Corning Reports Fourth-Quarter Results

CORNING, N.Y. -- Corning Incorporated (NYSE: GLW) today announced that its fourth-quarter sales were \$820 million, and it incurred a net loss of \$29 million or \$0.02 per share. This net loss includes previously announced

Edgar Filing: CORNING INC /NY - Form 8-K

after-tax charges totaling \$81 million or \$0.06 per share.

"We are pleased that our fourth-quarter results met our expectations and that our sales increased for the fourth consecutive time this past year," James R. Houghton, chairman and chief executive officer, said. "More importantly, our goal at the beginning of the year was to restore profitability and, excluding special items, we have accomplished what we set out to do," he said.

Fourth-Quarter Charges

Corning said its fourth-quarter results include pretax charges of \$46 million (after-tax charges of \$81 million or \$0.06 per share). These include:

- .. Restructuring, impairment and other charges of \$21 million (\$2 million after-tax credit), primarily related to the consolidation of Corning's high purity fused silica and fluoride crystal materials manufacturing facilities.
- .. A \$25 million charge (\$17 million after tax) to reflect the increase in the market value of Corning common stock to be contributed to settle the asbestos litigation related to Pittsburgh Corning Corporation.
- .. Corning's equity earnings included an after-tax charge of \$66 million for Corning's share of an asset impairment charge recorded by Samsung Corning Co., Ltd., a 50 percent-owned equity venture, which manufactures glass funnels and panels for conventional television.

Fourth-Quarter Operating Results

Fourth-quarter sales of \$820 million exceeded the company's guidance range of \$740 million to \$765 million, and were \$48 million higher than third-quarter sales.

(more)

Corning Reports Fourth-Quarter Results

Page Two

Corning's Technologies segment sales for the quarter were \$457 million, compared to sales of \$396 million in the third quarter, driven primarily by strength in the Display Technologies business. Sequential sales of liquid crystal display (LCD) glass grew 39 percent, due to volume increases of more than 20 percent, favorable foreign exchange rates and stable pricing.

Environmental Technologies sales were essentially flat with third-quarter sales, but better than expected due to increased sales of thin-wall automotive substrates and diesel products. Fourth-quarter profitability for this business was impacted by weak manufacturing performance and start-up costs for its new diesel facility.

Corning's Telecommunications segment sales were \$357 million for the quarter, a decline from third-quarter sales of \$370 million, due to expected seasonal slowdowns of optical fiber volume in North America and declines in Japan. Pricing of single-mode optical fiber continued its moderating trend with only very slight sequential declines in the quarter.

Corning's display and environmental businesses and Telecommunications segment all continued to benefit from favorable foreign exchange rates in the fourth quarter. Of the \$48 million sequential sales increase, approximately \$20 million was due to more favorable foreign exchange rates in the fourth quarter.

The company's equity earnings were \$15 million and included the \$66 million impairment charge from Samsung Corning. Excluding this charge, fourth-quarter

Edgar Filing: CORNING INC /NY - Form 8-K

equity earnings were \$81 million, compared to \$75 million in the third quarter, due to stronger-than-expected earnings at Samsung Corning Precision Glass Co., Ltd., an equity venture which manufactures LCD glass in Korea. Corning's equity earnings from Dow Corning Corporation were \$18 million for the quarter, compared to \$22 million last quarter.

Full-Year Results

For the year, Corning recorded sales of \$3.1 billion, a slight decline from a year ago sales of \$3.2 billion. The company's loss from continuing operations for 2003 was \$223 million, or \$0.18 per share, compared to a loss from continuing operations of \$1.8 billion, or \$1.85 per share, last year. Corning's 2003 full-year results include net charges totaling \$505 million (\$351 million after tax or \$0.28 per share) including:

- .. Restructuring, impairment and other charges of \$111 million (\$26 million after tax and minority interest).
- .. The asbestos litigation charge for Pittsburgh Corning Corporation of \$413 million (\$263 million after tax).

(more)

Corning Reports Fourth-Quarter Results Page Three

- .. A \$66 million after-tax asset impairment charge in equity earnings from Samsung Corning and \$8 million after-tax equity investment impairments, primarily from the exit of the photonics product line.
- .. Net gains on repurchases of debt of \$19 million (\$12 million after tax).

Cash Flow Update

Corning ended the year with \$1.3 billion in cash and short-term investments, a slight decline from the previous quarter's balance of \$1.4 billion. The decline included debt repayments of approximately \$95 million, restructuring payments of \$32 million and an additional voluntary contribution of \$60 million to the company's pension fund. For the year, Corning paid off approximately \$1.4 billion in total debt and reduced its debt-to-capital ratio to 33.8 percent, a substantial decline from a year ago levels of 46.7 percent.

"This was a year of great progress for Corning," Houghton said. "We improved our profitability by more than \$500 million, before special items, by reducing operating expenses more than 20 percent and making substantial gains in our gross margins. We continued to invest in research and development, which has Corning well-positioned for growth this year," he said.

Outlook

The company said that it expects first-quarter sales to be in the range of \$770 million to \$830 million, with earnings per share in the range of \$0.04 to \$0.05, before special items. This estimate is a non-GAAP financial measure, and is reconciled on our Investor Relations Web site. Corning expects that foreign exchange rates will remain stable for the first quarter.

Telecommunications segment sales are anticipated to decline approximately 10 percent due to beginning-of-the-year normal optical fiber pricing reductions, lower project and services sales and the final exit from photonics. Sequential optical fiber volume for the first quarter is expected to be stable.

The environmental business is expected to see quarterly sales increases due to

Edgar Filing: CORNING INC /NY - Form 8-K

seasonal trends in the automotive and diesel industries. The company's Life Sciences business also expects first-quarter sales increases.

The company expects to continue to be sold out in LCD glass in the first quarter, despite bringing on additional capacity. Sequential LCD glass volume growth should be about 5 percent to 10 percent with current capacity constraints. Pricing for the first quarter should remain stable.

Corning Reports Fourth-Quarter Results
Page Four

"We anticipate demand for flat-screen monitors to remain robust in 2004. LCD television is now in the early stages of acceptance and continuing demand is expected to double market penetration this year. We continue to invest in next generation large panel manufacturing, and we will bring additional Generation 6 manufacturing capacity on line this quarter and Generation 7 production later in the year," James B. Flaws, vice chairman and chief financial officer, said.

He said that the company's automotive and diesel emission products are sold out in the first quarter. The business is ramping up production in its new diesel facility and plans to have two manufacturing lines operating by the end of the quarter. Flaws also noted that the environmental manufacturing performance is improving in the first quarter.

Flaws also noted that the company was encouraged with the selection of Corning as a leading supplier to Verizon for its fiber-to-the-premises initiative. "When Verizon begins to implement its FTTP plan, we believe it will present a long-term revenue opportunity for Corning," Flaws said.

"We are pleased with the improvements we have made in the company's financial health over the past year. Our focus in 2004 remains on our three core priorities of protecting our financial health, increasing profitability and investing in future growth opportunities," he said.

The company will provide additional information about its 2004 financial performance at its annual investor meeting on Feb. 6, 2004 at the Pierre Hotel in New York City and simultaneously via audio webcast. Investors can register for the event on line through the Investor Relations Web site at www.corning.com.

Presentation of Information in this News Release

Corning's earnings estimate for the first quarter is a non-GAAP financial measure as it excludes any potential gains or losses arising from previously announced restructuring actions, any further adjustments to the asbestos settlement reserve required by movement in Corning's stock price and income from discontinued operations. The company believes presenting earnings estimates that exclude these items is helpful in understanding Corning's operating results. The company's comment about "...improved our profitability by more than \$500 million, before special items," is also a non-GAAP financial measure that excludes the special items in the periods being compared. The company believes presenting this comparison is helpful in understanding the

Edgar Filing: CORNING INC /NY - Form 8-K

improvement in Corning's operating results including equity earnings.

Corning provides a reconciliation of the non-GAAP earnings per share estimate to GAAP earnings per share estimate, as well as a reconciliation of profitability, on our Investor Relations Web site at: (www.corning.com/investor_relations).

About Corning Incorporated

Corning Incorporated (www.corning.com) is a diversified technology company that concentrates its efforts on high-impact growth opportunities. Corning combines its expertise in specialty glass, ceramic materials, polymers and the manipulation of the properties of light, with strong process and manufacturing capabilities to develop, engineer and commercialize significant innovative products for the telecommunications, flat panel display, environmental, semiconductor, and life sciences industries.

Fourth-Quarter Conference Call Information

The company will host a fourth-quarter conference call at 8:30 a.m. EST on Friday, Jan. 23. To access the call, dial (773) 756-4622. The password is Earnings. The leader is Sofio. A replay of the call will begin at approximately 10:30 a.m. EST and will run through 5 p.m. EST, Friday, Feb. 6. To listen, dial (402) 998-0771, no pass code is required. To listen to a live audio webcast of the call at 8:30 a.m. on Friday, Jan. 23, please go to our Web site and follow the instructions: http://www.corning.com/investor_relations. The audio webcast will be archived for 14 days following the call.

Forward-Looking and Cautionary Statements

This press release contains forward-looking statements that involve a variety of business risks and other uncertainties that could cause actual results to differ materially. These risks and uncertainties include the possibility of changes or fluctuations in global economic and political conditions; tariffs, import duties and currency fluctuations; product demand and industry capacity; competitive products and pricing; manufacturing efficiencies; cost reductions; availability and costs of critical components and materials; new product development and commercialization; order activity and demand from major customers; capital spending by larger customers in the liquid crystal display industry and other businesses; changes in the mix of sales between premium and non-premium products; facility expansions and new plant start-up costs; possible disruption in commercial activities due to terrorist activity, armed conflict, political instability or major health concerns; ability to obtain financing and capital on commercially reasonable terms; adequacy and availability of insurance; capital resource and cash flow activities; capital spending; equity company activities; interest costs; acquisition and divestiture activities; the level of excess or obsolete inventory; the rate of technology change; the ability to enforce patents; product and components performance issues; changes in key personnel; stock price fluctuations; and adverse litigation or regulatory developments. These and other risk factors are identified in Corning's filings with the Securities and Exchange Commission. Forward-looking statements speak only as of the day that they are made, and Corning undertakes no obligation to update them in light of new information or future events.

CORNING INCORPORATED AND SUBSIDIARY COMPANIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited; in millions except headcount)

When used in these notes, the terms "we," "our" or "us" refer to Corning Incorporated and its consolidated subsidiaries.

1. Restructuring, Impairment and Other Charges and Credits

In the fourth quarter of 2003, we recorded restructuring, impairment and other charges of \$34 (\$26 after tax), offset by credits of \$13 (\$28 after tax), resulting in a net charge of \$21 (\$2 after-tax credit). A summary of these charges and credits follow:

Specialty Materials

On December 4, 2003, we announced our plans to consolidate our high purity fused silica and fluoride crystal manufacturing operations into other locations. These actions resulted in the closure of our North Brookfield, MA facility at December 31, 2003 and the planned closure of our Charleston, SC facility by March 31, 2004. Approximately 100 employees will be affected.

In connection with these actions, we will record a total charge of \$63, of which \$27 (\$22 after tax) was recorded in the fourth quarter. We recorded a charge of \$4 related to exit and employee separation costs and a fixed asset impairment charge of \$11 in the fourth quarter. In addition, we are accelerating \$48 of depreciation on assets to be disposed of following the closure of our Charleston plant, of which \$12 was recorded in the fourth quarter of 2003 and included in restructuring, impairment and other charges and credits. The remaining \$36 will be recorded in the first quarter of 2004.

Other

We also recorded a \$7 (\$4 after tax) restructuring charge relating to our Telecommunications segment. This charge included \$4 of employee separation costs and \$3 of exit costs.

Credits

In the fourth quarter of 2003, we reversed \$13 (\$28 after tax) of reserves related to prior years' restructuring charges, primarily in the Telecommunications segment. The reversals included \$3 related to employee separation costs which were less than estimated, \$1 related to exit costs which were less than estimated, and \$9 related to assets that were previously impaired. We also recorded a \$20 foreign deferred tax benefit adjustment related to restructuring and impairment charges recorded in the fourth quarter of 2002.

The current restructuring reserve continues to be evaluated as plans are being executed. In addition, since the restructuring program is an aggregation of many individual plans currently being executed, actual costs have differed from estimated amounts. As a result, there may be additional charges or reversals.

Edgar Filing: CORNING INC /NY - Form 8-K

2. Asbestos Settlement

On March 28, 2003, we announced that we had reached agreement with the representatives of asbestos claimants for the settlement of all current and future asbestos claims against us and Pittsburgh Corning Corporation (PCC), which might arise from PCC products or operations. Accordingly, we recorded a charge of \$298 (\$192 after tax) in the first quarter. The charge included the value of 25 shares of Corning common stock which we will contribute as part of the settlement. Also at that time, we indicated that any changes in the value of our common stock contribution would be recognized in our quarterly results through the date of contribution to the settlement trust. As required, we recorded a mark-to-market charge of \$25 (\$17 after tax) in the fourth quarter reflecting the increased fair value of the shares to its common stock contribution. We have recorded total charges of \$413 (\$263 after tax) to reflect the settlement and to mark-to-market the value of our common stock for the year ended December 31, 2003.

3. Samsung Corning Co., Ltd.

As a result of a weaker outlook for the conventional television and monitor markets, Corning's 50 percent owned equity venture, Samsung Corning Co., Ltd., recorded an impairment charge in the fourth quarter related to its long-lived assets. Our equity earnings in the fourth quarter included \$66 after-tax related to this impairment charge.

4. Funding of the Corning Pension Plan

We sponsor defined benefit pension plans covering certain hourly and salaried employees in the United States. Although we are not required by employee benefit and tax laws to make contributions to our pension plans prior to 2005, we contributed \$60 in the fourth quarter and \$160 in 2003 to our U.S. pension plans to improve these plans' funded status.

5. Supplementary Statements of Cash Flows Data

Supplemental disclosure of cash flow data follows:

	For the three months ended December 31,		
	2003	2002	20
Changes in certain working capital items:			
Trade accounts receivable	\$ (5)	\$ 56	
Inventories	35	47	\$ 1
Other current assets	15	(246)	
Accounts payable and other current liabilities, net of restructuring payments	9	101	(2
	-----	-----	-----
Total	\$ 54	\$ (42)	\$ (
	=====	=====	=====

6. Income Tax

In the fourth quarter of 2003, the effective tax benefit rate was impacted by certain items such as restructuring, impairment and other charges and credits, the asbestos settlement and debt transactions. Excluding these items, the rate was 33 percent for the quarter and year ended December 31, 2003.

Exhibit 99.2

Reconciliation of Non-GAAP Financial Measures

GAAP Reconciliation
Q1 2004

Corning's earnings estimate for the first quarter is a non-GAAP financial measure as it excludes certain items listed below. The company believes presenting earnings estimates that exclude these items is helpful in understanding Corning's operating results.

	Range	
	-----	-----
Guidance: EPS excluding certain items	\$0.04	\$0.05
Items not included within guidance:		
Gain on sale of CAV equipment (1)		
Mark to market for asbestos litigation (2)		
Restructuring and impairment charges (3)		

(1) Corning expects to record a gain from the sale of CAV equipment to the Henan Anyang CPT Glass Bulb Group, Xinyi Electronic Glass, Co., LTD. The sale is expected to be completed in the first half of 2004, as certain government approvals and other customary asset purchase conditions are met. As these conditions are met and the purchase price is received, Corning will record the gain. The total pre-tax gain is estimated to be \$40 million, \$13 million after-tax and minority interest. Corning recorded \$5 million of the expected gain in the third quarter of 2003. Corning expects to record the remaining gain during the first half of 2004.

(2) As part of Corning's asbestos settlement for Pittsburgh Corning, the company will be contributing 25 million shares of Corning common stock to the trust, along with some cash. The common stock is expected to be contributed to the trust in mid-2004, after the claimants have approved the plan and all appeals have been resolved. Until the common stock is contributed to the

Edgar Filing: CORNING INC /NY - Form 8-K

trust, the change in Corning's stock price from the closing price of \$10.43 on 12/31/03 to the closing price on 3/31/04 will be recognized in our first quarter results.

(3) Corning expects to record \$36 million of pre-tax restructuring, impairment and other charges announced in the fourth quarter related to its decision to consolidate its high purity fused silica and fluoride crystal manufacturing operations into other locations.

Please note that the company may pursue other financing, restructuring and divestiture activities at any time in the future, and that the potential impact of these events is not included within Corning's fourth quarter guidance.

This schedule contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward looking statements are based on current expectations and involve certain risks and uncertainties. Actual results may differ from those projected in the forward looking statements. Additional information concerning factors that could cause actual results to materially differ from those in the forward looking statements is contained in the Securities and Exchange Commission filings of this Company.

Reconciliation of Non-GAAP Financial Measures

GAAP Reconciliation

Years Ended December 31, 2003 and 2002

(Unaudited; amounts in millions, except per share amounts)

	After tax and Minority Interest For the years ended December 31,	
	2003	2002
Income (loss) from continuing operations, excluding special items	\$ 128	\$ (392)
Special items:		
Restructuring, impairment and other charges and credits, net (\$111 and \$2,080 pretax)	(26)	(1,462)
Asbestos settlement (\$413 pre-tax)	(263)	
Samsung Corning Co., Ltd. asset impairment charge	(66)	
Other equity company impairments	(8)	(34)

Edgar Filing: CORNING INC /NY - Form 8-K

Gain on repurchases of debt, net (\$19 and \$176 pre-tax)	12	108
	-----	-----
Loss from continuing operations	\$ (223)	\$ (1,780)
	=====	=====

The company's comment about "...improved our profitability by more than \$500 million, before special items," is a non-GAAP financial measure that excludes the special items in the periods being compared. The company believes presenting this comparison is helpful in understanding the improvement in Corning's operating results including equity earnings.
