OIL-DRI CORPORATION OF AMERICA REPORTS RECORD
FIRST QUARTER SALES OF \$46 MILLION

CHICAGO - November 24, 2003 - Oil-Dri Corporation of America (NYSE: ODC) announced record first quarter results and adjusted its estimated EPS target range for fiscal 2004.

Edgar Filing: OIL DRI CORPORATION OF AMERICA - Form 8-K

Net sales of \$46,292,000 for the first quarter ended October 31, 2003 increased 23% over sales of \$37,730,000 for the first quarter one year ago.

Net income for the quarter was \$1,718,000 or \$0.30 per fully diluted share for the quarter, a significant increase from \$411,000 or \$0.07 per fully diluted share in the same quarter a year ago.

First quarter pre-tax income was \$2,420,000 compared to pre-tax income of \$585,000 in the first quarter a year ago, which included a gain of \$139,000 from the sale of mineral rights in Tennessee. There were no non-recurring items in the first quarter results for this year.

FIRST QUARTER REVIEW

President and Chief Executive Officer Daniel S. Jaffee commented, "We achieved a very strong first quarter of sales and earnings growth. The momentum we gained last fiscal year with the acquisition of the Taft, Calif., plant and Jonny Cat(R) brand continued into this fiscal year. Half of our sales increase was attributable to the acquisition itself and half to the growth in our core businesses.

"We remain focused on managing escalating fuel costs to control our cost of goods. Maximizing our fuel efficiency, combined with strategic price increases has thus far been effective in minimizing the impact of increased fuel costs on our gross margins. The combination of these factors along with our focus on continuously improving our manufacturing processes has expanded gross margins this quarter from 20.5% to 23.5%.

"Our Board of Directors approved a dividend increase of 11%, raising the quarterly cash dividend to \$0.10 per share of Common Stock and \$0.075 per share of Class B stock. The approval by the Board signifies its confidence in the company's direction and future prospects."

BUSINESS REVIEW

As expected, sales for the CONSUMER PRODUCTS GROUP were up substantially year-over-year with 28% growth. The Jonny Cat litter business combined with strong Cat's Pride(R) promotional advertising at several major accounts contributed to the sales growth.

Oil-Dri Canada sales were up in the first quarter due to additional distribution gains. Branded product sales were up in Canada as a result of effective advertising and execution in both grocery and non-foods markets.

The CROP PRODUCTION AND HORTICULTURAL PRODUCTS GROUP outpaced prior year sales by 42%. Market demand for Agsorb(R) agricultural carriers remained high despite industry commercialization of genetically modified crops for corn rootworm. In addition Pro's Choice(R) soil conditioner products favorably contributed. Price increases planned to go into effect in the second quarter will help to drive profitability.

The INDUSTRIAL AND AUTOMOTIVE PRODUCTS GROUP experienced solid sales growth of 13% over prior year sales. New accounts helped increase sales growth for the quarter.

Sales for the SPECIALTY PRODUCTS GROUP were flat for the quarter. Bleaching clays continue to face strong competition in Western Europe. However, international expansion into new geographies for bleaching clay and strong sales for Poultry Guard litter amendment maintained year-over-year sales.

FINANCIAL REVIEW

On October 9, 2003, Oil-Dri's Board of Directors voted to increase the quarterly cash dividend to \$0.10 per share for the Common Stock, an increase of 11%. The dividend will be payable on December 12, 2003, to stockholders of record at the close of business on November 14, 2003. At an October 31, 2003 closing price of \$14.51 and assuming cash dividends continue at the same rate, the annual yield is 2.75%.

Cash, cash equivalents and short-term investments at October 31, 2003, totaled \$10,701,000. Cash used by operating activities was \$1,706,000 as a result of a reduction of certain accrued expenses, accounts payable and an increase in accounts receivable and inventories. Capital expenditures for the quarter totaled \$1,040,000, which is \$1,042,000 less than the depreciation and amortization of \$2,082,000.

LOOKING FORWARD

Jaffee continued, "We are optimistic about initial market feedback for Jonny Cat Kat Kit and the market research conducted this year. These indicators will help us solidify and grow the brand's retail presence. We are also encouraged by continued demand for Agsorb agricultural carriers, Pro's Choice sports field products and geographic market expansion of our international product lines.

"Though the energy market remains volatile, we continue our efforts to minimize our exposure to fuel hikes and keep manufacturing costs under control.

"Having completed our first quarter ahead of plan, we are able to raise the bottom end of our earnings per share estimate range, giving us a new range of \$0.75 to \$0.85 for fiscal 2004."
