SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-Q

(Mark One)

☐ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE

ACT OF 1934

For the quarterly period ended March 31, 2019

or

..TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-13107

AutoNation, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

73-1105145

(I.R.S. Employer Identification No.)

200 SW 1st Avenue, Fort Lauderdale, Florida

(Address of principal executive offices)

33301

(Zip Code)

(954) 769-6000

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of April 24, 2019, the registrant had 89,208,853 shares of common stock outstanding.

AUTONATION, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In millions, except per share data)

1. INTERIM FINANCIAL STATEMENTS

Business and Basis of Presentation

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of March 31, 2019, we owned and operated 326 new vehicle franchises from 239 stores located in the United States, predominantly in major metropolitan markets in the Sunbelt region. Our stores sell 33 different new vehicle brands. The core brands of new vehicles that we sell, representing approximately 92% of the new vehicles that we sold during the three months ended March 31, 2019, are manufactured by Toyota (including Lexus), Honda, Ford, General Motors, FCA US, Mercedes-Benz, BMW, Nissan, and Volkswagen (including Audi and Porsche). As of March 31, 2019, we also owned and operated 83 AutoNation-branded collision centers, and together with our vehicle dealerships, our AutoNation USA stores, our automotive auctions, and our parts distribution centers, we owned and operated over 325 locations coast to coast.

We offer a diversified range of automotive products and services, including new vehicles, used vehicles, “parts and service,” which includes automotive repair and maintenance services as well as wholesale parts and collision businesses, and automotive “finance and insurance” products, which include vehicle service and other protection products, as well as the arranging of financing for vehicle purchases through third-party finance sources. For convenience, the terms “AutoNation,” “Company,” and “we” are used to refer collectively to AutoNation, Inc. and its subsidiaries, unless otherwise required by the context. Our dealership operations are conducted by our subsidiaries. The accompanying Unaudited Condensed Consolidated Financial Statements include the accounts of AutoNation, Inc. and its subsidiaries; intercompany accounts and transactions have been eliminated. The accompanying Unaudited Condensed Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. Additionally, operating results for interim periods are not necessarily indicative of the results that can be expected for a full year. The Unaudited Condensed Consolidated Financial Statements herein should be read in conjunction with our audited Consolidated Financial Statements and notes thereto included within our most recent Annual Report on Form 10-K. These Unaudited Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to fairly state, in all material respects, our financial position and results of operations for the periods presented.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements. We base our estimates and judgments on historical experience and other assumptions that we believe are reasonable. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We periodically evaluate estimates and assumptions used in the preparation of the financial statements and make changes on a prospective basis when adjustments are necessary. The critical accounting estimates made in the accompanying Unaudited Condensed Consolidated Financial Statements include certain assumptions related to goodwill, other intangible assets, and accruals for chargebacks against revenue recognized from the sale of finance and insurance products. Other significant accounting estimates include certain assumptions related to long-lived assets, assets held for sale, accruals related to self-insurance programs, certain legal proceedings, and estimated tax liabilities.

Recent Accounting Pronouncements

Accounting for Leases

In February 2016, the Financial Accounting Standards Board (“FASB”) issued an accounting standard update (ASC Topic 842) that amends the accounting guidance on leases. The new standard establishes a right-of-use (ROU) model that requires a lessee to record an ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The FASB also subsequently issued amendments to the standard, including providing an additional and optional

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

transition method to adopt the new standard, described below, as well as certain practical expedients related to land easements and lessor accounting.

The accounting standard update originally required the use of a modified retrospective approach reflecting the application of the standard to leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements with the option to elect certain practical expedients. A subsequent amendment to the standard provides an additional and optional transition method that allows entities to initially apply the new leases standard at the adoption date and recognize a cumulative effect adjustment to the opening balance of retained earnings in the period of adoption. Consequently, an entity's reporting for the comparative periods presented in the financial statements in which it adopts the new leases standard will continue to be in accordance with current GAAP (ASC Topic 840) if the optional transition method is elected. The new accounting standard is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2018. We adopted this accounting standard effective January 1, 2019, using the optional transition method with no restatement of comparative periods. Therefore, the comparative information has not been adjusted and continues to be reported under ASC Topic 840. Our adoption of the new standard did not result in a cumulative effect adjustment to retained earnings.

We elected certain practical expedients available under the transition guidance within the new standard, which among other things, allowed us to carry forward the historical lease classification of our existing leases. We did not elect the use-of-hindsight or the practical expedient pertaining to land easements; the latter not being applicable to us. Consequently, on adoption, we recognized additional operating liabilities of \$358.1 million and ROU assets of \$344.6 million. The new standard also provides practical expedients for an entity's ongoing accounting. We elected the short-term lease recognition exemption for all leases that qualify. As a result, for those leases that qualify, we will not recognize ROU assets or lease liabilities, and we did not recognize ROU assets or lease liabilities for existing short-term leases of those assets in transition. We also elected the practical expedient to not separate lease and non-lease components of leases for the majority of our classes of underlying assets. See Note 7 for additional information on our leases.

2. REVENUE RECOGNITION***Disaggregation of Revenue***

The significant majority of our revenue is from contracts with customers. Taxes assessed by governmental authorities that are directly imposed on revenue transactions are excluded from revenue. In the following table, revenue is disaggregated by major lines of goods and services and timing of transfer of goods and services. We have determined that these categories depict how the nature, amount, timing, and uncertainty of our revenue and cash flows are affected by economic factors. The table below also includes a reconciliation of the disaggregated revenue with our reportable segments.

	\$1,773.7	\$1,652.6	\$1,717.8	\$ 115.8	\$5,259.9

⁽¹⁾ *Corporate and other* is comprised of our other businesses, including collision centers, auction operations, AutoNation USA stand-alone used vehicle sales and service centers, and parts distribution centers.

⁽²⁾ Represents revenue recognized during the period for automotive repair and maintenance services.

Transaction Price Allocated to Remaining Performance Obligations

We sell a vehicle maintenance program (the AutoNation Vehicle Care Program or “VCP”) under which a customer purchases a specific number of maintenance services to be redeemed at an AutoNation location over a five-year term from the date of purchase. We satisfy our performance obligations related to this program and recognize revenue as the maintenance services are rendered, since the customer benefits when we have completed the maintenance service. The following table includes estimated revenue expected to be recognized in the future related to VCP performance obligations that are unsatisfied (or partially unsatisfied) at the end of the reporting period.

	Revenue Expected to Be Recognized by Period			
	Total	Less Than 1 Year	1 - 3 Years	3 - 5 Years
Revenue expected to be recognized on VCP contracts sold as of period end	\$ 88.0	\$ 30.5	\$ 43.2	\$ 14.3

As a practical expedient, since automotive repair and maintenance services are performed within one year or less, we do not disclose estimated revenue expected to be recognized in the future for automotive repair and maintenance performance obligations that are unsatisfied (or partially unsatisfied) at the end of the reporting period or when we expect to recognize such revenue.

Contract Assets and Liabilities

When the timing of our provision of goods or services is different from the timing of the payments made by our customers, we recognize either a contract asset (performance precedes contractual due date) or a contract liability (customer payment precedes performance). Contract assets primarily relate to our right to consideration for work in process not yet billed at the reporting date associated with automotive repair and maintenance services, as well as our estimate of variable consideration that has been included in the transaction price for certain finance and insurance products (retrospective commissions). These contract assets are reclassified to receivables when the right to consideration becomes unconditional. Contract liabilities primarily relate to upfront payments received from customers for the sale of VCP maintenance contracts for which our performance obligations are satisfied, and revenue is recognized, as each underlying service of the multi-year contract is completed during the contract term.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

Our receivables from contracts with customers are included in Receivables, net, our current contract asset is included with Other Current Assets, our long-term contract asset is included with Other Assets, our current contract liability is included with Other Current Liabilities, and our long-term contract liability is included with Other Long-Term Liabilities in our consolidated balance sheet.

The opening and closing balances of our receivables from contracts with customers and our current and long-term contract assets and contract liabilities are as follows:

	March 31, 2019	December 31, 2018	
Receivables from contracts with customers, net	\$567.4	\$ 706.7	
Contract Asset (Current)	\$26.0	\$ 28.2	
Contract Asset (Long-Term)	\$9.0	\$ 17.4	
Contract Liability (Current)	\$31.3	\$ 31.6	
Contract Liability (Long-Term)	\$57.5	\$ 61.9	
			Three Months Ended March 31, 2019

Revenue recognized in the period from:

Amounts included in contract liability at the beginning of the period	\$ 13.0
Performance obligations satisfied in previous periods	\$ 4.6

The differences between the opening and closing balances of our contract assets and contract liabilities primarily result from the timing differences between our performance and the customer's payment, as well as changes in the estimated transaction price related to variable consideration that was constrained for performance obligations satisfied in previous periods. Other significant changes include contract assets of \$24.4 million reclassified to receivables.

3. EARNINGS PER SHARE

Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are to be included in the computation of earnings per share ("EPS") under the two-class method. Our restricted stock awards are considered participating securities because they contain non-forfeitable rights to dividends. As the number of shares granted under such awards that have not yet vested is immaterial, all earnings per share amounts reflect such shares as if they were fully vested shares and the disclosures associated with the two-class method are not presented. Restricted stock unit ("RSU") awards are not considered participating securities as they do not contain non-forfeitable rights to dividends.

Basic EPS is computed by dividing net income by the weighted average number of common shares outstanding for the period, including outstanding unvested restricted stock awards and vested RSU awards. Diluted EPS is computed by dividing net income by the weighted average number of shares outstanding, noted above, adjusted for the dilutive effect of stock options and unvested RSU awards.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

The following table presents the calculation of basic and diluted EPS:

	Three Months Ended March 31, 2019 2018	
Net income from continuing operations	\$92.1	\$93.3
Income (loss) from discontinued operations, net of income taxes	(0.1)	0.4
Net income	\$92.0	\$93.7
Weighted average common shares outstanding used in calculating basic EPS	90.5	92.1
Effect of dilutive stock options and unvested RSUs	0.2	0.6
Weighted average common shares outstanding used in calculating diluted EPS	90.7	92.7
Basic EPS amounts⁽¹⁾:		
Continuing operations	\$1.02	\$1.01
Discontinued operations	\$—	\$—
Net income	\$1.02	\$1.02
Diluted EPS amounts⁽¹⁾:		
Continuing operations	\$1.02	\$1.01
Discontinued operations	\$—	\$—
Net income	\$1.01	\$1.01

⁽¹⁾ Earnings per share amounts are calculated discretely and therefore may not add up to the total due to rounding.

A summary of anti-dilutive equity instruments excluded from the computation of diluted earnings per share is as follows:

	Three Months Ended March 31, 20192018	
Anti-dilutive equity instruments excluded from the computation of diluted earnings per share	2.8	1.4

4. RECEIVABLES, NET

The components of receivables, net of allowance for doubtful accounts, are as follows:

	March 31, December 31, 2019 2018	
Trade receivables	\$ 132.7	\$ 130.4
Manufacturer receivables	198.5	242.3
Other	32.4	31.4
	363.6	404.1

Edgar Filing: AUTONATION, INC. - Form 10-Q

Less: allowances for doubtful accounts	(4.3)	(4.6)
	359.3	399.5
Contracts-in-transit and vehicle receivables	423.4	568.6
Income taxes receivable (see Note 9)	—	8.1
Receivables, net	\$ 782.7	\$ 976.2

10

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

Trade receivables represent amounts due for parts and services that have been delivered or sold, excluding amounts due from manufacturers, as well as receivables from finance organizations for commissions on the sale of finance and insurance products. Manufacturer receivables represent amounts due from manufacturers for holdbacks, rebates, incentives, floorplan assistance, and warranty claims. Contracts-in-transit and vehicle receivables primarily represent receivables from financial institutions for the portion of the vehicle sales price financed by our customers. We evaluate our receivables for collectability based on the age of receivables and past collection experience.

5. INVENTORY AND VEHICLE FLOORPLAN PAYABLE

The components of inventory are as follows:

	March 31, December 31,	
	2019	2018
New vehicles	\$ 3,040.9	\$ 2,874.8
Used vehicles	494.4	553.8
Parts, accessories, and other	236.1	221.9
Inventory	\$ 3,771.4	\$ 3,650.5

The components of vehicle floorplan payable are as follows:

	March 31, December 31,	
	2019	2018
Vehicle floorplan payable - trade	\$ 2,453.7	\$ 2,388.0
Vehicle floorplan payable - non-trade	1,577.4	1,609.7
Vehicle floorplan payable	\$ 4,031.1	\$ 3,997.7

Vehicle floorplan payable-trade reflects amounts borrowed to finance the purchase of specific new and, to a lesser extent, used vehicle inventories with the corresponding manufacturers' captive finance subsidiaries ("trade lenders"). Vehicle floorplan payable-non-trade represents amounts borrowed to finance the purchase of specific new and, to a lesser extent, used vehicle inventories with non-trade lenders, as well as amounts borrowed under our secured used vehicle floorplan facilities. Changes in vehicle floorplan payable-trade are reported as operating cash flows and changes in vehicle floorplan payable-non-trade are reported as financing cash flows in the accompanying Unaudited Condensed Consolidated Statements of Cash Flows.

Our inventory costs are generally reduced by manufacturer holdbacks, incentives, floorplan assistance, and non-reimbursement-based manufacturer advertising rebates, while the related vehicle floorplan payables are reflective of the gross cost of the vehicle. The vehicle floorplan payables, as shown in the above table, will generally also be higher than the inventory cost due to the timing of the sale of a vehicle and payment of the related liability. Vehicle floorplan facilities are due on demand, but in the case of new vehicle inventories, are generally paid within several business days after the related vehicles are sold. Our manufacturer agreements generally allow the manufacturer to draft against new vehicle floorplan facilities so the lender funds the manufacturer directly for the purchase of new vehicle inventory. Vehicle floorplan facilities are primarily collateralized by vehicle inventories and related receivables.

Our new vehicle floorplan facilities utilize LIBOR-based interest rates, which averaged 4.0% for the three months ended March 31, 2019, and 3.1% for the three months ended March 31, 2018. At March 31, 2019, the aggregate capacity under our new vehicle floorplan facilities to finance our new vehicle inventory was approximately \$4.9 billion, of which \$3.7 billion had been borrowed.

Our used vehicle floorplan facilities utilize LIBOR-based interest rates, which averaged 3.9% for the three months ended March 31, 2019, and 3.1% for the three months ended March 31, 2018. At March 31, 2019, the aggregate

capacity under our used vehicle floorplan facilities with various lenders to finance a portion of our used vehicle inventory was \$515.0 million, of which \$377.5 million had been borrowed. The remaining borrowing capacity of \$137.5 million was limited to \$0.6 million based on the eligible used vehicle inventory that could have been pledged as collateral.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Continued)

6. GOODWILL AND INTANGIBLE ASSETS, NET

Goodwill and intangible assets, net, consist of the following:

	March 31,	December 31,
	2019	2018
Goodwill	\$ 1,509.8	\$ 1,513.2
Franchise rights - indefinite-lived	\$ 580.1	\$ 580.1
Other intangibles	23.9	22.2
	604.0	602.3
Less: accumulated amortization	(7.3)	(6.9)
Other intangible assets, net	\$ 596.7	\$ 595.4

We are scheduled to complete our annual impairment tests of our goodwill and franchise rights as of April 30, 2019.

7. LEASES***General description***

The significant majority of leases that we enter into are for real estate. We lease numerous facilities relating to our operations, including primarily for automobile showrooms, display lots, service facilities, collision repair centers, supply facilities, automobile storage lots, parking lots, offices, and our corporate headquarters. Leases for real property have terms ranging from one to twenty-five years. We also lease various types of equipment, including security cameras, diagnostic equipment, copiers, key-cutting machines, and postage machines, among others. Equipment leases generally have terms ranging from one to five years. In addition, we lease certain vehicles from vehicle manufacturers to provide our service customers with the use of a vehicle while their vehicles are being serviced at our dealerships. Service loaner vehicle leases generally have terms ranging from six to eighteen months, and we typically purchase the service loaner vehicles at the end of the lease.

Our lease agreements do not contain any material residual value guarantees or material restrictive covenants. We do not have any significant leases that have not yet commenced but that create significant rights and obligations for us. We have elected the practical expedient under ASC 842 to not separate lease and nonlease components for the following classes of underlying assets: real estate, office equipment, service loaner vehicles, and marketing-related assets (e.g., billboards).

Our real estate and equipment leases often require that we pay maintenance in addition to rent. Additionally, our real estate leases generally require payment of real estate taxes and insurance. Maintenance, real estate taxes, and insurance payments are generally variable and based on actual costs incurred by the lessor. Therefore, these amounts are not included in the consideration of the contract when determining the right-of-use ("ROU") asset and lease liability, but are reflected as variable lease expenses for those classes of underlying assets for which we have elected the practical expedient to not separate lease and nonlease components.

Leases with an initial term of 12 months or less are not recorded on the balance sheet; we recognize lease expense for these leases on a straight-line basis over the lease term. We rent or sublease certain real estate to third parties, which are primarily operating leases.

Variable lease payments

A majority of our lease agreements include fixed rental payments. Certain of our lease agreements include fixed rental payments that are adjusted periodically for changes in the Consumer Price Index ("CPI"). Payments based on a change in an index or a rate are not considered in the determination of lease payments for purposes of measuring the related lease liability. While lease liabilities are not remeasured as a result of changes to the CPI, changes to the CPI are

treated as variable lease payments and recognized in the period in which the obligation for those payments are incurred.

Options to extend or terminate leases

Most of our real estate leases include one or more options to renew, with renewal terms that can extend the lease term from one to five years or more. The exercise of lease renewal options is at our sole discretion. If it is reasonably certain that we

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

will exercise such options, the periods covered by such options are included in the lease term and are recognized as part of our ROU assets and lease liabilities. Certain leases also include options to purchase the leased property. The depreciable life of assets and leasehold improvements are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Discount rate

For our incremental borrowing rate, we generally use a portfolio approach to determine the discount rate for leases with similar characteristics. We determine discount rates based on the rates of our unsecured borrowings, which are then adjusted for the appropriate lease term and the effects of full collateralization.

Leases	Classification	March 31, 2019
Assets		
Operating	Operating Lease Assets	\$343.4
Finance	Property and Equipment, Net and Other Assets	101.4

8. LONG-TERM DEBT AND COMMERCIAL PAPER

Long-term debt consists of the following:

Debt Description	Maturity Date	Interest Payable	March 31, 2019	December 31, 2018
5.5% Senior Notes	February 1, 2020	February 1 and August 1	\$ 350.0	\$ 350.0
3.35% Senior Notes	January 15, 2021	January 15 and July 15	300.0	300.0
3.5% Senior Notes	November 15, 2024	May 15 and November 15	450.0	450.0
4.5% Senior Notes	October 1, 2025	April 1 and October 1	450.0	450.0
3.8% Senior Notes	November 15, 2027	May 15 and November 15	300.0	300.0
Revolving credit facility	October 19, 2022	Monthly	—	—
Other debt ⁽¹⁾	Various dates through 2038	Monthly	131.3	133.1
			1,981.3	1,983.1
Less: unamortized debt discounts and debt issuance costs			(11.9)	(12.6)
Less: current maturities			(393.5)	(44.3)
Long-term debt, net of current maturities			\$ 1,575.9	\$ 1,926.2

⁽¹⁾ Other debt includes finance leases as of March 31, 2019, and capital leases as of December 31, 2018.

Senior Unsecured Notes and Credit Agreement

Our 5.5% Senior Notes due 2020 will mature on February 1, 2020, and were therefore reclassified to current maturities during the first quarter of 2019.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

The interest rates payable on the 3.35% Senior Notes, 3.5% Senior Notes, 4.5% Senior Notes, and 3.8% Senior Notes are subject to adjustment upon the occurrence of certain credit rating events as provided in the indentures for these senior unsecured notes.

Under our credit agreement, we have a \$1.8 billion revolving credit facility that matures on October 19, 2022. The credit agreement also contains an accordion feature that allows us, subject to credit availability and certain other conditions, to increase the amount of the revolving credit facility, together with any added term loans, by up to \$500.0 million in the aggregate. As of March 31, 2019, we had no borrowings outstanding under our revolving credit facility. We have a \$200.0 million letter of credit sublimit as part of our revolving credit facility. The amount available to be borrowed under the revolving credit facility is reduced on a dollar-for-dollar basis by the cumulative amount of any outstanding letters of credit, which was \$41.7 million at March 31, 2019, leaving a borrowing capacity under the revolving credit facility of \$1.8 billion at March 31, 2019. As of March 31, 2019, this borrowing capacity was limited under the applicable maximum consolidated leverage ratio contained in our credit agreement to \$741.1 million.

Our revolving credit facility under the amended credit agreement provides for a commitment fee on undrawn amounts ranging from 0.150% to 0.25% and interest on borrowings at LIBOR or the base rate, in each case plus an applicable margin. The applicable margin ranges from 1.25% to 1.625% for LIBOR borrowings and 0.25% to 0.625% for base rate borrowings. The interest rate charged for our revolving credit facility is affected by our leverage ratio. For instance, an increase in our leverage ratio from greater than or equal to 2.0x but less than 3.25x to greater than or equal to 3.25x would result in a 12.5 basis point increase in the applicable margin.

Our senior unsecured notes and borrowings under our credit agreement are guaranteed by substantially all of our subsidiaries. Within the meaning of Regulation S-X, Rule 3-10, AutoNation, Inc. (the parent company) has no independent assets or operations, the guarantees of its subsidiaries are full and unconditional and joint and several, and any subsidiaries other than the guarantor subsidiaries are minor.

Other Long-Term Debt

At March 31, 2019, we had finance lease and other debt obligations of \$131.3 million, which are due at various dates through 2038.

Commercial Paper

We have a commercial paper program pursuant to which we may issue short-term, unsecured commercial paper notes on a private placement basis up to a maximum aggregate amount outstanding at any time of \$1.0 billion. The interest rate for the commercial paper notes varies based on duration and market conditions. The maturities of the commercial paper notes may vary, but may not exceed 397 days from the date of issuance. The commercial paper notes are guaranteed by substantially all of our subsidiaries. Proceeds from the issuance of commercial paper notes are used to repay borrowings under the revolving credit facility, to finance acquisitions and for working capital, capital expenditures, share repurchases, and/or other general corporate purposes. We plan to use the revolving credit facility under our credit agreement as a liquidity backstop for borrowings under the commercial paper program. A downgrade in our credit ratings could negatively impact our ability to issue, or the interest rates for, commercial paper notes.

At March 31, 2019, we had \$470.0 million of commercial paper notes outstanding with a weighted-average annual interest rate of 2.97% and a weighted-average remaining term of 6 days. At December 31, 2018, we had \$630.0 million of commercial paper notes outstanding with a weighted-average annual interest rate of 3.22% and a weighted-average remaining term of 21 days.

9. INCOME TAXES

Income taxes payable included in Other Current Liabilities totaled \$23.5 million at March 31, 2019. Income taxes receivable included in Receivables, net totaled \$8.1 million at December 31, 2018.

We file income tax returns in the U.S. federal jurisdiction and various states. As a matter of course, various taxing authorities, including the IRS, regularly audit us. Currently, no tax years are under examination by the IRS, and tax years from 2014 to 2017 are under examination by certain U.S. state jurisdictions. These audits may result in proposed

assessments where the ultimate resolution may result in our owing additional taxes.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

It is our policy to account for interest and penalties associated with income tax obligations as a component of Income Tax Provision in the accompanying Unaudited Condensed Consolidated Financial Statements.

10. SHAREHOLDERS' EQUITY

A summary of shares repurchased under our stock repurchase program authorized by our Board of Directors follows:

	Three Months Ended March 31, 2019 2018	
Shares repurchased	1.0	0.5
Aggregate purchase price	\$33.5	\$26.6
Average purchase price per share	\$34.34	\$48.38

As of March 31, 2019, \$230.2 million remained available for share repurchases under the program.

A summary of shares of common stock issued in connection with the exercise of stock options follows:

	Three Months Ended March 31, 2019 2018	
Shares issued (in actual number of shares)	11,227	259,075
Proceeds from the exercise of stock options	\$0.3	\$ 13.3
Average exercise price per share	\$25.93	\$ 51.15

The following table presents a summary of shares of common stock issued in connection with the settlement of RSUs, as well as shares surrendered to AutoNation to satisfy tax withholding obligations in connection with the vesting of restricted stock and settlement of RSUs:

	Three Months Ended March 31, 2019 2018	
(In actual number of shares)		
Shares issued	233,130	112,824
Shares surrendered to AutoNation to satisfy tax withholding obligations	77,831	45,690

11. STORE DIVESTITURES

During the first quarter of 2019, we divested two Import stores. During the first quarter of 2018, we divested seven Domestic stores, two Import stores, one Premium Luxury store, and one collision center.

We recognized net gains related to store divestitures of \$8.5 million during the first quarter of 2019 and \$6.5 million during the first quarter of 2018. Write-downs associated with certain business divestitures that closed during the first quarter of 2018 were previously recorded during the fourth quarter of 2017. Gains on divestitures are included in Other Income, Net (within Operating Income) in our Consolidated Statements of Income. The financial condition and results of operations of these businesses were not material to our consolidated financial statements.

12. ACQUISITIONS

During the first quarter of 2019, we purchased one parts distribution center located in Nevada and one parts distribution center located in Utah. Acquisitions are included in the Unaudited Condensed Consolidated Financial Statements from the date of acquisition. The purchase price allocations for these business combinations are preliminary and subject to final adjustment. During the first quarter of 2018, we purchased one collision center in Maryland.

The acquisitions that occurred during the first quarter of 2019, were not material to our financial condition or results of operations. Additionally, on a pro forma basis as if the results of these acquisitions had been included in our consolidated results

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

for the entire three month periods ended March 31, 2019 and 2018, revenue and net income would not have been materially different from our reported revenue and net income for these periods.

13. CASH FLOW INFORMATION***Cash, Cash Equivalents, and Restricted Cash***

The total amounts presented on our statements of cash flows include cash, cash equivalents, and restricted cash. Restricted cash includes certain deferred purchase price commitments related to certain acquisitions. The following table provides a reconciliation of cash and cash equivalents reported on our Unaudited Condensed Consolidated Balance Sheets to the total amounts reported on our Unaudited Condensed Consolidated Statements of Cash Flows:

	March 31, 2019	December 31, 2018
Cash and cash equivalents	\$ 48.7	\$ 48.6
Restricted cash included in Current Assets	0.9	0.8
Total cash, cash equivalents, and restricted cash	\$ 49.6	\$ 49.4

Non-Cash Investing and Financing Activities

We had accrued purchases of property and equipment of \$21.7 million at March 31, 2019, and \$26.4 million at March 31, 2018. See Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements for supplemental information on lease liabilities arising from obtaining right-of-use assets.

Interest and Income Taxes Paid

We made interest payments, net of amounts capitalized and including interest on vehicle inventory financing, of \$60.7 million during the three months ended March 31, 2019, and \$46.5 million during the three months ended March 31, 2018. We made income tax payments, net of income tax refunds, of \$1.2 million during the three months ended March 31, 2019, and \$84.6 million during the three months ended March 31, 2018.

14. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The fair value of a financial instrument represents the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of judgment, and therefore cannot be determined with precision.

Accounting standards define fair value as the price that would be received from selling an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Accounting standards establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value and also establishes the following three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted Level 2 market prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The following methods and assumptions were used by us in estimating fair value disclosures for financial instruments:

Cash and cash equivalents, receivables, other current assets, vehicle floorplan payable, accounts payable, other current liabilities, commercial paper, and variable rate debt: The amounts reported in the accompanying

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

Unaudited Condensed Consolidated Balance Sheets approximate fair value due to their short-term nature or the existence of variable interest rates that approximate prevailing market rates.

Investment in Security: Our investment in security consists of an equity security that does not have a readily determinable fair value. Therefore, we have elected to apply a measurement alternative and record the equity interest at its cost of \$50.0 million, which will be subsequently adjusted for observable price changes. The equity interest is reported in Other Assets in the accompanying Unaudited Condensed Consolidated Balance Sheets. We have considered all relevant transactions since the date of our investment through March 31, 2019, and we have not recorded any impairments or upward or downward adjustments to the carrying amount of our investment as of March 31, 2019, as there have not been any changes in the observable price of our equity interest as of such date.

Fixed rate long-term debt: Our fixed rate long-term debt primarily consists of amounts outstanding under our senior unsecured notes. We estimate the fair value of our senior unsecured notes using quoted prices for the identical liability (Level 1). A summary of the aggregate carrying values and fair values of our fixed rate long-term debt is as follows:

	March 31,	December 31,
	2019	2018
Carrying value	\$ 1,969.4	\$ 1,970.5
Fair value	\$ 1,955.2	\$ 1,908.9

Nonfinancial assets such as goodwill, other intangible assets, long-lived assets held and used, and right-of-use assets are measured at fair value when there is an indicator of impairment and recorded at fair value only when impairment is recognized or for a business combination. The fair values less costs to sell of long-lived assets held for sale are assessed each reporting period they remain classified as held for sale. Subsequent changes in the held for sale long-lived asset's fair value less cost to sell (increase or decrease) is reported as an adjustment to its carrying amount, except that the adjusted carrying amount cannot exceed the carrying amount of the long-lived asset at the time it was initially classified as held for sale.

Long-Lived Assets and Right-of-Use Assets

The fair value measurement valuation process for our long-lived assets and right-of-use assets is established by our corporate real estate services group. Fair value measurements, which are based on Level 3 inputs, and changes in fair value measurements are reviewed and assessed each quarter for properties classified as held for sale, or when an indicator of impairment exists for properties classified as held and used or for right-of-use assets, by the corporate real estate services group. Our corporate real estate services group utilizes its knowledge of the automotive industry and historical experience in real estate markets and transactions in establishing the valuation process, which is generally based on a combination of the market and replacement cost approaches.

In a market approach, the corporate real estate services group uses transaction prices for comparable properties that have recently been sold. These transaction prices are adjusted for factors related to a specific property. The corporate real estate services group also evaluates changes in local real estate markets, and/or recent market interest or negotiations related to a specific property. In a replacement cost approach, the cost to replace a specific long-lived asset is considered, which is adjusted for depreciation from physical deterioration, as well as functional and economic obsolescence, if present and measurable.

To validate the fair values determined under the valuation process noted above, our corporate real estate services group also obtains independent third-party appraisals for our properties and/or third-party brokers' opinions of value, which are generally developed using the same valuation approaches described above, and evaluates any recent negotiations or discussions with third-party real estate brokers related to a specific long-lived asset or market.

We had assets held for sale in continuing operations of \$98.9 million as of March 31, 2019, and \$67.8 million as of December 31, 2018, primarily related to property held for sale, as well as inventory, goodwill, franchise rights, and property of disposal groups held for sale. We had assets held for sale in discontinued operations of \$13.9 million as of

March 31, 2019, and \$14.1 million as of December 31, 2018, primarily related to property held for sale. Assets held for sale are included in Other Current Assets in our Unaudited Condensed Consolidated Balance Sheets. See Note 7 of the Notes to Unaudited Condensed Consolidated Financial Statements for information on our right-of-use assets.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

The following table presents nonfinancial assets measured and recorded at fair value on a nonrecurring basis during the three months ended March 31, 2019 and 2018:

Description	2019		2018	
	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)		Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
Right-of-use assets	\$ 0.1	\$ (0.2)	\$ —	\$ —
Long-lived assets held and used	\$ —	\$ —	\$ —	\$ (1.0)
Long-lived assets held for sale in continuing operations	\$ —	\$ —	\$ 0.6	\$ (0.3)

The non-cash impairment charges recorded during the three months ended March 31, 2019 and 2018, are included in Other Income, Net (within Operating Income) in our Unaudited Condensed Consolidated Statements of Income and are reported in the “Corporate and other” category of our segment information.

15. COMMITMENTS AND CONTINGENCIES***Legal Proceedings***

We are involved, and will continue to be involved, in numerous legal proceedings arising out of the conduct of our business, including litigation with customers, wage and hour and other employment-related lawsuits, and actions brought by governmental authorities. Some of these lawsuits purport or may be determined to be class or collective actions and seek substantial damages or injunctive relief, or both, and some may remain unresolved for several years. We establish accruals for specific legal proceedings when it is considered probable that a loss has been incurred and the amount of the loss can be reasonably estimated. Our accruals for loss contingencies are reviewed quarterly and adjusted as additional information becomes available. We disclose the amount accrued if material or if such disclosure is necessary for our financial statements to not be misleading. If a loss is not both probable and reasonably estimable, or if an exposure to loss exists in excess of the amount accrued, we assess whether there is at least a reasonable possibility that a loss, or additional loss, may have been incurred. If there is a reasonable possibility that a loss, or additional loss, may have been incurred, we disclose the estimate of the possible loss or range of loss if it is material or a statement that such an estimate cannot be made. Our evaluation of whether a loss is reasonably possible or probable is based on our assessment and consultation with legal counsel regarding the ultimate outcome of the matter. As of March 31, 2019 and 2018, we have accrued for the potential impact of loss contingencies that are probable and reasonably estimable, and there was no indication of a reasonable possibility that a material loss, or additional material loss, may have been incurred. We do not believe that the ultimate resolution of these matters will have a material adverse effect on our results of operations, financial condition, or cash flows. However, the results of these matters cannot be predicted with certainty, and an unfavorable resolution of one or more of these matters could have a material adverse effect on our results of operations, financial condition, or cash flows.

Other Matters

AutoNation, acting through its subsidiaries, is the lessee under many real estate leases that provide for the use by our subsidiaries of their respective store premises. Pursuant to these leases, our subsidiaries generally agree to indemnify the lessor and other related parties from certain liabilities arising as a result of the use of the leased premises, including environmental liabilities, or a breach of the lease by the lessee. Additionally, from time to time, we enter into agreements with third parties in connection with the sale of assets or businesses in which we agree to indemnify the purchaser or related parties from certain liabilities or costs arising in connection with the assets or business. Also,

in the ordinary course of business in connection with purchases or sales of goods and services, we enter into agreements that may contain indemnification provisions. In the event that an indemnification claim is asserted, our liability would be limited by the terms of the applicable agreement.

From time to time, primarily in connection with dispositions of automotive stores, our subsidiaries assign or sublet to the store purchaser the subsidiaries' interests in any real property leases associated with such stores. In general, our subsidiaries retain responsibility for the performance of certain obligations under such leases to the extent that the assignee or sublessee

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

does not perform, whether such performance is required prior to or following the assignment or subletting of the lease. Additionally, AutoNation and its subsidiaries generally remain subject to the terms of any guarantees made by us and our subsidiaries in connection with such leases. Although we generally have indemnification rights against the assignee or sublessee in the event of non-performance under these leases, as well as certain defenses, we estimate that lessee rental payment obligations during the remaining terms of these leases with expirations ranging from 2019 to 2034 are approximately \$17 million at March 31, 2019. We do not have any material known commitments that we or our subsidiaries will be called on to perform under any such assigned leases or subleases at March 31, 2019. There can be no assurance that any performance by AutoNation or its subsidiaries required under these leases would not have a material adverse effect on our business, financial condition, and cash flows.

At March 31, 2019, surety bonds, letters of credit, and cash deposits totaled \$107.8 million, of which \$41.7 million were letters of credit. In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance. We do not currently provide cash collateral for outstanding letters of credit.

In the ordinary course of business, we are subject to numerous laws and regulations, including automotive, environmental, health and safety, and other laws and regulations. We do not anticipate that the costs of such compliance will have a material adverse effect on our business, results of operations, cash flows, or financial condition, although such outcome is possible given the nature of our operations and the extensive legal and regulatory framework applicable to our business. We do not have any material known environmental commitments or contingencies.

16. BUSINESS AND CREDIT CONCENTRATIONS

We own and operate franchised automotive stores in the United States pursuant to franchise agreements with vehicle manufacturers. During the three months ended March 31, 2019, approximately 64% of our total retail new vehicle unit sales was generated by our stores in Florida, Texas, and California. We are subject to a concentration of risk in the event of financial distress of or other adverse event related to a major vehicle manufacturer or related lender or supplier. The core brands of vehicles that we sell, representing approximately 92% of the new vehicles sold during the three months ended March 31, 2019, are manufactured by Toyota (including Lexus), Honda, Ford, General Motors, FCA US, Mercedes-Benz, BMW, Nissan, and Volkswagen (including Audi and Porsche). Our business could be materially adversely impacted by a bankruptcy of or other adverse event related to a major vehicle manufacturer or related lender or supplier.

We had receivables from manufacturers or distributors of \$198.5 million at March 31, 2019, and \$242.3 million at December 31, 2018. Additionally, a large portion of our contracts-in-transit included in Receivables, net, in the accompanying Unaudited Condensed Consolidated Balance Sheets, are due from automotive manufacturers' captive finance subsidiaries, which provide financing directly to our new and used vehicle customers. Concentrations of credit risk with respect to non-manufacturer trade receivables are limited due to the wide variety of customers and markets in which our products are sold as well as their dispersion across many different geographic areas in the United States. Consequently, at March 31, 2019, we do not consider AutoNation to have any significant non-manufacturer concentrations of credit risk.

17. SEGMENT INFORMATION

At March 31, 2019 and 2018, we had three reportable segments: (1) Domestic, (2) Import, and (3) Premium Luxury. Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Ford, General Motors, and FCA US. Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Toyota, Honda, and Nissan. Our Premium Luxury segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Mercedes-Benz, BMW, Audi, Lexus, and Jaguar Land Rover. The franchises in each segment also sell used vehicles, parts and automotive repair and

maintenance services, and automotive finance and insurance products.

Corporate and other is comprised of our other businesses, including collision centers, auction operations, AutoNation USA stand-alone used vehicle sales and service centers, and parts distribution centers, all of which generate revenues but do not meet the quantitative thresholds for determining reportable segments, as well as unallocated corporate overhead expenses and retrospective commissions for certain finance and insurance transactions that we arrange under agreements with third parties.

The reportable segments identified above are the business activities of the Company for which discrete financial information is available and for which operating results are regularly reviewed by our chief operating decision maker to allocate resources and assess performance. Our chief operating decision maker is our Chief Executive Officer.

Table of Contents**AUTONATION, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Continued)**

The following table provides information on revenues from external customers and segment income of our reportable segments.

	Three Months Ended March 31, 2019			Three Months Ended March 31, 2018		
	Domestic	Import	Premium Luxury	Domestic	Import	Premium Luxury
Revenues from external customers	\$1,568.8	\$1,496.1	\$1,734.1	\$1,773.7	\$1,652.6	\$1,717.8
Segment income ⁽¹⁾	\$56.2	\$72.6	\$84.3	\$60.3	\$72.8	\$87.7

⁽¹⁾ Segment income represents income for each of our reportable segments and is defined as operating income less floorplan interest expense.

The following is a reconciliation of total segment income for reportable segments to our consolidated income from continuing operations before income taxes.

	Three Months Ended March 31, 2019 2018	
	Total segment income for reportable segments	\$213.1
Corporate and other	(61.3)	(63.3)
Other interest expense	(27.8)	(32.3)
Interest income	0.2	0.2
Other income, net	1.9	0.8
Income from continuing operations before income taxes	\$126.1	\$126.2

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and notes thereto included under Part I, Item 1 of this Quarterly Report on Form 10-Q. In addition, reference should be made to our audited Consolidated Financial Statements and notes thereto and related “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our most recent Annual Report on Form 10-K.

Overview

AutoNation, Inc., through its subsidiaries, is the largest automotive retailer in the United States. As of March 31, 2019, we owned and operated 326 new vehicle franchises from 239 stores located in the United States, predominantly in major metropolitan markets in the Sunbelt region. Our stores, which we believe include some of the most recognizable and well known in our key markets, sell 33 different new vehicle brands. The core brands of new vehicles that we sell, representing approximately 92% of the new vehicles that we sold during the three months ended March 31, 2019, are manufactured by Toyota (including Lexus), Honda, Ford, General Motors, FCA US, Mercedes-Benz, BMW, Nissan, and Volkswagen (including Audi and Porsche). As of March 31, 2019, we also owned and operated 83 AutoNation-branded collision centers, and together with our vehicle dealerships, our AutoNation USA stores, our automotive auctions, and our parts distribution centers, we owned and operated over 325 locations coast to coast.

We offer a diversified range of automotive products and services, including new vehicles, used vehicles, “parts and service,” which includes automotive repair and maintenance services as well as wholesale parts and collision businesses, and automotive “finance and insurance” products, which include vehicle service and other protection products, as well as the arranging of financing for vehicle purchases through third-party finance sources. We believe that the significant scale of our operations and the quality of our managerial talent allow us to achieve efficiencies in our key markets by, among other things, leveraging the AutoNation retail brand and advertising, implementing standardized processes, and increasing productivity across all of our stores.

At March 31, 2019, we had three reportable segments: (1) Domestic, (2) Import, and (3) Premium Luxury. Our Domestic segment is comprised of retail automotive franchises that sell new vehicles manufactured by Ford, General Motors, and FCA US. Our Import segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Toyota, Honda, and Nissan. Our Premium Luxury segment is comprised of retail automotive franchises that sell new vehicles manufactured primarily by Mercedes-Benz, BMW, Audi, Lexus, and Jaguar Land Rover. The franchises in each segment also sell used vehicles, parts and automotive repair and maintenance services, and automotive finance and insurance products.

For the three months ended March 31, 2019, new vehicle sales accounted for approximately 50% of our total revenue and approximately 14% of our total gross profit. Used vehicle sales accounted for approximately 27% of our total revenue and approximately 11% of our total gross profit. Our parts and service and finance and insurance operations, while comprising approximately 22% of our total revenue for the three months ended March 31, 2019, contributed approximately 75% of our total gross profit for the same period.

Market Conditions

In the first quarter of 2019, U.S. industry retail new vehicle unit sales were down 6% as compared to the first quarter of 2018. We currently expect that full-year U.S. industry new vehicle unit sales in 2019 will be in the high 16 million unit level. However, actual sales may materially differ. The rise in interest rates over the past two years, combined with rising vehicle prices, has adversely impacted industry retail new vehicle unit sales. Based on industry data, vehicle leasing and manufacturer incentives remain at historically-high levels. To the extent that vehicle manufacturers reduce their support for these programs, U.S. industry and our new vehicle unit retail sales could be adversely impacted. In addition, an increase in off-lease supply of late-model used vehicles could continue to benefit retail used vehicle unit volume but adversely impact retail new vehicle unit volume and pricing.

Results of Operations

During the three months ended March 31, 2019, we had net income from continuing operations of \$92.1 million, or \$1.02 per share on a diluted basis, as compared to net income from continuing operations of \$93.3 million, or \$1.01 per share on a diluted basis, during the same period in 2018.

During the first quarter of 2019, used vehicle gross profit increased 5% and parts and service gross profit increased 3%, each as compared to the first quarter of 2018, due in part to our brand extension strategy. In addition, new vehicle gross profit per vehicle retailed (“PVR”) and finance and insurance gross profit PVR increased as compared to the first quarter of 2018.

Table of Contents

Improvements to gross profit during the first quarter of 2019 were partially offset by decreases in new vehicle unit volume, which was adversely impacted by competitive market conditions in a weaker new vehicle sales environment, driven by higher consumer borrowing rates and rising vehicle prices, and an increase in off-lease supply of late-model used vehicles. SG&A expenses decreased as compared to the prior year period due to a decrease in one-time expenses incurred in the prior year related to our brand extension strategy, as well as our cost savings efforts made in connection with our restructuring and cost savings plan announced in January 2019 discussed below. Floorplan interest expense increased as compared to the prior year period, primarily due to higher average interest rates and higher average vehicle floorplan balances.

Net income from continuing operations benefited from net after-tax gains of \$6.4 million related to store divestitures during the three months ended March 31, 2019. During the three months ended March 31, 2018, net income from continuing operations benefited from net after-tax gains of \$9.3 million related to store/property divestitures, partially offset by after-tax asset impairments and other charges of \$1.5 million.

In January 2019, we announced a restructuring of certain of our corporate and regional organization as part of a plan to reduce our annual spending by approximately \$50 million in preparation of a challenging automotive retail market in 2019. In connection with this restructuring, we recognized \$3.6 million of restructuring expenses during the first quarter of 2019, which are primarily reflected as a component of our SG&A expenses.

Strategic Initiatives

We continue to implement our comprehensive, customer-focused brand extension strategy, which includes AutoNation-branded parts and accessories, AutoNation-branded Customer Financial Services products (including extended service and maintenance contracts and other vehicle protection products), the expansion of AutoNation-branded collision centers, AutoNation-branded automotive auctions, AutoNation USA stand-alone used vehicle sales and service centers, and the expansion of our parts distribution network. During the first quarter of 2019, we acquired two parts distribution centers located in Nevada and Utah.

We continue to evaluate potential strategic investment and partnership opportunities that will further enhance our ability to adapt to changing customer behavior and expectations, such as our existing strategic investment in Vroom and our partnership with Waymo.

Inventory Management

Our new and used vehicle inventories are stated at the lower of cost or net realizable value on our consolidated balance sheets. We monitor our vehicle inventory levels based on current economic conditions and seasonal sales trends.

We have typically not experienced significant losses on the sale of new vehicle inventory, in part due to incentives provided by manufacturers to promote sales of new vehicles and our inventory management practices. We monitor our new vehicle inventory values as compared to net realizable values, and had no new vehicle inventory write-downs at March 31, 2019. Our new vehicle inventory balance was net of cumulative write-downs of \$0.5 million at December 31, 2018.

We recondition the majority of used vehicles acquired for retail sale in our parts and service departments and capitalize the related costs to the used vehicle inventory. We monitor our used vehicle inventory values as compared to net realizable values. Typically, used vehicles that are not sold on a retail basis are sold at wholesale auctions. Our used vehicle inventory balance was net of cumulative write-downs of \$2.7 million at March 31, 2019, and \$3.2 million at December 31, 2018.

Parts, accessories, and other inventory are carried at the lower of acquisition cost or net realizable value. We estimate the amount of potentially damaged and/or obsolete inventory based upon historical experience, manufacturer return policies, and industry trends. Our parts, accessories, and other inventory balance was net of cumulative write-downs of \$6.6 million at March 31, 2019, and \$6.4 million at December 31, 2018.

Critical Accounting Estimates

We prepare our Unaudited Condensed Consolidated Financial Statements in conformity with U.S. generally accepted accounting principles, which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the

reported amounts of revenue and expenses during the reporting period. We evaluate our estimates on an ongoing basis, and we base our estimates on historical experience and various other assumptions we believe to be reasonable. Actual outcomes could differ materially from those estimates in a manner that could have a material effect on our Unaudited Condensed Consolidated Financial Statements. For additional discussion of our critical accounting estimates, please see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K.

Table of Contents

Goodwill

Goodwill for our reporting units is tested for impairment annually as of April 30 or more frequently when events or changes in circumstances indicate that the carrying value of a reporting unit more likely than not exceeds its fair value. We are scheduled to complete our annual impairment test as of April 30, 2019.

As of March 31, 2019, we have \$229.6 million of goodwill related to the Domestic reporting unit, \$519.0 million related to the Import reporting unit, \$717.7 million related to the Premium Luxury reporting unit, and \$43.5 million related to "Other."

Other Intangible Assets

Our principal identifiable intangible assets are individual store rights under franchise agreements with vehicle manufacturers, which have indefinite lives and are tested for impairment annually as of April 30 or more frequently when events or changes in circumstances indicate that impairment may have occurred. We are scheduled to complete our annual impairment test of our franchise rights as of April 30, 2019.

Chargeback Liability

We estimate our liability for chargebacks on commissions related to financing, vehicle service contracts, or other vehicle protection products on an individual basis using our historical chargeback experience based on internal cancellation data, as well as cancellation data received from third parties that sell and administer these products. Our estimated liability for chargebacks totaled \$128.6 million at March 31, 2019, and \$128.1 million at December 31, 2018.

The following discussion of new vehicle results is on a same store basis. The difference between reported amounts and same store amounts in the above tables of \$34.0 million and \$57.7 million in new vehicle revenue and \$1.5 million and \$0.7 million in new vehicle gross profit for the three months ended March 31, 2019 and 2018, respectively, is related to acquisition and divestiture activity, as well as new add-point openings.

First Quarter 2019 compared to First Quarter 2018

Same store new vehicle revenue decreased during the three months ended March 31, 2019, as compared to the same period in 2018, due to a decrease in same store unit volume, partially offset by an increase in revenue PVR. The decrease in same store unit volume was primarily due to overall competitive market conditions in a weaker new vehicle sales environment, which has been impacted by higher consumer borrowing rates and rising vehicle prices, and an increase in off-lease supply of late-model used vehicles.

Same store revenue PVR increased during the three months ended March 31, 2019, as compared to the same period in 2018, due in part to a shift in mix toward Premium Luxury vehicles and trucks and sport utility vehicles, both of which have relatively higher average selling prices. The shift in mix toward trucks and sports utility vehicles is due to a combination of improved vehicle fuel efficiency and relatively low average fuel prices. Average selling prices also increased as a result of increases in the manufacturers' suggested retail prices.

Same store gross profit PVR increased during the three months ended March 31, 2019, as compared to the same period in 2018, as we focused on strategically balancing gross profit PVRs and unit volume. Same store gross profit PVR also benefited from a shift in mix toward Premium Luxury vehicles, which have relatively higher gross profit PVRs.

Table of Contents**Net New Vehicle Inventory Carrying Benefit (Cost)**

The following table details net new vehicle inventory carrying benefit (cost), consisting of new vehicle floorplan interest expense, net of floorplan assistance earned (amounts received from manufacturers specifically to support store financing of new vehicle inventory), as reported. Floorplan assistance is accounted for as a component of new vehicle gross profit in accordance with U.S. generally accepted accounting principles.

(\$ in millions)	Three Months Ended		
	March 31,		
	2019	2018	Variance
Floorplan assistance	\$25.2	\$28.5	\$ (3.3)
New vehicle floorplan interest expense	(36.4)	(26.2)	(10.2)
Net new vehicle inventory carrying benefit (cost)	\$(11.2)	\$2.3	\$ (13.5)

First Quarter 2019 compared to First Quarter 2018

During the three months ended March 31, 2019, we had a net new vehicle inventory carrying cost of \$11.2 million compared to a net new vehicle inventory carrying benefit of \$2.3 million in the prior year. Up until the second quarter of 2018, we had a net new vehicle inventory carrying benefit for nine consecutive years. Floorplan interest rates are variable and therefore increase and decrease with changes in the underlying benchmark interest rates. With the increase in interest rates, our floorplan interest expense has increased, resulting in a net new vehicle inventory carrying cost for the three months ended March 31, 2019. Floorplan interest expense also increased due to higher average vehicle floorplan balances. Floorplan assistance decreased due to lower new vehicle unit sales. If interest rates continue to increase without a corresponding increase in floorplan assistance or a decrease in average new vehicle inventory levels, we would expect that we will continue to incur a net new vehicle inventory carrying cost.

Table of Contents*Used Vehicle*

(\$ in millions, except per vehicle data)	Three Months Ended March 31,			
	2019	2018	Variance Favorable / (Unfavorable)	% Variance

Gross profit per vehicle retailed	\$ 1,385	\$ 1,338	\$ 47	3.5
Gross profit as a percentage of revenue	6.7	% 6.7	%	

The following discussion of used vehicle results is on a same store basis. The difference between reported amounts and same store amounts in the above tables of \$22.5 million and \$31.0 million in total used vehicle revenue and \$1.7 million and \$0.9 million in total used vehicle gross profit for the three months ended March 31, 2019 and 2018, respectively, is related to acquisition and divestiture activity, as well as the opening of new add-points, AutoNation USA stores, and an automotive auction.

First Quarter 2019 compared to First Quarter 2018

Same store retail used vehicle revenue increased during the three months ended March 31, 2019, as compared to the same period in 2018, due to an increase in revenue PVR. Same store revenue PVR increased during the three months ended March 31, 2019, as compared to the same period in 2018, due in part to an increase in off-lease supply of late-model used vehicles and a shift in mix toward trucks and sports utility vehicles, both of which have relatively higher average selling prices. The shift in mix toward trucks and sport utility vehicles is due to a combination of improved vehicle fuel efficiency and relatively low average fuel prices.

Same store gross profit PVR increased during the three months ended March 31, 2019, as compared to the same period in 2018, for used vehicles in all three segments as we continued to improve the acquisition and management of our inventory, as well as improve our sales execution.

Table of Contents*Parts and Service*

(\$ in millions)	Three Months Ended March 31,			
	2019	2018	Variance Favorable / (Unfavorable)	% Variance
<u>Reported:</u>				
Revenue	\$876.7	\$858.5	\$ 18.2	2.1
Gross Profit	\$398.9	\$385.5	\$ 13.4	3.5
Gross profit as a percentage of revenue	45.5 %	44.9 %		
<u>Same Store:</u>				
Revenue	\$859.1	\$839.0	\$ 20.1	2.4
Gross Profit	\$391.1	\$376.6	\$ 14.5	3.9
Gross profit as a percentage of revenue	45.5 %	44.9 %		

Parts and service revenue is primarily derived from vehicle repairs paid directly by customers or via reimbursement from manufacturers and others under warranty programs, as well as from wholesale parts sales and collision services. The following discussion of parts and service results is on a same store basis. The difference between reported amounts and same store amounts in the above tables of \$17.6 million and \$19.5 million in parts and service revenue and \$7.8 million and \$8.9 million in parts and service gross profit for the three months ended March 31, 2019 and 2018, respectively, is related to acquisition and divestiture activity, as well as the opening of new add-points, AutoNation USA stores, and collision centers.

First Quarter 2019 compared to First Quarter 2018

During the three months ended March 31, 2019, same store parts and service gross profit increased as compared to the same period in 2018, primarily due to increases in gross profit associated with customer-pay service of \$7.7 million and warranty of \$5.4 million.

Customer-pay service gross profit benefited from an increase in higher value customer-pay repair orders, our parts initiatives, and price increases. Warranty gross profit benefited from improved margin performance largely due to a shift in mix toward higher margin service work and improved parts and labor rates negotiated with certain manufacturers.

Table of Contents**Finance and Insurance**

(\$ in millions, except per vehicle data)	Three Months Ended March 31,		Variance	
	2019	2018	Favorable / (Unfavorable)	% Variance
Reported:				
Revenue and gross profit	\$236.5	\$240.8	\$ (4.3)	(1.8)
Gross profit per vehicle retailed	\$1,897	\$1,766	\$ 131	7.4
Same Store:				
Revenue and gross profit	\$234.4	\$236.7	\$ (2.3)	(1.0)
Gross profit per vehicle retailed	\$1,904	\$1,780	\$ 124	7.0

Revenue on finance and insurance products represents commissions earned by us for the placement of: (i) loans and leases with financial institutions in connection with customer vehicle purchases financed, (ii) vehicle service contracts with third-party providers, and (iii) other vehicle protection products with third-party providers. We sell these products on a commission basis, and, in certain cases, we also participate in the future underwriting profit on certain products pursuant to retrospective commission arrangements with the issuers of those products.

The following discussion of finance and insurance results is on a same store basis. The difference between reported amounts and same store amounts in finance and insurance revenue and gross profit in the above tables of \$2.1 million and \$4.1 million for the three months ended March 31, 2019 and 2018, respectively, is related to acquisition and divestiture activity, as well as the opening of new add-points and AutoNation USA stores.

First Quarter 2019 compared to First Quarter 2018

Same store finance and insurance revenue and gross profit decreased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to a decrease in new vehicle unit volume, partially offset by an increase in finance and insurance gross profit PVR. The increase in gross profit PVR was primarily due to higher realized margins on vehicle service contracts, including our AutoNation Vehicle Protection Plan product, and an increase in product penetration. Increases in finance and insurance gross profit PVR were partially offset by a shift in unit volume mix from new vehicles to used vehicles, which have lower average selling prices than new vehicles and therefore typically generate lower gross profit per transaction associated with arranging customer financing. Sales of used vehicles also have lower finance and product penetration as compared to sales of new vehicles.

Table of Contents**Segment Results**

In the following table, revenue and segment income of our reportable segments are reconciled to consolidated revenue and consolidated operating income, respectively. The following discussions of segment results are on a reported basis.

Three Months Ended March 31,

(\$ in millions)	2019	2018	Variance Favorable / (Unfavorable)	%	Variance
Revenue:					
Domestic	\$ 1,568.8	\$ 1,773.7	\$ (204.9)	(11.6)
Import	1,496.1	1,652.6	(156.5)	(9.5)
Premium Luxury	1,734.1	1,717.8	16.3)	0.9
Total	4,799.0	5,144.1	(345.1)	(6.7)
Corporate and other	182.8	115.8	67.0)	57.9
Total consolidated revenue	\$ 4,981.8	\$ 5,259.9	\$ (278.1)	(5.3)
Segment income⁽¹⁾:					
Domestic	\$ 56.2	\$ 60.3	\$ (4.1)	(6.8)
Import	72.6	72.8	(0.2)	(0.3)
Premium Luxury	84.3	87.7	(3.4)	(3.9)
Total	213.1	220.8	(7.7)	(3.5)
Corporate and other	(61.3) (63.3) 2.0)	
Floorplan interest expense	39.0	28.3	(10.7)	
Operating income	\$ 190.8	\$ 185.8	\$ 5.0)	2.7

⁽¹⁾ Segment income represents income for each of our reportable segments and is defined as operating income less floorplan interest expense.

Retail new vehicle unit sales:

Domestic	20,205	24,605	(4,400)	(17.9)
Import	28,756	33,950	(5,194)	(15.3)
Premium Luxury	14,552	15,623	(1,071)	(6.9)
	63,513	74,178	(10,665)	(14.4)

Table of Contents**Domestic**

The Domestic segment operating results included the following:

(\$ in millions)	Three Months Ended March 31,		Variance	
	2019	2018	Favorable / (Unfavorable)	% Variance
Revenue	\$1,568.8	\$1,773.7	\$ (204.9)	(11.6)
Segment income	\$56.2	\$60.3	\$ (4.1)	(6.8)
Retail new vehicle unit sales	20,205	24,605	(4,400)	(17.9)

First Quarter 2019 compared to First Quarter 2018

Domestic revenue decreased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to a decrease in new vehicle unit volume, a realignment of certain parts distribution centers, and the divestitures we completed subsequent to the first quarter of 2018, partially offset by an increase in new vehicle revenue PVRs. The decrease in new vehicle unit volume was primarily due to overall competitive market conditions in a weaker new vehicle sales environment, driven by higher consumer borrowing rates and rising vehicle prices, and an increase in off-lease supply of late-model used vehicles. The increase in new vehicle revenue PVR was due in part to a shift in mix toward trucks and sport utility vehicles, which have relatively higher average selling prices, as a result of a combination of improved vehicle fuel efficiency and relatively low average fuel prices. New vehicle average selling prices also increased as a result of increases in the manufacturers' suggested retail prices.

Domestic segment income decreased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to decreases in new vehicle and finance and insurance gross profit resulting from the decrease in new vehicle unit volume discussed above. Domestic segment income was also adversely impacted by an increase in floorplan interest expense. Decreases in segment income were partially offset by a decrease in SG&A expenses, partially due to the divestitures we completed subsequent to the first quarter of 2018.

Table of Contents**Import**

The Import segment operating results included the following:

(\$ in millions)	Three Months Ended March 31,		Variance	
	2019	2018	Favorable / (Unfavorable)	% Variance
Revenue	\$1,496.1	\$1,652.6	\$ (156.5)	(9.5)
Segment income	\$72.6	\$72.8	\$ (0.2)	(0.3)
Retail new vehicle unit sales	28,756	33,950	(5,194)	(15.3)

First Quarter 2019 compared to First Quarter 2018

Import revenue decreased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to a decrease in new vehicle unit volume and the divestitures we completed subsequent to the first quarter of 2018, partially offset by an increase in used vehicle revenue PVRs. The decrease in new vehicle unit volume was primarily due to overall competitive market conditions in a weaker new vehicle sales environment, driven by higher consumer borrowing rates and rising vehicle prices, and an increase in off-lease supply of late-model used vehicles. Used vehicle revenue PVR increased due in part to a shift in mix toward trucks and sport utility vehicles, which have relatively higher average selling prices, as a result of a combination of improved vehicle fuel efficiency and relatively low average fuel prices.

Import segment income remained relatively flat during the three months ended March 31, 2019, as compared to the same period in 2018. Import segment income was adversely impact by a decrease in new vehicle and finance and insurance gross profit resulting from the decrease in new vehicle unit volume noted above and an increase in floorplan interest expense. Decreases in segment income were largely offset by a decrease in SG&A expenses, partially due to the divestitures we completed subsequent to the first quarter of 2018.

Table of Contents**Premium Luxury**

The Premium Luxury segment operating results included the following:

(\$ in millions)	Three Months Ended March 31,		Variance	
	2019	2018	Favorable / (Unfavorable)	% Variance
Revenue	\$1,734.1	\$1,717.8	\$ 16.3	0.9
Segment income	\$84.3	\$87.7	\$ (3.4)	(3.9)
Retail new vehicle unit sales	14,552	15,623	(1,071)	(6.9)

First Quarter 2019 compared to First Quarter 2018

Premium Luxury revenue increased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to the acquisitions and new add-point openings completed subsequent to the first quarter of 2018 and increases in new and used vehicle revenue PVR, partially offset by a decrease in new vehicle unit volume. The increase in new vehicle revenue PVR was due in part to increases in the manufacturers' suggested retail prices. The increase in used vehicle revenue PVRs was due in part to a shift in mix toward trucks and sport utility vehicles, which have relatively higher average selling prices, as a result of a combination of improved vehicle fuel efficiency and relatively low average fuel prices. The decrease in new vehicle unit volume was primarily due to overall competitive market conditions in a weaker new vehicle sales environment, driven by higher consumer borrowing rates and rising vehicle prices, and an increase in off-lease supply of late-model used vehicles.

Premium Luxury segment income decreased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to increases in SG&A and floorplan interest expenses, due in part to the acquisitions and new add-point openings discussed above. Decreases in segment income were partially offset by an increase in parts and service gross profit associated with customer-pay service and warranty and an increase in finance and insurance revenue and gross profit. Finance and insurance revenue and gross profit benefited from higher realized margins on vehicle service contracts and an increase in product penetration.

Table of Contents**Selling, General, and Administrative Expenses**

Our Selling, General, and Administrative (“SG&A”) expenses consist primarily of compensation, including store and corporate salaries, commissions, and incentive-based compensation, as well as advertising (net of reimbursement-based manufacturer advertising rebates), and store and corporate overhead expenses, which include occupancy costs, legal, accounting, and professional services, and general corporate expenses. The following table presents the major components of our SG&A expenses.

(\$ in millions)	Three Months Ended March 31,			
	2019	2018	Variance Favorable / (Unfavorable)	% Variance
Reported:				
Compensation	\$399.0	\$399.7	\$ 0.7	0.2
Advertising	44.2	44.3	0.1	0.2
Store and corporate overhead	179.8	182.8	3.0	1.6
Total	\$623.0	\$626.8	\$ 3.8	0.6

SG&A as a % of total gross profit:

Compensation	47.0	47.5	50	bps
Advertising	5.2	5.3	10	bps
Store and corporate overhead	21.2	21.6	40	bps
Total	73.4	74.4	100	bps

First Quarter 2019 compared to First Quarter 2018

SG&A expenses decreased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to decreases in store and corporate overhead expenses due to a decrease in one-time expenses incurred in the prior year related to our brand extension strategy, as well as our cost savings efforts made in connection with our restructuring and cost savings plan announced in January 2019. These decreases were partially offset by restructuring expenses we recognized during the first quarter of 2019. SG&A expenses also decreased due to divestitures. As a percentage of total gross profit, SG&A expenses decreased to 73.4% during the three months ended March 31, 2019, from 74.4% in the same period in 2018, primarily due to improvements in gross profit PVRs and effective cost management.

Other Income, Net (included in Operating Income)

During the first quarter of 2019, we recognized net gains of \$8.5 million related to store divestitures. During the first quarter of 2018, we recognized net gains of \$12.3 million related to store/property divestitures, which were partially offset by asset impairments and other charges of \$2.0 million.

Non-Operating Income (Expense)***Floorplan Interest Expense****First Quarter 2019 compared to First Quarter 2018*

Floorplan interest expense was \$39.0 million for the three months ended March 31, 2019, compared to \$28.3 million for the same period in 2018. The increase in floorplan interest expense of \$10.7 million is the result of higher average interest rates and higher average vehicle floorplan balances. Floorplan interest rates are variable and therefore increase and decrease with changes in the underlying benchmark interest rates.

Other Interest Expense*First Quarter 2019 compared to First Quarter 2018*

Other interest expense of \$27.8 million for the three months ended March 31, 2019, decreased \$4.5 million as compared to \$32.3 million for the same period in 2018, primarily due to lower average debt balances and lower average interest rates as we refinanced higher cost debt with lower-rate commercial paper. Interest expense decreased by \$6.8 million resulting from the repayment of the 6.75% Senior Notes due 2018 in the second quarter of 2018. This decrease was partially offset by an increase of \$2.4 million resulting from higher year-over-year average interest rates on our commercial paper borrowings. The weighted

Table of Contents

average annual interest rate on our commercial paper borrowings during the first quarter of 2019 was 3.08% compared to 2.08% for the first quarter of 2018.

Provision for Income Taxes

Income taxes are provided based upon our anticipated underlying annual blended federal and state income tax rates adjusted, as necessary, for any discrete tax matters occurring during the period. As we operate in various states, our effective tax rate is also dependent upon our geographic revenue mix.

Our effective income tax rate was 27.0% for the three months ended March 31, 2019, and 26.1% for the three months ended March 31, 2018.

Discontinued Operations

Discontinued operations are related to stores that were sold or terminated prior to January 1, 2014. Results from discontinued operations, net of income taxes, were primarily related to carrying costs for real estate we have not yet sold associated with stores that were closed prior to January 1, 2014, and other adjustments related to disposed operations.

Liquidity and Capital Resources

We manage our liquidity to ensure access to sufficient funding at acceptable costs to fund our ongoing operating requirements and future capital expenditures while continuing to meet our financial obligations. We believe that our cash and cash equivalents, funds generated through future operations, and amounts available under our revolving credit facility, commercial paper program, and secured used vehicle floorplan facilities will be sufficient to fund our working capital requirements, service our debt, pay our tax obligations and commitments and contingencies, and meet any seasonal operating requirements for the foreseeable future.

Available Liquidity Resources

We had the following sources of liquidity available:

(In millions)	March 31, 2019	December 31, 2018
Cash and cash equivalents	\$ 48.7	\$ 48.6
Revolving credit facility ⁽¹⁾	\$ 741.1	⁽²⁾ \$ 588.0
Secured used vehicle floorplan facilities ⁽³⁾	\$ 0.6	\$ 0.5

⁽¹⁾ As limited by the maximum consolidated leverage ratio contained in our credit agreement.

At March 31, 2019, we had \$41.7 million of letters of credit outstanding. In addition, we use the revolving credit facility under our credit agreement as a liquidity backstop for borrowings under our commercial paper program.

⁽²⁾ We had \$470.0 million of commercial paper notes outstanding at March 31, 2019. See Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information.

⁽³⁾ Based on the eligible used vehicle inventory that could have been pledged as collateral. See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information.

In the ordinary course of business, we are required to post performance and surety bonds, letters of credit, and/or cash deposits as financial guarantees of our performance relating to insurance matters. At March 31, 2019, surety bonds, letters of credit, and cash deposits totaled \$107.8 million, of which \$41.7 million were letters of credit. We do not currently provide cash collateral for outstanding letters of credit.

In February 2019, we filed an automatic shelf registration statement with the SEC that enables us to offer for sale, from time to time and as the capital markets permit, an unspecified amount of common stock, preferred stock, debt securities, warrants, subscription rights, depositary shares, stock purchase contracts, units, and guarantees of debt securities.

Capital Allocation

Our capital allocation strategy is focused on maximizing stockholder returns. We invest capital in our business to maintain and upgrade our existing facilities and to build new facilities for existing franchises, as well as for other strategic and technology initiatives, including our brand extension strategy discussed above under “Strategic Initiatives.” We also deploy capital opportunistically to repurchase our common stock and/or debt, to complete dealership, collision center, or other

Table of Contents

automotive business-related acquisitions or investments, and/or build facilities for newly awarded franchises or newly opened collision centers. Our capital allocation decisions will be based on factors such as the expected rate of return on our investment, the market price of our common stock versus our view of its intrinsic value, the market price of our debt, the potential impact on our capital structure, our ability to complete acquisitions that meet our market and vehicle brand criteria and return on investment threshold, and limitations set forth in our debt agreements.

Share Repurchases

Our Board of Directors from time to time authorizes the repurchase of shares of our common stock up to a certain monetary limit. A summary of shares repurchased under our stock repurchase program authorized by our Board of Directors follows:

(In millions, except per share data)	Three Months Ended	
	March 31,	
	2019	2018
Shares repurchased	1.0	0.5
Aggregate purchase price	\$ 33.5	\$ 26.6
Average purchase price per share	\$ 34.34	\$ 48.38

The decision to repurchase shares at any given point in time is based on factors such as the market price of our common stock versus our view of its intrinsic value, the potential impact on our capital structure (including compliance with our maximum leverage ratio and other financial covenants in our debt agreements as well as our available liquidity), and the expected return on competing uses of capital such as dealership, collision center, and other automotive business-related acquisitions or investments, capital investments in our current businesses, or repurchases of our debt.

As of March 31, 2019, \$230.2 million remained available under our stock repurchase limit most recently authorized by our Board of Directors.

Capital Expenditures

The following table sets forth information regarding our capital expenditures:

(In millions)	Three Months Ended	
	March 31,	
	2019	2018
Purchases of property and equipment, including operating lease buy-outs ⁽¹⁾	\$ 40.4	\$ 79.4

⁽¹⁾Includes accrued construction in progress and excludes property associated with leases entered into during the year.

Acquisitions and Divestitures

The following table sets forth information regarding cash used in business acquisitions, net of cash acquired, and cash received from business divestitures, net of cash relinquished:

(In millions)	Three Months Ended	
	March 31,	
	2019	2018
Cash received from (used in) business acquisitions, net	\$ (4.3)	\$ (1.9)
Cash received from (used in) business divestitures, net	\$ 17.4	\$ 89.2

We purchased two parts distribution centers during the three months ended March 31, 2019. We purchased a collision center during the three months ended March 31, 2018.

During the three months ended March 31, 2019, we divested two Import stores. During the three months ended March 31, 2018, we divested seven Domestic stores, two Import stores and one Premium Luxury store, and one collision center.

We regularly review our store portfolio and may divest stores opportunistically. We have utilized proceeds related to asset sales, including business and real estate divestitures, and expect to utilize proceeds from future asset sales, to fund our capital investments and strategic initiatives or for other general corporate purposes.

Table of Contents**Long-Term Debt and Commercial Paper**

The following table sets forth our non-vehicle long-term debt, net of debt issuance costs, as of March 31, 2019, and December 31, 2018.

Debt Description	Maturity Date	Interest Payable	(in millions)	
			March 31, 2019	December 31, 2018
5.5% Senior Notes	February 1, 2020	February 1 and August 1	\$350.0	\$ 350.0
3.35% Senior Notes	January 15, 2021	January 15 and July 15	300.0	300.0
3.5% Senior Notes	November 15, 2024	May 15 and November 15	450.0	450.0
4.5% Senior Notes	October 1, 2025	April 1 and October 1	450.0	450.0
3.8% Senior Notes	November 15, 2027	May 15 and November 15	300.0	300.0
Revolving credit facility	October 19, 2022	Monthly	—	—
Other debt ⁽¹⁾	Various dates through 2038	Monthly	131.3	133.1
			1,981.3	1,983.1
Less: unamortized debt discounts and debt issuance costs			(11.9)	(12.6)
Less: current maturities			(393.5)	(44.3)
Long-term debt, net of current maturities			\$1,575.9	\$ 1,926.2

⁽¹⁾ Other debt includes finance leases as of March 31, 2019 and capital leases as of December 31, 2018.

Our 5.5% Senior Notes due 2020 will mature on February 1, 2020, and were therefore reclassified to current maturities during the first quarter of 2019.

At March 31, 2019, we had \$470.0 million of commercial paper notes outstanding with a weighted-average annual interest rate of 2.97% and a weighted-average remaining term of 6 days. At December 31, 2018, we had \$630.0 million of commercial paper notes outstanding with a weighted-average annual interest rate of 3.22% and a weighted-average remaining term of 21 days.

See Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on our long-term debt and commercial paper.

Restrictions and Covenants

Our credit agreement, the indentures for our senior unsecured notes, and our vehicle floorplan facilities contain numerous customary financial and operating covenants that place significant restrictions on us, including our ability to incur additional indebtedness or prepay existing indebtedness, to create liens or other encumbrances, to sell (or otherwise dispose of) assets, and to merge or consolidate with other entities.

Under our credit agreement, we are required to remain in compliance with a maximum leverage ratio and maximum capitalization ratio. The leverage ratio is a contractually defined amount principally reflecting non-vehicle debt divided by a contractually defined measure of earnings with certain adjustments. The capitalization ratio is a contractually defined amount principally reflecting vehicle floorplan payable and non-vehicle debt divided by our total capitalization including vehicle floorplan payable. The specific terms of these covenants can be found in our credit agreement, which we filed with our Current Report on Form 8-K on October 24, 2017.

The indentures for our senior unsecured notes contain certain limited covenants, including limitations on liens and sale and leaseback transactions.

Our failure to comply with the covenants contained in our debt agreements could result in the acceleration of all of our indebtedness. Our debt agreements have cross-default provisions that trigger a default in the event of an uncured default under other material indebtedness of AutoNation.

Table of Contents

As of March 31, 2019, we were in compliance with the requirements of the financial covenants under our debt agreements. Under the terms of our credit agreement, at March 31, 2019, our leverage ratio and capitalization ratio were as follows:

	March 31, 2019	
	Requirement	Actual
Leverage ratio	≤ 3.75x	2.88x
Capitalization ratio	≤ 70.0%	59.8%

Vehicle Floorplan Payable

The components of vehicle floorplan payable are as follows:

(In millions)	March 31, December 31,	
	2019	2018
Vehicle floorplan payable - trade	\$ 2,453.7	\$ 2,388.0
Vehicle floorplan payable - non-trade	1,577.4	1,609.7
Vehicle floorplan payable	\$ 4,031.1	\$ 3,997.7

See Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements for more information on our vehicle floorplan payable.

Cash Flows

The following table summarizes the changes in our cash provided by (used in) operating, investing, and financing activities:

	Three Months	
	Ended	
	March 31,	
(In millions)	2019	2018
Net cash provided by operating activities	\$259.7	\$198.7
Net cash used in investing activities	\$(48.6)	\$(13.2)
Net cash used in financing activities	\$(210.9)	\$(197.7)

Cash Flows from Operating Activities

Our primary sources of operating cash flows result from the sale of vehicles and finance and insurance products, collections from customers for the sale of parts and services, and proceeds from vehicle floorplan payable-trade. Our primary uses of cash from operating activities are repayments of vehicle floorplan payable-trade, purchases of inventory, personnel-related expenditures, and payments related to taxes and leased properties.

Net cash provided by operating activities increased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to a decrease in working capital requirements.

Cash Flows from Investing Activities

Net cash flows from investing activities consist primarily of cash used in capital additions and activity from business acquisitions, business divestitures, property dispositions, and other transactions.

Net cash used in investing activities increased during the three months ended March 31, 2019, as compared to the same period in 2018, primarily due to a decrease in cash received from business divestitures, net of cash relinquished, partially offset by a decrease in purchases of property and equipment.

Cash Flows from Financing Activities

Net cash flows from financing activities primarily include repurchases of common stock, debt activity, and changes in vehicle floorplan payable-non-trade.

Table of Contents

Cash flows from financing activities include changes in vehicle floorplan payable-non-trade totaling net payments of \$12.5 million for the three months ended March 31, 2019, and net payments of \$124.2 million for the three months ended March 31, 2018, as well as changes in commercial paper notes outstanding totaling net payments of \$160.0 million during the three months ended March 31, 2019, and net payments of \$60.0 million during the three months ended March 31, 2018.

During the three months ended March 31, 2019, we repurchased 1.0 million shares of common stock for an aggregate purchase price of \$33.5 million (average purchase price per share of \$34.34), including repurchases for which settlement occurred subsequent to March 31, 2019. During the three months ended March 31, 2018, we repurchased 0.5 million shares of common stock for an aggregate purchase price of \$26.6 million (average purchase price per share of \$48.38), including repurchases for which settlement occurred subsequent to March 31, 2018.

During three months ended March 31, 2019, cash flows from financing activities were also impacted by a decrease in proceeds from the exercise of stock options as compared to the same period in 2018.

Recent Accounting Pronouncements

See Note 1 of the Notes to Unaudited Condensed Consolidated Financial Statements.

Forward-Looking Statements

Our business, financial condition, results of operations, cash flows, and prospects, and the prevailing market price and performance of our common stock may be adversely affected by a number of factors, including the matters discussed below. Certain statements and information set forth in this Quarterly Report on Form 10-Q, including without limitation statements regarding our brand extension strategy, strategic initiatives, partnerships, or investments, the impact of tax reform in the United States on our financial results, pending or planned acquisitions, expected future investments in our business, and our expectations for the future performance of our business (including with respect to sales of used vehicles and parts and accessories) and the automotive retail industry, as well as other written or oral statements made from time to time by us or by our authorized executive officers on our behalf, constitute “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact, including statements that describe our objectives, plans or goals are, or may be deemed to be, forward-looking statements. Words such as “anticipate,” “expect,” “intend,” “goal,” “plan,” “believe,” “continue,” “may,” “will,” “could,” and such words and similar expressions are intended to identify such forward-looking statements. Our forward-looking statements reflect our current expectations concerning future results and events, and they involve known and unknown risks, uncertainties and other factors that are difficult to predict and may cause our actual results, performance, or achievements to be materially different from any future results, performance, or achievements expressed or implied by these statements. The risks, uncertainties, and other factors that our stockholders and prospective investors should consider include, but are not limited to, the following:

The automotive retail industry is sensitive to changing economic conditions and various other factors, including fuel prices, interest rates, and tariffs. Our business and results of operations are substantially dependent on vehicle sales levels in the United States and in our particular geographic markets, as well as the gross profit margins that we can achieve on our sales of vehicles, all of which are very difficult to predict.

Our new vehicle sales are impacted by the incentive, marketing, and other programs of vehicle manufacturers.

We are dependent upon the success and continued financial viability of the vehicle manufacturers and distributors with which we hold franchises.

We are investing significantly in our brand extension strategy, and if our strategic initiatives are not successful, we will have incurred significant expenses without the benefit of improved financial results.

If we are not able to maintain and enhance our retail brands and reputation or to attract consumers to our own digital channels, or if events occur that damage our retail brands, reputation, or sales channels, our business and financial results may be harmed.

New laws, regulations, or governmental policies regarding fuel economy and greenhouse gas emission standards, or changes to existing standards, may affect vehicle manufacturers’ ability to produce cost-effective vehicles or vehicles that consumers demand, which could adversely impact our business, results of operations, financial condition, cash flow, and prospects.

⌘ Natural disasters and adverse weather events can disrupt our business.

Table of Contents

We are subject to restrictions imposed by, and significant influence from, vehicle manufacturers that may adversely impact our business, financial condition, results of operations, cash flows, and prospects, including our ability to acquire additional stores.

We are subject to numerous legal and administrative proceedings, which, if the outcomes are adverse to us, could materially adversely affect our business, results of operations, financial condition, cash flows, and prospects.

Our operations are subject to extensive governmental laws and regulations. If we are found to be in purported violation of or subject to liabilities under any of these laws or regulations, or if new laws or regulations are enacted that adversely affect our operations, our business, operating results, and prospects could suffer.

A failure of our information systems or any security breach or unauthorized disclosure of confidential information could have a material adverse effect on our business.

Our debt agreements contain certain financial ratios and other restrictions on our ability to conduct our business, and our substantial indebtedness could adversely affect our financial condition and operations and prevent us from fulfilling our debt service obligations.

We are subject to interest rate risk in connection with our vehicle floorplan payables, revolving credit facility, and commercial paper program that could have a material adverse effect on our profitability.

Goodwill and other intangible assets comprise a significant portion of our total assets. We must test our goodwill and other intangible assets for impairment at least annually, which could result in a material, non-cash write-down of goodwill or franchise rights and could have a material adverse impact on our results of operations and shareholders' equity.

Our largest stockholders, as a result of their ownership stakes in us, may have the ability to exert substantial influence over actions to be taken or approved by our stockholders. In addition, future share repurchases and fluctuations in the levels of ownership of our largest stockholders could impact the volume of trading, liquidity, and market price of our common stock.

Please refer to our most recent Annual Report on Form 10-K for additional discussion of the foregoing risks. These forward-looking statements speak only as of the date of this report, and we undertake no obligation to update any forward-looking statements to reflect subsequent events or circumstances.

Additional Information

Investors and others should note that we announce material financial information using our company website (www.autonation.com), our investor relations website (investors.autonation.com), SEC filings, press releases, public conference calls, and webcasts. Information about AutoNation, its business, and its results of operations may also be announced by posts on the following social media channels:

• AutoNation's Twitter feed (www.twitter.com/autonation)

• Carl Liebert's Twitter feed (www.twitter.com/CEOLiebert)

The information that we post on these social media channels could be deemed to be material information. As a result, we encourage investors, the media, and others interested in AutoNation to review the information that we post on these social media channels. These channels may be updated from time to time on AutoNation's investor relations website. The information on or accessible through our websites and social media channels is not incorporated by reference in this Quarterly Report on Form 10-Q.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our primary market risk exposure is changing LIBOR-based interest rates. Interest rate derivatives may be used to hedge a portion of our variable rate debt, when appropriate, based on market conditions.

We had \$4.0 billion of variable rate vehicle floorplan payable at March 31, 2019, and \$4.0 billion at December 31, 2018. Based on these amounts, a 100 basis point change in interest rates would result in an approximate change to our annual floorplan interest expense of \$40.3 million at March 31, 2019, and \$40.0 million at December 31, 2018. Our exposure to changes in interest rates with respect to total vehicle floorplan payable is partially mitigated by manufacturers' floorplan assistance, which in some cases is based on variable interest rates.

We had \$470.0 million of commercial paper notes outstanding at March 31, 2019, and \$630.0 million at December 31, 2018. Based on the amounts outstanding, a 100 basis point change in interest rates would result in an approximate change to annual interest expense of \$4.7 million at March 31, 2019 and \$6.3 million at December 31, 2018.

Our fixed rate long-term debt, consisting of amounts outstanding under our senior unsecured notes and finance lease and other debt obligations, totaled \$2.0 billion and had a fair value of \$2.0 billion as of March 31, 2019, and totaled \$2.0 billion and had a fair value of \$1.9 billion as of December 31, 2018.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or 15d-15 under the Exchange Act that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1A. RISK FACTORS

In addition to the information set forth in this Form 10-Q, you should carefully consider the risk factors discussed in Part I, Item 1A of our most recent Annual Report on Form 10-K, which could materially affect our business, financial condition, or future results.

46

Table of Contents**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The table below sets forth information with respect to shares of common stock repurchased by AutoNation, Inc. during the three months ended March 31, 2019.

Period	Total Number of Shares Purchased ⁽¹⁾	Avg. Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under The Programs (in millions) ⁽¹⁾
January 1, 2019 - January 31, 2019	1,041	\$ 36.05	—	\$ 263.7
February 1, 2019 - February 28, 2019	132,000	\$ 35.37	132,000	\$ 259.1
March 1, 2019 - March 31, 2019	849,826	\$ 34.18	844,542	\$ 230.2
Total	982,867		976,542	

Our Board of Directors from time to time authorizes the repurchase of shares of our common stock up to a certain monetary limit. As of March 31, 2019, \$230.2 million remained available under our stock repurchase authorization ⁽¹⁾ limit. The Board's authorization has no expiration date. During the first quarter of 2019, all of the shares reflected in the table above were repurchased under our stock repurchase program, except for 6,325 shares surrendered to AutoNation to satisfy tax withholding obligations in connection with the vesting of restricted stock.

ITEM 6. EXHIBITS**Exhibit No.** **Description**

10.1	<u>Employment Agreement, dated as of February 18, 2019, by and between AutoNation, Inc. and Carl C. Liebert III (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the SEC on February 22, 2019).</u>
10.2	<u>Separation Agreement and General Release of All Claims, dated January 3, 2019, by and between AutoNation, Inc. and Donna Parlapiano (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the SEC on January 9, 2019).</u>
10.3	<u>Separation Agreement and General Release of All Claims entered into by and between AutoNation, Inc. and Thomas M. Conophy on January 17, 2019 (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed with the SEC on January 24, 2019).</u>
10.4	<u>Separation Agreement and General Release of All Claims, dated January 17, 2019, by and between AutoNation, Inc. and Lance Iserman (incorporated by reference to Exhibit 10.31 to the Company's Annual Report on Form 10-K filed with the SEC on February 22, 2019).</u>
10.5	<u>Separation Agreement and General Release of All Claims, dated January 31, 2019, by and between AutoNation, Inc. and Dennis Berger (incorporated by reference to Exhibit 10.32 to the Company's Annual Report on Form 10-K filed with the SEC on February 22, 2019).</u>
31.1	<u>Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) of the Exchange Act.</u>
31.2	<u>Certification of Chief Financial Officer Pursuant to Rule 13a-14(a) of the Exchange Act.</u>
32.1	<u>Certification of Chief Executive Officer Pursuant to Rule 13a-14(b) of the Exchange Act and 18 U.S.C. Section 1350.</u>
32.2	<u>Certification of Chief Financial Officer Pursuant to Rule 13a-14(b) of the Exchange Act and 18 U.S.C. Section 1350.</u>
