FORM 10-Q

(Mark One)

[X] Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended July 31, 2013 or

[ ] Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____ .

Commission file number 1-8245

NORTH EUROPEAN OIL ROYALTY TRUST
(Exact name of registrant as specified in its charter)

Delaware	22-2084119
(State of organization)	(I.R.S. Employer I.D. No.)

Suite 19A, 43 West Front Street, Red Bank, New Jersey 07701
(Address of principal executive offices)

(732) 741-4008
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.
Yes X No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☒

Non-accelerated filer ☐ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Class	Outstanding at July 31, 2013
Units of Beneficial Interest	9,190,590

PART I -- FINANCIAL INFORMATION

Item 1. Financial Statements.

STATEMENTS OF ASSETS, LIABILITIES AND TRUST CORPUS (NOTE 1)

JULY 31, 2013 AND OCTOBER 31, 2012

(Unaudited)

	2013	2012
ASSETS		
Current assets - - Cash and cash equivalents	$ 4,561,514	$ 4,778,199
Producing gas and oil royalty rights, net of amortization (Notes 1 and 2)	1	1
Total Assets	$ 4,561,515	$ 4,778,200
LIABILITIES AND TRUST CORPUS		
Current liabilities - - Distributions to be paid to unit owners, paid August 2013 and November 2012	$ 4,503,389	$ 4,687,200
Trust corpus (Notes 1 and 2)	1	1
Undistributed earnings	58,125	90,999
Total Liabilities and Trust Corpus	$ 4,561,515	$ 4,778,200

The accompanying notes are an integral part

of these financial statements.

STATEMENTS OF REVENUE COLLECTED AND EXPENSES PAID (NOTE 1)

FOR THE THREE MONTHS ENDED JULY 31, 2013 AND 2012

(Unaudited)

	2013	2012
German gas, sulfur and oil royalties received	$ 4,687,351	$ 5,846,833
Interest income	4,818	10,077
Trust Income	$ 4,692,169	$ 5,856,910
Non-related party expenses	211,288	243,407
Related party expenses (Note 3)	21,495	24,409
Trust Expenses	(232,783)	(267,816)
Net Income	$ 4,459,386	$ 5,589,094
Net income per unit	$ .49	$ .61
Distributions per unit paid or to be paid to unit owners	$ .49	$ .61

The accompanying notes are an integral part
of these financial statements.

STATEMENTS OF REVENUE COLLECTED AND EXPENSES PAID (NOTE 1)

FOR THE NINE MONTHS ENDED JULY 31, 2013 AND 2012

(Unaudited)

	2013	2012
German gas, sulfur and oil royalties received	$16,531,549	$18,826,729
Interest income	20,353	31,634
Trust Income	$16,551,902	$18,858,363
Non-related party expenses	713,579	831,679
Related party expenses (Note 3)	63,382	96,212
Trust Expenses	(776,961)	(927,891)
Net Income	$15,774,941	$17,930,472
Net income per unit	$1.72	$1.95
Distributions per unit paid or to be paid to unit owners	$1.72	$1.95

The accompanying notes are an integral part
of these financial statements.

STATEMENTS OF UNDISTRIBUTED EARNINGS (NOTE 1)
FOR THE NINE MONTHS ENDED JULY 31, 2013 AND 2012
(Unaudited)

	2013	2012
Balance, beginning of period	$ 90,999	$ 89,889
Net income	15,774,941	17,930,472
	15,865,940	18,020,361
Less:		
Current year distributions paid or to be paid to unit owners	15,807,815	17,921,651
Balance, end of period	$ 58,125	$ 98,710

The accompanying notes are an integral part
of these financial statements.

STATEMENTS OF CHANGES IN CASH AND CASH EQUIVALENTS (NOTE 1)

FOR THE NINE MONTHS ENDED JULY 31, 2013 AND 2012

(Unaudited)

	2013	2012
Sources of cash and cash equivalents:		
German gas, sulfur and oil royalties	$16,531,549	$18,826,729
Interest income	20,353	31,634
	16,551,902	18,858,363
Uses of cash and cash equivalents:		
Payment of Trust expenses	776,961	927,891
Distributions paid	15,991,626	18,197,367
	16,768,587	19,125,258
Net increase (decrease) in cash and cash equivalents during the period	(216,685)	(266,895)
Cash and cash equivalents, beginning of period	4,778,199	5,971,866
Cash and cash equivalents, end of period	$ 4,561,514	$ 5,704,971

The accompanying notes are an integral part

of these financial statements.

NORTH EUROPEAN OIL ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

(1) Summary of significant accounting policies:

Basis of accounting -

The accompanying financial statements of North European Oil Royalty Trust (the "Trust") are prepared in accordance with the rules and regulations of the SEC. Financial statement balances and financial results are presented on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States ("GAAP basis"). In the opinion of management, all adjustments that are considered necessary for a fair presentation of these financial statements, including adjustments of a normal, recurring nature, have been included.

On a modified cash basis, revenue is earned when cash is received and expenses are incurred when cash is paid. GAAP basis financial statements disclose revenue as earned and expenses as incurred, without regard to receipts or payments. The modified cash basis of accounting is utilized to permit the accrual for distributions to be paid to unit owners (those distributions approved by the Trustees for the Trust). The Trust's distributable income represents royalty income received by the Trust during the period plus interest income less any expenses incurred by the Trust, all on a cash basis. In the opinion of the Trustees, the use of the modified cash basis of accounting provides a more meaningful presentation to unit owners of the results of operations of the Trust.

The results of any interim period are not necessarily indicative of the results to be expected for the fiscal year. These financial statements should be read in conjunction with the financial statements that were included in the Trust's Annual Report on Form 10-K for the year ended October 31, 2012 (the "2012 Form 10-K"). The Statements of Assets, Liabilities and Trust Corpus included herein contain information from the Trust's 2012 Form 10-K.

Producing gas and oil royalty rights -

The rights to certain gas and oil royalties in Germany were transferred to the Trust at their net book value by North European Oil Company (the "Company") (see Note 2). The net book value of the royalty rights has been reduced to one dollar ($1) in view of the fact that the remaining net book value of royalty rights is de minimis relative to annual royalties received and distributed by the Trust and does not bear any meaningful relationship to the fair value of such rights or the actual amount of proved producing reserves.

Federal and state income taxes -

The Trust, as a grantor trust, is exempt from federal income taxes

under a private letter ruling issued by the Internal Revenue Service. The Trust has no state income tax obligations.

Cash and cash equivalents -

Cash and cash equivalents are defined as amounts deposited in bank accounts and amounts invested in certificates of deposit and U. S. Treasury bills with original maturities generally of three months or less from the date of purchase. The investment options available to the Trust are limited in accordance with specific provisions of the Trust Agreement. As of July 31, 2013, the uninsured amounts held in the Trust's U.S. bank accounts were approximately $4,307,000. In addition, approximately $6,000 was held in the Trust's German account at July 31, 2013.

Net income per unit -

Net income per unit is based upon the number of units outstanding at the end of the period. As of both July 31, 2013 and 2012, there were 9,190,590 units of beneficial interest outstanding.

New accounting pronouncements -

The Trust is not aware of any recently issued, but not yet effective, accounting standards that would be expected to have a significant impact on the Trust's financial position or results of operations.

(2) Formation of the Trust:

The Trust was formed on September 10, 1975. As of September 30, 1975, the Company was liquidated and the remaining assets and liabilities of the Company, including its royalty rights, were transferred to the Trust. The Trust, on behalf of the owners of beneficial interest in the Trust, holds overriding royalty rights covering gas and oil production in certain concessions or leases in the Federal Republic of Germany. These rights are held under contracts with local German exploration and development subsidiaries of ExxonMobil Corp. and the Royal Dutch/Shell Group of Companies. Under these contracts, the Trust receives various percentage royalties on the proceeds of the sales of certain products from the areas involved. At the present time, royalties are received for sales of gas well gas, oil well gas, crude oil, condensate and sulfur.

(3) Related party transactions:

John R. Van Kirk, the Managing Director of the Trust, provides office space and office services to the Trust at cost. For such office space and office services, the Trust reimbursed the Managing Director $8,040 and $6,173 in the third quarter of fiscal 2013 and 2012, respectively. For such office space and office services, the Trust reimbursed the Managing Director $18,208 and $18,422 in the first nine months of fiscal 2013 and 2012, respectively.

Lawrence A. Kobrin, a Trustee of the Trust, is a Senior Counsel at Cahill Gordon & Reindel LLP, which serves as counsel to the Trust. For the third quarter of fiscal 2013 and 2012, the Trust paid Cahill Gordon & Reindel LLP $13,455 and $18,236 for legal services, respectively. For the first nine months of fiscal 2013 and 2012, the Trust paid Cahill Gordon & Reindel LLP $45,174 and $77,790 for legal services, respectively.

(4) Employee benefit plan:

The Trust has established a savings incentive match plan for employees (SIMPLE IRA) that is available to both employees of the Trust, one of whom is the Managing Director. The Trustees have authorized the Trust to make contributions to the accounts of the employees, on a matching basis, of up to 3% of cash compensation paid to each employee effective for the 2013 and 2012 calendar years.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Summary

The Trust is a passive fixed investment trust which holds overriding royalty rights, receives income under those rights from certain operating companies, pays its expenses and distributes the remaining net funds to its unit owners. As mandated by the Trust Agreement, distributions of income are made on a quarterly basis. These distributions, as determined by the Trustees, constitute substantially all of the funds on hand after provision is made for Trust expenses then anticipated.

The Trust does not engage in any business or extractive operations of any kind in the areas over which it holds royalty rights and is precluded from engaging in such activities by the Trust Agreement. There are no requirements, therefore, for capital resources with which to make capital expenditures or investments in order to continue the receipt of royalty revenues by the Trust.

The properties of the Trust, which the Trust and Trustees hold pursuant to the Trust Agreement on behalf of the unit owners, are overriding royalty rights on sales of gas, sulfur and oil under certain concessions or leases in the Federal Republic of Germany. The actual leases or concessions are held either by Mobil Erdgas-Erdol GmbH ("Mobil Erdgas"), a German operating subsidiary of the ExxonMobil Corp. ("ExxonMobil"), or by Oldenburgische Erdolgesellschaft ("OEG"). The Oldenburg concession is the primary area from which the natural gas, sulfur and oil are extracted and provides nearly 100% of all the royalties received by the Trust. The Oldenburg concession (1,398,000 acres) covers virtually the entire former Principality of Oldenburg and is located in the German federal state of Lower Saxony.

In 2002, Mobil Erdgas and BEB Erdgas und Erdol GmbH ("BEB"), a joint venture of ExxonMobil and the Royal Dutch/Shell Group of Companies, formed a company ExxonMobil Production Deutschland GmbH ("EMPG") to carry out all exploration, drilling and production activities. All sales activities are still handled by the operating companies, either Mobil Erdgas or BEB.

The operating companies pay monthly royalties to the Trust based on their sales of natural gas, sulfur and oil. Of these three products, natural gas provided approximately 92% of the cumulative royalty income received in fiscal 2013. The amount of royalties paid to the Trust is primarily based on four factors: the amount of gas sold, the price of that gas, the area from which the gas is sold, and the exchange rate.

At approximately the 25th of the months of January, April, July and October, the operating companies calculate the amount of gas sold during the previous calendar quarter and determine the amount of royalties that were payable to the Trust based on those sales. This amount is divided into thirds and forms the monthly royalty payments (payable on the 15th of each month) to the Trust for its upcoming fiscal quarter. At the same time that the operating companies determine the actual amount of royalties that were payable for the prior calendar quarter, they look at the actual amount of royalties that were paid to the Trust for that period and calculate the difference between what was paid and what was payable. Additional amounts

payable by the operating companies would be paid immediately and any overpayment would be deducted from the payment for the first month of the following fiscal quarter. In September of each year, the operating companies make the final determination of any necessary royalty adjustments for the prior calendar year with a positive or negative adjustment made accordingly.

There are two types of natural gas found within the Oldenburg concession, sweet gas and sour gas. Sweet gas has little or no contaminants and needs no treatment before it can be sold. In recent years sweet gas has assumed the role of swing producer. During periods of high demand, the production of sweet gas is increased as necessary. During the summer months, sweet gas production is reduced due to a general decline in demand. Sour gas, in comparison, must be processed at either the Grossenkneten or the Norddeutsche Erdgas-Aufbereitungs GmbH ("NEAG") desulfurization plants before it can be sold. The desulfurization process removes hydrogen sulfide and other contaminants. The hydrogen sulfide in gaseous form is converted to sulfur in a solid form and sold separately. For efficiency purposes, the desulfurization plants are operated at capacity on a continual basis. Any excess production from the plants is stored in underground storage for higher demand periods. As needed, the operators conduct maintenance on the plants, generally during the summer months when demand is lower. EMPG has indicated that it will be conducting scheduled maintenance work at the Grossenkneten desulfurization plant during June 2013. If the operator is consistent with past practice, overall production during this maintenance period would be reduced by approximately one-third as the three units in the desulfurization plant would each be shut down in sequence for approximately two weeks.

Under one set of rights covering the western part of the Oldenburg concession (approximately 662,000 acres), the Trust receives a royalty payment of 4% on gross receipts from sales by Mobil Erdgas of gas well gas, oil well gas, crude oil and condensate (the "Mobil Agreement"). Under the Mobil Agreement, there is no deduction of costs prior to the calculation of royalties from gas well gas and oil well gas, which together account for approximately 98% of the cumulative royalty income received under this agreement in fiscal 2013. Historically, the Trust has received significantly greater royalty payments under the Mobil Agreement, as compared to the OEG Agreement described below, due to the higher royalty rate specified by that agreement.

The Trust is also entitled under the Mobil Agreement to receive a 2% royalty on gross receipts of sales of sulfur obtained as a by-product of sour gas produced from the western part of Oldenburg. The payment of the sulfur royalty is conditioned upon sales of sulfur by Mobil Erdgas at a selling price above an agreed upon base price. This base price is adjusted annually by an inflation index. In the first nine months of fiscal 2013 and 2012, the Trust received $489,812 and $425,001, respectively, in sulfur royalties under the Mobil Agreement.

Under another set of rights covering the entire Oldenburg concession and pursuant to the agreement with OEG, the Trust receives royalties at the rate of 0.6667% on gross receipts from sales by BEB of gas well gas, oil well gas, crude oil, condensate and sulfur (removed during the processing of sour gas) less a certain allowed deduction of costs (the "OEG Agreement"). Under the OEG Agreement, 50% of the field handling, treatment and transportation costs, as reported for state royalty purposes, are

deducted from the gross sales receipts prior to the calculation of the royalty to be paid to the Trust.

Under the Mobil and OEG Agreements, the gas is sold to various distributors under long term contracts which delineate, among other provisions, the timing, manner, volume and price of the gas sold. The pricing mechanisms contained in these contracts include a delay factor of three to six months and use the price of light heating oil in Germany as one of the primary pricing components. Since Germany must rely on imports to meet the majority of its energy demands, oil prices on the international market (in U.S. dollars) have a significant impact on the price of light heating oil in Germany and a delayed impact on the price of gas. Additionally, there are efforts underway to decouple the linkage between oil prices and gas prices. Through 2010 based upon the royalty examination conducted by the Trust's accountants in Germany, the basic structure of the gas supply contracts had not changed and such decoupling, as of that point, had not occurred. The Trust itself does not have access to the specific sales contracts under which gas from the Oldenburg concession is sold. Working under a confidentiality agreement with the operating companies, the Trust's German accountants review these contracts periodically on behalf of the Trust to verify the correctness of application of the Agreement formulas for the computation of royalty payments. In November 2013, the Trust's German accountants are expected to begin their examination of royalty calculations covering the calendar years 2011 and 2012.

For unit owners, changes in the dollar value of the Euro have both an immediate and long-term impact. The immediate impact is from the exchange rate that is applied at the time the royalties, paid to the Trust in Euros, are converted into U.S. dollars at the time of their transfer from Germany to the United States. In relation to the dollar, a stronger Euro would yield more dollars and a weaker Euro would yield less dollars. The long-term impact relates to the mechanism of gas pricing contained in the gas sales contracts negotiated by the operating companies. These gas sales contracts often use the price of German light heating oil as one of the primary pricing factors by which the price of gas is determined. The price of German light heating oil, which is a refined product, is largely determined by the price of the imported crude oil from which it was refined. Oil on the international market is priced in dollars. However, when oil is imported into Germany it is purchased in Euros, and at this point the dollar value of the Euro becomes relevant. A weaker Euro would buy less oil making that oil and the subsequently refined light heating oil more expensive. A stronger Euro would buy more oil making that oil and the subsequently refined light heating oil less expensive. Since changes in the price of German light heating oil are subsequently reflected in the price of gas through the gas sales contracts, the dollar/Euro relationship can make the prices of gas higher or lower. The changes in gas prices that result from changes in the prices of German light heating oil are only reflected after a built-in delay of three to six months as specified in the individual gas sales contracts.

Seasonal demand factors affect the income from the Trust's royalty rights insofar as they relate to energy demands and increases or decreases in prices, but on average they are generally not material to the annual income received under the Trust's royalty rights.

The Trust has no means of ensuring continued income from overriding royalty rights at their present level or otherwise. The Trust's consultant in Germany provides general information to the Trust on the German and European economies and energy markets. This information provides a context in which to evaluate the actions of the operating companies. In his position

as the Trust's consultant, he receives reports from EMPG with respect to current and planned drilling and exploration efforts. However, EMPG and the operating companies continue to limit the information flow to that which is required by German law.

The low level of administrative expenses of the Trust limits the effect of inflation on its costs. Sustained price inflation would be reflected in sales prices. Sales prices along with sales volumes form the bases on which the royalties paid to the Trust are computed. The impact of inflation or deflation on energy prices in Germany is delayed by the use, in certain long-term gas sales contracts, of a delay factor of three to six months prior to the application of any changes in light heating oil prices to gas prices.

Results: Third Quarter of Fiscal 2013 Versus Third Quarter of Fiscal 2012

For the third quarter of fiscal 2013, the Trust's net income was $4,459,386, a decrease of 20.21% from the net income of $5,589,094 for the third quarter of fiscal 2012. This decrease was caused primarily by the carryover of negative adjustments due to the overpayment of royalties in the prior quarter. Total royalties received during the third quarter of fiscal 2013 were derived from sales of gas, sulfur and oil from the Trust's overriding royalty areas in Germany during the second calendar quarter of 2013. Royalties from the sale of gas accounted for a majority of total royalty income. A distribution of 49 cents per unit was paid on August 28, 2013 to owners of record as of August 16, 2013.

	3rd Fiscal Qtr. Ended 7/31/2013	3rd Fiscal Qtr. Ended 7/31/2012	Percentage Change
Total Royalties Received	$4,687,351	$5,846,833	- 19.83%
Net Income	$4,459,386	$5,589,094	- 20.21%
Distribution per Unit	$0.49	$0.61	- 19.67%

Gas royalties under the Mobil Agreement for the third quarter of fiscal 2013 were lower than gas royalties for the third quarter of fiscal 2012 due to the decline in gas sales. Gas royalties under the OEG Agreement for the third quarter of fiscal 2013 were higher than gas royalties for the third quarter of fiscal 2012 due to increases in gas prices and in the average exchange rate.

Mobil Agreement	3rd Fiscal Qtr. Ended 7/31/2013	3rd Fiscal Qtr. Ended 7/31/2012	Percentage Change
Gas Sales (Bcf)(1)	8.102	9.140	- 11.36%
Gas Prices (Ecents/Kwh)(2)	2.7651	2.6666	+ 3.69%
Average Exchange Rate(3)	1.3090	1.2530	+ 4.47%
Gas Royalties	$3,368,452	$3,510,504	- 4.05%
Gas Prices ($/Mcf)(4)	$10.39	$ 9.60	+ 8.23%
OEG Agreement			
Gas Sales (Bcf)	24.436	26.254	- 6.92%
Gas Prices (Ecents/Kwh)	2.7696	2.5079	+ 10.44%
Average Exchange Rate	1.3048	1.2488	+ 4.48%
Gas Royalties	$1,457,094	$1,391,324	+ 4.73%
Gas Prices ($/Mcf)	$10.12	$ 8.77	+ 15.39%

(1) Billion cubic feet
(2) Euro cents per Kilowatt hour
(3) Based on average exchange rates of cumulative royalty transfers
(4) Dollars per thousand cubic feet

Excluding the effects of differences in prices and average exchange rates, the combination of royalty rates on gas sold from western Oldenburg results in an effective royalty rate approximately seven times higher than the royalty rate on gas sold from eastern Oldenburg. This is of particular significance to the Trust since gas sold from western Oldenburg provides the bulk of royalties paid to the Trust. For the third quarter of fiscal 2013, gas sales from western Oldenburg accounted for only 33.16% of all gas sales. However, royalties on these gas sales provided approximately 74.89% of all royalties attributable to gas sales from the Oldenburg concession.

Trust expenses for the third quarter of fiscal 2013 decreased 13.08% or $35,033 to $232,783 in comparison to $267,816 for the prior year's equivalent period. This decline in expenses is due to the reduction in legal costs associated with the termination of litigation in Germany and the reduction in accounting costs associated with the prior completion of the examination of royalty calculations for 2009-2010. Trust interest income received during the third quarter of fiscal 2013 decreased to $4,818 in comparison to $10,077 received in the third quarter of fiscal 2012 due to reduced funds available for investment.

The current Statements of Assets, Liabilities and Trust Corpus of the Trust at July 31, 2013, compared to that at fiscal year-end (October 31, 2012), shows a decrease in assets due to lower royalty receipts during the third quarter of fiscal 2013.

Results: First Nine Months of Fiscal 2013 Versus First Nine Months of Fiscal 2012

Total royalties received during the first nine months of fiscal 2013 were derived from sales of gas, sulfur and oil from the Trust's overriding royalty areas in Germany during the fourth calendar quarter of 2012 and the first and second calendar quarters of 2013. Royalties from the sale of gas accounted for a majority of total royalty income.

	Nine Months Ended 7/31/2013	Nine Months Ended 7/31/2012	Percentage Change
Total Royalties Received	$16,531,549	$18,826,729	- 12.19%
Net Income	$15,774,941	$17,930,472	- 12.02%
Distributions per Unit	$1.72	$1.95	- 11.79%

Gas royalties under both the Mobil and the OEG Agreements for the first nine months of fiscal 2013 were lower in comparison to gas royalties for the first nine months of fiscal 2012 due primarily to lower gas sales.

Mobil Agreement	Nine Months Ended 7/31/2013	Nine Months Ended 7/31/2012	Percentage Change
Gas Sales (Bcf)	26.656	28.521	- 10.05%
Gas Prices (Ecents/Kwh)	2.7220	2.8004	- 2.80%
Average Exchange Rate	1.3120	1.2871	+ 1.93%
Gas Royalties	$10,524,156	$11,807,667	- 10.87%
Gas Prices ($/Mcf)	$10.26	$10.35	- 0.87%
OEG Agreement			
Gas Sales (Bcf)	78.062	80.545	- 3.08%
Gas Prices (Ecents/Kwh)	2.9065	2.8399	+ 2.35%
Average Exchange Rate	1.3080	1.2871	+ 1.62%
Gas Royalties	$4,960,355	$5,045,294	- 1.68%
Gas Prices ($/Mcf)	$10.64	$10.22	+ 4.11%

For the nine months of fiscal 2013, gas sales from western Oldenburg accounted for only 32.87% of all gas sales. However, royalties on these gas sales provided approximately 77.22% of all royalties attributable to gas sales from the Oldenburg concession.

Trust expenses for the nine month period of fiscal 2013 decreased 16.27% or $150,930 to $776,961 in comparison to $927,891 for the prior fiscal year's equivalent period. This decline in expenses is due to reduction in legal costs associated with the prior dismissal of litigation in Germany and the reduction in accounting costs associated with the prior completion of the examination of royalty calculations for 2009-2010. Trust interest income received during the first nine months of fiscal 2013 decreased to $20,353 in comparison to $31,634 received in the first nine months of fiscal 2012 due to reduced funds available for investment.

This report on Form 10-Q may contain forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Such statements address future expectations and events or conditions concerning the Trust. Many of these statements are based on information provided to the Trust by the operating companies or by consultants using public information sources. These statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated in any forward-looking statements. These include:

1. risks and uncertainties concerning levels of gas production and gas sale prices, general economic conditions and currency exchange rates;

2. the ability or willingness of the operating companies to perform under their contractual obligations with the Trust;

3. potential disputes with the operating companies and the resolution thereof; and

4. the risk factors set forth under Item 1A of the Trust's Annual Report on Form 10-K for the year ended October 31, 2012.

All such factors are difficult to predict, contain uncertainties that may materially affect actual results, and are generally beyond the control of the Trust. New factors emerge from time to time and it is not possible for the Trust to predict all such factors or to assess the impact of each such factor on the Trust. Any forward-looking statement speaks only as of the date on which such statement is made, and the Trust does not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

Item 1. Legal Proceedings.

The Trust is not a party to any pending legal proceedings. The previous litigation commenced by the Trust in Germany against the operating companies (See 2011 Annual Report on Form 10-K) was concluded after an adverse district court ruling in May 2012 from which the Trust and its co-plaintiff, after consultation with its local counsel, decided not to appeal.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Trust does not engage in any trading activities with respect to possible foreign exchange fluctuations. The Trust does not use any financial instruments to hedge against possible risks related to foreign exchange fluctuations. The market risk is negligible because standing instructions at the Trust's German bank require the bank to process conversions and transfers of royalty payments as soon as possible following their receipt. The Trust does not engage in any trading activities with respect to possible commodity price fluctuations.

Item 4. Controls and Procedures.

The Trust maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Trust is recorded, processed, summarized, accumulated and communicated to its management, which consists of the Managing Director, to allow timely decisions regarding required disclosure, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

The Managing Director has performed an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of July 31, 2013. Based on that evaluation, the Managing Director concluded that the Trust's disclosure controls and procedures were effective as of July 31, 2013.

There have been no changes in the Trust's internal control over financial reporting identified in connection with the evaluation described above that occurred during the third quarter of fiscal 2013 that have materially affected or are reasonably likely to materially affect the Trust's internal control over financial reporting.

PART II -- OTHER INFORMATION

Item 6. Exhibits.

Exhibit 31. Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

Exhibit 32. Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
