The Fund

Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund ("WIA" or the "Fund") is a closed-end, diversified management investment company which seeks to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective. Substantially all of the net investment income is distributed to the shareholders. A Dividend Reinvestment Plan is available to those shareholders of record desiring it. The shares are listed on the New York Stock Exchange

where they are traded under the symbol WIA.

Investment Policies

The Fund's investment policies include, among others, that its portfolio be invested as follows:

- . At least 80% of total managed assets in U.S. Treasury Inflation Protected Securities.
- . Up to 20% of total managed assets in corporate bonds or other securities and instruments.
- . Preferred shares, together with other forms of leverage (including reverse repurchase agreements and dollar roll transactions), will not exceed 38% of the Fund's total managed assets.

Dividend Reinvestment Plan

The Fund and EquiServe Trust Company N.A. ("Agent"), as the Transfer Agent and Registrar of WIA, offer a convenient way to add shares of WIA to your account. WIA offers to all common shareholders a Dividend Reinvestment Plan ("Plan"). Under the Plan, cash distributions (e.g., dividends and capital gains) on the common shares are automatically invested in shares of WIA unless the shareholder elects otherwise.

As a participant in the Dividend Reinvestment Plan, you will automatically receive your dividend or net capital gains distribution in newly issued shares of WIA, if the market price of the shares on the date of the distribution is at or above the net asset value ("NAV") of the shares, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market. The number of shares to be issued to you will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the NAV per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the NAV, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market, the Agent will, as agent for the participants, buy shares of WIA through a broker on the open market. All common shares acquired on your behalf through the Plan will be automatically credited to an account maintained on the books of the Agent.

Additional Information Regarding the Plan

WIA will pay all costs applicable to the Plan, with the exceptions noted below. Brokerage commissions for open market purchases by the Agent under the Plan will be charged to participants. All shares acquired through the Plan receive voting rights and are eligible for any stock split, stock dividend, or other rights accruing to shareholders that the Board of Trustees may declare.

You may terminate participation in the Plan at any time by giving written notice to the Agent. Such termination shall be effective prior to the record date next succeeding the receipt of such instructions or by a later date of termination specified in such instructions. Upon termination, a participant may request a certificate for the full shares credited to his or her account or may request the sale of all or part of such shares. Fractional shares credited to a terminating account will be paid for in cash at the current market price at the time of termination.

Annual Report to Shareholders

Dividends and other distributions invested in additional shares under the Plan are subject to income tax just as if they had been received in cash. After

year end, dividends paid on the accumulated shares will be included in the Form 1099-DIV information return to the Internal Revenue Service (IRS) and only one Form 1099-DIV will be sent to participants each year.

Inquiries regarding the Plan, as well as notices of termination, should be directed to EquiServe Trust Company, N.A., P.O. Box 43011, Providence, Rhode Island 02940-3011--Investor Relations telephone number (800) 426-5523.

Proxy Voting Policies and Procedures

You may request a free description of the policies and procedures that the Fund uses to determine how proxies relating to the Fund's portfolio securities are voted by calling 1-800-345-7999 or by writing to the Fund, or you may obtain a copy of these policies and procedures (and other information relating to the Fund) from the Securities and Exchange Commission's website (<http://www.sec.gov>).

IMPORTANT TAX INFORMATION 2003 (Unaudited)

The portion of dividends attributable to interest earned on direct obligations of the U.S. government is exempt from state income tax in many states. The percentage of such interest earned by the Fund for each period ended December 31, 2003, is 76.58%:

STATISTICAL HIGHLIGHTS--Continued

MANAGEMENT'S DISCUSSION OF FUND PERFORMANCE

General Market Performance

The U.S. economy continued to display impressive signs of strength in the fourth quarter of 2003. Although the pace of retail sales appears to have cooled a bit since the third quarter, manufacturing and housing remained quite strong and the labor market continued to firm. Good economic news, coupled with strong productivity and improving earnings, helped drive equity prices higher. Inflation pressures continued to increase in December as the dollar fell, gold rose, commodities surged, and oil prices edged higher. Despite signs of stronger economic activity and rising prices, headline and core CPI inflation registered declines in November, and bond yields declined modestly.

With economic news still strong but not blazing strong, and with the Fed continuing to insist that a tightening is far out on the horizon, intermediate nominal yields fell 20 basis points/A/ ("bps") or so, while long-term yields fell by only 5 bps. This same pattern--a modest steepening of the yield curve--was repeated in the Treasury Inflation-Protected Securities ("TIPS") market as real yields also declined. Breakeven spreads were little changed for December, although they hovered near relatively high levels as inflation concerns continued to manifest themselves. TIPS received a tiny negative inflation adjustment for the month, repeating what appears to be a regular seasonal pattern.

Fund Performance

The Fund recorded a total return, based on market value per share, of +1.58% since its inception. During this time period, the stock price has remained stable in a range from \$14.92 to \$15.70. Since the Fund began on September 30, 2003, there have been three common dividends declared and two paid. No Preferred Dividends were recorded as of 12/31/03. The next common dividend pay date is January 9, 2004.

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS
(Amounts in Thousands)

1. Significant Accounting Policies:

Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund (the "Fund") is registered under the Investment Company Act of 1940 ("1940 Act"), as amended, as a diversified, closed-end management investment company. The Fund commenced operations on September 30, 2003.

The Fund's primary investment objective is to provide current income for its shareholders. Capital appreciation, when consistent with current income, is a secondary investment objective.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation

Securities owned by the Fund for which market quotations are readily available are valued at current market value. Current market value means the last sale price of the day or, in the absence of any such sales, the bid price obtained from quotation reporting systems, pricing services or other approved methods. Other assets and securities for which no quotations are readily available are valued at fair value as determined in good faith by the Board of Trustees or persons acting under their supervision. The factors considered in making such valuations are subject to change over time and are reviewed periodically. The values assigned to fair valued investments are based on available information and do not necessarily represent amounts that might ultimately be realized, since such amounts depend on future developments inherent in long-term investments. Further, because of the inherent uncertainty of valuation, such estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material. Securities with remaining maturities of 60 days or less are generally valued at a readily available market price or, if a market price is not readily available, fair valued at amortized cost.

Where a security is traded on more than one market, the securities are generally valued on the market considered by the Fund's adviser to be the primary market.

Security Transactions

Security transactions are recorded on the trade date. Realized gains and losses from security transactions are reported on an identified cost basis for both financial reporting and federal income tax purposes.

Purchases and sales of investment securities (excluding short-term investments, U.S. government securities and U.S. government agencies) aggregated \$90,803 and \$0, respectively, for the period ended December 31, 2003. Purchases and sales of U.S. government and government agency obligations were \$509,399 and \$12,650, respectively, for the period December 31, 2003.

Repurchase Agreements

The Fund may engage in repurchase agreement transactions. Under the terms of a typical repurchase agreement, a fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and a fund to resell, the obligation at an agreed-upon price and time, thereby determining

the yield during a fund's holding period. This arrangement results in a fixed rate of return that is not subject to market fluctuations during the fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligation, including interest. In the event of counterparty default, a fund has the right to use the collateral to satisfy the terms of the repurchase agreement. However, there could be potential loss to the fund in the event the fund is delayed or prevented from exercising its right to dispose of the collateral securities, including the risk of a possible decline in the value of the collateral securities during the period in which the fund seeks to assert its rights. The Fund's investment adviser reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

14

Options, Futures and Swap Agreements

The current market value of an exchange traded option is the last sale price or, in the absence of a sale, the price obtained by reference to broker-dealer quotations. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Futures contracts are marked-to-market on a daily basis. As the contract's value fluctuates, payments known as variation margin are made to or received from the futures commission merchant. Swap agreements are priced daily based upon quotations from brokers and the change, if any, is recorded as unrealized appreciation or depreciation.

Short Sales

The Fund may sell a security it does not own in anticipation of a decline in the market price of that security. The Fund must then borrow the security sold short and deliver it to the dealer that brokered the short sale. A gain, limited to the price at which the security was sold short, or a loss, potentially unlimited in size, will be recognized upon the termination of the short sale. With respect to each short sale, the Fund must maintain collateral in a segregated account consisting of liquid assets with a value at least equal to the current market value of the shorted securities, marked-to-market daily, or take other actions permitted by law to cover its obligations. Dividend expenses and fees paid to brokers to borrow securities in connection with short sales are considered part of the cost of short sale transactions.

Distributions to Common Shareholders

Net investment income for dividend purposes is recorded on the accrual basis and consists of interest and dividends less expenses. All premiums and discounts are amortized for financial reporting and tax purposes using the effective interest method over the period to maturity of the security, and serve to reduce or increase interest income. Dividend income is recorded on the ex-dividend date. Dividends from net investment income are paid monthly. Distributions are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under tax regulations.

Use of Estimates

The preparation of the financial statements in accordance with accounting

principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

2. Federal Income Taxes:

No provision for federal income or excise taxes is required since the Fund intends to qualify as a regulated investment company and distribute substantially all of its taxable income and capital gain to its shareholders. Because federal income tax regulations differ from accounting principles generally accepted in the United States of America, income and capital gain distributions determined in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes differs from those reflected in the accompanying financial statements.

Distributions of \$4,656 during the year ended December 31, 2003, were characterized as ordinary income. No capital gain distributions were paid during the year ended December 31, 2003.

Pursuant to federal income tax regulations applicable to investment companies, the Fund has elected to treat net capital losses realized between November 1 and December 31 of each year ("post-October loss") as occurring on the first day of the following tax year. For the year ended December 31, 2003, realized capital and currency losses reflected in the accompanying financial statements, which will not be recognized for federal income tax purposes until 2004, are shown in the table below.

15

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS--Continued

The tax basis components of net assets at December 31, 2003, were:

Unrealized appreciation	\$ 4,296
Unrealized depreciation	(663)

Net unrealized appreciation/(depreciation)	3,633
Undistributed ordinary income	943
Capital loss carryforwards	(478)
Post-October loss push and other loss deferrals	(1,482)
Paid-in capital	410,594

Net assets	\$413,210
	=====

The difference between book and tax basis unrealized appreciation/(depreciation) is primarily due to the tax deferral of wash sale losses and tax treatment of market discount on certain debt instruments.

The Fund intends to retain realized capital gains that may be offset against available capital loss carryforwards for federal income tax purposes. As of December 31, 2003, the Fund had capital loss carryforwards of \$478, expiring in 2011.

At December 31, 2003, the cost of investments for federal income tax purposes was \$621,022.

3. Financial Instruments:

Options Transactions

A call option gives the option holder the right to purchase the underlying security at a specified price until a specified date. A put option gives the option holder the right to sell the underlying security at a specified price until a specified date. The risk in writing a covered call option is that the Fund may forgo the opportunity for profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In addition, there is a risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market or, for over-the-counter options, because of the counterparty's inability to perform. Activity in written call and put options during the period was as follows:

	Calls		Puts	
	Actual Contracts	Premiums	Actual Contracts	Premiums
Options outstanding at September 30, 2003	--	\$ --	--	\$--
Options written	1,500	882	--	--
Options closed	--	--	--	--
Options expired	--	--	--	--
Options exercised	--	--	--	--
	-----	-----	-----	-----
Options outstanding at December 31, 2003	1,500	\$882	--	\$--
	=====	=====	==	===

Swap Agreements

The use of swaps involves risks that are different from those associated with ordinary portfolio securities transactions. Swap agreements may be considered to be illiquid. Although the Fund will not enter into any swap agreement unless the Adviser believes that the other party to the transaction is creditworthy, the Fund does bear the risk of loss of the amount expected to be received under the swap agreement in the event of the default or bankruptcy of the agreement counterparty. The Fund had no open swap agreements at December 31, 2003.

Futures

Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in

contract value are recorded as unrealized gains or losses and the Fund recognizes a gain or loss when the contract is closed.

The Fund may enter into futures contracts in connection with its interest rate management strategy or for other purposes. Risks arise from the possible illiquidity of the futures market and from the possibility that a change in the value of a contract may not correlate with changes in interest rates, if applicable. The Fund had no open futures positions at December 31, 2003.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements. Under the terms of a typical reverse repurchase agreement, a fund sells a security subject to an obligation to repurchase the security from the buyer at an agreed-upon time and price, thereby determining the yield to the buyer during the buyer's holding period. A reverse repurchase agreement involves the risk, among others, that the market value of the collateral retained by the fund may decline below the price of the securities the fund has sold but is obligated to repurchase under the agreement. In the event the buyer of securities under a repurchase agreement files for bankruptcy or becomes insolvent, the fund's use of the proceeds of the agreement may be restricted pending a determination by the party, or its trustee or receiver, whether to enforce the fund's obligation to repurchase the securities. In entering into reverse repurchase agreements, the fund will maintain cash, U.S. government securities or other liquid high grade debt obligations at least equal in value to its obligations with respect to reverse repurchase agreements or take other actions permitted by law to cover its obligations.

At the time the Fund enters into a reverse repurchase agreement, it will segregate, on its books, cash, U.S. government securities or other liquid high grade debt obligations having a value at least equal to the repurchase price or take other actions permitted by law to cover its obligations. For the period ended December 31, 2003, the average amount of reverse repurchase agreements outstanding was \$148,153 and the daily weighted average interest rate was 1.03%.

As of December 31, 2003, the Fund entered into a reverse repurchase agreement (the "Reverse Repurchase Agreement") with Lehman Brothers, Inc. ("Lehman") for \$25,000, which was settled on January 6, 2004. The Reverse Repurchase Agreement was recorded at cost and was fully collateralized by a U.S. Treasury Inflation Protected Security with a market value of \$30,019, and a carrying value of \$30,000 that matures on January 15, 2011. The implied interest rate on the Reverse Repurchase Agreement was 0.98%. The Fund immediately and subsequently invested the proceeds in a repurchase agreement (the "Repurchase Agreement") with Lehman for \$25,000, which agreement was settled on January 6, 2004. The Repurchase Agreement was recorded at cost and was fully collateralized by a U.S. Treasury Inflation Protected Security with a fair value of \$30,327, and a carrying value of \$30,313 that matures on January 15, 2011. The implied interest rate on the Repurchase Agreement was 1.03%.

As of December 31, 2003, the Fund entered into another reverse repurchase agreement (the "Reverse Repurchase Agreement") with Lehman for \$50,000, which was settled on January 6, 2004. The Reverse Repurchase Agreement was recorded at cost and was fully collateralized by a U.S. Treasury Inflation Protected Security with a fair value of \$59,154, and a carrying value of \$59,125 that matures on January 15, 2012. The implied interest rate on the Reverse Repurchase Agreement was 0.98%. The Fund immediately and subsequently invested the proceeds in a repurchase agreement (the "Repurchase Agreement") with Lehman for \$50,000, which agreement was settled on January 6, 2004. The Repurchase Agreement was recorded at cost and was fully collateralized by a U.S. Treasury Inflation Protected Security with a fair value of \$58,537, and a carrying value of \$58,500 that matures on January 15, 2011. The implied interest rate on the Repurchase Agreement was 1.03%.

The net result of this transaction is presented, on the statement of Assets and Liabilities as a component of interest and dividend receivable.

Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS--Continued

4. Common Shares:

On September 30, 2003, the Fund completed the initial public offering of 25,251 of common stock. Proceeds paid to the Fund amounted to \$361,592 after deduction of sales load of \$17,044 and underwriting commissions of \$114.

On October 27, 2003, the Fund's underwriters exercised an option to purchase an additional 1,750 shares of common stock. Proceeds paid to the Fund amounted to \$25,061 after deduction of sales load of \$1,181 and underwriting commissions of \$8.

On November 11, 2003, the Fund's underwriters exercised an option to purchase an additional 1,825 shares of common stock. Proceeds paid to the Fund amounted to \$26,135 after deduction of sales load of \$1,232 and underwriting commissions of \$8.

Of the 28,939 shares of common stock outstanding at December 31, 2003, Western Asset Management Company owned 7 shares.

5. Preferred Shares (amounts are not in thousands):

There are 8,200 shares of Auction Market Preferred Shares ("Preferred Shares") authorized. The Preferred Shares have rights as set forth in the Fund's Agreement and Declaration of Trust, as amended to date, and its Bylaws, as amended to date (the "Bylaws"), or as otherwise determined by the Trustees. The 8,200 Preferred Shares outstanding consist of five series: 1,640 shares each of Series M, Series T, Series W, Series TH, and Series F. The Preferred Shares have a liquidation value of \$25,000 per share, plus any accumulated but unpaid dividends whether or not earned or declared.

Dividends on all series of Preferred Shares are cumulative and are paid at a rate typically reset every seven days, based on the results of an auction. Dividend rates were 1.30% for the initial period beginning on December 19, 2003. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The Preferred Shares are redeemable at the option of the Fund, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not earned or declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Bylaws are not satisfied.

Preferred shareholders, who are entitled to one vote per Preferred Share, generally vote as a single class with the common shareholders, but will vote separately as a class (and, in certain circumstances, vote separately by series) with respect to certain matters set forth in the Bylaws. The preferred shareholders are entitled to elect two Trustees of the Fund.

6. Securities Loaned:

The Fund may lend its portfolio securities in order to earn income. The Fund will receive collateral in cash or high quality securities at least equal to the current value of the loaned securities. The Fund earns interest on the securities it lends and income when it invests the collateral for the loaned securities. As of December 31, 2003, there were no securities on loan.

7. Transactions With Affiliates and Certain Other Parties:

The Fund has entered into an Investment Advisory Agreement with Western Asset Management Company ("Investment Adviser"), which provides for payment of a monthly fee computed at the annual rate of 0.40% of the Fund's average weekly assets. "Average weekly assets" means the average weekly value of the total assets of the Fund (including any assets attributable to leverage) minus accrued liabilities (other than liabilities representing leverage). For purposes of calculating "average weekly assets," neither the liquidation preference of any preferred shares outstanding nor any liabilities associated with any instrument or transactions used by the Investment Adviser to leverage the Fund's portfolio (whether or not such instruments or transactions are "covered" as described in the prospectus) is considered a liability.

18

Claymore Securities, Inc. ("Servicing Agent") will act as servicing agent for the Fund. For its services the Servicing Agent will receive an annual fee from the Fund, payable monthly in arrears, which will be based on the Fund's average weekly assets in a maximum amount equal to 0.15% of the Fund's average weekly assets.

Under the administrative agreement with the Fund, Legg Mason Fund Adviser, Inc. ("Administrator"), an affiliate of Western Asset, provides certain administrative and accounting functions for the Fund. In consideration for these services, the Fund will pay the Administrator a fee, paid monthly, at an annual rate of \$100.

8. Trustee Compensation (dollar amounts are not in thousands):

Each Trustee currently receives a fee of \$8,000 annually for serving as a Trustee of the Fund and a fee of \$1,000 and related expenses for each meeting of the Board of Trustees attended. The Chairman of the Board receives an additional \$1,500 per year for serving in that capacity. Audit Committee members receive \$500 for each meeting, and the Audit Committee Chairman receives an additional \$1,500 annually. Other committee members receive \$500 per meeting.

Annual Report to Shareholders

REPORT OF INDEPENDENT AUDITORS

To the Shareholders and Trustees of Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund:

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations, of changes in net assets, of cash flows and the financial

highlights present fairly, in all material respects, the financial position of the Western Asset/Claymore U.S. Treasury Inflation Protected Securities Fund (hereafter referred to as the "Fund") at December 31, 2003, and the results of its operations, the changes in its net assets and its cash flows, and the financial highlights for the period presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit, which included confirmation of securities at December 31, 2003 by correspondence with the custodian and brokers, provides a reasonable basis for our opinion.

- (h) Disclose whether the registrant's audit committee of the board of directors has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c) (7) (ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

THE MEMBERS OF THE AUDIT COMMITTEE OF WESTERN ASSET/CLAYMORE U.S. TREASURY INFLATION PROTECTED FUND HAVE CONSIDERED WHETHER THE NON-AUDIT SERVICES THAT WERE RENDERED BY THE FUND'S PRINCIPAL ACCOUNTANT TO THE ENTITIES SPECIFIED IN THIS ITEM AND THAT WERE NOT PRE-APPROVED BY THE AUDIT COMMITTEE ARE COMPATIBLE WITH MAINTAINING THE PRINCIPAL ACCOUNTANT'S INDEPENDENCE.

Item 5 - Reserved

Item 6 - Reserved

Item 7 - Disclosure of Proxy Voting Policies and Procedures

For closed-end management investment companies, describe the policies and procedures that it uses to determine how to vote proxies relating to portfolio securities, including the procedures that the company uses when a vote presents a conflict between the interests of its shareholders, and those of the company's investment adviser; principal underwriter; or any affiliated person of the company, its investment adviser, or its principal underwriter.

A COPY OF THE PROXY VOTING POLICIES AND PROCEDURES IS ATTACHED AS AN EXHIBIT TO THIS FORM N-CSR.

Item 8 - Reserved

Item 9 - Controls and Procedures

- (a) Disclose the conclusions of the registrant's principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, regarding the effectiveness of the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Act (17 CFR 270.30a-3(c))) as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240-13a-15(b) or 240.15d-15(b)).

WITHIN 90 DAYS OF THE FILING DATE OF THIS FORM N-CSR, THE REGISTRANT'S PRESIDENT AND TREASURER REVIEWED THE REGISTRANT'S DISCLOSURE CONTROLS AND PROCEDURES ("THE PROCEDURES") AND EVALUATED THEIR EFFECTIVENESS. BASED ON THEIR REVIEW, SUCH OFFICERS DETERMINED THAT THE PROCEDURES ENSURE THAT INFORMATION REQUIRED TO BE DISCLOSED BY THE REGISTRANT ON FORM N-CSR IS RECORDED, PROCESSED, SUMMARIZED AND REPORTED WITHIN THE TIME PERIODS REQUIRED BY THE SECURITIES AND EXCHANGE COMMISSION'S RULES AND REGULATIONS.

- (b) Disclose any change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

THERE WERE NO CHANGES IN THE REGISTRANT'S INTERNAL CONTROL OVER FINANCIAL REPORTING DURING THE REGISTRANT'S LAST HALF-YEAR THAT HAVE MATERIALLY AFFECTED, OR ARE REASONABLY LIKELY TO MATERIALLY AFFECT, THE INTERNAL CONTROL OVER FINANCIAL REPORTING.

Item 10 - Exhibits

- (a) File the exhibits listed below as part of this Form.
(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item requirements through filing of an exhibit.

(ATTACHED)

- (a)(2) A separate certification for each principal executive officer and

principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), exactly as set forth below:

(ATTACHED)

- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for the purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference.
