NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

Quarter and six months ended October 2, 2016

(Amounts in thousands except share and per share data unless otherwise indicated)

1. Basis of Presentation and Responsibility for Interim Financial Statements

Nature of Operations. Vista Outdoor Inc. (together with our subsidiaries, "we", "our", and "us") is a leading global designer, manufacturer, and marketer of consumer products in the growing outdoor sports and recreation markets. We operate in two segments, Outdoor Products and Shooting Sports. Vista Outdoor is headquartered in Farmington, Utah and has manufacturing operations and facilities in 13 U.S. States, Canada, Mexico, and Puerto Rico along with international customer service, sales, and sourcing operations in Asia, Australia, Canada, Europe, and New Zealand. Vista Outdoor was incorporated in Delaware in 2014.

This Quarterly Report on Form 10-Q should be read in conjunction with our consolidated and combined financial statements and notes included in our fiscal 2016 financial statements as filed on Form 8-K on August 11, 2016.

Basis of Presentation. Our unaudited condensed consolidated financial statements have been prepared in accordance with the requirements of the SEC for interim reporting. As permitted under those rules, certain disclosures and other financial information that are normally required by accounting principles generally accepted in the United States can be condensed or omitted. Our accounting policies are described in the notes to the consolidated and combined financial statements in our Annual Report on Form 10-K for the fiscal year ended March 31, 2016 ("fiscal 2016"). Management is responsible for the condensed consolidated financial statements included in this document, which are unaudited but, in the opinion of management, include all adjustments necessary for a fair presentation of our financial position as of October 2, 2016 and March 31, 2016, our results of operations for the quarters and six month periods ended October 2, 2016 and October 4, 2015 and our cash flows for the six months ended October 2, 2016 and October 4, 2015.

New Accounting Pronouncements. On February 25, 2016, the FASB issued ASU 2016-02, Leases. The new guidance was issued to increase transparency and comparability among companies by requiring most leases be included on the balance sheet and by expanding disclosure requirements. Based on the current effective dates, the new guidance would first apply in the first quarter of our fiscal 2020. We are in the process of evaluating the effect of adoption on our financial statements.

On March 30, 2016, the FASB issued Accounting Standard Update No. 2016-09 Improvements to Employee Share-Based Payment Accounting, which simplifies several aspects of the accounting for employee share-based payment transactions including the accounting for income taxes, forfeitures and classification in the statement of cash flows. The standard allows for early adoption. As of March 31, 2016 we elected to early adopt this standard and prospectively present the change to the financial statements given the immaterial nature of the prior period balances.

Besides those noted above and in our fiscal 2016 financial statements there are no other new accounting pronouncements that are expected to have a significant impact on our condensed consolidated financial statements.

2. Fair Value of Financial Instruments

The current authoritative guidance on fair value clarifies the definition of fair value, prescribes a framework for measuring fair value, establishes a fair value hierarchy based on the inputs used to measure fair value, and expands disclosures about the use of fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The valuation techniques required by the current authoritative literature are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect

internal market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1—Quoted prices for identical instruments in active markets.

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3—Significant inputs to the valuation model are unobservable.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited) (Continued)

(Amounts in thousands except share and per share data unless otherwise indicated)

2. Fair Value of Financial Instruments (Continued)

The following section describes the valuation methodologies we used to measure our financial instruments at fair value.

Long-term debt—The fair value of the variable-rate long-term debt is calculated based on current market rates for debt of the same risk and maturities. The fair value of the fixed-rate long-term debt is based on market quotes for the outstanding notes. We consider these to be Level 2 instruments.

Contingent Consideration—The acquisition-related contingent consideration liability represents the estimated fair value of additional future earn-outs payable for acquisitions of businesses that included earn-out clauses. The valuation of the contingent consideration will be evaluated on an ongoing basis and is based on management estimates and entity-specific assumptions which are considered Level 3 inputs. See Note 4 for further details.

The following table presents our financial assets and liabilities that are not measured at fair value on a recurring basis.

The carrying values and estimated fair values were as follows:

	October 2, 2016		March 31, 2016	
	Carrying amount	Fair value	Carrying amount	Fair value
Fixed-rate debt	\$ 350,000	\$ 367,938	\$ 350,000	\$ 366,625
Variable-rate debt	784,000	784,000	332,500	332,500

3. Earnings Per Share

The computation of earnings per share ("EPS") includes Basic EPS computed based upon the weighted average number of common shares outstanding for each period. Diluted EPS is computed based on the weighted average number of common shares and common equivalent shares. Common equivalent shares represent the effect of stock-based awards during each period presented, which, if exercised or earned, would have a dilutive effect on EPS.

In computing EPS for the quarters and six month periods ended October 2, 2016 and October 4, 2015, earnings, as reported for each respective period, is divided by:

(in thousands)	Quarter ended		Six months ended	
	October 2, 2016	October 4, 2015	October 2, 2016	October 4, 2015
Basic EPS shares outstanding	59,710	62,816	60,055	63,064
Dilutive effect of stock-based awards	345	339	345	342
Diluted EPS shares outstanding	60,055	63,155	60,400	63,406
Shares excluded from the calculation of diluted EPS because the option exercise/threshold price was greater than the average market price of the common shares	139	68	139	68
Share Repurchases				

On February 25, 2015, our Board of Directors authorized a share repurchase program of up to \$200,000 worth of shares of our common stock, executable over two years. We completed this program during the quarter ended October 2, 2016. On August 25, 2016, our Board of Directors authorized a new share repurchase program of up to \$100,000 worth of our common stock, executable through March 31, 2018. The shares may be purchased from time to time in open market, block purchase, or negotiated transactions, subject to compliance with applicable laws and regulations. The repurchase authorization also allows us to make repurchases under Rule 10b5-1 of the Securities Exchange Act of 1934. During the quarters ended October 2, 2016 and October 4, 2015, we repurchased 1,074,489 shares for \$44,290 and 689,893 shares for \$31,110, respectively. During the six months ended October 2, 2016 and October 4, 2015, we repurchased 1,536,014 shares for \$66,567 and 1,201,707 shares for \$54,018, respectively. Since the inception of the programs through October 2, 2016, we have repurchased 4,877,100 shares for \$215,637.

Any additional repurchases would be subject to market conditions and our compliance with our debt covenants.

4. Acquisitions

Acquisition of Camp Chef

On September 1, 2016, we completed the acquisition of privately owned Logan Outdoor Products, LLC and Peak Trades, LLC ("Camp Chef"), a leading provider of outdoor cooking solutions. Under the terms of the transaction, we paid \$60,000, subject to customary working capital adjustments, utilizing cash on hand and borrowings under our existing credit facility. An additional \$4,000 has been deferred and will be paid in equal installments on the first, second and third anniversary of the closing date and \$10,000 will be payable if incremental profitability growth milestones are met and key members of Camp Chef management continue their employment with us. The \$10,000 will be expensed over the three-year measurement period and paid at each milestone date. The preliminary purchase price allocation is subject to further refinement and may require significant adjustments to arrive at the final purchase price allocation. A majority of the goodwill generated in this acquisition will be deductible for tax purposes. Camp Chef is an immaterial acquisition to our company.

Acquisition of Action Sports

On April 1, 2016, we completed the acquisition of BRG Sports Inc.'s Action Sports division, operated by Bell Sports Corp. The acquisition includes brands Bell, Giro, Blackburn, CoPilot, Krash, and Raskullz. Under the terms of the transaction, we paid \$400,000, subject to customary working capital adjustments, utilizing cash on hand and borrowings under our existing credit facilities, and additional contingent consideration payable if incremental profitability growth milestones within the Bell Powersports product line are achieved. We determined a value of the future contingent consideration as of the acquisition date of \$4,272 utilizing the Black Scholes option pricing model; the total amount paid may differ from this value. The option pricing model requires us to make assumptions including the risk-free rate, expected volatility, cash flows, and expected life. The risk-free rate is based on U.S. Treasury zero-coupon issues with a remaining term that approximates the expected life assumed at the date of grant. The expected option life is based on the contractual term of the agreement. Expected volatility is based on the average volatility of similar public companies' stock over the past three years. The discounted cash flows are based on our estimates of future performance of the business.

Action Sports remains headquartered in Scotts Valley, California and operates facilities in the U.S., Canada, Europe and Asia. The acquisition of Action Sports includes more than 600 employees worldwide. The preliminary purchase price allocation is subject to further refinement and may require significant adjustments to arrive at the final purchase price allocation. A portion of the goodwill generated in this acquisition will be deductible for tax purposes.

Acquisition of CamelBak Products

On August 3, 2015, we completed the acquisition of CamelBak Products, LLC ("CamelBak") for total consideration of \$412,500, subject to a customary working capital adjustment, utilizing cash on hand and borrowings under our existing credit facilities. CamelBak is the leading provider of personal hydration solutions for outdoor, recreation and military use. CamelBak's products include hydration packs, reusable bottles and individual purification and filtration systems. CamelBak has approximately 300 employees worldwide. The purchase price allocation was completed during the quarter ended October 2, 2016. A portion of the goodwill generated in this acquisition will be deductible for tax purposes.

Acquisition of Jimmy Styks

On July 20, 2015, we completed the acquisition of Jimmy Styks, LLC ("Jimmy Styks"), using \$40,000 of cash on hand with additional contingent consideration payable if incremental profitability growth milestones are achieved over the next three years. We determined a value of the future contingent consideration as of the acquisition date of \$4,471 utilizing the Black Scholes option pricing model; the total amount paid may differ from this value. The option pricing model requires us to make assumptions including the risk-free rate, expected volatility, cash flows, and expected life. The risk-free rate is based on U.S. Treasury zero-coupon issues with a remaining term that approximates the expected life assumed at the date of grant. The expected option life is based on the contractual term of the agreement. Expected volatility is based on the average volatility of similar public companies' stock over the past three years. The discounted cash flows are based on our estimates of future performance of the business. As of October 2, 2016, the value of the future contingent consideration was \$1,075. The reduction from the original estimate was primarily a result of not achieving the first growth milestone.

Bushnell acquisition settlement

During the quarter ended October 2, 2016, we finalized a settlement of claims that we brought against the previous owner of Bushnell Holdings and third party insurance providers relating to certain disputes arising under the purchase agreement with respect to the acquisition. A settlement was reached in which we received a total of \$30,027 net of current period litigation costs associated with the claims. Separately, in accordance with the purchase agreement, we paid the previous owner for certain tax deductions in the amount of \$7,136, which were taken on the final pre-acquisition income tax return of Bushnell Holdings.

Allocation of Consideration Transferred to Net Assets Acquired for Action Sports and CamelBak:

The following amounts represent the preliminary determination of the fair value of identifiable assets acquired and liabilities assumed from the Action Sports acquisition and the final determination for the CamelBak acquisition. The final determination of the fair value of certain assets and liabilities for Action Sports will be completed within the required measurement period, which will be no later than 12 months from the date of acquisition. The size and breadth of the Action Sports acquisition will necessitate the use of this measurement period to adequately analyze and assess a number of the factors used in establishing the asset and liability fair values as of the acquisition date, including the significant contractual and operational factors underlying the trade name and customer relationship intangible assets and the related tax impacts of any changes made. Any potential adjustments made could be material in relation to the preliminary values presented below:

4. Acquisitions (Continued)

Supplemental Pro Forma Data for Action Sports and CamelBak:

We used the acquisition method of accounting to account for these acquisitions and, accordingly, the results of Action Sports and CamelBak are included in our consolidated financial statements for the period subsequent to the date of acquisition. The following unaudited supplemental pro forma data for the quarter and six months ended October 2, 2016 and October 4, 2015 present consolidated information as if the CamelBak acquisition had been completed on April 1, 2014 and the Action Sports acquisition had been completed on April 1, 2015. The pro forma results were calculated by combining our results with the standalone results of Action Sports and CamelBak for the pre-acquisition periods, which were adjusted to account for certain costs which would have been incurred during this pre-acquisition period:

(Amounts in thousands except per share data)	Quarter ended		Six months ended	
	October 2, 2016	October 4, 2015	October 2, 2016	October 4, 2015
Sales	\$684,312	\$659,474	\$1,314,581	\$1,299,724
Net income	73,224	41,413	103,801	78,156
Basic earnings per common share	1.23	0.66	1.73	1.24
Diluted earnings per common share	1.22	0.66	1.72	1.23

The unaudited supplemental pro forma data above include the following significant non-recurring adjustments made to account for certain costs which would have been incurred if the CamelBak acquisition had been completed on April 1, 2014 and the Action Sports acquisition had been completed on April 1, 2015, as adjusted for the applicable tax impact:

	Quarter ended	Six months ended	
	October 2, 2016	October 4, 2015	October 4, 2015
Inventory step-up, net ⁽¹⁾	\$—	\$(334)	\$168
Fees for advisory, legal, accounting services ⁽²⁾	—	(3,940)	(3,275)

(1) Adjustment reflects the increased cost of goods sold expense resulting from the fair value step-up in inventory of \$817 for Action Sports and \$1,043 for CamelBak which was expensed over the first inventory cycle.

(2) We removed the fees that were incurred in connection with the acquisition of Action Sports from fiscal 2017 and considered those fees as incurred during the first quarter of fiscal 2016. Costs were recorded in Selling, general, and administrative expense. We have incurred total of \$2,837 in fees in connection with the acquisition of Action Sports during fiscal 2016 and 2017. We removed the fees that were incurred in connection with the acquisition of CamelBak from fiscal 2016 and considered those fees as incurred during the first quarter of fiscal 2015.

Credit Agreement

On April 1, 2016, we entered into an Amended and Restated Credit Agreement (the "2016 Credit Agreement"), which replaced our 2014 Credit Agreement. The 2016 Credit Agreement is comprised of a Term A Loan of \$640,000 and a \$400,000 Revolving Credit Facility, both of which mature on April 1, 2021. The Term A Loan is subject to quarterly principal payments of \$8,000, with the remaining balance due on April 1, 2021. Borrowings under the 2016 Credit Agreement bear interest at a rate equal to either the sum of a base rate plus a specified margin or the sum of a Eurodollar rate plus a specified margin. Each margin is based on our consolidated leverage ratio, as defined in the 2016 Credit Agreement. Based on the ratio in effect as of October 2, 2016, the base rate margin was 0.75% and the Eurodollar margin was 1.75%. The weighted average interest rate for our borrowings under the 2016 Credit Agreement as of October 2, 2016 was 2.30%. We pay a commitment fee on the unused portion of the Revolving Credit Facility based on our consolidated leverage ratio, and based on the current ratio, this fee is 0.30%. As of October 2, 2016, we had \$160,000 in borrowings against our \$400,000 Revolving Credit Facility and had outstanding letters of credit of \$28,429, which reduced amounts available on the Revolving Credit Facility to \$211,571.

With the exception of assets owned by the legal entities operating the Action Sports and Camp Chef businesses, substantially all domestic tangible and intangible assets of Vista Outdoor and its subsidiaries, as well as the tangible and intangible assets of Advanced Arrow S. de R.L. de C.V. and Hydrosport, S. de R.L. de C.V., are pledged as collateral under the 2016 Credit Agreement. The domestic tangible and intangible assets of Action Sports and Camp Chef are expected to be pledged as collateral during fiscal 2017. Debt issuance costs of approximately \$12,000 are being amortized over the term of the 2016 Credit Agreement.

In fiscal 2014, we entered into a credit agreement (the "2014 Credit Agreement"), which was comprised of a Term A Loan of \$350,000 and a Revolving Credit Facility of \$400,000, both of which were to mature on February 9, 2020. During the quarter ended July 3, 2016, we refinanced this agreement as noted above. In connection with this transaction, we wrote off \$1,521 of unamortized deferred debt issuance costs in the quarter ended July 3, 2016.

5.875% Notes

On August 11, 2015, we issued \$350,000 aggregate principal amount of 5.875% Senior Notes (the "5.875% Notes") that mature on October 1, 2023. These notes are unsecured and senior obligations. Interest on these notes is payable

semi-annually in arrears on April 1 and October 1 of each year, starting on April 1, 2016. We have the right to redeem some or all of these notes from time to time on or after October 1, 2018, at specified redemption prices. Prior to October 1, 2018, we may redeem some or all of these notes at a price equal to 100% of their principal amount plus accrued and unpaid interest to the date of redemption and a specified make-whole premium. In addition, prior to October 1, 2018, we may redeem up to 35% of the aggregate principal amount of these notes with the net cash proceeds of certain equity offerings, at a price equal to 105.875% of

their principal amount plus accrued and unpaid interest to the date of redemption. Debt issuance costs of approximately \$4,300 are being amortized to interest expense over 8 years, the term of the notes.

Rank and Guarantees

The 2016 Credit Agreement obligations are guaranteed on a secured basis, jointly and severally and fully and unconditionally by substantially all of our domestic subsidiaries, with the exception of the legal entities operating the Action Sports and Camp Chef businesses, and by Advanced Arrow S. de R.L. de C.V. and Hydrosport, S. de R.L. de C.V., as described above. Vista Outdoor (the parent company issuer) has no independent assets or operations. We own 100% of all of these guarantor subsidiaries. The 5.875% Notes are senior unsecured obligations and will rank equally in right of payment with any future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness. The 5.875% Notes are fully and unconditionally guaranteed, jointly and severally, by our existing and future domestic subsidiaries that guarantee indebtedness under our 2016 Credit Agreement or that guarantee certain of our other indebtedness, or indebtedness of any subsidiary guarantor, in an aggregate principal amount in excess of \$50,000. These guarantees are senior unsecured obligations of the applicable subsidiary guarantors. The guarantee by any subsidiary guarantor of our obligations in respect of the 5.875% Notes will be released in any of the following circumstances:

- if, as a result of the sale of its capital stock, such subsidiary guarantor ceases to be a restricted subsidiary;
- if such subsidiary guarantor is designated as an “Unrestricted Subsidiary;”
- upon defeasance or satisfaction and discharge of the 5.875% Notes; or
- if such subsidiary guarantor has been released from its guarantees of indebtedness under the 2016 Credit Agreement and all capital markets debt securities.

The guarantee by any subsidiary guarantor of our obligations in respect of the 2016 Credit Agreement will be released in any of the following circumstances:

- if, as a result of the sale of its capital stock, such subsidiary guarantor ceases to be a subsidiary;
- if such subsidiary guarantor ceases to be a Domestic Subsidiary; or
- upon repayment of all obligations under the 2016 Credit Agreement.

Cash Paid for Interest on Debt

Cash paid for interest on debt, including commitment fees, for the six months ended October 2, 2016 and October 4, 2015 totaled \$21,629 and \$4,683, respectively.

11. Employee Benefit Plans

The total expense for employee benefit plans for the quarter and six months ended October 2, 2016 and October 4, 2015 was \$1,690 and \$1,825, and \$3,381 and \$3,650 respectively.

Employer Contributions. During the six months ended October 2, 2016, we made the legally required minimum contribution of \$2,200 directly to the pension trust, and no contributions to our other postretirement benefit plans. We made distributions of \$12 directly to retirees under the non-qualified supplemental executive retirement plan. During the six months ended October 4, 2015, we made no contributions directly to the pension trust or to our other postretirement benefit plans, and no distributions to retirees under the non-qualified supplemental executive retirement plan. We also expect to contribute an additional \$2,200 directly to the pension trust and approximately \$174 to our other postretirement benefit plans, and distribute approximately \$688 directly to retirees under our supplemental executive retirement plans during the remainder of fiscal 2017.

12. Income Taxes

Our provision for income taxes includes federal, foreign, and state income taxes. Income tax provisions for interim periods are based on estimated effective annual income tax rates.

The income tax provisions for the quarters ended October 2, 2016 and October 4, 2015 represent effective tax rates of 22.4% and 39.7%, respectively. The decrease in the rate from the prior year quarter is primarily caused by a nontaxable acquisition claim settlement gain and settlement of the examination by the IRS of the fiscal 2013 and 2014 tax returns in the current quarter.

12. Income Taxes (Continued)

The income tax provision for the six months ended October 2, 2016 and October 4, 2015 represent effective tax rates of 27.7% and 39.8%, respectively. The decrease in the rate from the prior year period is primarily caused by a nontaxable acquisition claim settlement gain and settlement of the examination by the IRS of the fiscal 2013 and 2014 tax returns in the current period.

We entered into a Tax Matters Agreement with Orbital ATK that governs the respective rights, responsibilities and obligations of Vista Outdoor and Orbital ATK after the distribution of all of the shares of our common stock on a pro rata basis to the holders of Alliant Techsystems Inc. common stock (the “Spin-Off”) with respect to tax liabilities and benefits, tax attributes, tax contests and other tax sharing regarding U.S. federal, state, local and foreign income taxes, other tax matters and related tax returns. We have joint and several liability with Orbital ATK to the IRS for the consolidated U.S. federal income taxes of the Orbital ATK consolidated group relating to the taxable periods in which we were part of that group. However, the Tax Matters Agreement specifies the portion, if any, of this tax liability for which we bear responsibility, and Orbital ATK agrees to indemnify us against any amounts for which we are not responsible. The Tax Matters Agreement also provides special rules for allocating tax liabilities in the event that the Spin-Off is determined not to be tax-free. Though valid as between the parties, the Tax Matters Agreement is not binding on the IRS.

Prior to the Spin-Off, Orbital ATK or one of its subsidiaries filed income tax returns in the U.S. federal and various U.S. state jurisdictions which included Vista Outdoor. In addition, certain of our subsidiaries filed income tax returns in foreign jurisdictions. After the Spin-Off we are filing income tax returns in the U.S. federal, foreign and various U.S. state jurisdictions. With a few exceptions, Orbital ATK and its subsidiaries and Vista are no longer subject to U.S. federal, state and local, or foreign income tax examinations by tax authorities prior to 2009. The IRS has completed the audits of Orbital ATK through fiscal year 2014. The IRS is currently auditing our tax return for the period that begins after the Spin-Off (February 9, 2015) and ends on March 31, 2015. We believe appropriate provisions for all outstanding issues relating to our portion of these returns have been made for all remaining open years in all jurisdictions.

Although the timing and outcome of audit settlements are uncertain, it is reasonably possible that a \$2,472 reduction of the uncertain tax benefits will occur in the next 12 months. The settlement of these unrecognized tax benefits could result in earnings from \$0 to \$1,700.

13. Contingencies

Litigation. From time to time, we are subject to various legal proceedings, including lawsuits, which arise out of, and are incidental to, the conduct of our business. We do not consider any of such proceedings that are currently pending, individually or in the aggregate, to be material to our business or likely to result in a material adverse effect on our operating results, financial condition, or cash flows.

Environmental Liabilities. Our operations and ownership or use of real property are subject to a number of federal, state, and local environmental laws and regulations, as well as applicable foreign laws and regulations, including those governing the discharge of hazardous materials, remediation of contaminated sites, and restoration of damage to the environment. We are obligated to conduct investigation and/or remediation activities at certain sites that we own or operate or formerly owned or operated.

We also have been identified as a potentially responsible party (“PRP”), along with other parties, in a regulatory agency action associated with hazardous waste sites. As a PRP, we may be required to pay a share of the costs of the investigation and clean-up of these sites. While uncertainties exist with respect to the amounts and timing of the ultimate environmental liabilities, based on currently available information, we have concluded that these matters, individually or in the aggregate, will not have a material adverse effect on our operating results, financial condition, or cash flows. We have recorded a liability for environmental remediation of \$765 as of October 2, 2016 and March 31,

2016.

We could incur substantial additional costs, including cleanup costs, resource restoration, fines, and penalties or third-party property damage or personal injury claims, as a result of violations or liabilities under environmental laws or non-compliance with environmental permits. While environmental laws and regulations have not had a material adverse effect on our operating results, financial condition, or cash flows in the past, and we have environmental management programs in place to mitigate these risks, it is difficult to predict whether they will have a material impact in the future.

Financial Highlights and Notable Events

Certain notable events or activities affecting our fiscal 2017 financial results included the following:

Financial highlights for the quarter ended October 2, 2016

Quarterly sales were \$684,312 and \$551,377 for the quarters ended October 2, 2016 and October 4, 2015,

respectively. The increase is due to the acquisition of Action Sports, CamelBak, Camp Chef and Jimmy Styks, and increases in Shooting Sports and organic growth in the Outdoor Products segment.

Gross Profit was \$185,409 and \$149,024 for the quarters ended October 2, 2016 and October 4, 2015, respectively.

The increase is due to the acquisition of Action Sports, CamelBak, Camp Chef and Jimmy Styks, and an increase in Shooting Sports partially offset by an organic decline in the Outdoor Products segment.

- We finalized a settlement of claims that we brought against the previous owner of Bushnell Holdings and third party insurance providers relating to certain disputes arising under the purchase agreement with respect to the acquisition. A settlement was reached in which we received a total of \$30,027 net of current period litigation costs associated with the claims.
-

Edgar Filing: Vista Outdoor Inc. - Form 10-Q

The decrease in the current quarter's tax rate to 22.4% from 39.7% in the quarter ended October 4, 2015 was primarily caused by a nontaxable acquisition claim settlement gain and settlement of the examination by the IRS of the fiscal 2013 and 2014 tax returns in the current quarter.

Other notable events affecting fiscal 2017

On April 1, 2016, we completed the acquisition of BRG Sports Inc.'s Action Sports division, operated by Bell Sports Corp. The acquisition includes brands Bell, Giro, Blackburn, CoPilot, Krash, and Raskullz. Under the terms of the transaction, we paid \$400,000, subject to customary working capital adjustments, utilizing cash on hand and borrowings under our existing credit facilities and additional contingent consideration payable if incremental profitability growth milestones within the Bell Powersports product line are achieved.

On April 1, 2016, we entered into an Amended and Restated Credit Agreement (the "2016 Credit Agreement"), which replaced the 2014 Credit Agreement. The 2016 Credit Agreement is comprised of a Term A Loan of \$640,000 and a \$400,000 Revolving Credit Facility, both of which mature on April 1, 2021. The Term A Loan is subject to quarterly principal payments of \$8,000, with the remaining balance due on April 1, 2021.

On September 1, 2016, we completed the acquisition of privately owned Logan Outdoor Products, LLC and Peak Trades, LLC ("Camp Chef"), a leading provider of outdoor cooking solutions. Under the terms of the transaction, we paid \$60,000, subject to customary working capital adjustments, utilizing cash on hand and borrowings under our existing credit facility. An additional \$4,000 has been deferred and will be paid in equal installments on the first, second and third anniversary of the closing date and \$10,000 will be payable if incremental profitability growth milestones are met and key members of Camp Chef management continue their employment with us. The \$10,000 will be expensed over the measurement period and paid at each milestone date.

We completed our \$200,000 share repurchase program authorized on February 25, 2015 during the quarter ended October 2, 2016. On August 25, 2016, our Board of Directors authorized a new share repurchase program of up to \$100,000 worth of our common stock, executable through March 31, 2018. During the six months ended October 2, 2016, we repurchased approximately 1,536,014 shares of our common stock for \$66,567.

On August 25, 2016, we exchanged our \$350,000 of outstanding unregistered 5.875% Notes for the equivalent amount of registered notes.

Outlook

The current year has seen an increase in the number of new long-gun background checks as evidenced by The National Instant Criminal Background Check System. This increase, along with higher sales on a year-over-year basis within Shooting Sports indicates that this market has stabilized.

We still see a challenging retail environment in the second half of the year, and promotional activity is likely to continue in the markets in which we participate.

Critical Accounting Policies

Our critical accounting policies are described in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended March 31, 2016. We believe our critical accounting policies are those related to:

- revenue recognition,
- allowance for doubtful accounts,
- inventories,
- income taxes,
- acquisitions, and

•accounting for goodwill and indefinite lived intangibles.

The accounting policies used in preparing our interim fiscal 2017 consolidated financial statements are the same as those described in our Annual Report on Form 10-K.

Acquisitions

We had two acquisitions during the six months ended October 2, 2016 and two during fiscal 2016 as follows:

Acquisition of Camp Chef

On September 1, 2016, we completed the acquisition of privately owned Logan Outdoor Products, LLC and Peak Trades, LLC ("Camp Chef"), a leading provider of outdoor cooking solutions. Under the terms of the transaction, we paid \$60,000, subject to customary working capital adjustments, utilizing cash on hand and borrowings under our existing credit facility. An additional \$4,000 has been deferred and will be paid in equal installments on the first, second and third anniversary of the closing date and \$10,000 will be payable if incremental profitability growth milestones are met and key members of Camp Chef management continue their employment with us. The \$10,000 will be expensed over the measurement period and paid at each milestone date.

Acquisition of Action Sports

On April 1, 2016, we completed the acquisition of BRG Sports Inc.'s Action Sports division, operated by Bell Sports Corp. The acquisition includes brands Bell, Giro, Blackburn, CoPilot, Krash, and Raskullz. Under the terms of the transaction, we paid \$400,000 in cash, subject to customary working capital adjustments, and additional contingent consideration payable if incremental profitability growth milestones within the Bell Powersports product line are achieved. We determined a value of the future contingent consideration as of the acquisition date of \$4,272 utilizing the Black Scholes option pricing model; the total amount paid may differ from this value. Action Sports remains headquartered in Scotts Valley, California and operates facilities in the U.S., Canada, Europe and Asia. The acquisition of Action Sports includes more than 600 employees worldwide.

Acquisition of CamelBak Products

On August 3, 2015, we completed the acquisition of CamelBak Products, LLC ("CamelBak") for total consideration of \$412,500, subject to a customary working capital adjustment, utilizing cash on hand and borrowings under our existing credit facilities. CamelBak is the leading provider of personal hydration solutions for outdoor, recreation and military use. CamelBak's products include hydration packs, reusable bottles and individual purification and filtration systems. CamelBak has approximately 300 employees worldwide.

Acquisition of Jimmy Styks

We determined a value of the future contingent consideration as of the acquisition date of \$4,471 utilizing the Black Scholes option pricing model; the total amount paid may differ from this value. Jimmy Styks is a leading designer and marketer of stand up paddle boards and related accessories. Jimmy Styks' stand up paddle board portfolio provides easy-to-use platforms for water sport enthusiasts engaging in activities ranging from personal fitness to fishing and will help us expand our Outdoor Products operating segment. Jimmy Styks offers nearly 30 SKUs in epoxy, inflatable, soft and thermoform boards, as well as accessories. As of October 2, 2016, the value of the

future contingent consideration was \$1,075. The reduction from the original estimate was primarily a result of not achieving the first growth milestone.

Liquidity and Capital Resources

We manage our business to maximize operating cash flows as the primary source of liquidity. In addition to cash on hand and cash generated by operations, sources of liquidity include a committed credit facility and access to the public debt and equity markets. We use our cash to fund investments in our existing core businesses and for debt repayment, share repurchases, and acquisitions or other activities.

Cash Flow Summary

Our cash flows from operating, investing and financing activities, as reflected in the unaudited condensed consolidated statements of cash flows for the six months ended October 2, 2016 and October 4, 2015 are summarized as follows:

	October 2, 2016	October 4, 2015
Cash provided by operating activities	\$10,183	\$17,495
Cash used for investing activities	(489,200)	(479,268)
Cash provided by financing activities	375,818	284,506
Effect of foreign exchange rate fluctuations on cash	(218)	(552)
Net cash flows	\$(103,417)	\$(177,819)

Operating Activities.

Net cash provided by operating activities was \$10,183 compared to \$17,495 in the prior year period, a change of \$7,312. The change from the prior year period was primarily a result of increased working capital in the current period, partially offset by the receipt of cash related to the settlement of claims related to the Bushnell acquisition. The change in working capital was driven by timing of payments and collections.

Investing Activities.

Net cash used for investing activities was \$489,200 compared to \$479,268 in the prior year period, a change of \$9,932. The change is primarily driven by an increase in capital expenditures due to our ammunition capacity expansion project.

Financing Activities.

Net cash provided by financing activities was \$375,818, compared to \$284,506 in the prior year period, a change of \$91,312. This change was primarily due to an increase in the amount of debt issued to fund our acquisitions.

Liquidity

In addition to our normal operating cash requirements, our principal future cash requirements will be to fund capital expenditures, debt repayments, employee benefit obligations, share repurchases, and any strategic acquisitions. Our short-term cash requirements for operations are expected to consist mainly of capital expenditures to maintain and expand production facilities and working capital requirements. Our debt service requirements over the next two years consist of principal and interest payments due under the 2016 Credit Agreement, as well as interest payments on the 5.875% Notes, as discussed further below.

Based on our current financial condition, management believes that our cash position, combined with anticipated generation of cash flows and the availability of funding, if needed, through our 2016 Credit Agreement, access to debt and equity markets, as well as potential future sources of funding including additional bank financing, will be adequate to fund future growth as well as to service our currently anticipated long-term debt and pension obligations and make capital expenditures over the next 12 months.

We do not expect that our access to liquidity sources will be materially impacted in the near future. There can be no assurance, however, that the cost or availability of future borrowings, if any, will not be materially impacted by capital market conditions.

Our 2016 Credit Agreement imposes restrictions on us, including limitations on our ability to incur additional debt, enter into capital leases, grant liens, pay dividends and make certain other payments, sell assets, make loans and investments, or merge or consolidate with or into another entity. In addition, the 2016 Credit Agreement limits our ability to enter into sale-and-leaseback transactions. The 2016 Credit Agreement allows us to make unlimited "restricted payments" (as defined in the 2016 Credit Agreement), which, among other items, allows payments for future share repurchases and dividends, as long as we maintain a certain amount of liquidity and maintain certain debt limits. When those requirements are not met, the limit under the 2016 Credit Agreement is equal to \$150,000 plus proceeds of any equity issuances plus 50% of net income since February 9, 2015.

The 2016 Credit Agreement contains financial covenants that require us to maintain a consolidated interest coverage ratio (as defined in the Credit Agreement) of not less than 3.00 to 1.00 and to maintain a consolidated leverage ratio (as defined in the Credit Agreement) of 3.50 to 1.00 or less. Our financial covenant ratios as of October 2, 2016 were as follows:

	Interest Coverage Ratio*	Leverage Ratio†
Requirement	3.00	3.50
Actual	10.23	2.86

* Not to be below the required financial ratio

† Not to exceed the required financial ratio

The Leverage Ratio is the sum of our total debt plus financial letters of credit and surety bonds, net of up to \$75,000 of cash, divided by Covenant EBITDA (which includes adjustments for items such as non-recurring or extraordinary non-cash items, non-cash charges related to stock-based compensation, and intangible asset impairment charges, as well as inclusion of EBITDA of acquired companies on a pro forma basis) for the past four fiscal quarters. The Interest Coverage Ratio is Covenant EBITDA divided by pro forma interest expense (excluding non-cash charges).

5.875% Notes

The indenture governing the 5.875% Notes contains covenants that, among other things, limit our ability to incur or permit to exist certain liens, sell, transfer or otherwise dispose of assets, consolidate, amalgamate, merge or sell all or substantially all of our assets, enter into transactions with affiliates, enter into agreements restricting our subsidiaries' ability to pay dividends, incur additional indebtedness, pay dividends or make other distributions or repurchase or redeem our capital stock, prepay, redeem or repurchase certain debt and make loans and investments.

The 2016 Credit Agreement and the indenture governing the 5.875% Notes contain cross-default provisions so that non-compliance with the covenants within one debt agreement could cause a default under other debt agreements as well. As of October 2, 2016, we were in compliance with the covenants and expect to be in compliance for the foreseeable future. However, our business, financial position and results of operations are subject to various risks and uncertainties, including some that may be beyond our control, and we cannot provide any assurance that we will be able to comply with all such financial covenants in the future. For example, during periods in which we experience declines in net income, we may not be able to comply with such financial covenants. Any failure to comply with the restrictions in the 2016 Credit Agreement may prevent us from drawing under the Revolving Credit Facility and may result in an event of default under the 2016 Credit Agreement, which default may allow the creditors to accelerate the related indebtedness and proceed against the collateral that secures the indebtedness. We may not have sufficient liquidity to repay the indebtedness in such circumstances.

Share Repurchases

On August 25, 2016, our Board of Directors authorized a new share repurchase program of up to \$100,000 worth of shares of our common stock, executable through March 31, 2018. The shares may be purchased from time to time in open market, block purchase, or negotiated transactions, subject to compliance with applicable laws and regulations. The repurchase authorization also allows us to make repurchases under Rule 10b5-1 of the Securities Exchange Act of 1934. We completed our previously approved \$200,000 repurchase program during the quarter ended October 2, 2016. During the six months ended October 2, 2016 and October 4, 2015, we repurchased 1,536,014 shares for \$66,567 and 1,202,000 shares for \$54,018, respectively. Since the inception of the programs through October 2, 2016, we have repurchased 4,877,100 shares for \$215,637.

Any additional repurchases would be subject to market conditions and our compliance with our debt covenants, as described above.

Other Contractual Obligations and Commitments

Other than the additional debt noted previously, there have been no material changes with respect to the contractual obligations and commitments or off-balance sheet arrangements described in our Annual Report on Form 10-K for fiscal 2016.

Contingencies

Litigation. From time to time, we are subject to various legal proceedings, including lawsuits, which arise out of, and are incidental to, the conduct of our business. We do not consider any of such proceedings that are currently pending, individually or in the aggregate, to be material to our business or likely to result in a material adverse effect on our operating results, financial condition, or cash flows.

Environmental Liabilities. Our operations and ownership or use of real property are subject to a number of federal, state, and local environmental laws and regulations, as well as applicable foreign laws and regulations, including those governing the discharge of hazardous materials, remediation of contaminated sites, and restoration of damage to the environment. We are obligated to conduct investigation and/or remediation activities at certain sites that we own or operate or formerly owned or operated.

We also have been identified as a PRP, along with other parties, in regulatory agency actions associated with hazardous waste sites. As a PRP, we may be required to pay a share of the costs of the investigation and clean-up of these sites. While uncertainties exist with respect to the amounts and timing of the ultimate environmental liabilities, based on currently available information, we have concluded that these matters, individually or in the aggregate, will not have a material adverse effect on our operating results, financial condition, or cash flows.

We could incur substantial additional costs, including cleanup costs, resource restoration, fines, and penalties or third-party property damage or personal injury claims, as a result of violations or liabilities under environmental laws or non-compliance with environmental permits. While environmental laws and regulations have not had a material adverse effect on our operating results, financial condition, or cash flows in the past, and we have environmental management programs in place to mitigate these risks, it is difficult to predict whether they will have a material impact in the future.

New Accounting Pronouncements

See Note 1, "Basis of Presentation and Responsibility for Interim Financial Statements," to the unaudited condensed consolidated financial statements in Item 1 of Part I of this report.

Dependence on Key Customers; Concentration of Credit

The loss of any key customer and our inability to replace revenues provided by a key customer may have a material adverse effect on our business and financial condition. One customer contributed 15% of our sales for the six months ended October 2, 2016 and one customer contributed 11% of our sales for the six months ended October 4, 2015. No other single customer contributed more than 10% of our sales for the six months ended October 2, 2016 and October 4, 2015.

If a key customer fails to meet payment obligations, our operating results and financial condition could be adversely affected.

Inflation and Commodity Price Risk

In management's opinion, inflation has not had a significant impact upon the results of our operations. However, we have been impacted by changes in the prices of raw materials used in production as well as changes in oil and energy costs. In particular, the prices of commodity metals, such as copper, zinc, and lead continue to be volatile. These prices generally impact our Shooting Sports Segment.

We have a strategic sourcing and price strategy to mitigate risk from commodity price fluctuation. We will continue to evaluate the need for future price changes in light of these trends, our competitive landscape, and our financial results. If our sourcing and pricing strategy is unable to offset impacts of the commodity price fluctuations, our future results from operations and cash flows would be materially impacted.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates. To mitigate the risks from interest rate exposure, we may enter into hedging transactions, mainly interest rate swaps, through derivative financial instruments that have been authorized pursuant to corporate policies. We may use derivatives to hedge certain interest rate, foreign currency exchange rate, and commodity price risks, but do not use derivative financial instruments for trading or other speculative purposes, and we are not a party to leveraged financial instruments. Additional information regarding the financial instruments is contained in Note 1 to the unaudited condensed consolidated financial statements. Our objective in managing exposure to changes in interest rates is to limit the impact of such changes on earnings and cash flow and to lower the overall borrowing costs.

We measure market risk related to holdings of financial instruments based on changes in interest rates utilizing a sensitivity analysis. The sensitivity analysis measures the potential loss in fair values, cash flows, and earnings based on a hypothetical change (increase and decrease) in interest rates. We used current market rates on the debt portfolio to perform the sensitivity analysis. Certain items such as lease contracts, insurance contracts, and obligations for pension and other postretirement benefits were not included in the analysis.

We conduct business through our subsidiaries in many different countries, and fluctuations in currency exchange rates could have a significant impact on the reported results of operations, which are presented in U.S. dollars. Cross-border transactions, both with external parties and intercompany relationships, result in increased exposure to foreign exchange effects. Accordingly, significant changes in currency exchange rates, particularly the Euro, the British Pound, the Chinese Renminbi (Yuan), the Canadian dollar, and the Australian dollar, could cause fluctuations in the reported results of our businesses' operations that could negatively affect our results of operations. To mitigate the risks from foreign currency exposure, we may enter into hedging transactions, mainly foreign currency forward contracts, through derivative financial instruments that have been authorized pursuant to corporate policies.

In addition, sales and expenses of our non-U.S. businesses are also translated into U.S. dollars for reporting purposes and the strengthening or weakening of the U.S. dollar could result in unfavorable translation effects.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of October 2, 2016, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) and have concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. These disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports we file or submit is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

During the quarter ended October 2, 2016 there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are subject to various legal proceedings, including lawsuits, which arise out of, and are incidental to, the conduct of our business. Notwithstanding that the unfavorable resolution of any matter may have a material effect on our net earnings in any particular quarter, we do not consider any of such proceedings that are currently pending, individually or in the aggregate, to be material to our business or likely to result in a material adverse effect on our future operating results, financial condition, or cash flows.

We also have been identified as a PRP, along with other parties, in regulatory agency actions associated with hazardous waste sites. As a PRP, we may be required to pay a share of the costs of the investigation and clean-up of these sites. While uncertainties exist with respect to the amounts and timing of the ultimate environmental liabilities, based on currently available information, we do not currently expect that these matters, individually or in the aggregate, will have a material adverse effect on our operating results, financial condition, or cash flows.

The description of certain environmental laws and regulations contained in Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations" under the heading "Contingencies" is incorporated herein by reference.

ITEM 1A. RISK FACTORS

While we attempt to identify, manage and mitigate risks and uncertainties associated with our business to the extent practical under the circumstances, some level of risk and uncertainty will always be present. Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended March 31, 2016 describes the known material risks and uncertainties associated with our business. These risks and uncertainties have the potential to materially affect our business, financial condition, results of operations, cash flows, projected results, and future prospects.
