FORM 10-Q
(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-13107

AutoNation, Inc.

(Exact name of registrant as specified in its charter)

Delaware 73-1105145
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

200 SW 1st Avenue, Fort Lauderdale, Florida 33301
(Address of principal executive offices) (Zip Code)

(954) 769-6000
(Registrant's telephone number, including area code)

N/A
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of October 26, 2016, the registrant had 101,044,098 shares of common stock outstanding.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share data)

1. INTERIM FINANCIAL STATEMENTS

Business and Basis of Presentation

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of September 30, 2016, we owned and operated 371 new vehicle franchises from 261 stores located in the United States, predominantly in major metropolitan markets in the Sunbelt region. Our stores sell 35 different new vehicle brands. The core brands of new vehicles that we sell, representing approximately 94% of the new vehicles that we sold during the nine months ended September 30, 2016, are manufactured by Toyota (including Lexus), Ford, Honda, General Motors, FCA US (formerly Chrysler), Nissan, Mercedes-Benz, BMW, and Volkswagen (including Audi and Porsche).

We offer a diversified range of automotive products and services, including new vehicles, used vehicles, “parts and service,” which includes automotive repair and maintenance services as well as wholesale parts and collision businesses, and automotive “finance and insurance” products, which include vehicle service and other protection products, as well as the arranging of financing for vehicle purchases through third-party finance sources. For convenience, the terms “AutoNation,” “Company,” and “we” are used to refer collectively to AutoNation, Inc. and its subsidiaries, unless otherwise required by the context. Our dealership operations are conducted by our subsidiaries. The accompanying Unaudited Condensed Consolidated Financial Statements include the accounts of AutoNation, Inc. and its subsidiaries; intercompany accounts and transactions have been eliminated. The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. Additionally, operating results for interim periods are not necessarily indicative of the results that can be expected for a full year. The Unaudited Condensed Consolidated Financial Statements herein should be read in conjunction with our audited Consolidated Financial Statements and notes thereto included within our most recent Annual Report on Form 10-K. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state, in all material respects, our financial position and results of operations for the periods presented.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We periodically evaluate estimates and assumptions used in the preparation of the financial statements and make changes on a prospective basis when adjustments are necessary. The significant estimates made in the accompanying Unaudited Condensed Consolidated Financial Statements include certain assumptions related to goodwill, intangible assets, long-lived assets, assets held for sale, accruals for chargebacks against revenue recognized from the sale of finance and insurance products, accruals related to self-insurance programs, certain legal proceedings, estimated tax liabilities, and certain assumptions related to stock-based compensation.

Recent Accounting Pronouncements

Presentation of Debt Issuance Costs

In April 2015, the Financial Accounting Standards Board (“FASB”) issued an accounting standard update to simplify the presentation of debt issuance costs. The amendments in this accounting standard update require debt issuance costs be presented on the balance sheet as a reduction from the carrying amount of the related debt liability. In August 2015,

the FASB issued an accounting standard update that allows the presentation of debt issuance costs related to line-of-credit arrangements to continue to be an asset on the balance sheet under the simplified guidance, regardless of whether there are any outstanding borrowings on the related arrangements. The amendments in these accounting standard updates were to be applied retrospectively and effective for interim and annual reporting periods beginning after December 15, 2015. We have reclassified all debt issuance costs, with the exception of those related to our revolving credit facility, as a reduction from the carrying amount of the related

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

debt liability for both current and prior periods. See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for additional information.

Revenue Recognition

In May 2014, the FASB issued an accounting standard update that amends the accounting guidance on revenue recognition. The amendments in this accounting standard update are intended to provide a more robust framework for addressing revenue issues, improve comparability of revenue recognition practices, and improve disclosure requirements. The amendments in this accounting standard update will be applied using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a modified retrospective approach with the cumulative effect of initially adopting the standard recognized at the date of adoption (which requires additional footnote disclosures). This accounting standard update is effective for reporting periods beginning after December 15, 2017. Earlier application is permitted only as of reporting periods beginning after December 15, 2016. We plan to adopt this accounting standard update effective January 1, 2018. While we are currently evaluating the method of adoption and the impact of the provisions of this accounting standard update, we expect similar performance obligations to result under this update as compared with deliverables and separate units of accounting currently identified. As a result, we expect the timing of our revenue recognition to generally remain the same.

Accounting for Leases

In February 2016, the FASB issued an accounting standard update that amends the accounting guidance on leases. The primary change in this accounting standard update requires lessees to recognize, in the balance sheet, a liability to make lease payments and a right-of-use asset representing the right to use the underlying asset over the lease term. The amendments in this accounting standard update are to be applied using a modified retrospective approach and are effective for fiscal years beginning after December 15, 2018. We will adopt this accounting standard update effective January 1, 2019. While we are still evaluating the impact of adopting this update on our consolidated financial statements, we expect that upon adoption the right-of-use assets and lease liabilities recorded could be material to our consolidated balance sheets. However, we do not expect a material impact to our consolidated income statements.

Improvements to Employee Share-Based Payment Accounting

In March 2016, the FASB issued an accounting standard update that amends several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification within the statement of cash flows. Certain of the amendments in this accounting standard update are to be applied using a modified retrospective approach by means of a cumulative-effect adjustment to equity as of the beginning of the period in which the guidance is adopted, while other amendments can be applied prospectively or retrospectively. The amendments in this accounting standard update are effective for periods beginning after December 15, 2016. We will adopt this accounting standard update effective January 1, 2017, and are currently evaluating the impact of the provisions of this update, however, we do not expect any potential cumulative-effect adjustment to equity to be material.

Classification of Certain Cash Receipts and Cash Payments

In August 2016, the FASB issued an accounting standard update that provides classification guidance on eight specific cash flow issues, for which guidance previously did not exist or was unclear. The amendments in this accounting standard update are effective for periods beginning after December 15, 2017. Early adoption is permitted for any entity in any interim or annual period. We plan to adopt this accounting standard update effective January 1, 2018. We do not expect the impact of the provisions of this accounting standard update to have a material impact on our consolidated statements of cash flows.

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

2. RECEIVABLES, NET

The components of receivables, net of allowance for doubtful accounts, are as follows:

	September 30, December 31,	
	2016	2015
Trade receivables	\$ 139.8	\$ 133.6
Manufacturer receivables	213.2	221.4
Other	65.3	38.0
	418.3	393.0
Less: allowances for doubtful accounts	(5.3)	(4.5)
	413.0	388.5
Contracts-in-transit and vehicle receivables	364.8	508.0
Income taxes receivable (see Note 6)	10.5	11.7
Receivables, net	\$ 788.3	\$ 908.2

Trade receivables represent amounts due for parts and services that have been delivered or sold, excluding amounts due from manufacturers, as well as receivables from finance organizations for commissions on the sale of financing products. Manufacturer receivables represent amounts due from manufacturers for holdbacks, rebates, incentives, floorplan assistance, and warranty claims. Contracts-in-transit and vehicle receivables primarily represent receivables from financial institutions for the portion of the vehicle sales price financed by our customers.

We evaluate our receivables for collectability based on the age of receivables and past collection experience.

3. INVENTORY AND VEHICLE FLOORPLAN PAYABLE

The components of inventory are as follows:

	September 30, December 31,	
	2016	2015
New vehicles	\$ 2,645.2	\$ 2,888.1
Used vehicles	606.3	539.7
Parts, accessories, and other	196.5	184.2
Inventory	\$ 3,448.0	\$ 3,612.0

The components of vehicle floorplan payable are as follows:

	September 30, December 31,	
	2016	2015
Vehicle floorplan payable - trade	\$ 2,096.6	\$ 2,565.8
Vehicle floorplan payable - non-trade	1,442.9	1,161.3
Vehicle floorplan payable	\$ 3,539.5	\$ 3,727.1

Vehicle floorplan payable-trade reflects amounts borrowed to finance the purchase of specific new vehicle inventories with the corresponding manufacturers' captive finance subsidiaries ("trade lenders"). Vehicle floorplan payable-non-trade represents amounts borrowed to finance the purchase of specific new and, to a lesser extent, used vehicle inventories with non-trade lenders, as well as amounts borrowed under our secured used vehicle floorplan facilities. Changes in vehicle floorplan payable-trade are reported as operating cash flows and changes in vehicle floorplan payable-non-trade are reported as financing cash flows in the accompanying Unaudited Condensed Consolidated Statements of Cash Flows.

Our inventory costs are generally reduced by manufacturer holdbacks, incentives, floorplan assistance, and non-reimbursement-based manufacturer advertising rebates, while the related vehicle floorplan payables are reflective of the gross cost of the vehicle. The vehicle floorplan payables, as shown in the above table, will generally also be

higher than the inventory cost due to the timing of the sale of a vehicle and payment of the related liability.

8

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

Vehicle floorplan facilities are due on demand, but in the case of new vehicle inventories, are generally paid within several business days after the related vehicles are sold. Our manufacturer agreements generally allow the manufacturer to draft against new vehicle floorplan facilities so the lender funds the manufacturer directly for the purchase of new vehicle inventory. Vehicle floorplan facilities are primarily collateralized by vehicle inventories and related receivables.

Our new vehicle floorplan facilities utilize LIBOR-based interest rates, which averaged 2.0% for the nine months ended September 30, 2016, and 1.7% for the nine months ended September 30, 2015. At September 30, 2016, the aggregate capacity under our new vehicle floorplan facilities to finance our new vehicle inventory was approximately \$4.6 billion, of which \$3.2 billion had been borrowed.

Our used vehicle floorplan facilities utilize LIBOR-based interest rates, which averaged 2.0% for the nine months ended September 30, 2016, and 1.7% for the nine months ended September 30, 2015. At September 30, 2016, the aggregate capacity under our used vehicle floorplan facilities with various lenders to finance a portion of our used vehicle inventory was \$395.0 million, of which \$373.1 million had been borrowed. The remaining borrowing capacity of \$21.9 million was limited to \$0.3 million based on the eligible used vehicle inventory that could have been pledged as collateral.

4. GOODWILL AND INTANGIBLE ASSETS, NET

Goodwill and intangible assets, net, consist of the following:

	September 30, December 31,	
	2016	2015
Goodwill	\$ 1,492.4	\$ 1,394.5
Franchise rights - indefinite-lived	\$ 572.7	\$ 432.4
Other intangibles	15.6	14.3
	588.3	446.7
Less: accumulated amortization	(7.3) (6.8
Other intangible assets, net	\$ 581.0	\$ 439.9

See Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements for information about our annual impairment tests of goodwill and franchise rights.

5. LONG-TERM DEBT AND COMMERCIAL PAPER

Long-term debt, net of debt issuance costs, consists of the following:

	September 30, December 31,	
	2016	2015
6.75% Senior Notes due 2018	\$ 398.3	\$ 397.5
5.5% Senior Notes due 2020	347.1	346.5
3.35% Senior Notes due 2021	297.9	297.6
4.5% Senior Notes due 2025	445.1	444.7
Revolving credit facility due 2019	—	—
Mortgage facility ⁽¹⁾	168.0	175.7
Capital leases and other debt	126.4	95.0
	1,782.8	1,757.0
Less: current maturities	(13.3) (11.7
Long-term debt, net of current maturities	\$ 1,769.5	\$ 1,745.3

⁽¹⁾ The mortgage facility requires monthly principal and interest payments of \$1.7 million based on a fixed amortization schedule with a

balloon payment of \$155.4 million due November 2017.

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

As discussed in Note 1 above, the FASB issued an accounting standard update that requires debt issuance costs be presented on the balance sheet as a reduction from the carrying amount of the related debt liability. We adopted the accounting standard update retrospectively effective January 1, 2016, and have presented all debt issuance costs, with the exception of those related to our revolving credit facility, as a reduction from the carrying amount of the related debt liability for both current and prior periods. We reclassified \$10.1 million of debt issuance costs as a direct reduction from the carrying amount of debt as of December 31, 2015.

Senior Unsecured Notes and Credit Agreement

At September 30, 2016, we had outstanding \$398.6 million of 6.75% Senior Notes due 2018, net of debt discount. Interest is payable on April 15 and October 15 of each year. These notes will mature on April 15, 2018.

At September 30, 2016, we had outstanding \$350.0 million of 5.5% Senior Notes due 2020. Interest is payable on February 1 and August 1 of each year. These notes will mature on February 1, 2020.

At September 30, 2016, we had outstanding \$300.0 million of 3.35% Senior Notes due 2021, net of debt discount. Interest is payable on January 15 and July 15 of each year. These notes will mature on January 15, 2021.

At September 30, 2016, we had outstanding \$448.6 million of 4.5% Senior Notes due 2025, net of debt discount. Interest on the 2025 Notes is payable on April 1 and October 1 of each year. These notes will mature on October 1, 2025.

The interest rate payable on the 2021 Notes and 2025 Notes is subject to adjustment upon the occurrence of certain credit rating events as provided in the indentures for these senior unsecured notes.

Under our credit agreement, we have a \$1.8 billion revolving credit facility that matures on December 3, 2019. The credit agreement also contains an accordion feature that allows us, subject to credit availability and certain other conditions, to increase the amount of the revolving credit facility, together with any added term loans, by up to \$500.0 million in the aggregate. As of September 30, 2016, we had no borrowings outstanding under our revolving credit facility. We have a \$200.0 million letter of credit sublimit as part of our revolving credit facility. The amount available to be borrowed under the revolving credit facility is reduced on a dollar-for-dollar basis by the cumulative amount of any outstanding letters of credit, which was \$44.1 million at September 30, 2016, leaving a borrowing capacity under the revolving credit facility of \$1.8 billion at September 30, 2016. As of September 30, 2016, this borrowing capacity was limited under the maximum consolidated leverage ratio contained in our credit agreement to \$1.0 billion.

Our revolving credit facility provides for a commitment fee on undrawn amounts ranging from 0.175% to 0.25% and interest on borrowings at LIBOR or the base rate, in each case plus an applicable margin. The applicable margin ranges from 1.25% to 1.625% for LIBOR borrowings and 0.25% to 0.625% for base rate borrowings. The interest rate charged for our revolving credit facility is affected by our leverage ratio. For instance, an increase in our leverage ratio from greater than or equal to 2.0x but less than 3.25x to greater than or equal to 3.25x would result in a 12.5 basis point increase in the applicable margin.

Our senior unsecured notes and borrowings under our credit agreement are guaranteed by substantially all of our subsidiaries. Within the meaning of Regulation S-X, Rule 3-10, AutoNation, Inc. (the parent company) has no independent assets or operations, the guarantees of its subsidiaries are full and unconditional and joint and several, and any subsidiaries other than the guarantor subsidiaries are minor.

Other Long-Term Debt

At September 30, 2016, we had \$168.0 million outstanding under a mortgage facility with an automotive manufacturer's captive finance subsidiary that matures on November 30, 2017. The mortgage facility utilizes a fixed interest rate of 5.864% and is secured by 10-year mortgages on certain of our store properties. The mortgage facility requires monthly principal and interest payments of \$1.7 million based on a fixed amortization schedule with a balloon payment of \$155.4 million due November 2017. Repayment of the mortgage facility is subject to a prepayment penalty.

At September 30, 2016, we had capital lease and other debt obligations of \$126.4 million, which are due at various dates through 2036.

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

Commercial Paper

We have a commercial paper program pursuant to which we may issue short-term, unsecured commercial paper notes on a private placement basis up to a maximum aggregate amount outstanding at any time of \$1.0 billion. The interest rate for the commercial paper notes varies based on duration and market conditions. The maturities of the commercial paper notes may vary, but may not exceed 397 days from the date of issuance. The commercial paper notes are guaranteed by substantially all of our subsidiaries. Proceeds from the issuance of commercial paper notes are used to repay borrowings under the revolving credit facility, to finance acquisitions and for working capital, capital expenditures, share repurchases, and/or other general corporate purposes. We plan to use the revolving credit facility under our credit agreement as a liquidity backstop for borrowings under the commercial paper program. A downgrade in our credit ratings could negatively impact our ability to issue, or the interest rates for, commercial paper notes. At September 30, 2016, we had \$975.0 million of commercial paper notes outstanding with a weighted-average annual interest rate of 1.31% and a weighted-average remaining term of 26 days.

Restrictions and Covenants

Our credit agreement, the indentures for our senior unsecured notes, our vehicle floorplan facilities, and our mortgage facility contain customary financial and operating covenants that place restrictions on us, including our ability to incur additional indebtedness or prepay existing indebtedness, to create liens or other encumbrances, to sell (or otherwise dispose of) assets, and to merge or consolidate with other entities.

Under our credit agreement, we are required to remain in compliance with a maximum leverage ratio and maximum capitalization ratio. The leverage ratio is a contractually defined amount principally reflecting non-vehicle debt divided by a contractually defined measure of earnings with certain adjustments. The capitalization ratio is a contractually defined amount principally reflecting vehicle floorplan payable and non-vehicle debt divided by our total capitalization including vehicle floorplan payable. Under the credit agreement, the maximum leverage ratio is 3.75x and the maximum capitalization ratio is 70.0%. In calculating our leverage and capitalization ratios, we are not required to include letters of credit in the definition of debt (except to the extent of letters of credit in excess of \$150.0 million). In addition, in calculating our capitalization ratio, we are permitted to add back to shareholders' equity all goodwill, franchise rights, and long-lived asset impairment charges subsequent to September 30, 2014 plus \$1.53 billion.

The indentures for our senior unsecured notes contain certain limited covenants, including limitations on liens and sale and leaseback transactions. Our mortgage facility contains covenants regarding maximum cash flow leverage and minimum interest coverage.

Our failure to comply with the covenants contained in our debt agreements could result in the acceleration of all of our indebtedness. Our debt agreements have cross-default provisions that trigger a default in the event of an uncured default under other material indebtedness of AutoNation.

Under the terms of our credit agreement, at September 30, 2016, our leverage ratio and capitalization ratio were as follows:

	September 30, 2016	
	Requirement	Actual
Leverage ratio	≤ 3.75x	2.75x
Capitalization ratio	≤ 70.0%	62.6%

Both the leverage ratio and the capitalization ratio limit our ability to incur additional non-vehicle debt. The capitalization ratio also limits our ability to incur additional vehicle floorplan indebtedness and repurchase shares.

6. INCOME TAXES

Income taxes receivable included in Receivables, net totaled \$10.5 million at September 30, 2016, and \$11.7 million at December 31, 2015.

We file income tax returns in the U.S. federal jurisdiction and various states. As a matter of course, various taxing authorities, including the IRS, regularly audit us. Currently, no tax years are under examination by the IRS, and tax years from

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

2009 to 2015 are under examination by certain U.S. state jurisdictions. These audits may result in proposed assessments where the ultimate resolution may result in our owing additional taxes.

It is our policy to account for interest and penalties associated with income tax obligations as a component of Income Tax Provision in the accompanying Unaudited Condensed Consolidated Financial Statements.

7. SHAREHOLDERS' EQUITY

A summary of shares repurchased under our stock repurchase program authorized by our Board of Directors follows:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Shares repurchased	1.0	2.5	9.9	3.5
Aggregate purchase price	\$50.0	\$150.0	\$470.6	\$209.1
Average purchase price per share	\$48.62	\$59.83	\$47.48	\$60.54

In October 2016, our Board of Directors authorized the repurchase of an additional \$250.0 million of shares of our common stock. As of October 26, 2016, \$315.9 million remained available for share repurchases under the program.

A summary of shares of common stock issued in connection with the exercise of stock options follows:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Shares issued	0.1	0.2	0.3	1.1
Proceeds from the exercise of stock options	\$4.6	\$5.4	\$7.8	\$24.1
Average exercise price per share	\$35.55	\$26.94	\$30.93	\$22.55

The following table presents a summary of shares of common stock issued in connection with grants of restricted stock and shares surrendered to AutoNation to satisfy tax withholding obligations in connection with the vesting of restricted stock (in actual number of shares):

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Shares issued	—	2,360	138,424	159,442
Shares surrendered to AutoNation to satisfy tax withholding obligations in connection with the vesting of restricted stock	4,788	500	37,673	36,427

8. EARNINGS PER SHARE

Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are to be included in the computation of earnings per share ("EPS") under the two-class method. Our restricted stock awards are considered participating securities because they contain non-forfeitable rights to dividends. As the number of shares granted under such awards is immaterial, all earnings per share amounts reflect such shares as if they were fully vested shares and the disclosures associated with the two-class method are not presented.

Basic EPS is computed by dividing net income by the weighted average number of common shares outstanding for the period, including outstanding unvested restricted stock awards and vested restricted stock unit awards. Diluted EPS is computed by dividing net income by the weighted average number of shares outstanding, noted above, adjusted for the dilutive effect of stock options.

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

The following table presents the calculation of basic and diluted EPS:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Net income from continuing operations	\$107.8	\$119.0	\$316.1	\$345.9
Loss from discontinued operations, net of income taxes	(0.5)	(0.5)	(0.9)	(0.8)
Net income	\$107.3	\$118.5	\$315.2	\$345.1
Weighted average common shares outstanding used in calculating basic EPS	101.9	112.4	103.8	113.3
Effect of dilutive stock options	0.7	1.2	0.7	1.3
Weighted average common shares outstanding used in calculating diluted EPS	102.6	113.6	104.5	114.6
Basic EPS amounts ⁽¹⁾ :				
Continuing operations	\$1.06	\$1.06	\$3.05	\$3.05
Discontinued operations	\$—	\$—	\$(0.01)	\$(0.01)
Net income	\$1.05	\$1.05	\$3.04	\$3.05
Diluted EPS amounts ⁽¹⁾ :				
Continuing operations	\$1.05	\$1.05	\$3.02	\$3.02
Discontinued operations	\$—	\$—	\$(0.01)	\$(0.01)
Net income	\$1.05	\$1.04	\$3.02	\$3.01

⁽¹⁾ Earnings per share amounts are calculated discretely and therefore may not add up to the total due to rounding.

A summary of anti-dilutive options excluded from the computation of diluted earnings per share is as follows:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Anti-dilutive options excluded from the computation of diluted earnings per share	3.0	0.9	2.9	0.7

9. DIVESTITURES

During the third quarter of 2016, we divested one Domestic store and one Import store and recorded a net gain and other related adjustments of \$11.8 million. During the second quarter of 2016, we divested one Domestic store and six Import stores and recorded a net gain and other related adjustments of \$11.5 million. During the first quarter of 2016, we divested two Import stores and recorded a gain of \$6.2 million. During the first quarter of 2015, we divested two Import stores and recorded a gain of \$1.4 million.

The gains on these divestitures are included in Other Income, Net (within Operating Income) in our Unaudited Condensed Consolidated Statements of Income. The financial condition and results of operations of these businesses were not material to our consolidated financial statements.

10. ACQUISITIONS

During the nine months ended September 30, 2016, we purchased 18 stores located in Texas, New York, Colorado, and California, which include Chrysler, Dodge, Jeep, Ram, Chevrolet, Hyundai, Mercedes-Benz, Sprinter, Jaguar, Land Rover, and BMW franchises. Acquisitions are included in the Unaudited Condensed Consolidated Financial Statements from the date of acquisition. The purchase price allocation for these business combinations are preliminary and subject to final adjustment. We purchased eight stores during the nine months ended September 30, 2015.

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

The acquisitions that occurred during the nine months ended September 30, 2016 were not material to our financial condition or results of operations. Additionally, on a pro forma basis as if the results of these acquisitions had been included in our consolidated results for the entire nine month periods ended September 30, 2016 and 2015, revenue and net income would not have been materially different from our reported revenue and net income for these periods. In October 2016, we purchased a BMW store in the San Diego, California market, and a collision center in the Chicago, Illinois market.

11. COMMITMENTS AND CONTINGENCIES

Legal Proceedings

We are involved, and will continue to be involved, in numerous legal proceedings arising out of the conduct of our business, including litigation with customers, wage and hour and other employment-related lawsuits, and actions brought by governmental authorities. Some of these lawsuits purport or may be determined to be class or collective actions and seek substantial damages or injunctive relief, or both, and some may remain unresolved for several years. We establish accruals for specific legal proceedings when it is considered probable that a loss has been incurred and the amount of the loss can be reasonably estimated. Our accruals for loss contingencies are reviewed quarterly and adjusted as additional information becomes available. We disclose the amount accrued if material or if such disclosure is necessary for our financial statements to not be misleading. If a loss is not both probable and reasonably estimable, or if an exposure to loss exists in excess of the amount accrued, we assess whether there is at least a reasonable possibility that a loss, or additional loss, may have been incurred. If there is a reasonable possibility that a loss, or additional loss, may have been incurred, we disclose the estimate of the possible loss or range of loss if it is material or a statement that such an estimate cannot be made. Our evaluation of whether a loss is reasonably possible or probable is based on our assessment and consultation with legal counsel regarding the ultimate outcome of the matter. As of September 30, 2016 and 2015, we have accrued for the potential impact of loss contingencies that are probable and reasonably estimable, and there was no indication of a reasonable possibility that a material loss, or additional material loss, may have been incurred. We do not believe that the ultimate resolution of these matters will have a material adverse effect on our results of operations, financial condition, or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on our results of operations, financial condition, or cash flows.

Other Matters

AutoNation, acting through its subsidiaries, is the lessee under many real estate leases that provide for the use by our subsidiaries of their respective store premises. Pursuant to these leases, our subsidiaries generally agree to indemnify the lessor and other related parties from certain liabilities arising as a result of the use of the leased premises, including environmental liabilities, or a breach of the lease by the lessee. Additionally, from time to time, we enter into agreements with third parties in connection with the sale of assets or businesses in which we agree to indemnify the purchaser or related parties from certain liabilities or costs arising in connection with the assets or business. Also, in the ordinary course of business in connection with purchases or sales of goods and services, we enter into agreements that may contain indemnification provisions. In the event that an indemnification claim is asserted, our liability would be limited by the terms of the applicable agreement.

From time to time, primarily in connection with dispositions of automotive stores, our subsidiaries assign or sublet to the store purchaser the subsidiaries' interests in any real property leases associated with such stores. In general, our subsidiaries retain responsibility for the performance of certain obligations under such leases to the extent that the assignee or sublessee does not perform, whether such performance is required prior to or following the assignment or subletting of the lease. Additionally, AutoNation and its subsidiaries generally remain subject to the terms of any guarantees made by us and our subsidiaries in connection with such leases. Although we generally have indemnification rights against the assignee or sublessee in the event of non-performance under these leases, as well as certain defenses, we estimate that lessee rental payment obligations during the remaining terms of these leases with

expirations ranging from 2017 to 2034 are approximately \$25 million at September 30, 2016. We do not have any material known commitments that we or our subsidiaries will be called on to perform under any such assigned leases or subleases at September 30, 2016. There can be no assurance that any performance by AutoNation or its subsidiaries required under these leases would not have a material adverse effect on our business, financial condition, and cash flows.

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

At September 30, 2016, surety bonds, letters of credit, and cash deposits totaled \$99.2 million, including \$44.1 million of letters of credit. In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance. We do not currently provide cash collateral for outstanding letters of credit.

In the ordinary course of business, we are subject to numerous laws and regulations, including automotive, environmental, health and safety, and other laws and regulations. We do not anticipate that the costs of such compliance will have a material adverse effect on our business, consolidated results of operations, cash flows, or financial condition, although such outcome is possible given the nature of our operations and the extensive legal and regulatory framework applicable to our business.

Further, we expect that new laws and regulations, particularly at the federal level, in other areas may be enacted, which could also materially adversely impact our business. We do not have any material known environmental commitments or contingencies.

12. SEGMENT INFORMATION

At September 30, 2016 and 2015, we had three reportable segments: (1) Domestic, (2) Import, and (3) Premium Luxury. Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Ford, General Motors, and FCA US (formerly Chrysler). Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Toyota, Honda, and Nissan. Our Premium Luxury segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Mercedes-Benz, BMW, Lexus, and Audi. The franchises in each segment also sell used vehicles, parts and automotive repair and maintenance services, and automotive finance and insurance products.

“Corporate and other” is comprised of our other businesses, including certain collision centers and an auction operation, each of which generates revenues, as well as unallocated corporate overhead expenses and retrospective commissions for certain financing and insurance transactions that we arrange under agreements with third parties.

The reportable segments identified above are the business activities of the Company for which discrete financial information is available and for which operating results are regularly reviewed by our chief operating decision maker to allocate resources and assess performance. Our chief operating decision maker is our Chief Executive Officer.

In the following tables of financial data, revenue and segment income of our reportable segments are reconciled to consolidated revenue and consolidated income from continuing operations before income taxes, respectively.

	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Revenue:				
Domestic	\$2,044.9	\$1,869.1	\$5,888.2	\$5,299.0
Import	1,779.0	1,837.4	5,202.1	5,311.1
Premium Luxury	1,680.6	1,607.0	4,865.6	4,803.2
Total	5,504.5	5,313.5	15,955.9	15,413.3
Corporate and other	63.0	40.2	172.6	108.9
Total consolidated revenue	\$5,567.5	\$5,353.7	\$16,128.5	\$15,522.2

Income from continuing operations before income taxes	\$174.8	\$195.3	\$514.8	\$563.6

⁽¹⁾ Segment income represents income for each of our reportable segments and is defined as operating income less floorplan interest expense.

13. BUSINESS AND CREDIT CONCENTRATIONS

We are subject to a concentration of risk in the event of financial distress of or other adverse event related to a major vehicle manufacturer or related lender or supplier. The core brands of vehicles that we sell, representing approximately 94% of the new vehicles sold during the nine months ended September 30, 2016, are manufactured by Toyota (including Lexus), Ford, Honda, General Motors, FCA US (formerly Chrysler), Nissan, Mercedes-Benz, BMW, and Volkswagen (including Audi and Porsche). Our business could be materially adversely impacted by a bankruptcy of or other adverse event related to a major vehicle manufacturer or related lender or supplier.

We had receivables from manufacturers or distributors of \$213.2 million at September 30, 2016, and \$221.4 million at December 31, 2015. Additionally, a large portion of our Contracts-in-Transit included in Receivables, Net, in the accompanying Unaudited Condensed Consolidated Balance Sheets, are due from automotive manufacturers' captive finance subsidiaries, which provide financing directly to our new and used vehicle customers. Concentrations of credit risk with respect to non-manufacturer trade receivables are limited due to the wide variety of customers and markets in which our products are sold as well as their dispersion across many different geographic areas in the United States. Consequently, at September 30, 2016, we do not consider AutoNation to have any significant non-manufacturer concentrations of credit risk.

14. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The fair value of a financial instrument represents the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of judgment, and therefore cannot be determined with precision.

Accounting standards define fair value as the price that would be received from selling an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Accounting standards establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value and also establishes the following three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Edgar Filing: AUTONATION, INC. - Form 10-Q

Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted Level 2 market prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

The following methods and assumptions were used by us in estimating fair value disclosures for financial instruments: Cash and cash equivalents, accounts receivable, other current assets, vehicle floorplan payable, accounts payable, other current liabilities, commercial paper, and variable rate debt: The amounts reported in the accompanying Unaudited Condensed Consolidated Balance Sheets approximate fair value due to their short-term nature or the existence of variable interest rates that approximate prevailing market rates.

Fixed rate long-term debt: Our fixed rate long-term debt primarily consists of amounts outstanding under our senior unsecured notes and mortgages. We estimate the fair value of our senior unsecured notes using quoted prices for the identical liability (Level 1). We estimate the fair value of our mortgages using a present value technique based on our current market interest rates for similar types of financial instruments (Level 2). A summary of the aggregate carrying values and fair values of our fixed rate long-term debt is as follows:

	September 30, December 31,	
	2016	2015
Carrying value	\$ 1,791.6	\$ 1,767.1
Fair value	\$ 1,898.8	\$ 1,858.6

Nonfinancial assets such as goodwill, other intangible assets, and long-lived assets held and used are measured at fair value when there is an indicator of impairment and recorded at fair value only when impairment is recognized or for a business combination. The fair values less costs to sell of long-lived assets held for sale are assessed each reporting period they remain classified as held for sale. Subsequent changes in the held for sale long-lived asset's fair value less cost to sell (increase or decrease) is reported as an adjustment to its carrying amount, except that the adjusted carrying amount cannot exceed the carrying amount of the long-lived asset at the time it was initially classified as held for sale.

Goodwill and Other Intangible Assets

Goodwill for our Domestic, Import, and Premium Luxury reporting units is tested for impairment annually as of April 30 or more frequently when events or changes in circumstances indicate that the carrying value of a reporting unit more likely than not exceeds its fair value.

Under accounting standards, we chose to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it was necessary to calculate the fair values of our reporting units under the two-step goodwill impairment test. We completed our qualitative assessment of potential goodwill impairment as of April 30, 2016 and 2015, and we determined that it was not more likely than not that the fair values of our reporting units were less than their carrying amounts.

Our principal identifiable intangible assets are individual store rights under franchise agreements with vehicle manufacturers, which have indefinite lives and are tested for impairment annually as of April 30 or more frequently when events or changes in circumstances indicate that impairment may have occurred.

Under accounting standards, we chose to make a qualitative evaluation about the likelihood of franchise rights impairment to determine whether it was necessary to perform a quantitative impairment test. We completed our qualitative assessment of any potential franchise rights impairment as of April 30, 2016 and 2015. Based on our qualitative assessment of potential franchise rights impairment, we determined that we should perform a quantitative test for certain franchise rights, and no impairment charges resulted from these quantitative tests.

The quantitative impairment test for franchise rights requires the comparison of the franchise rights' estimated fair value to carrying value by store. Fair values of rights under franchise agreements are estimated using Level 3 inputs by discounting expected future cash flows of the store. The forecasted cash flows contain inherent uncertainties, including significant estimates and assumptions related to growth rates, margins, working capital requirements, capital expenditures, and cost of capital, for which we utilize certain market participant-based assumptions, using third-party industry projections, economic projections, and other marketplace data we believe to be reasonable. The development of the assumptions used in our annual impairment tests are coordinated by our financial planning and analysis group,

and the assumptions are reviewed by management.

Long-Lived Assets

The fair value measurement valuation process for our long-lived assets is established by our corporate real estate services group. Fair value measurements, which are based on Level 3 inputs, and changes in fair value measurements are reviewed and

17

Table of Contents

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

assessed each quarter for properties classified as held for sale, or when an indicator of impairment exists for properties classified as held and used, by the corporate real estate services group. Our corporate real estate services group utilizes its knowledge of the automotive industry and historical experience in real estate markets and transactions in establishing the valuation process, which is generally based on a combination of the market and replacement cost approaches.

In a market approach, the corporate real estate services group uses transaction prices for comparable properties that have recently been sold. These transaction prices are adjusted for factors related to a specific property. The corporate real estate services group also evaluates changes in local real estate markets, and/or recent market interest or negotiations related to a specific property. In a replacement cost approach, the cost to replace a specific long-lived asset is considered, which is adjusted for depreciation from physical deterioration, as well as functional and economic obsolescence, if present and measurable.

To validate the fair values determined under the valuation process noted above, our corporate real estate services group also obtains independent third-party appraisals for our properties and/or third-party brokers' opinions of value, which are generally developed using the same valuation approaches described above, and evaluates any recent negotiations or discussions with third-party real estate brokers related to a specific long-lived asset or market.

The following table presents long-lived assets measured and recorded at fair value on a nonrecurring basis during the nine months ended September 30, 2016 and 2015:

Description	2016		2015	
	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	Gain/(Loss)	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	Gain/(Loss)
Long-lived assets held and used	\$ 5.9	\$ (1.9)	\$ 15.1	\$ (2.3)
Long-lived assets held for sale:				
Continuing operations	\$ 19.4	\$ (12.1)	\$ 13.7	\$ (2.8)
Discontinued operations	12.7	(0.7)	5.3	(0.8)
Total long-lived assets held for sale	\$ 32.1	\$ (12.8)	\$ 19.0	\$ (3.6)

Long-Lived Assets Held and Used in Continuing Operations

During the nine months ended September 30, 2016, we recorded non-cash impairment charges related to long-lived assets held and used in continuing operations of \$1.9 million, of which \$0.1 million was recorded during the three months ended September 30, 2016.

During the nine months ended September 30, 2015, we recorded non-cash impairment charges related to long-lived assets held and used in continuing operations of \$2.3 million. We recorded no impairment charges during the three months ended September 30, 2015.

These non-cash impairment charges are included in Other Income, Net (within Operating Income) in our Unaudited Condensed Consolidated Statements of Income and are reported in the "Corporate and other" category of our segment information.

Long-Lived Assets Held for Sale in Continuing Operations

During the nine months ended September 30, 2016, we recorded non-cash impairment charges related to long-lived assets held for sale in continuing operations of \$12.1 million, of which \$6.4 million was recorded during the three months ended September 30, 2016.

During the nine months ended September 30, 2015, we recorded non-cash impairment charges related to long-lived assets held for sale in continuing operations of \$2.8 million, of which \$2.7 million was recorded during the three

months ended September 30, 2015.

(Continued)

These non-cash impairment charges are included in Other Income, Net (within Operating Income) in our Unaudited Condensed Consolidated Statements of Income and are reported in the “Corporate and other” category of our segment information.

Long-Lived Assets Held for Sale in Discontinued Operations

During the nine months ended September 30, 2016, we recorded non-cash impairment charges related to long-lived assets held for sale in discontinued operations of \$0.7 million, of which \$0.5 million was recorded during the three months ended September 30, 2016.

During the three and nine months ended September 30, 2015, we recorded a non-cash impairment charge of \$0.8 million related to long-lived assets held for sale in discontinued operations.

These non-cash impairment charges are included in Loss from Discontinued Operations in our Unaudited Condensed Consolidated Statements of Income.

As of September 30, 2016, we had long-lived assets held for sale of \$56.1 million in continuing operations and \$15.7 million in discontinued operations. Long-lived assets held for sale are included in Other Current Assets in our Unaudited Condensed Consolidated Balance Sheets.

15. CASH FLOW INFORMATION

During the nine months ended September 30, 2016, we had non-cash investing and financing activities of \$36.3 million related to capital leases and deferred purchase price commitments associated with our 2016 acquisitions.

During the nine months ended September 30, 2015, we had non-cash investing and financing activities primarily related to increases in property acquired under capital leases of \$18.1 million. We also had accrued purchases of property and equipment of \$14.5 million at September 30, 2016 and \$16.5 million at September 30, 2015.

We made interest payments, including interest on vehicle inventory financing, of \$133.0 million during the nine months ended September 30, 2016, and \$101.0 million during the nine months ended September 30, 2015. We made income tax payments, net of income tax refunds, of \$193.3 million during the nine months ended September 30, 2016, and \$218.1 million during the nine months ended September 30, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and notes thereto included under Part I, Item 1 of this Quarterly Report on Form 10-Q. In addition, reference should be made to our audited Consolidated Financial Statements and notes thereto and related "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our most recent Annual Report on Form 10-K.

Overview

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of September 30, 2016, we owned and operated 371 new vehicle franchises from 261 stores located in the United States, predominantly in major metropolitan markets in the Sunbelt region. Our stores, which we believe include some of the most recognizable and well known in our key markets, sell 35 different new vehicle brands. The core brands of new vehicles that we sell, representing approximately 94% of the new vehicles that we sold during the nine months ended September 30, 2016, are manufactured by Toyota (including Lexus), Ford, Honda, General Motors, FCA US (formerly Chrysler), Nissan, Mercedes-Benz, BMW, and Volkswagen (including Audi and Porsche).

We offer a diversified range of automotive products and services, including new vehicles, used vehicles, "parts and service," which includes automotive repair and maintenance services as well as wholesale parts and collision businesses, and automotive "finance and insurance" products, which include vehicle service and other protection products, as well as the arranging of financing for vehicle purchases through third-party finance sources. We believe that the significant scale of our operations and the quality of our managerial talent allow us to achieve efficiencies in our key markets by, among other things, leveraging the AutoNation retail brand and advertising, implementing standardized processes, and increasing productivity across all of our stores.

At September 30, 2016, we had three reportable segments: (1) Domestic, (2) Import, and (3) Premium Luxury. Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Ford, General Motors, and FCA US (formerly Chrysler). Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Toyota, Honda, and Nissan. Our Premium Luxury segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Mercedes-Benz, BMW, Lexus, and Audi. The franchises in each segment also sell used vehicles, parts and automotive repair and maintenance services, and automotive finance and insurance products.

For the nine months ended September 30, 2016, new vehicle sales accounted for approximately 56% of our total revenue and approximately 19% of our total gross profit. Used vehicle sales accounted for approximately 23% of our total revenue and approximately 10% of our total gross profit. Our parts and service and finance and insurance operations, while comprising approximately 20% of our total revenue for the nine months ended September 30, 2016, contributed approximately 70% of our total gross profit for the same period.

Market Conditions

In the third quarter of 2016, U.S. industry new vehicle unit retail sales were down 2% as compared to the third quarter of 2015, despite increases in manufacturer incentives, vehicle leasing, and retail inventory levels. While we anticipate that full-year U.S. industry new vehicle unit sales will be above 17 million in 2016, we expect that the industry selling rate will be relatively flat as compared to 2015. However, actual sales may materially differ. Based on industry data, vehicle leasing is at a historically-high level. To the extent that vehicle manufacturers reduce their support for leasing programs, U.S. industry and our new vehicle unit retail sales could be adversely impacted.

Our new vehicle unit volume and new vehicle gross profit on a per vehicle retailed ("PVR") basis were adversely impacted by certain manufacturers' disruptive marketing and sales incentive programs, which are based upon store-level growth targets established by those manufacturers in a declining automotive retail market, and which result in multi-tier pricing. If those manufacturers continue to use such incentive programs or if other manufacturers adopt similar incentive programs, our operating results could continue to be adversely impacted.

The number of recent-model-year vehicles in operation is growing due to increases in the annual rate of new vehicle sales in the United States since 2009. The growth in that portion of our service base, together with our customer

retention efforts, has benefited the customer-pay service and warranty components of our parts and service business, and we believe that it will continue to benefit those components for the next several years. While the number of older vehicles in operation has declined

Table of Contents

and is expected to continue to decline over the next few years, we believe that overall our parts and service business will benefit from the mix shift in our service base toward newer vehicles.

Results of Operations

During the three months ended September 30, 2016, we had net income from continuing operations of \$107.8 million, or \$1.05 per share on a diluted basis, as compared to net income from continuing operations of \$119.0 million, or \$1.05 per share on a diluted basis, during the same period in 2015. During the nine months ended September 30, 2016, we had net income from continuing operations of \$316.1 million, or \$3.02 per share on a diluted basis, as compared to net income from continuing operations of \$345.9 million, or \$3.02 per share on a diluted basis, during the same period in 2015.

Our retail new vehicle unit sales were down 1% in the third quarter of 2016, as compared to the third quarter of 2015. The disruptive manufacturer marketing and sales incentive programs discussed above under “Market Conditions” had a negative impact on our new vehicle unit volume and gross profit PVR. New vehicle gross profit PVR compression was partially offset by continued strength in finance and insurance gross profit PVR. Used vehicle unit volume and gross profit were adversely impacted by the Takata airbag inflator recall discussed below. Our total gross profit for the third quarter of 2016 increased 1%, as compared to the same period in the prior year, primarily due to the acquisitions we completed subsequent to the third quarter of 2015 and an increase in parts and service gross profit.

Strategic Initiatives

In 2013, we launched the AutoNation® retail brand from coast to coast. During 2015, that branding effort was extended to AutoNation Express and the AutoNation Vehicle Protection Plan. We recently announced the next phase of our comprehensive, customer-focused brand extension strategy, which includes:

- AutoNation USA® stand-alone used vehicle sales and service centers, with a total of 25 potential sites identified, five of which are expected to open in 2017,

- AutoNation branded parts and accessories, which were launched in the third quarter of 2016 and will be expanded over the next several years,
- the expansion of AutoNation branded collision centers, which includes the unification of our collision centers under the AutoNation retail brand and plans to open or acquire at least 18 new collision centers over the next two years, and
- the expansion of AutoNation branded automotive auctions, which includes plans to open four additional automotive auctions over the next two years.

We expect that these initiatives will expand and strengthen the AutoNation retail brand, improve the customer experience, provide new growth opportunities, and enable us to expand our footprint in our core and other markets. We expect that our investments in this phase of our brand extension roll-out, which may exceed \$500 million in the aggregate, will continue for the next several years. The roll-out of these strategic initiatives may be impacted by a number of variables, including customer adoption, market conditions, and our ability to identify, acquire, and build out suitable locations in a timely manner. See “Risk Factors” in Part II, Item 1A of this Form 10-Q.

In connection with our brand extension strategy, we also launched a one price used vehicle sales model in several markets in the third quarter of 2016, which is planned to be fully implemented in all of our stores by the end of the second quarter of 2017.

Takata Airbag Inflator Recall

Vehicles made by certain automotive manufacturers have been recalled to replace airbag inflators made by Takata Corporation. This is the largest and most complex safety recall in U.S. automotive history, with over 28 million inflators recalled through April 2016 and another 30 to 40 million expected to be recalled in phases through December 2019, based on prioritization of risk, determined by the age of the inflators and exposure to high humidity and temperatures. Most of the replacement inflators to complete the recall are on backlog order. As a result, the airbag inflator recall has been disruptive to our business, as the vehicle inventory subject to this recall has been placed on a retail sales-hold by several manufacturers until parts become available to replace the defective airbag inflators. We estimate that this recall impacted our results for the third quarter of 2016 by approximately \$10 million (\$6 million after-tax, or \$0.06 per share). The estimated impact includes internal estimates for lost sales and increases in wholesale losses resulting from the recall, as well as direct costs, such as floorplan interest expense, insurance, and storage costs related to the

Table of Contents

impacted vehicles, taking into account the reduction in certain variable expenses. This estimate does not include decreases in gross profit that we may have incurred on vehicles that were repaired and retailed during the third quarter of 2016, since we expect that these amounts were largely offset by financial support we received from manufacturers, as described below.

Certain manufacturers provide financial support for select vehicles that are on a retail sales-hold as a result of the airbag inflator recall, which serves to reduce our costs associated with those vehicles. We cannot predict when or how many replacement parts will become available, the number of additional affected vehicles that we will acquire through trade-ins, or the amount of financial support we will receive from the manufacturers of such vehicles in the future. This recall may continue to adversely impact our business for the next several years, particularly our used vehicle business.

Inventory Management

Our new and used vehicle inventories are stated at the lower of cost or market on our consolidated balance sheets. We monitor our vehicle inventory levels closely based on current economic conditions and seasonal sales trends.

We have generally not experienced losses on the sale of new vehicle inventory, in part due to incentives provided by manufacturers to promote sales of new vehicles and our inventory management practices. We had 72,144 units in new vehicle inventory at September 30, 2016, 80,442 units at December 31, 2015, and 69,694 units at September 30, 2015. See “New Vehicle Inventories” below for more information.

We recondition the majority of used vehicles acquired for retail sale in our parts and service departments and capitalize the related costs to the used vehicle inventory. In general, used vehicles that are not sold on a retail basis are liquidated at wholesale auctions. We record estimated losses on used vehicle inventory, including units subject to our open safety recall policy. Our used vehicle inventory balance was net of cumulative write-downs of \$6.7 million at September 30, 2016, and \$4.5 million at December 31, 2015.

Parts, accessories, and other inventory are carried at the lower of acquisition cost (first-in, first-out method) or market. We estimate the amount of potential obsolete inventory based upon past experience and market trends. Our parts, accessories, and other inventory balance was net of cumulative write-downs of \$4.0 million at September 30, 2016, and \$3.5 million at December 31, 2015.

Critical Accounting Policies and Estimates

We prepare our Unaudited Condensed Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. We evaluate our estimates on an ongoing basis, and we base our estimates on historical experience and various other assumptions we believe to be reasonable. Actual outcomes could differ materially from those estimates in a manner that could have a material effect on our Unaudited Condensed Consolidated Financial Statements. For additional discussion of our critical accounting policies and estimates, please see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K.

Goodwill

Goodwill for our Domestic, Import, and Premium Luxury reporting units is tested for impairment annually as of April 30 or more frequently when events or changes in circumstances indicate that impairment may have occurred. Under accounting standards, we chose to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it was necessary to calculate the fair values of our reporting units under the two-step goodwill impairment test. We completed our qualitative assessment of potential goodwill impairment as of April 30, 2016, and we determined that it was not more likely than not that the fair values of our reporting units were less than their carrying amounts.

Other Intangible Assets

Our principal identifiable intangible assets are individual store rights under franchise agreements with vehicle manufacturers, which have indefinite lives and are tested for impairment annually as of April 30 or more frequently when events or changes in circumstances indicate that impairment may have occurred.

Our franchise rights, which related to 69 stores and totaled \$546.4 million at April 30, 2016, are evaluated for impairment on a franchise-by-franchise basis annually. We completed our annual qualitative assessment of potential franchise rights impairment as of April 30, 2016. Based on our qualitative assessment of potential franchise rights impairment, we determined

Table of Contents

that we should perform a quantitative test for certain franchise rights, and no impairment charges resulted from these quantitative tests. See Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on our fair value measurement valuation process.

Long-Lived Assets

We estimate the depreciable lives of our property and equipment, including leasehold improvements, and review them for impairment when events or changes in circumstances indicate that their carrying amounts may be impaired. Such events or changes may include a significant decrease in market value, a significant change in the business climate in a particular market, a current expectation that more-likely-than-not a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life, or a current-period operating or cash flow loss combined with historical losses or projected future losses.

When property and equipment is identified as held for sale, we reclassify the held for sale assets to Other Current Assets and cease recording depreciation. We measure each long-lived asset or disposal group at the lower of its carrying amount or fair value less cost to sell and recognize a loss for any initial adjustment of the long-lived asset's or disposal group's carrying amount to fair value less cost to sell in the period the "held for sale" criteria are met. We periodically evaluate the carrying value of assets held for sale to determine if, based on market conditions, the values of these assets should be adjusted.

As of September 30, 2016, we had long-lived assets held for sale of \$56.1 million in continuing operations and \$15.7 million in discontinued operations.

The fair value measurements for our property and equipment and assets held for sale are based on Level 3 inputs, which considered information from third-party real estate valuation sources, or, in certain cases, pending agreements to sell the related assets. See Note 14 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on our fair value measurement valuation process and impairment charges that were recorded during the three and nine months ended September 30, 2016 and 2015. Although we believe our property and equipment and assets held for sale are appropriately valued, the assumptions and estimates used may change and we may be required to record impairment charges to reduce the value of these assets.

Same Store Operating Data

We have presented below our operating results on a same store basis, which reflect the results of our stores for the identical months in each period presented in the comparison, commencing with the first full month in which the store was owned by us. Therefore, the amounts presented in the 2015 columns may differ from the same store amounts presented for 2015 in the prior year.

Same store gross profit PVR decreased during the three months ended September 30, 2016, primarily due to the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment.

First Nine Months 2016 compared to First Nine Months 2015

Same store new vehicle revenue decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, as a result of a decrease in same store unit volume, partially offset by an increase in revenue PVR. The decrease in same store unit volume was primarily due to the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment.

Same store revenue PVR during the nine months ended September 30, 2016, benefited from an increase in the average selling prices for vehicles in all three segments, as well as lower average fuel prices, which caused a shift in mix toward larger vehicles, such as trucks and sport utility vehicles, that have relatively higher average selling prices.

Table of Contents

Same store gross profit PVR decreased during the nine months ended September 30, 2016, primarily due to the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment.

Net New Vehicle Inventory Carrying Benefit

The following table details net new vehicle inventory carrying benefit, consisting of new vehicle floorplan interest expense, net of floorplan assistance earned (amounts received from manufacturers specifically to support store financing of new vehicle inventory), as reported. Floorplan assistance is accounted for as a component of new vehicle gross profit.

(In millions)	Three Months Ended			Nine Months Ended		
	September 30,			September 30,		
	2016	2015	Variance	2016	2015	Variance
Floorplan assistance	\$31.8	\$31.0	\$ 0.8	\$92.4	\$87.1	\$ 5.3
New vehicle floorplan interest expense	(16.9)	(13.9)	(3.0)	(52.9)	(39.8)	(13.1)
Net new vehicle inventory carrying benefit	\$14.9	\$17.1	\$ (2.2)	\$39.5	\$47.3	\$ (7.8)

Third Quarter 2016 compared to Third Quarter 2015

The net new vehicle inventory carrying benefit decreased during the three months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in floorplan interest expense, partially offset by an increase in floorplan assistance. Floorplan interest expense increased due to higher interest rates and higher average vehicle floorplan payable balances during the quarter. Floorplan assistance increased primarily due to an increase in the floorplan assistance rate per unit and benefited from the acquisitions we completed subsequent to the third quarter of 2015.

First Nine Months 2016 compared to First Nine Months 2015

The net new vehicle inventory carrying benefit decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in floorplan interest expense, partially offset by an increase in floorplan assistance. Floorplan interest expense increased due to higher average vehicle floorplan payable balances during the year and higher interest rates. Floorplan assistance increased primarily due to an increase in the floorplan assistance rate per unit and benefited from the acquisitions we completed subsequent to the third quarter of 2015.

New Vehicle Inventories

Our new vehicle inventories were \$2.6 billion or 62 days supply at September 30, 2016, as compared to new vehicle inventories of \$2.9 billion or 68 days supply at December 31, 2015 and \$2.5 billion or 59 days supply at September 30, 2015. We had 72,144 units in new vehicle inventory at September 30, 2016, 80,442 units at December 31, 2015, and 69,694 units at September 30, 2015. The decrease in new vehicle inventory days supply at September 30, 2016, as compared to December 31, 2015, is primarily due to steps we have taken to align our inventory in response to the current market conditions.

The following discussion of used vehicles is on a same store basis. The difference between reported amounts and same store amounts in the above tables of \$82.1 million and \$32.3 million in retail used vehicle revenue and \$5.3 million and \$2.9 million in retail used vehicle gross profit for the three months ended September 30, 2016 and 2015, respectively, and \$259.5 million and \$100.2 million in retail used vehicle revenue and \$17.9 million and \$6.9 million in retail used vehicle gross profit for the nine months ended September 30, 2016 and 2015, respectively, is related to acquisition and divestiture activity.

Third Quarter 2016 compared to Third Quarter 2015

Same store retail used vehicle revenue decreased during the three months ended September 30, 2016, as compared to the same period in 2015, as a result of a decrease in same store unit volume, partially offset by an increase in revenue PVR. The decrease in same store unit volume was driven by a competitive automotive retail environment, as well as a decrease in trade-in volume associated with the decrease in new vehicle sales, partially offset by an increase in sales of certified pre-owned vehicles. Same store unit volume was also adversely impacted by manufacturer safety recalls, including the Takata airbag inflator recall, and the application of our open safety recall policy.

Same store revenue PVR during the three months ended September 30, 2016, benefited from an increase in the average selling price of used vehicles for all three segments, and a shift in mix toward Premium Luxury vehicles and the increase in sales of certified pre-owned vehicles, both of which have relatively higher average selling prices.

Same store gross profit PVR increased during the three months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in gross profit PVR for used vehicles in our Premium Luxury segment, partially offset by margin pressure resulting from new vehicle gross profit PVR compression during the same period combined with the application of our recall policy.

Table of Contents

See “Takata Airbag Inflator Recall” above for a discussion of the disruptive impact of this recall on our used vehicle business. This recall may continue to adversely impact our used vehicle business for the next several years. Additionally, see “Strategic Initiatives” above for a discussion of our brand extension strategy, which includes the launch of AutoNation USA stand-alone used vehicle sales and service centers and a one price used vehicle sales model.

First Nine Months 2016 compared to First Nine Months 2015

Same store retail used vehicle revenue decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, as a result of a decrease in same store unit volume, partially offset by an increase in revenue PVR. The decrease in same store unit volume was driven by a competitive automotive retail environment, as well as a decrease in trade-in volume associated with the decrease in new vehicle sales, partially offset by an increase in sales of certified pre-owned vehicles. Same store unit volume was also adversely impacted by manufacturer safety recalls, including the Takata airbag inflator recall, and the application of our open safety recall policy.

Same store revenue PVR during the nine months ended September 30, 2016, benefited primarily from an increase in the average selling price of used vehicles for all three segments, and a shift in mix toward Premium Luxury vehicles and the increase in sales of certified pre-owned vehicles, both of which have relatively higher average selling prices. Same store gross profit PVR decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, primarily due to margin pressure resulting from new vehicle gross profit PVR compression during the same period combined with the application of our recall policy.

Used Vehicle Inventories

Used vehicle inventories were \$606.3 million or 44 days supply at September 30, 2016, compared to \$539.7 million or 43 days supply at December 31, 2015, and \$511.6 million or 42 days supply at September 30, 2015. We had 37,755 units in used vehicle inventory at September 30, 2016, 36,299 units at December 31, 2015, and 32,967 units at September 30, 2015. As of September 30, 2016, approximately 20% of our units in used vehicle inventory were subject to our recall policy (primarily due to the Takata airbag inflator recall discussed above) compared to 17% as of December 31, 2015. Certain manufacturers provide financial support for select vehicles that are on a retail sales-hold as a result of the airbag inflator recall, which serves to reduce our costs associated with those vehicles.

Gross Profit	\$338.1	\$332.1	\$ 6.0	1.8	\$1,001.4	\$969.2	\$ 32.2	3.3
Gross profit as a percentage of revenue	43.3	% 43.7	%		43.4	% 43.4	%	

Parts and service revenue is primarily derived from vehicle repairs paid directly by customers or via reimbursement from manufacturers and others under warranty programs, as well as from wholesale parts sales and collision businesses. The following discussion of parts and service is on a same store basis. The difference between reported amounts and same store amounts in the above tables of \$62.1 million and \$23.2 million in parts and service revenue and \$25.7 million and \$10.1 million in parts and service gross profit for the three months ended September 30, 2016 and 2015, respectively, and \$190.9 million and \$68.8 million in parts and service revenue and \$78.7 million and \$30.2 million in parts and service gross profit for the nine months ended September 30, 2016 and 2015, respectively, is related to acquisition and divestiture activity.

Third Quarter 2016 compared to Third Quarter 2015

During the three months ended September 30, 2016, same store parts and service gross profit increased as compared to the same period in 2015, primarily due to increases in gross profit associated with warranty of \$6.2 million and customer-pay service of \$5.9 million, partially offset by a decrease in gross profit of \$3.7 million associated with the preparation of vehicles for sale.

Warranty gross profit benefited from an increase in volume, driven by the increase in units in operation in our primary service base. Customer-pay service gross profit benefited from improved operational execution and margin performance, as well as increased volume due to the increase in units in operation in our primary service base. Gross profit associated with the preparation of vehicles for sale was adversely impacted by the decrease in new and used vehicle unit volume.

See “Strategic Initiatives” above for a discussion of our brand extension strategy, which includes the launch of AutoNation USA stand-alone used vehicles sales and service centers, the launch of AutoNation branded parts and accessories, and the expansion of AutoNation branded collision centers.

First Nine Months 2016 compared to First Nine Months 2015

During the nine months ended September 30, 2016, same store parts and service gross profit increased as compared to the same period in 2015, primarily due to increases in gross profit associated with customer-pay service of \$23.1 million, warranty of \$17.1 million, and wholesale parts sales of \$5.6 million, partially offset by a decrease in gross profit of \$5.2 million associated with the preparation of vehicles for sale.

Customer-pay service gross profit benefited from improved operational execution and margin performance, as well as increased volume due to the increase in units in operation in our primary service base. Warranty gross profit benefited from an increase in volume, driven by the increase in units in operation in our primary service base. Gross profit associated with the sale of wholesale parts benefited from improved margin performance overall and a shift in mix toward parts with higher margins. Gross profit associated with the preparation of vehicles for sale was adversely impacted by the decrease in new and used vehicle unit volume.

The following discussion of finance and insurance is on a same store basis. The difference between reported amounts and same store amounts in finance and insurance revenue and gross profit in the above tables of \$14.5 million and \$5.6 million for the three months ended September 30, 2016 and 2015, respectively, and \$44.0 million and \$16.1 million for the nine months ended September 30, 2016 and 2015, respectively, is related to acquisition and divestiture activity.

Third Quarter 2016 compared to Third Quarter 2015

Same store finance and insurance revenue and gross profit decreased during the three months ended September 30, 2016, as compared to the same period in 2015, due to the decrease in new and used vehicle unit volume, partially offset by an increase in same store finance and insurance revenue and gross profit PVR.

Same store finance and insurance revenue and gross profit PVR increased primarily due to an increase in profit on vehicle service contracts as a result of the sale in our Domestic and Import stores of the AutoNation Vehicle Protection Plan, which was rolled out during the second half of 2015. Same store finance and insurance revenue and gross profit PVR also benefited from an increase in product penetration and an increase in amounts financed per transaction.

First Nine Months 2016 compared to First Nine Months 2015

Same store finance and insurance revenue and gross profit decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, due to the decrease in new and used vehicle unit volume, partially offset by an increase in same store finance and insurance revenue and gross profit PVR.

Same store finance and insurance revenue and gross profit PVR increased primarily due to an increase in profit on vehicle service contracts as a result of the sale in our Domestic and Import stores of the AutoNation Vehicle Protection Plan, which was rolled out during the second half of 2015. Same store finance and insurance revenue and gross profit PVR also benefited from an increase in product penetration and an increase in amounts financed per transaction.

Third Quarter 2016 compared to Third Quarter 2015

Domestic revenue increased during the three months ended September 30, 2016 as compared to the same period in 2015, primarily due to increases in new and used vehicle unit volume and new and used vehicle revenue PVR. New and used vehicle unit volume benefited from the acquisitions we completed subsequent to the third quarter of 2015. New vehicle revenue PVR benefited from lower average fuel prices, which caused a shift in mix toward larger vehicles, such as trucks and sport utility vehicles, that have relatively higher average selling prices. Used vehicle revenue PVR benefited from the increase in sales of certified pre-owned vehicles, which have relatively higher average selling prices. Domestic revenue was adversely impacted by the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment.

Domestic segment income decreased during the three months ended September 30, 2016, as compared to the same period in 2015, due to an increase in variable expenses, a decrease in new vehicle gross profit primarily due to the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment, a decrease in used vehicle gross profit due to the competitive automotive retail environment and the application of our open safety recall policy, and an increase in floorplan interest expense and depreciation and amortization expense. Domestic segment income benefited from increases in parts and service gross profit and finance and insurance revenue and gross profit due to the acquisitions we completed subsequent to the third quarter of 2015.

First Nine Months 2016 compared to First Nine Months 2015

Domestic revenue increased during the nine months ended September 30, 2016 as compared to the same period in 2015, primarily due to increases in new and used vehicle unit volume and new and used vehicle revenue PVR. New and used vehicle unit volume benefited from the acquisitions we completed subsequent to the third quarter of 2015. New vehicle revenue PVR benefited from lower average fuel prices, which caused a shift in mix toward larger vehicles, such as trucks and sport utility vehicles, that have relatively higher average selling prices. Used vehicle revenue PVR benefited from the increase in sales of certified pre-owned vehicles, which have relatively higher average selling prices. Domestic revenue was adversely impacted by the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment.

Domestic segment income decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, due to an increase in variable expenses, a decrease in new vehicle gross profit primarily due to the disruptive manufacturer marketing and sales incentive programs described above, which resulted in a more competitive automotive retail environment, a decrease in used vehicle gross profit due to the competitive automotive retail environment and the application of our open safety recall policy, and increases in floorplan interest expense and depreciation and amortization expense. Domestic segment income benefited from increases in parts and service gross profit and finance and insurance revenue and gross profit due to the acquisitions we completed subsequent to the third quarter of 2015.

Third Quarter 2016 compared to Third Quarter 2015

Premium Luxury revenue increased during the three months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in new and used vehicle revenue due to the acquisitions we completed subsequent to the third quarter of 2015. Used vehicle unit volume and revenue PVR also benefited from an increase in sales of certified pre-owned vehicles, which have relatively higher average selling prices.

Premium Luxury segment income decreased during the three months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in variable expenses, largely due to the acquisitions we completed subsequent to the third quarter of 2015, and a decrease in new vehicle gross profit.

First Nine Months 2016 compared to First Nine Months 2015

Premium Luxury revenue increased during the nine months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in used vehicle revenue due to the acquisitions we completed subsequent to the third quarter of 2015.

Premium Luxury segment income decreased during the nine months ended September 30, 2016, as compared to the same period in 2015, primarily due to a decrease in new and used vehicle gross profit due to the competitive automotive retail environment and the application of our open safety recall policy, as well as an increase in variable expenses due to the acquisitions we completed subsequent to the third quarter of 2015. These decreases were partially offset by an increase in parts and service gross profit due to the acquisitions mentioned above.

Table of Contents

Selling, General, and Administrative Expenses

Our Selling, General, and Administrative (“SG&A”) expenses consist primarily of compensation, including store and corporate salaries, commissions, and incentive-based compensation, as well as advertising (net of reimbursement-based manufacturer advertising rebates), and store and corporate overhead expenses, which include occupancy costs, legal, accounting, and professional services, and general corporate expenses. The following table presents the major components of our SG&A expenses.

(\$ in millions)	Three Months Ended September 30,				Nine Months Ended September 30,			
	2016	2015	Variance Favorable / (Unfavorable)	% Variance	2016	2015	Variance Favorable / (Unfavorable)	% Variance
Reported:								
Compensation	\$367.1	\$359.0	\$ (8.1)	(2.3)	\$1,105.6	\$1,093.7	\$ (11.9)	(1.1)
Advertising	51.2	48.5	(2.7)	(5.6)	145.9	139.7	(6.2)	(4.4)
Store and corporate overhead	173.0	161.2	(11.8)	(7.3)	513.7	461.6	(52.1)	(11.3)
Total	\$591.3	\$568.7	\$ (22.6)	(4.0)	\$1,765.2	\$1,695.0	\$ (70.2)	(4.1)
SG&A as a % of total gross profit:								
Compensation	43.9	43.2	(70)	bps	44.2	44.7	50	bps
Advertising	6.1	5.8	(30)	bps	5.8	5.7	(10)	bps
Store and corporate overhead	20.7	19.5	(120)	bps	20.5	18.8	(170)	bps
Total	70.7	68.5	(220)	bps	70.5	69.2	(130)	bps

Third Quarter 2016 compared to Third Quarter 2015

SG&A expenses increased during the three months ended September 30, 2016, as compared to the same period in 2015, primarily due to increases in store and corporate overhead expenses and compensation expense, which were largely a result of the acquisitions we completed subsequent to the third quarter of 2015, and were also negatively impacted by an increase in hail-related losses of approximately \$4 million. As a percentage of total gross profit, SG&A expenses increased to 70.7% during the three months ended September 30, 2016, from 68.5% in the same period in 2015, primarily due to gross profit pressure from the disruptive manufacturer marketing and sales incentive programs discussed above under “Market Conditions.” We currently expect that continued pressure on gross profit from these incentive programs, as well as expenses related to the brand extension strategy discussed above under “Strategic Initiatives,” may result in an increase in SG&A as a percentage of gross profit by approximately 100 basis points sequentially in the fourth quarter of 2016.

First Nine Months 2016 compared to First Nine Months 2015

SG&A expenses increased during the nine months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in store and corporate overhead expenses, which was largely a result of the acquisitions we completed subsequent to the third quarter of 2015, and were also negatively impacted by an increase in hail-related losses of approximately \$9 million. As a percentage of total gross profit, SG&A expenses increased to 70.5% during the nine months ended September 30, 2016, from 69.2% in the same period in 2015, primarily due to gross profit pressure from the disruptive manufacturer marketing and sales incentive programs discussed above under “Market Conditions,” as well as an increase in store and corporate overhead expenses as a percentage of total gross profit.

Other Income, Net (included in Operating Income)

During the third quarter of 2016, we recognized net gains related to business divestitures of \$11.8 million and payments we received to waive certain franchise protest rights of \$5.5 million, partially offset by non-cash property impairments of \$6.4 million. During the second quarter of 2016, we recognized net gains related to business divestitures of \$11.5 million, partially offset by non-cash property impairments of \$6.7 million. During the first quarter of 2016, we recognized gains related to business divestitures of \$6.2 million, partially offset by non-cash property impairments of \$0.9 million.

During the third quarter of 2015, we recognized gains related to property dispositions of \$9.7 million, partially offset by non-cash property impairments of \$2.7 million. During the second quarter of 2015, we recognized gains related to property dispositions of \$5.8 million, partially offset by a property impairment of \$1.7 million.

Table of Contents

Non-Operating Income (Expense)

Floorplan Interest Expense

Third Quarter 2016 compared to Third Quarter 2015

Floorplan interest expense was \$18.2 million for the three months ended September 30, 2016, compared to \$14.7 million for the same period in 2015. The increase in floorplan interest expense of \$3.5 million is the result of higher interest rates and higher average vehicle floorplan balances during the quarter.

First Nine Months 2016 compared to First Nine Months 2015

Floorplan interest expense was \$56.4 million for the nine months ended September 30, 2016, compared to \$42.1 million for the same period in 2015. The increase in floorplan interest expense of \$14.3 million is the result of higher average vehicle floorplan balances and higher interest rates during the year.

Other Interest Expense

Third Quarter 2016 compared to Third Quarter 2015

Other interest expense was \$28.9 million for the three months ended September 30, 2016, compared to \$21.4 million for the same period in 2015. The increase in interest expense of \$7.5 million was driven by higher average debt balances resulting primarily from share repurchases and acquisitions.

First Nine Months 2016 compared to First Nine Months 2015

Other interest expense was \$85.9 million for the nine months ended September 30, 2016, compared to \$64.4 million for the same period in 2015. The increase in interest expense of \$21.5 million was driven by higher average debt balances resulting primarily from share repurchases and acquisitions.

Provision for Income Taxes

Income taxes are based upon our anticipated underlying annual blended federal and state income tax rates adjusted, as necessary, for any other tax matters occurring during the period. As we operate in various states, our effective tax rate is also impacted by our geographic income mix.

Our effective income tax rate was 38.3% for the three months ended September 30, 2016, and 39.1% for the three months ended September 30, 2015.

Our effective income tax rate was 38.6% for the nine months ended September 30, 2016, and 38.6% for the nine months ended September 30, 2015.

Discontinued Operations

Discontinued operations are related to stores that were sold or terminated prior to January 1, 2014. Results from discontinued operations, net of income taxes, were primarily related to a non-cash property impairment charge and carrying costs for real estate we have not yet sold associated with stores that were closed prior to January 1, 2014.

Table of Contents

Liquidity and Capital Resources

We manage our liquidity to ensure access to sufficient funding at acceptable costs to fund our ongoing operating requirements and future capital expenditures while continuing to meet our financial obligations. We believe that our cash and cash equivalents, funds generated through future operations, and amounts available under our revolving credit facility, commercial paper program, and secured used vehicle floorplan facilities will be sufficient to fund our working capital requirements, service our debt, pay our tax obligations and commitments and contingencies, and meet any seasonal operating requirements for the foreseeable future.

Available Liquidity Resources

We had the following sources of liquidity available:

(In millions)	September 30, 2016	December 31, 2015
Cash and cash equivalents	\$ 62.2	\$ 74.1
Revolving credit facility ⁽¹⁾	\$ 1,000.1	⁽²⁾ \$ 1,463.1
Secured used vehicle floorplan facilities ⁽³⁾	\$ 0.3	\$ 127.1

⁽¹⁾ As limited by the maximum consolidated leverage ratio contained in our credit agreement.

At September 30, 2016, we had \$44.1 million of letters of credit outstanding. In addition, we use the revolving credit facility under our credit agreement as a liquidity backstop for borrowings under our commercial paper program. We had \$975.0 million of commercial paper notes outstanding at September 30, 2016, which in effect reduced the available liquidity under our revolving credit facility to \$780.9 million at September 30, 2016. See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information.

⁽³⁾ Based on the eligible used vehicle inventory that could have been pledged as collateral. See Note 3 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information.

In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance relating to insurance matters. At September 30, 2016, surety bonds, letters of credit, and cash deposits totaled \$99.2 million, including \$44.1 million of letters of credit. We do not currently provide cash collateral for outstanding letters of credit.

In February 2016, we filed an automatic shelf registration statement with the SEC that enables us to offer for sale, from time to time and as the capital markets permit, an unspecified amount of common stock, preferred stock, debt securities, warrants, subscription rights, depositary shares, stock purchase contracts, units, and guarantees of debt securities.

Capital Allocation

Our capital allocation strategy is focused on maximizing stockholder returns. We invest capital in our business to maintain and upgrade our existing facilities and to build new facilities for existing franchises, as well as for other strategic and technology initiatives, including the next phase of our brand extension strategy discussed above under "Strategic Initiatives." We also deploy capital opportunistically to repurchase our common stock and/or debt or to complete dealership acquisitions and/or build facilities for newly awarded franchises. Our capital allocation decisions will be based on factors such as the expected rate of return on our investment, the market price of our common stock versus our view of its intrinsic value, the market price of our debt, the potential impact on our capital structure, our ability to complete dealership acquisitions that meet our market and vehicle brand criteria and return on investment threshold, and limitations set forth in our debt agreements.

Table of Contents

Share Repurchases

Our Board of Directors from time to time authorizes the repurchase of shares of our common stock up to a certain monetary limit. A summary of shares repurchased under our stock repurchase program authorized by our Board of Directors follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
(In millions, except per share data)	2016	2015	2016	2015
Shares repurchased	1.0	2.5	9.9	3.5
Aggregate purchase price	\$ 50.0	\$ 150.0	\$470.6	\$209.1
Average purchase price per share	\$ 48.62	\$ 59.83	\$47.48	\$60.54

The decision to repurchase shares at any given point in time is based on factors such as the market price of our common stock versus our view of its intrinsic value, the potential impact on our capital structure (including compliance with our 3.75x maximum leverage ratio and other financial covenants in our debt agreements as well as our available liquidity), and the expected return on competing uses of capital such as dealership acquisitions, capital investments in our current businesses, or repurchases of our debt.

In October 2016, our Board of Directors authorized the repurchase of an additional \$250.0 million of shares of our common stock. As of October 26, 2016, \$315.9 million remained available for share repurchases under the program.

Capital Expenditures

The following table sets forth information regarding our capital expenditures:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
(In millions)	2016	2015	2016	2015
Purchases of property and equipment, including operating lease buy-outs ⁽¹⁾	\$ 69.3	\$ 54.1	\$181.7	\$188.2

⁽¹⁾ Includes accrued construction in progress and excludes property associated with capital leases entered into during the year.

Acquisitions and Divestitures

The following table sets forth information regarding cash used in business acquisitions, net of cash acquired, and cash received from business divestitures, net of cash relinquished:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
(In millions)	2016	2015	2016	2015
Cash received from (used in) business acquisitions, net	\$ (99.6)	\$ (50.7)	\$ (362.5)	\$ (123.8)
Cash received from (used in) business divestitures, net	\$ 37.5	\$ 20.5	\$87.5	\$36.2

During the nine months ended September 30, 2016, we purchased 18 stores located in Texas, New York, Colorado, and California, which include Chrysler, Dodge, Jeep, Ram, Chevrolet, Hyundai, Mercedes-Benz, Sprinter, Jaguar, Land Rover, and BMW franchises. We purchased eight stores during the nine months ended September 30, 2015. In October 2016, we purchased a BMW store in the San Diego, California market, and a collision center in the Chicago, Illinois market.

We divested two Domestic stores and nine Import stores during the nine months ended September 30, 2016, and two Import stores during the nine months ended September 30, 2015.

Cash Dividends

We have not declared or paid any cash dividends on our common stock during our two most recent fiscal years. We do not currently anticipate paying cash dividends for the foreseeable future.

Table of Contents

Long-Term Debt and Commercial Paper

The following table sets forth our non-vehicle long-term debt, net of debt issuance costs, as of September 30, 2016, and December 31, 2015.

(In millions)	September 30, December 31,	
	2016	2015
6.75% Senior Notes due 2018	\$ 398.3	\$ 397.5
5.5% Senior Notes due 2020	347.1	346.5
3.35% Senior Notes due 2021	297.9	297.6
4.5% Senior Notes due 2025	445.1	444.7
Revolving credit facility due 2019	—	—
Mortgage facility ⁽¹⁾	168.0	175.7
Capital leases and other debt	126.4	95.0
	1,782.8	1,757.0
Less: current maturities	(13.3)	(11.7)
Long-term debt, net of current maturities	\$ 1,769.5	\$ 1,745.3

⁽¹⁾ The mortgage facility requires monthly principal and interest payments of \$1.7 million based on a fixed amortization schedule with a balloon payment of \$155.4 million due November 2017.

At September 30, 2016, we had \$975.0 million of commercial paper notes outstanding with a weighted-average annual interest rate of 1.31% and a weighted-average remaining term of 26 days.

See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on our long-term debt and commercial paper.

Restrictions and Covenants

As of September 30, 2016, we were in compliance with the requirements of the financial covenants under our debt agreements. Under the terms of our credit agreement, at September 30, 2016, our leverage ratio and capitalization ratio were as follows:

	September 30, 2016	
	Requirement	Actual
Leverage ratio	≤ 3.75x	2.75x
Capitalization ratio	≤ 70.0%	62.6%

See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on restrictions and covenants.

Vehicle Floorplan Payable

The components of vehicle floorplan payable are as follows:

	September 30, December 31,	
	2016	2015
Vehicle floorplan payable - trade	\$ 2,096.6	\$ 2,565.8
Vehicle floorplan payable - non-trade	1,442.9	1,161.3
Vehicle floorplan payable	\$ 3,539.5	\$ 3,727.1

See Note 3 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on our vehicle floorplan payable.

Table of Contents

Cash Flows

The following table summarizes the changes in our cash provided by (used in) operating, investing, and financing activities:

(In millions)	Nine Months Ended September 30,	
	2016	2015
Net cash provided by operating activities	\$478.8	\$475.3
Net cash used in investing activities	\$(456.8)	\$(252.9)
Net cash used in financing activities	\$(33.9)	\$(233.9)

Cash Flows from Operating Activities

Our primary sources of operating cash flows are collections from contracts-in-transit and customers following the sale of vehicles, collections from customers for the sale of parts and services and finance and insurance products, and proceeds from vehicle floorplan payable-trade. Our primary uses of cash from operating activities are repayments of vehicle floorplan payable-trade, purchases of parts inventory, personnel related expenditures, and payments related to taxes and leased properties.

Net cash provided by operating activities increased during the nine months ended September 30, 2016, as compared to the same period in 2015, due to a decrease in working capital requirements, partially offset by a decrease in earnings.

Cash Flows from Investing Activities

Net cash flows from investing activities consist primarily of cash used in capital additions, activity from business acquisitions, business divestitures, property dispositions, and other transactions.

Net cash used in investing activities increased during the nine months ended September 30, 2016, as compared to the same period in 2015, primarily due to an increase in cash used in business acquisitions, net of cash acquired, partially offset by an increase in cash received from business divestitures, net of cash relinquished.

Cash Flows from Financing Activities

Net cash flows from financing activities primarily include repurchases of common stock, debt activity, and changes in vehicle floorplan payable-non-trade.

During the nine months ended September 30, 2016, we repurchased 9.9 million shares of common stock for an aggregate purchase price of \$470.6 million (average purchase price per share of \$47.48), including repurchases for which settlement occurred subsequent to September 30, 2016. In addition, during the nine months ended September 30, 2016, 37,673 shares were surrendered to us to satisfy tax withholding obligations in connection with the vesting of restricted stock.

During the nine months ended September 30, 2015, we repurchased 3.5 million shares of common stock for an aggregate purchase price of \$209.1 million (average purchase price per share of \$60.54). In addition, during the nine months ended September 30, 2015, 36,427 shares were surrendered to us to satisfy tax withholding obligations in connection with the vesting of restricted stock.

In September 2015, we issued \$300.0 million aggregate principal amount of 3.35% Senior Notes due 2021 and \$450.0 million aggregate principal amount of 4.5% Senior Notes due 2025. In connection with the issuance of the 2021 Notes and 2025 Notes, we incurred \$6.4 million in debt issuance costs that is being amortized to interest expense over the terms of the related debt arrangements. Cash flows from financing activities in 2015 include \$5.5 million of amounts paid for these debt issuance costs as of September 30, 2015.

Cash flows from financing activities include changes in commercial paper notes outstanding totaling net proceeds of \$375.5 million during the nine months ended September 30, 2016 and net proceeds of \$435.0 million during the nine months ended September 30, 2015.

During the nine months ended September 30, 2016, we borrowed \$1.1 billion and repaid \$1.1 billion under our revolving credit facility. During the nine months ended September 30, 2015, we borrowed \$1.3 billion and repaid \$2.4 billion under our revolving credit facility, for net repayments of \$1.1 billion.

Table of Contents

Cash flows from financing activities also include changes in vehicle floorplan payable-non-trade totaling net proceeds of \$78.7 million for the nine months ended September 30, 2016, and net payments of \$112.9 million for the nine months ended September 30, 2015.

During the nine months ended September 30, 2016, cash flows from financing activities were also impacted by a decrease in proceeds from the exercise of stock options as compared to the same period in 2015.

Recent Accounting Pronouncements

See Note 1 of the Notes to Unaudited Condensed Consolidated Financial Statements.

Forward-Looking Statements

Our business, financial condition, results of operations, cash flows, and prospects, and the prevailing market price and performance of our common stock may be adversely affected by a number of factors, including the matters discussed below. Certain statements and information set forth in this Quarterly Report on Form 10-Q, including without limitation statements regarding our brand extension strategy, open safety recalls, pending or planned acquisitions, strategic initiatives, expected future investments in our business, and our expectations for the future performance of our franchises and the automotive retail industry, as well as other written or oral statements made from time to time by us or by our authorized executive officers on our behalf, constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact, including statements that describe our objectives, plans or goals are, or may be deemed to be, forward-looking statements. Words such as “anticipate,” “expect,” “intend,” “goal,” “plan,” “believe,” “continue,” “may,” “will,” and variations of such words and similar expressions are intended to identify such forward-looking statements. Our forward-looking statements reflect our current expectations concerning future results and events, and they involve known and unknown risks, uncertainties and other factors that are difficult to predict and may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by these statements. The risks, uncertainties, and other factors that our stockholders and prospective investors should consider include, but are not limited to, the following: The automotive retail industry is sensitive to changing economic conditions and various other factors. Our business and results of operations are substantially dependent on new vehicle sales levels in the United States and in our particular geographic markets and the level of gross profit margins that we can achieve on our sales of new vehicles, all of which are very difficult to predict.

Our new vehicle sales are impacted by incentive, marketing, and other programs of vehicle manufacturers.

We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises.

If we are not able to maintain and enhance our retail brands and reputation or to attract consumers to our own digital channels, or if events occur that damage our retail brands, reputation, or sales channels, our business and financial results may be harmed. We are investing significantly in the next phase of our brand extension strategy, and if our strategic initiatives are not successful, we will have incurred significant expenses without the benefit of improved financial results.

New laws, regulations, or governmental policies regarding fuel economy and greenhouse gas emission standards, or changes to existing standards, may affect vehicle manufacturers’ ability to produce cost-effective vehicles or vehicles that consumers demand, which could adversely impact our business, results of operations, financial condition, cash flow, and prospects.

Natural disasters and adverse weather events can disrupt our business.

We are subject to restrictions imposed by, and significant influence from, vehicle manufacturers that may adversely impact our business, financial condition, results of operations, cash flows, and prospects, including our ability to acquire additional stores.

We are subject to numerous legal and administrative proceedings, which, if the outcomes are adverse to us, could materially adversely affect our business, results of operations, financial condition, cash flows, and prospects.

Table of Contents

Our operations are subject to extensive governmental laws and regulations. If we are found to be in purported violation of or subject to liabilities under any of these laws or regulations, or if new laws or regulations are enacted that adversely affect our operations, our business, operating results, and prospects could suffer.

A failure of our information systems or any security breach or unauthorized disclosure of confidential information could have a material adverse effect on our business.

Our debt agreements contain certain financial ratios and other restrictions on our ability to conduct our business, and our substantial indebtedness could adversely affect our financial condition and operations and prevent us from fulfilling our debt service obligations.

We are subject to interest rate risk in connection with our vehicle floorplan payables, revolving credit facility, and commercial paper program that could have a material adverse effect on our profitability.

Goodwill and other intangible assets comprise a significant portion of our total assets. We must test our goodwill and other intangible assets for impairment at least annually, which could result in a material, non-cash write-down of goodwill or franchise rights and could have a material adverse impact on our results of operations and shareholders' equity.

Our largest stockholders, as a result of their ownership stakes in us, may have the ability to exert substantial influence over actions to be taken or approved by our stockholders or Board of Directors. In addition, future share repurchases and fluctuations in the levels of ownership of our largest stockholders could impact the volume of trading, liquidity, and market price of our common stock.

Please refer to our most recent Annual Report on Form 10-K for additional discussion of the foregoing risks. These forward-looking statements speak only as of the date of this report, and we undertake no obligation to update any forward-looking statements to reflect subsequent events or circumstances.

Additional Information

Investors and others should note that we announce material financial information using our company website (www.autonation.com), our investor relations website (investors.autonation.com), SEC filings, press releases, public conference calls, and webcasts. Information about AutoNation, its business, and its results of operations may also be announced by posts on the following social media channels:

• AutoNation's Twitter feed (www.twitter.com/autonation)

• Mike Jackson's Twitter feed (www.twitter.com/CEOMikeJackson)

• AutoNation's Facebook page (www.facebook.com/autonation)

• Mike Jackson's Facebook page (www.facebook.com/CEOMikeJackson)

The information that we post on these social media channels could be deemed to be material information. As a result, we encourage investors, the media, and others interested in AutoNation to review the information that we post on these social media channels. These channels may be updated from time to time on AutoNation's investor relations website. The information on or accessible through our websites and social media channels is not incorporated by reference in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our primary market risk exposure is changing LIBOR-based interest rates. Interest rate derivatives may be used to hedge a portion of our variable rate debt, when appropriate, based on market conditions.

We had \$3.5 billion of variable rate vehicle floorplan payable at September 30, 2016, and \$3.7 billion at December 31, 2015. Based on these amounts, a 100 basis point change in interest rates would result in an approximate change to our annual floorplan interest expense of \$35.4 million at September 30, 2016, and \$37.3 million at December 31, 2015. Our exposure to changes in interest rates with respect to total vehicle floorplan payable is partially mitigated by manufacturers' floorplan assistance, which in some cases is based on variable interest rates.

Table of Contents

We had \$975.0 million of commercial paper notes outstanding at September 30, 2016, and \$599.5 million at December 31, 2015. Based on the amounts outstanding, a 100 basis point change in interest rates would result in an approximate change to annual interest expense of \$9.8 million at September 30, 2016 and \$6.0 million at December 31, 2015.

Our fixed rate long-term debt, primarily consisting of amounts outstanding under our senior unsecured notes and mortgages, totaled \$1.8 billion and had a fair value of \$1.9 billion as of September 30, 2016, and totaled \$1.8 billion and had a fair value of \$1.9 billion as of December 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or 15d-15 under the Exchange Act that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

In addition to the information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A of our most recent Annual Report on Form 10-K, which could materially affect our business, financial condition, or future results. The following updates the risk factors included in our 2015 Form 10-K:

We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises.

The success of our stores is dependent on vehicle manufacturers in several key respects. First, we rely exclusively on the various vehicle manufacturers for our new vehicle inventory. Our ability to sell new vehicles is dependent on a vehicle manufacturer's ability to produce and allocate to our stores an attractive, high-quality, and desirable product mix at the right time in order to satisfy customer demand. Second, manufacturers generally support their franchisees by providing direct financial assistance in various areas, including, among others, floorplan assistance and advertising assistance. Third, manufacturers provide product warranties and, in some cases, service contracts to customers. Our stores perform warranty and service contract work for vehicles under manufacturer product warranties and service contracts, and direct bill the manufacturer as opposed to invoicing the store customer. At any particular time, we have significant receivables from manufacturers for warranty and service work performed for customers. In addition, we rely on manufacturers to varying extents for original equipment manufactured replacement parts, training, product brochures and point of sale materials, and other items for our stores. Our business, results of operations, and financial condition could be materially adversely affected as a result of any event that has a material adverse effect on the vehicle manufacturers or distributors that are our primary franchisors.

The core brands of vehicles that we sell, representing approximately 95% of the new vehicles that we sold in 2015, are manufactured by Toyota (including Lexus), Ford, Honda, Nissan, General Motors, Mercedes-Benz, FCA US (formerly Chrysler), BMW, and Volkswagen (including Audi and Porsche). We are subject to a concentration of risk in the event of adverse events or financial distress, including bankruptcy, impacting one or more of these manufacturers.

Vehicle manufacturers may be adversely impacted by economic downturns or recessions, significant declines in the sales of their new vehicles, natural disasters, increases in interest rates, adverse fluctuations in currency exchange rates, declines in their credit ratings, labor strikes or similar disruptions (including within their major suppliers), supply shortages or rising raw material costs, rising employee benefit costs, vehicle recall campaigns, adverse publicity that may reduce consumer demand for their products (including due to bankruptcy), product defects, litigation, poor product mix or unappealing vehicle design, governmental laws and regulations (including fuel economy requirements), import product restrictions, the rise of ride-sharing applications, or other adverse events. These and other risks could materially adversely affect any manufacturer and impact its ability to profitably design, market, produce, or distribute new vehicles, which in turn could materially adversely affect our ability to obtain or finance our desired new vehicle inventories, our ability to take advantage of manufacturer financial assistance programs, our ability to collect in full or on a timely basis our manufacturer warranty and other receivables, and/or our ability to obtain other goods and services provided by the impacted manufacturer.

In addition, we have implemented a policy not to retail any new or used vehicle that has an open safety recall, and as a result, vehicle recall campaigns could materially adversely affect our business, results of operations, and financial condition. The Takata airbag inflator recall is the largest and most complex safety recall in U.S. automotive history, with over 28 million inflators recalled through April 2016 and another 30 to 40 million expected to be recalled in phases through December 2019, based on prioritization of risk, determined by the age of the inflators and exposure to high humidity and temperatures. See "Takata Airbag Inflator Recall" in Part I, Item 2 of this Form 10-Q. Most of the replacement inflators to complete the recall are on backlog order. As a result, the airbag inflator recall has been disruptive to our business, as the vehicle inventory subject to this recall has been placed on a retail sales-hold by several manufacturers until parts become available to replace the defective airbag inflators. This recall may continue to adversely impact our business for the next several years, particularly our used vehicle business.

Our business could be materially adversely impacted by the bankruptcy of a major vehicle manufacturer or related lender. For example, (i) a manufacturer in bankruptcy could attempt to terminate all or certain of our franchises, in which case we may not receive adequate compensation for our franchises, (ii) consumer demand for such manufacturer's products could be materially adversely affected, (iii) a lender in bankruptcy could attempt to terminate our floorplan financing and demand repayment of any amounts outstanding, (iv) we may be unable to arrange financing for our customers for their vehicle purchases and leases through such lender, in which case we would be required to seek financing with alternate financing sources, which may be difficult to obtain on similar terms, if at all, (v) we may be unable to collect some or all of our

Table of Contents

significant receivables that are due from such manufacturer or lender, and we may be subject to preference claims relating to payments made by such manufacturer or lender prior to bankruptcy, and (vi) such manufacturer may be relieved of its indemnification obligations with respect to product liability claims. Additionally, any such bankruptcy may result in us being required to incur impairment charges with respect to the inventory, fixed assets, and intangible assets related to certain franchises, which could adversely impact our results of operations, financial condition, and our ability to remain in compliance with the financial ratios contained in our debt agreements.

If we are not able to maintain and enhance our retail brands and reputation or to attract consumers to our own digital channels, or if events occur that damage our retail brands, reputation, or sales channels, our business and financial results may be harmed. We are investing significantly in the next phase of our brand extension strategy, and if our strategic initiatives are not successful, we will have incurred significant expenses without the benefit of improved financial results.

We believe that we have built an excellent reputation as an automotive retailer in the United States. During the first half of 2013, we transitioned our Domestic and Import stores to a unified AutoNation retail brand. We believe that our continued success will depend on our ability to maintain and enhance the value of our retail brands across all of our sales channels, including in the communities in which we operate, and to attract consumers to our own digital channels.

Consumers are increasingly shopping for new and used vehicles, automotive repair and maintenance services, and other automotive products and services online and through mobile applications, including through third-party online and mobile sales platforms with which we compete, that are designed to generate consumer sales leads that are sold to automotive dealers. If we fail to preserve the value of our retail brands, to maintain our reputation, or to attract consumers to our own digital channels, our business could be adversely impacted.

An isolated business incident at a single store could materially adversely affect our other stores, retail brands, reputation, and sales channels, particularly if such incident results in adverse publicity, governmental investigations, or litigation. In addition, the growing use of social media by consumers increases the speed and extent that information and opinions can be shared, and negative posts or comments on social media about AutoNation or any of our stores could materially damage our retail brands, reputation, and sales channels.

We have invested and will continue to invest substantial resources in marketing activities with the goals of, among other things, extending and enhancing the AutoNation retail brand, attracting consumers to our own digital channels, and reducing our use of third-party online and mobile sales platforms. We are also investing significantly in the next phase of our brand extension strategy, which includes a one price used vehicle sales model at all of our stores, the launch of stand-alone used vehicle sales and service centers and branded parts and accessories, and the expansion of branded collision centers and automotive auctions. See “Strategic Initiatives” in Part I, Item 2 of this Form 10-Q. The roll-out of these strategic initiatives may be impacted by a number of variables, including customer adoption, market conditions, and our ability to identify, acquire, and build out suitable locations in a timely manner. There can be no assurance that our marketing strategies and strategic initiatives will be successful or that the amount we invest will result in improved financial results. If our marketing strategies and strategic initiatives are not successful, we will have incurred significant expenses without the benefit of improved financial results.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information with respect to shares of common stock repurchased by AutoNation, Inc. during the three months ended September 30, 2016.

Period	Total Number of Shares Purchased ⁽¹⁾	Avg. Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under The Programs (in millions) ⁽¹⁾
July 1, 2016 - July 31, 2016	185,305	\$ 49.63	181,518	\$ 116.0
August 1, 2016 - August 31, 2016	400,094	\$ 48.63	399,300	\$ 96.6
September 1, 2016 - September 30, 2016	447,798	\$ 48.22	447,591	\$ 75.0
Total	1,033,197		1,028,409	

Our Board of Directors from time to time authorizes the repurchase of shares of our common stock up to a certain monetary limit. As of September 30, 2016, \$75.0 million remained available under our stock repurchase ⁽¹⁾ authorization limit. The Board's authorization has no expiration date. During the third quarter of 2016, all of the shares reflected in the table above were repurchased under our stock repurchase program, except for 4,788 shares surrendered to AutoNation to satisfy tax withholding obligations in connection with the vesting of restricted stock.

ITEM 6. EXHIBITS

Exhibit No.	Description
4.1	Supplemental Indenture, dated as of July 29, 2016, relating to the Company's 6.75% Senior Notes due 2018, to the Indenture, dated April 14, 2010 (the "2010 Indenture"), among AutoNation, Inc. and Wells Fargo Bank, National Association.
4.2	Supplemental Indenture to 2010 Indenture, dated as of July 29, 2016, relating to the Company's 5.5% Senior Notes due 2020.
4.3	Supplemental Indenture to 2010 Indenture, dated as of July 29, 2016, relating to the Company's 3.35% Senior Notes due 2021.
4.4	Supplemental Indenture to 2010 Indenture, dated as of July 29, 2016, relating to the Company's 4.5% Senior Notes due 2025.
31.1	Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) of the Exchange Act.
31.2	Certification of Chief Financial Officer Pursuant to Rule 13a-14(a) of the Exchange Act.
