Our total active membership fees in force increased approximately 12.4% during the last year and continues our trend of increasing our membership base and membership fees. Additionally, the membership persistency rate (defined as the number of memberships in force at the end of a 12 month period as a percentage of the total of memberships in force at the beginning of such period, plus new memberships sold during such period) has increased for eight out of the last nine quarters from 67.6% as of June 30, 2003 to 72.2% for the latest 12 month period ended September 30, 2005, down slightly from the previous quarter.

During the 3rd quarter, we returned \$52,000 to shareholders through the repurchase of 1,100 shares of common stock.

We anticipate announcing our 2005 third quarter financial results on October 24, 2005 after the market closes and hosting a conference call to discuss such results on October 26, 2005. Due to the 19% increase in new membership fees written during the third quarter of 2005 vs. the comparable 2004 quarter, we expect an increase in commission expense for the 2005 third quarter and a corresponding decline in earnings. Commission expense is recognized over the first month of a membership. There is no further commission expense recognized during the remainder of the advance period.

The forward-looking statements contained herein are based on certain assumptions that may not be correct. They are subject to risks and uncertainties incident to our business that could cause actual results to differ materially from those described in the forward-looking statements. These risks and uncertainties are described in the reports and statements filed by us with the Securities and Exchange Commission, including (among others) those listed in our Form 10-K, Form 10-Q and Form 8-K, and include the risks that our membership persistency or renewal rates may decline, that we may not be able to continue to grow our memberships and earnings, that we are dependent on the continued active participation of our principal executive officer, that pending or future litigation may have a material adverse effect on us if resolved unfavorably to us, that we could be adversely affected by regulatory developments, that competition could adversely affect us, that we are substantially dependent on our marketing force, that our stock price may be affected by short sellers, that we have been unable to increase significantly our employee group membership sales, that our active premium in force is not indicative of future revenue as a result of changes in active memberships from cancellations and additional membership sales and that we may have material weaknesses in our internal control environment. Please refer to pages 38 and 39 of our 2004 Form 10-K and pages 8 and 9 of the Company's June 30, 2005 Form 10-Q for a more complete description of these risks.
