**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
(Unaudited)

**1. CONSOLIDATED FINANCIAL STATEMENTS -- BASIS OF PRESENTATION**

The consolidated balance sheet at April 2, 2006, the related consolidated statements of income for the three and nine months ended April 2, 2006 and April 3, 2005, and the consolidated statements of cash flows for the three and nine months ended April 2, 2006 and April 3, 2005, have been prepared by LaBarge, Inc. (the "Company" or "LaBarge") without audit. In the opinion of management, adjustments, all of a normal and recurring nature, necessary to present fairly the financial position and the results of operations and cash flows for the aforementioned periods, have been made. Certain prior-year amounts have been reclassified to conform to the current year's presentation.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in conformity with generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended July 3, 2005.

***Stock-Based Compensation***

As of April 2, 2006, the Company had previously established a number of share incentive programs, which are discussed in more detail in Note 11. Prior to fiscal 2006, the Company applied the intrinsic value-based method as outlined in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25") and related interpretations, in accounting for stock options and share units granted under these programs. Under the intrinsic value-based method, no compensation expense was recognized if the exercise price of the Company's employee stock options were equal to or greater than the market price of the underlying stock on the date of the grant. Accordingly, prior to fiscal year 2006, no compensation cost was recognized in the accompanying consolidated statements of income on stock options granted to employees, since all options granted under the Company's share incentive programs had an exercise price equal to or greater than the market value of the underlying common stock on the date of the grant.

Effective July 4, 2005, the Company adopted Statement of Financial Accounting Standards ("SFAS") "Share-Based Payment" ("SFAS 123R"). This statement replaces SFAS No. 123, "Accounting for Stock-Based Compensation," and supersedes APB No. 25. SFAS No. 123R requires that all stock-based compensation be recognized as an expense in the financial statements and that such cost be measured at the fair value of the award. This statement was adopted using the modified prospective method of application, which requires the Company to recognize compensation expense on a prospective basis. Therefore, prior-period financial statements have not been restated. Under this method, in addition to reflecting compensation expense for new share-based awards, expense is also recognized to reflect the remaining service period of awards that had been included in pro forma disclosures in prior periods. SFAS No. 123R also requires that excess tax benefits related to stock option exercises be reflected as financing cash inflows instead of operating cash inflows.

During the nine months ended April 2, 2006, the Company was notified that shares issued upon the exercise of incentive stock options (ISOs) were sold prior to being held by the employee for 12 months. These disqualifying dispositions resulted in an excess tax benefit for the Company. Since the ISOs were vested prior to adoption of FAS 123R, the entire tax benefit of \$184,000 was charged to additional paid-in capital.

Total stock-based compensation in the third fiscal quarter of 2006 was \$362,000 (\$226,000 after tax), or \$0.01 basic and diluted earnings per share. For the nine months ended April 2, 2006, total stock-based compensation was \$1.2 million (\$755,000 after tax), or \$0.05 basic and diluted earnings per share.

Included in total stock-based compensation expense for the third fiscal quarter of 2006 is \$128,000 (\$80,000 after tax), or \$0.01 basic and diluted earnings per share, attributable to the Company's adoption of SFAS 123R. For the nine months ended April 2, 2006, stock-based compensation attributable to the adoption of SFAS 123R was \$501,000 (\$313,000 after tax), or \$0.02 basic and diluted earnings per share.

As of April 2, 2006, the total unrecognized compensation expense related to nonvested awards, including stock options and performance units, was \$712,000 pretax and the period over which it is expected to be recognized is approximately one year.

The following table illustrates the effect on net income and earnings per share as if SFAS 123R had been applied to all outstanding awards for the three and nine months ended April 2, 2006 and April 3, 2005:

No new stock options were issued in the three- and nine-month periods ended April 2, 2006. On January 11, 2005, the Company awarded performance units tied to fiscal year 2006 financial performance to certain key executives. Compensation expense related to these awards was recognized in the third fiscal quarter of 2006, but no shares are included in the dilutive shares, as the performance condition had not been met at April 2, 2006.

The fair value of stock options granted in the nine-month period ended April 3, 2005 was estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: risk-free interest rate of 3.8%; expected dividend yield of 0%; expected life of six years; and expected volatility of 66.5%.

All stock options outstanding at April 2, 2006 and April 3, 2005 were dilutive and included in the computation of diluted earnings per share. These options expire in various periods through 2014.

As of April 2, 2006, outstanding loans under the revolving credit facility were \$13.1 million. Letters of credit outstanding were \$1.6 million, and \$15.3 million was available. - Interest on both loans is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended April 2, 2006, the average rate was approximately 5.7%.

All stock options outstanding at April 2, 2006 and April 3, 2005 were dilutive for the three and nine months ended on those dates. These options expire in various periods through 2014. The Company has awarded certain key executives performance units tied to the Company's fiscal year 2006 financial performance. The compensation expense related to these awards is recognized quarterly, but no shares are included in the dilutive shares, as the performance condition had not been met at April 2, 2006.

## 11. STOCK PROGRAMS

The Company has established the 1993 Incentive Stock Option Plan, the 1995 Incentive Stock Option Plan, and the 1999 Non-Qualified Stock Option Plan (collectively, the "Plans"). The Plans provide for the issuance of up to 2,200,000 shares to be granted in the form of stock-based awards to key employees of the Company. In addition, pursuant to the 2004 Long Term Incentive Plan ("LTIP"), the Company provides for the issuance of up to 850,000 shares to be granted in the form of stock-based awards to certain key employees and nonemployee directors. The Company may satisfy the awards upon exercise with either new or treasury shares. The Company's stock compensation awards outstanding at April 2, 2006 include stock options, restricted stock and performance units.

Also, the Company has an Employee Stock Purchase Plan ("ESPP") that allows any eligible employee to purchase common stock at the end of each quarter at 15% below the market price as of the first or last day of the quarter, whichever is lower. The Company has always recognized as expense the difference between the price the employee pays and the market price of the stock on the last day of the quarter.

Total stock-based compensation in the third fiscal quarter of 2006 was \$362,000 (\$226,000 after tax), or \$0.01 basic and diluted earnings per share. For the nine months ended April 2, 2006, total stock-based compensation was \$1.2 million (\$755,000 after tax), or \$0.05 basic and diluted earnings per share.

The intrinsic value of a stock option is the amount by which the current market value of the underlying stock exceeds the exercise price of the option.

The total intrinsic value of stock options exercised during the nine months ended April 2, 2006 and April 3, 2005 was \$1.2 million and \$0.4 million, respectively. The exercise period for all stock options generally may not exceed 10 years from the date of grant. Stock option grants to individuals generally become exercisable over a service period of one to five years.

There were no stock options granted in the three or nine months ended April 2, 2006.

### *Performance Units*

The Company made awards under the LTIP in January 2005. The Company's LTIP provides for the issuance of performance units, which will be settled in stock subject to the achievement of the Company's financial goals. Settlement will be made pursuant to a range of opportunities relative to net earnings. No settlement will occur for results below the minimum threshold and additional shares shall be issued if the performance exceeds the targeted goals. The compensation cost of performance units is subject to adjustment based upon the attainability of the target goals.

Upon achievement of the performance goals, restricted shares are awarded in the employee's name but are still subject to a two-year vesting condition. If employment is terminated (other than due to death or disability) prior to the vesting period, the shares are forfeited. Compensation expense is recognized over the performance period plus vesting period. The awards are treated as a liability award during the performance period and as an equity award once the performance targets are settled.

During the three and nine months ended April 2, 2006, the Company issued 57,751 shares of restricted stock, subject to the two-year vesting condition, associated with the fiscal 2005 award. In addition, the Company recorded compensation expense for the awards granted for fiscal 2006.

The Company recorded compensation expense of \$218,000 (\$136,000 after tax) related to the LTIP in the quarter ended April 2, 2006, compared with \$101,000 (\$62,000 after-tax) in the quarter ended April 3, 2005. Compensation expense of \$653,000 (\$408,000 after tax) related to the LTIP was recorded in the nine months ended April 2, 2006, compared with \$101,000 (\$62,000 after tax) in the nine months ended April 3, 2005.

## **12. RELATED PARTY TRANSACTIONS**

During the quarter ended January 2, 2005, a shareholder, holding more than 10% of the Company's outstanding shares, sold shares of LaBarge Common Stock in transactions deemed to be short-swing sales. Under Section 16(b) of the Securities Exchange Act of 1934, the shareholder was required to disgorge to the Company the profits realized from the stock sale in the amount of approximately \$58,000. The Company accounted for the cash receipt as a contribution from a shareholder and reflected the proceeds as an increase to additional paid-in capital in its financial statements. Proceeds from this sale did not affect the Company's condensed consolidated statement of income.

## **13. LITIGATION AND CONTINGENCIES**

In March 2004, the Company received notice from the Library of Congress ("LOC") that the LOC was seeking financial restitution in the amount of \$1.8 million stemming from the Company's production of audiocassette machines during the period 1992 through 1996. The LOC claimed the machines were defective. The Company disputed the LOC's position.

During the quarter ended April 2, 2006, in order to avoid future legal expenses, the Company paid \$50,000 to settle all claims related to this issue, without an admission of liability.

In March 2005, the Company entered into a contract with Northrop Grumman Corporation to supply equipment used on mail sorting machines. The equipment to be manufactured and the services to be performed have undergone hundreds of design and component changes. The Company is attempting to negotiate a settlement of the claims arising from these changes. If this attempt is not successful, the Company will pursue all legal remedies available to it.

## Edgar Filing: LABARGE INC - Form 10-Q

Through April 2, 2006, the Company has delivered units and services with a sales value of \$7.4 million related to the Northrop Grumman contract. Included in the Company's work-in-process balance at April 2, 2006 is approximately \$1.0 million, which would not be recovered at the current contract price. The Company has additional backlog totaling \$5.5 million due to be delivered in the next two quarters. Based on current cost estimates, the Company would have additional costs of \$0.8 million that would not be recovered.

The Company has consulted with legal counsel and believes that it will recover these contract costs.

## Edgar Filing: LABARGE INC - Form 10-Q

The largest contributor to fiscal 2006 third-quarter revenues was shipments to defense customers, representing \$18.2 million of sales, versus \$20.2 million in 2005. During the current year's third quarter, LaBarge provided cables and electronic assemblies for a variety of defense applications, including military aircraft, radar systems and shipboard programs. In addition, shipments of capital equipment to industrial customers represented \$8.9 million of fiscal 2006 third-quarter revenues, compared with \$9.0 million in the year-ago period. Offsetting these decreases was an increase in shipments to government systems customers, which represented \$5.4 million of fiscal 2006 third-quarter revenue, compared with \$1.4 million in the year-ago period. The increase is due to shipments on a large Northrop Grumman postal contract in fiscal year 2006. Also, shipments to natural resource customers were \$9.1 million in the third quarter of fiscal 2006, compared with \$8.3 million in the year ago period.

For the nine months ended April 2, 2006, shipments to defense customers contributed \$54.1 million of total sales, compared with \$62.2 million in the nine months ended April 3, 2005. Sales to industrial customers represented \$23.3 million of revenue for the first nine months of fiscal 2006, compared with \$26.5 million in the first nine months of fiscal 2005. Offsetting these decreases were increases in shipments to natural resource customers, which represented \$29.3 million in the nine months ended April 3, 2006, compared with \$25.3 million in the year-ago period. Also, shipments to government systems customers increased to \$11.3 million of fiscal 2006 third-quarter revenue, compared with \$4.9 million in the year-ago period. This is primarily due to shipments on a large Northrop Grumman postal contract in fiscal year 2006.

Sales to the Company's 10 largest customers represented 70% of total revenue in the third quarter of fiscal 2006, compared with 76% for the same period of fiscal 2005. The Company's top three customers and the portion of total third-quarter fiscal 2006 sales they represented were as follows: Owens-Illinois, Inc., 13%; Northrop Grumman Corp., 12%; and Schlumberger, Ltd., 11%.

The backlog of unshipped orders at April 2, 2006 was \$181.2 million, compared with \$164.9 million at July 3, 2005 and \$152.4 at April 3, 2005. The growth in backlog is the result of a sales and marketing effort that focuses on needs of targeted large customers in a variety of industries. Approximately \$48.9 million of the backlog at the quarter ended April 2, 2006 is scheduled to ship beyond the next 12 months pursuant to the shipment schedules contained in those contracts. This compares with \$32.4 million at fiscal year-end 2005.

The Company's gross profit margin percentage generally runs in a range of 20% to 23%. Gross margins for the three and nine months ended April 2, 2006 were in this range.

Gross profit margins vary significantly from contract to contract. The gross profit margin for any particular quarter will reflect the mix of contracts recognized in revenue for the quarter.

### **Selling and Administrative Expenses**

(dollars in thousands)

	Three Months Ended		Nine Months Ended	
	April 2, 2006	April 3, 2005	April 2, 2006	April 3, 2005

Percent of sales	11.7%	13.3%	12.6%	12.9%

For the quarter ended April 2, 2006, selling and administrative expenses declined, versus the year-ago period as a result of lower performance-based incentive expense in the fiscal 2006 period. This decrease was partially offset by increases in salaried compensation and insurance expense, and the costs attributable to adopting SFAS 123R.

## Edgar Filing: LABARGE INC - Form 10-Q

For the nine months ended April 2, 2006, selling and administrative expenses declined versus the year-ago period as a result of lower performance-based incentive expense, lower legal expenses and lower audit fees. These decreases were partially offset by increases in salaried compensation and the costs attributable to adopting SFAS 123R.

For the three- and nine-month periods ended April 2, 2006, included in selling and administrative expenses were \$128,000 and \$501,000, respectively, attributable to the adoption of SFAS 123R, "Share-Based Payment."

### **Interest Expense**

Interest expense	\$ 554	\$ 426	\$ 1,407	\$ 1,345

Interest expense increased significantly for the three and nine months ended April 2, 2006. The increase is the result of higher average debt levels incurred to fund an increase in inventory and higher interest rates. The average interest rates during the fiscal third quarter was 5.8%, compared with 4.3% in the comparable quarter a year earlier.

### **Other (Income) Other Deductions, Net**

*(dollars in thousands)*

	Three Months Ended		Nine Months Ended	
	April 2, 2006	April 3, 2005	April 2, 2006	April 3, 2005
Other (income) other deductions, net	\$ 17	\$ (228)	\$ (129)	\$ (430)

The decrease in other (income) other deductions for the three months ended April 2, 2006, compared with the same period of fiscal 2005, is primarily attributable to a \$385,000 gain on a lease termination fee and a \$56,000 receipt of death benefit under a life insurance benefit program booked in the quarter ended April 3, 2005. The Company owns its headquarters building and leases a significant portion of the facilities to third parties. This reduction in income was partially offset by the fact that the three months ended April 2, 2006 includes a \$60,000 other than temporary impairment of the Company's investment in Norwood Abbey (see Note 7), while the three months ended April 3, 2005 includes a \$284,000 other than temporary impairment of the Company's investment in Norwood Abbey.

The decrease in other (income) other deductions for the nine months ended April 2, 2006, compared with the same period of fiscal 2005, is primarily attributable to a \$385,000 gain on a lease termination fee and a \$56,000 receipt of death benefit under a life insurance benefit program booked in the quarter ended April 3, 2005. In addition, the Company realized \$30,000 of realized gain on sales of the Norwood Abbey stock. This reduction in income was partially offset by the fact that the nine months ended April 2, 2006 includes a \$60,000 other than temporary impairment of the Company's investment in Norwood Abbey (see Note 7), while the nine months ended April 3, 2005 includes a \$284,000 other than temporary impairment of the Company's investment in Norwood Abbey.

### **Tax Expense from Continuing Operations**

*(dollars in thousands)*

	Three Months Ended		Nine Months Ended	
	April 2, 2006	April 3, 2005	April 2, 2006	April 3, 2005
Tax expense from continuing operations	\$ 1,405	\$ 954	\$ 4,510	\$ 4,125

The effective income tax rate for the three- and nine-month periods ended April 2, 2006 was 38%. For the three- and nine-month periods ended April 3, 2005, the reported income tax rate was 24% and 34%, respectively. The decrease in the tax rate for the three and nine months ended April 3, 2005 reflects the recognition of certain research and experimentation tax credits (\$245,000) and an adjustment to the Company's provision for state income taxes (\$242,000).

### **Financial Condition and Liquidity**

The following table shows LaBarge's equity and total debt positions:

**Senior Lender:**

The Company entered into a senior secured loan agreement with a group of banks on February 17, 2004 that was amended on February 10, 2006, increasing the revolving credit facility by \$10.0 million. The following is a summary of the agreement:

- A revolving credit facility up to \$30.0 million, available for direct borrowings or letters of credit. The facility is based on a borrowing base formula equal to the sum of 85% of eligible receivables and 35% of eligible inventories. As of April 2, 2006, outstanding loans under the revolving credit facility were \$13.1 million. Letters of credit outstanding were \$1.6 million, and \$15.3 million was available. This credit facility matures on February 17, 2009.
- A \$25.0 million term loan amortized beginning May 2004, at a quarterly rate of \$1.0 million, increasing to \$1.25 million in May 2006 and increasing to \$1.5 million in May 2007. Final maturity is February 2009. As of April 2, 2006, the amount outstanding was \$17.0 million.
- On April 15, 2004, the Company entered into an Interest Rate Cap Agreement with a bank. This Cap Agreement caps the Company's exposure to increases in LIBOR at 4% for a period of three years on a notional amount beginning at \$24.0 million and amortizing on a schedule that matches amortization of the \$25.0 million term loan dated February 17, 2004. As a result of this Cap Agreement, for the three- and nine-month periods ended April 2, 2006, interest expense was reduced by \$25,000 and \$32,000, respectively.
- Interest on both loans is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended April 2, 2006, the average rate was approximately 5.7%.
- Both loans are secured by substantially all the assets of the Company other than real estate.
- Covenants and performance criteria consist of Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") in relation to debt, EBITDA in relation to fixed charges and minimum net worth.

**Other Long-term Debt:****Mortgage Loan:**

The Company has a \$6.4 million term loan secured by the Company's headquarters building in St. Louis, Missouri. The loan repayment schedule is based on a 25-year amortization with a final balloon payment due in October 2009. The balance at April 2, 2006 was \$5.5 million. Interest is at a percentage of prime or a stated rate over LIBOR based on certain ratios. For the quarter ended April 2, 2006, the average rate was approximately 5.0%.

**Industrial Revenue Bonds:**

In July 1998, the Company acquired tax-exempt Industrial Revenue Bond financing in the amount of \$1.3 million. The debt is payable over 10 years with an interest rate of 5.28%. This funding was used to expand the Berryville, Arkansas, facility. The outstanding balance at April 2, 2006 was \$0.4 million.

#### ***Off-Balance Sheet Arrangements***

The Company has no off-balance sheet arrangements.

#### ***Critical Accounting Policies***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying consolidated financial statements. In preparing these financial statements, management has made its best estimates and judgment of certain amounts included in the financial statements. The Company believes there is a likelihood that materially different amounts would be reported under different conditions or using different assumptions related to the accounting policies described below. Application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Company's senior management discusses the accounting policies described below with the audit committee of the Company's Board of Directors on a periodic basis.

The following discussion of critical accounting policies is intended to bring to the attention of readers those accounting policies that management believes are critical to the Company's consolidated financial statements and other financial disclosures. It is not intended to be a comprehensive list of all of our significant accounting policies that are more fully described in Note 1 of the Notes to the Consolidated Financial Statements included in our 2005 Annual Report on Form 10-K.

#### ***Revenue Recognition and Cost of Sales***

Revenue is generally recognized on the percentage-of-completion method based upon the units delivered. The percentage-of-completion method gives effect to the most recent contract value and estimates of cost at completion. When appropriate, contract prices are adjusted for increased scope and other changes ordered or caused by the customer. When percentage-of-completion is not appropriate, the Company recognizes revenue when title transfers, which is usually upon shipment. On a very limited number of contracts, at a customers' request, the Company will recognize revenue when ownership passes. As of April 2, 2006 and July 3, 2005, the Company has recognized revenue under these arrangements of \$3.3 million and \$2.0 million, respectively. The Company recognizes revenue for storage and other related services when the services are provided.

Management's estimates of material, labor and overhead costs on long-term contracts are critical to the Company. Since some contracts extend over a long period of time, revisions in cost during the progress of work have the effect of adjusting current period earnings applicable to performance in prior periods. When the current contract cost estimate indicates a loss, provision is made for the total anticipated loss in the period the loss becomes evident.

#### ***Inventories***

Inventories, which consist of materials, labor and manufacturing overhead, are carried at the lower of cost or market value. Inventory that has been held beyond specific time limits is automatically reserved. In addition, management regularly reviews inventory for obsolescence to determine whether any additional write-down is necessary. Various factors are considered in making this determination, including expected program life, recent sales history, predicted trends and market conditions. If actual demand or market conditions are less favorable than those projected by management, additional inventory write-downs may be required. For the quarters ended April 2, 2006 and April 3, 2005, expense for obsolete or slow-moving inventory charged to income before income taxes was \$0.3 million and \$0.2 million, respectively.

#### ***Goodwill and Intangible Assets***

The Company has adopted Statement of Financial Accounting Standard ("SFAS") No. 142 "Goodwill and Other Intangible Assets." Under the provisions of this standard, intangible assets deemed to have indefinite lives and goodwill are not subject to amortization. All other intangible assets are amortized over their estimated useful lives. Goodwill and other intangible assets not subject to amortization are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. This testing requires comparison of carrying values to fair values, and when appropriate, the carrying value of impaired assets is reduced to fair value. During the fourth quarter of 2005, the Company completed its annual impairment test and determined that estimates of fair value are reasonable. Different assumptions regarding such factors as sales levels and price changes, labor and material cost changes, interest rates and productivity could affect such valuations.

***New Accounting Pronouncements***

In November 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 151, "Inventory Costs" ("SFAS No. 151"). SFAS No. 151 requires that costs such as idle facility expense, freight handling costs and wasted material be recognized as current period charges, regardless of whether they are abnormal. SFAS No. 151 was effective for LaBarge for inventory costs incurred after July 4, 2005. Adoption of this pronouncement did not have a material impact on the Company's financial statements.

During December 2004, the FASB issued SFAS No. 123R, "Share-Based Payment" ("SFAS No. 123R") which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants and certain transactions under other Company stock plans. SFAS No. 123R is effective for the first fiscal year beginning after June 15, 2005. The Company adopted SFAS No. 123R in the first quarter of fiscal 2006. The Company has determined that the impact of the adoption of SFAS No. 123R will reduce fiscal year 2006 net earnings by approximately \$393,000.

**ITEM 3. Quantitative and Qualitative Disclosures About Market Risk**

*Foreign Currency Risk*

No information has been included hereunder because the Company's foreign sales in each of the three and nine months ended April 2, 2006 and April 3, 2005 were less than 10% of total Company revenue. All foreign contracts are paid in U.S. dollars and the Company is not significantly exposed to foreign currency translation. However, if the significance of foreign sales grows, management will continue to monitor whether it would be appropriate to use foreign currency risk management instruments to mitigate any exposures.

*Interest Rate Risk*

As of April 2, 2006, the Company had \$36.7 million in total debt. Industrial revenue bonds totaling \$0.4 million have a fixed rate and are not subject to interest rate risk. The interest rate on the remaining \$36.3 million is subject to fluctuation. To mitigate this risk, on April 15, 2004, the Company entered into an Interest Rate Cap Agreement with a bank. This Cap Agreement caps the Company's exposure to 90-day LIBOR at 4% for a period of three years on a notional amount beginning at \$24.0 million and amortizing on a schedule that matches amortization of the \$25.0 million term loan dated February 17, 2004. The additional interest cost to the Company if interest rates increased 1% would be approximately \$208,000 for one year.

**ITEM 4. Controls and Procedures**

The Company's Chief Executive Officer and President, and the Company's Vice President, Chief Financial Officer and Secretary, have conducted an evaluation of the design and effectiveness the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report.

Based on their evaluation, Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level as of April 2, 2006. The Company's disclosure controls system is based upon a chain of financial and general business reporting lines that converge in the headquarters of the Company in St. Louis, Missouri. The reporting process is designed to ensure that information required to be disclosed by the Company in the reports that it files with or submits to the Securities and Exchange Commission is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

During our third fiscal quarter of 2006, there were no changes in internal control over financial reporting identified in connection with the evaluation that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

**Item 1. Legal Proceedings**

In March 2004, the Company received notice from the Library of Congress ("LOC") that the LOC was seeking financial restitution in the amount of \$1.8 million stemming from the Company's production of audiocassette machines during the period 1992 through 1996. The LOC claimed the machines were defective. The Company disputed the LOC's position.
