credit facility to finance the Transaction. Subject to customary closing conditions, Phibro expects to complete the Transaction in January, 2016.

This description of the Agreement is a summary only and is qualified in its entirety by the full and complete terms of the Agreement. The Company expects to file the Agreement as an exhibit to its quarterly report on Form 10-Q for the period ending March 31, 2016.
