## PART I

### Item 1. BUSINESS

The Commercial National Financial Corporation (the “Corporation”) is a Pennsylvania corporation and is registered as a bank holding company under the Bank Holding Company Act of 1956 as amended. Through its subsidiary the Corporation is engaged in banking and trust operations.

The Corporation is owner of 100% of the outstanding shares of common stock of Commercial Bank & Trust of PA (the “Bank”). The Bank has been providing banking services since 1934. At the present time, two (2) banking offices are in operation in Latrobe, Pennsylvania, two (2) in Unity Township, Pennsylvania and one (1) each in Ligonier, West Newton, Greensburg, North Huntington and Hempfield Township, Pennsylvania. All of these offices are within the boundaries of Westmoreland County, Pennsylvania. In addition, the building that houses the Bank’s downtown Latrobe banking office is the location of the Corporation's and the Bank's executive and administrative offices. The institution's operations center is located at the Latrobe Plaza in downtown Latrobe. This operations center also houses an in-house data processing system.

Each of the banking offices is equipped with a 24 hour a day automatic teller machine (ATM). Bank ATM units are also located on the campus of Saint Vincent College in Unity Township, the terminal of the Arnold Palmer Regional Airport, at the Latrobe Area Hospital, an in-store machine in the Norvelt Open Pantry and Latrobe 30 Shop-N- Save. A separate freestanding drive-up teller staffed banking facility is attached to the Lincoln Road office in downtown Latrobe. This facility also provides ATM service.

The Bank offers the full range of banking services normally associated with a general commercial banking business. Services include extending credit, providing deposit services, marketing non-deposit investments and offering financial counseling. The ATM system described above is a part of the Cirrus, Honor, Plus and Star networks, which provides the Bank's customers access to an extensive regional and national network. The Bank also has implemented a comprehensive electronic Online Banking system. By using a personal computer with internet access, customers can access their Commercial Bank accounts, perform common banking tasks and pay bills 24 hours a day, seven days a week, 365 days a year.

The Corporation purchased Ridge Properties Inc. in 2008, Ridge Properties’ only asset is Commercial National Financial Corporation stock. The Corporation currently has one inactive subsidiary, Commercial National Investment Corp. There are no current plans for this subsidiary.

### Competition

All aspects of the Corporation’s business are highly competitive. The Corporation competes for deposits, loans and banking services with major financial institutions, several national and state banks, thrift institutions, credit unions, mortgage brokers, finance companies, insurance companies, investment companies and mutual funds.

Customers are generally influenced by convenience of location, quality of service, price of services and availability of products. The Corporation believes that it effectively competes with other financial service providers within its market area.

### Supervision and Regulation

### Introduction

The Corporation and the Bank are subject to extensive regulation by federal and state agencies. The primary focus of these regulations is for the protection of depositors, federal deposit insurance funds and the banking system, not for the protection of security holders. Set forth below is a brief description of certain laws which relate to the regulation of the Corporation and its subsidiaries. The description is not meant to be complete and is qualified by reference to applicable laws and regulations.

**Holding Company.** The Corporation, as a bank holding company is subject to regulation by the Federal Reserve Board (FRB), the Securities and Exchange Commission, and the Federal Deposit Insurance Corporation (FDIC). The nature of the supervision extends to such areas as safety and soundness, truth-in-lending, truth-in-savings, rate restrictions, consumer protection, community reinvestment lending , permissible loan and securities activities, merger and acquisition limitations, reserve requirements, dividend payments and regulations concerning activities by corporate officers and directors. No regulatory restrictions or actions are currently pending against the Corporation.

**Subsidiary Bank** The Bank is subject to regulation and examination primarily by the FDIC and Pennsylvania Department of Banking (the “Department”).

## Capital Requirements

Banks are required to be in compliance with the FRB’s risk-based capital standards. These standards require that (1) at least 50% of total capital must be “Tier 1 capital”. This consists primarily of common and certain other “core” equity capital; (2) assets and off-balance sheet items must be weighted according to risk; (3) the total capital to risk-weighted asset ratio must be at least 8%; and (4) a minimum 4% leverage ratio of Tier 1 capital to average assets must be maintained. The Department requires state chartered banks to maintain a 6% leverage capital and 10% risk based capital, defined substantially the same as the federal regulations. The Bank is subject to almost identical capital requirements adopted by the FDIC.

## Effects of Governmental Policies

In addition to regulatory requirements, the Corporation and its subsidiary Bank are affected by the national economy and the influence on that economy exerted by governmental bodies through monetary and fiscal policies and their efforts to implement such policies. In particular, the impact of the open market operations on interest rates, the establishment of reserve requirements and the setting of the discount rate will continue to affect business volumes and earnings. The exact nature or the full extent of this impact is almost impossible to predict; however, management continues to monitor these activities on a regular basis and seeks to modify its policies and procedures accordingly.

## Employees

As of December 31, 2008, the Corporation employed 110 people in full- and part-time positions. Approximately 52 employees are represented by the United Auto Workers, Local 1799. In 2008, the Corporation and bargaining unit employees entered into a five-year labor agreement that will expire in February 2014.

## Executive Officers of the Corporation

The following table shows the names and ages of the current executive officers and the present and previous positions held by them for at least the past five years.

All of the properties are used in their entirety for banking purposes. In each case, the properties have been maintained in good repair, are well suited for their present use and appear to be adequate for the immediate needs of the Corporation and its subsidiary. The locations of the Corporation's real properties can be found in the Annual Report to Shareholders.

Item 3. LEGAL PROCEEDINGS

The Corporation, in the normal course of business, is subject to various legal proceedings. Management does not expect the outcome of these proceedings to have a material adverse impact on the Corporation's financial condition or results of operations.

## Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Information appearing in the Annual Report to Shareholders for the fiscal year ended December 31, 2008 (the Annual Report) in the section titled "Common Stock Information" is incorporated herein by reference in response to this item. As of March 3, 2009 there were 429 shareholders of record of the Corporation's common stock. The number of beneficial shareholders is approximately 783.

We have historically paid quarterly dividends on our common stock and currently intend to continue to do so in the foreseeable future. Our ability to pay dividends depends on a number of factors, however, including restrictions on the ability of the Corporation to pay dividends under federal laws and regulations, and as a result there can be no assurance that dividends will be paid in the future.

In 2000, the Board of Directors authorized the repurchase of up to 360,000 shares of the Corporation's common stock from time to time when warranted by market conditions. There have been 225,174 shares purchased under this authorization through December 31, 2008.

The Corporation maintains a system of disclosure controls and procedures that is designed to ensure that information required to be disclosed by the Corporation in this Form 10-K, and in other reports required to be filed under the Securities Exchange Act of 1934 (Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms for such filings. Management of the Corporation, under the direction of the Corporation's Chief Executive Officer and Chief Financial Officer, reviewed and performed an evaluation of the effectiveness of the Corporation's disclosure controls and procedures (as defined in Rules 13a-15a(e) and 15d-15(e) under the Exchange Act) as of December 31, 2008. Based on that review and evaluation, the Chief Executive Officer and Chief Financial Officer, along with other key management of the Corporation, have determined that the disclosure controls and procedures were and are effective as designed to ensure that material information relating to the Corporation and its consolidated subsidiaries required to be disclosed by the Corporation by the Exchange Act, was recorded, processed, summarized and reported within the applicable time periods.

Changes in Internal Controls

There have been no significant changes in our internal controls or in other factors that could significantly affect our internal controls during the quarter ended December 31, 2008.

Management's Report on internal Control over Financial Reporting.

Our Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934. Under the supervision and with the participation of our management, including the principal executive officer and principal financial officer, we have conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation under the framework in Internal Control-Integrated Framework, we have concluded that the internal control over financial reporting was effective as of December 31, 2008.

Because of its inherent limitations, internal control over the financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures

may deteriorate.
