Spectrum Pharmaceuticals, Inc. (the "Company") has determined it will be unable to file its Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 (the "Form 10-Q") by November 9, 2016, without unreasonable effort or expense. The delay is due to an ongoing review and analysis by the Company's management and its auditors of the accounting treatment of the March 2013 acquisition of the rights to CE Melphalan (EVOMELA[®]) from Ligand Pharmaceuticals.

The Company expects to file the Form 10-Q with the Commission within the permitted 5-day extension from the prescribed due date of November 9, 2016.

Cautionary Statement Regarding Forward-Looking Statements

Certain statements contained in this Notification constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are predictions based on expectations and projections about future events, and are not statements of historical fact. You can identify forward-looking statements by the use of forward-looking terminology such as "plan", "continue", "expect", "anticipate", "intend", "predict", "project", "estimate", "likely", "believe", "might", "seek", "may", "remain", "potential", "can", "should", "could", "future" and expressions, or the negative of those expressions. These statements include, but are not limited to, statements that relate to Spectrum's beliefs or expectations relating to the filing of the Form 10-Q and the results of the ongoing review and any statements that relate to the intent, belief, plans or expectations of Spectrum or its management, or that are not a statement of historical fact. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results to be materially different from any future results expressed or implied by such forward-looking statements. Such factors include a material delay in Spectrum's financial reporting, including the possibility that Spectrum will not be able to file its Form 10-Q in a timely manner, the possibility that one or more material weaknesses in Spectrum's internal control over financial reporting may be identified in connection with the ongoing review, the possibility that the ongoing review may identify errors, which could be material, in Spectrum's accounting, whether investors should no longer rely upon previously issued financial statements, and the risk that Spectrum may need to restate its financial statements. As a result of the foregoing and other factors, some of which are described in further detail in the Company's reports filed with the Securities and Exchange Commission, no assurance can be given as to the future results, levels of activity and achievements of Spectrum, and neither Spectrum nor any person assumes responsibility for the accuracy and completeness of these statements. The Company does not plan to update any such forward-looking statements and expressly disclaims any duty to update the information contained in this Notification except as required by law.

Persons who are to respond to the collection of information contained in
SEC 1344 (05-06) this form are not required to respond unless the form displays a currently

PART IV — OTHER INFORMATION

Kurt A. Gustafson (702) 835-6300
(Name) (Area Code) (Telephone No.)

Have all other periodic reports required under Section 13 or 15(d) of the Securities Exchange Act of 1934 or (2) Section 30 of the Investment Company Act of 1940 during the preceding 12 months or for such shorter period that the registrant was required to file such report(s) been filed? If answer is no, identify report(s). Yes No

Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal (3) year will be reflected by the earnings statements to be included in the subject report or portion thereof? Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state reasons why a reasonable estimate of the results cannot be made.

The Company is presently evaluating the accounting for its March 2013 acquisition of in-license rights to its EVOMELA[®] product. This transaction has been accounted for as a “business combination” under U.S. GAAP, which requires that the fair value of the assets and liabilities of the “business,” including contingent consideration, to be estimated and presented on the balance sheet at the time of the acquisition. We are presently evaluating whether our 20% royalty obligation due to our licensor on all of the Company’s future EVOMELA[®] net sales should have been considered a contingent consideration liability and recorded at its estimated fair value on the acquisition date. Should the Company determine that this is the appropriate accounting, it would have initially recorded an additional contingent consideration liability for the royalty obligation of approximately \$7.5 million as of March 31, 2013, and adjusted the fair value of this contingent consideration in each subsequent period. The aggregate change in the fair value of this contingent consideration liability is currently estimated to be less than \$30 million, however, our analysis is not yet complete. We do not believe that these potential adjustments to our consolidated financial statements impact our previously reported revenues or cash and cash equivalents. In the event that this royalty obligation is not required to be recognized as contingent consideration, the Company would not expect any adjustments to its previously reported financial results. In addition, a review of the effectiveness of the Company’s internal controls over financial reporting is underway and could lead to a revised “material weakness” determination as of December 31, 2015 if the royalty obligation due to our licensor on all of the Company’s future EVOMELA[®] net sales should have been considered a contingent consideration liability and recorded at its estimated fair value on the acquisition date, with subsequent mark-to-market adjustments.
