Item 2.02. Results of Operations and Financial Condition

Attached and being furnished hereby as Exhibit 99.1 is a copy of a press release of International Flavors & Fragrances Inc. ("IFF" or the "Company") dated July 26, 2006 reporting IFF's financial results for the second quarter and six months ended June 30, 2006.

Edgar Filing: INTERNATIONAL FLAVORS & FRAGRANCES INC - Form 8-K

Non-GAAP financial measures: To supplement the Company's financial results presented in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), the Company uses, and has included in the attached press release, certain non-GAAP financial measures. These non-GAAP financial measures should not be considered in isolation, or as a substitute for, or superior to, financial measures calculated in accordance with GAAP. These non-GAAP financial measures as disclosed by the Company may also be calculated differently from similar measures disclosed by other companies. To ease the use and understanding of our supplemental non-GAAP financial measures, the Company includes the most directly comparable GAAP financial measure.

The Company uses the non-GAAP financial measure which excludes restructuring and other charges for preparing financial targets, internal budgets and operating plans, evaluating actual performance against targets and budget, assessing historical performance over reporting periods, assessing management performance and assessing operating performance against other companies. This information has also aided the Company's management and its Board of Directors in decision-making and allocation of resources. A material limitation of this financial measure is that some or all of such special charges represent actual cash outlays and that such measure does not reflect actual GAAP expense. Management compensates for such limitations by clarifying that this measure is only one operating metric used for internal financial analysis and planning purposes and should not be considered in isolation, and by providing the corresponding GAAP financial measure.

The Company also discloses, and management internally monitors, the sales performance of international operations on a basis that eliminates the positive or negative effects that result from translating foreign currency sales into U.S. dollars. Management uses this measure because it believes that it enhances the assessment of the sales performance of its international operations and the comparability between reporting periods.

IFF REPORTS SECOND QUARTER RESULTS

EARNINGS PER SHARE INCREASE 12% ON HIGHER SALES AND LOWER COSTS

REAFFIRMS 2006 GUIDANCE

New York, N.Y., July 26, 2006 ... International Flavors & Fragrances Inc. (NYSE: IFF) ("IFF" or the "Company") reported earnings per share for the second quarter 2006 of \$.67 compared to \$.60 in the prior year quarter, an increase of 12%.

Second quarter 2006 sales totaled \$531 million, increasing 3% over the prior year quarter; fragrance and flavor sales increased 3% and 2%, respectively. Reported sales for the 2006 period were affected by the strength of the U.S. dollar; had exchange rates remained constant, sales would have been one percentage point higher.

Fragrance sales were led by fine fragrance, which increased 9%; much of the growth resulted from new product introductions. Sales of functional fragrances increased 1% while fragrance ingredient sales declined 3%.

The flavor sales performance benefited from new wins as well as from ease of comparison with the prior year quarter, when flavor sales were affected by a vendor-supplied raw material contamination issue, the impact of which approximated \$5.0 million in the 2005 quarter.

"The improvements in sales and costs are very encouraging. The IFF team will continue to focus on customers, innovation and people to drive our growth," said Robert Amen, Chairman and Chief Executive Officer of IFF. "We continue to perform very well in fine fragrances, and in many of the markets we've targeted for growth - notably Eastern Europe, India and Latin America. Near term, our emphasis is on meeting or exceeding our 2006 targets for growth and profitability. The Fine Fragrance team is executing its strategy of building customer brands around the world very well. We need to build on this strength. We are assessing our Company plan and performance to determine what adjustments are needed to accelerate our growth in sales and profitability."

"IFF is an outstanding company that is differentiated by its innovation, strong customer base, quality management team and dedicated employees. I am pleased to have the opportunity to lead IFF through its next stage of growth and look forward to leveraging our strengths as we work to accelerate IFF's value creation."

Second Quarter 2006

Sales performance by region and product category in comparison to the prior year quarter follows:

Total	Reported	9%	1%	-3%	3%	2%
	Local Currency	10%	2%	-2%	4%	3%

- North America fine fragrance and flavor growth was driven mainly by new product introductions while increases in ingredients and functional fragrances were primarily volume related.
- European growth was strongest in Eastern Europe, Africa and the Middle East, collectively increasing 15% over the 2005 quarter; a 2% decline in Western Europe offset this growth. Fine and functional fragrance growth was mainly the result of new product introductions while the decline in ingredients and flavor sales was mainly volume related.
- Latin America fine fragrance sales growth resulted from new product introductions while declines in functional fragrance and ingredients were primarily volume related. Flavor sales were strong throughout the region; this growth was mainly the result of new product introductions.
- Asia Pacific fine and functional fragrance sales growth resulted mainly from new product introductions, while volume declines negatively impacted ingredient sales. Flavor sales growth was mainly the result of new product introductions.
- India fragrance sales performance in all product categories resulted primarily from volume fluctuations while flavor sales increased due to the combined benefit of new product introductions and volume growth.

Net income for the 2006 quarter increased 8% compared with the prior year quarter.

- Gross profit, as a percentage of sales, improved nearly 1% compared to the prior year quarter. The improvement resulted mainly from the local currency sales performance, improved manufacturing expense absorption and favorable product mix. The 2005 margin was unfavorably impacted by costs attributable to the raw material contamination matter.
- Research and Development ("R&D") expenses totaled 8.6% of sales, consistent with the prior year quarter.
- Selling, General and Administrative ("SG&A") expenses, as a percentage of sales, increased to 16.5% from 16.1%, mainly as a result of higher incentive plan accruals and equity compensation expense than the 2005 quarter.
- Interest expense increased 4% from the prior year, primarily due to higher average levels of debt in the quarter and slightly higher interest rates.
- The effective tax rate was 28.0% compared to 30.8% in the prior year quarter; variations in the effective rate are mainly attributable to fluctuations in earnings in the countries in which the Company operates.

First Half 2006

For the six-month period ended June 30, 2006, sales totaled \$1,042 million,

Edgar Filing: INTERNATIONAL FLAVORS & FRAGRANCES INC - Form 8-K

essentially flat with the 2005 period. Reported sales for the 2006 period were affected by the strength of the U.S. dollar; had exchange rates remained constant, sales would have been three percentage points higher.

Sales performance by region and product category in comparison to the prior year period follows:

	Local Currency	9%	1%	-1%	3%	4%	

- North America fine fragrance and flavor growth resulted mainly from new product introductions while the decline in functional fragrances was volume related. Ingredients sales growth was due to a combination of volume and price.
- European growth was strongest in Eastern Europe, Africa and the Middle East, which was offset by an overall sales decline in Western Europe. Fine and functional fragrance growth resulted from new product introductions while the decline in ingredients was volume related, as was the decline in flavor sales.
- Latin America fine fragrance sales growth resulted from new product introductions while increases in functional fragrance and ingredients were primarily volume related. Flavor sales were strong throughout the region, mainly benefiting from new product introductions.
- Asia Pacific fine fragrance sales growth resulted mainly from new product introductions, while volume declines unfavorably impacted functional fragrance and ingredients. Flavor sales growth was mainly the result of new product introductions.
- India fragrance sales performance in all product categories resulted primarily from volume growth while flavor sales increased due to the combined benefit of new product introductions and volume growth.

Outlook for 2006 Reaffirmed

Consistent with prior guidance, IFF currently expects 2006 sales to increase in the low single digits in both local currency and reported dollars, in comparison to 2005.

Edgar Filing: INTERNATIONAL FLAVORS & FRAGRANCES INC - Form 8-K

Based on the foregoing and consistent with previous guidance, IFF currently expects earnings per share for 2006 to be in the range of \$2.20 to \$2.28.
