REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of
UnitedHealth Group 401(k) Savings Plan
Minneapolis, Minnesota

We have audited the accompanying statements of net assets available for benefits of UnitedHealth Group 401(k) Savings Plan (the "Plan") as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. This schedule has been subjected to the auditing procedures applied in our audit of the basic 2012 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

UNITEDHEALTH GROUP 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

1. DESCRIPTION OF THE PLAN

The following description of the UnitedHealth Group 401(k) Savings Plan (the "Plan") is provided for informational purposes only. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

General - The Plan was first established on July 1, 1985, as a defined contribution (profit sharing) plan under Section 401(a) of the Internal Revenue Code (the "Code"). The Plan also contains a cash or deferred arrangement as described in Section 401(k) of the Code. UnitedHealth Group Incorporated (the "Company") is the Plan's sponsor and administrator. Fidelity Management Trust Company ("Fidelity") performs recordkeeping and trustee functions relating to the Plan.

Eligibility and Vesting - In general, eligible employees may make pretax and/or Roth elective deferral contributions to the Plan upon employment with a participating employer and are automatically enrolled in the Plan as soon as administratively feasible after their hire date, unless they decline to participate within a prescribed time limit.

Participants become eligible for employer safe harbor matching contributions once they are credited with one year of service. Employees whose employment is governed by the terms of a collective bargaining agreement, employees of United Healthcare Plans of Puerto Rico, Inc., persons who the Company classified as leased employees, and certain other classifications of employees are not eligible to participate in the Plan, with the exception of Local 1199C that collectively bargained to be eligible for the Plan in 2006.

Participant contributions and earnings thereon are 100% vested at all times. Participants become 100% vested in employer safe harbor matching contributions, employer matching contributions, and the earnings thereon upon being credited with two years of service. Employer safe harbor matching contributions, employer matching contributions, and the earnings thereon also become fully vested upon the earliest occurrence of any of the following events, while a participant is employed by the Company or certain of its affiliates: (a) death, (b) attainment of age 65, (c) disability (as defined by the Plan), (d) partial or complete termination of or complete discontinuance of contributions to the Plan, or (e) an acceleration date (as defined by the Plan).

Contributions - Eligible employees direct the Company to make pre-tax and/or Roth contributions to the Plan on their behalf through payroll deductions. Eligible employees are automatically enrolled in the Plan as soon as administratively feasible after their hire date at an employee pre-tax contribution rate of 3% of their eligible pay, unless they decline to participate within a prescribed time limit or they elect a different pre-tax contribution rate. Participants who miss the deadline to decline participation will have 90 days from the first biweekly pay date in which employee pre-tax contributions are deducted from their eligible pay to cancel their future contributions and request a withdrawal of any employee pre-tax contributions, including any associated earnings and losses, made to their account since that first biweekly pay date. Different enrollment rules apply to eligible employees who are acquired employees. In general, the Plan provides for automatic employee pre-tax contribution rate increases until the participant's pre-tax contribution rate reaches 6%. Participants are notified of the automatic rate increases in advance and have the opportunity to decline the automatic increase.

The Plan allows participants to contribute up to 50% of their eligible pay, subject, however, to the Code Section 402(g) limit on participant contributions (which is \$17,000 for 2012). Within certain limitations, the Company will make a safe harbor matching contribution to the Plan on a participant's behalf on a dollar-for-dollar basis up to the first 3% of the participant's eligible pay, and an additional 50 cents for each dollar the participant contributes to the Plan up to the next 3% of the participant's eligible pay each pay period. The maximum matching contribution a participant may receive under this formula is 4.5% of the participant's eligible pay each pay period. Participants must make pre-tax contributions and/or Roth contributions to receive the employer safe harbor matching contribution. Participants become eligible for safe harbor matching contributions once they are credited with one year of service. Additional discretionary contributions may also be made by the Company; however, no discretionary contributions were made in 2012 and 2011.

Participants who reach age 50 during a calendar year or who are over age 50 are allowed to make "catch up contributions" to the Plan as permitted under Code Section 414(v). The Code limited participant catch-up contributions to \$5,500 in 2012. A participant's combined employee pre-tax/Roth contributions and catch-up contributions cannot exceed 80% of the participant's eligible pay.

The Plan accepts rollover contributions of certain distributions from certain qualified plans. Rollover contributions are assets formerly held in an employee benefit plan of a prior employer, qualified under Section 401(a) of the Code, which a participant elects to be transferred into the Plan and were transferred into the Plan during the current year. Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) plan earnings (losses). Allocations are based on participant contributions, earnings (losses) on the participant's account, or the participant's account balance, as described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Subject to the investment rules or limitations applicable to the Plan, eligible participants may direct the trustee to invest their contributions and the Company's contributions in any one or a combination of several funds.

The Plan has various investment options to which participants can elect to allocate their contributions, including a self managed brokerage account option.

Dividend Payout - Effective March 1, 2012, the Plan was amended to include the UnitedHealth Group Stock Fund (the "Stock Fund") Dividend Payout Feature. This feature allows participants invested in the Stock Fund to elect whether dividends payable on Company stock held in the Stock Fund are distributed to participants in cash or reinvested in Company stock within the Stock Fund. The total dividends on the Company stock in the Stock Fund were \$1,911,055 for the year ended December 31, 2012. The amount participants elected to be distributed in cash was insignificant.

Distributions - A participant's vested account generally becomes distributable upon the earliest occurrence of any of the following events (an "Event of Maturity"): (a) death, (b) voluntary or involuntary separation from service, or (c) disability (as defined by the Plan).

Distributions occur on a daily basis upon the submission of an application for distribution from the participant. If no such application is submitted, distribution is made in a cash lump sum payment no later than the following dates: (a) April 1 following the first calendar year in which the participant has both attained age 70 1/2 and terminated employment (for distribution to a participant), and

(b) December 31 of the calendar year in which the first anniversary of the participant's death occurs (for distribution to a beneficiary). However, following an Event of Maturity, a participant's account, if valued at less than \$1,000, is distributed under the involuntary cash-out rules in cash as a direct distribution to the participant or as a rollover into an Individual Retirement Account or another employer sponsored plan (whichever the participant elects).

Notes Receivable from Participants - While employed with the Company, a participant may obtain a loan in an amount that does not exceed (when added to the outstanding balance of any other loan from the Plan) the lesser of one half of the participant's vested account balance, as defined, or \$50,000 less their highest outstanding loan balance during the 12-month period that ends on the day before the new loan is issued. Other limitations may apply if the participant has a loan from a plan of an acquired company. The minimum loan amount that a participant can borrow is \$1,000. The loan bears interest at the prime rate of interest, plus 1% (at the time the participant takes the loan and will remain in effect for the duration of the loan) and is payable over a period not to exceed five years; except that a loan that is used by the participant to acquire a principal residence may, if the loan originated prior to April 1, 2001, be repaid over a period not to exceed 30 years, and if the loan originated on or after April 1, 2001, it may be repaid over a period not to exceed 10 years. As of December 31, 2012 and 2011, the interest rate on loans outstanding varied from 3.25% to 10.50%.

Unallocated Accounts - The Plan has certain unallocated amounts that relate to items such as settlements, lost distributees, lost participants, uncashed checks, and participant forfeitures. The nonvested portion of a participant's account is forfeited as of the earlier of the distribution of the participant's vested account or the occurrence of a five year period of break in service. Forfeitures may be used to make restorations for rehired participants (if rehired by the Company or certain of its affiliates within five years of an initial Event of Maturity), to restore forfeited account balances, to reduce Company contributions, to pay Plan expenses, or to correct errors, omissions, and exclusions.

Total unallocated amounts used to reduce Company contributions for the years ended December 31, 2012 and 2011 were approximately \$5,100,000 and \$450,000, respectively. As of December 31, 2012 and 2011, the unallocated accounts ending balances were \$1,899,357 and \$6,268,671, respectively.

Plan Amendment or Termination - Although it has not expressed any intention to do so, the Company has the right to discontinue contributions or to amend or terminate the Plan at any time. In the event of the Plan's termination, participants' accounts would become 100% vested and the Company could direct either the current distribution of the assets or the continuation of the trust, in which case distribution of the benefits would occur in accordance with the terms of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates - The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for investment in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could

materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investments - During the years ended December 31, 2012 and 2011, the Plan's investments (including investments bought, sold, and held during the year) appreciated/(depreciated) in value by \$466,599,046 and \$(81,456,516), respectively, as follows:

	2012	2011
Common collective trust	\$236,230,152	\$(48,310,910)
Synthetic guaranteed investment contract	9,715,592	9,075,599
Net appreciation/(depreciation) in fair value of investments at estimated fair value	245,945,744	(39,235,311)
Common stock	33,725,812	26,323,580
Mutual funds	164,391,358	(68,997,277)
Fixed-income securities	22,536,132	452,492
Net appreciation/(depreciation) in fair value of investments as determined by quoted market prices	220,653,302	(42,221,205)
Net appreciation/(depreciation)	\$466,599,046	\$(81,456,516)

The fair market values of individual investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011, were as follows:

	2012	2011
Vanguard Institutional Index Fund	\$487,726,786	\$390,968,520
American Europacific Growth Fund	351,944,827	291,554,263
Wellington Mid-Cap Opportunities Fund	313,088,740	263,045,918
Wells Fargo DJ Target 2030 N	278,194,288	202,695,379
Wells Fargo DJ Target 2035 N	276,095,951	196,951,638
Wells Fargo DJ Target 2025 N	262,185,385	*

* Investment represents less than 5% of the Plan's net assets in the year indicated.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. Common stock is valued at quoted market prices. Cash and cash equivalents are highly liquid investments that have an original maturity of three months or less. The fair value of cash and cash equivalents approximates their carrying value because of the short maturity of the instruments. The estimated fair values of debt securities are based on quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices. The units of the common/collective investment trust funds and pooled separate account are stated at fair value as determined by issuer of the common/collective investment trust funds based on the fair market value of the underlying investments.

The fair value of the Synthetic Guaranteed Investment Contracts (“Synthetic GIC”) is determined based on the components of the Synthetic GIC. The Synthetic GIC is comprised of two main components; underlying investments in fixed income securities and wrapper contracts issued by banks and insurance companies in which the issuer guarantees a specified interest rate. The fair value of the wrapper contracts is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The underlying investments are valued at fair market value using quoted market prices or other market data.

The Company is responsible for the determination of fair value. Accordingly, it performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Company has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 962, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (FSP), the statements of net assets available for benefits present an investment contract at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive contract from fair value to contract value. The statements of changes in net assets available for benefits are presented on a contract-value basis and are not affected by the FSP.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Unrealized gains and losses are recorded in the period in which they occur. The trustee holds all assets.

Administrative Expenses - Administrative expenses of the Plan are paid by both the Plan and the Company. Recordkeeping fees are paid by the participants quarterly based on the number of participants. The Company pays fees related to trust and investment services, conversion planning and merger fees, Form 5500 preparation, discrimination testing, qualified domestic relations order services, employee education, statement mailings, postage, enrollment kits, annual financial statement audit, and address searches.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

New Accounting Standards

ASU No. 2010-06, Fair Value Measurements and Disclosures - In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, Fair Value Measurements and Disclosures, which amends ASC 820, Fair Value Measurements and Disclosures, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis. This requirement is effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not materially affect the Plan's financial statements.

ASU No. 2011-04 - In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which amends ASC 820. ASU No. 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The adoption in 2012 did not materially affect the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

ASC 820 established a single authoritative definition of fair value, set a framework for measuring fair value, and required additional disclosures about fair value measurements. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

9

The following tables set forth by level within the fair value hierarchy a summary of the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

In accordance with ASC 820, the tables below include the major categorization for debt and equity securities as of December 31, 2012 and 2011, on the basis of the nature and risk of the investments.

	Fair Value Measurements at December 31, 2012			Total Fair Value

4. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated October 14, 2003, that the Plan is designed in accordance with applicable Code qualification requirements. The Plan has been amended since receiving the determination letter; however, the Company believes that the Plan is currently designed and operating in compliance with the applicable qualification requirements of the Code and the Plan is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Additionally, the Plan was amended and restated in its entirety effective January 1, 2010, to comply with the requirements of the Economic Growth Tax Relief Reconciliation Act. The Plan was submitted to the IRS for a favorable determination letter in January 2010 via the Voluntary Correction Program under the Employee Plans Compliance Resolution System. The Plan sponsor believes the Plan has maintained its tax-exempt status.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

5. RECONCILIATION TO THE FORM 5500

As of December 31, 2012 and 2011, the Plan had \$834,486 and \$568,113, respectively, of deemed distributions of notes receivable from participants. This amount is recorded as a distribution in the Plan's Form 5500; however, in accordance with GAAP, it is not reflected in the statements of net assets available for benefits.

A reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2012 and 2011, is as follows:

	2012	2011
Net assets available for benefits per the financial statements	\$4,943,185,371	\$3,936,295,109
Deemed distributions of participants' loans	(834,486) (568,113)
Fair market value adjustment of investment contracts	9,167,703	10,430,086
Net assets available for benefits per the Form 5500	\$4,951,518,588	\$3,946,157,082

A reconciliation of the increase in net assets per the financial statements to the net income per the Form 5500 for the years ended December 31, 2012 and 2011, is as follows:

	2012	2011
Increase in net assets per the financial statements	\$ 1,006,890,262	\$ 337,308,056
Deemed distributions activity	(266,373) (445,104
Fair market value adjustment of investment contracts	(1,262,383) 5,346,912
Net income per the Form 5500	\$ 1,005,361,506	\$ 342,209,864

6. NET ASSET VALUE PER SHARE

A summary of the Plan's investments with a reported NAV as of December 31, 2012 and 2011, is set forth as follows:

Investment	Fair Value ⁽¹⁾	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions ⁽²⁾	Redemption Notice Period
December 31, 2012					
Common/collective trust ⁽³⁾	\$2,266,765,357	\$—	Immediate	Various	Various
Stable value collective trust ⁽⁴⁾	107,680,405	—	Immediate	Various	Various
Total common/collective trust	\$2,374,445,762	\$—			

Investment	Fair Value ⁽¹⁾	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions ⁽²⁾	Redemption Notice Period
December 31, 2011					
Common/collective trust ⁽³⁾	\$ 1,698,954,739	\$—	Immediate	Various	Various
Stable value collective trust ⁽⁴⁾	104,948,660	—	Immediate	Various	Various
Total common/collective trust	\$ 1,803,903,399	\$—			

(1) The fair values of the investments are based on the fair values of the underlying investments in the funds.

(2) Certain events may cause funds held in the common/collective trust and stable value collective trust to be deferred, including, but not limited to, the following:

- (i) Closing or disruption of the financial markets or exchanges in which a transaction is unable to be settled prudently.
- (ii) An emergency situation in which the disposition of assets would be seriously prejudicial to Plan participants.

(iii) Breakdown in the means of communication normally employed to determine fair market value of an investment.

(iv) Investments cannot be effected at normal rates of exchange.

None of these events occurred in 2011 or 2012.

(3) The funds in the common/collective trusts employ a variety of investment strategies, including, but not limited to, long-term capital growth.

The stable value collective trust calculates its NAV based on the contract value of the fund and on the fair value based on the underlying assets in the fund. All transactions with the stable value are at the NAV at contract value. (4) The NAV at contract value at December 31, 2012 and 2011 is \$86.10 and \$84.54, respectively, and the fair value NAV at December 31, 2012 and 2011 is \$87.62 and \$85.86, respectively.

Certain events may allow the issuer to terminate a fully benefit responsive investment contract and settle at an amount different from contract value. Such events are not expected, but may include the termination of the Plan or the trust holding the replacement of the trustee of the fund without the consent of the issuer of the wrapper agreements, a breach of the contract terms by a counterparty, or a legal or regulatory event as an adverse ruling by a regulatory agency.

Certain events may limit the ability of the fund to transact at contract value with the contract issuers for participant's benefit payments or investment transfers. Such events include, but are not limited to, plant closings, divestitures, partial Plan termination, bankruptcy, layoff, or early retirement incentive program, and disqualification of trust from being a "qualified trust." However, the Plan sponsor does not believe that any events that may limit the ability of the Plan to transact at contract value are likely.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments managed by the trustees qualify as exempt party in interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. The investment of the Plan in the Company's common stock is considered a party in interest transaction. At December 31, 2012, the Plan held 2,330,047 shares of common stock of the Company with a cost basis of \$73,909,091. At December 31, 2011, the Plan held 2,487,920 shares of common stock of the Company with a cost basis of \$78,916,822.

8. WRAPPER CONTRACTS

The Plan provides a self-managed stable value investment option fund (the "Stable Value Fund") to participants that includes Synthetic GICs, which simulate the performance of a GIC through an issuer's guarantee of a specific interest rate and a portfolio of financial instruments that are owned by the Plan. The Plan has entered into wrapper contracts with Bank of America, Monumental Life Insurance Company, NATIXIS, Pacific Life Insurance Company, and Metropolitan Life Insurance Company. In 2012, the Plan terminated the wrapper contracts with Rabobank, J.P. Morgan, and State Street. Contributions are maintained in a pooled account and are credited with earnings based on the contract crediting rates. The crediting interest rate is based on an agreed upon formula with the issuers of the contracts. It is generally reset quarterly according to each wrapper contract and is tied to the performance and duration of the wrapper contracts. Most agreements use a formula that is based on the characteristics of the underlying investments. Generally, the wrapper contracts amortize the gains and losses of the bond portfolios over the duration of the portfolios through the crediting rate of the wrapper contracts.

Plan management believes no reserves are necessary against contract value for credit risk of the contract issuer or otherwise as of December 31, 2012 and 2011. Both the average yield of the contracts and the average yield credited to

the participants during 2012 and 2011 were 1.95% and 2.08%, respectively. The crediting interest rate for the contracts at December 31, 2012 and 2011 was 1.94% and 2.11%, respectively.

15

The Stable Value Fund is charged for Plan withdrawals and administrative expenses. The wrapper contracts are included in the financial statements at fair value and then adjusted to contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value (which represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses) because they are fully benefit responsive.

The contract value and fair value of the contracts as of December 31, 2012, were as follows:

2012	Investments at Fair Value	Wrapper Contracts at Fair Value	Total Investments at Fair Value	Investments at Contract Value
Synthetic GICs:				
Bank of America	\$50,954,841	\$36,964	\$50,991,805	\$49,889,440
NATIXIS	48,267,371	35,001	48,302,372	47,239,559
Monumental Life Insurance Company	128,358,751	29,870	128,388,621	125,980,499
Pacific Life Insurance Company	49,777,277	36,081	49,813,358	48,696,836
Metropolitan Life Insurance Company	134,111,602	—	134,111,602	132,068,296
Total	\$411,469,842	\$137,916	\$411,607,758	\$403,874,630

The contract value and fair value of the contracts as of December 31, 2011, were as follows:

2011	Investments at Fair Value	Wrapper Contracts at Fair Value	Total Investments at Fair Value	Investments at Contract Value
Synthetic GICs:				
J.P. Morgan	\$57,091,311	\$412,155	\$57,503,466	\$55,998,979
Bank of America	49,777,930	287,346	50,065,276	48,801,789
NATIXIS	47,152,533	271,795	47,424,328	46,160,591
Monumental Life Insurance Company	64,920,990	374,968	65,295,958	63,683,037
Pacific Life Insurance Company	48,627,564	168,160	48,795,724	47,599,613
Rabobank	45,400,297	104,930	45,505,227	44,552,340
State Street	47,598,422	274,603	47,873,025	46,637,411
Total	\$360,569,047	\$1,893,957	\$362,463,004	\$353,433,760

9. PLAN TRANSFERS

During 2012 the Sierra Health Automatic Retirement Plan and the Picis, Inc. 401(k) Profit Sharing Plan & Trust merged into the Plan and their investment balances of \$111,528,952 and \$24,789,037, respectively, were transferred to the Plan. Also during 2012 an investment balance of \$24,707,617 was transferred out of the Plan into the newly formed Optum Clinical Services, Inc. 401(k) Savings Plan.

During 2011 the Golden Rule Salary Savings Plan and the Unison Administrative Services, LLC 401(k) Plan merged into the Plan and their investment balances of \$37,800,572 and \$11,449,714, respectively, were transferred to the Plan.

10. SUBSEQUENT EVENTS

For the year ended December 31, 2012, subsequent events were evaluated through June 18, 2013, the date the financial statements were available to be issued.

There are no events subsequent to December 31, 2012, that require adjustment or disclosure.
