ALICO, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(See Accountants' Review Report)
(in thousands except for per share data)

1. Basis of financial statement presentation:

The accompanying condensed consolidated financial statements include the accounts of Alico, Inc. and its wholly owned subsidiaries, Saddlebag Lake Resorts, Inc. (Saddlebag), Agri-Insurance Company, Ltd. (Agri), and Alico-Agri, LLC after elimination of all significant intercompany balances and transactions.

The accompanying unaudited condensed consolidated financial statements have been prepared on a basis consistent with the accounting principles and policies reflected in the Company's annual report for the year ended August 31, 2003. In the opinion of Management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary for a fair presentation of its consolidated financial position at November 30, 2003 and the consolidated results of operations and cash flows for the three months ended November 30, 2003 and 2002.

The basic business of the Company is agriculture which is of a seasonal nature and subject to the influence of natural phenomena and wide price fluctuations. Fluctuation in the market prices for citrus fruit has caused the Company to recognize additional revenue from the prior year's crop totaling \$174 in 2003 and \$193 in 2002. Due to current market conditions for citrus, the Company recorded a valuation allowance of (\$722) for its unharvested fruit crop on trees at November 30, 2003.

The results of operations for the stated periods are not necessarily indicative of results to be expected for the full year. Certain items from 2002 have been reclassified to conform to the 2003 presentation.

2. Real Estate:

6

Edgar Filing: ALICO INC - Form 10-Q/A

Real estate sales are recorded under the accrual method of accounting. Under this method, a sale is not recognized until payment is received, including interest, aggregating 10% of the contract sales price for residential properties and 20% for commercial properties.

3. Mortgage and notes receivable:

Mortgage and notes receivable arose from real estate sales. The balances at November 30, 2003 and August 31, 2003 are as follows:

| | November 30, 2003 (Unaudited) | August 31, 2003 |
|---------------------------------------------------|-------------------------------------|-----------------------------|
| | <u> </u> | <u> </u> |
| Mortgage notes receivable on retail land sales | \$ 235 | \$ 235 |
| Mortgage notes receivable on bulk land sales | 2,410 | 2,420 |
| Other notes receivable | 90 | 113 |
| | <u> </u> | <u> </u> |
| Total mortgage notes receivable | \$ 2,735 | \$ 2,768 |
| Less current portion | 2,514 | 2,534 |
| | <u> </u> | <u> </u> |
| Non-current portion | \$ 221 | \$ 234 |
| | <u> </u> | <u> </u> |

4. Inventories:

A summary of the Company's inventories is shown below:

| | November 30, 2003 (Unaudited) | August 31, 2003 |
|---------------------------------|-------------------------------------|-----------------------------|
| | <u> </u> | <u> </u> |
| Unharvested fruit crop on trees | \$ 8,692 | \$ 8,135 |
| Unharvested sugarcane | 4,829 | 5,159 |
| Beef cattle | 6,943 | 7,892 |
| Sod | 696 | 659 |
| | <u> </u> | <u> </u> |
| Total inventories | \$ 21,160 | \$ 21,845 |

Subject to prevailing market conditions, the Company may hedge a portion of its beef inventory by entering into cattle futures contracts to reduce exposure to changes in market prices. Any gains or losses anticipated under these agreements were deferred, with the cost of the related cattle being adjusted when the contracts are settled. At November 30, 2003, the Company had no open positions.

5. Income taxes:

The provision for income taxes for the quarters ended November 30, 2003 and 2002 is summarized as follows:

| | Three Months Ended November 30, 2003 (Unaudited) | 2002 (Unaudited) |
|-------------------------------------|--------------------------------------------------------|---------------------|
| Current: | | |
| Federal income tax | \$ 281 | \$ 55 |
| State income tax | 30 | 9 |
| | <u>311</u> | <u>64</u> |
| Deferred: | | |
| Federal income tax | (258) | 23 |
| State income tax | (28) | 4 |
| | <u>(286)</u> | <u>27</u> |
| Total provision for income taxes | <u>\$ 25</u> | <u>\$ 91</u> |

The Internal Revenue Service has begun its examination of the Company tax returns for the years ended August 31, 2000, 2001 and 2002, and Agri tax returns for calendar years 2000, 2001 and 2002. Any adjustments resulting from the examination will be currently due and payable. No adjustments have been proposed to date.

6. Indebtedness:

The Company has financing agreements with commercial banks that permit the Company to borrow up to \$54.0 million. Financing agreements allowing the Company to borrow up to \$41.0 million are due in 2005, and up to \$3.0 million

Edgar Filing: ALICO INC - Form 10-Q/A

which is due on demand. In December 2001, the Company entered into an additional financing agreement to borrow \$10 million to be paid in equal principal installments over five years with interest to be paid quarterly. The outstanding debt under these agreements was \$43.3 million and \$41.0 million at November 30 and August 31, 2003 respectively. In March 1999, the Company mortgaged 7,680 acres for \$19 million in connection with a \$22.5 million acquisition of producing citrus and sugarcane operations. The total long-term portion of debt at November 30, 2003 and August 31, 2003 was \$53.3 million and \$54.1 million respectively.

8

Maturities of the indebtedness of the Company over the next five years are as follows : 2004- \$3,321; 2005- \$36,260; 2006- \$3,312; 2007- \$3,315; 2008- \$1,318; and \$9,071 thereafter.

Interest cost expensed and capitalized during the three months ended November 30, 2003 and 2002 was as follows:

| | 2003 | 2002 |
|----------------------|--------|--------|
| Interest expensed | \$ 488 | \$ 541 |
| Interest capitalized | 66 | 60 |
| Total interest cost | \$ 554 | \$ 601 |

7. Other non-current liability:

Alico formed a wholly owned insurance subsidiary, Agri Insurance Company, Ltd. (Bermuda) ("Agri") Alico capitalized Agri by contributing real estate located in Lee County Florida. The real estate. Since receiving the favorable IRS determination letter, certain transactions, entered into by othe The Internal Revenue Service has begun its examination of the Company tax returns for the years e

8. Dividends:

On October 7, 2003 the Company declared a dividend of \$.60 per share, which was paid on October 31, 2003.

9. Disclosures about reportable segments:

Alico, Inc. has three reportable segments: citrus, sugarcane, and ranching. The commodities produced by these segments are sold to wholesalers and processors who prepare the products for consumption. The Company's operations are located in Florida.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. Alico, Inc. evaluates performance based on profit or loss from operations before income taxes. Alico, Inc.'s reportable segments are strategic business units that offer

9

Edgar Filing: ALICO INC - Form 10-Q/A

different products. They are managed separately because each segment requires different management techniques, knowledge and skills.

The following table presents information for each of the Company's operating segments as of and for the three months ended November 30, 2003:

| | Citrus | Sugarcane | Ranch | Other* | Consolidated Total |

10. Stock Option Plan

On November 3, 1998, the Company adopted the Alico, Inc., Incentive Equity Plan (The Plan) pursuant to which the Board of Directors of the Company may grant options, stock appreciation rights, and/or restricted stock to certain directors and employees. The Plan authorizes grants of shares or options to purchase up to 650,000 shares of authorized but unissued common stock. Stock options granted have a strike price and vesting schedules which are at the discretion of the Board of Directors and determined on the effective date of the grant. The strike price cannot be less than 55% of the market price.

On November 30, 2003, there were 113,883 shares exercisable and 347,225 shares available for grant.

11. Future Application of Accounting Standards

In January 2003, the Financial Accounting Standards Board (FASB) issued Interpretation No. 46, "Consolidation of Variable Interest Entities." Interpretation No. 46 requires unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse the risks and rewards of ownership among their owners and other parties involved. The provisions of interpretation No. 46 are applicable immediately to all variable interest entities created after January 31, 2003 and variable interest entities in which an enterprise obtains an interest after that date, and for variable interest entities created before that date, the provisions are effective for reporting periods beginning after December 31, 2003. The adoption of Interpretation No. 46 is not expected to have a material effect on the financial condition, results of operations, or liquidity of the Company.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

LIQUIDITY AND CAPITAL RESOURCES:

Working capital decreased to \$74.9 million at November 30, 2003, down from \$79.5 million at August 31, 2003. As of November 30, 2003, the Company had cash and cash investments of \$7.2 million compared to \$16.4 million at August 31, 2003. Marketable securities increased to \$44.7 million from \$38.8 million during the same period. The ratio of current assets to current liabilities increased to 10.72 to 1 at November 30, 2003 up from 8.41 to 1 at August 31, 2003. Total assets decreased by \$6.2 million to \$206.5 million at November 30, 2003, compared to \$212.7 million at August 31, 2003.

Management expects several real estate transactions to close in fiscal 2004. Additionally, Management believes that the Company will be able to meet its working capital requirements for the foreseeable future with internally generated funds. In addition, the Company has credit commitments which provide for revolving credit of up to \$54.0 million, of which \$10.7 million was available for the Company's general use at November 30, 2003 (see Note 6 to condensed consolidated financial statements).

RESULTS OF OPERATIONS:

The basic business of the Company is agriculture, which is of a seasonal nature and is subject to the influence of natural phenomena and wide price fluctuations. The results of operations for the stated periods are not necessarily indicative of results to be expected for the full year.

Net income for the three months ending November 30, 2003 decreased by \$209 thousand when compared to the first quarter of the prior year. This was primarily due to a decrease in profit from bulk real estate sales for the quarter ended November 30, 2003 when compared to the quarter ended November 30, 2002. No bulk real estate sales occurred in the first quarter of fiscal 2004, while a profit of \$451 thousand was earned from bulk real estate sales during the first quarter of fiscal 2003.

Income from operations increased to \$33 thousand for the first quarter of fiscal 2004 from \$19 thousand for the first quarter of fiscal 2003. The increase was primarily due to an increase in income from rock and sand product sales. Income from agricultural operations decreased when compared to the first quarter of fiscal 2003 (\$308 thousand vs. \$469 thousand for the first three months of fiscal 2004 and 2003, respectively). For a detailed discussion of agricult

Citrus

The Citrus division recorded a loss of \$900 thousand for the first quarter of fiscal 2004, compared to \$41 thousand profit during the first quarter of fiscal 2003. Recognition of revenue from the prior year's crop totaled \$174 thousand in fiscal 2003 vs. \$193 thousand in the first quarter of fiscal 2003 (see Note 1 to Condensed Consolidated Financial Statements). The current

Edgar Filing: ALICO INC - Form 10-Q/A

year Florida orange crop has been forecasted to be the largest on record. Accordingly, citrus prices have declined **(\$4.28 vs. \$4.91 average price perbox at November 30, 2003)** recorded a valuation allowance of \$722 thousand for its unharvested fruit crop on trees at November 30, 2003.

12

Sugarcane

Sugarcane earnings were \$484 thousand for the first quarter of fiscal 2004, compared to \$524 thousand during the first quarter of fiscal 2003. Less acres were harvested during the first quarter of fiscal 2004 than the first quarter of fiscal 2003 **(2,904 vs. 3,263 acres harvested for the first quarter of fiscal 2004 and 2003, respectively)**.

Ranching

Ranch earnings increased during the first quarter of 2004 when compared to the same period a year ago (\$724 thousand vs. (\$96 thousand) for the three months ended November 30, 2003 and 2002, respectively). The number of cattle sold increased by 28% during the first quarter of fiscal 2004 compared to the same period in 2003 **(3,395 vs. 2,658 for the first quarter of fiscal 2004 and 2003, respectively)**.

During December 2003, a cow in Washington State tested positive for bovine spongiform encephalopathy (BSE a/k/a "mad cow disease"). This has caused some foreign countries to ban beef imports from the United States. Although there have been price declines since the BSE discovery, the incident appears to be isolated and beef prices are still currently at prior year levels. The Company has no reason to believe its beef herd is subject to any risk from this disease.

General Corporate

The Company is continuing its marketing and permitting activities for its land which surrounds Florida Gulf Coast University in Lee County, Florida. There are sales contracts in place for all this property, totaling \$171.8 million. The agreements are at various stages in the due diligence process with closing dates expected over the next three years.

The Company formed Agri-Insurance Company, Ltd. (Agri) a wholly owned subsidiary, during July of 2000. The insurance company was initially capitalized by transferring cash and approximately 3,000 acres of the Lee County property. Through Agri, the Company has been able to underwrite previously uninsurable risk related to catastrophic crop and other losses. The coverages currently underwritten by Agri will indemnify insureds for the loss of the revenue stream resulting from a catastrophic event that would cause a grove to be replanted. To expedite the creation of the capital liquidity necessary to underwrite the Company's exposure to catastrophic losses, another 5,600 acres were transferred during fiscal 2001. Agri underwrote a limited amount of coverage for Ben Hill Griffin, Inc. during fiscal years 2001 - 2004, and in August 2002, Agri began insuring the Alico, Inc.,

citrus groves. As Agri gains underwriting experience and increases its liquidity, it will be able to increase its insurance programs. Due to Agri's limited operating history, it would be difficult, if not impossible, to speculate about the impact that Agri could have on the Company's financial position, results of operations and liquidity in future periods. Since the coverages that have been written, as liquidity has been generated, are

primarily for the benefit of Alico, the financial substance of this venture is to insure risk that is inherent in the Company's existing operations.

During the third quarter of fiscal 2003, the Company entered into a limited partnership with Agri to manage Agri's real estate holdings. Agri transferred all of the Lee County property and associated sales contracts to the limited partnership, Alico-Agri, Ltd (Alico-Agri) in return for a 99% partnership interest. Alico, Inc. transferred \$1.2 million cash for a 1% interest. The creation of the partnership allows Agri to concentrate solely on insurance matters while utilizing Alico's knowledge of real estate management. The partnership will pay Alico a management fee for real estate management and administrative services.

During the second quarter of fiscal 2003, Agri contracted to sell an additional 53 acres in Lee County, Florida to the Ginn Company. The contract price is \$10.6 million. Agri also announced an addition to the original Ginn Company contract, adding 555 acres for a price of \$13.3 million. This amendment brought the total acreage of the contract to 5,060.

In the fourth quarter of fiscal 2003, the Company, through Alico-Agri, completed the sale of 313 acres in Lee County, Florida to Airport Interstate Associates, LLC. The sales price was \$9.7 million and resulted in a gain of \$8.7 million. Additionally, Alico-Agri completed the sale of 40 acres in Lee County, Florida to University Club Apartments/Gulf Coast, LLC. The sales price of the property was \$5.5 million and generated a gain of \$4.7 million.

During the fourth quarter of fiscal 2003, the Company sold 358 acres in Hendry County, Florida for \$669 thousand. The sale generated a gain of \$335 thousand. Additionally, the Company sold 266 acres in Polk County, Florida for \$617 thousand, generating a gain of \$612 thousand.

During the second quarter of fiscal 2004, the Company, through Alico-Agri, completed the sale of 244 acres in Lee County, Florida. The sales price was \$30.9 million and will result in a gain of \$18.2 million, of which \$2.1 million will be recorded in the second quarter of fiscal 2004, while the remainder is expected to be recognized by August 31, 2004.

Critical Accounting Policies and Estimates

The preparation of the Company's financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. On an on-going basis, management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. Management believes that the estimates and assumptions are reasonable in the circumstances; however, actual results may vary from these estimates and assumptions under different future circumstances. The following critical accounting policies that affect the more significant judgments and estimates used in the preparation of our consolidated financial statements are discussed below.

Alico records inventory at the lower of cost or market. Management regularly assesses estimated inventory valuations based on current and forecasted usage of the related commodity and any other relevant factors that affect the net realizable value.

Based on fruit buyers' and processors' advances to growers, stated cash and futures markets combined experience in the industry, management reviews the reasonableness of the citrus revenue accrual. Adjustments are made throughout the year to these estimates as relevant information regarding the citrus market becomes available. Fluctuation in the market prices for citrus fruit has caused the Company to recognize additional revenue from the prior year's crop totaling \$174 thousand during fiscal 2004 and \$193 thousand in fiscal 2003.

In accordance with Statement of Position 85-3 "Accounting by Agricultural Producers and Agricultural Cooperatives", the cost of growing crops (citrus and sugarcane) are capitalized into inventory until the time of harvest. Once a given crop is harvested, the related inventoried costs are recognized as cost of sales to provide an appropriate matching of costs incurred with the related revenue earned. The inventoried cost of each crop is then compared with the estimated net realizable value (NRV) of the crop and any costs in excess of the NRV are immediately recognized as cost of sales.
