(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: 001-36786

RESTAURANT BRANDS INTERNATIONAL INC.  
(Exact Name of Registrant as Specified in its Charter)

Canada 98-1202754  
(State or Other Jurisdiction of (I.R.S. Employer  
Incorporation or Organization) Identification No.)

226 Wyecroft Road L6K 3X7  
Oakville, Ontario (Address of Principal Executive Offices) (Zip Code)  
(905) 845-6511  
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (check one);

Edgar Filing: Restaurant Brands International Inc. - Form 10-Q

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

As of July 25, 2018, there were 250,012,986 common shares of the Registrant outstanding.

RESTAURANT BRANDS INTERNATIONAL INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

Note 1. Description of Business and Organization

Restaurant Brands International Inc. (the “Company”, “RBI”, “we”, “us” or “our”) was formed on August 25, 2014 and continued under the laws of Canada. The Company serves as the sole general partner of Restaurant Brands International Limited Partnership (“Partnership”). We franchise and operate quick service restaurants serving premium coffee and other beverage and food products under the Tim Hortons® brand (“Tim Hortons” or “TH”), fast food hamburgers principally under the Burger King® brand (“Burger King” or “BK”), and chicken under the Popeyes® brand (“Popeyes” or “PLK”). We are one of the world’s largest quick service restaurant, or QSR, companies as measured by total number of restaurants. As of June 30, 2018, we franchised or owned 4,794 Tim Hortons restaurants, 17,022 Burger King restaurants, and 2,975 Popeyes restaurants, for a total of 24,791 restaurants, and operate in more than 100 countries and U.S. territories. Approximately 100% of current system-wide restaurants are franchised.

All references to “\$” or “dollars” are to the currency of the United States unless otherwise indicated. All references to Canadian dollars or C\$ are to the currency of Canada unless otherwise indicated.

Note 2. Basis of Presentation and Consolidation

We have prepared the accompanying unaudited condensed consolidated financial statements (the “Financial Statements”) in accordance with the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“U.S. GAAP”) for complete financial statements. Therefore, the Financial Statements should be read in conjunction with the audited consolidated financial statements contained in our Annual Report on Form 10-K filed with the SEC and Canadian securities regulatory authorities on February 23, 2018.

The Financial Statements include our accounts and the accounts of entities in which we have a controlling financial interest, the usual condition of which is ownership of a majority voting interest. All material intercompany balances and transactions have been eliminated in consolidation. Investments in other affiliates that are owned 50% or less where we have significant influence are accounted for by the equity method.

We are the sole general partner of Partnership and, as such we have the exclusive right, power and authority to manage, control, administer and operate the business and affairs and to make decisions regarding the undertaking and business of Partnership, subject to the terms of the amended and restated limited partnership agreement of Partnership (the “partnership agreement”) and applicable laws. As a result, we consolidate the results of Partnership and record a noncontrolling interest in our consolidated balance sheets and statements of operations with respect to the remaining economic interest in Partnership we do not hold.

We also consider for consolidation entities in which we have certain interests, where the controlling financial interest may be achieved through arrangements that do not involve voting interests. Such an entity, known as a variable interest entity (“VIE”), is required to be consolidated by its primary beneficiary.

Tim Hortons has historically entered into certain arrangements in which an operator acquires the right to operate a restaurant, but Tim Hortons owns the restaurant’s assets. We perform an analysis to determine if the legal entity in which operations are conducted is a VIE and consolidate a VIE entity if we also determine Tim Hortons is the entity’s primary beneficiary (“Restaurant VIEs”). As of June 30, 2018 and December 31, 2017, we determined that we are the primary beneficiary of 21 and 31 Restaurant VIEs, respectively. As Tim Hortons, Burger King, and Popeyes franchise and master franchise arrangements provide the franchise and master franchise entities the power to direct the activities that most significantly impact their economic performance, we do not consider ourselves the primary beneficiary of any such entity that might be a VIE.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation have been included in the Financial Statements. The results for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the full year.

Table of Contents

The preparation of consolidated financial statements in conformity with U.S. GAAP and related rules and regulations of the SEC requires our management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Certain prior year amounts in the accompanying Financial Statements and notes to the Financial Statements have been reclassified in order to be comparable with the current year classifications. These consist of the December 31, 2017 reclassification of Advertising fund restricted assets to Cash and cash equivalents, Accounts and notes receivable, net and Prepaids and other current assets and the reclassification of Advertising fund liabilities to Accounts and drafts payable and Other accrued liabilities as detailed below (in millions). These reclassifications had no effect on previously reported net income.

	December 31, 2017 As Reported	Reclassification	December 31, 2017 As Adjusted
Current assets:			
Cash and cash equivalents	\$ 1,073.4	\$ 24.0	\$ 1,097.4
Accounts and notes receivable, net	455.9	32.9	488.8
Inventories, net	78.0	—	78.0
Advertising fund restricted assets	83.3	(83.3 )	—
Prepaids and other current assets	59.0	26.4	85.4
Total current assets	\$ 1,749.6	\$ —	\$ 1,749.6
Current liabilities:			
Accounts and drafts payable	\$ 412.9	\$ 83.3	\$ 496.2
Other accrued liabilities	838.2	27.5	865.7
Gift card liability	214.9	—	214.9
Advertising fund liabilities	110.8	(110.8 )	—
Current portion of long term debt and capital leases	78.2	—	78.2
Total current liabilities	\$ 1,655.0	\$ —	\$ 1,655.0

## Note 3. New Accounting Pronouncements

**Revenue Recognition** – In May 2014, the Financial Accounting Standards Board (the “FASB”) issued a new single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. We adopted this new guidance on January 1, 2018. See Note 4, Revenue Recognition, for further information about our transition to this new revenue recognition model using the modified retrospective transition method.

**Lease Accounting** – In February 2016, the FASB issued new guidance on leases. The new guidance requires lessees to recognize on the balance sheet the assets and liabilities for the rights and obligations created by finance and operating leases with lease terms of more than 12 months, amends various other aspects of accounting for leases by lessees and lessors, and requires enhanced disclosures. The new guidance is effective commencing in 2019 and requires either a modified retrospective transition approach with application in all comparative periods presented, or an alternative transition method, which permits a company to use its effective date as the date of initial application without restating comparative period financial statements. The new guidance also provides several practical expedients and policies that companies may elect under either transition method. We currently expect to apply the alternative transition method and elect the package of practical expedients under which we will not reassess the classification of our existing leases, reevaluate whether any expired or existing contracts are or contain leases or reassess initial direct costs under the new guidance. We do not expect to elect the practical expedient that permits a reassessment of lease terms for existing leases and are continuing to evaluate other practical expedients and elections specified in the new guidance.

We have commenced an analysis of the impact of the new lease guidance and developed a comprehensive plan for our implementation of the new guidance. The project plan includes analyzing the impact of the new guidance on our current lease contracts, reviewing the completeness of our existing lease portfolio, comparing our accounting policies

under current accounting guidance to the new accounting guidance and identifying potential differences from applying the requirements of

9

---

Table of Contents

the new guidance to our lease contracts. Under current accounting guidance for leases, we do not recognize an asset or liability created by operating leases where we are the lessee. We expect a material increase to our assets and liabilities on our consolidated balance sheet as a result of recognizing assets and liabilities for operating leases where we are the lessee on the date of initial application of the new guidance. We are continuing to evaluate the impact of the new guidance on capital leases and direct finance leases. We are also continuing to evaluate the impact that adoption of this guidance will have on our consolidated statements of operations. We do not expect the adoption of this new guidance to have a material impact on the amount or timing of our cash flows and liquidity.

**Goodwill Impairment** – In January 2017, the FASB issued guidance to simplify how an entity measures goodwill impairment by removing the second step of the two-step quantitative goodwill impairment test. An entity will no longer be required to perform a hypothetical purchase price allocation to measure goodwill impairment. Instead, impairment will be measured at the amount by which the carrying value exceeds the fair value of a reporting unit; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The amendment requires prospective adoption and is effective commencing in 2020 with early adoption permitted.

**Hedge Accounting** – In August 2017, the FASB issued guidance to improve the transparency and understandability of information conveyed to financial statement users about an entity's risk management activities and to simplify the application of hedge accounting by preparers. We adopted this guidance on January 1, 2018 (the "Adoption Date").

The new guidance eliminates the requirement to separately measure and report hedge ineffectiveness for cash flow and net investment hedges that are deemed effective. Most notably, for our cross-currency swaps designated as net investment hedges, the new guidance permits the exclusion of the interest component (the "Excluded Component") from the accounting hedge without affecting net investment hedge designation. The initial value of the Excluded Component may be recognized in earnings on a systematic and rational basis over the life of the derivative instrument. Subsequent to the Adoption Date, we changed the method of assessing effectiveness for net investment hedges using derivatives from the forward method to the spot method. We de-designated the cross currency-swaps and re-designated them as of March 15, 2018 (the "Re-designation Date"). As a result of adopting the new guidance and the re-designation of our cross- currency-swaps, we will recognize a benefit from the amortization of the initial value of the Excluded Component as a component of Interest expense, net in our condensed consolidated statements of operations rather than as a component of other comprehensive income. All changes in fair value of the instruments related to currency fluctuations will continue to be recognized within other comprehensive income.

The impact of adoption did not have a material effect on our Financial Statements as of the Adoption Date. We recorded a \$19.9 million net benefit to Interest expense, net during the three months ended June 30, 2018 and a \$23.5 million net benefit to Interest expense, net from the Re-designation Date through June 30, 2018 in our condensed consolidated statements of operations for the amortization of the initial value of the Excluded Component, as described above. We believe the new guidance better portrays the economic results of our risk management activities and net investment hedges in our Financial Statements.

**Reclassification of Certain Tax Effects** – In February 2018, the FASB issued guidance which allows a reclassification from accumulated other comprehensive income to retained earnings for the tax effects of certain items within accumulated other comprehensive income. The amendment is effective commencing in 2019 with early adoption permitted. We are currently evaluating the impact that the adoption of this new guidance will have on our Financial Statements.

**Share-based payment arrangements with nonemployees** – In June 2018, the FASB issued guidance which simplifies the accounting for share-based payments granted to nonemployees for goods and services. Most of the guidance on such payments to nonemployees would be aligned with the requirements for share-based payments granted to employees. The amendment is effective commencing in 2019 with early adoption permitted. We are currently evaluating the impact that the adoption of this new guidance will have on our Financial Statements.

Table of Contents

Note 4. Revenue Recognition

Revenue from Contracts with Customers

We transitioned to FASB Accounting Standards Codification (“ASC”) Topic 606, Revenue From Contracts with Customers (“ASC 606”), from ASC Topic 605, Revenue Recognition and ASC Subtopic 952-605, Franchisors - Revenue Recognition (together, the “Previous Standards”) on January 1, 2018 using the modified retrospective transition method. Our Financial Statements reflect the application of ASC 606 guidance beginning in 2018, while our consolidated financial statements for prior periods were prepared under the guidance of the Previous Standards. The \$249.8 million cumulative effect of our transition to ASC 606 is reflected as an adjustment to January 1, 2018 Shareholders' equity.

Our transition to ASC 606 represents a change in accounting principle. ASC 606 eliminates industry-specific guidance and provides a single revenue recognition model for recognizing revenue from contracts with customers. The core principle of ASC 606 is that a reporting entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the reporting entity expects to be entitled for the exchange of those goods or services.

Revenue Recognition Significant Accounting Policies under ASC 606

Our revenues are comprised of sales and franchise and property revenues, which are detailed as follows:

Sales

Sales consist primarily of supply chain sales, which represent sales of products, supplies and restaurant equipment to franchisees, as well as sales to retailers. Orders placed by customers specify the goods to be delivered and transaction prices for supply chain sales. Revenue is recognized upon transfer of control over ordered items, generally upon delivery to the customer, which is when the customer obtains physical possession of the goods, legal title is transferred, the customer has all risks and rewards of ownership and an obligation to pay for the goods is created. Shipping and handling costs associated with outbound freight for supply chain sales are accounted for as fulfillment costs and classified as cost of sales.

Commencing on January 1, 2018, we classify all sales of restaurant equipment to franchisees as Sales and related cost of equipment sold as Cost of sales. In periods prior to January 1, 2018, we classified sales of restaurant equipment at establishment of a restaurant and in connection with renewal or renovation as Franchise and property revenues and related costs as Franchise and property expense.

To a much lesser extent, sales also include Company restaurant sales (including Restaurant VIEs), which consist of sales to restaurant guests. Revenue from Company restaurant sales is recognized at the point of sale. Taxes assessed by a governmental authority that we collect are excluded from revenue.

Franchise and Property Revenues

Franchise revenues

Franchise revenues consist primarily of royalties, advertising fund contributions, initial and renewal franchise fees and upfront fees from development agreements and master franchise and development agreements (“MFDAs”). Our performance obligations under franchise agreements consist of (a) a franchise license, including a license to use one of our brands and, where our subsidiaries manage an advertising fund, advertising and promotion management, (b) pre-opening services, such as training and inspections, and (c) ongoing services, such as development of training materials and menu items and restaurant monitoring and inspections. These performance obligations are highly interrelated, so we do not consider them to be individually distinct and therefore account for them under ASC 606 as a single performance obligation, which is satisfied by providing a right to use our intellectual property over the term of each franchise agreement.

Royalties, including franchisee contributions to advertising funds managed by our subsidiaries, are calculated as a percentage of franchise restaurant sales over the term of the franchise agreement. Under our franchise agreements, advertising contributions paid by franchisees must be spent on advertising, product development, marketing and related activities. Initial and renewal franchise fees are payable by the franchisee upon a new restaurant opening or renewal of an existing franchise agreement. Our franchise agreement royalties, inclusive of advertising fund contributions, represent sales-based royalties that are related entirely to our performance obligation under the franchise agreement and are recognized as franchise sales occur. Additionally, under ASC 606, initial and renewal

franchise fees are recognized as revenue on a straight-line basis over the term of the respective agreement. Under the Previous Standards, initial franchise fees were recognized as revenue when the related restaurant commenced operations and our completion of all material services and conditions. Renewal franchise fees were recognized as revenue upon execution of a new franchise agreement. Our performance obligation under development

11

---

Table of Contents

agreements other than MFDAs generally consists of an obligation to grant exclusive development rights over a stated term. These development rights are not distinct from franchise agreements, so upfront fees paid by franchisees for exclusive development rights are deferred and apportioned to each franchise restaurant opened by the franchisee. The pro rata amount apportioned to each restaurant is accounted for as an initial franchise fee.

We have a distinct performance obligation under our MFDAs to grant subfranchising rights over a stated term. Under the terms of MFDAs, we typically either receive an upfront fee paid in cash and/or receive noncash consideration in the form of an equity interest in the master franchisee or an affiliate of the master franchisee. We previously accounted for noncash consideration as a nonmonetary exchange and did not record revenue or a basis in the equity interest received in arrangements where we received noncash consideration. These transactions now fall within the scope of ASC 606, which requires us to record investments in the applicable equity method investee and recognize revenue in an amount equal to the fair value of the equity interest received. Upfront fees from master franchisees, including the fair value of noncash consideration, are deferred and amortized over the MFDA term on a straight-line basis. We may recognize unamortized upfront fees when a contract with a franchisee or master franchisee is modified and is accounted for as a termination of the existing contract.

The portion of gift cards sold to customers which are never redeemed is commonly referred to as gift card breakage. Under ASC 606, we recognize gift card breakage income proportionately as each gift card is redeemed using an estimated breakage rate based on our historical experience. Under the Previous Standards, we recognized gift card breakage income for each gift card's remaining balance when redemption of that balance was deemed remote.

**Property Revenues**

Property revenues are accounted for in accordance with applicable accounting guidance for leases and are excluded from the scope of ASC 606. See Note 2, Significant Accounting Policies, to our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 for our property revenue accounting policies.

Table of Contents

## Contract Liabilities

Contract liabilities consist of deferred revenue resulting from initial and renewal franchise fees paid by franchisees, as well as upfront fees paid by master franchisees, which are generally recognized on a straight-line basis over the term of the underlying agreement. We classify these contract liabilities as Other liabilities, net in our condensed consolidated balance sheets. The following table reflects the change in contract liabilities between the date of adoption (January 1, 2018) and June 30, 2018 (in millions):

	Contract Liabilities
Balance at January 1, 2018	\$ 455.0
Revenue recognized that was included in the contract liability balance at the beginning of the year	(30.7 )
Increase, excluding amounts recognized as revenue during the period	40.6
Impact of foreign currency translation	(9.9 )
Balance at June 30, 2018	\$ 455.0

The following table illustrates estimated revenues expected to be recognized in the future related to performance obligations that are unsatisfied (or partially unsatisfied) as of June 30, 2018 (in millions):

Contract liabilities expected to be recognized in	Amount
Remainder of 2018	\$ 17.6
2019	34.2
2020	33.5
2021	32.8
2022	32.0
Thereafter	304.9
Total	\$ 455.0

## Disaggregation of Total Revenues

Total revenues consist of the following (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Sales	\$586.2	\$602.1	\$1,134.0	\$1,152.5
Royalties	543.9	308.7	1,054.3	550.7
Property revenues	190.5	189.3	368.3	364.3
Franchise fees and other revenue	22.8	32.6	40.6	65.8
Total revenues	\$1,343.4	\$1,132.7	\$2,597.2	\$2,133.3

Table of Contents

## Financial Statement Impact of Transition to ASC 606

As noted above, we transitioned to ASC 606 using the modified retrospective method on January 1, 2018. The cumulative effect of this transition to applicable contracts with customers that were not completed as of January 1, 2018 was recorded as an adjustment to Shareholders' equity as of this date. As a result of applying the modified retrospective method to transition to ASC 606, the following adjustments were made to the consolidated balance sheet as of January 1, 2018 (in millions):

	As Reported December 31, 2017	Total Adjustments	Adjusted January 1, 2018
<b>ASSETS</b>			
Current assets:			
Cash and cash equivalents	\$1,097.4	\$ —	\$1,097.4

Total liabilities and shareholders' equity	\$21,223.5	\$ 83.6	\$21,307.1

Table of Contents

Franchise Fees

The cumulative adjustment for franchise fees consists of the following:

A \$320.7 million increase in Other liabilities, net for the cumulative reversal and deferral of previously recognized franchise fees related to franchise agreements in effect at January 1, 2018 that were entered into subsequent to the acquisitions of BK in 2010, TH in 2014 and PLK in 2017 (net of the cumulative revenue attributable for the period through January 1, 2018), with a corresponding decrease to Shareholders' equity.

A \$106.6 million increase in Other assets, net for the previously unrecognized value of equity interests received in connection with MFDA arrangements. This increase resulted in a corresponding increase in Other liabilities, net of \$105.0 million and an adjustment to Shareholders' equity of \$1.6 million for the cumulative effect of revenue attributable for the period between the inception of each such arrangement and January 1, 2018.

A \$67.1 million decrease to Deferred income taxes, net for the tax effects of the two adjustments noted above, with a corresponding increase to Shareholders' equity.

Advertising Funds

The cumulative adjustment for advertising funds reflects the recognition of cumulative advertising expenditures temporarily in excess of cumulative advertising fund contributions as of January 1, 2018, which is reflected as a \$23.0 million decrease in Prepaids and other current assets and a \$23.0 million decrease to Shareholders' equity.

Gift Card Breakage

The adjustment for gift card breakage reflects the impact of the change to recognize gift card breakage proportionately as gift card balances are used rather than when it is deemed remote that the unused gift card balance would be redeemed, as done under the Previous Standards. The cumulative effect of applying ASC 606 accounting to gift card balances outstanding at January 1, 2018 is reflected as a \$43.0 million decrease in Gift card liability, an \$8.9 million increase in Other accrued liabilities, an \$8.9 million increase in Deferred income taxes, net and a \$25.2 million increase in January 1, 2018 Shareholders' equity.

Table of Contents

## Comparison to Amounts if Previous Standards Had Been in Effect

The following tables reflect the impact of adoption of ASC 606 on our condensed consolidated statements of operations for the three and six months ended June 30, 2018 and cash flows from operating activities for the six months ended June 30, 2018 and our condensed consolidated balance sheet as of June 30, 2018 and the amounts as if the Previous Standards were in effect (“Amounts Under Previous Standards”) (in millions):

Diluted	\$0.66		\$ 0.67	\$1.25		\$1.27

The following summarizes the adjustments to our condensed consolidated statement of operations for the three and six months ended June 30, 2018 to reflect our condensed consolidated statement of operations as if we had continued to recognize revenue under the Previous Standards:

As described above, our transition to ASC 606 resulted in the deferral of franchise fees, recognition of franchise fees in connection with MFDAs where we received an equity interest in the equity method investee, and a change in the timing of recognizing gift card breakage income. The adjustments for the three and six months ended June 30, 2018 to reflect the recognition of this revenue as if the Previous Standards were in effect consists of a \$1.1 million and \$5.0 million increase in Franchise and property revenue, respectively, and a \$1.3 million and \$2.4 million increase in Income tax expense, respectively.

The adjustments to (income) loss from equity method investments for the three and six months ended June 30, 2018 reflect the amount of losses from equity method investments we would not have recognized if the Previous Standards were in effect. There is no tax impact related to these adjustments.

As described above, under the Previous Standards our statement of operations did not reflect gross presentations of advertising fund contributions and expenses. Our transition to ASC 606 requires the presentation of advertising fund

contributions and advertising fund expenses on a gross basis. The adjustments for the three and six months ended June 30, 2018 to reflect advertising fund contributions and expenses as if the Previous Standards were in effect consist of a

16

## Note 5. Earnings per Share

An economic interest in Partnership common equity is held by the holders of Class B exchangeable limited partnership units (the "Partnership exchangeable units"), which is reflected as a noncontrolling interest in our equity. See Note 11, Shareholders' Equity.

Basic and diluted earnings per share is computed using the weighted average number of shares outstanding for the period. We apply the treasury stock method to determine the dilutive weighted average common shares represented by Partnership exchangeable units and outstanding equity awards, unless the effect of their inclusion is anti-dilutive. The diluted earnings per share calculation assumes conversion of 100% of the Partnership exchangeable units under the "if converted" method. Accordingly, the numerator is also adjusted to include the earnings allocated to the holders of noncontrolling interests.

The following table summarizes the basic and diluted earnings per share calculations (in millions, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Numerator:				
Net income attributable to common shareholders - basic	\$167.6	\$89.5	\$315.4	\$139.7
Add: Net income attributable to noncontrolling interests	146.4	86.1	277.2	134.6

## Note 6. Intangible Assets, net and Goodwill

Intangible assets, net and goodwill consist of the following (in millions):

	As of June 30, 2018			December 31, 2017		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Identifiable assets subject to amortization:						
Franchise agreements	\$713.4	\$ (181.0 )	\$532.4	\$724.7	\$ (168.0 )	\$556.7
Favorable leases	443.5	(208.6 )	234.9	455.7	(193.7 )	262.0
Subtotal	1,156.9	(389.6 )	767.3	1,180.4	(361.7 )	818.7
Indefinite lived intangible assets:						
Tim Hortons brand	\$6,470.8	\$ —	\$6,470.8	\$6,727.1	\$ —	\$6,727.1
Burger King brand	2,143.4	—	2,143.4	2,161.5	—	2,161.5
Popeyes brand	1,354.9	—	1,354.9	1,354.9	—	1,354.9
Subtotal	9,969.1	—	9,969.1	10,243.5	—	10,243.5
Intangible assets, net			\$10,736.4			\$11,062.2
Goodwill						
Tim Hortons segment	\$4,168.5			\$4,325.8		
Burger King segment	605.6			610.7		
Popeyes segment	845.8			845.8		
Total	\$5,619.9			\$5,782.3		

Amortization expense on intangible assets totaled \$17.7 million for the three months ended June 30, 2018 and \$18.0 million for the same period in the prior year. Amortization expense on intangible assets totaled \$35.7 million for the six months ended June 30, 2018 and \$35.5 million for the same period in the prior year. The change in the brands and goodwill balances during the six months ended June 30, 2018 was due to the impact of foreign currency translation.

Table of Contents

## Note 7. Equity Method Investments

The aggregate carrying amount of our equity method investments was \$264.9 million and \$155.1 million as of June 30, 2018 and December 31, 2017, respectively, and is included as a component of Other assets, net in our accompanying condensed consolidated balance sheets. The increase in the carrying amount of our equity method investments as of June 30, 2018 compared to December 31, 2017 is primarily attributable to the recognition of investments received in connection with master franchise and development arrangements as a result of our transition to ASC 606. See Note 4, Revenue Recognition. TH and BK both have equity method investments. PLK does not have any equity method investments.

With respect to our TH business, the most significant equity method investment is our 50% joint venture interest with The Wendy's Company (the "TIMWEN Partnership"), which jointly holds real estate underlying Canadian combination restaurants. Distributions received from this joint venture were \$2.9 million and \$3.0 million during the three months ended June 30, 2018 and 2017, respectively. Distributions received from this joint venture were \$5.8 million and \$5.4 million during the six months ended June 30, 2018 and 2017, respectively.

The aggregate market value of our 20.5% equity interest in Carrols Restaurant Group, Inc. ("Carrols") based on the quoted market price on June 30, 2018 was approximately \$139.8 million. The aggregate market value of our 10.1% equity interest in BK Brasil Operação e Assessoria a Restaurantes S.A. based on the quoted market price on June 30, 2018 was approximately \$91.3 million. No quoted market prices are available for our other equity method investments.

We have equity interests in entities that own or franchise Tim Hortons or Burger King restaurants. Franchise and property revenues recognized from franchisees that are owned or franchised by entities in which we have an equity interest consist of the following (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Revenues from affiliates:				
Royalties	\$73.6	\$43.4	\$141.8	\$81.9
Property revenues	9.0	6.6	17.8	12.9
Franchise fees and other revenue	2.4	5.3	4.7	11.0
Total	\$85.0	\$55.3	\$164.3	\$105.8

We recognized \$5.0 million and \$4.9 million of rent expense associated with the TIMWEN Partnership during the three months ended June 30, 2018 and 2017, respectively. We recognized \$9.5 million and \$9.4 million of rent expense associated with the TIMWEN Partnership during the six months ended June 30, 2018 and 2017, respectively. At June 30, 2018 and December 31, 2017, we had \$33.9 million and \$31.9 million, respectively, of accounts receivable, net from our equity method investments which were recorded in accounts and notes receivable, net in our condensed consolidated balance sheets.

(Income) loss from equity method investments reflects our share of investee net income or loss, non-cash dilution gains or losses from changes in our ownership interests in equity method investees and basis difference amortization. During the six months ended June 30, 2018 we recorded an increase to the carrying value of our equity method investment balance and a non-cash dilution gain of \$20.4 million on the initial public offering by one of our equity method investees.

## Note 9. Long-Term Debt

Long-term debt consists of the following (in millions):

	As of	
	June 30,	December 31,
	2018	2017
Term Loan Facility (due February 17, 2024)	\$6,356.5	\$ 6,388.7
2017 4.25% Senior Notes (due May 15, 2024)	1,500.0	1,500.0
2015 4.625% Senior Notes (due January 15, 2022)	1,250.0	1,250.0
2017 5.00% Senior Notes (due October 15, 2025)	2,800.0	2,800.0
Other	82.3	89.1
Less: unamortized deferred financing costs and deferred issue discount	(156.0 )	(170.1 )
Total debt, net	11,832.8	11,857.7
Less: current maturities of debt	(56.8 )	(56.8 )
Total long-term debt	\$11,776.0	\$ 11,800.9

## Revolving Credit Facility

As of June 30, 2018, we had no amounts outstanding under our senior secured revolving credit facility (the "Revolving Credit Facility"). Funds available under the Revolving Credit Facility may be used to repay other debt, finance debt or share repurchases, fund acquisitions or capital expenditures and for other general corporate purposes. We have a \$125.0 million letter of credit sublimit as part of the Revolving Credit Facility, which reduces our borrowing availability thereunder by the

Table of Contents

cumulative amount of outstanding letters of credit. As of June 30, 2018, we had \$4.5 million of letters of credit issued against the Revolving Credit Facility, and our borrowing availability was \$495.5 million.

## Fair Value Measurement

The fair value of our variable rate term debt and senior notes is estimated using inputs based on bid and offer prices that are Level 2 inputs and was \$11.7 billion and \$12.0 billion at June 30, 2018 and December 31, 2017, respectively, compared to a principal carrying amount of \$11.9 billion and \$11.9 billion, respectively, on the same dates.

## Interest Expense, net

Interest expense, net consists of the following (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Debt (a)	\$120.8	\$118.9	\$250.2	\$218.9
Capital lease obligations	5.4	5.0	11.5	10.0
Amortization of deferred financing costs and debt issuance discount	7.3	8.2	14.5	16.7
Interest income	(3.7 )	(4.1 )	(6.3 )	(6.2 )
Interest expense, net	\$129.8	\$128.0	\$269.9	\$239.4

Amount includes \$19.9 million and \$23.5 million benefit during the three and six months ended June 30, 2018 (a) from our adoption of a new hedge accounting standard. See Note 3, New Accounting Pronouncements, for further details of the effects of this change in accounting principle on Interest expense, net.

## Note 10. Income Taxes

Our effective tax rate was 15.7% and 9.2% for the three and six months ended June 30, 2018, respectively. The effective tax rate during these periods was primarily a result of the mix of income from multiple tax jurisdictions, the benefit from reserve releases due to audit settlements and the realignment of various internal financing arrangements. In addition, benefits from stock option exercises reduced the effective tax rate by 0.6% and 10.1% for the three and six months ended June 30, 2018, respectively.

Our effective tax rate was 15.0% and 16.4% for the three and six months ended June 30, 2017, respectively. The effective tax rate during these periods was primarily a result of the mix of income from multiple tax jurisdictions, the favorable impact of our internal financing structure and benefits from stock option exercises that reduced the effective tax rate by 2.9% and 3.3% for the three and six months ended June 30, 2017, respectively, partially offset by non-deductible transaction related costs.

## Note 11. Shareholders' Equity

## Noncontrolling Interests

The holders of Partnership exchangeable units held an economic interest of approximately 46.6% and 47.2% in Partnership common equity through the ownership of 217,636,569 and 217,708,924 Partnership exchangeable units as of June 30, 2018 and December 31, 2017, respectively.

During the six months ended June 30, 2018, Partnership exchanged 72,355 Partnership exchangeable units, pursuant to exchange notices received. In accordance with the terms of the partnership agreement, Partnership satisfied the exchange notices by exchanging these Partnership exchangeable units for the same number of newly issued RBI common shares. The exchanges represented increases in our ownership interest in Partnership and were accounted for as equity transactions, with no gain or loss recorded in the accompanying condensed consolidated statement of operations. Pursuant to the terms of the partnership agreement, upon the exchange of Partnership exchangeable units, each such Partnership exchangeable unit was cancelled concurrently with the exchange.

Table of Contents

## Accumulated Other Comprehensive Income (Loss)

The following table displays the changes in the components of accumulated other comprehensive income (loss) ("AOCI") (in millions):

	Derivatives	Pensions	Foreign Currency Translation	Accumulated Other Comprehensive Income (Loss)
Balances at December 31, 2017	\$ 96.8	\$ (15.3 )	\$ (557.2 )	\$ (475.7 )
Foreign currency translation adjustment	—	—	(472.4 )	(472.4 )
Net change in fair value of derivatives, net of tax	143.6	—	—	143.6
Amounts reclassified to earnings of cash flow hedges, net of tax	6.2	—	—	6.2
Pension and post-retirement benefit plans, net of tax	—	0.2	—	0.2
Amounts attributable to noncontrolling interests	(70.0 )	(0.1 )	220.8	150.7
Balances at June 30, 2018	\$ 176.6	\$ (15.2 )	\$ (808.8 )	\$ (647.4 )

## Note 12. Derivative Instruments

## Disclosures about Derivative Instruments and Hedging Activities

We enter into derivative instruments for risk management purposes, including derivatives designated as cash flow hedges, derivatives designated as net investment hedges and those utilized as economic hedges. We use derivatives to manage our exposure to fluctuations in interest rates and currency exchange rates.

## Interest Rate Swaps

During 2018, we entered into a series of receive-variable, pay-fixed interest rate swaps with a notional value of \$3,500.0 million to hedge the variability in the interest payments on a portion of our senior secured term loan facility (the "Term Loan Facility") beginning March 29, 2018 through the expiration of the final swap on February 17, 2024, resetting each March. At inception, these interest rate swaps were designated as cash flow hedges for hedge accounting. The unrealized changes in market value are recorded in AOCI and reclassified into earnings during the period in which the hedged forecasted transaction affects earnings.

During 2015, we entered into a series of receive-variable, pay-fixed interest rate swaps with a notional value of \$2,500.0 million to hedge the variability in the interest payments on a portion of our Term Loan Facility beginning May 28, 2015. All of these interest rate swaps were settled on April 26, 2018 for an insignificant cash receipt. At inception, these interest rate swaps were designated as cash flow hedges for hedge accounting. The unrealized changes in market value were recorded in AOCI and reclassified into earnings during the period in which the hedged forecasted transaction affects earnings.

During 2015, we settled certain interest rate swaps and recognized a net unrealized loss of \$84.6 million in AOCI at the date of settlement. This amount will be reclassified into Interest expense, net as the original hedged forecasted transaction affects earnings. The amount of pre-tax losses in AOCI as of June 30, 2018 that we expect to be reclassified into interest expense within the next 12 months is \$12.3 million.

## Cross-Currency Rate Swaps

To protect the value of our investments in our foreign operations against adverse changes in foreign currency exchange rates, we hedge a portion of our net investment in one or more of our foreign subsidiaries by using cross-currency rate swaps. At June 30, 2018, we had outstanding cross-currency rate swap contracts between the Canadian dollar and U.S. dollar and the Euro and U.S. dollar that have been designated as net investment hedges of a portion of our equity in foreign operations in those currencies. The component of the gains and losses on our net investment in these designated foreign operations driven by changes in foreign exchange rates are economically offset by movements in the fair value of our cross-currency swap contracts. The fair value of the swaps is calculated each period with changes in fair value reported in AOCI, net of tax.

## Table of Contents

We terminated and settled our previous cross-currency rate swaps in June 2017, with an aggregate notional value of \$5,000.0 million, between the Canadian dollar and U.S. dollar. In connection with this termination, we received \$763.5 million which was reflected as a source of cash provided by investing activities in the condensed consolidated statement of cash flows. The unrealized gains totaled \$533.4 million, net of tax, as of the termination date and will remain in AOCI until the complete or substantially complete liquidation of our investment in the underlying foreign operations. Additionally, we entered into new fixed-to-fixed cross-currency rate swaps to partially hedge the net investment in our Canadian subsidiaries. At inception, these cross-currency rate swaps were designated as a hedge and are accounted for as net investment hedges. These swaps are contracts to exchange quarterly fixed-rate interest payments we make on the Canadian dollar notional amount of C\$6,753.5 million for quarterly fixed-rate interest payments we receive on the U.S. dollar notional amount of \$5,000.0 million through the maturity date of June 30, 2023. In making such changes, we effectively realigned our Canadian dollar hedges to reflect our current cash flow mix and capital structure maturity profile.

At June 30, 2018, we also had outstanding a cross-currency rate swap in which we pay quarterly fixed-rate interest payments on the Euro notional value of €1,107.8 million and receive quarterly fixed-rate interest payments on the U.S. dollar notional value of \$1,200.0 million through the maturity date of March 31, 2021. At inception, this cross-currency rate swap was designated as a hedge and is accounted for as a net investment hedge.

The fixed to fixed cross-currency rate swaps hedging Canadian dollar and Euro net investments utilized the forward method of effectiveness assessment prior to March 15, 2018. On March 15, 2018, we dedesignated and subsequently redesignated the outstanding fixed to fixed cross-currency rate swaps to prospectively use the spot method of hedge effectiveness assessment. We also elected to amortize the excluded component over the life of the derivative instrument. The amortization of the excluded component is recognized in Interest expense, net in the condensed consolidated statement of operations. The change in fair value that is not related to the excluded component is recorded in AOCI and will be reclassified to earnings when the foreign subsidiaries are sold or substantially liquidated. See Note 3, New Accounting Pronouncements, for further information on the adoption of this new guidance.

### Foreign Currency Exchange Contracts

We use foreign exchange derivative instruments to manage the impact of foreign exchange fluctuations on U.S. dollar purchases and payments, such as coffee purchases made by our Canadian Tim Hortons operations. At June 30, 2018, we had outstanding forward currency contracts to manage this risk in which we sell Canadian dollars and buy U.S. dollars with a notional value of \$170.0 million with maturities to August 2019. We have designated these instruments as cash flow hedges, and as such, the unrealized changes in market value of effective hedges are recorded in AOCI and are reclassified into earnings during the period in which the hedged forecasted transaction affects earnings.

### Credit Risk

By entering into derivative contracts, we are exposed to counterparty credit risk. Counterparty credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is in an asset position, the counterparty has a liability to us, which creates credit risk for us. We attempt to minimize this risk by selecting counterparties with investment grade credit ratings and regularly monitoring our market position with each counterparty.

### Credit-Risk Related Contingent Features

Our derivative instruments do not contain any credit-risk related contingent features.

Table of Contents

## Quantitative Disclosures about Derivative Instruments and Fair Value Measurements

The following tables present the required quantitative disclosures for our derivative instruments, including their estimated fair values (all estimated using Level 2 inputs) and their location on our condensed consolidated balance sheets (in millions):

## Note 13. Other Operating Expenses (Income), net

Other operating expenses (income), net consist of the following (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Net losses (gains) on disposal of assets, restaurant closures, and refranchisings	\$3.0	\$8.6	\$9.7	\$11.5
Litigation settlements (gains) and reserves, net	0.4	1.1	(5.7 )	1.1
Net losses (gains) on foreign exchange	(32.6 )	36.8	(16.2 )	47.2
Other, net	(0.2 )	0.3	(4.5 )	0.8
Other operating expenses (income), net	\$(29.4)	\$46.8	\$(16.7)	\$60.6

Net losses (gains) on disposal of assets, restaurant closures, and refranchisings represent sales of properties and other costs related to restaurant closures and refranchisings. Gains and losses recognized in the current period may reflect certain costs related to closures and refranchisings that occurred in previous periods.

The litigation settlement gain during the six months ended June 30, 2018 primarily reflects proceeds received from the successful resolution of a legacy BK litigation matter.

Net losses (gains) on foreign exchange is primarily related to revaluation of foreign denominated assets and liabilities.

## Note 14. Commitments and Contingencies

## Litigation

From time to time, we are involved in legal proceedings arising in the ordinary course of business relating to matters including, but not limited to, disputes with franchisees, suppliers, employees and customers, as well as disputes over our intellectual property.

On June 19, 2017, a claim was filed in the Ontario Superior Court of Justice. The plaintiff, a franchisee of two Tim Hortons restaurants, seeks to certify a class of all persons who have carried on business as a Tim Hortons franchisee in Canada at any time after December 15, 2014. The claim alleges various causes of action against the defendants in relation to the purported misuse of amounts paid by members of the proposed class to the Tim Hortons Canada advertising fund (the "Ad Fund"). The plaintiff seeks to have the Ad Fund franchisee contributions held in trust for the benefit of members of the proposed class, an accounting of the Ad Fund, as well as damages for breach of contract, breach of trust, breach of the statutory duty of fair dealing, and breach of fiduciary duties.

On October 6, 2017, a claim was filed in the Ontario Superior Court of Justice. The plaintiffs, two franchisees of Tim Hortons restaurants, seek to certify a class of all persons who have carried on business as a Tim Hortons franchisee at any time after March 8, 2017. The claim alleges various causes of action against the defendants in relation to the purported adverse treatment of member and potential member franchisees of the Great White North Franchisee Association. The plaintiffs seek damages for, among other things, breach of contract, breach of the statutory duty of fair dealing, and breach of the franchisees' statutory right of association.

On July 24, 2018, a complaint for declaratory relief was filed against Tim Hortons USA, Inc. ("THUSA") and Restaurant Brands International Limited Partnership in the Circuit Court of the 11th Judicial Circuit in Miami-Dade County, Florida by Great White North Franchisee Association - USA, Inc., on behalf of its members. The complaint alleges certain breaches of the franchise agreements between THUSA and its franchisees and the implied covenant of good faith and fair dealing, as well as violations of the U.S. franchise rules and the Florida Deceptive and Unfair Trade Practices Act.

While we believe the claims are without merit and intend to vigorously defend against these lawsuits, we are unable to predict the ultimate outcome of these cases or estimate the range of possible loss, if any.

Table of Contents

## Note 15. Segment Reporting

As stated in Note 1, Description of Business and Organization, we manage three brands. Under the Tim Hortons brand, we operate in the donut/coffee/tea category of the quick service segment of the restaurant industry. Under the Burger King brand, we operate in the fast food hamburger restaurant category of the quick service segment of the restaurant industry. Under the Popeyes brand, we operate in the chicken category of the quick service segment of the restaurant industry. Our business generates revenue from the following sources: (i) franchise revenues, consisting primarily of royalties based on a percentage of sales reported by franchise restaurants and franchise fees paid by franchisees; (ii) property revenues from properties we lease or sublease to franchisees; and (iii) sales at Company restaurants. In addition, our TH business generates revenue from sales to franchisees related to our supply chain operations, including manufacturing, procurement, warehousing and distribution, as well as sales to retailers. Each brand is managed by a brand president that reports directly to our Chief Executive Officer, who is our Chief Operating Decision Maker. Therefore, we have three operating segments: (1) TH, which includes all operations of our Tim Hortons brand, (2) BK, which includes all operations of our Burger King brand, and (3) PLK, which includes all operations of our Popeyes brand. Our three operating segments represent our reportable segments.

As stated in Note 4, Revenue Recognition, we transitioned to ASC 606 on January 1, 2018 using the modified retrospective transition method. Our Financial Statements reflect the application of ASC 606 guidance beginning in 2018, while our Financial Statements for prior periods were prepared under the guidance of the Previous Standards. For comparability purposes, we have disclosed 2018 total revenues by operating segment under the Previous Standards as well as segment income with a reconciliation to net income under the Previous Standards. See Note 4, Revenue Recognition, for further details of the effects of this change in accounting principle on total revenues and net income.

The following table presents revenues, by segment and by country (in millions):

	Three Months Ended June 30, 2018			Six Months Ended June 30, 2018		
	2018 As Reported	2018 Amounts Under Previous Standards	2017	2018 As Reported	2018 Amounts Under Previous Standards	2017
Revenues by operating segment:						
TH	\$823.0	\$770.3	\$772.3	\$1,586.5	\$1,482.1	\$1,505.9
BK	418.1	306.2	293.7	808.0	599.0	560.7
PLK	102.3	67.8	66.7	202.7	135.0	66.7
Total revenues	\$1,343.4	\$1,144.3	\$1,132.7	\$2,597.2	\$2,216.1	\$2,133.3

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2018	
	2018	2017	2018	2017
Revenues by country (a):				
Canada	\$745.3	\$687.9	\$1,437.7	\$1,344.9
United States	450.8	313.2	871.5	545.6
Other	147.3	131.6	288.0	242.8
Total revenues	\$1,343.4	\$1,132.7	\$2,597.2	\$2,133.3

(a) Only Canada and the United States represented 10% or more of our total revenues in each period presented.

Table of Contents

Our measure of segment income is Adjusted EBITDA. Adjusted EBITDA represents earnings (net income or loss) before interest expense, net, (gain) loss on early extinguishment of debt, income tax expense, and depreciation and amortization, adjusted to exclude the non-cash impact of share-based compensation and non-cash incentive compensation expense and (income) loss from equity method investments, net of cash distributions received from equity method investments, as well as other operating expenses (income), net. Other specifically identified costs associated with non-recurring projects are also excluded from Adjusted EBITDA, including fees and expenses associated with the Popeyes Acquisition (“PLK Transaction costs”), Corporate restructuring and tax advisory fees related to the interpretation and implementation of comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act enacted by the U.S. government on December 22, 2017 and non-operational Office centralization and relocation costs in connection with the centralization and relocation of our Canadian and U.S. restaurant support centers to new offices in Toronto, Ontario, and Miami, Florida, respectively. Adjusted EBITDA is used by management to measure operating performance of the business, excluding these non-cash and other specifically identified items that management believes are not relevant to management’s assessment of operating performance or the performance of an acquired business. A reconciliation of segment income to net income (loss) consists of the following (in millions):

	Three Months Ended June 30,			Six Months Ended June 30,		
	2018 As Reported	2018 Amounts Under Previous Standards	2017	2018 As Reported	2018 Amounts Under Previous Standards	2017
Segment income:						
TH	\$285.5	\$ 288.6	\$281.1	\$530.7	\$ 539.1	\$537.3

Note 16. Subsequent Events

Dividends

On July 3, 2018, we paid a cash dividend of \$0.45 per common share to common shareholders of record on May 15, 2018. On such date, Partnership also made a distribution in respect of each Partnership exchangeable unit in the amount of \$0.45 per exchangeable unit to holders of record on May 15, 2018.

Our board of directors has declared a cash dividend of \$0.45 per common share, which will be paid on October 1, 2018 to common shareholders of record on September 7, 2018. Partnership will also make a distribution in respect of each Partnership exchangeable unit in the amount of \$0.45 per Partnership exchangeable unit, and the record date and payment date for distributions on Partnership exchangeable units are the same as the record date and payment date set forth above.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion together with our unaudited condensed consolidated financial statements and the related notes thereto included in Part I, Item 1 “Financial Statements” of this report.

The following discussion includes information regarding future financial performance and plans, targets, aspirations, expectations, and objectives of management, which constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and forward-looking information within the meaning of Canadian securities laws as described in further detail under “Special Note Regarding Forward-Looking Statements” set forth below. Actual results may differ materially from the results discussed in the forward-looking statements. Please refer to the risks and further discussion in the “Special Note Regarding Forward-Looking Statements” below.

We prepare our financial statements in accordance with accounting principles generally accepted in the United States (“U.S. GAAP” or “GAAP”). However, this Management’s Discussion and Analysis of Financial Condition and Results of Operations also contains certain non-GAAP financial measures to assist readers in understanding our performance. Non-GAAP financial measures either exclude or include amounts that are not reflected in the most directly comparable measure calculated and presented in accordance with GAAP. Where non-GAAP financial measures are used, we have provided the most directly comparable measures calculated and presented in accordance with U.S. GAAP, a reconciliation to GAAP measures and a discussion of the reasons why management believes this information is useful to it and may be useful to investors.

Operating results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for the fiscal year and our key business measures, as discussed below, may decrease for any future period. Unless the context otherwise requires, all references in this section to “RBI”, the “Company”, “we”, “us” or “our” are to Restaurant Brands International Inc. and its subsidiaries, collectively.

Overview

We are a Canadian corporation originally formed on August 25, 2014 to serve as the indirect holding company for Tim Hortons and its consolidated subsidiaries and for Burger King and its consolidated subsidiaries. On March 27, 2017, we acquired Popeyes Louisiana Kitchen, Inc. and its consolidated subsidiaries (the “Popeyes Acquisition”). We are one of the world’s largest quick service restaurant (“QSR”) companies with more than \$30 billion in system-wide sales and over 24,000 restaurants in more than 100 countries and U.S. territories as of June 30, 2018. Our Tim Hortons®, Burger King®, and Popeyes® brands have similar franchised business models with complementary daypart mixes and product platforms. Our three iconic brands are managed independently while benefiting from global scale and sharing of best practices.

Tim Hortons restaurants are quick service restaurants with a menu that includes premium blend coffee, tea, espresso-based hot and cold specialty drinks, fresh baked goods, including donuts, Timbits®, bagels, muffins, cookies and pastries, grilled paninis, classic sandwiches, wraps, soups, and more. Burger King restaurants are quick service restaurants that feature flame-grilled hamburgers, chicken and other specialty sandwiches, french fries, soft drinks, and other affordably-priced food items. Popeyes restaurants are quick service restaurants featuring a unique “Louisiana” style menu that includes spicy chicken, chicken tenders, fried shrimp and other seafood, red beans and rice, and other regional items.

We have three operating and reportable segments: (1) Tim Hortons (“TH”); (2) Burger King (“BK”); and (3) Popeyes Louisiana Kitchen (“PLK”). Our business generates revenue from the following sources: (i) franchise revenues, consisting primarily of royalties based on a percentage of sales reported by franchise restaurants and franchise fees paid by franchisees; (ii) property revenues from properties we lease or sublease to franchisees; and (iii) sales at restaurants owned by us (“Company restaurants”). In addition, our Tim Hortons business generates revenue from sales to franchisees related to our supply chain operations, including manufacturing, procurement, warehousing and distribution, as well as sales to retailers.

## Table of Contents

### Operating Metrics

We evaluate our restaurants and assess our business based on the following operating metrics:

System-wide sales growth refers to the percentage change in sales at all franchise restaurants and Company restaurants in one period from the same period in the prior year.

Comparable sales refers to the percentage change in restaurant sales in one period from the same prior year period for restaurants that have been open for 13 months or longer for TH and BK and 17 months or longer for PLK.

System-wide sales growth and comparable sales are measured on a constant currency basis, which means the results exclude the effect of foreign currency translation (“FX Impact”). For system-wide sales growth and comparable sales, we calculate the FX Impact by translating prior year results at current year monthly average exchange rates.

Unless otherwise stated, system-wide sales growth, system-wide sales and comparable sales are presented on a system-wide basis, which means they include franchise restaurants and Company restaurants. System-wide results are driven by our franchise restaurants, as approximately 100% of current system-wide restaurants are franchised.

Franchise sales represent sales at all franchise restaurants and are revenues to our franchisees. We do not record franchise sales as revenues; however, our royalty revenues are calculated based on a percentage of franchise sales.

Net restaurant growth reflects the percentage change in restaurant count (openings, net of closures) over a trailing twelve month period, divided by the restaurant count at the beginning of the trailing twelve month period.

### Recent Events and Factors Affecting Comparability

#### Transition to New Revenue Recognition Accounting Standard

We transitioned to Accounting Standards Codification Topic 606, Revenue from Contracts with Customers (“ASC 606”), effective January 1, 2018 using the modified retrospective method. Our consolidated financial statements for 2018 reflect the application of ASC 606 guidance, while our consolidated financial statements for 2017 were prepared under the guidance of previously applicable accounting standards.

The most significant effects of this transition that affect comparability of our results of operations between 2018 and 2017 include the following:

Franchise fee revenue for franchise agreements entered into subsequent to the acquisitions of BK in 2010, TH in 2014 and PLK in 2017 are deferred and amortized over the franchise agreement term beginning in 2018 compared to upfront recognition in 2017 under previously applicable accounting standards. Franchise fees associated with acquired franchise agreements are not included in franchise fee revenue under ASC 606. Consequently, we expect the impact to be greater in those periods in which more openings occur.

Advertising fund contributions and advertising fund expenses are reflected on a gross basis in our 2018 statement of operations and there may be a difference in timing for recognition of advertising fund contributions and advertising fund expenses beginning in 2018. Under previously applicable accounting standards, our statement of operations did not reflect gross advertising fund contributions and advertising fund expenses and temporary net differences between contributions and expenses due to the timing of expenses were reflected as current assets or current liabilities on our consolidated balance sheet.

The portion of gift cards sold to customers which are never redeemed is commonly referred to as gift card breakage. Under ASC 606, we recognize gift card breakage income proportionately as each gift card is redeemed using an estimated breakage rate based on our historical experience. Under the Previous Standards, we recognized gift card breakage income for each gift card’s remaining balance when redemption of that balance was deemed remote. This change may impact the timing of when gift card breakage income is recognized.

Please refer to Note 4, Revenue Recognition, to the accompanying unaudited condensed consolidated financial statements for further details of the effects of this change in accounting principle.

Table of Contents

PLK Transaction Costs

In connection with the Popeyes Acquisition, we incurred certain non-recurring fees and expenses (“PLK Transaction costs”) totaling \$4.6 million and \$8.5 million during the three months ended June 30, 2018 and 2017, respectively, and \$9.7 million and \$42.9 million during the six months ended June 30, 2018 and 2017, respectively, consisting primarily of professional fees and compensation related expenses, all of which are classified as selling, general and administrative expenses in the condensed consolidated statements of operations. We do not expect to incur any additional PLK Transaction costs.

Tax Reform

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the “Tax Act”) that significantly revises the U.S. tax code generally effective January 1, 2018 by, among other changes, lowering the corporate income tax rate from 35% to 21%, limiting deductibility of interest expense and performance based incentive compensation and implementing a modified territorial tax system. As a Canadian entity, we generally would be classified as a foreign entity (and, therefore, a non-U.S. tax resident) under general rules of U.S. federal income taxation. However, we have subsidiaries subject to U.S. federal income taxation and therefore the Tax Act impacted our consolidated results of operations in the current period, and is expected to continue to impact our consolidated results of operations in future periods.

Also on December 22, 2017, the Securities and Exchange Commission (the “SEC”) staff issued Staff Accounting Bulletin No. 118 (“SAB 118”) to address the application of U.S. GAAP in situations when a registrant does not have the necessary information available, prepared or analyzed (including computations) in reasonable detail to complete the accounting for certain income tax effects of the Tax Act. SAB 118 provides that companies (i) should record the effects of the changes from the Tax Act for which accounting is complete (not provisional), (ii) should record provisional amounts for the effects of the changes from the Tax Act for which accounting is not complete, and for which reasonable estimates can be determined, in the period they are identified, and (iii) should not record provisional amounts if reasonable estimates cannot be made for the effects of the changes from the Tax Act, and should continue to apply guidance based on the tax law in effect prior to the enactment on December 22, 2017. In addition, SAB 118 established a one-year measurement period (through December 22, 2018) where a provisional amount could be subject to adjustment, and requires certain qualitative and quantitative disclosures related to provisional amounts and accounting during the measurement period. We have not completed the accounting for the tax effects of the enactment of the Tax Act and we have not recorded any adjustments during 2018 to the provisional amounts recorded in December 2017.

We recorded \$6.4 million and \$13.5 million of costs arising primarily from professional advisory and consulting services associated with corporate restructuring initiatives related to the interpretation and implementation of the Tax Act (“Corporate restructuring and tax advisory fees”) during the three and six months ended June 30, 2018. We expect to continue to incur additional Corporate restructuring and tax advisory fees related to the Tax Act in 2018.

Office centralization and relocation costs

In connection with the centralization and relocation of our Canadian and U.S. restaurant support centers to new offices in Toronto, Ontario, and Miami, Florida, respectively, we incurred certain non-operational expenses (“Office centralization and relocation costs”) totaling \$12.4 million during the three and six months ended June 30, 2018, consisting primarily of duplicate rent expense, moving costs, and relocation-driven compensation expenses, which are classified as selling, general and administrative expenses in the condensed consolidated statements of operations.

## Comparable Sales

TH comparable sales were flat during the three months ended June 30, 2018, reflecting Canada comparable sales of 0.3%, offset by softness in the U.S. Comparable sales in Canada reflect growth in cold beverages, breakfast foods and lunch, while softness in the U.S. was driven by weaker sales of brewed coffee and baked goods, partially offset by strength in breakfast foods and cold beverages. For the six months ended June 30, 2018, TH comparable sales were relatively flat, reflecting Canada comparable sales of 0.2%.

BK comparable sales of 1.8% during the three months ended June 30, 2018, reflect U.S. comparable sales of 1.8% and growth in many of our large international markets. Our results in the U.S. were a result of strength from our promotional offers and product innovation. Internationally, our comparable sales reflected strength in markets like Russia and Turkey, partially offset by softer comparable sales in Germany and Australia. For the six months ended June 30, 2018, BK comparable sales of 2.8% reflect U.S. comparable sales of 2.9%.

PLK comparable sales of 2.9% during the three months ended June 30, 2018, were driven by U.S. comparable sales of 1.8%, and, to a lesser extent significant strength in international markets including Canada and Turkey. Our results in the U.S. reflect a continuation of improved balance in our menu across price points and successful limited time offers, as well as benefits from our delivery test. For the six months ended June 30, 2018, PLK comparable sales of 3.1% reflect U.S. comparable sales 2.0%.

## Sales and Cost of Sales

Sales include TH supply chain sales and sales from Company restaurants. TH supply chain sales represent sales of products, supplies and restaurant equipment, as well as sales to retailers. In periods prior to January 1, 2018, we classified revenues derived from sales of equipment packages at the establishment of a restaurant and in connection with renewal or renovation as franchise and property revenues. Sales from Company restaurants, including sales by our consolidated TH Restaurant VIEs, represent restaurant-level sales to our guests.

Table of Contents

Cost of sales includes costs associated with the management of our TH supply chain, including cost of goods, direct labor and depreciation, as well as the cost of products sold to retailers. Cost of sales also includes food, paper and labor costs of Company restaurants. In periods prior to January 1, 2018, we classified costs related to sales of equipment packages at the establishment of a restaurant and in connection with renewal or renovation as franchise and property expenses.

During the three months ended June 30, 2018, the decrease in sales was driven by a decrease of \$26.1 million in our TH segment, a decrease of \$6.4 million in our BK segment and a decrease of \$3.7 million in our PLK segment, partially offset by a favorable FX Impact of \$20.3 million. The decrease in our TH segment was driven by a \$13.2 million decrease in our TH Company restaurant revenue, primarily from the conversion of Restaurant VIEs to franchise restaurants, and a \$12.9 million decrease in supply chain sales. The decrease in supply chain sales was primarily due to the lapping of last year's roll-out of espresso equipment and related espresso inventory which benefited our results in the second quarter of 2017, partially offset by the reclassification of revenue from the sales of equipment packages from franchise and property revenues to sales beginning January 1, 2018.

During the six months ended June 30, 2018, the decrease in sales was driven by a decrease of \$66.6 million in our TH segment and a decrease of \$11.0 million in our BK segment, partially offset by an increase of \$17.1 million in our PLK segment, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, and a favorable FX Impact of \$42.0 million. The decrease in our TH segment was driven by a \$37.9 million decrease in supply chain sales, primarily due to the lapping of last year's roll-out of espresso equipment and related espresso inventory which benefited our results in the first half of 2017, partially offset by the reclassification of revenue from the sales of equipment packages from franchise and property revenues to sales beginning January 1, 2018, and a \$28.7 million decrease in our TH Company restaurant revenue, primarily from the conversion of Restaurant VIEs to franchise restaurants.

During the three months ended June 30, 2018, the decrease in cost of sales was driven primarily by a decrease of \$15.0 million in our TH segment, a decrease of \$7.3 million in our BK segment and a decrease of \$4.4 million in our PLK segment, partially offset by a \$15.4 million unfavorable FX Impact. The decrease in our TH segment was primarily due to a decrease of \$8.4 million in Company restaurant cost of sales, primarily from the conversion of Restaurant VIEs to franchise restaurants, and a decrease of \$6.6 million in supply chain cost of sales driven by the decrease in supply chain sales described above.

During the six months ended June 30, 2018, the decrease in cost of sales was driven primarily by a decrease of \$38.0 million in our TH segment and a decrease of \$12.0 million in our BK segment, partially offset by an increase of \$12.4 million in our PLK segment, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, and a \$32.0 million unfavorable FX Impact. The decrease in our TH segment was primarily due to a decrease of \$16.2 million in supply chain cost of sales driven by the decrease in supply chain sales described above and a decrease of \$21.8 million in Company restaurant cost of sales, primarily from the conversion of Restaurant VIEs to franchise restaurants.

#### Franchise and Property

Franchise and property revenues consist primarily of royalties earned on franchise sales, rents from real estate leased or subleased to franchisees, franchise fees, and other revenue. Franchise and property expenses consist primarily of depreciation of properties leased to franchisees, rental expense associated with properties subleased to franchisees, amortization of franchise agreements, and bad debt expense (recoveries). In periods prior to January 1, 2018, franchise and property revenues and franchise and property expenses included revenues and cost of sales, respectively, related to equipment packages sold at establishment of a restaurant and in connection with renewals or renovations.

During the three months ended June 30, 2018, the increase in franchise and property revenues was driven by an increase of \$128.2 million in our BK segment, an increase of \$48.7 million in our TH segment, an increase of \$39.4 million in our PLK segment and a \$10.3 million favorable FX Impact. The increase in our BK, TH and PLK segments reflects the inclusion of advertising fund contributions from franchisees as a result of the application of ASC 606 beginning January 1, 2018 and, to a lesser degree, an increase in royalties driven by system-wide sales growth. The increase in our TH segment was partially offset by the reclassification of revenue from the sales of equipment packages from franchise and property revenues to sales beginning January 1, 2018.

During the six months ended June 30, 2018, the increase in franchise and property revenues was driven by an increase of \$247.9 million in our BK segment, an increase of \$119.0 million in our PLK segment, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, an increase of \$89.3 million in our TH segment, and a \$26.2 million favorable FX Impact. The increase in our BK, TH and PLK segments reflects the inclusion of advertising fund contributions from franchisees as a result of the application of ASC 606 beginning January 1, 2018 and, to a lesser degree, an increase in royalties driven by system-wide sales growth. The increase in our TH segment was partially offset by the

37

---

Table of Contents

reclassification of revenue from the sales of equipment packages from franchise and property revenues to sales beginning January 1, 2018.

During the three months ended June 30, 2018, the decrease in franchise and property expenses was driven by a decrease of \$13.9 million in our TH segment, a decrease of \$0.6 million in our BK segment and a decrease of \$0.1 million in our PLK segment, partially offset by a \$3.3 million unfavorable FX Impact. The decrease in our TH segment was primarily due to the reclassification of expenses from sales of equipment packages from franchise and property expenses to cost of sales beginning January 1, 2018.

During the six months ended June 30, 2018, the decrease in franchise and property expenses was driven by a decrease of \$25.3 million in our TH segment and a decrease of \$2.1 million in our BK segment, partially offset by an increase of \$2.3 million in our PLK segment, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, and a \$7.2 million unfavorable FX Impact. The decrease in our TH segment was primarily due to the reclassification of expenses from sales of equipment packages from franchise and property expenses to cost of sales beginning January 1, 2018.

#### Selling, General and Administrative Expenses

Our selling, general and administrative expenses were comprised of the following:

	Three Months Ended June 30,		Variance \$	Six Months Ended June 30,		Variance \$

TH	\$80.3	\$22.2	\$ (58.1 )	\$162.6	\$47.3	\$ (115.3 )
BK	145.5	34.1	(111.4 )	285.8	72.3	(213.5 )
PLK	47.6	14.4	(33.2 )	93.0	14.4	(78.6 )
Share-based compensation and non-cash incentive compensation expense	15.5	11.9	(3.6 )	30.8	30.4	(0.4 )
Depreciation and amortization	5.3	5.6	0.3	11.1	11.3	0.2
PLK Transaction costs	4.6	8.5	3.9	9.7	42.9	33.2
Corporate restructuring and tax advisory fees	6.4	—	(6.4 )	13.5	—	(13.5 )
Office centralization and relocation costs	12.4	—	(12.4 )	12.4	—	(12.4 )
Selling, general and administrative expenses	\$317.6	\$96.7	\$ (220.9 )	\$618.9	\$218.6	\$ (400.3 )

Upon our transition to ASC 606 on January 1, 2018, segment selling, general and administrative expenses (“Segment SG&A”) include segment selling expenses, which consist primarily of advertising fund expenses, and segment general and administrative expenses, which are comprised primarily of salary and employee-related costs for non-restaurant employees, professional fees, information technology systems, and general overhead for our corporate offices. Prior to our transition to ASC 606 on January 1, 2018, our statement of operations did not reflect advertising fund contributions or advertising fund expenses, since such amounts were netted under previously applicable accounting standards. Segment SG&A excludes share-based compensation and non-cash incentive compensation expense, depreciation and amortization, PLK Transaction costs, Corporate restructuring and tax advisory fees and Office centralization and relocation costs.

During the three and six months ended June 30, 2018, TH, BK and PLK Segment SG&A increased primarily due to the inclusion of advertising fund expenses from the application of ASC 606 beginning January 1, 2018 and an unfavorable FX Impact.

During the three months ended June 30, 2018, the increase in share-based compensation and non-cash incentive compensation expense was due primarily to an increase in the number of equity awards granted during 2018 and an increase in non-cash incentive compensation expense.

Table of Contents**(Income) Loss from Equity Method Investments**

(Income) loss from equity method investments reflects our share of investee net income or loss, non-cash dilution gains or losses from changes in our ownership interests in equity method investees, and basis difference amortization. The change in (income) loss from equity method investments during the six months ended June 30, 2018 was primarily driven by the current year recognition of a \$20.4 million non-cash dilution gain on the initial public offering by one of our equity method investees, partially offset by an increase in equity method investment net losses that we recognized during the current year.

**Other Operating Expenses (Income), net**

Our other operating expenses (income), net were comprised of the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Net losses (gains) on disposal of assets, restaurant closures, and refranchisings	\$3.0	\$8.6	\$9.7	\$11.5
Litigation settlements (gains) and reserves, net	0.4	1.1	(5.7 )	1.1
Net losses (gains) on foreign exchange	(32.6 )	36.8	(16.2 )	47.2
Other, net	(0.2 )	0.3	(4.5 )	0.8
Other operating expenses (income), net	\$(29.4)	\$46.8	\$(16.7)	\$60.6

Net losses (gains) on disposal of assets, restaurant closures, and refranchisings represent sales of properties and other costs related to restaurant closures and refranchisings. Gains and losses recognized in the current period may reflect certain costs related to closures and refranchisings that occurred in previous periods.

The litigation settlement gain during the six months ended June 30, 2018 primarily reflects proceeds received from the successful resolution of a legacy BK litigation matter.

Net losses (gains) on foreign exchange is primarily related to revaluation of foreign denominated assets and liabilities.

**Interest Expense, net**

Our interest expense, net and the weighted average interest rate on our long-term debt were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Interest expense, net	\$129.8	\$128.0	\$269.9	\$239.4
Weighted average interest rate on long-term debt	4.8 %	4.7 %	4.7 %	4.9 %

During the three and six months ended June 30, 2018, interest expense, net increased primarily due to higher outstanding debt from incremental term loans and the issuance of senior notes during 2017, partially offset by a \$19.9 million and \$23.5 million benefit during the three and six months ended June 30, 2018 from our adoption of the new hedge accounting standard. Please refer to Note 3, New Accounting Pronouncements, to the accompanying unaudited condensed consolidated financial statements for further details of the effects of the adoption of the new hedge accounting standard. Subject to foreign exchange rate movements and other factors, we expect a benefit to continue during 2018.

## Table of Contents

### Loss on Early Extinguishment of Debt

During the six months ended June 30, 2017, we recorded a \$20.4 million loss on early extinguishment of debt, which primarily reflects the write-off of unamortized debt issuance costs and discounts in connection with the refinancing of our senior secured term loan facility.

### Income Tax Expense

Our effective tax rate was 15.7% and 9.2% for the three and six months ended June 30, 2018, respectively. Our effective tax rate was 15.0% and 16.4% for the three and six months ended June 30, 2017, respectively. The effective tax rate was reduced by 0.6% and 2.9% for the three months ended June 30, 2018 and 2017, respectively, as a result of benefits from stock option exercises. The effective tax rate was reduced by 10.1% and 3.3% for the six months ended June 30, 2018 and 2017, respectively, as a result of benefits from stock option exercises. Additionally, our effective tax rate for the three and six months ended June 30, 2018 benefited from reserve releases due to audit settlements and realignment of various internal financing arrangements.

### Net Income

We reported net income of \$314.2 million for the three months ended June 30, 2018, compared to net income of \$243.5 million for the three months ended June 30, 2017. The increase in net income is primarily due to a \$76.2 million favorable change in results from other operating expenses (income), net, a \$19.6 million increase in BK segment income, a \$7.0 million increase in PLK segment income, a \$4.4 million increase in TH segment income and a \$3.9 million decrease in PLK Transaction costs. These factors were partially offset by a \$15.8 million increase in income tax expense, the inclusion of \$12.4 million of Office centralization and relocation costs, the inclusion of \$6.4 million of Corporate restructuring and tax advisory fees, and a \$3.6 million increase in share-based compensation and non-cash incentive compensation expense.

We reported net income of \$593.0 million for the six months ended June 30, 2018, compared to net income of \$410.1 million for the six months ended June 30, 2017. The increase in net income is primarily due to a \$46.6 million increase in BK segment income, a \$45.5 million increase in PLK segment income, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, a \$77.3 million favorable change in results from other operating expenses (income), net, a \$33.2 million decrease in PLK Transaction costs, the non-recurrence of \$20.4 million of loss on early extinguishment of debt and a \$20.3 million decrease in income tax expense. These factors were partially offset by a \$30.5 million increase in interest expense, net, the inclusion of \$13.5 million of Corporate restructuring and tax advisory fees, the inclusion of \$12.4 million of Office centralization and relocation costs, and a \$6.6 million decrease in TH segment income.

### Non-GAAP Reconciliations

The table below contains information regarding EBITDA and Adjusted EBITDA, which are non-GAAP measures. These non-GAAP measures do not have a standardized meaning under U.S. GAAP and may differ from similar captioned measures of other companies in our industry. We believe that these non-GAAP measures are useful to investors in assessing our operating performance, as it provides them with the same tools that management uses to evaluate our performance and is responsive to questions we receive from both investors and analysts. By disclosing these non-GAAP measures, we intend to provide investors with a consistent comparison of our operating results and trends for the periods presented. EBITDA is defined as earnings (net income or loss) before interest expense, net, loss on early extinguishment of debt, income tax expense, and depreciation and amortization and is used by management to measure operating performance of the business. Adjusted EBITDA is defined as EBITDA excluding the non-cash impact of share-based compensation and non-cash incentive compensation expense and (income) loss from equity method investments, net of cash distributions received from equity method investments, as well as other operating expenses (income), net. Other specifically identified costs associated with non-recurring projects are also excluded from Adjusted EBITDA, including PLK Transaction costs associated with the Popeyes Acquisition, Corporate restructuring and tax advisory fees related to the interpretation and implementation of the Tax Act, and non-operational Office centralization and relocation costs in connection with the centralization and relocation of our Canadian and U.S. restaurant support centers to new offices in Toronto, Ontario, and Miami, Florida, respectively. Adjusted EBITDA is used by management to measure operating performance of the business, excluding these non-cash and other specifically identified items that management believes are not relevant to management's

assessment of operating performance or the performance of an acquired business. Adjusted EBITDA, as defined above, also represents our measure of segment income for each of our three operating segments.

NM - not meaningful

Represents (i) (income) loss from equity method investments and (ii) cash distributions received from our equity (a)method investments. Cash distributions received from our equity method investments are included in segment income.

The increase in Adjusted EBITDA for the three months ended June 30, 2018 reflects the increase in segment income in our BK, PLK and TH segments. The increase in Adjusted EBITDA for the six months ended June 30, 2018 reflects the increase in segment income in our BK and PLK segments, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, partially offset by a decrease in our TH segment.

The increase in EBITDA for the three months ended June 30, 2018 is primarily due to an increase in segment income in our BK, PLK and TH segments and favorable results from other operating expenses (income), net in the current period, and a decrease in PLK Transaction costs, partially offset by the inclusion of Office centralization and relocation costs and Corporate restructuring and tax advisory fees, and an increase in share-based compensation and non-cash incentive compensation expense.

The increase in EBITDA for the six months ended June 30, 2018 is primarily due to an increase in segment income in our BK and PLK segments, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, favorable results from other operating expenses (income), net in the current period, a decrease in PLK Transaction costs, and favorable results from the impact of equity method investments in the current period, partially offset by the inclusion of Corporate restructuring and tax advisory fees and Office centralization and relocation costs and a decrease in segment income in our TH segment.

## Table of Contents

### Liquidity and Capital Resources

Our primary sources of liquidity are cash on hand, cash generated by operations, and borrowings available under our Revolving Credit Facility (as defined below). We have used, and may in the future use, our liquidity to make required interest and/or principal payments, to repurchase our common shares, to repurchase Class B exchangeable limited partnership units of Partnership ("Partnership exchangeable units"), to voluntarily prepay and repurchase our or one of our affiliate's outstanding debt, to fund our investing activities, and to pay dividends on our common shares and make distributions on the Partnership exchangeable units. As a result of our borrowings, we are highly leveraged. Our liquidity requirements are significant, primarily due to debt service requirements.

As of June 30, 2018, we had cash and cash equivalents of \$987.5 million and working capital of \$312.5 million and borrowing availability of \$495.5 million under our Revolving Credit Facility. Based on our current level of operations and available cash, we believe our cash flow from operations, combined with availability under our Revolving Credit Facility, will provide sufficient liquidity to fund our current obligations, debt service requirements and capital spending over the next twelve months.

Prior to the Tax Act, we provided deferred taxes on certain undistributed foreign earnings. Under our transition to a modified territorial tax system whereby all previously untaxed undistributed foreign earnings are subject to a transition tax charge at reduced rates and future repatriations of foreign earnings will generally be exempt from U.S. tax, we wrote off the existing deferred tax liability on undistributed foreign earnings and recorded the impact of the new transition tax charge on foreign earnings during the fourth quarter of 2017. We will continue to monitor available evidence and our plans for foreign earnings and expect to continue to provide any applicable deferred taxes based on the tax liability or withholding taxes that would be due upon repatriation of amounts not considered permanently reinvested.

On August 2, 2016, our board of directors approved a share repurchase authorization that allows us to purchase up to \$300.0 million of our common shares through July 2021. Repurchases under the Company's authorization will be made in the open market or through privately negotiated transactions. On August 2, 2017, we announced that the Toronto Stock Exchange (the "TSX") had accepted the notice of our intention to renew the normal course issuer bid. Under this normal course issuer bid, we are permitted to repurchase up to 19,215,980 common shares for the one-year period commencing on August 8, 2017 and ending on August 7, 2018, or earlier if we complete the repurchases prior to such date. We have filed an application with the TSX to extend the normal course issuer bid through August 7, 2019. Share repurchases under the normal course issuer bid will be made through the facilities of the TSX, the New York Stock Exchange (the "NYSE") and/or other exchanges and alternative Canadian or foreign trading systems, if eligible, or by such other means as may be permitted by the TSX and/or the NYSE under applicable law. Shareholders may obtain a copy of the prior notice, free of charge, by contacting us. As of the date of this report, there have been no share repurchases under the normal course issuer bid that commenced on August 8, 2017.

### Debt Instruments and Debt Service Requirements

As of June 30, 2018, our long-term debt is comprised primarily of borrowings under our Credit Facilities, amounts outstanding under our 2017 4.25% Senior Notes, 2015 4.625% Senior Notes, and 2017 5.00% Senior Notes (each as defined below), and obligations under capital leases. For further information about our long-term debt, see Note 9 to the accompanying unaudited condensed consolidated financial statements included in this report.

### Credit Facilities

As of June 30, 2018, there was \$6,356.5 million outstanding principal amount under our senior secured term loan facility (the "Term Loan Facility") with an interest rate of 4.34%. Based on the amounts outstanding under the Term Loan Facility and LIBOR as of June 30, 2018, subject to a floor of 1.00%, required debt service for the next twelve months is estimated to be approximately \$280.0 million in interest payments and \$51.1 million in principal payments. In addition, based on LIBOR as of June 30, 2018, net cash settlements that we expect to receive on our \$3,500.0 million interest rate swap are estimated to be approximately \$6.9 million for the next twelve months.

As of June 30, 2018, we had no amounts outstanding under our senior secured revolving credit facility (the "Revolving Credit Facility" and together with the Term Loan Facility, the "Credit Facilities"), had \$4.5 million of letters of credit issued against the facility, and our borrowing availability was \$495.5 million. Funds available under the Revolving Credit Facility may be used to repay other debt, finance debt or share repurchases, fund acquisitions or

capital expenditures, and for other general corporate purposes. We have a \$125.0 million letter of credit sublimit as part of the Revolving Credit Facility, which reduces our borrowing availability thereunder by the cumulative amount of outstanding letters of credit.

42

---

## Table of Contents

The interest rate applicable to borrowings under our Credit Facilities is, at our option, either (i) a base rate plus an applicable margin equal to 1.25% for the Term Loan Facility and ranging from 0.25% to 1.00%, depending on our leverage ratio, for the Revolving Credit Facility, or (ii) a Eurocurrency rate plus an applicable margin of 2.25% for the Term Loan Facility and ranging from 1.25% to 2.00%, depending on our leverage ratio, for the Revolving Credit Facility. Borrowings are subject to a floor of 2.00% for base rate borrowings and 1.00% for Eurocurrency rate borrowings.

### Senior Notes

Two of our subsidiaries (the "Borrowers") are party to (i) an indenture (the "2017 4.25% Senior Notes Indenture") in connection with the issuance of \$1,500.0 million of 4.25% first lien senior secured notes due May 15, 2024 (the "2017 4.25% Senior Notes"), (ii) an indenture (the "2015 4.625% Senior Notes Indenture") in connection with the issuance of \$1,250.0 million of 4.625% first lien senior notes due January 15, 2022 (the "2015 4.625% Senior Notes") and (iii) an indenture (the "2017 5.00% Senior Notes Indenture") in connection with the issuance of \$2,800.0 million of 5.00% second lien senior secured notes due October 15, 2025 (the "2017 5.00% Senior Notes"). No principal payments are due on the 2017 4.25% Senior Notes, 2015 4.625% Senior Notes and 2017 5.00% Senior Notes until maturity and interest is paid semi-annually.

Based on the amounts outstanding at June 30, 2018, required debt service for the next twelve months on all of the Senior Notes outstanding is approximately \$261.6 million in interest payments.

### Restrictions and Covenants

As of June 30, 2018, we were in compliance with all debt covenants under the Credit Facilities, 2017 4.25% Senior Notes Indenture, 2017 5.00% Senior Notes Indenture and 2015 4.625% Senior Notes Indenture, and there were no limitations on our ability to draw on the remaining availability under our Revolving Credit Facility.

### Cash Dividends

On July 3, 2018, we paid a dividend of \$0.45 per common share and Partnership made a distribution in respect of each Partnership exchangeable unit in the amount of \$0.45 per Partnership exchangeable unit.

Our board of directors has declared a cash dividend of \$0.45 per common share, which will be paid on October 1, 2018 to common shareholders of record on September 7, 2018. Partnership will also make a distribution in respect of each Partnership exchangeable unit in the amount of \$0.45 per Partnership exchangeable unit, and the record date and payment date for distributions on Partnership exchangeable units are the same as the record date and payment date set forth above.

In addition, because we are a holding company, our ability to pay cash dividends on our common shares may be limited by restrictions under our debt agreements. Although we do not have a formal dividend policy, our board of directors may, subject to compliance with the covenants contained in our debt agreements and other considerations, determine to pay dividends in the future. We expect to pay all dividends from cash generated from our operations.

### Outstanding Security Data

As of July 25, 2018, we had outstanding 250,012,986 common shares and one special voting share. The special voting share is held by a trustee, entitling the trustee to that number of votes on matters on which holders of common shares are entitled to vote equal to the number of Partnership exchangeable units outstanding. The trustee is required to cast such votes in accordance with voting instructions provided by holders of Partnership exchangeable units. At any shareholder meeting of the Company, holders of our common shares vote together as a single class with the special voting share except as otherwise provided by law. For information on our share-based compensation and our outstanding equity awards, see Note 15 to the audited consolidated financial statements in Part II, Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2017, filed with the SEC and Canadian securities regulatory authorities on February 23, 2018.

There were 217,546,126 Partnership exchangeable units outstanding as of July 25, 2018. Since December 12, 2015, the holders of Partnership exchangeable units have had the right to require Partnership to exchange all or any portion of such holder's Partnership exchangeable units for our common shares at a ratio of one share for each Partnership exchangeable unit, subject to our right as the general partner of Partnership to determine to settle any such exchange for a cash payment in lieu of our common shares.

## Table of Contents

### Comparative Cash Flows

#### Operating Activities

Cash provided by operating activities was \$287.4 million during the six months ended June 30, 2018, compared to \$490.0 million during the same period in the prior year. The decrease in cash provided by operating activities was driven by an increase in income tax payments, primarily due to the payment of accrued income taxes related to the December 2017 redemption of preferred shares, an increase in interest payments, and a decrease in TH segment income. These factors were partially offset by an increase in BK segment income, an increase in PLK segment income, primarily as a result of including PLK for a full six months in 2018 compared to three months in 2017, and a decrease in cash used for working capital.

#### Investing Activities

Cash provided by investing activities was \$1.5 million for the six months ended June 30, 2018, compared to cash used for investing activities of \$857.9 million during the same period in the prior year. The change in investing activities was driven primarily by net cash used for the Popeyes Acquisition during 2017, partially offset by proceeds from the settlement of derivatives in 2017.

#### Financing Activities

Cash used for financing activities was \$383.2 million for the six months ended June 30, 2018, compared to cash provided by financing activities of \$2,338.7 million during the same period in the prior year. The change in financing activities was driven primarily by proceeds from the issuance of long-term debt in 2017, an increase in RBI common share dividends and distributions on Partnership exchangeable units during 2018 and the 2018 payments in connection with the December 2017 redemption of preferred shares. These factors were partially offset by higher proceeds from stock option exercises in 2018, the repayment of a portion of our term loan in 2017, the repayment of debt assumed in connection with the Popeyes Acquisition in 2017, payment of financing costs in 2017, and preferred dividend payments in 2017.

#### New Accounting Pronouncements

See Note 3 – New Accounting Pronouncements in the notes to the accompanying unaudited condensed consolidated financial statements.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk

There were no material changes during the six months ended June 30, 2018 to the disclosures made in Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the SEC and Canadian securities regulatory authorities on February 23, 2018.

#### Item 4. Controls and Procedures

##### Evaluation of Disclosure Controls and Procedures

An evaluation was conducted under the supervision and with the participation of management, including the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and Exchange Act Rules 15d-15(e)) as of June 30, 2018. Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of such date.

##### Changes in Internal Controls

Beginning January 1, 2018, we integrated Popeyes into our overall internal control over financial reporting framework.

##### Internal Control Over Financial Reporting

The Company's management, including the CEO and CFO, confirm that, other than changes in internal controls disclosed above, there were no changes in the Company's internal control over financial reporting during the three months ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Special Note Regarding Forward-Looking Statements

Certain information contained in this report, including information regarding future financial performance and plans, targets, aspirations, expectations, and objectives of management, constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and forward-looking information within the meaning of Canadian securities laws. We refer to all of these as forward-looking statements. Forward-looking statements are forward-looking in nature and, accordingly, are subject to risks and uncertainties. These forward-looking statements can generally be identified by the use of words such as “believe”, “anticipate”, “expect”, “intend”, “estimate”, “plan”, “continue”, “will”, “may”, “could”, “would”, “target”, “potential” and other similar expressions and include, without limitation, statements regarding our expectations or beliefs regarding (i) our future financial obligations, including annual debt service requirements, capital expenditures and dividend payments, our ability to meet such obligations and the source of funds used to satisfy such obligations; (ii) the amount and timing of additional general and administrative expenses associated with the Popeyes Acquisition and the timing of completing the integration of our PLK operations; (iii) the amount and timing of additional general administrative expenses associated with the centralization and relocation of our Canadian and U.S. restaurant support centers; (iv) the amount and timing of additional Corporate restructuring and tax advisory fees related to the Tax Act; (v) our estimates with respect to tax matters as a result of the Tax Act, including our effective tax rate for 2018, the impacts of the Tax Act, and the anticipated timing of finalizing our estimates; and (vi) certain accounting and tax matters.

Our forward-looking statements, included in this report and elsewhere, represent management’s expectations as of the date that they are made. Our forward-looking statements are based on assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances. However, these forward-looking statements are subject to a number of risks and uncertainties and actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results, level of activity, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, among other things, risks related to: (1) our substantial indebtedness, which could adversely affect our financial condition and prevent us from fulfilling our obligations; (2) global economic or other business conditions that may affect the desire or ability of our customers to purchase our products such as inflationary pressures, high unemployment levels, declines in median income growth, consumer confidence and consumer discretionary spending and changes in consumer perceptions of dietary health and food safety; (3) our ability to successfully manage our franchisee relationships, including our relationship with our Tim Hortons franchisees, and to effectively counter any adverse impact on guest perceptions due to negative publicity; (4) the success of our franchisees, including the financial and operational impact of the new “Winning Together Plan” on Tim Hortons franchisees; and risks related to our fully franchised business model; (5) the effectiveness of our marketing and advertising programs and franchisee support of these programs; (6) significant and rapid fluctuations in interest rates and in the currency exchange markets and the effectiveness of our hedging activity; (7) our ability to successfully implement our domestic and international growth strategy for our brands and risks related to our international operations; (8) our reliance on master franchisees and subfranchisees to accelerate restaurant growth; (9) the ability of the counterparties to our credit facilities and derivatives to fulfill their commitments and/or obligations; and (10) implications of the Tax Act and future changes in applicable tax laws or interpretations thereof.

We operate in a very competitive and rapidly changing environment and our inability to successfully manage any of the above risks may permit our competitors to increase their market share and may decrease our profitability. New risk factors emerge from time to time and it is not possible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. Finally, our future results will depend upon various other risks and uncertainties, including, but not limited to, those detailed in Part I, Item 1A “Risk Factors” of our Annual

Report on Form 10-K for the year ended December 31, 2017 filed with the SEC and Canadian securities regulatory authorities on February 23, 2018, as well as other materials that we from time to time file with, or furnish to, the SEC or file with Canadian securities regulatory authorities. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements in this section and elsewhere in this report. Other than as required under securities laws, we do not assume a duty to update these forward-looking statements, whether as a result of new information, subsequent events or circumstances, changes in expectations or otherwise.

## Part II – Other Information

## Item 1. Legal Proceedings

On July 24, 2018, a complaint for declaratory relief was filed against Tim Hortons USA, Inc. ("THUSA") and Restaurant Brands International Limited Partnership in the Circuit Court of the 11th Judicial Circuit in Miami-Dade County, Florida by Great White North Franchisee Association - USA, Inc., on behalf of its members. The complaint alleges certain breaches of the franchise agreements between THUSA and its franchisees and the implied covenant of good faith and fair dealing, as well as violations of the U.S. franchise rules and the Florida Deceptive and Unfair Trade Practices Act. While we believe the claims are without merit and we intend to vigorously defend against this lawsuit, we are unable to predict the ultimate outcome of the case or estimate the range of possible loss, if any.

## Item 6. Exhibits

Exhibit Number	Description
10.36*	<u>Restaurant Brands International Inc. Amended and Restated 2014 Omnibus Incentive Plan, as amended.</u>
