Notes to Consolidated Financial Statements (unaudited)

1. Accounting Policies

These financial statements should be read in conjunction with the financial statement disclosures in our 2015 Form 10-K. We use the same accounting policies in preparing quarterly and annual financial statements. All adjustments necessary for a fair presentation of quarterly operating results are reflected herein and are of a normal, recurring nature. Certain prior-year amounts have been reclassified to conform to the current year presentation. Unless otherwise noted, amounts presented within the Notes to Consolidated Financial Statements refer to our continuing operations.

Due to the seasonal nature of our business, quarterly revenues, expenses, earnings, and cash flows are not necessarily indicative of the results that may be expected for the full year.

2. Discontinued Operations

As part of a March 2016 settlement between Target Canada Co. and certain other wholly owned subsidiaries of Target (collectively Canada Subsidiaries) and all of their former landlords, we agreed to subordinate a portion of our intercompany claims and make certain cash contributions to the Target Canada Co. estate in exchange for a full release from our obligations under guarantees of certain leases of the Canada Subsidiaries. The settlement was contingent upon the Canada Subsidiaries' creditors' and the court's approval of a plan of compromise and arrangement to complete the controlled, orderly, and timely wind-down of the Canada Subsidiaries (Plan). During the second quarter of 2016, a Plan was approved. The net pretax financial impact of the settlement and Plan was materially consistent with amounts previously recorded in our financial statements. For the three and six months ended July 30, 2016, net earnings from discontinued operations primarily reflect tax benefits from investment losses in Canada recognized upon court approval of the Canada Subsidiaries' liquidation plan. During the second quarter of 2016, we made cash contributions of \$27 million to the Target Canada Co. estate and received cash distributions of \$160 million.

3. Restructuring Initiatives

In 2015, we initiated a series of headquarters workforce reductions intended to increase organizational effectiveness and provide cost savings that can be reinvested in our growth initiatives. As a result, we recorded \$11 million and \$114 million of severance and other benefits-related charges within selling, general, and administrative expenses (SG&A) during the three and six months ended August 1, 2015. The vast majority of these expenses required cash expenditures and were not included in our segment results. An accrual for restructuring costs of \$14 million was included in other current liabilities as of August 1, 2015. No balance remained as of July 30, 2016.

4. Fair Value Measurements

Fair value measurements are reported in one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

^(a) The carrying amounts of certain other current assets, accounts payable, and certain accrued and other current liabilities approximate fair value due to their short-term nature.

^(b) The carrying amount and estimated fair value of debt exclude unamortized swap valuation adjustments and capital lease obligations.

5. Notes Payable and Long-Term Debt

We obtain short-term financing from time to time under our commercial paper program, a form of notes payable. No balances were outstanding at any time during 2016 or 2015.

In April 2016, we issued unsecured fixed rate debt of \$1 billion at 2.5% that matures in April 2026 and \$1 billion at 3.625% that matures in April 2046. During the first and second quarter of 2016, we used cash on hand and proceeds from these issuances to repurchase \$565 million and \$824 million of debt, respectively, before its maturity at a market value of \$820 million and \$981 million, respectively. We recognized a loss on early retirement of approximately \$261 million and \$161 million in first and second quarter, respectively, which was recorded in net interest expense in our Consolidated Statements of Operations.

6. Data Breach

Edgar Filing: TARGET CORP - Form 10-Q

In prior periods we have separately reported on our accrual for estimated probable losses and cumulative expenses with respect to the data breach we experienced in the fourth quarter of 2013 (the Data Breach). As of the date of this filing we have resolved the most significant claims relating to the Data Breach and there were no material changes to our loss contingency assessment relating to the few remaining claims during the second quarter. We do not expect there to be any material changes to the assessment of our exposure from this event, and we will no longer be providing separate reporting with respect to the Data Breach.

7

2016DLPFINQFILING

7. Derivative Financial Instruments

Our derivative instruments primarily consist of interest rate swaps, which are used to mitigate interest rate risk. As a result of our use of derivative instruments, we have counterparty credit exposure to large global financial institutions. We monitor this concentration of counterparty credit risk on an ongoing basis. See Note 4 for a description of the fair value measurement of our derivative instruments and their classification on the Consolidated Statements of Financial Position.

As of July 30, 2016 and August 1, 2015, interest rate swaps with notional amounts totaling \$1,000 million and \$1,250 million, respectively, were designated as fair value hedges. No ineffectiveness was recognized during the three months ended July 30, 2016 or August 1, 2015.

Periodic payments, valuation adjustments, and amortization of gains or losses on our derivative contracts had the following effect on our Consolidated Statements of Operations:

Derivative Contracts - Effect on Results of Operations (millions)		Three Months Ended		Six Months Ended	
		July 30, 2016	August 1, 2015	July 30, 2016	August 1, 2015
Type of Contract	Classification of (Income)/Expense				
Interest rate swaps	Net interest expense	\$ (8)	\$ (9)	\$(16)	\$ (18)

The amount remaining on unamortized hedged debt valuation gains from terminated or de-designated interest rate swaps that will be amortized into earnings over the remaining lives of the underlying debt totaled \$8 million, \$15 million, and \$25 million, at July 30, 2016, January 30, 2016, and August 1, 2015, respectively.

8. Share Repurchase

Under our current \$10 billion share repurchase program, we have repurchased 125.0 million shares of common stock through July 30, 2016 at an average price of \$70.57, for a total investment of \$8.8 billion.

Share Repurchases (millions, except per share data)	Six Months Ended ^(a)

Total number of shares purchased	30.4	15.2
Average price paid per share	\$73.70	\$81.41
Total investment	\$2,243	\$1,240

Note: Excludes shares withheld to settle employee statutory tax withholding related to the vesting of share-based awards.

^(a) Includes 0.2 million and 0.1 million shares delivered upon the noncash settlement of prepaid contracts during the six months ended July 30, 2016 and August 1, 2015, respectively. These contracts had an original cash investment of \$12 million and \$3 million, respectively, and aggregate market value of \$13 million and \$7 million. These contracts are among the investment vehicles used to reduce our economic exposure related to our nonqualified deferred compensation plans. Note 10 provides the details of our positions in prepaid forward contracts.

9. Share-Based Compensation

During the first quarter of 2016, we adopted Accounting Standards Update (ASU) No. 2016-09, Improvements to Employee Share-Based Payment Accounting (ASU 2016-09). As a result of adoption, we recognized \$1 million and \$18 million of excess tax benefits related to share-based payments in our provision for income taxes for the three and six months ended July 30, 2016. These items were historically recorded in additional paid-in capital. In addition, for each period presented, cash flows related to excess tax benefits are classified as an operating activity along with other income tax cash flows. Cash paid on employees' behalf related to shares withheld for tax purposes is classified as a financing activity. Retrospective application of the cash flow presentation requirements resulted in increases to both net cash provided by operations and net cash required for financing activities of \$74 million for the six months ended August 1, 2015. Our compensation expense each period continues to reflect estimated forfeitures.

2016DLPFINQFILING

10. Pension and Other Benefits

Pension Benefits

We provide pension plan benefits to certain eligible team members.

Total	\$ —	\$ 17	\$ —	\$ 40

Other Benefits

We offer unfunded nonqualified deferred compensation plans to certain team members. We mitigate some of our risk of these plans through investing in vehicles, including company-owned life insurance and prepaid forward contracts in our own common stock, that offset a substantial portion of our economic exposure to the returns of these plans. These investment vehicles are general corporate assets and are marked to market with the related gains and losses recognized in the Consolidated Statements of Operations in the period they occur.

The total change in fair value for contracts indexed to our own common stock recognized in earnings was pretax (loss)/income of (\$2) million and \$1 million for the three and six months ended July 30, 2016, respectively, and pretax income of \$1 million and \$4 million for the three and six months ended August 1, 2015, respectively. During the six months ended July 30, 2016 and August 1, 2015, we made no investments in prepaid forward contracts in our own common stock. Adjusting our position in these investment vehicles may involve repurchasing shares of Target common stock when settling the forward contracts as described in Note 8. The settlement dates of these instruments are regularly renegotiated with the counterparty. At July 30, 2016, January 30, 2016 and August 1, 2015, we held asset positions in prepaid forward contracts for 0.4 million shares of our common stock, for a total cash investment of \$17 million, \$18 million and \$18 million (\$41.11 per share) and a contractual fair value of \$31 million, \$32 million and \$36 million, respectively.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

Second quarter 2016 includes the following notable items:

GAAP earnings per share from continuing operations were \$1.07, including a loss on early retirement of debt of \$0.17.

Adjusted earnings per share from continuing operations were \$1.23.

Second quarter comparable sales decreased (1.1) percent, driven by a (2.2) percent decline in traffic and 1.1 percent increase in average transaction amount.

We returned \$1.7 billion to shareholders in the second quarter through dividends and share repurchase.

Sales were \$16,169 million for the three months ended July 30, 2016, a decrease of \$1,258 million or 7.2 percent from the same period in the prior year. The decrease is due to the December 2015 sale of our pharmacy and clinic businesses (Pharmacy Transaction), which generated \$1,055 million of sales during the three months ended August 1, 2015, and by a decrease in comparable sales. Operating cash flow provided by continuing operations was \$1,396 million and \$2,040 million for the six months ended July 30, 2016 and August 1, 2015, respectively. The decrease is due to the payment of approximately \$500 million of taxes during the first quarter of 2016, primarily related to the Pharmacy Transaction.

Adjusted diluted earnings per share	\$ 1.23	\$ 1.22	0.5 %	\$2.51	\$ 2.32	8.2 %

Note: Amounts may not foot due to rounding. Adjusted diluted earnings per share from continuing operations (Adjusted EPS), a non-GAAP metric, excludes the impact of certain matters not related to our routine retail operations and the impact of our discontinued Canadian operations. Management believes that Adjusted EPS is meaningful to provide period-to-period comparisons of our operating results. A reconciliation of non-GAAP financial measures to GAAP measures is provided on page 17.

We report after-tax return on invested capital (ROIC) from continuing operations as we believe ROIC provides a meaningful measure of the effectiveness of our capital allocation over time. For the trailing twelve months ended July 30, 2016, ROIC was 15.8 percent, compared with 13.3 percent for the trailing twelve months ended August 1, 2015. Excluding the net gain on the Pharmacy Transaction, ROIC was 13.7 percent for the trailing twelve months ended July 30, 2016. A reconciliation of ROIC is provided on page 18.

Comparable sales is a measure that highlights the performance of our stores and digital channels by measuring the change in sales for a period over the comparable, prior-year period of equivalent length. Comparable sales include all sales, except sales from stores open less than 13 months, digital acquisitions operating less than one year, stores that have been closed, and digital acquisitions that we no longer operate. We removed pharmacy and clinic sales from the 2015 sales amounts when calculating 2016 comparable sales. Comparable sales measures vary across the retail industry. As a result, our comparable sales calculation is not necessarily comparable to similarly titled measures reported by other companies.

The collective interaction of a broad array of macroeconomic, competitive, and consumer behavioral factors, as well as sales mix, and transfer of sales to new stores makes further analysis of sales metrics infeasible.

We monitor the percentage of sales that are paid for using REDcards (REDcard Penetration) because our internal analysis has indicated that a meaningful portion of the incremental purchases on REDcards are also incremental sales for Target, with the remainder representing a shift in tender type. Guests receive a 5 percent discount on virtually all purchases when they use a REDcard at Target.

Note: Excluding pharmacy and clinic sales, total REDcard penetration was 23.2 percent and 22.9 percent for the three and six months ended August 1, 2015, respectively. Amounts may not foot due to rounding.

Gross Margin Rate

For the three and six months ended July 30, 2016, our gross margin rate was 31.3 percent and 31.1 percent, respectively, compared with 30.9 percent and 30.6 percent in the comparable period last year. The increase was primarily due to the Pharmacy Transaction, partially offset by increased shipping costs. Cost of goods savings helped offset the impact of a competitive promotional environment.

2016DLPFINQFILING

Selling, General, and Administrative Expense Rate

For the three and six months ended July 30, 2016, our SG&A expense rate was 20.1 percent and 19.8 percent, respectively, compared to 19.9 percent in the comparable periods last year. For the three and six months ended July 30, 2016, the benefit of the Pharmacy Transaction and technology-related cost savings was offset by investments in our team and other items. Other items include the impact of other broad-based cost savings initiatives that were more than offset by broad-based reinvestment in our business and, for the three months ended, the deleveraging impact of the decline in sales.

Other Performance Factors

Consolidated Selling, General, and Administrative Expenses

We recorded \$(7) million and \$4 million of selling, general, and administrative expenses outside of the segment during the three and six months ended July 30, 2016, respectively, and \$20 million and \$126 million for the three and six months ended and August 1, 2015, respectively, because they are discretely managed. Additional information about these items is provided within the Reconciliation of Non-GAAP Financial Measures to GAAP Measures on page 17 and Note 12 of the Financial Statements.

Net Interest Expense

Net interest expense from continuing operations was \$307 million and \$722 million for the three and six months ended July 30, 2016, compared to \$148 million and \$305 million for the three and six months ended August 1, 2015. Net interest expense for the three and six months ended July 30, 2016 included a loss on early retirement of debt of \$161 million and \$422 million, respectively.

Provision for Income Taxes

Our effective income tax rate from continuing operations for the three and six months ended July 30, 2016 was 33.6 percent and 32.6 percent, respectively, compared with 34.6 percent and 34.7 percent for the three and six months ended August 1, 2015, respectively. For the three months ended July 30, 2016, the decrease was primarily due to lower pretax earnings as a result of the loss on early retirement of debt. The lower pretax earnings decreased our effective income tax rate by increasing the rate impact of recurring tax deductions. For the six months ended July 30, 2016, the decrease was also due to the recognition of \$18 million of excess tax benefits related to share-based payments after the adoption of ASU 2016-09. Refer to Note 9 of the Financial Statements for more information regarding ASU 2016-09.

Discontinued Operations

See Note 2 of the Financial Statements for information regarding our Canada exit.

Reconciliation of Non-GAAP Financial Measures to GAAP Measures

To provide additional transparency, we have disclosed non-GAAP adjusted diluted earnings per share from continuing operations (Adjusted EPS). This metric excludes certain items presented below. We believe this information is useful in providing period-to-period comparisons of the results of our continuing operations. This measure is not in accordance with, or an alternative for, generally accepted accounting principles in the United States. The most comparable GAAP measure is diluted earnings per share from continuing operations. Adjusted EPS should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate Adjusted EPS differently than we do, limiting the usefulness of the measure for comparisons with other companies.

2016DLPFINQFILING

We have also disclosed after-tax return on invested capital from continuing operations (ROIC), which is a ratio based on GAAP information, with the exception of adjustments made to capitalize operating leases. Operating leases are capitalized as part of the ROIC calculation to control for differences in capital structure between us and our competitors. We believe this metric provides a meaningful measure of the effectiveness of our capital allocation over time. Other companies may calculate ROIC differently than we do, limiting the usefulness of the measure for comparisons with other companies.

Analysis of Financial Condition

Liquidity and Capital Resources

Our cash and cash equivalents balance was \$1,480 million at July 30, 2016, compared with \$2,742 million for the same period in 2015. Our investment policy is designed to preserve principal and liquidity of our short-term investments. This policy allows investments in large money market funds or in highly rated direct short-term instruments that mature in 60 days or less. We also place certain dollar limits on our investments in individual funds or instruments.

Cash Flows

Operating cash flow provided by continuing operations was \$1,396 million for the six months ended July 30, 2016 compared with \$2,040 million for the same period in 2015. The decrease is primarily due to the payment of approximately \$500 million of taxes during the first quarter of 2016 related to the Pharmacy Transaction. In April 2016, we issued \$1.0 billion of unsecured debt that matures in 2026 and \$1.0 billion of unsecured debt that matures in 2046. Combined with our prior year-end cash position, these proceeds allowed us to repurchase \$1,389 million of debt at a market value of \$1,800 million, fund current debt maturities, pay approximately \$500 million in taxes related to the Pharmacy Transaction, invest in the business, pay dividends, and repurchase shares under our share repurchase program.

Share Repurchases

Under our current \$10 billion share repurchase program, we have repurchased 125.0 million shares of common stock through July 30, 2016, at an average price of \$70.57, for a total investment of \$8.8 billion.

During the three and six months ended July 30, 2016, we repurchased 19.0 million and 30.4 million shares of our common stock, respectively, for a total investment of \$1,350 million (\$70.91 per share) and \$2,243 million (\$73.70 per share), respectively. During the three months ended August 1, 2015, we repurchased 8.2 million shares of our common stock for a total investment of \$675 million (\$81.94 per share), excluding the ASR initiated and prepaid in first quarter 2015 that settled in second quarter 2015. During the six months ended August 1, 2015, we repurchased 15.2 million shares of our common stock for a total investment of \$1,240 million (\$81.41 per share).

Dividends

We paid dividends totaling \$330 million (\$0.56 per share) and \$666 million (\$1.12 per share) for the three and six months ended July 30, 2016, respectively, and \$331 million (\$0.52 per share) and \$665 million (\$1.04 per share) for the three and six months ended August 1, 2015, a per share increase of 7.7 percent. We declared dividends totaling \$346 million (\$0.60 per share) in second quarter 2016, a per share increase of 7.1 percent over the \$356 million (\$0.56 per share) of declared dividends during the second quarter of 2015. We have paid dividends every quarter since our 1967 initial public offering, and it is our intent to continue to do so in the future.

Short-term and Long-term Financing

Our financing strategy is to ensure liquidity and access to capital markets, to manage our net exposure to floating interest rate volatility, and to maintain a balanced spectrum of debt maturities. Within these parameters, we seek to minimize our borrowing costs. Our ability to access the long-term debt and commercial paper markets has provided us with ample sources of liquidity. Our continued access to these markets depends on multiple factors including the

Edgar Filing: TARGET CORP - Form 10-Q

condition of debt capital markets, our operating performance, and maintaining strong credit ratings. As of July 30, 2016 our credit ratings were as follows:

Credit Ratings	Moody'	Standard and Poor'	Fitch
Long-term debt	A2	A	A-
Commercial paper P-1		A-1	F2

If our credit ratings were lowered, our ability to access the debt markets and our cost of funds and other terms for new debt issuances could be adversely impacted. Each of the credit rating agencies reviews its rating periodically and there is no guarantee our current credit ratings will remain the same as described above.

2016DLPFINQFILING

We have additional liquidity through a committed \$2.25 billion revolving credit facility that expires in October 2018. No balances were outstanding at any time during 2016 or 2015.

Most of our long-term debt obligations contain covenants related to secured debt levels. In addition to a secured debt level covenant, our credit facility also contains a debt leverage covenant. We are, and expect to remain, in compliance with these covenants. Additionally, at July 30, 2016, no notes or debentures contained provisions requiring acceleration of payment upon a debt rating downgrade, except that certain outstanding notes allow the note holders to put the notes to us if within a matter of months of each other we experience both (i) a change in control; and (ii) our long-term debt ratings are either reduced and the resulting rating is noninvestment grade, or our long-term debt ratings are placed on watch for possible reduction and those ratings are subsequently reduced and the resulting rating is noninvestment grade.

We believe our sources of liquidity will continue to be adequate to maintain operations, finance anticipated expansion and strategic initiatives, fund debt maturities, pay dividends, and execute purchases under our share repurchase program for the foreseeable future. We continue to anticipate ample access to commercial paper and long-term financing.

Contractual Obligations and Commitments

As of the date of this report, other than the new borrowings and payments discussed in Note 5 of the Financial Statements, there were no material changes to our contractual obligations and commitments outside the ordinary course of business since January 30, 2016 as reported in our 2015 Form 10-K.

New Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, Leases, to require organizations that lease assets to recognize the rights and obligations created by those leases on the balance sheet. The new standard is effective in 2019, with early adoption permitted. We are currently evaluating the effect the new standard will have on our financial statements.

We do not expect any other recently issued accounting pronouncements will have a material effect on our financial statements.

Forward-Looking Statements

This report contains forward-looking statements, which are based on our current assumptions and expectations. These statements are typically accompanied by the words “expect,” “may,” “could,” “believe,” “would,” “might,” “anticipates,” or words of similar import. The principal forward-looking statements in this report include: Our financial performance, statements regarding the adequacy of and costs associated with our sources of liquidity, the expected benefits of restructuring initiatives, the funding of debt maturities, the continued execution of our share repurchase program, our expected capital expenditures, the expected compliance with debt covenants, the expected impact of new accounting pronouncements, our intentions regarding future dividends, contributions and payments related to our pension plan, the expected return on plan assets, the expected outcome of, and adequacy of our reserves for, claims and litigation.

All such forward-looking statements are intended to enjoy the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, as amended. Although we believe there is a reasonable basis for the forward-looking statements, our actual results could be materially different. The most important factors which could cause our actual results to differ from our forward-looking statements are set forth on our description of risk factors in Item 1A of our Form 10-K for the fiscal year ended January 30, 2016, which should

be read in conjunction with the forward-looking statements in this report. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update any forward-looking statement.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our primary risk exposures or management of market risks from those disclosed in our Form 10-K for the fiscal year ended January 30, 2016.

Item 4. Controls and Procedures

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the second quarter of 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, we conducted an evaluation, under supervision and with the participation of management, including the chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934, as amended (Exchange Act). Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective. Disclosure controls and procedures are defined by Rules 13a-15(e) and 15d-15(e) of the Exchange Act as controls and other procedures that are designed to ensure that information required to be disclosed by us in reports filed with the Securities and Exchange Commission (SEC) under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The following proceeding is being reported pursuant to Item 103 of Regulation S-K:

The following lawsuits filed in the second fiscal quarter of 2016 relate to certain prior disclosures of Target about its expansion of retail operations into Canada (the “Canada Disclosure”). The Canada Disclosure is substantially the same subject matter as *Police Retirement System of St. Louis v. Target Corporation, et al.*, Case No. 0:16-cv-01315-JNE-BRT, which was described in Target’s Form 10-Q for the fiscal quarter ended April 30, 2016.

Federal Securities Law Class Actions

There have been no material developments for *Police Retirement System of St. Louis v. Target Corporation, et al.* since last quarter. On May 24, 2016, a purported federal securities law class action was filed in the United States District Court of the District of Minnesota under the caption *Rizzo v. Target Corporation, et al.*, Case No. 0:16-cv-01485-JNE-BRT against substantially the same defendants, alleging substantially the same claims, and seeking substantially the same relief as the *Police Retirement System of St. Louis* lawsuit (the “Securities Lawsuits”). We expect the Securities Lawsuits to be consolidated. Target has not yet responded to the *Rizzo* lawsuit, but intends to vigorously defend against it.

ERISA Class Actions

On July 12, 2016 and July 15, 2016, respectively, Target Corporation, the Plan Investment Committee and its current chief operating officer were named as defendants in purported Employee Retirement Income Security Act of 1974 (“ERISA”) class actions filed in the United States District Court of the District of Minnesota under the captions *Knoll v. Target Corporation, et al.*, Case No. 0:16-cv-02400-JNE-BRT and *Simmons, et al. v. Target Corporation, et al.*, Case No. 0:16-cv-02421-JNE-BRT, respectively (the “ERISA Lawsuits”). The ERISA Lawsuits allege violations of Sections 404 and 405 of ERISA relating to the Canada Disclosure. The plaintiffs seek to represent a class of persons who were participants in or beneficiaries of the Target Corporation 401(k) Plan or the Target Corporation Ventures 401(k) Plan (collectively, the “Plans”) between February 27, 2013 and May 19, 2014 and whose accounts included investments in Target stock. The plaintiffs also seek damages, imposition of a constructive trust, and other relief, including attorneys’ fees, based on allegations that the defendants breached their fiduciary duties by continuing to allow Target stock to remain as an investment option under the Plans during the class period. We expect the ERISA Lawsuits to be consolidated. Target has not yet responded to the ERISA Lawsuits, but intends to vigorously defend against them.

Item 1A. Risk Factors

There have been no material changes to the risk factors described in our Annual Report on Form 10-K for the fiscal year ended January 30, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In January 2012, our Board of Directors authorized the repurchase of \$5 billion of our common stock and in June 2015 expanded the program by an additional \$5 billion for a total authorization of \$10 billion. There is no stated expiration for the share repurchase program. Under this program, we have repurchased 125.0 million shares of common stock through July 30, 2016, at an average price of \$70.57, for a total investment of \$8.8 billion. The table below presents information with respect to Target common stock purchases made during the three months ended July 30, 2016, by Target or any "affiliated purchaser" of Target, as defined in Rule 10b-18(a)(3) under the Exchange Act.

Period	Total Number of Shares Purchased ^(a)	Average Price Paid per Share ^(a)	Total Number of Shares Purchased as Part of the Current Program ^(a)	Dollar Value of Shares that May Yet Be Purchased Under the Program
