## Highlights

3rd Quarter 2006

- In Mexico, TELMEX's broadband service continues to show growth with an addition of 217 thousand services in the quarter, the highest historic gain. The number of Prodigy Infinitum (ADSL) customers increased 76.1% compared with September 2005, bringing the total to 1.6 million customers. Billed line equivalents for data transmission increased 27.6% compared with last year.
- In Mexico, domestic long distance traffic increased 2.1% compared with the same period of 2005. International outgoing and international incoming traffic increased 3.9% and 32.7%, respectively.
- At September 30, TELMEX had a market share of 25% of fixed and mobile services with 18 million 601 thousand lines, of a total of more than 74 million fixed and mobile services in the country.
- During the quarter, TELMEX continued to clean up prepaid lines that are not producing revenues, reducing their total by 129 thousand in addition to the 202 thousand disconnections of lines that pay rent during the period. Connections totaled 379 thousand, for a net gain of 48 thousand lines in the third quarter. During October, 233 thousand prepaid lines have been disconnected as part of the clean-up program, which will continue for the rest of the year. After this clean-up, we estimate that TELMEX will serve approximately 1.7 million prepaid lines across our markets, including segments that increasingly are served by mobile telephony. In the third quarter, 10.3 million prepaid Multifón cards were sold for the prepaid lines, an increase of 6.7% compared with the same period of 2005.
- In the fixed line business in Mexico, TELMEX competes with 9 operators that are mainly focused on high-income segments A, B, and C+. In these segments with competition, TELMEX has a market share of approximately 70%. On the other hand, the company's commitment to meeting demand for telecommunications services has led us to be the only fixed-line operator with presence in homes of socioeconomic segments C-, D, E and prepaid of the country.
- In Brazil, the main revenue generators continued to increase. Line equivalents of 64 Kbps increased 60.4%, local service access increased 42.7% and domestic long distance traffic increased 14.8%. The Triple Play service that was introduced in March of this year through Net Serviços serves 115 thousand customers.
- In the third quarter, Embratel reached an important agreement in process of approval with most of the Brazilian states regarding ICMS (Imposto Sobre Circulação de Mercadoria e Prestação de Serviços), that reduced the impact of the fiscal contingency related to this tax that the company had for many years. The amount of the non-recurring

charge was approximately 515 million reais.

- In the third quarter, consolidated revenues reached 43.3 billion pesos, 0.5% higher than the same period of 2005, while revenues in Mexico totaled 31.8 billion pesos, a decrease of 1.2%. In Brazil, revenues totaled 2.1 billion reais in the quarter, 8.2% higher than the same quarter of the previous year.
- Consolidated EBITDA (1) totaled 16.8 billion pesos, a decrease of 13.7% due to the charge related to ICMS in Brazil and produced a margin of 38.7%. If the non-recurring charge of ICMS in Brazil were excluded, EBITDA would have reached 19.4 billion pesos, with a margin of 44.8% similar to the same period of 2005.
- Due to the above mentioned charge, operating income totaled 10.6 billion pesos. The operating margin was 24.6%, 5.7 percentage points lower than the same period of 2005. If the non-recurring charge of ICMS in Brazil were eliminated, operating income would have reached 13.3 billion pesos with a margin of 30.6%
- Majority net income in the third quarter totaled 6 billion pesos, 16.7% lower than the same period of the previous year due to the charge related to ICMS in Brazil. If we exclude the ICMS charge, we estimate that majority net income would have reached 7.5 billion pesos, with an increase of 3.6% compared with the same period of 2005. Earnings per share were 30 Mexican cents and 54 US cents per ADR, a decrease of 6.3% and 3.6%, respectively, compared with the third quarter of the previous year.
- Consolidated net debt (3) increased in the quarter to the equivalent of approximately 76 million dollars, totaling 6.715 billion dollars. In the quarter, cross currency swaps were carried out to cover the exchange rate and interest rate risks related to the issuance of bonds with maturity in 2010 and 2015 for a total of 1.75 billion dollars (with interest rates of 4.75% and 5.50%, respectively). This transaction allowed TELMEX to fully hedge the 2010 and 2015 bonds at a strike price of 10.9275 pesos with a fixed rate of 7.52% and 8.57%, respectively.
- Consolidated investment was equivalent to 1.293 billion dollars in the nine months of 2006. Share repurchases rose to 7.3 billion pesos during the quarter.
- (3) Net debt is defined as short-term liabilities plus long-term debt less cash and equivalents.

#### **Recent Events**

#### New appointments

On September 20, 2006, the Board of Directors approved a modification of its organizational structure in which the company seeks to enhance the development of its strategic activities as well as to further increase its focus on operations. Jaime Chico Pardo was appointed Chairman of the Board of Directors, Carlos Slim Domit was appointed

Co-chairman of the Board of Directors, Héctor Slim Seade was appointed Chief Executive Officer of TELMEX and Oscar von Hauske was appointed President of TELMEX International. These changes represent an organizational transition that strengthens the company's operating capacity and recognizes the experience of senior management.

Cash tender offer for shares of Embratel.

On September 27, the Commissão de Valores Mobiliários de Brasil (CVM) granted the registration of the Voluntary Tender Offer for TELMEX to acquire all of the common and preferred shares of EMBRAPAR. On October 3, TELMEX announced that it commenced the tender offer that is estimated to expire on November 6, 2006 (unless the tender offer is extended or earlier terminated). Following the tender offer, TELMEX will carry out an auction in the Bolsa de Valores de São Paulo (BOVESPA) on November 7, 2006.

#### Share repurchase program

On September 20, the Board of Directors resolved to call for the Ordinary Shareholders' Meeting to be held on October 9, 2006, where they approved an increase in funds to purchase the company's own shares by 15 billion pesos. At that date, with the newly authorized funds the available balance was approximately 15.931 billion pesos.

#### **Consolidated Income Statements**

#### Revenues:

In the third quarter, consolidated revenues increased 0.5%, mainly due to the 9.8% and 11.6% increases in Internet and corporate networks revenues, respectively; the 9.9% increase in other revenues, comprised primarily of yellow pages and Tiendas TELMEX (TELMEX stores). Additionally, interconnection revenues decreased 4.2% (calling party pays), domestic long distance revenues decreased 3.5% and international long distance revenues decreased 6.1%. For the nine months, revenues totaled 128.1 billion pesos, an increase of 0.6%.

#### Costs and expenses

: Costs and expenses increased 8.7%, mainly due to a non-recurring charge of approximately 515 million reais from the agreements that Embratel carried out related to the ICMS tax (Imposto Sobre Circulação de Mercadoria e Prestação de Serviços). If this effect were eliminated, costs would have remained at the same level as the third quarter of 2005. This increase was also due to change in the accounting policy for PC sales in Mexico, offset by improved internal efficiencies reflected in the decrease of maintenance costs and consumption of materials. For the nine months, costs and expenses totaled 92.4 billion pesos, an increase of 2.4% compared with the same period of the previous year.

## EBITDA (1) and operating income:

EBITDA (1) totaled 16.8 billion pesos in the third quarter, a decrease of 13.7% compared with the same period of 2005. The EBITDA margin was 38.7%. Operating income totaled 10.6 billion pesos, 18.3% lower than the third

quarter of 2005. The operating margin was 24.6%. If the non-recurring charge related to ICMS in Brazil were eliminated, EBITDA (1) and operating income would have totaled 19.4 billion pesos and 13.3 billion pesos, with margins of 44.8% and 30.6%, respectively. For the nine months, EBITDA totaled 54.3 billion pesos and operating income 35.7 billion pesos.

#### Comprehensive financing cost:

Comprehensive financing cost totaled 1.7 billion pesos in the quarter, an increase of 5.7% compared with the third quarter of 2005. This resulting from: i) a net interest charge of 2.1 billion pesos in part due to the restructure, in July, of the 15.9 billion pesos of interest rate swaps that generated a charge of 291 million pesos, but improved the weighted fixed interest rate from 9.02% to 8.76%, ii) a net exchange loss of 528 million pesos from the impact of the third-quarter's exchange rate appreciation of 0.35 pesos per dollar. This impact was partially offset by the 5.735 billion dollars in dollar-peso hedges (weighted average exchange rate: 11.1130 pesos per dollar) and the 547 million dollars in dollar-reais hedges (weighted average exchange rate: 2.3925 reais per dollar) and a gain of 215 million pesos from the cross currency swaps acquired during the quarter, and iii) a gain in the monetary position of 895 million pesos, due to a higher inflation rate in Mexico during the quarter compared with the same period of the previous year.

#### Majority net income:

Majority net income totaled 6.012 billion pesos, 16.7% lower than the same period of the previous year, mainly due to the non-recurring charge related to ICMS in Embratel in Brazil. If we exclude the ICMS charge, we estimate that majority net income would have reached 7.5 billion pesos, with an increase of 3.6% compared with the same period of 2005. Earnings per share at September 30, 2006 were 30 Mexican cents, and earnings per ADR were 54 US cents. For the nine months, majority net income totaled 20.441 billion pesos, a decrease of 1.5% compared with the same period of the last year.

#### Free cash flow:

At September 30, resources provided by operating activities totaled 40 billion pesos, of which 21.438 billion were used in share repurchases, 6.342 billion in dividend payments and the rest in several investments.

#### Investments:

In the first nine months of 2006, consolidated investment was the equivalent of 1.293 billion dollars, of which 81% was used for growth projects in the voice, data and transport infrastructure, 15.2% for operational support projects and operating needs and 3.8% for social telephony.

#### Debt:

Gross total debt at September 30 was the equivalent of 9.116 billion dollars, an increase of 625 million dollars from a year ago. Consolidated net debt (3) increased in the quarter to the equivalent of approximately 76 million dollars,

totaling 6.715 billion dollars. In the quarter, cross currency swaps were carried out to cover the exchange rate and interest rate risks related to the issuance of bonds with maturity in 2010 and 2015 for a total of 1.750 billion dollars (with interest rates of 4.75% and 5.50%, respectively). This transaction allowed TELMEX to hedge the 2010 and 2015 bonds at a strike price of 10.9275 pesos with fixed rates of 7.52% and 8.57%, respectively. Additionally, a syndicated bank loan was carried out for 500 million dollars with an average maturity of 5 years at an average interest rate of Libor +22.5 basis points and the syndicated bank loan of 2.5 billion dollars (issued in 2005) was increased to 3 billion dollars and increased its average maturity to 4.6 years at an average interest rate of Libor +24.6 basis points.

(3) Net debt is defined as short-term liabilities plus long-term debt, less cash and equivalents.

#### Repurchase of shares:

For the nine months, the company used 21.438 billion pesos to repurchase its own shares. During the quarter, 7.3 billion pesos were used to repurchase 558,666,300 shares. On September 20, the Board of Directors resolved to call for the Ordinary Shareholders' Meeting to be held on October 9, 2006, where they approved to increase the funds to purchase the company's own shares by 15 billion pesos, and at that date, the balance was approximately 15.931 billion pesos.

Sección Amarilla (Yellow Pages):

On October 24, TELMEX acquired an 80 percent interest in Cobalt Publishing, LLC, an affiliate of Blue Equity LLC, which publishes Enlace, the largest independent Spanish Yellow Pages directory publisher in the United States with presence in 18 States besides Internet.

TELMEX will rebrand the directories with the Sección Amarilla logo and name, a brand with over 100 years of experience in the directory business and currently publishes 135 directories across Mexico.

#### **Mexico Operating Results**

#### Lines in service

TELMEX competes with other local service providers in Mexico that are mainly focused on the high-income economic segments. That is the case of socioeconomic A and B segments where TELMEX serves 74% of the homes, while cable companies provide service to 93% of the homes. On the other hand, the company's commitment to meeting demand for telecommunications services has led us to be practically the only fixed-line operator with presence in socioeconomic segments C, D and E of the country. Therefore, approximately 60% of our lines generate less than 230 pesos per month.

From July to September 2006, TELMEX continued its growth-with-profitability policy for fixed lines in service, resulting in a clean-up of 129 thousand prepaid lines that were not generating usage. Along with the 202 thousand disconnections of fixed lines that pay rent, that resulted in 331 thousand disconnections. We will continue to clean-up prepaid lines that are not profitable for the rest of the year. At September 30, TELMEX had 18 million 601 thousand lines in service, an increase of 2.6% compared with the same period of the previous year. For the nine months, the line gain was 227 thousand resulting from 1 million 224 thousand connections and 997 thousand disconnections.

Local traffic

During the third quarter, local traffic decreased 0.6% over the same period in 2005, with a total of 6.734 billion local calls. Local traffic volume has been affected by competition from local and wireless telephony and by the migration of our switched traffic to corporate networks, which strengthens the data business. For the nine months, total local traffic was 20.085 billion calls, 0.2% higher than the same period of the previous year.

On the other hand, the measured service packages, Línea Hogar and Línea Más Negocio, totaled 227 thousand and 492 thousand customers, respectively. These figures validate our strategy to evolve toward a more predictable revenue flow produced by package offerings.

#### Long distance traffic

#### Mexico Financial Results

## Revenues:

Revenues in the third quarter totaled 31.8 billion pesos, a decrease of 1.2% compared with the same period of last year. Increases in revenues of 5.3% from corporate networks and 12.2% from Internet revenues were not enough to offset the decrease in prices in real terms of local and long distance services, which reflected the company's decision not to increase rates; the introduction of packages that promote

usage but generate a decrease in revenues per call; and, finally, the 10% reduction of the calling party pays rate. If revenues from calling party pays were excluded, revenues would have decreased 0.2%. For the nine months, revenues totaled 93.5 billion pesos, a decrease of 1.5% compared with the same period of 2005.

#### • Local:

Local revenues totaled 13.9 billion pesos in the third quarter, a decrease of 3.6%, reflecting the reduction of the average measured service rate and monthly rent in real terms of 5.5% and 3.2%, respectively, and the decrease of public telephony due to competition from cellular companies and public telephony competitors. For the nine months, local revenues totaled 41.7 billion pesos, a decrease of 3%.

#### • DLD:

DLD revenues totaled 4.4 billion pesos in the third quarter, 3.1% lower than the third quarter of 2005 due to the 5.1% decrease in the average revenue per minute in real terms. For the nine months, DLD revenues totaled 13.2 billion pesos, a decrease of 2.2%.

#### • ILD:

In the third quarter, ILD revenues totaled 2.5 billion pesos, a decrease of 2.6% compared with the third quarter of the previous year. International settlement revenues totaled 881 million pesos, an increase of 7.9%. For the nine months, ILD revenues totaled 7.6 billion pesos, an increase of 0.7%.

#### • Interconnection:

Interconnection revenues in the third quarter decreased 4.6% to 4.3 billion pesos due to the 10% reduction of the calling party pays rate. For the nine months, interconnection revenues totaled 12.4 billion pesos, a decrease of 8.8%.

#### • Cost of sales and services:

#### • Commercial, administrative and general:

#### • Transport and interconnection:

In the third quarter, transport and interconnection costs totaled 3 billion pesos, a decrease of 1% due to the reduction in the calling party pays rate, the main component of this item. For the nine months, transport and interconnection costs decreased 5.4%, totaling 8.9 billion pesos.

#### • Depreciation and amortization:

In the quarter, depreciation and amortization decreased 7% to 4.5 billion pesos due to less impact from restatement of the value of fixed assets and lower levels of investment carried out in recent years. The amount of the non-recurring charge was approximately 515 million reais. This effect, along with higher charges related to the Telecommunications Service Universal Fund (FUST) and the inclusion of Primesys, generated costs and expenses in the quarter of 2.385 billion reais, an increase of 41.1% compared with the third quarter of the previous year. Costs of sales and services increased 42.2%, totaling 272 million reais. Transport and interconnection costs totaled 844 million reais, an increase

of 2.4%, and represented 35.4% of total costs and expenses. Commercial, administrative and general expenses increased 140.5% in the quarter.

EBITDA (1) and operating income had losses of 40 million reais and 348 million reais, respectively. #### S 87 OTHERS

In this item there are included the inventories for telephone plant operation that at September 30, 2006 and 2005 rose \$2,439,885 and \$2,612,236, respectively which are valued by the average cost method and are updated based on the specific index method, without exceeding their market value.

#### S 84 INTANGIBLE ASSETS FOR LABOR OBLIGATIONS

In this item it is included the projected net asset accordingly with Bulletin D-3 Labor Obligations issued by the Mexican Institute of Public Accountants.

PROJECTED NET ASSETS (D-3)

At September 30, 2006 and 2005, the market value of the established pensions and seniority premium fund was greater than the accumulated benefit obligation (ABO) in Mexico, and pursuant to Bulletin D-3, it is not recognized neither any additional liability nor the related intangible asset and effect of labor obligation on stockholders' equity. As a result of the foregoing, the balance sheet presents a projected net asset.

#### S 23 AND S 28 BANK LOANS

In this item, there are included the banks' credits related to purchase programs to suppliers that have been reported in the suppliers' credits item of the Balance Sheet because long-term opening to suppliers does not exist in EMISNET.

On October 20, 2005, TELMEX signed an agreement to restructure the syndicated bank loan entered into on July 15, 2004 for 2.425 billion dollars to improve the credit conditions and increase the total amount to 2.5 billion dollars in two tranches, the first one for 1.5 billion dollars due in four years and the second one for 1 billion dollars due in six years. On August 11, 2006 the loan was restructured again in order to improve the credit conditions and increase the total amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars due in three years, the second one for 1 billion dollars due in five years and the third one for 700 million dollars due in seven years.

On June 30, 2006 Telmex signed a syndicated loan agreement in the amount of 500 million dollars divided into two tranches of 250 million dollars each one, due in four and six years, respectively.

#### S 24 AND S 29 STOCK MARKET LOANS

During 2001, TELMEX issued senior notes for U.S.\$1.5 billion, maturing in 2006 and bearing 8.25% annual, interest payable semi-annually. From January to December, 2005, TELMEX repurchased in the market a portion of these senior notes in the amount of U.S. \$431.6 million (nominal value). The difference between the repurchase price and the nominal value of the bonds is U.S.\$ 15.6 million. On January 26, 2006, Telmex paid the outstanding balance that amounted U.S.\$1,068.4 million.

On November 19, 2003, TELMEX issued a bond for U.S.\$ 1.0 billion due 2008, with an annual; interest of 4.5%. Interest will be paid every six months.

On January 27, 2005, TELMEX placed senior notes in aggregate principal amount of U.S.\$1.3 billion in two issuances of U.S.\$650 million each, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interest will be paid every six months. On February 22, 2005, there was a reopening of this transaction and the amounts of such issuances increased to U.S. \$950 million and U.S. \$800 million, respectively.

On July 2006, cross currency swaps were carried out to cover the exchange rate and interest rate risks related to the issuance of bonds with maturity in 2010 and 2015 for a total of 1.750 billion dollars (with interest rates of 4.75% and 5.50%, respectively). This transaction allowed TELMEX to hedge the 2010 and 2015 bonds at a strike price of 10.9275 pesos with fixed rates of 7.52% and 8.57%, respectively.

On January 31, 2006, TELMEX placed abroad a senior note in the amount of Ps. 4.5 billion, maturing in 2016 and bearing interest at 8.75%. Interest will be paid semi-annually.
