Steel Excel Inc.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Description and Basis of Presentation

Steel Excel Inc. ("Steel Excel" or the "Company") currently operates in two reporting segments - Energy and Sports. Through its wholly-owned subsidiary Steel Energy Ltd. ("Steel Energy"), the Company's Energy segment focuses on providing services to oil and gas companies, utilizing technological advances in supporting horizontal drilling and hydraulic fracturing. Through its wholly-owned subsidiary Steel Sports Inc., the Company's Sports segment focuses on providing event-based sports and entertainment services and other health-related services, including baseball facility services, baseball and soccer camps and leagues, and strength and conditioning services. The Company also continues to identify other new business acquisition opportunities.

The accompanying unaudited consolidated financial statements (the "Financial Statements") of Steel Excel and its subsidiaries, which have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles, should be read in conjunction with the notes to the consolidated financial statements contained in the Company's annual report on Form 10-K for the year ended December 31, 2012. The Company believes that all adjustments, consisting primarily of normal recurring accruals, necessary for a fair presentation have been included in the Financial Statements. The operating results of any period are not necessarily indicative of the results for the entire year or any future period.

Commencing with the quarterly period ended June 30, 2013, the Company's quarter-end dates coincide with the calendar quarter-end dates. Prior to that time, the Company's quarter-end dates were based on fiscal quarters ending on the thirteenth Saturday of such fiscal quarter. The Company's quarter-end dates were September 30 and September 29 for the 2013 and 2012 periods, respectively.

The results of operations for the nine-month period ended September 30, 2012, include a non-cash benefit for income taxes of \$15.1 million as a result of a measurement period adjustment related to an acquisition (see Note 3). Certain other prior-period amounts in the Financial Statements have been reclassified to conform to the 2013 presentation, including the reclassifications necessary to reflect the financial position, results of operations, and cash flows of a disposed business separately from continuing operations (see Note 5).

2. Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, which requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. This pronouncement was effective for reporting periods beginning after December 15, 2012. The Company adopted this pronouncement effective as of January 1, 2013. The adoption of ASU No. 2013-02 did not have a material effect on the Financial Statements.

In March 2013, the FASB issued ASU No. 2013-05, Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. The objective of this pronouncement is to resolve the diversity in practice regarding the release into net income of the cumulative translation adjustment upon derecognition of a subsidiary or group of assets within a foreign entity. ASU No. 2013-05 is effective prospectively for fiscal years beginning after December 15, 2013, and for interim reporting periods within those years, with early adoption

permitted. The Company does not expect the adoption of ASU No. 2013-05 to have a material effect on the Financial Statements.

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, which provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar tax loss, or tax credit carryforward exists. This pronouncement is effective for fiscal years beginning after December 15, 2013, and for interim reporting periods within those years. The Company does not expect the adoption of ASU No. 2013-11 to have a material effect on the Financial Statements.

3. Acquisitions

7

On January 31, 2013, the Company acquired a 20% membership interest in Ruckus Sports LLC ("Ruckus"), an obstacle course and mass-participation events company, with an option to acquire an additional 40% membership interest in the next two years. Pursuant to an operating agreement, the Company appointed two directors on a three-member board of directors and therefore has the ability to control the operations of Ruckus. The Company has determined that Ruckus is a variable interest entity ("VIE") and that the Company is the primary beneficiary. Accordingly, the Company accounted for its acquisition of its 20% membership interest as a business combination and consolidates Ruckus. The fair value of the non-controlling interest at the acquisition date was based on the amount paid by the Company for a 20% membership interest and a control premium equal to 50% of the total consideration based on a study of business combinations. In May 2013 and July 2013 the Company acquired additional membership interests in Ruckus of 10% and 15%, respectively, increasing the Company's ownership interest to 45% as of September 30, 2013. Such additional investments were recorded as equity transactions since Ruckus was a consolidated VIE at the time of the investments.

In November 2013, Ruckus cancelled a scheduled event and placed the majority of its employees on non-paid leave as a result of not having sufficient cash to fund current operations. Ruckus continues to explore its alternatives and assess its ability to remain a going concern. For the nine and three months ended September 30, 2013, the Company's results of operations included revenues of \$1.0 million and \$0.4 million, respectively, operating losses of \$1.5 million and \$0.9 million, respectively, and net losses after non-controlling interests of \$0.5 million and \$0.4 million, respectively, from Ruckus. At September 30, 2013, the Company's balance sheet included \$3.9 million of assets, including \$3.5 million of goodwill, and \$0.9 million of liabilities from Ruckus.

On June 19, 2013, the Company acquired 80% of the outstanding common stock of UK Elite Soccer, Inc. ("UK Elite"), a provider of youth soccer programs and camps. The Company accounted for the acquisition of UK Elite as a business combination. The fair value of the non-controlling interest at the acquisition date was based on the amount paid by the Company for 80% of the common stock.

The Company acquired Ruckus and UK Elite, both of which are included in the Company's Sports segment, in exchange for aggregate cash payments of \$3.1 million and the contribution of a loan of \$0.1 million made in December 2012. The estimated fair value of the assets and liabilities acquired in connection with the Ruckus and UK Elite transactions, determined as of the respective acquisition dates, was as follows:

	Amount (in thousands)
Cash	\$1,991
Accounts receivable	637
Marketable securities	195
Prepaid expenses and other current assets	759
Property and equipment	69
Other assets	55
Accounts payable	(96)
Accrued liabilities and other current liabilities	(3,481)
Long-term liabilities	(53)
Total identifiable net assets acquired	76
Non-controlling interest	(2,896)
Goodwill	6,071
Net assets acquired	\$3,251

There were no identifiable intangible assets recognized separately from goodwill in connection with the acquisition of Ruckus. The fair values recognized in connection with the UK Elite transaction are provisional pending the Company's continued evaluation, including assessing any identifiable intangible assets, the value of which are included in goodwill as of September 30, 2013. The goodwill recognized in connection with the Ruckus and UK Elite transactions arises from the growth

8

potential the Company sees for the investment, along with expected synergies within the Company's Sports segment, and is expected to be fully deductible for tax purposes.

The results of operations of Ruckus and UK Elite have been included in the Company's results of operations since their respective acquisition dates. Revenues from Ruckus and UK Elite totaled \$4.9 million and \$5.9 million for the three months and nine months ended September 30, 2013, respectively. Operating income from the combined results of operations of Ruckus and UK Elite was \$0.3 million for the three months ended September 30, 2013; operating losses from the combined results of operations of Ruckus and UK Elite were \$0.4 million for the nine months ended September 30, 2013.

The carrying amounts and classifications of combined assets and liabilities of Ruckus and UK Elite included in the Company's Financial Statements as of September 30, 2013, are as follows:

	Amount (in thousands)
Current assets	\$1,717
Long-term assets	\$6,347
Current liabilities	\$1,038
Long-term liabilities	\$53

On February 9, 2012, and May 31, 2012, the Company acquired Eagle Well Services, Inc. ("Eagle Well") and Sun Well Service, Inc. ("Sun Well"), respectively, both of which are included in the Company's Energy segment. The following pro forma financial information combines the results of operations of the Company, Sun Well, and Eagle Well for the nine months ended September 30, 2012, as if the acquisitions had occurred on January 1, 2012. Pro forma financial information for the 2013 periods is not presented and the 2012 periods do not include any amounts for Ruckus or UK Elite since they were not material to the Company's results of operations. The pro forma financial information is not necessarily indicative of what would have actually occurred had the acquisitions been consummated at the beginning of 2012 or results that may occur in the future.

	Amount (in thousands)
Net revenues	\$96,961
Income from continuing operations, net of taxes	\$24,591
Income (loss) from discontinued operations, net of taxes	\$(1,986)
Net income attributable to Steel Excel Inc.	\$23,185

In December 2012, the Company identified a measurement period adjustment related to the acquisition of Sun Well for a deferred tax liability of \$15.1 million associated with the identifiable intangible assets acquired. Such amount was recorded as if the measurement period adjustment was recognized at the acquisition date. As a result of the deferred tax liability recognized, the Company reversed a portion of its valuation allowance for deferred tax assets and recognized a non-cash benefit for income taxes of \$15.1 million in the nine months ended September 30, 2013.

In connection with its acquisition of Rogue Pressure Services, Inc. ("Rogue") in December 2011, the Company recognized a liability of \$1.2 million for contingent consideration payable upon attaining certain operational performance levels in the ensuing three years. In December 2012, the Company reversed \$0.7 million of the contingent consideration liability based on the failure to achieve the operational performance levels in 2012 and projections of future years' performance. In September 2013, the Company reversed the remaining \$0.5 million of the contingent consideration liability based on the projections for 2013 and 2014. Such amount was recognized as a reduction of "Selling, general, and administrative expenses" in the three and nine months ended September 30, 2013.

4. Stock Benefit Plans

The Company grants stock options and other stock-based awards to employees, non-employee directors, and consultants under two equity incentive plans, the 2004 Equity Incentive Plan, as amended (the "2004 Plan"), and the 2006 Director Plan, as amended (the "2006 Plan, and collectively the "Equity Plans"). Stock-based compensation expense by type of

9

award, all of which was recognized as a component of "Selling, general, and administrative expenses" in the consolidated statements of operations for the three and nine months ended September 30, 2013 and 2012, was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
	(in thousands)			
Stock options	\$25	\$26	\$76	\$68
Restricted stock	277	395	1,903	789
Total stock-based compensation	\$302	\$421	\$1,979	\$857

During the nine months ended September 30, 2013, the Company granted 15,000 restricted stock units and 17,320 shares of restricted stock to its employees, non-employee directors, and consultants. The Company did not grant any stock options during the first nine months of 2013.

5. Discontinued Operations

In July 2012, the Company shut down The Show, a Sports segment operation that was not meeting expectations. The results of operations related to The Show for the three- and nine-month periods ended September 30, 2012, were as follows:

	Three Months Ended September 30, 2012 (in thousands)	Nine Months Ended	
Revenues	\$—	\$451	
Loss from discontinued operations before income taxes	\$484	\$(1,986))
Benefit from income taxes	—	—	
Loss from discontinued operations, net of taxes	\$484	\$(1,986))

6. Investments

Marketable Securities

All of the Company's marketable securities as of September 30, 2013, and December 31, 2012, were classified as "available-for-sale" securities, with changes in fair value recognized in stockholders' equity as "other comprehensive income (loss)". Classification of marketable securities as a current asset is based on the intended holding period and realizability of the investment.

Marketable securities at September 30, 2013, consisted of the following:

Proceeds from sales of marketable securities were \$65.5 million and \$568.6 million for the nine months ended September 30, 2013 and 2012, respectively, and \$20.4 million and \$77.7 million for the three months ended September 30, 2013 and 2012, respectively. The company determines gains and losses from sales of marketable securities based on specific identification of the securities sold. Gross realized gains and losses from sales of marketable securities, all of which are reported as a component of "Other income (expense), net" in the consolidated statements of operations for the three months and nine months ended September 30, 2013 and 2012, were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,

The fair value of the Company's marketable securities with unrealized losses at December 31, 2012, all of which had been unrealized for a period of less than twelve months, were as follows:

	Fair Value	Gross Unrealized Losses
	(in thousands)	
Corporate securities	\$6,389	\$(1,980)
Corporate obligations	14,252	(277)
Total	\$20,641	\$(2,257)

Gross unrealized losses primarily related to losses on corporate securities. The Company has evaluated such securities, which primarily consist of investments in publicly-traded entities, as of September 30, 2013, and has determined that there was no indication of other-than-temporary impairments. This determination was based on several factors, including the length of time and extent to which fair value has been less than the cost basis, the financial condition and near-term prospects of the entity, and the Company's intent and ability to hold the corporate securities for a period of time sufficient to allow for any anticipated recovery in market value.

The amortized cost and estimated fair value of available-for-sale debt securities at September 30, 2013, by contractual maturity, were as follows:

	Cost	Estimated Fair Value
	(in thousands)	
Debt securities:		
Mature in one year or less	\$44,134	\$44,157
Mature after one year through three years	14,285	14,435

Equity-Method Investments

In January 2013, the Company acquired a 40% membership interest in Again Faster LLC, a fitness equipment company, for total cash consideration of \$4.0 million. The Company accounts for its investment in Again Faster under the equity method as the Company owns more than 20%, providing the Company with significant influence, but does not have a controlling financial interest or other control over the operations of Again Faster.

On August 23, 2013, the Company acquired 1,316,866 shares of the common stock of iGo, Inc. (“iGo”), in a cash tender offer for total consideration of \$5.2 million. The shares of common stock of iGo acquired by the Company represent approximately 44.0% of the outstanding shares of iGo on a fully-diluted basis and approximately 44.7% of the issued and outstanding shares of iGo. Pursuant to the Stock Purchase and Sale Agreement between the Company and iGo entered into on

12

July 11, 2013, two members of iGo's four-member board of directors were replaced by two designees of the Company. The Company accounts for its investment in iGo under the equity method as the Company's 44.7% voting interest and board representation provide it with significant influence, but do not provide the Company with control over iGo's operations. The value of the Company's investment in iGo was approximately \$4.0 million at September 30, 2013, based on the closing market price of iGo's publicly-traded shares. The Company believes that this decline in value is temporary and therefore has not adjusted the carrying value of the investment.

Other Investments

In July 2013, the Company invested \$25.0 million in a limited partnership that co-invested with other private investment funds in a public company. The Company accounts for this investment under the cost method as the limited partnership has no operations and the Company does not have significant influence over the operations of the public company investee. Such investment had an approximate fair value of \$24.9 million at September 30, 2013, based on the net asset value included in the monthly statement it receives from the partnership.

7. Fair Value Measurements

Fair values of assets and liabilities are determined based on a three-level measurement input hierarchy. Level 1 inputs are quoted prices in active markets for identical assets or liabilities as of the measurement date.

Level 2 inputs are other than quoted market prices that are observable, either directly or indirectly, for an asset or liability. Level 2 inputs can include quoted prices in active markets for similar assets or liabilities, quoted prices in a market that is not active for identical assets or liabilities, or other inputs that can be corroborated by observable market data. The Company uses quoted prices of similar instruments with an active market to determine the fair value of its Level 2 investments.

Level 3 inputs are unobservable for the asset or liability when there is little, if any, market activity for the asset or liability. Level 3 inputs are based on the best information available, and may include data developed by the Company. The Company uses the net asset value included in quarterly statements it receives in arrears from two venture capital funds to determine the fair value of such funds. The Company uses prices determined by third-party pricing services based on the specific features of the underlying securities for certain corporate securities and corporate obligations. The Company uses its own forecast data and probability assessments to determine the fair value of the contingent consideration.

Assets and liabilities measured at fair value on a recurring basis at September 30, 2013, summarized by measurement input category, were as follows:

(2) Reported within “Marketable securities.”

(3) At December 31, 2012, the Company reported \$3.4 million and \$18.9 million within "Cash and cash equivalents" and "Marketable securities."

(4) Reported within "Other investments".

(5) Reported within “Accrued expenses”.

There were no transfers of securities among the various measurement input levels during the nine month period ended September 30, 2013. The liability for contingent consideration was reversed during the nine-month period ended September 30, 2013 (see Note 3).

Changes in the fair value of assets valued using Level 3 measurement inputs during the nine-month period ended September 30, 2013, were as follows:

	Amount (in thousands)
Balance, January 1, 2013	\$2,804
Purchases	39,332
Sales	(22,958)
Realized gain on sale	1,556

Balance, September 30, 2013	\$18,710

In November 2012, the Company invested \$6.0 million in convertible debentures of School Specialty Inc. (“School Specialty”) with a face amount of \$11.9 million. On January 28, 2013, School Specialty filed for protection under Chapter 11 of the United States Bankruptcy Code, and in subsequent months the Company invested approximately \$21.3 million as part of the debtor-in-possession loan to School Specialty. Upon School Specialty emerging from bankruptcy on June 11, 2013, the Company received 26,457 shares of common stock of the post-bankruptcy entity in exchange for the convertible debentures, and received \$17.5 million in cash and 49,136 shares of common stock of the

post-bankruptcy entity in exchange for its investment in the debtor-in-possession loan. The fair value of the common stock of the post-bankruptcy entity received was \$109 per share. In connection with these transactions, the Company recognized a loss on disposal of the subordinated debentures of approximately \$3.2 million and a gain on disposal of the investment in the debtor-in-possession loan of approximately \$1.6 million, both of which are included as a component of "Other income (expense), net" in the consolidated

statements of operations for the nine months ended September 30, 2013. In addition, the Company invested \$9.8 million in senior secured notes of the post-bankruptcy entity in June 2013. The Company's investments in the common stock and senior secured notes of the post-bankruptcy entity are included as Level 3 corporate securities and Level 3 corporate obligations, respectively, as of September 30, 2013.

The Company's 3/4% Convertible Senior Notes due December 22, 2023 had a carrying value of approximately \$0.3 million as of September 30, 2013, and December 31, 2012, which was a reasonable approximation of fair value as of both dates.

8. Property and Equipment, Net

Property and equipment at September 30, 2013, and December 31, 2012, consisted of the following:

	September 30, 2013	December 31, 2012

10. Long-term Debt

On July 3, 2013, Steel Energy entered into a credit agreement (the "Energy Credit Agreement") with Wells Fargo Bank National Association, RBS Citizens, N.A., and Comerica Bank. The Energy Credit Agreement provided for a

borrowing capacity of \$80.0 million consisting of a \$70.0 million secured term loan (the “Term Loan”) that was fully drawn by Steel Energy on July 3, 2013, and up to \$10.0 million in revolving loans (the “Revolving Loans”) subject to a borrowing base of 85% of the eligible accounts receivable. Borrowings under the Energy Credit Agreement are collateralized by substantially all the

assets of Steel Energy and its wholly-owned subsidiaries Sun Well and Rogue, and a pledge of all of the issued and outstanding shares of capital stock of Sun Well and Rogue, and are fully guaranteed by Sun Well and Rogue. The proceeds of the Term Loan at closing, along with proceeds from intercompany loans to Steel Energy from Sun Well and Rogue, were used to pay the Company a dividend of \$80.0 million and certain fees and expenses related to the Energy Credit Agreement. The Company incurred fees totaling approximately \$1.1 million in connection with the Energy Credit Agreement that are being amortized over the life of the arrangement as a component of interest expense.

The Energy Credit Agreement has a five-year term, with the Term Loan amortizing in quarterly installments of \$2.5 million and a balloon payment due on the maturity date. At September 30, 2013, \$67.5 million was outstanding under the Term Loan and no amount was outstanding under the Revolving Loans. Principal payments under the Energy Credit Agreement for the remainder of 2013 and subsequent years are as follows:

	Amount (in thousands)
Remainder of 2013	\$2,500
2014	10,000
2015	10,000
2016	10,000
2017	10,000
2018	25,000
Total	67,500
Less current portion	10,000
Total long-term debt	57,500

Borrowings under the Energy Credit Agreement bear interest at annual rates of either (i) the Base Rate plus an applicable margin of 1.50% to 2.25% or (ii) LIBOR plus an applicable margin of 2.50% to 3.25%. The "Base Rate" is the greatest of (i) the prime lending rate, (ii) the Federal Funds Rate plus 0.5%, and (iii) the one-month LIBOR plus 1.0%. The applicable margin for both Base Rate and LIBOR is determined based on the leverage ratio calculated in accordance with the Energy Credit Agreement. LIBOR-based borrowings are available for interest periods of one, three, or six months. In addition, the Company is required to pay commitment fees of between 0.375% and 0.50% per annum on the daily unused amount of the Revolving Loans. For the three months and nine months ended September 30, 2013, the Company incurred interest expense of \$0.7 million in connection with the Energy Credit Agreement, consisting of \$0.5 million in interest on the Term Loans and \$0.2 million of amortization of deferred financing fees. The Energy Credit Agreement contains certain financial covenants, including (i) a leverage ratio not to exceed 3.00:1 for quarterly periods through June 15, 2015, 2.75:1 for quarterly periods through June 30, 2017, and 2.5:1 thereafter and (ii) a fixed charge coverage ratio of 1.15:1 for quarterly periods through December 31, 2016, and 1.25:1 thereafter. The Energy Credit Agreement also contains standard representations, warranties and covenants, including, among other things, covenants relating to (i) financial reporting and notification, (ii) payment of obligations, (iii) compliance with law, (iv) maintenance of properties and (v) payment of restricted payments. The repayment of the Term Loan can be accelerated upon (i) a change in control, which would include Steel Energy owning less than 100% of the equity of Sun Well or Rogue or Steel Partners Holdings L.P. ("SPLP") owning, directly or indirectly, less than 35% of Steel Energy or (ii) other events of default, including payment failure, false representations, covenant breaches, and bankruptcy.

Sun Well previously had a credit agreement (the "Sun Well Credit Agreement") with Wells Fargo Bank, National Association, that included a term loan of \$20.0 million and a revolving line of credit for up to \$5.0 million. All amounts due under the Sun Well Credit Agreement were fully repaid in the first nine months of 2013 and the facility was terminated as of July 3, 2013, upon closing of the Energy Credit Agreement. For the nine months ended September 30, 2013, the Company incurred interest expense of \$0.3 million in connection with the Sun Well Credit Agreement. Upon termination of the Sun Well Credit Agreement, the Company recognized a loss on extinguishment of \$0.5 million from the write off of unamortized deferred financing costs, which was reported as a component of

"Other income (expense), net" in the consolidated statements of operations for the three and nine months ended September 30, 2013.

11. Other Liabilities

"Accrued expenses and other current liabilities" consisted of the following:

17

	September 30, 2013 (in thousands)	December 31, 2012

Net current period other comprehensive income	4,759	(385) 4,374
Balance at September 30, 2013	\$5,686	\$(366) \$5,320

13. Income Taxes

The Company accounts for income taxes in accordance with Accounting Standards Codification (“ASC”) Topic 740, Income Taxes, which requires that deferred tax assets and liabilities are recognized using enacted tax rates for the effect of temporary differences between the book and tax bases of recorded assets and liabilities. ASC 740 also requires that deferred tax assets be reduced by a valuation allowance if it is more likely than not that some or all of the

deferred tax assets will not be realized. Based on its history of operating losses, the Company has offset its net deferred tax assets by a full valuation allowance. Any reversal of the corresponding valuation allowance will generally result in a tax benefit being recorded in the consolidated statement of operations in the respective period.

The Company recognized a benefit from income taxes of \$2.3 million and \$15.4 million for the nine-month periods ended September 30, 2013 and 2012, respectively, primarily due to a partial reversal of the Company's valuation allowance for deferred tax assets. In the 2013 period, the Company reversed \$2.8 million of the valuation allowance as a result of deferred tax liabilities recognized related to the unrealized gains on marketable securities. In the 2012 period, the Company reversed \$15.1 of the valuation allowance as a result of deferred tax liabilities recognized related to the identifiable intangible assets recorded in connection with the acquisition of Sun Well in May 2012.

14. Segment Information

The Company currently reports its business in two reportable segments - Energy and Sports. The Company measures profit or loss of its segments based on operating income (loss).

Segment information relating to the Company's results of continuing operations was as follows:

15. Net Income (Loss) Per Share

Basic net income (loss) per share of common stock is computed by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted net income (loss) per share gives effect to all potentially dilutive common shares outstanding during the period.

Edgar Filing: Steel Excel Inc. - Form 10-Q

Amounts used in the calculation of basic and diluted net income (loss) per share of common stock for the three and nine months ended September 30, 2013 and 2012, were as follows:

16. Related Party Transactions

SPLP beneficially owned approximately 53.7% of the Company's outstanding common stock as of September 30, 2013. The power to vote and dispose of the securities held by SPLP is controlled by Steel Partners Holdings GP Inc. ("SPH GP"). Warren G. Lichtenstein, the Chairman of the Board of Directors and President of the Company's Sports segment, is also the Executive Chairman of SPH GP. Certain other affiliates of SPH GP hold positions with the

Company, including Jack Howard, as Vice Chairman and principal executive officer, James F. McCabe, Jr., as Chief Financial Officer, and Leonard J. McGill, as Vice President, General Counsel, and Secretary. Each of Warren G. Lichtenstein and Jack L. Howard is compensated with cash compensation and equity awards or equity-based awards in amounts that are consistent with the Company's Non-employee Director Compensation Policy.

In October 2011, the Company contracted with SP Corporate Services LLC ("SP Corporate"), a SPLP affiliate, to provide financial management and administrative services, including the services of a chief financial officer. Through July 2012, the Company paid SP Corporate \$35,000 per month for the provision of such services. Effective August 2012, the services SP Corporate provides were expanded to include executive and financial management services in the areas of finance,

regulatory reporting, and other administrative and operational functions. The Company pays SP Corporate \$300,000 per month for these expanded services. The services agreement with SP Corporate was approved by a committee of the Company's independent directors. In addition, the Company reimburses SP Corporate and other SPLP affiliates for certain expenses incurred on the Company's behalf. During the three months ended September 30, 2013 and 2012, the Company incurred expenses of \$1.0 million and \$0.9 million, respectively, related to services provided by SP Corporate and reimbursements of expenses incurred on its behalf by SP Corporate and its affiliates. During the nine months ended September 30, 2013 and 2012, the Company incurred expenses of \$3.0 million and \$1.3 million, respectively, related to services provided by SP Corporate and reimbursements of expenses incurred on its behalf by SP Corporate and its affiliates. As of September 30, 2013, the Company owed SP Corporate \$0.2 million.

In October 2013, iGo contracted with SP Corporate to provide certain executive, other employee, and corporate services for a fixed annual fee of \$0.4 million. In addition, iGo will reimburse SP Corporate for reasonable and necessary business expenses incurred on iGo's behalf. The services agreement was approved by the independent directors of iGo.

The Company holds \$15.1 million of short-term deposits at WebBank, an affiliate of SPLP, and recorded interest income of \$21,231 and \$68,918 for the three and nine months ended September 30, 2013, respectively. The Company recorded interest income of \$32,271 and \$57,997 from WebBank during the three and nine months ended September 30, 2012, respectively.

17. Supplemental Cash Flow Information

Cash paid for interest and income taxes and non-cash investing financing and investing activities for the nine months ended September 30, 2013 and 2012, were as follows:

18. Subsequent Events

On October 29, 2013, a newly-formed, wholly owned subsidiary of Steel Energy entered into an Asset Purchase Agreement (the "Asset Purchase Agreement") to acquire substantially all of the assets of Black Hawk Energy Services, Inc. ("Black Hawk") for \$60.0 million in cash. Closing of Asset Purchase Agreement is subject to several closing conditions, including that there has been no material adverse effect on the condition of Black Hawk, consent, if necessary, of the lenders under the Steel Energy Credit Agreement, certain employees of Black Hawk accepting employment, and satisfaction of certain employment matters requirements. In connection with the Asset Purchase Agreement, Steel Energy will execute a guaranty at closing that guarantees the payment obligations, if any, of its newly-formed subsidiary after the closing.

In November 2013, Ruckus cancelled a scheduled event and placed the majority of its employees on non-paid leave as a result of not having sufficient cash to fund current operations. Ruckus continues to explore its alternatives and assess its ability to remain a going concern.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements contained in this quarterly report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such statements involve known and unknown risks, uncertainties, and other factors that may cause actual results, performance, or achievements of the Company to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, the Company's actual results could differ materially from those set forth in the forward-looking statements. See Item I Part 1A in the Company's annual report on Form 10-K for the year ended December 31, 2012, for a description of certain factors that might cause such a difference.

Steel Excel Inc. ("Steel Excel" or the "Company") currently operates in two reporting segments - Energy and Sports. The Energy segment focuses on providing services to oil and gas companies, utilizing technological advances in supporting horizontal drilling and hydraulic fracturing. The Sports segment focuses on providing event-based sports and entertainment services and other health-related services, including baseball facility services, baseball and soccer camps and leagues, and strength and conditioning services. The Company also continues to identify other new business acquisition opportunities.

Commencing with the quarterly period ended June 30, 2013, the Company's quarter-end dates coincide with the calendar quarter-end dates. Prior to that time, the Company's quarter-end dates were based on fiscal quarters ending on the thirteenth Saturday of such fiscal quarter. The Company's quarter-end dates were September 30 and September 29 for the 2013 and 2012 periods, respectively.

In February 2012 and May 2012, the Company acquired Eagle Well Services, Inc., and Sun Well Service, Inc. ("Sun Well"), respectively, both of which are included in the Company's Energy segment.

In January 2013, the Company acquired a 20% membership interest in Ruckus Sports LLC ("Ruckus"). The Company consolidates Ruckus based on its assessment that Ruckus is a variable interest entity and that the Company is the primary beneficiary. In May 2013 and July 2013 the Company acquired additional membership interests in Ruckus of 10% and 15%, respectively, increasing the Company's ownership interest to 45% as of September 30, 2013. In November 2013, Ruckus cancelled a scheduled event and placed the majority of its employees on non-paid leave as a result of not having sufficient cash to fund current operations. Ruckus continues to explore its alternatives and assess its ability to remain a going concern.

In June 2013, the Company acquired 80% of the outstanding common stock of UK Elite Soccer, Inc. ("UK Elite"). Both Ruckus and UK Elite are included in the Company's Sports segment.

In July 2013, Steel Energy Ltd, a wholly-owned subsidiary of the Company, entered into a credit agreement (the "Energy Credit Agreement") that provided for a borrowing capacity of \$80.0 million consisting of a \$70.0 million secured term loan that was fully drawn upon closing and up to \$10.0 million in revolving loans. A pre-existing credit agreement at Sun Well (the "Sun Well Credit Agreement") that had been fully repaid was terminated upon closing of the Energy Credit Agreement.

In July 2012, the Company shut down The Show, a Sports segment operation that was not meeting expectations. The unaudited consolidated financial statements contained in this quarterly report on Form 10-Q reflect The Show as a discontinued operation.

The following discussion and analysis should be read in conjunction with the Company's unaudited consolidated financial statements and notes thereto.

Results of Operations

The net revenues and operating income by reportable segment for the three- and nine-month periods ended September 30, 2013 and 2012, were as follows:

Edgar Filing: Steel Excel Inc. - Form 10-Q

	Three Months Ended		Nine Months Ended

Consolidated operating income	\$61	\$3,287	\$178	\$6,306

Nine months ended September 30, 2013, compared to nine months ended September 30, 2012

Net revenues for the nine months ended September 30, 2013, increased by \$14.4 million as compared to the 2012 period. Net revenues from the Company's Energy segment increased by \$7.5 million as a result of the acquisition of Sun Well in May 2012 being included for the entire 2013 period. Such increase was partially offset by a decrease in revenues at operations in the Energy segment operated in both periods as a result of increased competition in the marketplace and a decline in rig utilization partially resulting from unfavorable weather conditions. Net revenues from the Company's Sports segment increased by \$6.9 million primarily as a result of acquisitions consummated subsequent to the 2012 period.

Gross profit for the nine months ended September 30, 2013, decreased by \$2.0 million as compared to the 2012 period, and as a percentage of revenue declined to 29.0% from 37.4%. Gross profit in the Energy segment decreased by \$5.2 million and as a percentage of revenue declined to 26.0% in the first nine months of 2013 from 36.2% in the comparable 2012 period. Such decline in the 2013 period was due primarily to increased competition in the marketplace, a decline in rig utilization as a result of unfavorable weather conditions, increased rig staffing costs, fewer rigs operating around the clock that resulted in higher costs for generating comparable revenues, a decline in higher-margin services in the 2013 period resulting from a change in the overall mix of services provided, increased workers compensation insurance costs, and settlement of a customer claim. Gross profit in the Sports segment increased by \$3.2 million primarily as a result of acquisitions consummated subsequent to the 2012 period.

Selling, general and administrative ("SG&A") expenses in the first nine months of 2013 increased by \$2.5 million as compared to the comparable 2012 period primarily as a result of the acquisitions in the Sports segment and Sun Well being included for the entire 2013 period, partially offset by the reversal of the contingent consideration liability associated with the acquisition of Rogue and certain credits received related to insurance.

Amortization of intangibles in the first nine months of 2013 increased by \$1.6 million as compared to the comparable 2012 period as a result of intangible assets recognized in connection with the acquisition of Sun Well.

Net interest income of \$2.3 million in the first nine months of 2013 increased by \$1.8 million as compared to the 2012 period primarily as a result of increased interest income of \$2.5 million from the Company investing in higher yield money market funds and corporate obligations in the 2013 period. Such increase was partially offset by an increase in interest expense of \$0.7 million primarily associated with the borrowings under the Steel Energy Credit Agreement.

Other income of \$1.2 million in the first nine months of 2013 primarily represented realized gains on the sale of marketable securities of \$1.8 million partially offset by a loss on extinguishment of debt of \$0.5 million from the write

off of unamortized deferred financing costs upon terminating the Sun Well Credit Agreement.

The Company recognized a benefit for income taxes of \$2.3 million and \$15.4 million for the nine months ended September 30, 2013 and 2012, respectively, primarily as a result of a reversal of a portion of its valuation allowance for deferred income tax assets. Such reversal in the 2013 period resulted from the deferred tax liabilities recognized in connection with unrealized gains on marketable securities included as a component of other comprehensive income. Such reversal in the 2012 period resulted from the deferred tax liabilities recognized on the identifiable intangible assets acquired in connection with the acquisition of Sun Well.

The results of operations for the nine months ended September 30, 2012, included a loss from discontinued operations of \$2.0 million related to The Show.

Three months ended September 30, 2013, compared to three months ended September 30, 2012

Net revenues for the three months ended September 30, 2013, decreased by \$2.4 million as compared to the 2012 period. Net revenues from the Company's Energy segment decreased by \$7.9 million as a result of increased competition in the marketplace and a decline in rig utilization. The decrease in net revenues in the Energy segment were partially offset by an increase of \$5.4 million in the Company's Sports segment primarily as a result of acquisitions consummated subsequent to the 2012 period.

Gross profit for the three months ended September 30, 2013, decreased by \$3.8 million as compared to the 2012 period, and as a percentage of revenue declined to 26.5% from 35.6%. Gross profit in the Energy segment decreased by \$6.2 million and as a percentage of revenue declined to 20.3% in the third quarter of 2013 from 34.2% in the comparable 2012 period. Such decline in the 2013 period was due primarily to increased competition in the marketplace, a decline in rig utilization, increased rig staffing costs, fewer rigs operating around the clock that resulted in higher costs for generating comparable revenues, a decline in higher-margin services in the 2013 period resulting from a change in the overall mix of services provided, increased workers compensation insurance costs, and settlement of a customer claim. Gross profit in the Sports segment increased by \$2.4 million primarily as a result of acquisitions consummated subsequent to the 2012 period.

SG&A expenses in the third quarter of 2013 increased by \$0.1 million as compared to the comparable 2012 period primarily as a result of the acquisitions in the Sports segment, partially offset by the reversal of the contingent consideration liability associated with the acquisition of Rogue and certain credits received related insurance.

Amortization of intangibles in the third quarter of 2013 decreased by \$0.7 million as compared to the comparable 2012 period as a result of a reduced rate of amortization in the second year for the intangible assets recognized in connection with the acquisition of Sun Well.

Net interest income of \$0.5 million in the third quarter of 2013 increased by \$0.4 million as compared to the 2012 period primarily as a result of increased interest income of \$0.9 million from the Company investing in higher yield money market funds and corporate obligations in the 2013 period. Such increase was partially offset by an increase in interest expense of \$0.5 million primarily associated with the borrowings under the Steel Energy Credit Agreement.

Other income of \$1.3 million in the third quarter of 2013 primarily represented realized gains on the sale of marketable securities of \$1.9 million partially offset by a loss on extinguishment of debt of \$0.5 million from the write off of unamortized deferred financing costs upon terminating the Sun Well Credit Agreement.

The Company recognized a benefit for income taxes of \$0.3 million and \$1.1 million for the three months ended September 30, 2013 and 2012, respectively, primarily as a result of a reversal of a portion of its valuation allowance for deferred income tax assets. Such reversal in the 2013 period resulted from the deferred tax liabilities recognized in connection with unrealized gains on marketable securities included as a component of other comprehensive income. Such reversal in the 2012 period resulted from the deferred tax liabilities recognized on the identifiable intangible assets acquired in connection with the acquisition of Sun Well.

Financial Condition

The Energy Credit Agreement entered into on July 3, 2013, provided for a borrowing capacity of \$80.0 million consisting of a \$70.0 million secured term loan (the "Term Loan") that was fully drawn by Steel Energy on July 3, 2013, and up to \$10.0 million in revolving loans (the "Revolving Loans") subject to a borrowing base of 85% of the eligible accounts receivable. Borrowings under the Energy Credit Agreement are collateralized by substantially all the assets of Steel Energy and its wholly-owned subsidiaries Sun Well and Rogue, and a pledge of all of the issued and outstanding shares of capital stock of Sun Well and Rogue, and are fully guaranteed by Sun Well and Rogue. The proceeds of the Term Loan at closing, along with proceeds from intercompany loans to Steel Energy from Sun Well and Rogue, were used to pay the Company a dividend of \$80.0 million and certain fees and expenses related to the Energy Credit Agreement. The Company incurred fees totaling approximately \$1.1 million in connection with the Energy Credit Agreement that are being amortized over the life of the arrangement as a component of interest expense.

The Energy Credit Agreement has a five-year term, with the Term Loan amortizing in quarterly installments of \$2.5 million and a balloon payment due on the maturity date. Borrowings under the Energy Credit Agreement bear interest at annual rates of either (i) the Base Rate plus an applicable margin of 1.50% to 2.25% or (ii) LIBOR plus an applicable margin of 2.50% to 3.25%. The “Base Rate” is the greatest of (i) the prime lending rate, (ii) the Federal Funds Rate plus 0.5%, and (iii) the one-month LIBOR plus 1.0%. The applicable margin for both Base Rate and LIBOR is determined based on the leverage ratio calculated in accordance with the Energy Credit Agreement. LIBOR-based borrowings are available for interest periods of one, three, or six months. In addition, the Company is required to pay commitment fees of between 0.375% and 0.50% per annum on the daily unused amount of the Revolving Loans.

The Energy Credit Agreement contains standard representations and warranties, and leverage ratio and fixed charge coverage ratio covenants. The repayment of the Term Loan can be accelerated upon (i) a change in control, which would include Steel Energy owning less than 100% of the equity of Sun Well or Rogue or Steel Partners Holdings L.P. (“SPLP”) owning, directly or indirectly, less than 35% of Steel Energy or (ii) other events of default, including payment failure, false representations, covenant breaches, and bankruptcy.

The Company finances its operations and capital expenditure requirements from its existing cash and marketable securities balances, which at September 30, 2013, totaled \$121.9 million and \$169.5 million, respectively. Working capital in the first nine months of 2013 increased by \$15.2 million. The increase in working capital from the \$70.0 million in proceeds from the Steel Energy Credit Agreement were partially offset by investments in cost method and equity method investees of \$25.0 million and \$9.2 million, respectively, repurchases of the Company's common stock totaling \$17.8 million, and repayments of the current portion of long-term debt totaling \$6.5 million.

Cash flows from operating activities of continuing operations increased by \$19.3 million in the first nine months of 2013 as compared to the 2012 period primarily due to the timing of collections of trade receivables.

During the first nine months of 2013, the Company received cash proceeds from the sales and maturities of marketable securities, net of purchases, of \$38.9 million and received cash proceeds from the Steel Energy Credit Agreement, net of debt repayments, of \$54.5 million. During the 2013 period the Company invested \$25.0 million and \$9.2 million in cost method and equity method investees, respectively, paid \$1.1 million for acquisitions net of cash acquired, invested \$6.2 million in property and equipment, and paid \$17.8 million to repurchase shares of its common stock.

At September 30, 2013, the Company had \$291.4 million in cash and marketable securities, of which approximately \$1.7 million was held by foreign subsidiaries whose functional currency is the local currency. Available-for-sale securities included short-term deposits, corporate debt and equity instruments, United States government securities, and securities of government agencies, and were recorded on our consolidated balance sheets at fair market value, with any related unrealized gain or loss reported as a component of “Accumulated other comprehensive income” in stockholders’ equity. We expect to realize the full value of all our marketable securities upon maturity or sale, as we have the intent and ability to hold the securities until the full value is realized. However, we cannot provide any assurance that our invested cash and marketable securities will not be impacted by adverse conditions in the financial markets, which may require us to record an impairment charge that could adversely impact our financial results. In addition, we maintain our cash and marketable securities with certain financial institutions, in which our balances exceed the limits that are insured by the Federal Deposit Insurance Corporation. If the underlying financial institutions fail or other adverse events occur in the financial markets, our cash balances may be impacted.

We believe that our cash balances will be sufficient to satisfy our anticipated cash needs for working capital and capital expenditures for at least the next twelve months. We anticipate making additional acquisitions and we may be required to use a significant portion of our available cash balances for such acquisitions or for working capital needs thereafter. The consummation of additional acquisitions, prevailing economic conditions, and financial, business and

other factors beyond our control could adversely affect our estimates of our future cash requirements. As such, we could be required to fund our cash requirements by alternative financing. In these instances, we may seek to raise such additional funds through public or private equity or debt financings or from other sources. As a result, we may not be able to obtain adequate or favorable equity financing, if needed, due in part to our shares of common stock currently trading on the OTCQB Market. Any equity financing we obtain may dilute existing ownership interests, and any debt financing could contain covenants that impose limitations on the conduct of our business. There can be no assurance that additional financing, if needed, would be available on terms acceptable to us or at all.

On October 29, 2013, a newly-formed, wholly owned subsidiary of Steel Energy entered into an Asset Purchase Agreement (the "Asset Purchase Agreement") to acquire substantially all of the assets of Black Hawk Energy Services, Inc. ("Black Hawk") for \$60.0 million in cash. Closing of Asset Purchase Agreement is subject to several closing conditions,

including that there has been no material adverse effect on the condition of Black Hawk, consent, if necessary, of the lenders under the Steel Energy Credit Agreement, certain employees of Black Hawk accepting employment, and satisfaction of certain employment matters requirements. In connection with the Asset Purchase Agreement, Steel Energy will execute a guaranty at closing that guarantees the payment obligations, if any, of its newly-formed subsidiary after the closing.

Commitments and Contingencies

Contractual Obligations

Other than the contractual obligation incurred by the Company in connection with the Steel Energy Credit Agreement, there were no other material changes in the Company's contractual obligations at September 30, 2013, as compared to those reported in the Company's annual report on Form 10-K for the year ended December 31, 2012.

Legal Proceedings

In the ordinary course of our business, we are subject to periodic lawsuits, investigations, claims, and proceedings, including, but not limited to, contractual disputes and employment matters as well as claims associated with our historical acquisitions and divestitures. Although we cannot predict with certainty the ultimate resolution of lawsuits, investigations, claims, and proceedings asserted against us, we do not believe any currently pending legal proceeding to which we are a party will have a material adverse effect on our business, prospects, financial condition, cash flows, results of operations or liquidity.

Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, which requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. This pronouncement was effective for reporting periods beginning after December 15, 2012. The Company adopted this pronouncement effective January 1, 2013. The adoption of ASU No. 2013-02 did not have a material effect on the Company's financial statements.

In March 2013, the FASB issued ASU 2013-05, Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. The objective of this pronouncement is to resolve the diversity in practice regarding the release into net income of the cumulative translation adjustment upon derecognition of a subsidiary or group of assets within a foreign entity. ASU No. 2013-05 is effective prospectively for fiscal years beginning after December 15, 2013 and for interim reporting periods within those years, with early adoption being permitted. The Company does not expect the adoption of ASU No. 2013-05 to have a material effect on its financial statements.

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, which provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar tax loss, or tax credit carryforward exists. This pronouncement is effective for fiscal years beginning after December 15, 2013, and for interim reporting periods within those years. The Company does not expect the adoption of ASU No. 2013-11 to have a material impact on its financial statements.

Critical Accounting Policies

The Company's critical accounting policies have not changed from those presented in the Management's Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies in our annual report on Form 10-K for the year ended December 31, 2012.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Vice Chairman and our Chief Financial Officer ("CFO"), we conducted an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of the period covered by this quarterly report on Form 10-Q. Based upon that evaluation, our Vice Chairman and our CFO have concluded that the design and operation of our disclosure controls

and procedures were effective to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and (ii) is accumulated and communicated to our management, including our Vice Chairman and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three-month period ended September 30, 2013, which was the period covered by this quarterly report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

A control system, no matter how well conceived and operated, can only provide reasonable assurance that the objectives of the control system are met. Because of these inherent limitations, no evaluation of our disclosure controls and procedures or our internal control over financial reporting will provide absolute assurance that misstatements due to error or fraud will not occur.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In November 2012, March 2013, and September 2013, the Board of Directors authorized stock repurchase programs to acquire up to 200,000 shares, 400,000 shares, and 350,000 shares, respectively, of the Company's common stock. The maximum number of shares authorized in the November 2012 and March 2013 programs had been repurchased as of September 30, 2013. The September 2013 program is expected to continue through the end of 2013 unless extended or shortened by the Board of Directors. The following table summarizes, by month, the repurchases made during the three months ended September 30, 2013, under the repurchase programs.
