ITEM 8.01 OTHER EVENTS

Atwood Oceanics, Inc. (collectively with its subsidiaries and affiliates, the "Company") will record an approximate \$12.5 million valuation allowance related to its total United States net operating loss carryforwards ("NOL's") during the quarter ending June 30, 2010. Even though these NOL's do not commence expiring until 2028, due to the current uncertainties in the United States offshore drilling market, including uncertainties resulting from the Deepwater Horizon incident in the Gulf of Mexico, management cannot be assured that sufficient future United States taxable income will be generated by the Company in order to utilize these NOL's. In addition, if any future NOL's are generated, they will be fully reserved until we are sufficiently assured of their utilization.

The recording of this valuation allowance will result in an approximate \$12.5 million charge to deferred income tax expense for the quarter ending June 30, 2010 (an approximate \$0.20 reduction in diluted earnings per common share for the quarter). We expect that our overall effective tax rate for the quarter ending June 30, 2010 to be around 33% and for fiscal year 2010 around 21%.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors including; the Company's dependence on the oil and gas industry; the risks involved in the construction of a rig and commencement of operations of the rig following delivery; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism, acts of piracy, embargoes, war or other military operations; and governmental and industry regulations and environmental matters. A list of additional risk factors can be found in the Company's annual report on Form 10-K for the year ended September 30, 2009, filed with the Securities and Exchange Commission.
