FRANKLIN ELECTRIC CO., INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated balance sheet as of January 1, 2011, which has been derived from audited financial statements, and the unaudited interim condensed consolidated financial statements as of April 2, 2011 and for the first quarters ended April 2, 2011 and April 3, 2010, have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations. In the opinion of management, all accounting entries and adjustments (including normal, recurring accruals) considered necessary for a fair presentation of the financial position and the results of operation for the interim period have been made. Operating results for the first quarter ended April 2, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2011. For further information, including a description of the Company's critical accounting policies, refer to the consolidated financial statements and notes thereto included in Franklin Electric Co., Inc.'s Annual Report on Form 10-K for the year ended January 1, 2011.

2. SIGNIFICANT ACCOUNTING POLICIES

During the three fiscal months ended April 2, 2011, the Company did not change any of its existing accounting policies with the exception of the following accounting principle, which was adopted and became effective with respect to the Company on January 2, 2011.

Effective January 2, 2011, the Company elected to change its accounting method of valuing all of its inventories that used the last-in, first-out ("LIFO") method to the first-in, first-out ("FIFO") method. Inventories valued using the LIFO and FIFO methods represented approximately 11% and 85%, respectively, of total inventories as of January 1, 2011 with the remaining inventory recorded using the average cost method. The Company believes the change is preferable because it will (1) more closely reflect current acquisition cost and improve the matching of revenue and expense, (2) conform 96% of the Company's method of inventory valuation to the FIFO method and (3) enhance comparability with industry peers. The Company applied this change in accounting principle retrospectively to all prior periods presented herein in accordance with ASC250, Accounting Changes and Error Corrections. As a result of the accounting change, retained earnings as of January 2, 2010 increased from \$285.5 million to \$294.1 million. As of January 2, 2011, the Company converted all LIFO inventory balances in its accounting systems to FIFO inventory which effectively eliminated its LIFO pools prospectively. As a result of the conversion described above it is necessary to estimate the effect of the change in accounting method on the current period.

As a result of the retrospective application of this change in accounting principle, certain financial statement line items in the Company's condensed consolidated balance sheet as of January 1, 2011 and its condensed consolidated statement of income and statement of cash flows for the three months ended April 3, 2010 were adjusted as presented below:

Condensed Consolidated Statement of Income

First Quarter Ended April 3, 2010

(In thousands, except per share amounts)	As		
	Originally	Effect of	
	Reported	As Adjusted	Change
Cost of sales	\$ 109,556	\$ 109,388	\$(168)
Operating income	12,385	12,553	168
Income taxes	702	757	55
Net income	7,437	7,550	113
Net income attributable to Franklin Electric Co., Inc.	7,213	7,326	113
Income per share:			
Basic	\$0.31	\$0.32	\$0.01
Diluted	\$0.31	\$0.31	\$-

Condensed Consolidated Balance Sheet

Year Ended January 1, 2011

(In thousands)	As		
	Originally	Effect of	
	Reported	As Adjusted	Change
Inventories	\$ 126,007	\$ 140,232	\$ 14,225
Deferred income taxes	18,762	\$ 13,182	\$(5,580)
Retained earnings	305,260	\$ 313,905	\$ 8,645

Condensed Consolidated Statement of Cash Flows

First Quarter Ended April 3, 2010

(In thousands)	As		
	Originally	Effect of	
	Reported	As Adjusted	Change
Net income	\$ 7,437	\$ 7,550	113
Changes in assets and liabilities:			
Inventories	(7,852)	(8,020)	(168)
Income taxes	(2,385)	(2,330)	55

The estimated impact of this change on the condensed consolidated statements of income as computed under LIFO for the three months ended April 2, 2011 would be an increase in cost of sales of \$0.4 million, a decrease in operating income of \$0.4 million, a decrease in income taxes of \$0.1 million, a decrease in net income of \$0.3 million, a decrease in net income attributable to Franklin Electric Co., Inc. of \$0.3 million, and a decrease in both basic and diluted income per share of \$0.01.

The estimated impact of this change to the condensed consolidated balance sheet as computed under LIFO as of April 2, 2011 would be a decrease in inventories of \$14.6 million, an increase in deferred income tax of \$5.7 million, and a decrease to retained earnings of \$8.9 million.

The estimated impact to the condensed consolidated statement of cash flows for the three months ended April 2, 2011 would be a reduction of cash provided by net income of \$0.3 million offset by a \$0.4 million source of cash from the reduction in inventory and a \$0.1 million use of cash from the reduction in income tax. There would be no impact to net cash flows from operating activities in the three months ended April 2, 2011.

- 9 -

3. REDEEMABLE NONCONTROLLING INTEREST

In the first quarter of 2009, the Company completed the acquisition of 75 percent of Vertical S.p.A. The 25 percent noncontrolling interest was recorded at fair value as of the acquisition date. The noncontrolling interest holders have the option, which is embedded in the noncontrolling interest, to require the Company to redeem their ownership interests between November 17, 2013 and January 16, 2014. The combination of a noncontrolling interest and a redemption feature resulted in a redeemable noncontrolling interest.

The noncontrolling interest is redeemable at other than fair value as the redemption value is determined based on a specified formula. The noncontrolling interest becomes redeemable after the passage of time, and therefore the Company records the carrying amount of the noncontrolling interest at the greater of (1) the initial carrying amount, increased or decreased for the noncontrolling interest's share of net income or loss and its share of other comprehensive income or loss and dividends ("carrying amount") or (2) the redemption value which is determined based on the greater of the redemption floor value or the then-current specified earnings multiple. As of April 2, 2011, the redeemable noncontrolling interest is recorded at the redemption value.

According to the authoritative accounting guidance for redeemable noncontrolling interests issued in the form of common securities, to the extent that the noncontrolling interest holder has a contractual right to receive an amount upon share redemption that is other than the fair value of such shares, then the noncontrolling interest holder has, in substance, received a dividend distribution that is different from other common shareholders. Therefore, adjustments to the noncontrolling interest to reflect the redemption amount should be reflected in the computation of earnings per share using the two-class method. Under the two-class method, the Company has elected to treat as a dividend only the portion of the periodic redemption value adjustment (if any) that reflects a redemption value in excess of fair value. The Company adjusted the recorded amount of the redeemable noncontrolling interest by \$0.1 million in the first quarter ended April 2, 2011. There was no adjustment necessary in first quarter 2010. A resulting adjustment to the earnings per share computation was necessary in first quarter 2011 (see Note 11 EARNINGS PER SHARE).

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 825, Financial Instruments, provides a framework for measuring fair value under generally accepted accounting principles. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Disclosures about instruments measured at fair value were expanded and a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value was established. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Quoted prices for identical assets and liabilities in active markets;

Level 2 – Quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company designates the cash equivalents as Level 1, as they are Money Market accounts backed by Treasury Bills and the derivative assets as Level 2 as they are model derived valuations in which the significant inputs and

drivers are in observable markets. The Company used forward contract rates to determine fair value of the derivative assets. As of April 2, 2011, and January 1, 2011, our assets measured at fair value on a recurring basis were as follows:

- 10 -

(In millions)	April 2, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash equivalents	\$22.0	\$22.0	\$-	\$ -
Derivative assets	0.6	-	0.6	-
	\$22.6	\$22.0	\$0.6	\$ -

(In millions)	January 1, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash equivalents	\$20.0	\$20.0	\$-	\$ -

The Company's derivative assets consist of foreign currency forward contracts. The value is based on observable market inputs including forward and spot exchange rates for currencies. The contracts are marked-to-market with the resulting adjustment included in "Other current assets" on the condensed consolidated balance sheets and the "Foreign exchange income/(expense)" line of the condensed consolidated statements of income. The contracts were initiated to favorably position the Company's foreign operations for future possible capital investments.

The following table summarizes information regarding the Company's non-financial assets measured at fair value on a nonrecurring basis:

(In millions)	April 2, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Recognized Loss
Assets held for sale	\$2.2	\$-	\$-	\$ 2.2	\$2.5

(In millions)	January 1, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Recognized Loss
Assets held for sale	\$2.3	\$-	\$-	\$ 2.3	\$2.4

During the second quarter of 2010, the Company recorded the impairment as a restructuring expense on property, plant, and equipment relating to the Siloam Springs facility which is classified as held for sale. The fair value was based on appraised values and management estimates less costs to sell.

5. EQUITY INVESTMENTS

The Company holds a 35 percent equity interest in Pioneer Pump, Inc., which is accounted for using the equity method and included in "Other assets" on the consolidated balance sheet. The carrying amount of the investment is adjusted for the Company's proportionate share of earnings, losses, and dividends. The carrying value of the investment was \$9.3 million as of April 2, 2011 and \$8.8 million as of January 1, 2011. The Company's proportionate share of Pioneer Pump, Inc. earnings, included in "Other income/(expense)" in the Company's statements of income, was \$0.5 million and \$0.2 million for the first quarter ended April 2, 2011 and April 3, 2010, respectively.

6. INTANGIBLE ASSETS AND GOODWILL

The carrying amounts of the Company's intangible assets are as follows:

(In millions)	April 2, 2011		January 1, 2011	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Amortized intangibles:				
Patents	\$8.0	\$(5.0)	\$7.9	\$(4.8)
Supply agreements	4.3	(4.1)	4.4	(3.9)
Technology	7.5	(2.3)	7.5	(2.2)
Customer relationships	71.7	(14.1)	70.7	(13.1)
Other	1.2	(1.2)	1.1	(1.1)
Total	92.7	(26.7)	91.6	(25.1)
Unamortized intangibles:				
Trade names	22.8	-	22.5	-
Total intangibles	\$115.5	\$(26.7)	\$114.1	\$(25.1)

Amortization expense related to intangible assets for first quarter ended April 2, 2011 and April 3, 2010 was \$1.2 million and \$1.3 million, respectively.

Amortization expense is projected as follows:

(In millions)	2011	2012	2013	2014	2015
	\$5.3	\$4.8	\$4.6	\$4.6	\$4.6

The change in the carrying amount of goodwill by reporting segment for the first quarter ended April 2, 2011, are as follows:

(In millions)	Water Systems	Fueling Systems	Consolidated
Balance as of January 1, 2011	\$107.0	\$58.2	\$165.2
Adjustments to prior year acquisitions	-	0.3	0.3
Foreign currency translation	2.0	0.1	2.1
Balance as of April 2, 2011	\$109.0	\$58.6	\$167.6

The 2006 purchase agreement for Healy Systems, Inc. provides for additional payments of 5 percent of certain Healy Systems, Inc. product sales through 2011. Adjustments to prior year acquisitions primarily include those contingency commitments to the former owners of Healy Systems, Inc.

7. EMPLOYEE BENEFIT PLANS

Defined Benefit Plans – As of April 2, 2011, the Company maintained three domestic pension plans and three German pension plans. The Company uses a December 31 measurement date for its plans.

The following table sets forth aggregated net periodic benefit cost and other benefit cost for the first quarter ended April 2, 2011 and April 3, 2010:

(In millions)	Pension Benefits		Other Benefits	
	First Quarter Ended		First Quarter Ended	
	April 2, 2011	April 3, 2010	April 2, 2011	April 3, 2010
Service cost	\$0.9	\$0.8	\$-	\$-
Interest cost	2.6	2.3	0.2	0.2
Expected return on assets	(3.2)	(2.6)	-	-
Loss	1.0	0.5	-	-
Prior service cost	-	0.1	-	-
Obligation	-	-	0.1	-
Settlement cost	-	0.4	-	-
Curtailement cost	-	0.9	-	0.2
Total net periodic benefit cost	\$1.3	\$2.4	\$0.3	\$0.4

Through April 2, 2011, the Company made contributions to the plans of \$10.6 million. The amount of contributions to be made to the Plans during calendar year 2011 will be finalized by September 15, 2011 based upon the desired funding level to be achieved as of the January 1, 2011 valuation.

8. INCOME TAXES

The effective tax rate on income before income taxes in 2011 and 2010 varies from the United States statutory rate of 35 percent primarily due to the effects of state and foreign income taxes net of federal tax benefits, as well as, changes to the reserve for uncertain tax positions.

9. ACCOUNTING FOR UNCERTAINTY IN INCOME TAXES

As of the beginning of fiscal year 2011, the Company had gross unrecognized tax benefits of \$3.6 million, excluding accrued interest and penalties. The unrecognized tax benefits recorded for state income tax liabilities and for federal tax liabilities were less than \$0.1 million based on evaluations during the first quarter of 2011. The Company had gross unrecognized tax benefits, excluding accrued interest and penalties, of \$3.6 million as of April 2, 2011. Of the unrecognized tax benefits, \$1.0 million are related to acquisitions occurring prior to 2011 in which the respective purchase agreements provided for indemnification. The impact of all unrecognized benefits on the effective tax rate, if recognized, would be the net unrecognized tax benefit of \$2.2 million, which is net of the federal benefit for state tax of \$0.4 million and net of interest and penalty.

The Company recognizes interest and penalties related to unrecognized tax benefits as income tax expense. The Company's reserve for interest and penalties as of April 2, 2011 and as of January 1, 2011 was approximately \$0.4 million and \$0.4 million, respectively. Interest and penalties recorded through the first quarter of 2011 were not considered significant.

The Company is subject to periodic audits by domestic and foreign tax authorities. Currently, the Company is undergoing routine periodic audits in both domestic and foreign tax jurisdictions. It is reasonably possible that the

amounts of unrecognized tax benefits could change in the next 12 months as a result of the audits.

For the majority of tax jurisdictions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2007.

10. DEBT

Debt consisted of the following:

(In millions)

	April 2, 2011	January 1, 2011
Prudential Agreement - 5.79 percent	\$150.0	\$150.0
Capital leases	0.7	0.7
Other debt	1.7	1.8
	152.4	152.5
Less current maturities	(1.2)	(1.3)
Long-term debt	\$151.2	\$151.2

The estimated fair value of long term debt was \$162.5 million and \$162.0 million at April 2, 2011 and January 1, 2011, respectively. In the absence of quoted prices in active markets considerable judgment is required in developing estimates of fair value. Estimates are not necessarily indicative of the amounts the Company could realize in a current market transaction. In determining the fair value of its long term debt the Company uses estimates based on rates currently available to the Company for debt with similar terms and remaining maturities.

The following debt payments are expected to be paid in accordance with the following schedule:

(In millions)

	Total	Year 1	Year 2	Year 3	Year 4	Year 5	More than 5 years
Debt	\$151.7	\$0.7	\$0.4	\$0.2	\$0.2	\$30.2	\$120.0
Capital leases	0.7	0.5	0.2	-	-	-	-
	\$152.4	\$1.2	\$0.6	\$0.2	\$0.2	\$30.2	\$120.0

11. EARNINGS PER SHARE

Following is the computation of basic and diluted earnings per share:

	First Quarter Ended	
	April 2, 2011	April 3, 2010
(In millions, except per share amounts)		As Adjusted (Note 2)
Numerator:		
Net income attributable to Franklin Electric Co., Inc.	\$10.7	\$7.3
Less: Undistributed earnings allocated to redeemable non-controlling interest	0.1	-
	\$10.6	\$7.3
Denominator:		
Basic		
Weighted average common shares	23.2	23.1
Diluted		
Effect of dilutive securities:		
Employee and director incentive stock options and awards	0.5	0.3
Adjusted weighted average common shares	23.7	23.4

Edgar Filing: FRANKLIN ELECTRIC CO INC - Form 10-Q

Basic earnings per share	\$0.46	\$0.32
Diluted earnings per share	\$0.45	\$0.31
Anti-dilutive stock options	0.2	1.0
Anti-dilutive stock options price range – low	\$43.43	\$28.82
Anti-dilutive stock options price range – high	\$48.87	\$48.87

- 14 -

12. EQUITY ROLL FORWARD

The schedule below sets forth equity changes in the three months ended April 2, 2011:

(In thousands)

Description	Common	Additional Paid in Capital	Retained Earnings	Minimum Pension Liability	Cumulative Translation Adjustment	Non-controlling Interest	Total Equity	Redeemable Non-controlling Interest
Balance as of January 1, 2011 As Adjusted (Note 2)	\$2,326	\$ 129,705	\$313,905	\$(38,485)	\$ 19,043	\$ 2,055	\$428,549	\$ 7,291
Net Income			10,679			139	10,818	84
Noncontrolling interest accretion			(99)				(99)	99
Dividends on common stock			(3,024)				(3,024)	
Common stock issued	4	1,078					1,082	
Common stock repurchased or received for stock options exercised	(10)		(4,058)				(4,068)	
Share-based compensation	7	1,167					1,174	
Tax benefit of stock options exercised		104					104	
Currency translation adjustment					9,657	460	10,117	410
Pension liability, net of taxes				552			552	
Balance as of April 2, 2011	\$2,327	\$ 132,054	\$317,403	\$(37,933)	\$ 28,700	\$ 2,654	\$445,205	\$ 7,884

13. OTHER COMPREHENSIVE INCOME

Comprehensive income is as follows:

	First Quarter Ended April 2, 2011	April 3, 2010 As Adjusted (Note 2)
(In millions)		
Net income	\$10.9	\$7.6
Other comprehensive income, net of tax:		
Foreign currency translation adjustments	10.5	(4.3)
Pension liability adjustment	0.6	0.4
Total other comprehensive income	22.0	3.7
Less: comprehensive income attributable to noncontrolling interest	(1.1)	(0.2)
Comprehensive income attributable to Franklin Electric Co., Inc.	\$20.9	\$3.5

14. SEGMENT INFORMATION

Financial information by reportable business segment is included in the following summary:

(In millions)

	First Quarter Ended	
	April 2, 2011	April 3, 2010
	Net sales to external customers	
Water Systems	\$147.2	\$134.2
Fueling Systems	38.1	25.8
Other	-	-
Consolidated	\$185.3	\$160.0
	First Quarter Ended	
	April 2, 2011	April 3, 2010
	As	
	April 2, 2011	Adjusted (Note 2)
	Operating income (loss)	
Water Systems	\$21.5	\$17.3
Fueling Systems	5.3	4.4
Other	(10.8)	(9.1)
Consolidated	\$16.0	\$12.6
	January 1, 2011	
	As	
	April 2, 2011	Adjusted (Note 2)
	Total assets	
Water Systems	\$502.1	\$458.9
Fueling Systems	225.5	221.1
Other	72.3	108.6
Consolidated	\$799.9	\$788.6

Cash is the major asset group in "Other" of total assets. Prior year presentation has been reclassified to conform to current year segment presentation.

15. CONTINGENCIES AND COMMITMENTS

In August 2010, the California Air Resources Board ("CARB") filed a civil complaint in the Los Angeles Superior Court against the Company and Franklin Fueling Systems, Inc. (a wholly-owned subsidiary of the Company). The complaint relates to a third-party-supplied component part of the Company's Healy 900 Series nozzle, which is part of the Company's Enhanced Vapor Recovery ("EVR") Systems installed in California gasoline filling stations. This part, a diaphragm, was the subject of a retrofit during the first half of 2008. As the Company has previously reported, in October 2008 CARB issued a Notice of Violation to the Company alleging that the circumstances leading to the retrofit program violated California statutes and regulations. The Company and CARB have worked since 2008 to

resolve the diaphragm matter without court action, but were unable to reach agreement.

The claims in the complaint mirror those that CARB presented to the Company in the Notice of Violation, and include claims that the Company negligently and intentionally sold nozzles with a modified diaphragm without required CARB certification. The Company believes that, throughout the period to which the complaint relates, it acted in full cooperation with CARB and in the best interests of CARB's vapor emissions control program. Although the complaint seeks penalties of at least \$25.0 million, it is the Company's position that there is no reasonable basis for penalties of this amount.

- 16 -

In addition, as the Company has previously reported, the Sacramento Metropolitan Air Quality Management District (“SMAQMD”) issued a Notice of Violation to the Company concerning the diaphragm matter in March 2008. Discussions with that agency about the circumstances leading to the retrofit in its jurisdiction and the resolution of the agency’s concerns did not result in agreement, and in November 2010 SMAQMD filed a civil complaint in the Sacramento Superior Court, mirroring the claims brought by CARB with respect to the diaphragm issue and also alleging violation of SMAQMD rules. SMAQMD’s suit asks for at least \$5.0 million in penalties for the violations claimed in its jurisdiction.

In July 2010, the Company entered into a tolling agreement with the South Coast Air Quality Management District (“SCAQMD”) and began discussions with that agency about the circumstances leading to the retrofit in its jurisdiction and the resolution of the agency’s concerns. Those discussions did not result in agreement and in December 2010, SCAQMD filed a civil complaint against the Company in Los Angeles Superior Court. The complaint alleges violations of California statutes and regulations, similar to the complaint filed by CARB, as well as violation of SCAQMD rules, and seeks penalties of at least \$12.5 million. The SCAQMD complaint does not allege an intentional violation of any statute, rule, or regulation.

The Company believes that there is no reasonable basis for the amount of penalties claimed in the SMAQMD and SCAQMD suits. The Company has answered the SMAQMD and SCAQMD complaints, as well as the CARB complaint, denying liability and asserting affirmative defenses.

Neither CARB’s filing of its suit nor the air district suits have any effect on CARB’s certification of the Company’s EVR System or any other products of the Company or its subsidiaries, and so do not interfere with continuing sales. CARB has never decertified the Company’s EVR System and does not propose to do so now.

The Company remains willing to discuss these matters and work toward resolving them. The Company cannot predict the ultimate outcome of discussions to resolve these matters or any proceedings with respect to them. Penalties awarded in the CARB or any air district proceedings or payments resulting from a settlement of these matters, depending on the amount, could have a material effect on the Company’s results of operations.

The Company acquired the Healy product line in September 2006 when it purchased Healy Systems, Inc. As previously reported, the Company withheld a portion of the purchase price and the earn-out payments otherwise due to James Healy (the principal former owner of Healy Systems) against its claim for indemnification with respect to the diaphragm matter. Mr. Healy sued the Company in U.S. District Court in New Hampshire, claiming these funds. In December 2010, the Court ruled, after trial, that the Company was not entitled to indemnification for the diaphragm matter. The Court also ruled that Mr. Healy is entitled to prejudgment interest on certain of the withheld funds.

Without prejudicing the Company’s right to appeal the Court’s rulings (which have not yet been reduced to judgment), the Company released the funds withheld on account of the diaphragm matter in January 2011, and in December 2010 recognized a charge of \$1.2 million reflecting attorneys’ fees for Mr. Healy, on which the Court has not yet ruled, and prejudgment interest. The Company is discussing with Mr. Healy a final resolution of their disputes, including Mr. Healy’s indemnification obligations with respect to a separate patent matter, and the parties have agreed to defer further action in the case for a time to allow those discussions to proceed.

On July 31, 2009, Sta-Rite Industries, LLC and Pentair, Inc. filed an action against the Company in the U.S. District Court for the Northern District of Ohio, alleging breach of the parties’ 2004 Settlement Agreement and tortious interference with contract based on the Company’s pricing of submersible electric products and seeking damages in excess of \$10.0 million for each claimant. The Company has denied liability, is defending the case vigorously, and has filed a counterclaim alleging Sta-Rite and Pentair’s breach of the same Settlement Agreement. Discovery has concluded and each side has filed a motion for summary judgment, seeking dismissal of the other’s claims. Those motions are currently pending. The Company cannot predict the ultimate outcome of this litigation, and any

settlement or adjudication of this matter, depending on the amount, could have a material effect on the Company's results of operations.

The Company is defending various other claims and legal actions, including environmental matters, which have arisen in the ordinary course of business. In the opinion of management, based on current knowledge of the facts

- 17 -

and after discussion with counsel, these claims and legal actions can be successfully defended or resolved without a material adverse effect on the Company's financial position, results of operations, and net cash flows.

At April 2, 2011, the Company had \$2.6 million of commitments primarily for the purchase of machinery and equipment and building expansions.

The Company provides warranties on most of its products. The warranty terms vary but are generally two years from date of manufacture or one year from date of installation. In 2007, the Company began offering an extended warranty program to certain Water Systems customers which will provide warranty coverage up to five years from the date of manufacture. Provisions for estimated expenses related to product warranty are made at the time products are sold or when specific warranty issues are identified. These estimates are established using historical information about the nature, frequency, and average cost of warranty claims. The Company actively studies trends of warranty claims and takes action to improve product quality and minimize warranty claims. The Company believes that the warranty reserve is appropriate; however, actual claims incurred could differ from the original estimates, requiring adjustments to the reserve.

The changes in the carrying amount of the warranty accrual, as recorded in "Accrued expenses" in the Company's condensed consolidated balance sheet for the three months ended April 2, 2011, are as follows:

(In millions)

Balance as of January 1, 2011	\$9.4
Accruals related to product warranties	1.6
Reductions for payments made	(1.7)
Balance as of April 2, 2011	9.3

16. SHARE-BASED COMPENSATION

On April 24, 2009, the Amended and Restated Franklin Electric Co., Inc. Stock Plan (the "Stock Plan") was approved by the Company's shareholders. Under the Stock Plan, employees and non-employee directors may be granted stock options or awards. The Stock Plan was amended and restated to, among other things, increase the number of shares available for issuance from 1,300,000 to 2,200,000 shares as follows:

	Authorized Shares
Options	1,600,000
Awards	600,000

The Company currently issues new shares from its common stock balance to satisfy option exercises under the Stock Plan and a similar, prior plan and stock awards under the Stock Plan.

Stock Option Grants

The fair value of each option award for options granted or vesting is estimated on the date of grant using the Black-Scholes option valuation model with a single approach and amortized using a straight-line attribution method over the option's vesting period.

The assumptions used for the Black-Scholes model to determine the fair value of options granted during the first three months ended April 2, 2011 and April 3, 2010 are as follows:

	April 2, 2011	April 3, 2010
Risk-free interest rate	0.05 - 4.84 %	1.61 - 3.20%
Dividend yield	0.65 - 1.23 %	0.65 - 1.72%
Weighted-average dividend yield	1.07 %	0.95 %
Volatility factor	0.355 - 0.434	0.355 - 0.398
Weighted-average volatility	0.432	0.396
Expected term	1.5 years	6.3 years
Forfeiture rate	3.59 %	2.70 %

A summary of the Company's stock option plans activity and related information for the three months ended April 2, 2011 and April 3, 2010 is as follows:

(Shares in thousands)	April 2, 2011		April 3, 2010	
	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price
Stock Options				
Outstanding beginning of period	1,817	\$ 27.95	1,979	\$ 26.80
Granted	113	43.43	155	29.03
Exercised	(38)	28.06	(52)	16.39
Forfeited	-	-	(9)	42.30
Outstanding end of period	1,892	\$ 28.87	2,073	\$ 27.14
Expected to vest after applying forfeiture rate	1,863	\$ 28.90	2,034	\$ 27.23
Vested and exercisable end of period	1,336	\$ 29.83	1,291	\$ 29.41

A summary of the weighted average remaining contractual term and aggregate intrinsic value for the three months ended April 2, 2011 is as follows:

Stock Options	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (000's)
Outstanding end of period	5.65 years	\$33,719
Expected to vest after applying forfeiture rate	5.60 years	\$33,158
Vested and exercisable end of period	4.52 years	\$22,618

There were 112,872 options granted during the first quarter 2011. The total intrinsic value of options exercised during the first quarter ended April 2, 2011 and April 3, 2010 was \$0.6 million and \$0.6 million, respectively. There were no share-based liabilities paid during the first quarter 2011.

As of April 2, 2011, there was \$3.8 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Stock Plan in the form of stock options. That cost is expected to be

recognized over a weighted-average period of 2.02 years.

- 19 -

Stock Awards

A summary of the Company's stock award activity and related information for the three months ended April 2, 2011 and April 3, 2010 is as follows:

(Shares in thousands)	April 2, 2011			April 3, 2010		
		Weighted-Average Grant			Weighted-Average Grant	
	Shares	Date	Fair Value	Shares	Date	Fair Value
Nonvested Stock Awards						
Nonvested at beginning of period	128	\$	31.86	72	\$	40.12
Awarded	68		43.40	88		29.44
Vested	(21)		47.53	(25)		42.59
Forfeited	(1)		29.89	-		-
Nonvested at end of period	174	\$	34.47	135	\$	32.88

As of April 2, 2011, there was \$4.8 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Stock Plan in the form of stock awards. That cost is expected to be recognized over a weighted-average period of 2.79 years.

17. RESTRUCTURING

Phase III of the Global Manufacturing Realignment Program was substantially complete as of the end of 2010; however there were residual asset write-offs and severance incurred in first quarter 2011. All expenses were attributed to the Water Systems segment.

Costs incurred in the first quarter ended April 2, 2011, included in the "Restructuring expense" line of the income statement are as follows:

(In millions)	First Quarter Ended April 2, 2011
Severance and other employee assistance costs	\$0.1
Asset write-off	0.3
Total	\$0.4

As of April 2, 2011 and April 3, 2010, there were zero and \$0.3 million, respectively, in restructuring reserves primarily for severance.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company changed the accounting method by which it values certain inventory from LIFO to FIFO and has adjusted the prior year inventory balances to reflect the change. As a result of the retrospective application of this change in accounting principle, certain financial statement line items in the Company's condensed consolidated balance sheet as of January 1, 2011 and its condensed consolidated statement of income and statement of cash flows for the three months ended April 3, 2010 were adjusted.

OVERVIEW

Sales and earnings for the first quarter of 2011 were up from the same quarter last year. The sales increase was primarily related to the Company's acquisition of PetroTechnik Limited in the third quarter of 2010, as well as sales volume and price increases and the impact of foreign currency translation. The Company's consolidated gross profit was \$60.5 million for the first quarter of 2011, an increase of \$9.9 million or about 20 percent from the first quarter of 2010. The gross profit as a percent of net sales increased 110 basis points to 32.7 percent for the first quarter of 2011 from 31.6 percent for the first quarter of 2010. The gross profit margin improvement was due to lower labor and variable burden costs and leveraging fixed costs on higher sales, partially offset by higher material costs.

RESULTS OF OPERATIONS

Net Sales

Net sales for the first quarter of 2011 were \$185.3 million, an increase of \$25.3 million or 16 percent compared to 2010 first quarter sales of \$160.0 million. The incremental impact of sales from businesses acquired during 2010 was \$10.1 million or about 6 percent. Sales revenue increased by \$4.3 million or about 3 percent in the first quarter of 2011 due to foreign currency translation. The sales change for the first quarter of 2011, excluding acquisitions and foreign currency translation, was an increase of \$10.9 million or about 7 percent.

	Q1 2011	Q1 2010	2011 v 2010
			Net Sales
Water Systems	\$ 147.2	\$ 134.2	\$ 13.0
Fueling Systems	\$ 38.1	\$ 25.8	\$ 12.3
Consolidated	\$ 185.3	\$ 160.0	\$ 25.3

Net Sales-Water Systems

Water Systems sales were \$147.2 million in the first quarter 2011, an increase of \$13.0 million or 10 percent versus the first quarter 2010. All of the Water Systems sales growth was organic. Foreign exchange contributed about \$4.2 million, or 3 percent, to sales in the first quarter of 2011.

Water Systems sales in the U.S. and Canada represented about 38 percent of the Company's consolidated sales during the quarter and increased by 7 percent compared to prior year. U.S. and Canada sales growth was driven by the agricultural market as farmers are investing in irrigation systems to increase yields and capitalize on high crop prices. U.S. and Canada first quarter sales of wastewater pumping systems grew by about 6 percent and residential and light commercial groundwater pumps grew modestly.

Water Systems sales in Europe represented about 10 percent of the Company's consolidated sales during the quarter and grew by 3 percent compared to the prior year. Vertical S.p.A., the stainless steel pump manufacturer in Italy that the Company acquired in 2009, grew by 23 percent compared to the prior year quarter.

Over the past several years the Company has focused on building Water Systems sales and distribution in developing regions. During the first quarter 2011, Water Systems sales in developing regions represented about 33 percent of the Company's consolidated sales and grew by 15 percent compared to the prior year first quarter.

Latin America is the largest Water Systems developing region market representing about 15 percent of the Company's consolidated sales. Water Systems sales in Latin America improved significantly, growing by 19 percent compared to the prior year. Latin America sales growth was widespread across the region with gains of more than 20 percent in Brazil, Mexico, Chile and Argentina.

Water Systems sales in Asia/Pacific represent about 8 percent of the Company's consolidated sales and also grew by 19 percent compared to prior year. The Company has high market shares for groundwater systems throughout the Southeast Asia region and Water Systems sales in this area grew by over 50 percent compared to the prior year, with the Thailand and Indonesia markets being particularly strong.

Water Systems sales in Southern Africa represent about 6 percent of the Company's consolidated sales and declined by about 5 percent during the quarter, primarily attributed to heavy rainfall and a resulting decrease in the demand for agricultural irrigation products.

Water System sales in the Middle East and Northern Africa represent about 4 percent of the Company's consolidated sales. In spite of the political turmoil in portions of this region, sales grew by 27 percent compared to the prior year primarily due to spending on agricultural infrastructure in the Gulf region and in Turkey.

Net Sales-Fueling Systems

Fueling Systems sales worldwide were \$38.1 million, up \$12.3 million or 48 percent for the first quarter of 2011 compared to the same period for 2010. Fueling Systems revenues represented about 20 percent of the Company's

- 21 -

consolidated sales. Excluding the PetroTechnik acquisition, first quarter sales were \$28.0 million and grew by about 9 percent with most of the growth in the U.S. and Canada.

During the first quarter, Fueling Systems global pipe and containment sales increased by 11 percent excluding the PetroTechnik acquisition and by over 150 percent including the acquisition. Fueling Systems global sales of fuel pumping equipment grew by 15 percent during the first quarter. The growth is attributed to gas station owners continuing to convert from suction to pressure pumping technology, which is considered more efficient.

Cost of Sales

Cost of sales as a percent of net sales for the first quarter of 2011 and 2010 was 67.3 percent and 68.4 percent, respectively. Correspondingly, the gross profit margin increased to 32.7 percent from 31.6 percent, a 110 basis point improvement. The gross profit margin improvement was due to lower labor and variable burden costs and leveraging fixed costs on higher sales, partially offset by higher material costs. Direct materials as a percentage of sales increased by 300 basis points compared to the first quarter last year. The Company's consolidated gross profit was \$60.5 million for the first quarter of 2011, up \$9.9 million from the first quarter of 2010.

Selling, General and Administrative ("SG&A")

Selling, general, and administrative (SG&A) expenses increased by \$8.3 million or about 23 percent in the first quarter of 2011 compared to first quarter last year. The first quarter 2010 SG&A was reduced by the \$1.2 million gain on the sale of land and building in South Africa. The PetroTechnik acquisition added \$2.2 million of SG&A expenses in the first quarter of 2011. Other SG&A increases in the first quarter 2011 were about \$1.0 million in global IT expenses related to the integration of prior acquisitions onto the Company's primary ERP system, and \$0.7 million in higher research, development and engineering (RD&E) spending. Marketing and selling expenses of \$1.2 million, including variable sales commissions, were higher in the first quarter of 2011 compared to the first quarter of 2010. Fueling Systems incurred a \$0.7 million expense in the first quarter 2011 that resulted from a revised accrual for claims made by the California Air Resources Board (CARB) and local air districts.

Restructuring Expenses

Restructuring expenses for the first quarter of 2011 were \$0.4 million and reduced diluted earnings per share by approximately \$0.01. Restructuring expenses in the first quarter of 2011 included the additional write-down of assets to market values from the closing of the Siloam Springs, Arkansas manufacturing facility. The Company intends to develop and announce Phase IV of the Global Manufacturing Realignment Program in the second quarter of 2011. Restructuring expenses for the first quarter of 2010 were \$2.2 million and reduced diluted earnings per share by approximately \$0.06. Restructuring expenses last year included pension charges, severance expenses and manufacturing equipment relocation costs and primarily related to the closing of the Siloam Springs facility.

Operating Income

Operating income was \$16.0 million in the first quarter of 2011, up \$3.4 million from \$12.6 million for the first quarter 2010.

	Q1 2011	Q1 2010 As Adjusted (Note 2)	2011 v 2010
		Operating income (loss)	
Water Systems	\$ 21.5	\$ 17.3	\$ 4.2
Fueling Systems	\$ 5.3	\$ 4.4	\$ 0.9
Other	\$ (10.8)	\$ (9.1)	\$ (1.7)
Consolidated	\$ 16.0	\$ 12.6	\$ 3.4

There were a number of specific items in the first quarter of 2011 and 2010 that impacted operating income that were not operational in nature. In 2011 they were as follows:

- In the first quarter 2011, Fueling Systems incurred a \$0.7 million pretax expense as the result of a revised accrual for claims made by the California Air Resources Board (CARB) and local air districts in California.
 - The first quarter of 2011 included \$0.4 million of restructuring charges.

- 22 -

In the first quarter of 2010, there were two such items;

- The first was a pre-tax gain of \$1.2 million recognized as a reduction to SG&A expense on the sale of land and building in South Africa.
- The second was \$2.2 million of restructuring charges.

The Company refers to these items as “non-GAAP adjustments” for purposes of presenting the non-GAAP financial measures of operating income after non-GAAP adjustments and percent operating income after non-GAAP adjustments to net sales. The Company believes this information helps investors understand underlying trends in the Company’s business more easily. The differences between these non-GAAP financial measures and the most comparable GAAP measures are reconciled in the following tables:

Operating Income and Margins

Before and After Non-GAAP Adjustments

(In millions)

	For the First Quarter 2011					
	Water		Fueling		Corporate	Consolidated
Reported Operating Income	\$21.5		\$5.3		\$(10.8)	\$ 16.0

% Operating Income after Non-GAAP Adjustments to Net Sales	13.6	%	17.1	%		8.5 %

Operating Income-Water Systems

Water Systems operating income after non-GAAP adjustments was \$21.9 million in the first quarter 2011, an increase of 20 percent versus the first quarter 2010. Water Systems gross profit margin increased by 150 basis points during the first quarter 2011 as flat fixed manufacturing expenses and operating leverage combined to more than offset a 260 basis point increase in raw material costs as a percentage of sales. The first quarter operating income margin after non-GAAP adjustments increased by 130 basis points compared to the first quarter 2010.

Operating Income-Fueling Systems

Fueling Systems operating income after non-GAAP adjustments was \$6.0 million in the first quarter of 2011 compared to \$4.4 million after non-GAAP adjustments in the first quarter 2010. Gross profit margins in the quarter were down 240 basis points due to higher material cost and lower margins on PetroTechnik product sales. The PetroTechnik acquisition added \$2.2 million of SG&A expenses in the quarter.

- 23 -

Operating Income-Other

Operating income- other is composed primarily of unallocated general and administrative expenses. General and administrative expenses were higher due to IT expenses and higher RD&E spending.

Interest Expense

Interest expense for the first quarter of both 2011 and 2010 was \$2.2 million.

Other Income or Expense

Other income or expense was a gain of \$1.6 million in the first quarter of 2011 and a loss of \$2.2 million in the first quarter of 2010. In conjunction with the previously announced Impo acquisition, the Company entered into a forward purchase contract for Turkish Lira for a portion of the estimated acquisition price. The contract was outstanding as of the end of the first quarter 2011 and resulted in a pre-tax gain included in other income of approximately \$0.6 million. Also included in other income for the first quarter of 2011 was income from equity investments of \$0.5 million and interest income of \$0.4 million, primarily derived from the investment of cash balances in short-term U.S. treasury and agency securities.

Included in other income for the first quarter of 2010 was interest income of \$0.3 million, primarily derived from the investment of cash balances in short-term U.S. treasury and agency securities. Also included in other income for the first quarter of 2010 was income from equity investments of \$0.2 million. Other income or expense in the first quarter 2010 also included the reversal of indemnification receivables related to contingent tax liabilities for \$2.7 million related to an acquisition in a prior year. The adjustment for the reversal of the uncertain tax position did not have an impact on net income. The uncertain tax position was originally recorded as a receivable from the sellers pursuant to the terms of the purchase agreement. The receivable and the tax liability related to the uncertain tax position were reversed in the first quarter of 2010 as the statutory limit for audit of the tax return expired. Excluding the reversal of the uncertain tax position, "other income or expense" in the first quarter of 2010 would have been about \$0.5 million income.

Foreign Exchange

Foreign currency-based transactions produced a loss for the first quarter of 2011 of \$0.4 million, primarily due to euro rate changes relative to the U.S. dollar. Foreign currency-based transactions produced a gain in the first quarter of 2010 of \$0.2 million, primarily due to Canadian dollar and euro rate changes relative to the U.S. dollar, partially offset by losses from the Japanese Yen.

Income Taxes

The provision for income taxes in the first quarter of 2011 and 2010 was \$4.1 million and \$0.8 million, respectively. The effective tax rate for the first quarter 2011 was 27 percent. The Company believes this is a reasonable estimate for the balance of 2011. The projected tax rate will continue to be lower than the 2010 rate and the statutory rate primarily due to the indefinite reinvestment of foreign earnings and reduced taxes on foreign and repatriated earnings after the restructuring of certain foreign entities. The Company has the ability to indefinitely reinvest these foreign earnings based on the earnings and cash projections of its other operations as well as cash on hand and available credit. The effective tax rate for the first quarter of 2010 was about 32 percent excluding the impact of the reversal of an uncertain tax position. The Other income/(expense) and Income tax line items on the income statement as reported include the impact of the reversal of a pre-acquisition uncertain tax position for \$2.7 million related to an acquisition in a prior year. Excluding the reversal of the uncertain tax position, Other income/(expense) would have been about \$0.5 million income, and Income taxes would have been about \$3.5 million expense.

Net Income

Net income for the first quarter of 2011 was \$10.9 million compared to 2010 first quarter net income of \$7.5 million. Net income attributable to Franklin Electric Co., Inc. for the first quarter of 2011 was \$10.7 million, or \$0.45 per diluted share, compared to 2010 first quarter net income attributable to Franklin Electric Co., Inc. of \$7.3 million

or \$0.31 per diluted share.

- 24 -

CAPITAL RESOURCES AND LIQUIDITY

The Company's primary sources of liquidity are cash flows from operations and funds available under its committed, unsecured, revolving credit agreement maturing 2011 (the "Agreement") in the amount of \$120.0 million, and its amended and restated uncommitted note purchase and private shelf agreement (the "Prudential Agreement") in the amount of \$200.0 million, with notes issued thereunder beginning to mature in 2015. During 2011, the company plans to renew the Agreement with similar borrowing capacity and with terms and conditions that reflect market conditions at the time of renewal. The Company has no scheduled principal payments on the Prudential Agreement until 2015. As of April 2, 2011 the Company had no amounts outstanding and \$116.8 million of borrowing capacity under the Agreement and \$50.0 million of borrowing capacity under the Prudential Agreement. Amounts available under the Agreement have been reduced by outstanding standby letters of credit. The continued uncertainty in the financial and credit markets has not impacted the liquidity of the Company and the Company expects that ongoing requirements for operations, capital expenditures, dividends, and debt service will be adequately funded from its existing credit agreements. The Agreement and the Prudential Agreement do not contain any material adverse change or similar provisions that would accelerate the maturity of amounts drawn under either agreement. The Agreement and Prudential Agreement contain various customary conditions and covenants, which limit, among other things, borrowings, interest coverage, loans or advances and investments. The Company's main financial covenants include an interest coverage ratio and a leverage ratio. As of April 2, 2011, the Company was in compliance with all covenants.

The Company entered into two forward purchase contracts for foreign currency. The contracts were initiated to favorably position the Company's foreign operations for future possible capital investments. The contracts were outstanding as of the end of the first quarter 2011.

Net cash outflows from operating activities were \$31.1 million in the three months ended April 2, 2011 compared to cash outflows of \$12.6 million in the three months ended April 3, 2010. Receivables and inventory were a \$40.4 million net use of cash in the first three months of 2011. Accounts payable and accrued expenses were a use of cash of \$0.5 million compared to a source of cash of \$17.2 in the three months ended April 3, 2010.

Net cash used in investing activities was \$3.2 million in the three months ended April 2, 2011 related to purchases of equipment, compared to a \$0.4 million use of cash for the three months ended April 3, 2010.

Net cash used by financing activities of \$5.9 million in the three months ended April 2, 2011 was primarily related to the payment of \$3.0 million in dividends to the Company's common shareholders and the repurchase of 99,000 shares of the Company's common stock for \$4.1 million pursuant to the Stock Redemption Agreement. Net cash used by financing activities of \$2.5 million in the three months ended April 3, 2010 was primarily related to the payment of dividends to the Company's shareholders.

FACTORS THAT MAY AFFECT FUTURE RESULTS

This quarterly report on Form 10-Q contains certain forward-looking information, such as statements about the Company's financial goals, acquisition strategies, financial expectations including anticipated revenue or expense levels, business prospects, market positioning, product development, manufacturing re-alignment, capital expenditures, tax benefits and expenses, and the effect of contingencies or changes in accounting policies. Forward-looking statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "intend," "project," "estimate," "may increase," "may fluctuate," "plan," "goal," "target," "strategy," and similar expressions or conditional verbs such as "may," "will," "should," "would," and "could." While the Company believes that the assumptions underlying such forward-looking statements are reasonable based on present conditions, forward-looking statements made by the Company involve risks and uncertainties and are not guarantees of future performance. Actual results may differ materially from those forward-looking statements as a result of various factors, including general economic and currency conditions, various conditions specific to the Company's business and industry, new housing starts,

weather conditions, market demand, competitive factors, changes in distribution channels, supply constraints, raw material costs, technology factors, litigation, government and regulatory actions, the Company's accounting policies, future trends, and other risks, all as described in the Company's Securities and Exchange Commission filings, included in Part 1, Item 1A of the Company's Annual Report on Form 10K for the fiscal year ended January 1, 2011, and in Exhibit 99.1 thereto. Any forward-looking statements included in this Form 10-Q are based upon information currently available. The Company does not assume any obligation to update any forward-looking information.

- 25 -

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by Rules 13a-15 under the Exchange Act during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In August 2010, the California Air Resources Board ("CARB") filed a civil complaint in the Los Angeles Superior Court against the Company and Franklin Fueling Systems, Inc. (a wholly-owned subsidiary of the Company). The complaint relates to a third-party-supplied component part of the Company's Healy 900 Series nozzle, which is part of the Company's Enhanced Vapor Recovery ("EVR") Systems installed in California gasoline filling stations. This part, a diaphragm, was the subject of a retrofit during the first half of 2008. As the Company has previously reported, in October 2008 CARB issued a Notice of Violation to the Company alleging that the circumstances leading to the retrofit program violated California statutes and regulations. The Company and CARB have worked since 2008 to resolve the diaphragm matter without court action, but were unable to reach agreement.

The claims in the complaint mirror those that CARB presented to the Company in the Notice of Violation, and include claims that the Company negligently and intentionally sold nozzles with a modified diaphragm without required CARB certification. The Company believes that, throughout the period to which the complaint relates, it acted in full cooperation with CARB and in the best interests of CARB's vapor emissions control program. Although the complaint seeks penalties of at least \$25.0 million, it is the Company's position that there is no reasonable basis for penalties of this amount.

In addition, as the Company has previously reported, the Sacramento Metropolitan Air Quality Management District ("SMAQMD") issued a Notice of Violation to the Company concerning the diaphragm matter in March 2008. Discussions with that agency about the circumstances leading to the retrofit in its jurisdiction and the resolution of the agency's concerns did not result in agreement, and in November 2010 SMAQMD filed a civil complaint in the Sacramento Superior Court, mirroring the claims brought by CARB with respect to the diaphragm issue and also alleging violation of SMAQMD rules. SMAQMD's suit asks for at least \$5.0 million in penalties for the violations claimed in its jurisdiction.

In July 2010, the Company entered into a tolling agreement with the South Coast Air Quality Management District ("SCAQMD") and began discussions with that agency about the circumstances leading to the retrofit in its jurisdiction and the resolution of the agency's concerns. Those discussions did not result in agreement and in December 2010, SCAQMD filed a civil complaint against the Company in Los Angeles Superior Court. The complaint alleges violations of California statutes and regulations, similar to the complaint filed by CARB, as well as violation of SCAQMD rules, and seeks penalties of at least \$12.5 million. The SCAQMD complaint does not allege an intentional violation of any statute, rule, or regulation.

The Company believes that there is no reasonable basis for the amount of penalties claimed in the SMAQMD and SCAQMD suits. The Company has answered the SMAQMD and SCAQMD complaints, as well as the CARB

complaint, denying liability and asserting affirmative defenses.

Neither CARB's filing of its suit nor the air district suits have any effect on CARB's certification of the Company's EVR System or any other products of the Company or its subsidiaries, and so do not interfere with continuing sales. CARB has never decertified the Company's EVR System and does not propose to do so now.

- 26 -

The Company remains willing to discuss these matters and work toward resolving them. The Company cannot predict the ultimate outcome of discussions to resolve these matters or any proceedings with respect to them. Penalties awarded in the CARB or any air district proceedings or payments resulting from a settlement of these matters, depending on the amount, could have a material effect on the Company's results of operations.

The Company acquired the Healy product line in September 2006 when it purchased Healy Systems, Inc. As previously reported, the Company withheld a portion of the purchase price and the earn-out payments otherwise due to James Healy (the principal former owner of Healy Systems) against its claim for indemnification with respect to the diaphragm matter. Mr. Healy sued the Company in U.S. District Court in New Hampshire, claiming these funds. In December 2010, the Court ruled, after trial, that the Company was not entitled to indemnification for the diaphragm matter. The Court also ruled that Mr. Healy is entitled to prejudgment interest on certain of the withheld funds.

Without prejudicing the Company's right to appeal the Court's rulings (which have not yet been reduced to judgment), the Company released the funds withheld on account of the diaphragm matter in January 2011, and in December 2010 recognized a charge of \$1.2 million reflecting attorneys' fees for Mr. Healy, on which the Court has not yet ruled, and prejudgment interest. The Company is discussing with Mr. Healy a final resolution of their disputes, including Mr. Healy's indemnification obligations with respect to a separate patent matter, and the parties have agreed to defer further action in the case for a time to allow those discussions to proceed.

On July 31, 2009, Sta-Rite Industries, LLC and Pentair, Inc. filed an action against the Company in the U.S. District Court for the Northern District of Ohio, alleging breach of the parties' 2004 Settlement Agreement and tortious interference with contract based on the Company's pricing of submersible electric products and seeking damages in excess of \$10.0 million for each claimant. The Company has denied liability, is defending the case vigorously, and has filed a counterclaim alleging Sta-Rite and Pentair's breach of the same Settlement Agreement. Discovery has concluded and each side has filed a motion for summary judgment, seeking dismissal of the other's claims. Those motions are currently pending. The Company cannot predict the ultimate outcome of this litigation, and any settlement or adjudication of this matter, depending on the amount, could have a material effect on the Company's results of operations.

ITEM 1A. RISK FACTORS

There were no material changes to the risk factors set forth in Part 1, Item 1A, in the Company's annual report on Form 10-K for the fiscal year ended January 1, 2011. Additional risks and uncertainties, not presently known to the Company or currently deemed immaterial, could negatively impact the Company's results of operations or financial condition in the future.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(c) Issuer Repurchases of Equity Securities

In April 2007, the Company's Board of Directors unanimously approved a resolution to increase the number of shares remaining for repurchase from 628,692 to 2,300,000 shares. There is no expiration date for the plan. During the first quarter of 2011, the Company repurchased 99,000 shares for \$4.1 million. The maximum number of shares that may still be purchased under the Company plan is 1,551,913. All repurchased shares were retired.

The following table shows certain information related to the Company's repurchases of common stock for the three months ended April 2, 2011, under the Company's stock repurchase program.

Period	Total number of shares purchased	Average Price paid per share	Total number of shares purchased as part of publicly announced plan	Maximum number of shares that may yet be purchased
Jan 2. - Feb. 5	-	-	-	1,650,913
Feb. 6 - Mar. 5	-	-	-	1,650,913
Mar. 6 - Apr. 2	99,000	\$40.95	99,000	1,551,913
Total	99,000	\$40.95	99,000	1,551,913

ITEM 6. EXHIBITS

See the Exhibit Index located on page 30.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this quarterly report to be signed on its behalf by the undersigned thereunto duly authorized.
