NOTE A - BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Blair Corporation and its wholly-owned subsidiaries have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six months ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information refer to the financial statements and footnotes included in the Company's annual report on Form 10-K for the year ended December 31, 2002.

The consolidated financial statements include the accounts of Blair Corporation and its wholly-owned subsidiaries. All significant intercompany accounts are eliminated upon consolidation.

As of June 30, 2003 the Company formed a new wholly-owned subsidiary, Allegheny Trail Corp., to launch a wholesale business targeted primarily at outdoor sporting goods and recreational retailers. Allegheny Trail will offer a core product line of men's and women's outdoor apparel basics at entry-level price points allowing retailers to be more competitive with major brands. Virtually no activity took place with regard to this entity in the second quarter of 2003.

NOTE C - Stock Compensation

In accordance with the provisions of Statement of Financial Accounting Standards No. 123 the Company has elected to continue applying the provisions of Accounting Principles Board Opinion No. 25 and related interpretations in accounting for its stock-based compensation plans. Accordingly, the Company does not recognize compensation expense for stock options when the stock option price at the grant date is equal to or greater than the fair market value of the stock at that date. The following illustrates the pro forma effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123:

BLAIR CORPORATION AND SUBSIDIARY

June 30, 2003

NOTE C - Stock Compensation - continued

Pro forma information regarding net income and earnings per share is required by SFAS No. 123, and has been determined as if the Company had accounted for its stock options under the fair value method of SFAS No. 123. The fair value for these options was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions: risk-free interest rates of 3.49%, 4.95% and 5.20% for stock options issued 4/15/03, 4/15/02 and 4/16/01, respectively; dividend yields of 2.54%, 3.11% and 3.50% for stock options issued 4/15/03, 4/15/02 and 4/16/01, respectively; volatility factors of the expected market price of the Company's common stock of .540, .564 and .547 for stock options issued 4/15/03, 4/15/02 and 4/16/01, respectively; and a weighted-average expected life of 7 years for the stock options issued 4/15/03, 4/15/02 and 4/16/01. The per share fair value of the options granted was determined to be \$10.63, \$8.83 and \$7.40 for stock options issued 4/15/03, 4/15/02 and 4/16/01, respectively.

NOTE D - EARNINGS PER SHARE AND WEIGHTED AVERAGE SHARES OUTSTANDING Earnings per share are computed in accordance with Statement of Financial Accounting Standards No. 128, "Earnings per Share." Basic earnings per share are computed using the weighted average number of shares of common stock outstanding during the period. For diluted earnings per share, the weighted average number of shares includes common stock equivalents related to stock options.

The following table sets forth the computations of basic and diluted earnings per share as required by Statement No. 128:

In a previous year, the Company incurred a net operating loss of approximately \$21 million in the State of Pennsylvania. Only \$20 million of the net operating loss is available to offset future income in the state because Pennsylvania limits the annual net operating loss carry forward to \$2 million for 10 years. A deferred tax asset has been established based on the \$20 million net operating loss available to be carried forward. The deferred tax asset is offset by a valuation allowance because it is uncertain as to whether the Company will generate sufficient income in the State of Pennsylvania in the future to absorb the net operating loss before they expire in 2011.

Components of the provision for deferred income tax (benefit) expense are as follows:

NOTE H - INVENTORIES

Inventories are valued at the lower of cost or market. Cost of merchandise inventories is determined principally on the last-in, first-out (LIFO) method. Cost of advertising and shipping supplies is determined on the first-in, first-out (FIFO) method. Advertising and shipping supplies include printed advertising material and related mailing supplies for promotional mailings which are generally scheduled to occur within two months. These costs are expensed when mailed. If the FIFO method had been used for all inventories, inventories would have increased by approximately \$5,676,000 at both June 30, 2003 and December 31, 2002. The Company has a reserve for slow moving and obsolete inventory amounting to \$3,940,000 at June 30, 2003, \$4,000,000 at December 31, 2002 and \$4,321,000 at June 30, 2002.

NOTE J - FINANCING ARRANGEMENTS

On December 20, 2001, the Company entered into a Credit Agreement with PNC Bank,

National Association, as agent, and certain other banks. The Agreement put in place a syndicated revolving credit facility of up to \$30 million, secured by inventory and certain other assets of the Company and its subsidiaries. As of June 30, 2003, the facility had lender commitments of \$28 million. The revolving credit facility expires on December 20, 2004. The credit agreement was amended on July 25, 2003 to increase the commitments to the facility from \$28 million to \$30 million. See Footnote Q Subsequent Events for further discussion. For each borrowing tranche, the Company may select from three options to determine the interest rate.

NOTE J - FINANCING ARRANGEMENTS - continued

The options are: a base rate option (greater of Prime or Fed Funds Rate plus .5% as of June 30, 2003); swing loan rate option (as quoted by PNC Bank); or Euro-rate option (Euro-rate plus 1.50%) as defined in the Credit Agreement. The Company is required to meet certain covenants that relate to tangible net worth, maintaining a defined leverage ratio and fixed charge coverage ratio, and complying with certain indebtedness restrictions. As of June 30, 2003, the Company was in compliance with all the Agreement's covenants. At June 30, 2003, the Company had no borrowings (loans) outstanding, but had letters of credit totaling \$14.8 million outstanding, which reduces the amount of borrowings available under the Credit Agreement. At December 31, 2002, the Company had no borrowings (loans) outstanding, but had letters of credit totaling \$16.2 million outstanding. At June 30, 2002, the Company had no borrowings (loans) outstanding, but had letters of credit totaling \$13.6 million outstanding under the Credit Agreement.

Also, on December 20, 2001, the Company completed a securitization of up to \$100 million in accounts receivable with PNC Bank, National Association, as administrator, and certain conduit purchasers. At December 20, 2001, the securitization had initial lender commitments of \$50 million. On April 9, 2003, the securitization was amended to increase the commitment level from \$50 million to \$70 million and extend the term to April 7, 2006. The interest rate charged approximates 1-month LIBOR plus 55 basis points. The amended securitization increased the interest rate spread to 80 basis points. The Company sells all right, title and interest in and to certain of its accounts receivable to Blair Factoring Company, a wholly-owned subsidiary. Blair Factoring Company is a separate bankruptcy remote special purpose entity that entered into a Receivables Purchase Agreement with PNC Bank, National Association, as administrator, and certain conduit purchasers. The Company's consolidated financial statements reflect all the accounts of Blair Factoring Company, including the receivables and secured borrowings. Transactions entered into under the Receivables Purchase Agreement are considered secured borrowings and collateral transactions under the provisions of Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities. At June 30, 2003, \$70 million of the \$100 million was available to the Company. The interest rate approximates 1-month LIBOR plus 80 basis points as defined in the Receivables Purchase Agreement. The securitization requires certain performance standards for the Company's accounts receivable portfolio in addition to complying with

Edgar Filing: BLAIR CORP - Form 10-Q

the covenants in the Credit Agreement. As of June 30, 2003, the Company was in compliance with all the requirements of the Receivables Purchase Agreement. At June 30, 2003, December 31, 2002, and June 30, 2002 the Company had \$15 million outstanding, the minimum amount required to be outstanding under the terms of the Receivables Purchase Agreement, all of which was classified as short-term.

NOTE K - NEW ACCOUNTING PRONOUNCEMENTS

Effective January 1, 2002, the Company adopted the provisions of SFAS No. 142 Goodwill and Other Intangible Assets and SFAS No. 143 Accounting For Asset Retirement Obligations. The Company adopted SFAS No. 148, Accounting For Stock-Based Compensation Transition and Disclosure an amendment of SFAS No. 123, Accounting for Stock-Based Compensation effective the year ending December 31, 2002. SFAS No. 145, Recission of FASB No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections, and FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others were adopted by the Company effective January 1, 2003. The adoption of these standards did not have a material impact on the Company's results of operations or financial condition.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets which supersedes SFAS No. 121 Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of. Although retaining many of the provisions of SFAS No. 121, SFAS No. 144 establishes a uniform accounting model for long-lived assets to be disposed. The Company's adoption of this statement in the first quarter of 2002 did not have an impact on the Company's financial results, but does impact the accounting treatment of the planned sale of the Blair Outlet Store in Erie, Pa. (See Note L)

In June 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities when the liability is incurred and not as a result of an entity's commitment to an exit plan. The statement is effective for exit or disposal activities initiated after December 31, 2002. The Company's adoption of this statement in the first quarter 2003 did not have an impact on the Company's financial results, but does impact the accounting treatment of the voluntary separation of employees due to the planned sale of the Blair Outlet Store in Erie. (See Note M)

In April 2003, the FASB issued SFAS No. 149 Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. This statement is generally effective for contracts entered into or modified after June 30, 2003. The Company believes the adoption of this standard will not have a material impact on its results of operations or financial condition.

Edgar Filing: BLAIR CORP - Form 10-Q

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This statement establishes standards for how an issuer classifies and measures in its statement of financial position certain financial instruments with characteristics of both liabilities and equity. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise at the beginning of the Company's fourth quarter. The Company believes the adoption of this standard will not have a material impact on its results of operations or financial condition.

NOTE L - Long-lived Assets Classified as Held for Sale Upon review of the Company's inventory liquidation strategy, the Company made the decision in January 2003 to close its liquidation outlet store located in Erie, Pa. This closure was effective at the close of business on March 28, 2003. The Company intends to sell the building and believes that the sale will be completed by March 2004. Evolvement of the Company's inventory liquidation strategy into more rapid and profitable methods of disposing obsolete and excess inventory led to this decision. Over the past three years, package insertions, telephone upsell promotions, sale catalogs and the growing e-commerce channel have proven to be more successful and profitable in moving inventory than the traditional outlet sales process. \$1,368,526 shown as Assets Held for Sale at June 30, 2003 and the \$1,669,299 shown as Assets Held for Sale at December 31, 2002 consist of the net book value of the land, land improvements and building. The carrying value of the asset was reduced as a result of the level of interest in the asset.

NOTE M - VOLUNTARY SEPARATION PROGRAM

In the first quarter of 2003, the Company accrued and charged to expense \$75,000 in separation costs. The costs were charged to General and Administrative Expense in the income statement. The one-time \$75,000 charge represents severance pay, related payroll taxes and medical benefits due the 32 eligible employees who accepted the voluntary separation program offered in connection with closing the Company's Outlet Store located in Erie, Pennsylvania on March 28, 2003. As of June 30, 2003, \$53,000 has been paid. This liability is considered satisfied and resulted in \$22,000 being taken back to income.

In the first quarter of 2001, the Company accrued and charged to expense \$2.5 million in separation costs. The costs were charged to General and Administrative Expense in the income statement. The one-time \$2.5 million charge represents severance pay, related payroll taxes and medical benefits due the 56 eligible employees who accepted the voluntary separation program rather than relocate or accept other positions in the Company. The program was offered to eligible employees of the Blair Mailing Center from which the merchandise returns operations have been relocated and the mailing operations have been outsourced. As of June 30, 2003, approximately \$1.56 million of the \$2.5 million has been paid.

NOTE N - CONTINGENCIES

The Company is involved in certain items of litigation, arising in the normal course of business. While it cannot be predicted with certainty, management believes that the outcome will not have a material effect on the Company's financial condition or results of operations.

NOTE O - USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE P - RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified to conform with the current year presentation.

NOTE Q - SUBSEQUENT EVENTS

The Company amended its December 20, 2001 revolving credit facility as of July 25, 2003. The amendment increases the total commitments, including letters of credit, from \$28 million to \$30 million. The limit for letters of credit increased from \$20 million to \$30 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

-15-

BLAIR CORPORATION AND SUBSIDIARIES

June 30, 2003

Results of Operations

Comparison of Second Quarter 2003 and Second Quarter 2002

Net income for the second quarter ended June 30, 2003 decreased 41.7% to \$4,100,653 or \$.51 per basic and diluted share, compared to net income of \$7,032,678, or \$.88 per basic and diluted share, for the second quarter ended June 30, 2002. Results for the second quarter of 2003 reflect the impact of increases in cost of goods sold and advertising expenses.

Net sales for the second quarter of 2003 increased \$6.8 million to \$154.3 million or 4.6% compared to net sales for the second quarter of 2002. The increase in net sales was primarily attributable to strategic increases in catalog mailings to current customers that served to generate sales and improve inventory management. Actual response rates were lower in the second quarter of 2003 than in the second quarter of 2002. Gross sales revenue generated per advertising dollar decreased approximately 7% in the second quarter of 2003 as compared to the second quarter of 2002. The total number of orders shipped increased 7% while the average order size decreased 3% in the second quarter of 2003 as compared to the second quarter of 2002. The provision for returned merchandise as a percentage of gross mail order sales decreased 6% or \$1.4 million in the second quarter of 2003 as compared to the second quarter of 2002. Management believes that this decrease is attributed to ongoing efforts to improve product quality and fit.

Other income is flat in the second quarter of 2003 as compared to the second quarter of 2002.

Edgar Filing: BLAIR CORP - Form 10-Q

Cost of goods sold increased \$3.8 million or 5.5% to \$72.8 million in the second quarter of 2003 as compared to the second quarter of 2002. As a percentage of net sales, cost of goods sold increased to 47.1% in the second quarter of 2003 from 46.7% in the second quarter of 2002. The increase in cost of goods sold reflects an increase in sales generated from promotional activities intended to address lower response rates. In addition, higher inbound freight expenses and the postal rate increase of approximately 10% that took place on June 30, 2002 and impacted outbound shipping expense, contributed to the increase.

Advertising expenses in the second quarter of 2003 increased \$4.6 million or 12.6% to \$41.5 million from the second quarter of 2002. Strategic increases in catalog mailings to current customers account for the majority of the increase. The June 30, 2002 postal rate increase and a 2% increase in printing costs effective April 1, 2003 also contributed to this variance.

The total number of catalog mailings released in the second quarter of 2003 increased by 9.5 million or 20% as compared to the second quarter of 2002. The total number of prospect catalog mailings decreased by 1.1 million or 6% compared to the second quarter of 2002. Print advertising for Crossing Pointe is all via catalog and is included in the catalog mailings numbers.

The total number of letter mailings released in the second quarter of 2003 decreased by 1.2 million or 6% versus the second quarter of 2002.

Total circulation of the co-op and media advertising programs increased by 2.9 million pieces or 2% in the second quarter of 2003 as compared to the second quarter of 2002.

Comparison of Second Quarter 2003 and Second Quarter 2002 -
Continued

The Company launched e-commerce sites for Blair www.blair.com and Crossing Pointe www.crossingpointe.com in the third quarter of 2000. In the second quarter of 2003, the Company generated \$22.8 million in e-commerce gross sales demand, as compared to \$16.1 million in the second quarter of 2002.

General and administrative expense increased \$1.6 million or 4.9% to \$34.9 million in the second quarter of 2003 as compared to the second quarter of 2002. The higher general and administrative expense was primarily attributable to increased employee costs and additional bank fees incurred as part of rate increases for check processing and costs associated with the amended securitization. The amended securitization, which is discussed further in the "Liquidity and Sources of Capital" section, provided additional liquidity and extended the term.

The provision for doubtful accounts increased \$1.1 million or 15.4% to \$8.4

Edgar Filing: BLAIR CORP - Form 10-Q

million from the second quarter of 2003 to the second quarter of 2002. The estimated bad debt rate used in the second quarter of 2003 was approximately 12% or 89 basis points higher than the bad debt rate used in the second quarter of 2002. The estimated bad debt rate has increased primarily due to increased credit offers to both Blair and Crossing Pointe prospects, which traditionally result in higher bad debts. These offers to prospects are intended to increase sales and the Company's customer file.

The provision for doubtful accounts is based on current expectations (consumer credit and economic trends, etc.), sales mix (prospect/customer) and current and prior years' experience, especially delinquencies (accounts over 30 days past due) and actual charge-offs (accounts removed from accounts receivable for non-payment). At June 30, 2003, the delinquency rate of open accounts receivable was approximately 10% or 121 basis points higher than at June 30, 2002. Conversely, the charge-off rate for the second quarter of 2003 was 3% or 4 basis points less than the charge-off rate for the first quarter of 2002. Recoveries of bad debts previously charged off have been credited back against the allowance for doubtful accounts. The allowance for doubtful accounts as a percentage of delinquent accounts decreased 5% or 861 basis points at June 30, 2003 as compared to June 30, 2002. The allowance for doubtful accounts as a percentage of open accounts is the same at June 30, 2003 and June 30, 2002. At this time, the Company feels that the allowance for doubtful accounts is sufficient to cover the charge-offs from the current customer accounts receivable portfolio. Also, credit granting, collection and behavior models continue to be updated and improved, and, along with expanding database capabilities, provide valuable credit-marketing opportunities.

Interest expense decreased approximately \$30,000 or 24% to \$95,380 in the second quarter of 2003 as compared to the second quarter of 2002. Interest expense results primarily from the Company's required borrowings under the Receivables Purchase Agreement. Interest rates have been lower in the second quarter of 2003.

Income taxes as a percentage of income before income taxes were 38.2% in the second quarter of 2003 and 36.0% in the second quarter of 2002. The federal income tax rate was 35% in both years. The difference in the total income tax rate was caused by a change in the Company's effective state income tax rate.

Comparison of Six Month Periods Ended June 30, 2003 and June 30, 2002

Net income for the six months ended June 30, 2003 decreased 63.6% to \$4,600,842, or \$.57 per share, as compared to \$12,633,809, or \$1.58 per share, for the six months ended June 30, 2002. Results for the first six months of 2003 reflect increases in cost of goods sold, advertising expenses, general & administrative expenses and the provision for doubtful accounts.

Edgar Filing: BLAIR CORP - Form 10-Q

Net sales for the first six months of 2003 increased \$8.6 million to \$291.4 million or 3% greater than net sales for the first six months of 2002. The increase in net sales was primarily attributable to strategic increases in catalog and letter mailings to current and prospective customers that served to generate sales, grow the customer file and improve inventory management. Actual response rates in the first six months of 2003 were lower than in the first six months of 2002. Gross sales revenue generated per advertising dollar decreased approximately 8% in the first six months of 2003 as compared to the first six months of 2002. The provision for returned merchandise as a percentage of gross mail order sales decreased 3.5% or \$1.6 million in the first six months of 2003 as compared to the first six months of 2002. Management attributes this favorable change to improved product quality and fit.

Other income decreased approximately \$287,000 or 1.4% to \$19.7 million in the first six months of 2003 as compared to the first six months of 2002. Lower finance charges and commissions were primarily responsible for the small reduction in other income. The lower finance charges resulted from decreased customer accounts receivable and the lower commissions resulted from decreased continuity program activity.

Cost of goods sold increased \$7.1 million or 5.4% to \$140.6 million in the first six months of 2003 as compared to the same period in 2002. As a percentage of net sales, cost of goods sold increased to 48.3% in the first six months of 2003 from 47.2% in the first half 2002. The increase in cost of goods sold reflects an increase in sales generated from promotional activities intended to address lower response rates. Further, higher inbound freight expenses, a greater mix of outbound packages in excess of one pound that increased shipping costs and the postal rate increase of approximately 10% that took place on June 30, 2002 contributed to the increase.

Advertising expenses in the first six months of 2003 increased \$9.0 million or 12.7% to \$80.1 million. Strategic increases in catalog and letter mailings to current and prospective customers account for the majority of the increase. The June 30, 2002 postal rate increase and a 2% increase in printing costs effective April 1, 2003 also contributed to this variance.

The total number of catalog mailings released in the first six months of 2003 was 24.0 million or 28.1% greater than those released in the first six months of 2002.

The total number of letter mailings released in the first six months of 2003 was 33.5 million or 2.7% greater than those released in the first six months of 2002.

Total circulation of the co-op and media advertising programs increased 19.6 million pieces or 4.3% in the first six months of 2003 as compared to the first six months of 2002.

Comparison of Six Month Periods Ended June 30, 2003 and June 30, 2002 - continued

In the first six months of 2003, the Company has generated \$41.7 million in e-commerce gross sales demand, an increase of 30.7% in the first six months of 2002. In all of 2002, the Company generated \$65.7 million in e-commerce orders.

General and administrative expense increased \$2.7 million from \$63.8 million to \$66.5 million or 4.2% in the first six months of 2003 as compared to the first six months of 2002. The higher general and administrative expense in the first six months of 2003 was primarily attributable to increased employee costs, additional bank fees and costs incurred to service an expanded credit program. The increased employee costs were associated with the completion of enhancements and automation of the Company's fulfillment capabilities. The additional bank fees were incurred as part of rate increases for check processing and costs associated with the amended securitization. The amended securitization, which is discussed further in the "Liquidity and Sources of Capital" section, provided additional liquidity and extended the term.

The provision for doubtful accounts increased \$1.7 million from \$14.5 million to \$16.2 million or 12.0% from the first six months of 2003 compared to the same period in 2002. The estimated bad debt rate used in the first six months of 2003 was approximately 10% or 78 basis points higher than the bad debt rate used in the first six months of 2002. The estimated bad debt rate has increased primarily due to increased credit offers to both Blair and Crossing Pointe prospects, which traditionally result in higher bad debts. These offers to prospects are made to increase sales and to build the customer file.

The provision for doubtful accounts is based on current expectations (consumer credit and economic trends, etc.), sales mix (prospect/customer) and current and prior years' experience, especially delinquencies (accounts over 30 days past due) and actual charge-offs (accounts removed from accounts receivable for non-payment). Also, credit granting, collection and behavior models continue to be updated and improved, and, along with expanding database capabilities, provide valuable credit-marketing opportunities.

Interest expense decreased approximately \$62,000 to \$184,840 or 25.1% in the first six months of 2003 as compared to the first six months of 2002. Interest expense results primarily from the Company's required borrowings under the Receivables Purchase Agreement. Interest rates have been lower in the first six months of 2003.

Income taxes as a percentage of income before income taxes were 38.1% in the first six months of 2003 and 35.7% in the first six months of 2002. The federal income tax rate was 35% in both years. The difference in the total income tax rate was caused by a change in the Company's effective state income tax rate.

Liquidity and Sources of Capital

All working capital and cash requirements for the first six months of 2003 were met using funds from operations and surplus cash.

On December 20, 2001, the Company entered into a Credit Agreement with PNC Bank, National Association, as agent, and certain other banks. The Agreement put in place a syndicated revolving credit facility of up to \$30 million, secured by inventory and certain other assets of the Company and its subsidiaries. As of June 30, 2003, the facility had lender commitments of \$28 million. The revolving credit facility expires on December 20, 2004. For each borrowing tranche, the Company may select from three options to determine the interest rate. The options are: a base rate option (greater of Prime or Fed Funds Rate plus .5% as of June 30, 2003); swing loan rate option (as quoted by PNC Bank); or Euro-rate option (Euro-rate plus 1.50%) as defined in the Credit Agreement. The Company is required to meet certain covenants that relate to tangible net worth, maintaining a defined leverage ratio and fixed charge coverage ratio, and complying with certain indebtedness restrictions. As of June 30, 2003, the Company was in compliance with all the Credit Agreement's covenants. At June 30, 2003, the Company had no borrowings (loans) outstanding, but had letters of credit totaling \$14.8 million outstanding, which reduces the amount of borrowings available under the Credit Agreement. At December 31, 2002, the Company had no borrowings (loans) outstanding, but had letters of credit totaling \$16.2 million outstanding. At June 30, 2002, the Company had no borrowings (loans) outstanding, but letters of credit totaling \$13.6 million outstanding under the Credit Agreement.

Also, on December 20, 2001, the Company completed a securitization of up to \$100 million in accounts receivable with PNC Bank, National Association, as administrator, and certain conduit purchasers. At December 20, 2001, the securitization had initial lender commitments of \$50 million. On April 9, 2003, the securitization was amended to increase the commitment level from \$50 million to \$70 million and extend the term to April 7, 2006. The interest rate charged approximates 1-month libor plus 55 basis points. The amended securitization increased the interest rate spread to 80 basis points. The Company sells all right, title and interest in and to certain of its accounts receivable to Blair Factoring Company, a wholly-owned subsidiary. Blair Factoring Company is a separate bankruptcy remote special purpose entity that entered into a Receivables Purchase Agreement with PNC Bank, National Association, as administrator, and certain conduit purchasers. The Company's consolidated financial statements reflect all the accounts of Blair Factoring Company, including the receivables and secured borrowings. Transactions entered into under the Receivables Purchase Agreement are considered secured borrowings and collateral transactions under the provisions of Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities. At June 30, 2003, \$70 million of the \$100 million was available to the Company. The securitization requires certain performance standards for the Company's accounts receivable portfolio in addition to complying with the covenants in the Credit Agreement. As of June 30, 2003, the Company was in compliance with all the requirements of

Edgar Filing: BLAIR CORP - Form 10-Q

the Receivables Purchase Agreement. At June 30, 2003, December 31, 2002, and June 30, 2002, the Company had \$15 million outstanding, the minimum amount required to be outstanding under the terms of the Receivables Purchase Agreement, all of which was classified as short-term.

The ratio of current assets to current liabilities was 4.12 at June 30, 2003, 3.39 at December 31, 2002 and 3.67 at June 30, 2002. Working capital increased \$2.9 million to \$205.2 million in the first six months of 2003 primarily due to a smaller amount of purchases of property, plant and equipment. The 2003 increase was primarily reflected in decreased trade accounts payable and accruals for expenses exceeding decreases in cash and cash equivalents and customer accounts receivable.

Merchandise inventory turnover was 3.6 times at June 30, 2003, 3.4 times at December 31, 2002 and 2.9 times at June 30, 2002. Merchandise inventory as of June 30, 2003 of \$52.1 million was \$3 million or 6% lower than at December 31, 2002 and \$4 million or 8% greater than at June 30, 2002. The merchandise inventory levels are net of the Company's reserve for inventory obsolescence. The reserve totaled \$3.9 million at June 30, 2003, \$4.0 million at December 31, 2002 and \$4.3 million at June 30, 2002. Inventory write-offs and write-downs (reductions to below cost) charged against the reserve for obsolescence were \$2.4 million in the first six months of 2003 and \$3.4 million in the first six months of 2002. A monthly provision for obsolete inventory is added to the reserve and expensed to cost of goods sold, based on the levels of merchandise inventory and merchandise purchases.

An operating segment is identified as a component of an enterprise for which separate financial information is available for evaluation by the chief decision-maker, or decision-making group, in deciding on how to allocate resources and assess performance. The Company operates as one business segment consisting of the Womenswear, Menswear, Home and Crossing Pointe product lines. Crossing Pointe was added in the third quarter of 2000 and is becoming a significant source of revenue.

The Company looks upon its credit granting (Blair Credit) as a marketing advantage. Blair Credit customers, on average, buy more, buy more often and are more loyal than cash and credit card customers. The Company has determined that the benefit from the increased sales volume achieved by offering the Blair Credit is significant and more than outweighs the cost of the credit program. The cost of the credit program is comparable to the discount rates of third party credit cards. The Company's gross credit sales increased 3.5% in the first six months of 2003 as compared to the first six months of 2002.

The Company has added new facilities, modernized its existing facilities and acquired new cost-saving equipment during the last several years. Capital expenditures for property, plant and equipment totaled \$3.7 million during the first six months of 2003 and \$5.8 million during the first six months of 2002.

Capital expenditures had been projected to be \$15 million plus for each of the years 2001 and 2002 and nearly \$10 million for 2003. However, capital expenditures for 2001 were delayed due to economic conditions. This included slowing the implementation of the previously announced modernization and enhancement of the Company's fulfillment operations. The fulfillment project was completed in the second quarter at a total cost of \$13.2 million, down from earlier estimates of \$21 million. The Company anticipates that this equipment will increase the productivity of its fulfillment operations.

The Company continues to hold for sale its liquidation outlet store located in Erie, Pa. The Company believes the sale will be completed by March, 2004.

The Company has contractual obligations consisting of capital leases for data processing and telephone equipment, and operating leases for buildings and data processing, office and telephone equipment.

If an event of default should occur, payments and/or maturity of the lines of credit could be accelerated. The Company is not in default and does not expect to be in default of any of the provisions of the credit facilities.

The Company continues to have significant deferred tax assets primarily resulting from reserves against accounts receivable. The Company believes these assets are realizable based upon past earnings and availability in the carry-back period.

The Company recently declared a quarterly dividend of \$.15 per share payable on September 15, 2003. The Company has declared dividends for 280 consecutive quarters. It is the Company's intent to continue paying dividends; however, the Company will evaluate its dividend practice on an ongoing basis. See "Future Considerations".

The Company has, from the fourth quarter of 1996 through the year 2000, repurchased a total of 1,620,940 shares of its Common Stock. No shares were repurchased in 2001, 2002, or in the first six months of 2003.

Future cash needs will be financed by cash flow from operations, the existing

Edgar Filing: BLAIR CORP - Form 10-Q

borrowing arrangement and, if needed, other financing arrangements that may be available to the Company. The Company's current projection of future cash requirements, however, may be affected in the future by numerous factors, including changes in customer payments on accounts receivable, consumer credit, industry trends, sales volume, operating cost fluctuations, revised capital spending plans and unplanned capital spending.

Critical Accounting Policies

Preparation of the Company's financial statements requires the application of a number of accounting policies which are described in "Note 1, Significant Accounting Policies" in the "Notes to Consolidated Financial Statements" in the Company's 2002 Annual Report. The critical accounting policies, which if interpreted differently under different conditions or circumstances could result in material changes to the reported results, deal with properly valuing accounts receivable and inventory. Properly valuing accounts receivable and inventory requires establishing proper reserve and allowance levels, specifically the allowances for doubtful accounts and returns and the reserve for inventory obsolescence. The Company's senior financial management reviews the critical accounting policies and estimates with the Audit Committee of the Board of Directors.

The allowance for doubtful accounts and related items, provision for doubtful accounts and Blair Credit, are discussed in "Results of Operations," "Liquidity and Sources of Capital" and "Future Considerations." A change in the charge off rate would cause changes in the provision for doubtful accounts and the allowance for doubtful accounts. Based on the Company's 2002 level of credit sales and finance charges, net income would change by approximately \$2.5 million, or \$.31 per share, from a 1% change in the charge off rate.

The allowance for returns is a deduction from customer accounts receivable. A monthly provision for anticipated returns is recorded as a percentage of gross sales, based upon historical experience. The provision is charged against gross sales to arrive at net sales, and actual returns are charged against the allowance for returns. Returns are generally more predictable as they settle within two-to three months, but are impacted by season, new products and/or product lines, type of sale (cash, credit card, Blair Credit) and sales mix (prospect/customer). The Company feels that the allowance for returns is sufficient to cover the returns that will occur after June 30, 2003 from sales prior to July 1, 2003. A change in the returns rate would cause changes in the provision for returns and the allowance for returns. Based on the Company's 2002 level of sales, net income would change by approximately \$2.8 million, or \$.35 per share, from a 1% change in the returns rate.

The reserve for inventory obsolescence and related items, inventory levels and write-downs, are discussed in "Liquidity and Sources of Capital" and "Future Considerations". The Company feels that the reserve for inventory obsolescence is sufficient to cover the write-offs and write-downs that will occur after June 30, 2003 on merchandise inventory as of June 30, 2003. A change in the obsolescence rate would cause changes in cost of goods sold and the reserve for inventory obsolescence. Based on the Company's 2002 level of merchandise subject to obsolescence, net income would change by approximately \$1.8 million, or \$.22 per share, from a 1% change in the obsolescence rate.

Impact of Inflation and Changing Prices

Although inflation has moderated in our economy, the Company is continually seeking ways to cope with its impact. To the extent permitted by competition, increased costs are passed on to customers by selectively increasing selling prices over a period of time. Historically, profit margins have been pressured by postal and paper rate increases. Paper rates have moderated over the reporting period. Postal rates increased on January 10, 1999, on January 7, 2001, on July 1, 2001 and again on June 30, 2002. Based on recent public communications by the United States Postal Service, it is anticipated that postal rates will not increase again until 2006. The Company spent approximately \$97 million for postage and delivery services in 2002.

The Company principally uses the LIFO method of accounting for its merchandise inventories. Under this method, the cost of products sold reported in the financial statements approximates current costs and thus reduces distortion in reported income due to increasing costs. However, the Company has been experiencing consistent to declining merchandise costs and the LIFO reserve has remained relatively constant-\$5.7 million at June 30, 2003 and at December 31, 2002. At June 30, 2002, the LIFO reserve was \$5.4 million.

Property, plant and equipment are continuously being expanded and updated. Major projects are discussed under "Liquidity and Sources of Capital". Assets acquired in prior years will be replaced at higher costs but this will take place over many years. New assets, when acquired, will result in higher depreciation charges, but in many cases, due to technological improvements, savings in operating costs should result. The charges to operations for depreciation represent the allocation of historical costs incurred over past years and are significantly less than if they were based on the current cost of productive capacity being used.

Accounting Pronouncements

Effective January 1, 2002, the Company adopted the provisions of SFAS No. 142 Goodwill and Other Intangible Assets and SFAS No. 143 Accounting For Asset Retirement Obligations. The Company adopted SFAS No. 148, Accounting For Stock-Based Compensation Transition and Disclosure an amendment of SFAS No. 123, Accounting for Stock-Based Compensation effective the year ending December 31,2002.

SFAS No. 145, Recission of FASB No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections, and FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others were adopted by the Company effective January 1, 2003. The adoption of these standards did not have a material impact on the Company's results of operations or financial condition.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets which supersedes SFAS No. 121 Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of. Although retaining many of the provisions of SFAS No. 121, SFAS No. 144 establishes a uniform accounting model for long-lived assets to be disposed. The Company's adoption of this statement in the first quarter of 2002 did not have an impact on the Company's financial results, but does impact the accounting treatment of the planned sale of

Edgar Filing: BLAIR CORP - Form 10-Q

the Blair Outlet Store in Erie, Pa. (See Note L)

In June 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities when the liability is incurred and not as a result of an entity's commitment to an exit plan. The statement is effective for exit or disposal activities initiated after December 31, 2002. The Company's adoption of

this statement in the first quarter 2003 did not have an impact on the Company's financial results, but does impact the accounting treatment of the voluntary separation of employees due to the planned sale of the Blair Outlet Store in Erie. (See Note M)

In April 2003, the FASB issued SFAS No. 149 Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. This statement is generally effective for contracts entered into or modified after June 30, 2003. The Company believes the adoption of this standard will not have a material impact on its results of operations or financial condition.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This statement establishes standards for how an issuer classifies and measures in its statement of financial position certain financial instruments with characteristics of both liabilities and equity. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise at the beginning of the Company's fourth quarter. The Company believes the adoption of this standard will not have a material impact on its results of operations or financial condition.

Future Considerations

The Company is faced with the ever-present challenge of maintaining and expanding its customer file. This involves the acquisition of new customers (prospects), the conversion of new customers to established customers (active repeat buyers) and the retention and/or reactivation of established customers. These actions are vital in growing the business but are being negatively impacted by increased operating costs, increased competition in the retail sector, high levels of consumer debt, varying consumer response rates and an uncertain economy. The preceding factors can also negatively impact the Company's ability to properly value accounts receivable and inventories by making it more difficult to establish proper reserve and allowance levels, specifically, the allowances for doubtful accounts and returns and the reserve for inventory obsolescence.

Edgar Filing: BLAIR CORP - Form 10-Q

The Company's marketing strategy includes targeting customers in the "40 to 60, low-to-moderate income" market and in the "60+, low-to-moderate income" market. The "40 to 60" market is the fastest growing segment of the population. Also, customers in the "low-to-moderate income" market tend to be more credit-needy and utilize Blair credit to a greater degree. Success of the Company's marketing strategy requires investment in database management, financial and operating systems, prospecting programs, catalog marketing, new product lines, telephone call centers, e-commerce, fulfillment operations and credit management. Management believes that these investments should improve Blair Corporation's position in new and existing markets and provide opportunities for future earnings growth.

The Company has a working arrangement with accomplished actress, artist, author and mother, Jane Seymour, to launch the "Jane Seymour Signature Collection" of women's apparel. The Jane Seymour inspired womens fashions are being sold exclusively through the Company's Crossing Pointe catalog and website (www.crossingpointe.com). The first "Jane Seymour Signature Collection" fashions previewed in early January 2002 on the Crossing Pointe website and debuted in the Crossing Pointe Spring 2002 Catalog mailed at the end of January 2002.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The carrying amounts of cash, customer accounts receivable, accounts payable, and accrued liabilities approximate fair value due to the short-term maturities of these assets and liabilities. The interest rates on the Company's securitized and revolving credit facilities are adjusted regularly to reflect current market rates. Accordingly, the carrying amounts of the Company's borrowings also approximate fair value.

ARTICLE III

Meeting of Stockholders

[1] Annual Meetings. An annual meeting of the stockholders, for the election of directors to succeed those whose terms expire and for the transaction of such other business as may properly come before the meeting shall be held at such place, on such date, and at such time as the board of directors shall each year fix, which date shall be within thirteen (13) months subsequent to the later of the date of incorporation or the last annual meeting of stockholders.

[2] Special Meetings. Special meetings of stockholders, for any purposes other than those required by statute, may be called by the Chairman of the Board or the President, and shall be called by the Secretary at the direction of such officer(s) or a majority of the board of directors. Such request shall state the purpose or purposes of the meeting and shall be delivered by the Chairman of the Board, the President or the Secretary. No business, other than that specified in the notice of meeting, shall be transacted at any special meeting.

[3] Notice. Notice of the annual meeting of stockholders shall be mailed or as otherwise permitted by law to each stockholder entitled to vote thereat, at his address, as the same appears on the books of the Corporation, not less than ten (10) nor more than sixty (60) days before the date on which the meeting is to be held, except as otherwise provided herein or required by law. Such notice need not specify the business to be transacted.

-36-

Exhibit 3.2

When a meeting is adjourned to another place, date or time, written notice need not be given of the adjourned meeting if the place, date and time thereof

Edgar Filing: BLAIR CORP - Form 10-Q

are announced at the meeting at which the adjournment is taken; provided, however, that if the date of any adjourned meeting is more than thirty (30) days after the date of which the meeting was originally noticed, or if a new record date is fixed for the adjourned meeting, written notice of the place, date, and time of the adjourned meeting shall be given in conformity herewith. At any adjourned meeting, any business may be transacted which might have been transacted at the original meeting.

[4] Quorum. Except as otherwise required by law, by the Certificate of Incorporation of this Corporation or by these Bylaws, the presence, in person or by proxy, of stockholders entitled to cast a majority in number of the aggregate number of votes to which the Common Stock shall be entitled, shall constitute a quorum at all meetings of the stockholders. Where a separate vote by a class or classes is required, a majority of the shares of such class or classes present in person or represented by proxy and entitled to vote shall constitute a quorum entitled to take action with respect to that vote on that matter.. If a quorum shall fail to attend any meeting, the Chairman of the Board or the President of the Corporation may adjourn the meeting to another place, date, or time. At any such adjourned meeting at which the requisite amount of voting stock shall be represented, any business may be transacted which might have been transacted at the meeting as originally noticed.

[5] Organization. Such person as the board of directors may have designated or, in the absence of such a person, the Chairman of the Board of the Corporation or, in his or her absence, such person as may be chosen by the holders of a majority of the shares entitled to vote who are present, in person or by proxy, shall call to order any meeting of the stockholders and act as chairman of the meeting. In the absence of the Secretary of the Corporation, the secretary of the meeting shall be such person as the chairman of the meeting appoints.

[6] Conduct of Business.

(a) The chairman of any meeting of stockholders shall determine the order of business and the procedures at the meeting, including such regulation of the manner of voting and the conduct of discussion as seem to him or her in order. The date and time of the opening and closing of the polls for each matter upon which the stockholders will vote at the meeting shall be announced at the meeting.

(b) At any annual meeting of the stockholders, only such business shall be conducted as shall have been brought before the meeting: (i) by or at the direction of the board of directors or (ii) by any stockholder of the Corporation who is entitled to vote with respect thereto and who complies with the notice procedures set forth in this Section 6(b). For business to be properly brought before an annual meeting by a stockholder, the business must relate to a proper subject matter for stockholder action and the stockholder must have given timely notice thereof in writing to the Secretary of the Corporation. To be timely, a stockholder's notice must be delivered or mailed to and received at the principal executive offices of the Corporation not less than ninety (90) days prior to the date of the annual meeting; provided, however, that in the event that less than one hundred (100) days' notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be received not later than the close of business on the 10th day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure was made. A stockholder's notice to the Secretary shall set forth as to each matter such stockholder proposes to bring before the annual meeting: (i) a brief description of the business desired to be brought before the annual meeting and the reasons for conducting such business at the annual meeting; (ii) the name and address,

Exhibit 3.2

as they appear on the Corporation's books, of the stockholder proposing such business; (iii) the class and number of shares of the Corporation's capital stock that are beneficially owned by such stockholder; and (iv) any material interest of such stockholder in such business.

Notwithstanding anything in these Bylaws to the contrary, no business shall be brought before or conducted at an annual meeting except in accordance with the provisions of this Section 6(b). The officer of the Corporation or other person presiding over the annual meeting shall, if the facts so warrant, determine and declare to the meeting that business was not properly brought before the meeting in accordance with the provisions of this Section 6(b) and, if he should so determine, he shall so declare to the meeting and any such business so determined to be not properly brought before the meeting shall not be transacted.

At any special meeting of the stockholders, only such business shall be conducted as shall have been brought before the meeting by or at the direction of the board of directors.

(c) Only persons who are nominated in accordance with the procedures set forth in these Bylaws shall be eligible for election as directors. Nominations of persons for election to the board of directors of the Corporation may be made at a meeting of stockholders at which directors are to be elected only: (i) by or at the direction of the board of directors; or (ii) by any stockholder of the Corporation entitled to vote for the election of directors at the meeting who complies with the notice procedures set forth in this Section 6(c). Such nominations, other than those made by or at the direction of the board of directors, shall be made by timely notice in writing to the Secretary of the Corporation. To be timely, a stockholder's notice shall be delivered or mailed to and received at the principal executive offices of the Corporation not less than ninety (90) days prior to the date of the meeting; provided, however, that in the event that less than one hundred (100) days' notice or prior disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be so received not later than the close of business on the 10th day following the day on which such notice of the date of the meeting was mailed or such public disclosure was made. Such stockholder's notice shall set forth: (i) as to each person whom such stockholder proposes to nominate for election or re-election as a director, all information relating to such person that is required to be disclosed in solicitations of proxies for election of directors, or is otherwise required, in each case pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); and (ii) as to the stockholder giving the notice (x) the name and address, as they appear on the Corporation's books, of such stockholder and (y) the class and number of shares of the Corporation's capital stock that are beneficially owned by such stockholder. At the request of the board of directors, any person nominated by the Board of directors for election as a director shall furnish to the Secretary of the Corporation that information required to be set forth in a stockholder's notice of nomination which pertains to the

Edgar Filing: BLAIR CORP - Form 10-Q

nominee. The officer of the Corporation or other person presiding at the meeting shall, if the facts so warrant, determine that a nomination was not made in accordance with such provisions and, if he or she shall so determine, he or she shall so declare to the meeting and the defective nomination shall be disregarded.

[7] Proxies. Any stockholder entitled to vote at any meeting of stockholders may be represented and vote thereat by proxy appointed by instrument in writing subscribed by such stockholder and filed in accordance with the procedure established for the meeting. Any facsimile telecommunications or other reliable reproduction of the writing or transmission created pursuant to this paragraph may be substituted or used in lieu of the original writing or transmission for any and all purposes for which the original writing or transmission could be used, provided that such copy, facsimile telecommunication

-38-

or other reproduction shall be a complete reproduction of the entire original writing or transmission. A proxy shall not be valid for more than three (3) months, unless a longer time is expressly provided therein, and unless irrevocable, a proxy shall be revocable at will. The grant of a later proxy revokes any earlier proxy unless the earlier proxy is irrevocable. The presence at any meeting of any stockholder who has given a proxy does not revoke the proxy unless the stockholder files written notice of the revocation with the secretary of the meeting prior to the voting of the proxy or votes the shares subject to the proxy by written ballot.

[8] Vote by Ballot. The vote for directors, and, upon the demand of any stockholder, the vote upon any question before the meeting, shall be by ballot. Except as otherwise required by law or the Certificate of Incorporation, all matters shall be determined by a majority vote of all outstanding shares of the Corporation's voting stock present in person or represented by proxy.

[9] Voting Lists. The Secretary shall prepare, at least ten days before each election of directors, a complete list of the stockholders entitled to vote, arranged in alphabetical order, with the residence of and the number of voting shares held by each stockholder, which shall be open for the examination of any stockholder, at the place where said election is to be held, during the whole time of the election.
