FIRST MERCHANTS ANNOUNCES 3rd QUARTER EARNINGS PER SHARE

First Merchants Corporation (NASDAQ - FRME) has reported that third quarter 2003 diluted earnings per share equaled \$.39, a decrease of 15.2%, from \$.46 in the prior year. Net income decreased \$478,000, or 6.1%, during the same period.

Year-to-date diluted earnings were \$1.19 per share compared to \$1.31 in 2002. Year-to-date net income increased \$512,000, or 2.4%, from \$21,240,000 to \$21,752,000.

Net interest margin for the nine months ended September 30, 2003 declined 34 basis points as the Corporation's yield on earning assets declined 83 basis points and the cost of supporting liabilities declined by 49 basis points.

For the quarter, net interest margin declined 47 basis points as the Corporation's yield on earning assets declined 1.03 percent and the cost of

Edgar Filing: FIRST MERCHANTS CORP - Form 8-K

supporting liabilities declined by 56 basis points.

Year-to-date gains from the sale of mortgage loans increased from \$990,000 to \$5,618,000, and the provision for loan losses increased from \$4,297,000 to \$8,430,000.

For the quarter, gains from the sale of mortgage loans increased by \$876,000 and the provision for loan losses decreased by \$115,000.

Michael L. Cox, President and Chief Executive Officer, commented that, "Changes in the yield curve, during the quarter, increased pressure on earnings as the Corporation maintains an asset sensitive interest rate risk position. This position has increased our dependence on gains generated from the sales of mortgage loans during this record low interest rate environment. The Federal Reserve Bank's reduction in the target fed funds rate of 25-basis points, during the last week of June, coupled with more than a 100-basis point increase in the 30-year treasury and mortgage rates, have proven to be challenging."

Total loans outstanding reached \$2.4 billion, an increase of \$355 million over the prior year. Of the increase, \$318 million is attributable to the acquisition of CNBC Bancorp on March 1, 2003. The remaining net increase of \$37 million resulted primarily from increased commercial real estate loans outstanding of \$55 million, mitigated by reductions in both residential real estate loans and individual loans for household and other personal expenditures.

Total non-performing assets decreased from 1.21% of total loans in the third quarter of 2002 to 1.13% as of September 30, 2003. The Corporation's allowance for loan losses increased to 1.27% versus 1.10% during the same period last year.

During the quarter, the Corporation completed a sale of non-performing loans. The sale reduced non-performing loans by \$2 million and significantly reduced classified assets in one bank. Additionally, the remaining banks in the Corporation reduced non-performing loans by another \$1.7 million.

The Corporation's Board of Directors also authorized management to proceed with its strategic initiative of minimizing the number of regulatory agencies governing its banks. The Corporation is in the process of converting all of its state chartered banks to National Charters. The Office of the Comptroller of the Currency and the Federal Reserve Bank will be the remaining regulators once the conversion is complete.
