CONTENTS

This report on Form 6-K of MAGIC SOFTWARE ENTERPRISES Ltd. consists of the following documents, which are attached hereto and incorporated by reference herein:

1. Magic Software Wins Deal to Provide RIA Platform and SAP R/3 Integration Solution for Leading European Sauna and Spa Company KLAFS

PRESS RELEASE

Magic Software Wins Deal to Provide RIA Platform and SAP R/3 Integration Solution for Leading European Sauna and Spa Company KLAFS

Deal signed to provide uniPaaS RIA application platform and iBOLT business integration suite for German manufacturer of saunas, spas and wellness installations.

Or-Yehuda, Israel, September 8, 2009 Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of application platforms and business and process integration solutions, today announced that it has signed a contract with KLAFS, a leading European manufacturer of saunas, spas and wellness installations for private and commercial use.

Using 3 developers, KLAFS will build a product configurator based upon uniPaaS rich internet application (RIA) platform.

uniPaaS RIA was chosen for its ability to develop a rich internet application's client logic, communication layer and server application from the same code-base. All other solutions examined required the use of several technology programming languages. Moreover, once developed, a uniPaaS application can be easily deployed in any business mode; RIA, Client/Server or Web Client.

KLAFS also plans to integrate the data from the product configurator with the company's existing SAP R/3 ERP system using Magic Software's iBOLT business and process integration suite.

The iBOLT business integration suite integrates and orchestrates between diverse business processes and applications. Featuring a code-free approach, iBOLT enables simple and complex business processes to be designed and implemented easily, without working through pages of hard code.
