 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

Note 1. Condensed Consolidated Financial Statements

The accompanying interim unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the United States Securities and Exchange Commission (“SEC”). In our opinion, we have made all adjustments (which, except as otherwise disclosed in these notes, include only normal recurring adjustments) necessary to present fairly our financial position, results of operations and comprehensive income, and cash flows. We have condensed or omitted certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted accounting principles. These financial statements and related notes should be read in conjunction with our financial statements and related notes included in our Annual Report on Form 10-K for the fiscal year ended January 30, 2010. The results of operations for the thirteen weeks and twenty-six weeks ended July 31, 2010 and August 1, 2009 are not necessarily indicative of operating results for the full fiscal year.

As used in these notes, “Fiscal 2010” refers to our fiscal year ending January 29, 2011, “Fiscal 2009” refers to our fiscal year ended January 30, 2010, “Fiscal 2008” refers to our fiscal year ended January 31, 2009, and “Fiscal 2007” refers to our fiscal year ended February 2, 2008. “Fiscal 2010 Second Quarter” refers to our fiscal quarter ended July 31, 2010, “Fiscal 2009 Second Quarter” refers to our fiscal quarter ended August 1, 2009, and “Fiscal 2008 Second Quarter” refers to our fiscal quarter ended August 2, 2008. “Fiscal 2009 Third Quarter” refers to our fiscal quarter ended October 31, 2009, “Fiscal 2009 Fourth Quarter” refers to our fiscal quarter ended January 30, 2010, and “Fiscal 2010 First Quarter” refers to our fiscal quarter ended May 1, 2010. The terms “the Company,” “we,” “us,” and “our” refer to Charming Shoppes Inc. and, where applicable, our consolidated subsidiaries.

Segment Reporting

We operate and report in two segments: Retail Stores and Direct-to-Consumer. We determine our operating segments based on the way our chief operating decision-makers review our results of operations. Additional information regarding our segment reporting is included in “Note 10. Segment Reporting” below.

Note 2. Accounts Receivable

Accounts receivable consist of trade receivables from sales through our FIGI’S® catalog and website. Details of our accounts receivable are as follows:

(In thousands)	July 31, 2010	January 30, 2010
Due from customers	\$6,909	\$38,992
Allowance for doubtful accounts	(2,148)	(5,345)

6.53% mortgage note, due November 2012	3,150	3,850
7.77% mortgage note, due December 2011	6,179	6,549
Total long-term debt principal	167,643	219,928
Less unamortized discount on 1.125% Senior Convertible Notes	(28,037)	(42,105)
Long-term debt – carrying value	139,606	177,823
Current portion	(6,405)	(6,265)
Net long-term debt	\$133,201	\$171,558

Upon maturity of the 1.125% Senior Convertible Notes (the “1.125% Notes”) we will be obligated to repay the principal value of the outstanding notes.

During the thirteen weeks ended July 31, 2010 we repurchased \$49,185,000 aggregate principal amount of 1.125% Notes with \$10,094,000 of unamortized discount for a purchase price of \$38,260,000 and recognized a gain of \$1,907,000, net of unamortized issue costs. During the thirteen weeks ended August 1, 2009 we repurchased \$38,235,000 aggregate principal amount of 1.125% Notes with \$9,582,000 of unamortized discount for a purchase price of \$20,986,000 and recognized a gain of \$7,313,000, net of unamortized issue costs. During the twenty-six weeks ended August 1, 2009 we repurchased \$51,735,000 aggregate principal amount of 1.125% Notes with \$13,020,000 of unamortized discount for a purchase price of \$26,617,000 and recognized a gain of \$11,564,000, net of unamortized issue costs. In conjunction with the Fiscal 2009 repurchases, during the Fiscal 2009 Second Quarter we unwound a portion of our positions in the warrants and call options that we had sold and purchased in Fiscal 2007 to hedge the impact of the convertible debt, which had an immaterial impact on our consolidated financial statements.

The 6.07% mortgage note is secured by a mortgage on real property at our distribution center in Greencastle, Indiana and an Assignment of Lease and Rents and Security Agreement related to the Greencastle facility. The 6.53% mortgage note is secured by a mortgage on land, a building, and certain fixtures we own at our distribution center in White Marsh, Maryland and by leases we own or rents we receive, if any, from tenants of the White Marsh facility. The 7.77% mortgage note is secured by a mortgage on land, buildings, and fixtures we own at our offices in Bensalem, Pennsylvania and by leases we own or rents we receive, if any, from tenants of the Bensalem facility.

We have a loan and security agreement (the “Agreement”) for a \$225,000,000 senior secured revolving credit facility that provides for committed revolving credit availability through July 31, 2012. The amount of credit available from time to time under the Agreement is determined as a percentage of the value of eligible inventory, accounts receivable, and cash, as reduced by certain reserves. In addition, the Agreement includes an option allowing us to increase our credit facility up to \$300,000,000, based on certain terms and conditions. The credit facility may be used for general corporate purposes, and provides that up to \$100,000,000 of the \$225,000,000 may be used for letters of credit.

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 3. Long-term Debt (Continued)

The Agreement provides for borrowings under either “Base Rate” loans or “Eurodollar Rate” loans. Borrowings under Base Rate loans will generally accrue interest at a margin ranging from 2.75% to 3.25% over the Base Rate (as defined in the Agreement) and Eurodollar Rate loans will generally accrue interest at a margin ranging from 3.75% to 4.25% over the London Interbank Offered Rate (“LIBOR”). As of July 31, 2010 the applicable rates under the facility were 6.00% (Base Rate plus 2.75%) for Base Rate Loans and 4.07% (LIBOR plus 3.75%) for 30-day Eurodollar Rate Loans.

The Agreement provides for customary representations and warranties and affirmative covenants. The Agreement also contains customary negative covenants providing limitations, subject to negotiated exceptions, for sales of assets; encumbrances; indebtedness; loans, advances and investments; acquisitions; guarantees; new subsidiaries; dividends and redemptions; transactions with affiliates; changes in business; limitations or restrictions affecting subsidiaries; credit card agreements; proprietary credit cards; and changes in control of certain of our subsidiaries. If at any time “Excess Availability” (as defined in the Agreement) is less than \$40,000,000 then, in each month in which Excess Availability is less than \$40,000,000, we will be required to maintain a minimum fixed charge coverage ratio of at least 1.1 to 1 for the then preceding twelve-month fiscal period. The Agreement also provides for certain rights and remedies if there is an occurrence of one or more events of default under the terms of the Agreement. Under certain conditions the maximum amount available under the Agreement may be reduced or terminated by the lenders and the obligation to repay amounts outstanding under the Agreement may be accelerated.

In connection with the Agreement we executed an Amended and Restated Guaranty (the “Amended Guaranty”). Pursuant to the Amended Guaranty, we and most of our subsidiaries jointly and severally guaranteed the borrowings and obligations under the Agreement, subject to standard insolvency limitations. Under the Amended Guaranty, collateral for the borrowings under the Agreement consists of pledges by us and certain of our subsidiaries of the capital stock of each such entity’s subsidiaries. The Agreement also provides for a security interest in substantially all of our assets excluding, among other things, equipment, real property, and stock or other equity and assets of excluded subsidiaries. Excluded subsidiaries are not Guarantors under the Agreement and the Amended Guaranty.

As of July 31, 2010 we had an aggregate total of \$4,916,000 of unamortized deferred debt acquisition costs related to the facility that will be amortized on a straight-line basis over the life of the facility as interest expense. There were no borrowings outstanding under the facility as of July 31, 2010.

Note 4. Stockholders' Equity

The following table summarizes changes in total stockholders' equity for the period indicated:

(Dollars in thousands)	Twenty-six Weeks Ended July 31, 2010
Total stockholders' equity, beginning of period	\$464,934
Net loss	(4,747)
Issuance of common stock (308,690 shares), net of shares withheld for payroll taxes	131
Equity component of repurchases of 1.125% Senior Convertible Notes	(1,584)
Stock-based compensation	2,010
Total stockholders' equity, end of period	\$460,744

Note 5. Stock-based Compensation Plans

We have various stock-based compensation plans under which we are currently granting awards, which are more fully described in "Item 8. Financial Statements and Supplementary Data; Note 10. Stock-Based Compensation Plans" of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010. Current grants of stock-based compensation consist primarily of stock appreciation rights ("SARs") and restricted stock units ("RSUs").

On April 28, 2010 our Board of Directors approved, and on June 24, 2010 our shareholders approved, our 2010 Stock Award and Incentive Plan (the "2010 Plan"). The 2010 Plan replaces our 2004 Stock Award and Incentive Plan (the "2004 Plan") and no new awards will be granted under the 2004 Plan. Shares for equity awards to our non-employee directors under our 2003 Non-Employee Directors Compensation Plan (the "2003 Plan"), including grants of awards in Fiscal 2010, will also be drawn from the 2010 Plan and no further awards will be granted from remaining shares which were reserved under the 2003 Plan. In addition, no further awards will be granted under our 1988 Key Employee Stock Option Plan (the "1988 Plan").

The number of shares reserved for issuance under the 2010 Plan consist of 4,000,000 shares plus (i) 2,413,587 shares remaining available under the 2004 Plan, which have been transferred to the 2010 plan, and (ii) shares subject to outstanding awards under the 2004 Plan and predecessor plans (2000 Associates' Stock Incentive Plan, 1999 Associates' Stock Incentive Plan, and 1993 Employees' Stock Incentive Plan) that are canceled, forfeited, or otherwise become available under the share recapture provisions of the 2010 Plan. Shares remaining available under the 2003 Plan and 1988 Plan will not be added to the shares authorized under the 2010 Plan.

The 2010 Plan provides for a broad range of awards, including stock options; SARs; RSUs; restricted stock awards ("RSAs"); deferred stock; other stock-based awards; dividend equivalents; performance shares or other stock-based performance awards; cash-based performance awards; and shares issuable in lieu of rights to cash compensation. Stock options include both incentive stock options and non-qualified stock options. Executive officers

and other employees of Charming Shoppes, Inc. and its subsidiaries, non-employee directors, consultants, and others who provide substantial services to us are eligible for awards under the 2010 Plan.

CHARMING SHOPPES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 5. Stock-based Compensation Plans (Continued)

The 2010 Plan includes a limitation on the amount of awards that may be granted to any one participant in a given fiscal year in order to qualify awards as “performance-based” compensation not subject to the limitation on deductibility under Section 162(m) of the Internal Revenue Code. The 2010 Plan does not allow the amendment or replacement of options or SARs previously granted under the 2010 Plan in a transaction that constitutes a “re-pricing” under generally accepted accounting principles without shareholder approval and does not authorize loans to participants.

Additional information related to the 2010 Plan is as follows:

	Twenty-six Weeks Ended July 31, 2010
RSAs/RSUs granted	272,797
Weighted average market price at date of grant	\$3.70
RSAs/RSUs outstanding at end of period	272,797

Shares available for future grants under our stock-based compensation plans as of July 31, 2010 were as follows:

2010 Stock Award and Incentive Plan	6,128,529
1994 Employee Stock Purchase Plan	490,221

Stock option and stock appreciation rights activity under our various stock-based compensation plans for the twenty-six weeks ended July 31, 2010 was as follows:

	Option/ SARs Shares	Average Option/ SARs Price	Option/SARs Prices per Share			Aggregate Intrinsic Value(1) (000's)
Outstanding at January 30, 2010	7,076,953	\$ 2.92	\$ 0.99	–	\$ 13.84	\$ 20,421

Note 5. Stock-based Compensation Plans (Continued)

During the Fiscal 2009 Second Quarter and the Fiscal 2008 Second Quarter we granted cash-settled RSUs under our 2003 Non-Employee Directors Compensation Plan. These cash-settled RSUs have been accounted for as liabilities in accordance with ASC 718-10-25-11, “Compensation – Stock Compensation; Recognition.” Compensation expense related to cash-settled RSUs is recognized over the vesting period of one year from the date of grant and included in “Accrued expenses” in our consolidated balance sheets. Total compensation expense for cash-settled RSUs has been fully recognized as of the Fiscal 2010 Second Quarter.

Total stock-based compensation expense was as follows:

Stock-based compensation expense, cash-settled RSUs	(237)	280	4	562
Total stock-based compensation expense	\$699	\$1,544	\$2,014	\$3,536

We use the Black-Scholes valuation model to estimate the fair value of stock options and stock appreciation rights. We amortize stock-based compensation on a straight-line basis over the requisite service period of an award except for awards that include a market condition, which are amortized on a graded vesting basis over their derived service period. Estimates and assumptions we use under the Black-Scholes model are more fully described in “Item 8. Financial Statements and Supplementary Data; Note 1. Summary of Significant Accounting Policies; Stock-based Compensation” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010.

Total stock-based compensation expense not yet recognized, related to the non-vested portion of stock options, stock appreciation rights, and awards outstanding, was \$10,246,000 as of July 31, 2010. The weighted-average period over which we expect to recognize this compensation expense is approximately 3 years.

Note 6. Customer Loyalty Card Programs

We offer our customers various loyalty card programs. Customers that join these programs are entitled to various benefits, including discounts and rebates on purchases during the membership period. Customers join some of these programs by paying an annual membership fee. For these programs, we recognize revenue as a component of net sales over the life of the membership period based on when the customer earns the benefits and when the fee is no longer refundable. We recognize costs in connection with administering these programs as cost of goods sold when incurred.

(1) Stock options, SARs, and awards are excluded from the computation of diluted net income/(loss) per share as their effect would have been anti-dilutive.

Our 1.125% Notes will not impact our diluted net income per share until the price of our common stock exceeds the conversion price of \$15.379 per share because we expect to settle the principal amount of the 1.125% Notes in cash upon conversion. Our call options are not included in the diluted net income per share calculation as their effect would be anti-dilutive. Should the price of our common stock exceed \$21.607 per share, we would include the dilutive effect of the additional potential shares that may be issued related to our warrants, using the treasury stock method. See "Note 3. Long-term Debt" above and "Item 8. Financial Statements and Supplementary Data; Note 8. Long-term Debt" of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010 for further information regarding our 1.125% Notes, call options, and warrants.

Note 8. Income Taxes

We calculate our interim tax provision in accordance with the provisions of ASC 740-270, "Income Taxes; Interim Reporting." Due to the variability in pre-tax income/(loss) that we have experienced and the existence of a full valuation allowance on our net deferred tax assets, we have concluded that computing our actual year-to-date effective tax rate (as opposed to estimating our annual effective tax rate) provides an appropriate basis for recording income taxes in our interim periods. Additionally, we record an income tax expense or benefit that does not relate to ordinary income/(loss) in the current fiscal year discretely in the interim period in which it occurs. We also recognize the effect of changes in enacted tax laws or rates in the interim periods in which the changes occur.

In computing the income tax provision/(benefit) we make certain estimates and management judgments, such as estimated annual taxable income or loss, the nature and timing of permanent and temporary differences between taxable income for financial reporting and tax reporting, and the recoverability of deferred tax assets. Our estimates and assumptions may change as new events occur, additional information is obtained, or as the tax environment changes.

In accordance with ASC 740, "Income Taxes," we recognize deferred tax assets for temporary differences that will result in deductible amounts in future years and for net operating loss ("NOL") and credit carryforwards. ASC 740 requires recognition of a valuation allowance to reduce deferred tax assets if, based on existing facts and circumstances, it is more-likely-than-not that some portion or all of the deferred tax assets will not be realized. During Fiscal 2008 we evaluated our assumptions regarding the recoverability of our deferred tax assets. Based on all available evidence we determined that the recoverability of our deferred tax assets is more-likely-than-not limited to our available tax loss carrybacks. Accordingly, we established a valuation allowance against our net deferred tax assets. During Fiscal 2009 we increased the valuation allowance and recognized an additional non-cash provision, net of a tax benefit resulting from the carryback of remaining Fiscal 2008 NOLs pursuant to H.R. 3548, the "Worker, Homeownership, and Business Assistance Act of 2009," which was signed into law on November 6, 2009. In future periods we will continue to recognize a valuation allowance until such time as the certainty of future tax benefits can be reasonably assured. Pursuant to ASC 740, when our results of operations demonstrate a pattern of future profitability the valuation allowance may be adjusted, which would result in the reinstatement of all or a part of the net deferred tax assets.

Income taxes receivable, which primarily include available NOL carrybacks for Fiscal 2009 and Fiscal 2008 and amended return receivables, included in "Prepayments and other" on our condensed consolidated balance sheets, were as follows:

(In thousands)	July 31, 2010	January 30, 2010
Income taxes receivable	\$5,910	\$50,609

The reduction in income taxes receivable during the twenty-six weeks ended July 31, 2010 was principally a result of the receipt of \$44,968,000 of Federal tax refunds that related primarily to our NOL carryback for Fiscal 2008 and an amended return.

As of July 31, 2010 our gross unrecognized tax benefits associated with uncertain tax positions were \$30,195,000. If recognized, the portion of the liabilities for gross unrecognized tax benefits that would decrease our provision for income taxes and increase our net income was \$20,595,000. The accrued interest and penalties as of July 31, 2010 were \$15,913,000.

CHARMING SHOPPES, INC. AND SUBSIDIARIES

Note 8. Income Taxes (Continued)

During the twenty-six weeks ended July 31, 2010 the gross unrecognized tax benefits increased by \$422,000 and the portion of the liabilities for gross unrecognized tax benefits that, if recognized, would decrease our provision for income taxes and increase our net income increased by \$444,000. Accrued interest and penalties decreased by \$2,158,000 during the twenty-six weeks ended July 31, 2010.

As of July 31, 2010 it is reasonably possible that the total amount of unrecognized tax benefits will decrease within the next twelve months by as much as \$4,021,000 as a result of resolutions of audits related to U.S. Federal and state tax positions.

Our U.S. Federal income tax returns for Fiscal 2004 and beyond remain subject to examination by the U.S. Internal Revenue Service (“IRS”) due to statute of limitations and the filing of amended returns. We file returns in numerous state jurisdictions, with varying statutes of limitations. Our state tax returns for Fiscal 2005 and subsequent years, depending upon the jurisdiction, generally remain subject to examination. The statute of limitations on a limited number of returns for years prior to Fiscal 2005 has been extended by agreement between us and the particular state jurisdiction. The earliest year still subject to examination by state tax authorities is Fiscal 1998.

Note 9. Asset Securitization

On October 30, 2009 we sold our proprietary credit card receivables programs to World Financial Network National Bank, a subsidiary of Alliance Data Systems Corporation, and entered into ten-year operating agreements with Alliance Data for the provision of private-label credit card programs for our customers. Prior to the sale of the proprietary credit card receivables programs, our proprietary credit card receivables were originated by Spirit of America National Bank (the “Bank”), our wholly-owned credit card bank under our asset securitization program. The Bank transferred its interest in the receivables associated with the proprietary credit card receivables programs to the Charming Shoppes Master Trust (the “Trust”), an unconsolidated qualified special-purpose entity (“QSPE”). The sale of our proprietary credit card receivables programs and the operations of our asset securitization program prior to the sale of our proprietary credit card receivables programs are more fully described in “Item 8. Financial Statements and Supplementary Data; Note 12. Sale of Proprietary Credit Card Receivables Programs” and “Note 17. Asset Securitization” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010. See “Note 12. Fair Value Measurements” below for further information related to our certificates and retained interests in our securitized receivables prior to the sale of the proprietary credit card receivables programs.

The following table presents additional information relating to the receivables in our Trust prior to the sale of the credit card portfolio:

Note 10. Segment Reporting

We operate and report in two segments: Retail Stores and Direct-to-Consumer. We determine our operating segments based on the way our chief operating decision-makers review our results of operations. We consider our retail stores and store-related e-commerce as operating segments that are similar in terms of economic characteristics, production processes, and operations. Accordingly, we have aggregated our retail stores and store-related e-commerce into a single reporting segment (the "Retail Stores" segment). Our catalog and catalog-related e-commerce operations are separately reported under the Direct-to-Consumer segment.

The Retail Stores segment derives its revenues from sales through retail stores and store-related e-commerce sales under our LANE BRYANT® (including LANE BRYANT OUTLET®), FASHION BUG®, and CATHERINES PLUS SIZES® brands and, in Fiscal 2009, our PETITE SOPHISTICATE OUTLET® brand. The Direct-to-Consumer segment derives its revenues from catalog sales and catalog-related e-commerce sales under our FIGI'S title.

During Fiscal 2008 we decided to discontinue our LANE BRYANT WOMAN® catalog and our SHOETRADER.COM® website, which were included in our Direct-to-Consumer segment. During the Fiscal 2009 Second Quarter we completed the closing of our LANE BRYANT WOMAN catalog and during the Fiscal 2009 Third Quarter we completed the closing of our SHOETRADER.COM website. During the Fiscal 2009 Third Quarter we also decided to close our PETITE SOPHISTICATE OUTLET stores and convert a majority of the space to CATHERINES stores in outlet locations, which was started during the Fiscal 2009 Fourth Quarter and completed during the Fiscal 2010 First Quarter.

During the Fiscal 2009 Third Quarter we completed the sale of our proprietary credit card receivables programs. As a result of the sale, we began to allocate the operating results of our credit card operations, including revenue from our customer loyalty programs, to the Retail Stores segment. Accordingly, we have restated the results of the Retail Stores and Corporate and Other segments for the thirteen weeks and twenty-six weeks ended August 1, 2009 to reflect this change in how our chief operating decision-makers evaluate the performance of our operating segments.

The accounting policies of the segments are generally the same as those described in "Item 8. Financial Statements and Supplementary Data; Note 1. Summary of Significant Accounting Policies" of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010. Our chief operating decision-makers evaluate the performance of our operating segments based on a measure of their contribution to operations, which consists of net sales less the cost of merchandise sold and certain directly identifiable and allocable operating costs. We do not allocate certain corporate costs, such as shared services and insurance to our Retail Stores or Direct-to-Consumer segments. Information systems support costs are not allocated to the Retail Stores segment but are allocated to the Direct-to-Consumer segment. Operating costs for our Retail Stores segment consist primarily of store selling, occupancy, buying, and warehousing. Operating costs for our Direct-to-Consumer segment consist primarily of catalog development, production, and circulation; e-commerce advertising; warehousing; and order processing.

Corporate and Other operating costs include: unallocated general and administrative expenses; shared services; insurance; information systems support for the Retail Stores segment; corporate depreciation and amortization; corporate occupancy; and other non-routine charges. Operating contribution for the Retail Stores and Direct-to-Consumer segments less Corporate and Other net expenses equals income/(loss) before interest and income

taxes.

Note 10. Segment Reporting (Continued)

Operating segment assets are those directly used in, or allocable to, that segment's operations. Operating assets for the Retail Stores segment consist primarily of inventories; the net book value of store facilities; goodwill; and intangible assets. Operating assets for the Direct-to-Consumer segment consist primarily of trade receivables; inventories; deferred advertising costs; the net book value of catalog operating facilities; goodwill; and intangible assets. Corporate and Other assets include: corporate cash and cash equivalents; the net book value of corporate and distribution center facilities; deferred income taxes; and other corporate long-lived assets.

Selected financial information for our operations by reportable segment and a reconciliation of the information by segment to our consolidated totals is as follows:

Note 12. Fair Value Measurements

ASC 820-10-20, "Fair Value Measurements and Disclosures," defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. We use various methods to determine fair value, including discounted cash flow projections based on available market interest rates and management estimates of future cash payments.

Financial assets and liabilities that are measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 – Unobservable inputs that are not corroborated by market data.

Our financial assets and liabilities subject to ASC 820-10 were as follows:

(In thousands)	As of July 31, 2010	As of January 30, 2010	Fair Value Method Used
Assets			
Available-for-sale securities(1)	– (2)	\$ 200	Level 2

(1) Unrealized gains and losses on our available-for-sale securities are included in stockholders' equity until realized and realized gains and losses are recognized in income when the securities are sold.

(2) There were no available-for-sale securities as of July 31, 2010.

Prior to the sale of our proprietary credit card receivables programs during the Fiscal 2009 Third Quarter our financial assets included certificates and retained interests in our securitized receivables and our financial liabilities included a servicing liability related to our asset securitization program. We measured these assets and liabilities using Level 3 inputs and reported them at fair value in accordance with ASC 820-10.

We estimated the fair value of our certificates and retained interests in our securitized receivables based on the present value of future expected cash flows using assumptions for the average life of the receivables sold, anticipated credit losses, and the appropriate market discount rate commensurate with the risks involved. This cash flow included an "interest-only" ("I/O") strip, consisting of the present value of the finance charges and late fees in excess of the amounts paid to certificate holders, credit losses, and servicing fees.

The fair value of our servicing liability represented the present value of the excess of our cost of servicing over the servicing fees received. We determined the fair value by calculating all costs associated with billing, collecting,

maintaining, and providing customer service during the expected life of the securitized credit card receivable balances. We discounted the amount of these costs in excess of the servicing fees over the estimated life of the receivables sold. The discount rate and estimated life assumptions used for the present value calculation of the servicing liability were consistent with those used to value the certificates and retained interests.

Note 12. Fair Value Measurements (Continued)

The table below presents a reconciliation of the beginning and ending balances of our certificates and retained interests and our servicing liability during the twenty-six weeks ended August 1, 2009:

Note 13. Fair Value of Financial Instruments

The carrying amounts and estimated fair values of our financial instruments are as follows:

(In thousands)	July 31, 2010		January 30, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value

6.07% mortgage note, due October 2014	9,409	8,909	9,777	9,068
6.53% mortgage note, due November 2012	3,150	3,108	3,850	3,763
7.77% mortgage note, due December 2011	6,179	6,243	6,549	6,560

(1) Net of unamortized discount of \$28,037 at July 31, 2010 and \$42,105 at January 30, 2010 (see “Note 3. Long-term Debt” above).

The fair value of cash and cash equivalents approximates their carrying amount because of the short maturities of such instruments. The fair values of available-for-sale securities and the 1.125% Senior Convertible Notes are based on quoted market prices for the securities. The fair values of the mortgage notes and other long-term debt are based on

estimated current interest rates that we could obtain on similar borrowings.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations should be read in conjunction with the financial statements and accompanying notes included in Item 1 of this report. It should also be read in conjunction with the management's discussion and analysis of financial condition and results of operations, financial statements, and accompanying notes appearing in our Annual Report on Form 10-K for the fiscal year ended January 30, 2010. As used in this management's discussion and analysis, "Fiscal 2010" refers to our fiscal year ending January 29, 2011, "Fiscal 2009" refers to our fiscal year ended January 30, 2010, "Fiscal 2008" refers to our fiscal year ended January 31, 2009, and "Fiscal 2007" refers to our fiscal year ended February 2, 2008. "Fiscal 2010 Second Quarter" refers to our fiscal quarter ended July 31, 2010 and "Fiscal 2009 Second Quarter" refers to our fiscal quarter ended August 1, 2009. "Fiscal 2010 First Quarter" refers to our fiscal quarter ended May 1, 2010 and "Fiscal 2009 First Quarter" refers to our fiscal quarter ended May 2, 2009. "Fiscal 2009 Third Quarter" refers to our fiscal quarter ended October 31, 2009, "Fiscal 2009 Fourth Quarter" refers to our fiscal quarter ended January 30, 2010, and "Fiscal 2008 First Quarter" refers to our fiscal quarter ended May 3, 2008. The terms "Charming Shoppes," "the Company," "we," "us," and "our" refer to Charming Shoppes, Inc. and its consolidated subsidiaries except where the context otherwise requires or as otherwise indicated.

FORWARD-LOOKING STATEMENTS

With the exception of historical information, the matters contained in the following analysis and elsewhere in this report are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may include, but are not limited to, projections of revenues, income or loss, cost reductions, capital expenditures, liquidity, divestitures, financing needs or plans, store closings, merchandise strategy, and plans for future operations, as well as assumptions relating to the foregoing. The words "expect," "could," "should," "project," "estimate," "predict," "anticipate," "plan," "intend," "believes," and similar expressions are also intended to identify forward-looking statements.

We operate in a rapidly changing and competitive environment. New risk factors emerge from time to time and it is not possible for us to predict all risk factors that may affect us. Forward-looking statements are inherently subject to risks and uncertainties, some of which we cannot predict or quantify. Future events and actual results, performance, and achievements could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements, which speak only as of the date on which they were made. We assume no obligation to update or revise any forward-looking statement to reflect actual results or changes in, or additions to, the factors affecting such forward-looking statements. Given those risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Factors that could cause our actual results of operations or financial condition to differ from those described in this report include, but are not necessarily limited to, the following, which are discussed in more detail in "PART I; Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010:

Our business is dependent upon our ability to accurately predict rapidly changing fashion trends, customer preferences, and other fashion-related factors. These risks may increase as we shift a higher proportion of our product to internally-designed merchandise and to overseas sourcing with its associated increase in lead times.

The women's specialty retail apparel and direct-to-consumer markets are highly competitive and we may be unable to compete successfully against existing or future competitors.

Our business plan is largely dependent upon continued growth in the plus-size women's apparel market, which may not occur.

We continue to execute on our five key priorities to guide our organization: (1) focus on the customer; (2) stabilize and begin to grow profitable revenue; (3) increase EBITDA; (4) increase cash flow; and (5) talent. Our key priorities are designed to support our strategic goals to enhance our competitive position and improve our financial results. We cannot assure the successful execution and the realization of the benefits of our key priorities, which may vary materially based on various factors, including the timing of execution of our strategic initiatives.

Our inability to successfully manage labor costs, occupancy costs, transportation costs, or other operating costs, or our inability to take advantage of opportunities to reduce operating costs, could adversely affect our operating margins and our results of operations. We cannot assure the successful implementation of our restructuring programs. Certain key raw materials in our products, such as cotton, wool, and synthetic fabrics, are subject to availability constraints and price volatility. An increase in the cost or decrease in the availability of such raw materials could adversely affect our operating margins and our results of operations. In addition, we may be unable to obtain adequate insurance for our operations at a reasonable cost.

We depend on the availability of credit for our working capital needs, including credit we receive from our bankers, our factors, our suppliers and their agents, and on our ongoing payments from Alliance Data related to our private-label credit card sales. The difficult global economic environment could adversely affect our ability or the ability of our vendors to secure adequate credit or other financing. If we or our vendors are unable to obtain sufficient financing at an affordable cost, our ability to merchandise our retail stores or e-commerce businesses could be adversely affected.

We cannot assure that we will realize the expected benefits from the ten-year private-label credit card operating agreements with Alliance Data. A significant portion of our sales revenues is generated through our private-label credit cards. Therefore, changes in the private-label credit card programs that adversely impact our ability to facilitate customer credit may adversely impact our results of operations. Alliance Data will have discretion over certain policies and arrangements with the cardholders and may change these policies and arrangements in ways that could affect our relationship with the cardholders. Any such changes could adversely affect our private-label credit card sales and our results of operations. Our ability to continue to offer private-label credit card programs to our customers will depend on the success of our strategic alliance with Alliance Data.

Credit card operations are subject to numerous Federal and state laws, including, in particular, the Dodd-Frank Wall Street Reform and Consumer Protection Act signed into law on July 21, 2010, that impose disclosure and other requirements upon the origination, servicing, and enforcement of credit accounts, and limitations on the amount of finance charges and fees that may be charged by a credit card provider. Alliance Data may be subject to regulations to which we were not subject prior to the sale of the proprietary credit card receivables programs. To the extent that such limitations or regulations materially limit the availability of credit or increase the cost of credit to our cardholders or negatively impact provisions which affect our revenue streams associated with the ten-year operating agreements, our results of operations could be adversely affected. In

addition, changes in credit card use, payment patterns, or default rates could be affected by a variety of economic, legal, social, or other factors over which we have no control and cannot predict with certainty. Such changes could also negatively impact the availability of credit or increase the cost of credit to our cardholders or negatively impact provisions that affect our revenue streams associated with the ten-year operating agreements.

The difficult global economic environment, high levels of unemployment, an uncertain economic outlook, and fluctuating energy costs have led to, and could continue to lead to, reduced consumer demand for our products in the future.

Our Retail Stores and Direct-to-Consumer segments experience seasonal fluctuations in net sales and operating income. Any decrease in sales or margins during our peak sales periods or in the availability of working capital during the months preceding such periods could have a material adverse effect on our business. In addition, extreme or unseasonable weather conditions may have a negative impact on our sales.

Certain of our business processes that are dependent on technology are outsourced to third parties. Such processes include credit card authorization and processing, our e-commerce platform, and certain other information technology functions. Although we make a diligent effort to insure that all providers of outsourced services observe proper internal control practices and procedures, we cannot assure that failures will not occur. The failure of such third parties to provide adequate services could adversely affect our customers' shopping experience, our results of operations, liquidity, or our ability to provide adequate financial and management reporting.

We depend on the efforts and abilities of our executive officers and their management teams and we may not be able to retain or replace these employees or recruit additional qualified personnel.

We depend on our distribution and fulfillment centers, and third-party freight consolidators and service providers, for prompt and efficient deliveries of merchandise to our stores and customers. We could incur significantly higher costs and experience longer lead times associated with distributing our products to our stores and shipping our products to our e-commerce and catalog customers if operations at any of these locations were to be disrupted for any reason. The failure to distribute our products promptly could adversely affect our results of operations.

We are subject to the Fair Labor Standards Act and various state and Federal laws and regulations governing such matters as minimum wages, exempt status classification, overtime, and employee benefits. Changes in Federal or state laws or regulations regarding minimum wages, unionization, or other employee benefits could cause us to incur additional wage and benefit costs, which could adversely affect our results of operations.

Natural disasters, as well as war, acts of terrorism, or other armed conflict, or the threat of any such event may negatively impact availability of merchandise and customer traffic to our stores, or otherwise adversely affect our business.

Successful operation of our e-commerce websites and our catalog business is dependent on our ability to maintain efficient and uninterrupted customer service and fulfillment operations.

We rely significantly on foreign sources of production and face a variety of risks generally associated with doing business in foreign markets and importing merchandise

from abroad. Such risks include (but are not necessarily limited to) political instability; imposition of or changes in duties or quotas; trade restrictions; increased security requirements applicable to imports; delays in shipping; increased costs of transportation; and issues relating to compliance with domestic or international labor standards.

Our manufacturers may be unable to manufacture and deliver merchandise to us in a timely manner or to meet our quality standards. In addition, if any one of our manufacturers or vendors fails to operate in compliance with applicable laws and regulations, is perceived by the public as failing to meet certain United States labor standards, or employs unfair labor practices, our business could be adversely affected.

We may be unable to protect our trademarks and other intellectual property rights, which are important to our success and our competitive position.

Our long-term growth plan depends on our ability to open and profitably operate new retail stores, to convert, where applicable, the formats of existing stores on a profitable basis, and to continue to expand our outlet distribution channel. Our retail stores depend upon a high volume of traffic in the strip centers and malls in which our stores are located, and our future retail store growth is dependent upon the availability of suitable locations for new stores. In addition, we will need to identify, hire, and retain a sufficient number of qualified personnel to work in our stores. We cannot assure that desirable store locations will continue to be available, or that we will be able to hire and retain a sufficient number of suitable sales associates at our stores.

Consolidation in the commercial retail real estate industry could affect our ability to successfully negotiate favorable rental terms for our stores in the future. Our ability to operate successfully as a mall-based retailer is dependent upon our ability to develop and maintain good relationships with our landlords. Potential consolidation in the commercial retail real estate industry could limit our future ability to negotiate favorable rental terms or to close under-performing stores on favorable terms. Should a significant consolidation occur a large proportion of our store base could be concentrated with one or a few entities that could then be in a position to dictate unfavorable terms to us due to the significant leverage they would possess. If we are unable to negotiate favorable rental terms with these entities and are therefore unable to profitably operate our existing stores, our business, financial condition, and results of operations could be materially and adversely affected.

Inadequate systems capacity, a disruption or slowdown in telecommunications services, changes in technology, changes in government regulations, systems issues, security breaches, a failure to integrate order management systems, or customer privacy issues could result in reduced sales or increases in operating expenses as a result of our efforts or our inability to remedy such issues.

We continually evaluate our portfolio of businesses and may decide to acquire or divest businesses or enter into joint ventures or strategic alliances. If we fail to manage the risks associated with acquisitions, divestitures, joint ventures, or other alliances, our business, financial condition, and results of operations could be materially and adversely affected.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we are required to include our assessment of the effectiveness of our internal control over financial reporting in our annual reports. Our independent registered public accounting firm is also required to report on whether or not they believe that we maintained, in all material respects, effective internal control over financial reporting. If we are unable to maintain effective

internal control over financial reporting we could be subject to regulatory sanctions and a possible loss of public confidence in the reliability of our financial reporting. Such a failure could result in our inability to provide timely and/or reliable financial information and could adversely affect our business.

The holders of our 1.125% Senior Convertible Notes due May 1, 2014 (the “1.125% Notes”) could require us to repurchase the principal amount of the notes for cash before maturity of the notes upon the occurrence of a “fundamental change” as defined in the prospectus filed in connection with the 1.125% Notes (see “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 8. Long-Term Debt” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010). Such a repurchase would require significant amounts of cash, would be subject to important limitations on our ability to repurchase, such as the risk of our inability to obtain funds for such repurchase, and could adversely affect our financial condition.

Changes to existing accounting rules or the adoption of new rules could have an adverse impact on our reported financial position or results of operations.

CRITICAL ACCOUNTING POLICIES

We have prepared the financial statements and accompanying notes included in “Item 1. Financial Statements” of this report in conformity with United States generally accepted accounting principles. This requires us to make estimates and assumptions that affect the amounts reported in our financial statements and accompanying notes. These estimates and assumptions are based on historical experience, analysis of current trends, and various other factors that we believe to be reasonable under the circumstances. Actual results could differ from those estimates under different assumptions or conditions.

We periodically reevaluate our accounting policies, assumptions, and estimates and make adjustments when facts and circumstances warrant. Our significant accounting policies are described in “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 1. Summary of Significant Accounting Policies” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010. There were no material changes in, or additions to, our critical accounting policies or in the assumptions or estimates we used to prepare the financial information appearing in this report.

OVERVIEW

This overview of our Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) presents a high-level summary of more detailed information contained elsewhere in this Report on Form 10-Q. The intent of this overview is to put this detailed information into perspective and to introduce the discussion and analysis contained in this MD&A. Accordingly, this overview should be read in conjunction with the remainder of this MD&A and with the financial statements and other detailed information included in this Report on Form 10-Q and should not be separately relied upon.

With the support of our strong balance sheet and liquidity, we continue to focus on the turnaround of our operating performance. For the Fiscal 2010 Second Quarter, our Adjusted EBITDA (see “EBITDA and Adjusted EBITDA” below) was \$10.3 million compared to \$29.5 million for the Fiscal 2009 Second Quarter. While we are very disappointed with our Adjusted EBITDA performance, our focus on the customer allowed us to stabilize both our sales and our customer base in the Fiscal 2010 Second Quarter. In order to stem the decline in our customer base, which had declined significantly during Fiscal 2009, we were more promotional and invested in additional marketing. While our year-round and seasonal core assortments generally performed well, our non-core assortments

did not. Due to poor customer response to our seasonal non-core merchandise, we were ultimately over-receipted in the non-core seasonal merchandise. Additionally, our disappointing performance was further impacted by higher-than-planned markdowns in order to clear excess seasonal inventory in an already promotional environment.

We are addressing our Fiscal 2010 Second Quarter merchandising issues and are continuing to generally improve our assortments for the second half of this year, focusing on the right products in the right quantities. Additionally, we are working to better position our supply chain organization to reduce purchase commitment lead times.

Consolidated net sales for the Fiscal 2010 Second Quarter decreased 2% as compared to the Fiscal 2009 Second Quarter due primarily to 150 net store closings during the preceding 12-month period, which were partially offset by a 36% increase in e-commerce net sales and a 1% increase in consolidated comparable store sales. The improvement in e-commerce net sales was attributable to the August 2009 launch of our new websites and the February 2010 launch of our universal shopping cart, which includes free shipping to store locations and \$7 flat-rate shipping to customers.

As discussed above, consolidated gross profit as a percentage of net sales declined 190 basis points as compared to the prior-year period. All of our retail brands experienced decreased gross margin as a result of increased promotional activity and higher-than-planned markdowns to sell-through seasonal merchandise.

Our occupancy and buying expenses decreased both in dollar amount and as a percent of sales for the Fiscal 2010 Second Quarter, primarily related to lower rent expense as a result of the operation of fewer stores and renegotiations of store lease terms.

Our selling, general and administrative expenses increased in dollar amount and as a percent of sales for the Fiscal 2010 Second Quarter, primarily as a result of additional advertising expenses in order to support increases in traffic and conversion. Additionally, income from our private-label credit card operations for the Fiscal 2010 Second Quarter was lower than the prior-year period but was comparable to the prior year for the year-to-date period.

Financial Position

The strength of our capital base and liquidity profile remains solid, with ample liquidity through our \$210 million of cash as of the end of the Fiscal 2010 Second Quarter as compared to \$187 million as of the end of Fiscal 2009. During the Fiscal 2010 Second Quarter we received \$45 million of tax refunds related primarily to a Federal income tax loss carryback and repurchased \$49 million in face value of our 1.125% Convertible Notes due May 2014 for \$38 million. To date, we have repurchased an aggregate principal amount of \$135 million of our 1.125% Convertible Notes for an aggregate purchase price of \$89 million. We ended the quarter with cash in excess of debt of \$42 million, compared to debt in excess of cash of \$33 million as of the end of Fiscal 2009, an improvement of \$75 million. Additionally, we ended the quarter with no borrowings against our \$225 million committed revolving credit facility and as of July 31, 2010 our available borrowing capacity under the facility was approximately \$148 million.

Management Initiatives

We continue to improve our merchandise assortments. We are re-launching our Right Fit® denim and career pants with a strong offering of petite and tall-length assortments at LANE BRYANT and FASHION BUG. We are also presenting a broader assortment of footwear in 500 LANE BRYANT stores, and have re-launched our Juniors assortment in 300 FASHION BUG stores.

We continue to execute on our five key priorities to guide our organization: (1) focus on the customer; (2) stabilize and begin to grow profitable revenue; (3) increase EBITDA; (4) increase cash flow; and (5) talent. Our management initiatives are designed to reinforce and support the execution of our key priorities.

During the Fiscal 2010 Second Quarter we made a number of important executive changes, including the appointments of a new President at FASHION BUG, a new President at LANE BRYANT OUTLETS, and a new Executive Vice President of Merchandising and Product Development at FASHION BUG.

(1) “Comparable store sales” is not a measure that has been defined under generally accepted accounting principles. The method of calculating comparable store sales varies across the retail industry and, therefore, our calculation of comparable store sales is not necessarily comparable to similarly-titled measures reported by other companies. We define comparable store sales as sales from stores operating in both the current and prior-year periods. New stores are added to the comparable store sales base 13 months after their open date. Sales from stores that are relocated within the same mall or strip-center, remodeled, or have a legal square footage change of less than 20% are included in the calculation of comparable store sales. Sales from stores that are relocated outside the existing mall or strip-center, or have a legal square footage change of 20% or more, are excluded from the calculation of comparable store sales until 13 months after the relocated store is opened. Stores that are temporarily closed for a period of 4 weeks or more are excluded from the calculation of comparable store sales for the applicable periods in the year of closure and the subsequent year. Non-store sales, such as catalog and internet sales, are excluded from the calculation of comparable store sales.

(2) Includes LANE BRYANT OUTLET stores.

- (3) Includes incremental Retail Stores segment e-commerce sales.
- (4) Includes CATHERINES stores in outlet locations, which were converted from PETITE SOPHISTICATE OUTLET stores during the Fiscal 2009 Fourth Quarter and Fiscal 2010 First Quarter.
- (5) Includes PETITE SOPHISTICATE OUTLET stores, which were closed or converted to CATHERINES stores in outlet locations during the Fiscal 2009 Fourth Quarter and Fiscal 2010 First Quarter.
- (6) Decreases are primarily a result of reduced sales from our LANE BRYANT WOMAN catalog and related website. During the Fiscal 2008 Third Quarter we decided to discontinue the LANE BRYANT WOMAN catalog, which we completed during the Fiscal 2009 Second Quarter.

EBITDA and Adjusted EBITDA

We define EBITDA as income/(loss) from continuing operations before (i) income taxes; (ii) net interest expense/other income; and (iii) depreciation and amortization, except for amortization of stock-based compensation, which is a component of selling, general, and administrative expenses. We define Adjusted EBITDA as EBITDA before certain recurring items, such as gain on repurchases of 1.125% Senior Convertible Notes and restructuring and other charges. EBITDA and Adjusted EBITDA are not defined under Generally Accepted Accounting Principles (“GAAP”) and our computation may not be comparable to similar measures reported by other companies.

We believe that Adjusted EBITDA, along with other measures, provides a useful pre-tax measure of our ongoing operating performance and our ability to meet debt service and capital requirements on a comparable basis excluding the impact of certain items and capital-related non-cash charges. We use Adjusted EBITDA to monitor and evaluate the performance of our business operations and we believe that it enhances our investors’ ability to analyze trends in our business, compare our performance to other companies in our industry, and evaluate our ability to service our debt and capital needs. In addition, we use Adjusted EBITDA as a component of our compensation programs.

Although Adjusted EBITDA provides useful information on an operating cash flow basis, it is a limited measure in that it excludes the impact of cash requirements for interest expense, income taxes, capital expenditures, and certain other items requiring cash outlays. Therefore, Adjusted EBITDA should be used as a supplement to results of operations and cash flows as reported under GAAP and should not be used as a singular measure of operating performance or as a substitute for GAAP results.

The tables on the following pages show details of our consolidated net sales and a reconciliation of our income/(loss) from continuing operations to EBITDA and Adjusted EBITDA for the periods indicated.

(1) During Fiscal 2009 we decided to close our PETITE SOPHISTICATE OUTLET stores and convert 33 of the locations to CATHERINES stores in outlet locations. We converted 5 stores during Fiscal 2009 and converted the remaining 28 stores during the Fiscal 2010 First Quarter.

(2) Includes 22 FASHION BUG, 12 LANE BRYANT, and 8 CATHERINES stores closed as part of the store closing initiatives announced in February 2008, November 2008, and March 2010.

(3) Includes 28 PETITE SOPHISTICATE OUTLET STORES converted to CATHERINES stores in outlet locations in February 2010 (see Footnote (1) above). Does not include 13-18 FASHION BUG test stores to be converted to include merchandise from our LANE BRYANT and CATHERINES brands.

Comparison of Thirteen Weeks Ended July 31, 2010 and August 1, 2009

Consolidated Results of Operations

Net Sales

Fiscal 2010 Second Quarter consolidated net sales decreased as compared to the Fiscal 2009 Second Quarter primarily as a result of 150 net store closings during the preceding 12-month period, partially offset by a 36% increase in Retail Stores segment e-commerce net sales and a 1% increase in consolidated comparable store sales. Comparable store sales have improved as compared to the prior-year period as a result of our efforts to focus on our customer, which allowed us to stabilize both our net sales and our customer base.

Retail Stores segment e-commerce net sales for the Fiscal 2010 Second Quarter increased 36% from the Fiscal 2009 Second Quarter and represented 6% of consolidated net sales for the current-year period as compared to 4% of consolidated net sales for the prior-year period. The improvement in e-commerce net sales reflects our efforts that began during Fiscal 2009 with the redesign of each of our e-commerce websites, successful conversion to a new technology platform, and ongoing enhancements to our customers' online experience, such as the launch of a universal shopping cart and \$7 flat-rate shipping to customers.

Net sales from our Direct-to-Consumer segment decreased primarily as a result of the closing of our LANE BRYANT WOMAN catalog business, which we completed during the Fiscal 2009 Second Quarter.

Gross Profit

Consolidated gross profit decreased \$14.7 million primarily as a result of store closings and increased promotional activity and higher-than-planned markdowns to sell-through seasonal merchandise, which resulted in a 190 basis-point decrease in consolidated gross margin in the Fiscal 2010 Second Quarter as compared to the prior-year period.

Occupancy and Buying

Consolidated occupancy and buying expenses as a percentage of consolidated net sales decreased 120 basis points as compared to the prior-year period and decreased \$8.2 million primarily as a result of operating fewer stores, as well as rent reductions received from landlords and other store-related occupancy savings.

Selling, General, and Administrative

Consolidated selling, general, and administrative expenses as a percentage of net sales increased 290 basis points as a result of a lack of leverage from the decrease in net sales and increased \$12.7 million from the prior-year period, primarily as a result of additional advertising expenses, including our national television campaign. Additionally, income from our private-label credit card operations for the Fiscal 2010 Second Quarter was lower than the prior-year period but on a year-to-date basis was comparable to the prior-year period.

Retail Stores Segment Results of Operations

Net Sales

Retail Stores segment net sales for the Fiscal 2010 Second Quarter decreased as compared to the prior-year period primarily as a result of 150 net store closings during the preceding twelve-month period, partially offset by an increase in store-related e-commerce net sales across all of our brands and increases in comparable store sales at our FASHION BUG and LANE BRYANT brands. Comparable store sales have improved as compared to the prior-year period as a result of our efforts to focus on our customer, which allowed us to stabilize both our net sales and our customer base.

Retail Stores segment e-commerce net sales for the Fiscal 2010 Second Quarter increased 36% from the Fiscal 2009 Second Quarter and represented 6% of Retail Stores segment net sales for the current-year period as compared to 4% of Retail Stores segment net sales for the prior-year period. During the Fiscal 2009 Third Quarter we redesigned our websites and converted to a new technology platform, and during the Fiscal 2010 First Quarter we introduced a universal shopping cart with free shipping to store locations and \$7 flat-rate shipping for home delivery to enhance our customers' on-line shopping experience.

LANE BRYANT sales increased as compared to the prior-year period primarily as a result of an increase in store-related e-commerce net sales and a 1% increase in comparable store sales, partially offset by 32 net store

closings since the end of the prior-year period. Increases in traffic levels, units per transaction, and conversion rate at LANE BRYANT were partially offset by a decrease in average dollar sale.

FASHION BUG sales decreased primarily as a result of 89 net store closings, partially offset by a 3% increase in comparable store sales and an increase in store-related e-commerce net sales. Slight improvements in traffic levels, conversion rate and units per transaction were more than offset by a decrease in average dollar sale as compared to the prior-year period for FASHION BUG.

CATHERINES sales increased as compared to the prior year primarily as a result of 15 net store openings driven by the conversion of 33 PETITE SOPHISTICATE OUTLET stores to CATHERINES stores in outlet locations during the Fiscal 2010 First Quarter, as well as an increase in store-related e-commerce net sales. Comparable store sales were flat for the current-year period and an increase in conversion rate was offset by decreases in traffic levels and average dollar sale as compared to the prior-year period.

During the Fiscal 2010 Second Quarter we recognized revenues of \$4.8 million in connection with our loyalty card programs as compared to revenues of \$5.0 million during the Fiscal 2009 Second Quarter.

Gross Profit

Gross profit for the Retail Stores segment as a percentage of net sales decreased 330 basis points due primarily to increased promotional activity to drive store traffic and to sell-through seasonal merchandise during the current-year period. Markdowns as a percentage of sales increased as compared to the prior-year period at each of our brands. Gross profit as a percentage of net sales decreased 340 basis points for LANE BRYANT, 320 basis points for FASHION BUG, and 360 basis points for CATHERINES.

Occupancy and Buying

Occupancy and buying expenses for the Retail Stores segment as a percentage of net sales decreased 70 basis points and decreased in dollar amount in the current-year period as compared to the prior-year period, primarily as a result of the closing of under-performing stores during the prior year as well as from rent reductions secured from landlords. Occupancy and buying expenses as a percentage of net sales decreased 90 basis points for LANE BRYANT and 80 basis points for FASHION BUG. Occupancy and buying expenses as a percentage of net sales increased 10 basis points for CATHERINES primarily as a result of the conversion of 33 PETITE SOPHISTICATE OUTLET stores to CATHERINES stores in outlet locations.

Selling, General, and Administrative

Selling, general, and administrative expenses for the Retail Stores segment as a percentage of net sales increased 250 basis points as a result of a lack of leverage from the decrease in net sales and increased in dollar amount primarily as a result of additional advertising expenses, including our national television campaign. Additionally, income from our private-label credit card operations for the Fiscal 2010 Second Quarter was lower than the prior-year period. Selling, general, and administrative expenses as a percentage of net sales increased 240 basis points for LANE BRYANT, 290 basis points for FASHION BUG, and 130 basis points for CATHERINES.

Direct-to-Consumer Segment Results of Operations

Net Sales

The decrease in net sales from our Direct-to-Consumer segment was primarily attributable to the closing of our LANE BRYANT WOMAN catalog and related website during the Fiscal 2009 Second Quarter. Net sales from our FIGI'S catalog increased 24% as compared to the prior-year period as a result of a planned increase in catalog circulation.

Gross Profit

Gross profit for the Direct-to-Consumer segment as a percentage of net sales increased as compared to the prior-year period primarily as a result of improvements in gross profit for our FIGI'S business.

Occupancy and Buying

Occupancy and buying expenses for our Direct-to-Consumer segment decreased primarily as a result of the shutdown during the Fiscal 2009 Third Quarter of the retained leased facilities from the sale of our non-core misses apparel catalog business.

Selling, General, and Administrative

Selling, general, and administrative expenses for our Direct-to-Consumer segment increased as compared to the prior-year period primarily as a result of the transitional service agreements related to the non-core misses apparel catalog business that terminated during the Fiscal 2009 Third Quarter.

Depreciation and Amortization

Depreciation and amortization expense as a percentage of consolidated net sales decreased 30 basis points as compared to the prior-year period and decreased in dollar amount primarily as a result of our operation of fewer stores in the current-year period as compared to the prior-year period and the write-down of store assets during the Fiscal 2009 Fourth Quarter.

Restructuring and Other Charges

During the Fiscal 2010 Second Quarter we recognized charges primarily for lease termination costs in connection with our program, announced in March 2010, to close approximately 100-120 under-performing stores during Fiscal 2010, and accretion charges on lease termination costs for facilities retained from the sale of our non-core misses apparel catalog business that ceased operations in the Fiscal 2009 Third Quarter. During the Fiscal 2009 Second Quarter we recognized charges primarily for non-cash write-downs of assets retained from the sale of the non-core misses apparel catalog business, costs related to our decision to outsource the development and hosting of our new e-commerce platform, and costs related to our transformational initiatives.

Gain on Repurchases of 1.125% Senior Convertible Notes

During the Fiscal 2010 Second Quarter we repurchased 1.125% Senior Convertible Notes due May 2014 (the "1.125% Notes") with an aggregate principal amount of \$49.2 million and recognized a gain on the repurchases of \$1.9 million, net of unamortized issue costs. During the Fiscal 2009 Second Quarter we repurchased 1.125% Notes with an aggregate principal amount of \$38.2 million and recognized a gain on the repurchases of \$7.3 million, net of unamortized issue costs.

Income Tax Provision

Our income tax benefit for the Fiscal 2010 Second Quarter was \$0.4 million on a loss before income taxes of \$9.1 million as compared to a tax provision of \$0.7 million on income before income taxes of \$5.6 million for the Fiscal 2009 Second Quarter. The income tax benefit for the Fiscal 2010 Second Quarter was primarily a result of a net decrease in our liability for unrecognized tax benefits, interest, and penalties in accordance with ASC 740-10, "Income Taxes," offset by certain state and foreign income taxes payable as well as required deferred taxes.

The Fiscal 2009 Second Quarter income tax provision was primarily a result of state and foreign income taxes payable as well as required deferred taxes, offset by a net decrease in our liability for unrecognized tax benefits, interest and penalties in accordance with ASC 740-10.

Comparison of Twenty-six Weeks Ended July 31, 2010 and August 1, 2009

Consolidated Results of Operations

Net Sales

Consolidated net sales for the first half of Fiscal 2010 decreased as compared to the first half of Fiscal 2009. The decrease was primarily a result of 150 net store closings during the preceding 12-month period, the closing of our LANE BRYANT WOMAN catalog and related website during the Fiscal 2009 Second Quarter, and a 1% decrease in consolidated comparable store sales, partially offset by an increase in Retail Stores segment e-commerce net sales. Comparable store sales continue to be negatively impacted by weak but improving store traffic levels.

Retail Stores segment e-commerce net sales for the first half of Fiscal 2010 increased 36% from the first half of Fiscal 2009 and represented 6% of consolidated net sales for the current-year period as compared to 4% of consolidated net sales for the prior-year period. The improvement in e-commerce net sales reflects our efforts that began during Fiscal 2009 with the redesign of each of our e-commerce websites, conversion to a new technology platform, and the launch of a universal shopping cart with free shipping to store locations and \$7 flat-rate shipping for home delivery to enhance our customers' online shopping experience.

Net sales from our Direct-to-Consumer segment decreased primarily as a result of the closing of our LANE BRYANT WOMAN catalog business, which we completed during the Fiscal 2009 Second Quarter.

Gross Profit

Consolidated gross profit decreased \$25.7 million primarily as a result of store closings and increased promotional activity and higher-than-planned markdowns to sell-through seasonal merchandise, which resulted in a 40-basis-point decrease in consolidated gross margin in the first half of Fiscal 2010 as compared to the prior-year period.

Occupancy and Buying

Consolidated occupancy and buying expenses as a percentage of consolidated net sales decreased 100 basis points as compared to the prior-year period and decreased \$18.5 million primarily as a result of operating fewer stores, as well as rent reductions secured from landlords and other store-related occupancy savings.

Selling, General, and Administrative

Consolidated selling, general, and administrative expenses as a percentage of net sales increased 250 basis points as a result of a lack of leverage from the decrease in net sales and increased \$14.4 million from the prior-year period, primarily as a result of additional advertising expenses, including our national television campaign.

Retail Stores Segment Results of Operations

Net Sales

Retail Stores segment net sales for the first half of Fiscal 2010 decreased as compared to the first half of Fiscal 2009 primarily as a result of 150 net store closings during the preceding twelve-month period and decreases in comparable store sales at our LANE BRYANT and CATHERINES brands, partially offset by an increase in comparable store sales for our FASHION BUG brand and increases in store-related e-commerce net sales across all of our brands. Net sales for all of our brands continued to be negatively impacted by weak but improving store traffic levels.

Retail Stores segment e-commerce net sales for the first half of Fiscal 2010 increased 36% from the first half of Fiscal 2009 and represented 6% of Retail Stores segment net sales for the current-year period as compared to 4% of Retail Stores segment net sales for the prior-year period. During the Fiscal 2009 Third Quarter we redesigned our websites and converted to a new technology platform, and during the Fiscal 2010 First Quarter we introduced a universal shopping cart with free shipping to store locations and \$7 flat-rate shipping for home delivery to enhance our customers' on-line shopping experience.

LANE BRYANT sales decreased as compared to the prior-year period primarily as a result of 32 net store closings during the preceding twelve-month period and a 1% decrease in comparable store sales, partially offset by an increase in store-related e-commerce net sales. An increase in traffic levels and conversion rate at LANE BRYANT were offset by a decrease in average dollar sale as compared to the prior-year period.

FASHION BUG sales decreased primarily as a result of 89 net store closings, partially offset by an increase in store-related e-commerce net sales and a 1% increase in comparable store sales. Increases in traffic levels and conversion rate were offset by a decrease in average dollar sale as compared to the prior-year period.

CATHERINES sales increased slightly as compared to the prior year primarily as a result of 15 net store openings driven by the conversion of 33 PETITE SOPHISTICATE OUTLET stores to CATHERINES stores in outlet locations during the Fiscal 2010 First Quarter, as well as an increase in store-related e-commerce net sales. Comparable store sales decreased 1% and an increase in conversion rate was offset by decreases in traffic levels and average dollar sale as compared to the prior-year period.

During the first half of Fiscal 2010 we recognized revenues of \$9.2 million in connection with our loyalty card programs as compared to revenues of \$10.0 million during the first half of Fiscal 2009.

Gross Profit

Gross profit for the Retail Stores segment as a percentage of net sales decreased 210 basis points due primarily to increased promotional activity to drive store traffic and to sell-through seasonal merchandise during the current-year period. Markdowns as a percentage of sales increased as compared to the prior-year period at each of our brands. Gross profit as a percentage of net sales decreased 170 basis points for LANE BRYANT, 270 basis points for FASHION BUG, and 280 basis points for CATHERINES.

Occupancy and Buying

Occupancy and buying expenses for the Retail Stores segment as a percentage of net sales decreased 70 basis points and decreased in dollar amount in the current-year period as compared to the prior-year period, primarily as a result of the closing of under-performing stores during the preceding 12-month period as well as from occupancy reductions secured from landlords. Occupancy and buying expenses as a percentage of net sales decreased 90 basis points for LANE BRYANT and 80 basis points for FASHION BUG. Occupancy and buying expenses as a percentage of net sales increased 20 basis points for CATHERINES as an increase in occupancy and buying expenses from the conversion of 33 PETITE SOPHISTICATE OUTLET stores to CATHERINES stores in outlet locations more than offset an increase in CATHERINES net sales.

Selling, General, and Administrative

Selling, general, and administrative expenses for the Retail Stores segment as a percentage of net sales increased 200 basis points as a result of a lack of leverage from the decrease in net sales and increased in dollar amount primarily as a result of additional advertising expenses, including our national television campaign. Selling, general, and administrative expenses as a percentage of net sales increased 200 basis points for LANE BRYANT, 190 basis points for FASHION BUG, and 230 basis points for CATHERINES.

Direct-to-Consumer Segment Results of Operations

Net Sales

The decrease in net sales from our Direct-to-Consumer segment was primarily attributable to the closing of our LANE BRYANT WOMAN catalog and related website during the Fiscal 2009 Second Quarter. Net sales from our FIGI'S catalog increased 18% as compared to the prior-year period as a result of a planned increase in catalog circulation as part of our strategic plan to grow the FIGI'S business.

Gross Profit

Gross profit for the Direct-to-Consumer segment as a percentage of net sales increased as compared to the prior-year period primarily as a result of improvements in gross profit for our FIGI'S business.

Occupancy and Buying

Occupancy and buying expenses for our Direct-to-Consumer segment decreased primarily as a result of the shutdown during the Fiscal 2009 Third Quarter of the retained leased facilities from the sale of our non-core misses apparel catalog business.

Selling, General, and Administrative

Selling, general, and administrative expenses for our Direct-to-Consumer segment increased as compared to the prior-year period primarily as a result of the transitional service agreements related to the non-core misses apparel catalog business that terminated during the Fiscal 2009 Third Quarter.

Depreciation and Amortization

Depreciation and amortization expense as a percentage of consolidated net sales decreased 40 basis points as compared to the prior-year period and decreased in dollar amount primarily as a result of our operation of fewer stores in the current-year period as compared to the prior-year period and the write-down of store assets during the Fiscal 2009 Fourth Quarter.

Restructuring and Other Charges

During the first half of Fiscal 2010 we recognized charges primarily for lease termination costs in connection with our program, announced in March 2010, to close approximately 100-120 under-performing stores during Fiscal 2010, and accretion charges on lease termination costs for facilities retained from the sale of our non-core misses apparel catalog business that ceased operations in the Fiscal 2009 Third Quarter. During the first half of Fiscal 2009 we recognized charges primarily for lease termination, severance, relocation, and other costs related to restructuring initiatives announced during Fiscal 2007 and Fiscal 2008. We also recognized non-cash charges for write-downs of assets

retained from the sale of the non-core misses apparel catalog business and our decision to outsource the development and hosting of our new e-commerce platform. In addition, we recognized retention costs and non-cash accelerated depreciation related to the shutdown of our LANE BRYANT WOMAN catalog operations and lease termination costs related to the closure of under-performing stores and other costs.

Gain on Repurchases of 1.125% Senior Convertible Notes

During the first half of Fiscal 2010 we repurchased 1.125% Notes with an aggregate principal amount of \$49.2 million and recognized a gain on the repurchases of \$1.9 million, net of unamortized issue costs. During the first half of Fiscal 2009 we repurchased 1.125% Notes with an aggregate principal amount of \$51.7 million and recognized a gain on the repurchases of \$11.6 million, net of unamortized issue costs.

Income Tax Provision

Our income tax benefit for the first half of Fiscal 2010 was \$1.2 million on a loss before income taxes of \$5.9 million as compared to a tax provision of \$5.4 million on income before income taxes of \$3.8 million for the first half of Fiscal 2009. The income tax benefit for the first half of Fiscal 2010 resulted primarily from a reduction in our valuation allowance associated with our net operating loss carryback and a net decrease in our liability for unrecognized tax benefits, interest, and penalties in accordance with ASC 740-10, "Income Taxes," offset by certain state and foreign income taxes payable as well as required deferred taxes.

The income tax provision for the first half of Fiscal 2009 was primarily a result of a net increase in our liability for unrecognized tax benefits, interest, and penalties after a decrease due to settlements with state tax authorities; state and foreign income taxes payable; and required deferred taxes.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of funding for our working capital requirements are our available cash balances, cash flow from operations, private-label credit card programs, and revolving credit facility. The following table highlights certain information related to our liquidity and capital resources:

(Dollars in millions)	July 31, 2010	January 30, 2010		
Cash, cash equivalents, and available-for-sale securities	\$210.1	\$186.8		
Available borrowing capacity under revolving credit facility	\$148.1	\$141.4		
Working capital	\$302.6	\$335.6		
Current ratio	2.0	2.2		
Long-term debt to equity ratio	36.4	%	47.3	%

The following discussion of cash flows is based on our consolidated statements of cash flows included in "Item 1. Financial Statements" above.

Our net cash provided by operating activities increased to \$82.0 million for the first half of Fiscal 2010 from \$57.4 million for the first half of Fiscal 2009. The increase in cash provided by operating activities was primarily a result of the receipt of \$45.0 million of Federal income tax refunds during the current-year period and the timing of payments of prepaid and accrued expenses, partially offset by an increase in inventories net of accounts payable in the current-year period as compared to the prior-year period.

During the first half of Fiscal 2010 we used \$3.1 million for scheduled repayments of long-term borrowings. In addition, we repurchased 1.125% Senior Convertible Notes due May 2014 (the "1.125% Notes") with an aggregate principal amount of \$49.2 million for an aggregate purchase price of \$38.3 million. During the first half of Fiscal 2009 we repurchased 1.125% Notes with an aggregate principal amount of \$51.7 million for an aggregate purchase

price of \$26.6 million. In addition, during the first half of Fiscal 2009 we used \$3.4 million for scheduled repayments of other long-term borrowings and \$6.3 million for deferred financing costs related to our amended revolving credit facility, and received \$6.9 million of proceeds from net sales of available-for-sale securities.

Capital Expenditures

Capital expenditures net of construction allowances received from landlords were \$14.7 million during the first half of Fiscal 2010 as compared to \$5.6 million for the first half of Fiscal 2009. Gross capital expenditures, excluding construction allowances received from landlords, were \$16.6 million during the first half of Fiscal 2010 as compared to \$9.8 million for the first half of Fiscal 2009.

We anticipate that our Fiscal 2010 capital expenditures, net of construction allowances received from landlords, will be approximately \$42-\$47 million as compared to net capital expenditures of \$18.4 million for Fiscal 2009. Our projected gross capital expenditures for Fiscal 2010 will be approximately \$45-\$50 million before construction allowances received from landlords as compared to gross capital expenditures of \$22.7 million for Fiscal 2009. We expect to use these expenditures according to disciplined return on investment criteria for 6-8 new store openings, remodels and refurbishments, to fund fixturing for new merchandise assortments, to test brand combinations and conversions, and the implementation of information technology tools to assist in improving our business results. We expect to finance these capital expenditures primarily through internally-generated funds.

Repurchases of Common Stock

In November 2007 our Board of Directors authorized a \$200 million share repurchase program to make share purchases from time to time in the open market or through privately-negotiated transactions. The timing of such repurchases and the number of shares repurchased will depend on market conditions and we intend to hold shares repurchased as treasury shares. We have not repurchased any shares of common stock subsequent to the Fiscal 2008 First Quarter. Our amended revolving credit facility allows the repurchase of our common stock subject to maintaining a minimum level of "Excess Availability" (as defined in the facility agreement) for 30 days before such repurchase, immediately after such repurchase, and on a projected pro-forma basis for the 12 consecutive fiscal months thereafter. See "PART II, Item 2. Unregistered Sales of Equity Securities and Use of Proceeds" below for additional information regarding the share-repurchase program announced in November 2007.

Dividends

We have not paid any dividends since 1995, and we do not expect to declare or pay any dividends on our common stock in the foreseeable future. The payment of future dividends is within the discretion of our Board of Directors and will depend upon our future earnings, if any; our capital requirements; our financial condition; and other relevant factors. Our revolving credit facility allows the payment of dividends on our common stock not to exceed \$15 million in any fiscal year. Such payments are subject to maintaining a minimum level of "Excess Availability" (as defined in the facility agreement) for 30 days before the payment of such dividends, immediately after the payment of such dividends, and on a projected pro-forma basis for the 12 consecutive fiscal months thereafter.

FINANCING

Off-Balance-Sheet Financing

Sale of Proprietary Credit Card Receivables Programs

On August 13, 2009 we announced an agreement for the sale of our proprietary credit card receivables programs to World Financial Network National Bank (“WFNNB”), a subsidiary of Alliance Data Systems Corporation (“Alliance Data”). We also entered into ten-year operating agreements with WFNNB for the provision of private-label credit card programs for our customers. The transaction closed on October 30, 2009. See “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations; Financial Condition; Financing; Off-Balance-Sheet Financing” and “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 12. Sale of Proprietary Credit Card Receivables Programs” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010 for further details regarding the sale of our proprietary credit card receivables programs.

Asset Securitization Program

Prior to the sale of our proprietary credit card receivables programs, our asset securitization program primarily involved the sale of proprietary credit card receivables to a special-purpose entity, which in turn transferred the receivables to a separate qualified special-purpose entity (“QSPE”). The QSPE’s assets and liabilities were not consolidated in our balance sheet and the receivables transferred to the QSPEs were isolated for purposes of the securitization program. We used our asset securitization facilities to fund the credit card receivables generated by our FASHION BUG, LANE BRYANT, CATHERINES, and PETITE SOPHISTICATE proprietary credit card programs. Additional information regarding our asset securitization facilities is included in “Item 1. Notes to Condensed Consolidated Financial Statements; “Note 9. Asset Securitization” above and in “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations; Financial Condition; Financing; Off-Balance-Sheet Financing” and “Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; NOTE 17. Asset Securitization” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010.

Our Proprietary Credit Card Programs

Prior to the October 30, 2009 sale of the proprietary credit card portfolio we managed our proprietary credit card programs to enhance customer loyalty and to allow us to integrate our direct-mail marketing strategy when communicating with our core customers. We also earned revenue from operating the proprietary credit card programs. As discussed above, we utilized asset securitization as the primary funding source for our proprietary credit card receivables programs. As a result, our primary source of benefits was derived from the net excess spread revenues we received from monthly securitization distributions associated with the collections on managed outstanding receivables.

In addition to the actual net excess spread revenues we recognized a beneficial interest in the QSPE (an “I/O strip”), which represented the estimated present value of cash flows we expected to receive over the estimated period the receivables were outstanding. We also recognized a servicing liability, which represented the present value of the excess of the costs of servicing over the servicing fees we expected to receive and was recorded at estimated fair value. We amortized the I/O strip and the servicing liability on a straight-line basis over the expected life of the proprietary credit card receivables.

The proprietary credit card programs also generated other net revenues, which included revenue from additional products and services that customers purchased with their credit cards and interest income earned on funds invested in the credit entities. The credit contribution was net of expenses associated with operating the program. Except for net fees associated with the fee-based loyalty programs that we included in net sales, we included the net credit contribution as a reduction of selling, general, and administrative expenses in our consolidated statements of operations and comprehensive income.

Subsequent to the sale of the program, under the ten-year operating agreements WFNNB offers private-label credit cards bearing our retail brand names. We receive ongoing payments from WFNNB related to private-label credit card sales, reimbursement of some private-label credit card program marketing costs, and net revenue sharing associated with marketing of certain enhancement services to cardholders. The level of ongoing payments we receive may increase or decrease as a result of changes in the performance of the private-label credit card programs or changes in the legal and regulatory requirements affecting WFNNB in its conduct of the program.

Payments from WFNNB under the ten-year operating agreements are recognized as a reduction of selling, general and administrative expenses, similar to revenues associated with our proprietary credit card receivables program prior to the sale. With the sale of the proprietary credit card receivables programs to WFNNB, the majority of the expenses associated with the proprietary credit card receivables programs were eliminated.

Further details of our net credit contribution for the thirteen weeks and twenty-six weeks ended August 1, 2009 are as follows:

(In millions)	Thirteen Weeks Ended August 1, 2009	Twenty-six Weeks Ended August 1, 2009
Net securitization excess spread revenues	\$23.1	\$40.0
Net changes to the I/O strip and servicing liability	1.0	(0.2)
Other credit card revenues, net(1)	2.9	6.1
Total proprietary credit card revenues	27.0	45.9
Less total credit card program expenses	14.0	28.9
Total credit contribution	\$13.0	\$17.0

(1) Excludes inter-company merchant fees between our credit entities and our retail entities.

Further details of our outstanding receivables for the thirteen weeks and twenty-six weeks ended August 1, 2009 are as follows:

(In millions)	Thirteen Weeks Ended August 1, 2009	Twenty-six Weeks Ended August 1, 2009
Average managed receivables outstanding	\$501.3	\$502.8
Ending managed receivables outstanding	495.2	495.2

Operating Leases

We lease substantially all of our operating stores and certain administrative facilities under non-cancelable operating lease agreements. Additional details on these leases, including minimum lease commitments, are included in "Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 18. Leases" of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010.

Revolving Credit Facility

We have a loan and security agreement (the “agreement”) that provides for a \$225 million senior secured revolving credit facility (the “credit facility”), which includes an option allowing us to increase our credit facility up to \$300 million, based on certain terms and conditions. The credit facility may be used for general corporate purposes, and provides that up to \$100 million of the \$225 million may be used for letters of credit. The credit facility provides for committed revolving credit availability through July 31, 2012. See “Item 1. Notes to Condensed Consolidated Financial Statements (Unaudited); Note 3. Long-term Debt” above for further details regarding the credit facility. There were no borrowings outstanding under the credit facility as of July 31, 2010.

The agreement provides for borrowings under either “Base Rate” loans or “Eurodollar Rate” loans. As of July 31, 2010 the applicable interest rates under the amended facility were 6.00% for Base Rate loans and 4.07% for 30-day Eurodollar Rate loans.

The agreement provides for customary representations and warranties and affirmative covenants, and contains customary negative covenants. The agreement also provides for certain rights and remedies if there is an occurrence of one or more events of default under the terms of the agreement. Under certain conditions the maximum amount available under the agreement may be reduced or terminated by the lenders and the obligation to repay amounts outstanding under the agreement may be accelerated. In each month in which Excess Availability (as defined in the agreement) is less than \$40 million, we will be required to maintain a fixed charge coverage ratio of at least 1.1 to 1 for the then preceding twelve-month fiscal period. As of July 31, 2010 the Excess Availability under the amended facility was \$198.1 million and we were in compliance with all of the covenants included in the facility.

Long-term Debt

During the first half of Fiscal 2010 we repurchased 1.125% Senior Convertible Notes (the “1.125% Notes”) with an aggregate principal amount of \$49.2 million (see “Item 1. Notes to Condensed Consolidated Financial Statements (Unaudited); Note 3. Long-term Debt” above). During the first half of Fiscal 2009 we repurchased 1.125% Notes with an aggregate principal amount of \$51.7 million. We may elect to repurchase additional notes in privately negotiated transactions or in the open market under circumstances that we believe to be favorable to us.

See “FORWARD-LOOKING STATEMENTS” above and “PART I; Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010 for a discussion of the potential impact to our liquidity as a result of the occurrence of a “fundamental change” as defined in the prospectus filed in connection with the 1.125% Notes.

Additional information regarding our long-term borrowings is included in “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations; Financing; Long-term Debt” and “Part II, Item 8. Financial Statements and Supplementary Data; Notes to Consolidated Financial Statements; Note 8. Long-term Debt” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010.

In Fiscal 2010 we plan to continue to utilize our combined financial resources to fund our inventory and inventory-related purchases, advertising and marketing initiatives, and our store development and infrastructure strategies. We believe our cash and available-for-sale securities, our ten-year operating agreements with Alliance Data related to our proprietary credit cards, and our borrowing facilities will provide adequate liquidity for our business operations and growth opportunities during Fiscal 2010. However, our liquidity is affected by many factors, including some that are based on normal operations and some that are related to our industry and the economy.

We may seek, as we believe appropriate, additional debt or equity financing to provide capital for corporate purposes or to fund strategic business opportunities. We may also elect to redeem debt financing prior to maturity or to purchase additional 1.125% Senior Convertible Notes under circumstances that we believe to be favorable to us. At this time we cannot determine the timing or amount of such potential capital requirements, which will depend on a number of factors, including demand for our merchandise, industry conditions, competitive factors, the market value of our outstanding debt, the condition of financial markets, and the nature and size of strategic business opportunities that we may elect to pursue.

MARKET RISK

As of July 31, 2010 there were no borrowings outstanding under our revolving credit facility. Future borrowings made under the facility, if any, could be exposed to variable interest rates.

We are not subject to material foreign exchange risk, as our foreign transactions are primarily U.S. Dollar-denominated and our foreign operations do not constitute a material part of our business.

IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

Not applicable.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations; MARKET RISK,” above.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports we file under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), as appropriate and in such a manner as to allow timely decisions regarding required disclosure. Our Disclosure Committee, which is made up of several key management employees and reports directly to the CEO and CFO, assists our management, including our CEO and CFO, in fulfilling their responsibilities for establishing and maintaining such controls and procedures and providing accurate, timely, and complete disclosure.

As of the end of the period covered by this report on Form 10-Q (the “Evaluation Date”), our Disclosure Committee, under the supervision and with the participation of management, including our CEO and CFO, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our management, including our CEO and CFO, has concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective. Furthermore, there has been no change in our internal control over financial reporting that occurred during the period covered by this report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In August 2009, Sharon Bates and Tamara Baggett, former Store Sales Managers (“SSMs”) of stores under the trade name “Catherines,” filed a Complaint with the United States District Court, District of Connecticut, against Catherines, Inc. (“Catherines”). The complaint, as amended, alleges that the plaintiffs were unlawfully denied overtime compensation. Ms. Bates' individual overtime claim was brought under the Connecticut Minimum Wage Act (“CMWA”) and Ms. Baggett's individual overtime claim was brought under the New York Minimum Wage Act (“NYMWA”). In addition, both Plaintiffs asserted claims on behalf of themselves and other purportedly similarly-situated current and former SSMs under the Fair Labor Standards Act (“FLSA”). The Plaintiffs seek unpaid overtime wages, liquidated damages, interest and costs, attorneys’ fees, an order enjoining Catherines from continuing its alleged illegal practices in violation of the FLSA, NYMWA and CMWA as to current and future SSMs and such other relief as the Court deems equitable. Catherines has filed its Answer to the Amended Complaint denying Plaintiffs’ allegations.

On or about May 27, 2010 Plaintiffs filed a Motion to Proceed as a Collective Action. In that motion, Plaintiffs seek approval from the Court to send notice of the lawsuit to purportedly similarly-situated current and former SSMs working with Catherines after August 18, 2006, who may, after receiving the notice, elect to participate in the lawsuit as plaintiffs. Catherines is opposing this motion, and oral argument was heard on the motion on August 20, 2010. If the motion is granted, the scope of the litigation may expand significantly.

In addition, Catherines has filed a Summary Judgment Motion to dismiss the claims of Plaintiff Bates. Plaintiffs’ opposition to the motion is due August 27, 2010.

Other than ordinary routine litigation incidental to our business, there are no other pending material legal proceedings that we or any of our subsidiaries are a party to, or of which any of their property is the subject.

Item 1A. Risk Factors

Except for the following risk factors, which have been included in “Part I; Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations; FORWARD-LOOKING STATEMENTS” above, we have not become aware of any material changes in the risk factors previously disclosed in “Part I; Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended January 30, 2010:

Consolidation in the commercial retail real estate industry could affect our ability to successfully negotiate favorable rental terms for our stores in the future. Our ability to operate successfully as a mall-based retailer is dependent upon our ability to develop and maintain good relationships with our landlords. Potential consolidation in the commercial retail real estate industry could limit our future ability to negotiate favorable rental terms or to close under-performing stores on favorable terms. Should a significant consolidation occur a large proportion of our store base could be concentrated with one or a few entities that could then be in a position to dictate unfavorable terms to us due to the significant leverage they would possess. If we are unable to negotiate favorable rental terms with these entities and are therefore unable to profitably operate our existing stores, our business, financial condition, and results of operations could be materially and adversely affected.

Certain key raw materials in our products, such as cotton, wool, and synthetic fabrics, are subject to availability constraints and price volatility. An increase in the cost or decrease in the availability of such raw materials could

adversely affect our operating margins and our results of operations.
