```
FEMSA reports solid operating
results for the third quarter and
    first nine months of 2004
Monterrey, Mexico, October 27, 2004 -- Fomento Economico Mexicano, S.A. de C.V.
("FEMSA") (NYSE: FMX; BMV: FEMSA UBD, FEMSA UB), the largest integrated beverage
company in Latin America, today reported its operational and financial results
for the third quarter and first nine months of 2004.
Business Highlights
- FEMSA Consolidated total revenues increased 6.8\% and income from operations
was up 6.6\% during \(3 Q 04\) driven by steady performance at our main business units.
- FEMSA Cerveza domestic volume increased 4.3\% during 3004 and income from
operations rose \(4.6 \%\). We continued to experience positive sales trends
throughout all our Mexican territories by leveraging our new business model.
- Coca-Cola FEMSA's income from operations increased 9.0\% during the quarter.
Operating margin expanded year-over-year in all international operations and
sequentially in Mexico.
- FEMSA Comercio added 173 net new Oxxo stores during the quarter, now totaling

3,259 locations nationwide, 718 more stores than a year ago.

October 27, 2004 1
[LOGO] FEMSA

Jose Antonio Fernandez, Chairman and CEO of FEMSA, commented, "I am pleased to report another quarter where we made solid progress in the implementation of our beverage strategy. As you know, in late August we finalized the transaction whereby we repurchased \(30 \%\) of FEMSA Cerveza and unwound our business relationship with Interbrew. We are moving swiftly to leverage our renewed flexibility and are making progress in the design of the business plan for our U.S. exports together with Heineken USA. In the key domestic beer market, we are on track in our transformation efforts with very positive results.

At Coca-Cola FEMSA, we achieved operating margin expansion in most of our territories. It is increasingly evident that the acquisition of our new territories is supporting our growth through the diversification of revenues and profit sources throughout Latin America.

Finally, FEMSA Comercio advanced in the consolidation of Oxxo's leadership position in the market while continuing to improve the value proposition in its stores, with a view to continue increasing same-store sales performance by better identifying and serving customers' needs.

We are optimistic about the road ahead and we will keep the pace. There is much work to be done in our pursuit to create long-term shareholder value."

Notice

Upon the completion of our acquisition of Panamerican Beverages, Inc. ("Panamco"), we began consolidating its operating results as of May 2003. Therefore, operating results presented in this report for Coca-Cola FEMSA ("KOF") and for FEMSA consolidated for the nine months ended September 30, 2004 are not comparable to the nine months ended September 30, 2003. Operating results for the third quarter ended September 30, 2004, however are fully comparable with the third quarter of 2003. Our annual results will be fully comparable to the previous year once we report for full year 2005 .

October 27, 2004 2
[LOGO] FEMSA

DISCUSSION OF FINANCIAL RESULTS FOR THE THIRD QUARTER AND NINE MONTHS ENDED SEPTEMBER 30, 2004 COMPARED TO THE THIRD QUARTER AND NINE MONTHS ENDED SEPTEMBER 30, 2003.

FEMSA

FEMSA total revenues increased by \(6.8 \%\) to Ps. 23.702 billion during 3204 from Ps. 22.195 billion during \(3 Q 03\). Almost \(90 \%\) of the increase in total revenues is related to the growth at FEMSA Comercio, which added 718 net new convenience stores in the last twelve months.

For the first nine months of 2004 , our consolidated total revenues increased by \(21.4 \%\) to Ps. 68.282 billion from Ps. 56.223 billion during the same period of 2003. The increase in total revenues was driven by growth in every one of our main operating companies, with most of the increase due to the inclusion of the

\author{
new Coca-Cola FEMSA territories, and the growth in net new Oxxo stores at FEMSA
} Comercio.

Cost of sales increased to Ps. 12.520 billion during 3204 compared to Ps. 11.521 billion during the same period of 2003, an increase of \(8.7 \%\). Most of this increase was due to an increase in the net number of oxxo stores, and to a lesser extent, a higher cost of sales at FEMSA Cerveza. Gross margin decreased 90 basis points to \(47.2 \%\) of total revenues during \(3 Q 04\) compared to \(48.1 \%\) during 3Q03. This was primarily due to the higher proportion of the lower margin operations of FEMSA Comercio in FEMSA's consolidated results, as well as slight contractions in the gross margins of FEMSA Cerveza and FEMSA Empaques.

Our cost of sales increased to Ps. 36.190 billion during the first nine months of 2004 compared to Ps. 29.187 billion during the first nine months of 2003 , an increase of \(24.0 \%\). Nearly two-thirds of the increase was due to the inclusion of the new Coca-Cola FEMSA territories, while most of the remaining third was due to an increase in the net number of Oxxo stores. Our gross margin decreased 110 basis points to \(47.0 \%\) of total revenues during the first nine months of 2004 compared to \(48.1 \%\) for the same period of 2003 .

Income from operations increased by 6.6\% to Ps. 3.613 billion during \(3 Q 04\), resulting in an operating margin of \(15.2 \%\). The observed margin contraction of 10 basis points from \(3 Q 03\) primarily resulted from the net effect of declines in the operating margins of FEMSA Empaques and FEMSA Comercio, partially offset by improvements in the operating margins of FEMSA Cerveza and Coca-Cola FEMSA.

For the first nine months of 2004 , income from operations increased by \(13.2 \%\) reaching Ps. 9.932 billion compared to Ps. 8.776 billion for the first nine months of 2003. The consolidated operating margin decreased 110 basis points from the same period of 2003 to \(14.5 \%\) of total revenues. This margin contraction resulted from the net effect of a decrease in the operating margins of Coca-Cola FEMSA, FEMSA Comercio, and FEMSA Empaques, which was partially offset by a 110 basis point improvement in the operating margin of FEMSA Cerveza.

October 27, 2004 3

\author{
[LOGO] FEMSA
}

Net interest expense amounted to Ps. 716 million during 3004 , compared to Ps. 807 million during 3Q03, due to the net effect of (1) increased debt from the purchase of \(30 \%\) of FEMSA Cerveza during \(3 Q 04\), and (2) a favorable comparison to 3Q03, when we recognized a one-time commission charge related to the prepayment of debt incurred for the Panamco acquisition. For the first nine months of 2004 , net interest expense amounted to Ps. 2.229 billion compared to Ps. 1.437 billion for the first nine months of 2003 . This increase is primarily related to interest expense related to debt incurred by Coca-Cola FEMSA to acquire Panamco in May 2003.

Foreign exchange gain (loss) amounted to a gain of Ps. 62 million during \(3 Q 04\). This was a significant improvement from the loss of Ps. 1.164 billion during 3Q03. The Ps. 62 million gain is due to the appreciation of \(1.18 \%\) of the Mexican peso against the U.S. dollar during 3204 applied to our U.S. dollar-denominated liabilities and a foreign exchange gain on the cash obtained to repurchase \(30 \%\) of FEMSA Cerveza that was part of our cash balance for two months of the third quarter. The Mexican peso depreciated \(1.26 \%\) in nominal terms versus the U.S. dollar during the first nine months of 2004 moving from 11.235 pesos per U.S. dollar on December 31,2003 to 11.376 pesos per U.S. dollar on September 30 , 2004. For the first nine months of 2004 , foreign exchange loss amounted to a loss of Ps. 108 million compared to a loss of Ps. 2.151 billion in the same period of 2003 related to the devaluation of the Mexican peso against the debt

\title{
Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 6-K
}
incurred by Coca-Cola FEMSA to acquire Panamco.

Monetary position gain (loss) amounted to a gain of Ps. 588 million during \(3 Q 04\), compared to a gain of Ps. 481 million during 3003 . For the first nine months of 2004, the monetary position amounted to a gain of Ps. 1.138 billion, compared to a gain of Ps. 517 million during the same period of 2003 . This gain reflects the inflationary impact on our higher net liabilities recorded during the period.

Tax recognized during \(3 Q 04\) amounted to Ps. 1.290 billion, which includes income tax, tax on assets, and employee profit sharing ("taxes"), compared to Ps. 653 million during 3Q03. For the first nine months of 2004 , taxes amounted to Ps. 3.242 billion, compared to Ps. 2.004 billion for the same period of 2003 . The effective tax rate for the first nine months of 2004 was \(38.2 \%\), compared to the \(40.1 \%\) effective tax rate for the same period in 2003.

Extraordinary gain.

As mentioned in our second quarter 2004 press release, in May 2004 our subsidiary Coca-Cola FEMSA obtained a favorable final ruling from a Mexican federal court allowing it to deduct losses arising from a sale of shares during 2002. As a result of the ruling, our consolidated net income increased by Ps. 1.195 billion for the first nine months of 2004 as compared to the same period in 2003.

Net income amounted to Ps. 2.245 billion during 3Q04, up \(98.1 \%\) with respect to 3Q03. For the first nine months of 2004 , net income increased \(115.6 \%\) to Ps. 6.442 billion from Ps. 2.988 billion during the same period in 2003.

October 27, 2004
4
[LOGO] FEMSA

Net majority income per FEMSA Unit1 was Ps. 1.303 in \(3 Q 04\) and Ps. 3.654 for the first nine months of 2004. Net majority income per FEMSA ADS, assuming an exchange rate of Ps. 11.376 per dollar, was US\$ 3.21 for the first nine months of 2004. Consolidated net majority income amounted to Ps. 3.871 billion for the first nine months of \(2004,81.1 \%\) higher than the same period of 2003 .

Capital expenditures amounted to Ps. 1.742 billion and Ps. 4.680 billion for 3Q04 and the first nine months of 2004 , respectively.

Consolidated debt. As of September 30, 2004, FEMSA recorded a cash balance of Ps. 7.683 billion (US 675 million), short-term debt of Ps. 8.050 billion (US\$ 708 million) and long-term debt of Ps. 39.208 billion (US\$ 3, 447 million). FEMSA's consolidated net debt balance (the sum of short-term debt, plus long-term debt, minus cash balance) increased by US\$ 996 million as of September 30, 2004 from June 30,2004 . This increase is a result of the additional debt incurred for the repurchase of the remaining \(30 \%\) of FEMSA Cerveza that took place on August 31, 2004. FEMSA intends to repay approximately US\$ 500 million of this new debt with proceeds of an equity offering (please refer to section below: FEMSA equity issuance to finance part of the acquisition of \(30 \%\) of FEMSA Cerveza).

As of September 30, 2004, approximately \(50.5 \%\) of FEMSA's consolidated total debt had fixed interest rates, while the remaining \(49.5 \%\) had variable interest rates. Our currency breakdown was as follows: \(35.0 \%\) of our total debt was denominated in U.S. dollars, 63.6\% in Mexican pesos, and 1.4\% in Colombian pesos. The weighted average interest rates of our debt were approximately 9.1\%, 4.5\%, and \(10.2 \%\) for Mexican peso, U.S. dollar, and Colombian peso-denominated debt, respectively. The nominal weighted average annual interest rate for our total
debt was 7.5\% as of September 30, 2004.
Recent Developments:
"Six" stores transferred from FEMSA Cerveza to FEMSA Comercio.

As mentioned in the first quarter 2004 FEMSA press release, during the month of December 2003, all of the "Six" stores that were considered suitable to be converted into the Oxxo format were sold to FEMSA Comercio. This amounted to 319 "Six" stores. The transfer increased FEMSA Cerveza's ability to focus on its core operations, while providing FEMSA Comercio with a number of proven locations.

In order to assure comparability, and in accordance with accounting rules, for \(3 Q 03\) and first nine months of 2003, we have taken the financial results of these "Six" stores from FEMSA Cerveza and incorporated them into FEMSA Comercio. The information presented in this press release is based on these reclassified figures for the third quarter and first nine months of 2003. This change has no impact on FEMSA Consolidated figures. For further details, please see the attached financial tables.
(1) FEMSA Units consist of FEMSA BD units and FEMSA B units. Each FEMSA BD unit is comprised of one Series B share, two Series D-B shares and two Series D-L shares. Each FEMSA B unit is comprised of five Series B shares. The number of FEMSA Units outstanding as of September 30,2004 was 1,059,462,090, equivalent to the total number of shares of FEMSA outstanding as of September 30, 2004 divided by 5.

October 27, 2004 5
[LOGO] FEMSA

FEMSA equity issuance to finance part of the acquisition of \(30 \%\) of FEMSA Cerveza.

As reported in our second quarter results, on July 27, 2004 our shareholders approved the issuance of up to 344 million Series B shares and up to 322 million Series D-B and D-L shares, which represent up to 52.8 million B Units and up to 80.5 million BD Units. We expect to sell these Units in offerings in Mexico and in the form of ADSs outside of Mexico. The number of shares authorized for sale includes any shares that might be required to satisfy an over-allotment option on the \(B D\) Units that may be granted to the underwriters. Prior to the commencement of the offerings, we will determine the exact number of Units to be offered. Any authorized shares in excess of those constituting the Units in the offerings (and the over-allotment option) will be cancelled. Our expectation is that our total proceeds from the offerings will range from US\$ 500 million to US\$ 550 million. The proceeds from the offerings will be used to repay debt incurred in connection with our repurchase of \(30 \%\) of FEMSA Cerveza, which took place in August 2004. For more information about this repurchase please refer to our August 31,2004 press release titled "FEMSA and Interbrew complete transaction unwinding relationship".

A registration statement relating to these securities has been filed with the U.S. Securities and Exchange Commission but has not yet become effective. The securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities. There shall be no sale of any securities in any
jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration under the securities laws of such jurisdiction.

Reclassification following the acquisition of \(30 \%\) of FEMSA Cerveza.

The participation of affiliated companies, which mainly related to results from Labatt USA, is now stated below the operating income line.

FEMSA Empaques' core operations to be merged into FEMSA Cerveza during \(4 Q 04\).

As another step towards our integrated beverage model, on October 26 , the Board of Directors approved the integration of FEMSA Empaques' core operations into FEMSA Cerveza. Specifically, the operations in glass bottles and cans will be consolidated into FEMSA Cerveza, with the other non-core and smaller operations remaining at FEMSA Empaques. For reporting purposes, FEMSA Empaques will cease to appear as a separate business starting with our \(4 Q 04\) and full year 2004 results. In our next quarterly press release we will provide reclassified figures for full comparability of our \(4 Q 04\) and full year 2004 results with previous periods.

Coca-Cola FEMSA

Coca-Cola FEMSA's financial results and discussion are incorporated by reference from Coca-Cola FEMSA's press release attached to this press release.

October 27, 2004 6
[LOGO] FEMSA

FEMSA Cerveza

Domestic sales volume grew by \(4.3 \%\) to 6.048 million hectoliters during \(3 Q 04\), primarily due to increased sales throughout all of Mexico led by our Sol, Indio, and Tecate Light brands. For the first nine months of 2004 , domestic sales volume grew by \(4.1 \%\) to 17.443 million hectoliters. We attribute these positive results to several key initiatives. For instance, we continue to (1) drive innovation in our packaging and product portfolio, and we have had particular success with the re-launching of Tecate Light, the roll-out of Sol Brava throughout Central Mexico, and the launching of non-returnable Sol at a premium price in our Northwest Mexico territories, (2) expand our coverage, therefore improving the availability of our products for the consumer, (3) improve our execution at the point of sale, and (4) start to leverage some functionality from our Enterprise Resource Planning ("ERP") system, which is currently operational in 68\% of total direct domestic volume, allowing us to implement micro-segmented strategies in some territories.

Export sales volume increased by \(1.4 \%\) to 0.609 million hectoliters during \(3 Q 04\). This slower pace of growth was primarily due to inventory build-up experienced at our U.S. wholesalers during the first half of 2004 . As evidence of this, depletions in the U.S. market (sales from wholesalers to points of sale) increased by \(8.1 \%\) during 3204 compared to \(3 Q 03\).

For the first nine months of 2004 , export sales volume increased by \(14.6 \%\) to 1.788 million hectoliters. Depletions in the U.S. market increased by \(11.4 \%\), with the remaining growth coming from inventory build-up at wholesalers. The 11.4\% increase in depletions was primarily due to continued successful marketing strategies for our Tecate and Dos Equis brands, and an overall improvement in the U.S. economy.

Total revenues increased by \(4.1 \%\) to Ps. 5.947 billion during 3Q04, resulting

\title{
Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 6-K
}
from total volume growth of \(4.0 \%\) and a \(2.8 \%\) year-over-year increase in Mexican peso terms of our export revenue per hectoliter. Domestic revenue per hectoliter increased by 4.8\% in nominal terms during 3Q04; however, as a result of inflation of \(5.1 \%\) over the last twelve months, real domestic revenue per hectoliter decreased by \(0.3 \%\) principally due to an increase in selective promotional activity during the quarter. For the first nine months of 2004 , total revenues increased by \(5.0 \%\) to Ps. 17.161 billion from Ps. 16.338 billion during the same period of 2003 . Domestic revenues represented \(92 \%\) of the total, while the remaining \(8 \%\) came from exports.

Cost of sales increased by 7.3\% to Ps. 2.517 billion during \(3 Q 04\) from Ps. 2.346 billion during 3Q03. This was due to (1) \(4.0 \%\) growth in total sales volume, (2) a higher percentage of non-returnable presentations in our product portfolio mix, and (3) a per hectoliter increase in the cost of some of energy and barley. For the first nine months of 2004 , cost of sales increased by 5.9\%, slightly ahead of total volume growth, reaching Ps. 7.212 billion compared to Ps. 6.809 billion during the same period of 2003.

October 27, 2004

Gross profit increased by \(1.8 \%\) to reach Ps. 3.430 billion during \(3 Q 04\). Our gross margin decreased by 130 basis points to \(57.7 \%\) of total revenues compared to 59.0\% during 3203. For the first nine months of 2004 , gross profit totaled Ps. 9.949 billion, resulting in a gross margin of \(58.0 \%\), 30 basis points lower than the same period of 2003 .

Administrative expenses increased by 5.0\% to Ps. 623 million during \(3 Q 04\) compared to Ps. 594 million in 3003 due to Enterprise Resource Planning System ("ERP") related expenses. For the first nine months of 2004 , administrative expenses increased by \(5.8 \%\) to Ps. 1.892 billion compared to Ps. 1.788 billion during the same period of 2003.

Selling expenses decreased by \(1.5 \%\) to Ps. 1.572 billion during \(3 Q 04\) compared to Ps. 1.595 billion in 3203 , due to various expense containment initiatives throughout our company. For the first nine months of 2004 , selling expenses decreased by \(0.4 \%\) to Ps. 4.684 billion.

Operating expenses (administrative plus selling expenses) as a percentage of total revenues decreased 140 basis points from \(38.3 \%\) in \(3 Q 03\) to \(36.9 \%\) in \(3 Q 04\) as a result of higher sales volumes and more effective management of operating expenses. For the first nine months of 2004 compared to the same period of 2003 , operating expenses as a percentage of total revenues decreased 140 basis points from 39.7\% to 38.3\%.

Operating income (before deduction of management fees) increased by 4.6\% to Ps. 1.235 billion during \(3 Q 04\) compared to Ps. 1.181 billion during 3Q03. Operating margin (before management fees) increased 10 basis points to \(20.8 \%\) of total revenues. This increase reflects stable real prices, solid volume growth, and a more efficient use of operating expenses that was offset by an increase in cost of sales. For the first nine months of 2004 , operating income (before management fees) increased by \(11.0 \%\) to Ps. 3.374 billion from Ps. 3.038 billion in the same period of 2003. Operating margin (before management fees) increased 110 basis points to \(19.7 \%\) of total revenues reflecting stable real prices, solid volume growth, and a more efficient use of operating expenses.

FEMSA Comercio

Total revenues increased by \(28.6 \%\) to Ps. 5.974 billion during \(3 Q 04\) from Ps.
4.647 billion during 3Q03. As of September 30, 2004, we had 3,259 convenience stores nationwide, an increase of 718 net new stores from September 30, 2003. Oxxo continues to rapidly consolidate its position as the leading chain of convenience stores in Mexico. For the first nine months of 2004 , total revenues increased by \(24.3 \%\) to Ps. 16.277 billion from Ps. 13.097 billion the same period of 2003 .

October 27, 2004 8

\author{
[LOGO] FEMSA
}

Oxxo same store sales increased by an average of \(10.2 \%\) during \(3 Q 04\), reflecting an increase of \(5.8 \%\) in the average ticket and an increase of \(4.2 \%\) in store traffic. The expansion achieved in the average ticket and same store sales figures continues to reflect the rapid pace of expansion as well as stronger category management practices that enabled Oxxo to improve the mix of products within its stores. For the first nine months of 2004 , Oxxo same store sales increased an average of \(8.6 \%\) reflecting an increase of \(4.7 \%\) in the average ticket and an increase of \(3.7 \%\) in store traffic.

Gross profit reached Ps. 1.586 billion during 3204 , which represents a stable gross margin of \(26.5 \%\) of total revenues when compared to the \(26.4 \%\) registered in 3Q03. For the first nine months of 2004 , gross profit increased \(24.9 \%\) to Ps. 4.272 billion compared to Ps. 3.419 billion during the same period of 2003 . Therefore, year-to-date gross margin increased slightly to \(26.2 \%\) of total revenues.

Administrative expenses increased by 61.2\% to Ps. 110 million during \(3 Q 04\) compared to 3203 . Over \(70 \%\) of this increase resulted from expenses and amortization of new IT systems investments that can no longer be capitalized, with the remaining amount resulting from increased expenses in personnel training and development and the opening of three new sales regions in Morelia, Juarez, and La Paz. For the first nine months of 2004 , administrative expenses increased by \(51.8 \%\) to Ps. 317 million compared to the first nine months of 2003.

Selling expenses increased by \(32.1 \%\) to Ps. 1.230 billion during 3Q04, increasing 60 basis points to \(20.6 \%\) of total revenues. For the first nine months of 2004 , selling expenses increased at a slightly higher rate than revenues to Ps. 3.301 billion, or \(20.3 \%\) of total revenues, mainly as a result of an increase in the net number of Oxxos that have not reached their on-going sales level, as well as higher advertising spending in order to reinforce the brand equity of Oxxo. In addition to increasing the net number of stores, we are also significantly improving our existing store base.

Operating income (before deduction of management fees) increased by \(7.4 \%\) to Ps. 246 million, resulting in an operating margin of \(4.1 \%\) for 3004 , 80 basis point lower than \(3 Q 03\). For the first nine months of 2004 , operating income increased by \(13.4 \%\) to Ps. 654 million, resulting in an operating margin of \(4.0 \%\), 40 basis points lower than the same period of 2003 . However, the impact of our strategic initiatives is already visible in same store sales improvements, growth in store traffic, and in the average ticket as we leverage our brand to rapidly expand the Oxxo chain. While the current investment is outpacing returns in the short-run, the impact of continued investment in the development of our Oxxo chain is ultimately aimed at growing our profitability in future years.

\section*{FEMSA Empaques}

Total revenues increased by \(6.2 \%\) to Ps. 2.101 billion during \(3 Q 04\). This increase was attributed to strong volume growth as follows: (1) a \(16.8 \%\) net increase in the sales volume of glass bottles, mainly due to strong demand from FEMSA Cerveza, (2) a \(18.9 \%\) net increase in the sales volume of crown caps, mainly due to a surge in demand from third parties, primarily exports, (3) a \(11.3 \%\) net increase in the sales volume of beverage cans, and (4) the depreciation of the Mexican peso, which offset a decrease in the average price of these products in U.S. dollar terms.

For the first nine months of 2004 , total revenues increased by 8.1\% to Ps. 6.053 billion from Ps. 5.598 billion during the same period of 2003 .

Gross profit reached Ps. 470 million during \(3 Q 04\) resulting in a gross margin of \(22.3 \%\) compared to \(24.3 \%\) for \(3 Q 03\). The 200 basis point margin contraction from \(3 Q 03\) is primarily due to an increase in the cost of dollar-denominated raw materials, in particular aluminum and steel, and to a lesser extent, the opening of new regional offices for servicing our refrigerated equipment operations.

For the first nine months of 2004 , gross profit reached Ps. 1.372 billion resulting in a gross margin of \(22.7 \%\).

Administrative expenses increased by \(21.2 \%\) to Ps. 54 million during 3004 due to an expansion in the operations for maintenance of refrigeration equipment for our soft drink operations in addition to higher labor expenses.

Selling expenses increased by \(4.0 \%\) to Ps. 128 million during 3Q04. As in 2Q04, this increase was primarily due to increased shipping costs resulting from increased sales in the domestic market. For the first nine months of 2004 , operating expenses increased by \(2.3 \%\) to Ps. 503 million compared to Ps. 492 million in the first nine months of 2003.

Operating income (before deduction of management fees) decreased by 8.1\% to Ps. 288 million during 3004 resulting in an operating margin of \(13.7 \%\) of total revenues, a 210 basis point contraction from \(3 Q 03\). For the first nine months of 2004, operating income increased \(3.1 \%\) to Ps. 869 million.

CONFERENCE CALL INFORMATION:
Our Third Quarter and First Nine Months 2004 Conference Call will be held on: Wednesday October 27, 2004, 4:00 P.M. Eastern Time (3:00 P.M. Mexico City Time). To participate in the conference call, please dial: Domestic U.S.: 1-800-818-5264, International: 913-981-4910. This Conference Call will also be transmitted through live webcast at http//:ir.femsa.com

If you are unable to participate live, an instant replay of the conference call will be available through November 2, 2004. To listen to the replay please dial: Domestic U.S.: 1-888-203-1112; International: 719-457-0820, Passcode: 916596.

Set forth in this press release is certain unaudited financial information for FEMSA for the third quarter and first nine months of 2004 , compared to the third quarter and first nine months of 2003 . We are a holding company whose principal
activities are grouped under the following sub-holding companies and carried out by their respective operating subsidiaries: Coca-Cola FEMSA, S.A. de C.V., which engages in the production, distribution and marketing of non-alcoholic beverages; FEMSA Cerveza, S.A. de C.V., which engages in the production, distribution and marketing of beer; FEMSA Comercio, S.A. de C.V., which engages in the operation of convenience stores; and FEMSA Empaques, S.A. de C.V., which engages in the production and distribution of packaging materials.

All of the figures in this report have been restated in constant Mexican pesos ("Pesos" or "Ps.") with purchasing power as of September 30, 2004 and were prepared in accordance with Mexican Generally Accepted Accounting Principles ("Mexican GAAP"). As a result, all percentage changes are expressed in real terms.

\section*{FORWARD LOOKING STATEMENTS}

This report may contain certain forward-looking statements concerning our future performance that should be considered as good faith estimates made by us. These forward-looking statements reflect management expectations and are based upon currently available data. Actual results are subject to future events and uncertainties, which could materially impact our actual performance.

\section*{NOTES:}

We invite you to register in our Investor Relations Site located at http://ir.femsa.com to receive notification of all of our press releases, earnings releases and IR Events automatically through our e-mail alert service.

Please contact FEMSA's Investor Relations officers if you wish to have your name added or removed from this distribution list or to receive this press release through a specific medium only.

(1) EBITDA = Operating income + Depreciation + Amortization \& Others. See reconciliation table on page 11.
(2) Figures for 2003 are as of December 31, 2003.
(3) Net Debt = Total Debt - Cash
o Total revenues for the third quarter reached Ps.11, 410.6 million
o Consolidated operating income increased 9.0\% totaling Ps.1,957.6 million, and operating margin reached \(17.2 \%\) a margin expansion of 140 basis points.
o Consolidated net income increased by 130.4\% to Ps.1,257.0 million, resulting in earnings per share of Ps.0.681
o Total net debt at the end of the quarter was approximately U.S. \$1,937.9 million.

Mexico City (October 27, 2004), Coca-Cola FEMSA, S.A. de C.V. ("Coca-Cola FEMSA" or the "Company"), the largest Coca-Cola bottler in Latin America and the second-largest Coca-Cola bottler in the world, in terms of sales volume, announces results for the third quarter and nine months of 2004.
"We have successfully completed the integration of our new operations and we are pleased with the results we have achieved thus far. The evident turnaround in profitability outside of Mexico underscores the efficacy of our shared business practices and strategies and, importantly, our understanding of our new market territories' cultural differences and consumption habits. Additionally, we are improving gradually our level of profitability in Mexico, despite raw-material cost pressure and the more complex competitive environment" said Carlos Salazar, Chief Executive Officer of the Company.

Consolidated Results and Consolidated Balance Sheet

\section*{CONSOLIDATED RESULTS}

Our consolidated revenues reached Ps.11,410.6 million for the third quarter of 2004, an increase of \(0.2 \%\) as compared to the same period of 2003 . Our average price per unit case was Ps.24.27 (U.S.\$2.13)2 and our consolidated operating income increased \(9.0 \%\) to Ps.1,957.6 million, resulting in a margin expansion of 140 basis points from \(15.8 \%\) to \(17.2 \%\) over the prior quarter.

During the third quarter of 2004 , our integral cost of financing shifted from a loss of Ps.942.2 million to a gain of Ps.128.7 million in the third quarter of 2003. This improvement mainly reflected a foreign exchange gain generated by the appreciation of the Mexican peso versus the U.S. dollar applied to our U.S. dollar-denominated debt and lower net interest expenses driven by a reduction in average debt balances.

During the third quarter of 2004 , income tax, tax on assets, and employee profit sharing, as a percentage of income before taxes, was \(40.6 \%\). During the same period of 2003 this rate was \(33.2 \%\), reflecting the deduction for tax purposes of fees associated with the Panamco acquisition, which were capitalized as part of the acquisition cost for financial purposes.

Our consolidated majority net income increased 130.4\% to Ps.1,257.0 million in the third quarter of 2004 as compared to the same period in 2003, resulting in earnings per share ("EPS") of Ps.0.681 (U.S.\$0.598 per ADS) computed on the basis of \(1,846.4\) million shares outstanding (each ADS represents 10 local shares).

\section*{BALANCE SHEET}

As of September 30, 2004, Coca-Cola FEMSA had a cash balance of Ps.3, 492 million (U.S. \(\$ 307.0\) million), total short-term debt of Ps.3,380 million (U.S. \(\$ 297.1\) million), and long-term debt of Ps. 22,157 million (U.S. \(\$ 1,947.7\) million).

During the third quarter of 2004 , we reduced the Company's total debt by approximately U.S. \(\$ 70\) million. We completed the refinancing of the remaining principal amount of our 5yr USD syndicated loan (U.S. \$40 million) from last year's acquisition financing, with a new 6 yr Ps. 550 million bilateral loan. We also paid down the U.S. \(\$ 100\) million Private Placement Notes due 2004 issued in 1994. During the third quarter of 2004 , the peso appreciated from Ps. 11.5123 to Ps.11.3759, causing our total debt to increase in dollar terms by approximately U.S. \(\$ 18.8\) million.

The following charts set forth the Company's debt profile by currency and interest-rate type and the debt amortization schedule as of September 30, 2004:
\begin{tabular}{|c|c|c|c|}
\hline Currency & \% Total Debt & \% Interest Rate Floating & \begin{tabular}{l}
Average \\
Rate (2)
\end{tabular} \\
\hline U.S. dollars & 32\% & 31\% & \(6.23 \%\) \\
\hline Mexican pesos & 65\% & 21\% & 9.11\% \\
\hline Colombian pesos & 3\% & 100\% & \(10.16 \%\) \\
\hline
\end{tabular}

(1) Expressed in US\$ millions assuming a foreign exchange rate of Ps. 11.3759 per US Dollar
(2) Net Resources Generated by Operating Activities

OPERATING RESULTS BY TERRITORY

During the second quarter of 2003, we began consolidating the results of our new territories in accordance with Mexican GAAP. Corporacion Interamericana de Bebidas S.A. de C.V., formerly known as Panamerican Beverages, Inc. ("Panamco") had historically prepared its financial statements in accordance with U.S. GAAP and presented financial information in U.S. dollars. We have historically prepared and continue to prepare our financial statements in accordance with Mexican GAAP and present financial information in Mexican pesos. The results of our new territories in Mexican GAAP and Mexican pesos are different from and may not be comparable to those reported by Panamco for prior periods. In addition, Panamco's results have not been included in our financial statements for periods prior to May 2003.

Financial information for the third quarter of 2004 is comparable with the third quarter of 2003, however for the nine-month period is not comparable. On an annual basis the information will not be comparable until the end of 2005 .

As we mentioned in our fourth-quarter 2003 press release, several changes in the accounting policies were booked during that quarter which impacted our results for 2003. These changes were related to (i) an excise tax reimbursement in Mexico that would have impacted positively the third quarter of 2003 in the amount of Ps. 47 million, (ii) an increase in the useful life of the coolers in our original territories in Mexico from three to five years that would have decreased our depreciation expense by Ps. 32 million in the third quarter of 2003, and ( iii) the change in accounting policies related to the treatment of bottles and cases in the countries comprising our Latincentro division that would have reduced the operating expenses by Ps. 60 million, decreasing the non-cash items in the same amount in the third quarter of 2003.

As part of an accounting standardization process implemented in Coca-Cola FEMSA territories during 2004, certain expenses that were classified as administrative expenses during 2003 are now classified as selling expenses during 2004 . For comparison purposes we reclassified 2003 figures without impacting total operating expenses in 2003. The effect of these reclassifications were Ps.110.1 million and Ps.342.5 million for the third quarter of 2003 and the nine months ended in September 30,2003 , respectively.

For nine-month period volume comparison purposes, we have included the sales volume figures recorded by Panamco for 2003 through the end of April 2003.

Mexican and Central American operating results

MEXICAN OPERATING RESULTS

Revenues

Revenues in our Mexican territories were Ps.6,707.2 million for the third quarter of 2004, 6.0\% lower as compared to the third quarter of 2003, mainly driven by a \(5.6 \%\) decline in the average price per unit case during the third quarter of 2004. Higher rates of sales volume growth in our territories outside the Valley of Mexico, which have a lower price per unit case, combined with lower average price per unit case, were the main reason for the price decrease. Excluding Ciel water volumes in 5.0, 19.0, and 20.0-liter packaging presentations, our average price per unit case was Ps.29.8 (U.S.\$2.62).

Total sales volume remained almost flat in the third quarter of 2004 as compared to the same period of 2003 , reaching 256.3 million unit cases ("MUC"). Carbonated Soft Drink ("CSD") sales volume increased 1.6\% to 205.9 MUC, offsetting the \(6.4 \%\) reduction in the jug water sales volume. CSD category growth
mainly resulted from the solid performance of our flavor brands, which accounted for approximately two thirds of incremental volumes, while brand Coca-Cola accounted for the balance.

Income from Operations

During the quarter we experienced higher sweetener and polyethylene terephtalate ("PET") costs, which we partially offset with cost savings from our light-weight bottle initiatives, our increased use of standard sugar as compared to the third quarter of the previous year, and the synergies we captured from the consolidation of our new Mexican territories resulting on a 30 basis points decline in the gross margin from 53.0\% in the third quarter of 2003 to 52.7\% in the same period of 2004 .

Operating expenses declined \(4.4 \%\) to Ps.2,088.3 million, representing \(31.1 \%\) of total revenues. The decline in operating expenses was mainly driven by adjustments in the compensation scheme in our pre-sale system, which increased the fixed component of our sales force wages and headcount optimization since the third quarter of last year. All of the above reduced our operating profit by \(9.3 \%\) to Ps.1,447.7 million, resulting in an operating margin of \(21.6 \%\).

CENTRAL AMERICAN OPERATING RESULTS (Guatemala, Nicaragua, Costa Rica and Panama)

\section*{Revenues}

In our Central American territories, total revenues reached Ps. 841.8 million for the third quarter of 2004 , an increase of \(1.7 \%\) as compared to the same period of 2003, mainly driven by volume growth. Our average price per unit case was Ps.30.78 (U.S.\$2.71) declining \(0.6 \%\) due to a shift in our packaging mix to larger presentations.

Total sales volume in our Central American territories reached 27.4 MUC, a \(2.0 \%\) increase as compared to the same quarter of 2003 . This increase was mainly driven by volume growth in Costa Rica and Nicaragua. Brand Coca-Cola and flavors each accounted for approximately half of the volume increase.

Income from Operations

For the third quarter of 2004 our gross profit decreased by \(7.3 \%\) to Ps. 382.7 million as compared to the same period of 2003 , resulting for \(45.5 \%\) of gross margin. During the period, the Company experienced increases in raw material prices, mainly for sugar and PET, compared with the third quarter of 2003.

Despite the decline in gross profit, we increased our operating income by \(49.8 \%\) in the third quarter of 2004 as compared to the same period of 2003 , reaching an operating margin of \(12.0 \%\). The margin improvement resulted mainly from a shift in profitability of our Guatemalan operation and by increasing the fixed component in the compensation scheme in our pre-sale system in some of our Central American operations.

October 27, 2004
[LOGO] COCA-COLA FEMSA

In Colombia, our total revenues were Ps.960.5 million for the third quarter of 2004, a 1.99\% decline from the third quarter of 2003 , despite a \(2.6 \%\) decrease in sales volume. Our average price per unit case was Ps.23.73 (U.S. 22.09 ), 0.9\% higher than the third quarter of 2003 , as a result of price increases implemented in May 2004 over a declining and depressed pricing base. Our sales volume of brand Coca-Cola grew 5.5\% to 26.7 MUC in the third quarter of 2004 as compared to the same period of the previous year, partially offsetting a \(18.2 \%\) decline in our CSD flavors.

Income from Operations
During the third quarter of 2004 , our gross profit totaled Ps. 465.5 million, an increase of \(1.6 \%\) compared with the same period of 2003 , resulting in a \(48.5 \%\) gross margin as compared to \(46.8 \%\) in the same period of 2003 . These results were mainly due to (i) lower sugar prices, and a shift to standard sugar, which is less-expensive, (ii) manufacturing savings achieved from the rationalization of our plants, and (iii) the appreciation of the Colombian Peso against the U.S. dollar applied to our dollar-denominated costs.

Our operating income was Ps.145.9 million during the third quarter of 2004 , resulting in a \(15.2 \%\) operating income margin compared to \(8.4 \%\) in the previous year. This improvement was mainly driven by headcount optimization and lower corporate charges driven by centralization of certain administrative practices.

\section*{VENEZUELAN OPERATING RESULTS}

\section*{Revenues}

In Venezuela, our total revenues increased by \(19.9 \%\) in the third quarter of 2004, as compared with the same period of the previous year totaling Ps.1,185.7 million, as a result of the combined effect of an increase of \(5.1 \%\) in the average price per unit case and a \(13.9 \%\) of volume growth. Our average price per unit case was Ps.26.20 (U.S. \(\$ 2.30\) ) as a result of price increases implemented at the end of the first quarter of 2004 , which were partially offset by a product mix shift towards multi-serve presentations of the value protection brand Grapette. Sales volume increase was mainly driven by the introduction of the new presentation for the multi-flavor brand Hit and the continuous roll-out of larger presentations for the value protection brand Grapette which combined accounted for two thirds of the sales volume growth and the Coca-Cola brand representing the majority of the balance.

Income from Operations

In the third quarter of 2004 , gross profit grew \(27.9 \%\) year-over-year to Ps. 510.9 million for a gross profit margin of \(43.1 \%\) compared with \(40.4 \%\) for the same period of 2003. Higher sales volume and the higher average price per unit case more than offset an increase in the unitary cost of sales due to a packaging mix shift to non-returnable presentations, which have higher packaging costs.

Selling and administrative expenses increased 60 basis points as percentage of total revenues due to (i) higher freight costs reflecting price increases above inflation, (ii) a reclassification of promotional expenses that was previously recorded in net revenues, and (iii) higher administrative expenses driven by additional senior and operating headcount intended to strength our management team in Venezuela. Our operating income was Ps.53.8 million, a 200 basis points improvement as a percentage of total revenues, over the same period of last year resulting in a \(4.5 \%\) operating income margin.

\section*{BRAZILIAN OPERATING RESULTS}

\section*{Revenues}

In Brazil, our total revenues reached Ps.1,161.4 million for the third quarter of 2004, an improvement of \(12.9 \%\) as compared with the same period of the previous year. Our average price per unit case was Ps.17.65 (U.S.\$1.55), a 3.4\% increase over the third quarter of 2003, as a result of (i) a \(2.5 \%\) weighted average price increase implemented in May 2004, (ii) our strategic shift in the product and channel mix towards the core brands and small retailers, respectively, and (iii) the implementation of our revenue management strategies.

During the third quarter of 2004, all of our beverage categories recorded increased volumes. CSD's sales volume in our Brazilian territories increased by \(12.3 \%\) as compared with the same period of 2003 , mainly driven by a \(14.9 \%\) sales volume growth in brand Coca-Cola, which accounted for more than \(70 \%\) of the sales volume increase in the period.

\section*{Income from Operations}

During the third quarter of 2004, our gross profit totaled Ps.463.7 million, a 26.0\% increase as compared with the same period of the previous year. Gross margin rose from \(35.8 \%\) in the third quarter of 2003 to \(39.9 \%\) in the same period of 2004, reflecting the optimized use of raw materials and higher efficiency levels.

In absolute terms, our operating expenses increased slightly as compared to the third quarter of 2003, however, they decreased as a percentage of sales as a result of higher operating leverage driven by an increase in sales volume. Our third-quarter operating income was Ps.112.5 million, resulting in a margin expansion of 760 basis points from 2.1\% in the third quarter of 2003 to \(9.7 \%\) in the same period of 2004 .

ARGENTINE OPERATING RESULTS
Revenues
In Argentina, our total revenues reached Ps. 592.5 million, a \(21.1 \%\) increase over the third quarter of 2003, due to the combined effect of an \(18.9 \%\) sales volume growth and a \(2.4 \%\) average price per unit growth during the same period. The average price growth was driven by price increases implemented at the end of July 2004.

During the quarter, the company experienced increased volumes in all of its beverage categories. Our premium and core brands represented more than \(60 \%\) of the incremental sales volume during the quarter and the value protection brand Tai comprised the majority of the remaining balance.

\section*{Income from Operations}

Our gross profit as a percentage of total revenues increased 400 basis points, from 37.3\% in the third quarter of 2003 to \(41.3 \%\) in the third quarter of 2004 due to the continued packaging mix trend to returnable presentations, which accounted for \(27 \%\) of our sales volume in the third quarter of 2004 , as compared

\title{
Edgar Filing: MEXICAN ECONOMIC DEVELOPMENT INC - Form 6-K
}
to 25\% in the same period of 2003.

In Argentina, our operating expenses as a percentage of total revenues decreased 260 basis points, from \(27.6 \%\) in the third quarter of 2003 to \(25.0 \%\) in the third quarter of 2004. This improvement resulted from higher fixed-cost absorption due to higher revenues. During the third quarter of 2004 , operating income in our Argentine territories was Ps.96.7 million, and our operating income margin reached \(16.3 \%\), an increase of 660 basis points compared with the third quarter of 2003.

Summary of nine-month and recent developments

\section*{SUMMARY OF NINE-MONTH RESULTS}

Financial information for the first nine months of 2004 is not comparable with the same period of 2003, however for volume comparison purposes, we have included the sales volume figures recorded by Panamco for 2003 through the end of April 2003.

For the nine months ended September 30, 2004, our consolidated sales volume reached \(1,364.3 \mathrm{MUC}\), an increase of \(1.69 \%\) driven by volume growth in almost all of our territories during the first nine months of the year.

During the first nine months of 2004 , our total revenues reached Ps.33,540.5 million, which resulted in a consolidated average unit price per case of Ps.24.48 (U.S.\$2.15). Our gross margin as a percentage of total revenues was \(48.7 \%\) for the first nine months of 2004 . Our consolidated operating income was Ps.5,348.0 million, \(15.9 \%\) as a percentage of total revenues during the first nine months of 2004 .

Our consolidated net income before extraordinary items totaled Ps.2,710.9 million for the first nine months of 2004 , resulting in an EPS of Ps.1.468 (U.S.\$1.291 per ADS) computed on the basis of \(1,846.4\) million shares outstanding. Majority net income was Ps.3,893.7 million, resulting in an EPS of Ps.2.109 (U.S. \(\$ 1.854\) per ADS).

\section*{RECENT DEVELOPMENTS}
o As we mentioned in our second quarter 2004 press release, we obtained a favorable final ruling in May 2004 from a Mexican federal court not subject to appeal allowing us to deduct losses arising from the sale of shares during 2002. As a result of the ruling, our consolidated net income for the second quarter of 2004 increased by Ps.1.258 billion (U.S. \(\$ 98.8\) million). In August 2004 , we received Ps.1.124 billion in the form of \(a\) cash reimbursement and will receive the balance in the form of a tax deduction.
o On September 1, 2004, a rights offering of 98,840,861 newly issued Series L Shares, including Series L Shares in the form of American Depositary Shares, to holders of our Series L Shares and American Depositary Shares, as applicable, expired in both the United States and Mexico. The price per share was the Mexican peso equivalent of U.S. \(\$ 2.216\) per Series L Share or U.S. \(\$ 22.16\) per American Depositary Share. The rights offering did not have a significant impact on the ownership structure.
o On October 18, 2004, Mr. Irial Finan, President of Bottling Investments at The Coca-Cola Company, was named a Series D member of our board and Mr. Mark Harden, President of The Servicesource, a shared service division of The Coca-Cola Company, appointed as the alternate director. They replaced Mr. Steven J. Heyer and Ms. Patricia Powell, respectively.

Conference call information and recent developments

\section*{CONFERENCE CALL INFORMATION}

Our third-quarter 2004 Conference Call will be held on: October 27, 2004, 11:00 A.M. Eastern Time (10:00 A.M. Mexico City Time). To participate in the conference call, please dial: Domestic U.S.: 800-599-9829 and International: 617-847-8703. We invite investors to listen to the live audiocast of the conference call on the Company's website, www.cocacola-femsa.com.mx

If you are unable to participate live, an instant replay of the conference call will be available through November 5, 2004 . To listen to the replay please dial: Domestic U.S.: 888-286-8010 or International: 617-801-6888. Pass code: 98344233.
* * *

Coca-Cola FEMSA, S.A. de C.V. produces Coca-Cola, Sprite, Fanta, Lift and other trademark beverages of The Coca-Cola Company in Mexico (a substantial part of central Mexico, including Mexico City and Southeast of Mexico), Guatemala (Guatemala City and surrounding areas), Nicaragua (nationwide), Costa Rica (nationwide), Panama (nationwide), Colombia (most of the country), Venezuela (nationwide), Brazil (greater Sao Paulo, Campinas, Santos, the state of Mato Grosso do Sul and part of the state of Goias) and Argentina (federal capital of Buenos Aires and surrounding areas), along with bottled water, beer and other beverages in some of these territories.

The Company has 30 bottling facilities in Latin America and serves more than 1,500,000 retailers in the region. Coca-Cola FEMSA currently accounts for almost \(10 \%\) of Coca-Cola global sales, approximately \(40 \%\) of all Coca-Cola sales in Latin America. The Coca-Cola Company owns a \(39.6 \%\) equity interest in Coca-Cola FEMSA.

Figures for the Company's operations in Mexico and its consolidated international operations were prepared in accordance with Mexican generally accepted accounting principles ("Mexican GAAP"). All figures are expressed in constant Mexican pesos with purchasing power at September 30, 2004 . For comparison purposes, 2003 and 2004 figures from the Company's operations have been restated taking into account local inflation of each country with reference to the consumer price index and converted from local currency into Mexican pesos using the exchange rate as of the end of the period. In addition, all comparisons in this report for the third quarter of 2004, which ended on September 30, 2004, are made against the figures for the comparable period in 2003, unless otherwise noted.

This news release may contain forward-looking statements concerning Coca-Cola FEMSA's future performance and should be considered as good faith estimates by

Coca-Cola FEMSA. These forward-looking statements reflect management's expectations and are based upon currently available data. Actual results are subject to future events and uncertainties, many of which are outside Coca-Cola FEMSA's control that could materially impact the Company's actual performance.

References herein to "U.S.\$" are to United States dollars. This news release contains translations of certain peso amounts into U.S. dollars for the convenience of the reader. These translations should not be construed as representations that the peso amounts actually represent such U.S. dollar amounts or could be converted into U.S. dollars at the rate indicated.
