NOTES TO FINANCIAL STATEMENTS -- (unaudited)

1. Significant Accounting Policies -- The Corporation is registered under the Investment Company Act of 1940, as amended, as a non-diversified, closed-end management investment company. The following is a summary of the significant accounting policies consistently followed by the Corporation in the preparation of its financial statements. The policies are in conformity with U.S. generally accepted accounting principles.

Security Valuation -- Securities are valued at the last or closing sale price or, if unavailable, at the closing bid price. Corporate discount notes and U.S. Treasury Bills are valued at amortized cost, which approximates market value. Securities for which no ready market exists, including The Plymouth Rock Company, Inc. Class A Common Stock, are valued at estimated fair value by the Board of Directors.

Federal Income Taxes -- It is the Corporation's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its stockholders. Therefore, no Federal income taxes have been accrued.

Use of Estimates -- The preparation of the financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates.

Other -- Security transactions are accounted for as of the date the securities are purchased or sold, and cost of securities sold is determined by specific identification. Dividend income and distributions to stockholders are recorded on the ex-dividend date.

2. Common Stock -- The Corporation repurchased 546,800 shares of its Common Stock in the first six months of 2006 at an average price of \$24.69 per share, representing an average discount from net asset value of 13.41%. It may from time to time purchase Common Stock in such amounts and at such prices as the Board of Directors may deem advisable in the best interests of the stockholders. Purchases will only be made at less than net asset value per share, thereby increasing the net asset value of shares held by the remaining stockholders. Shares so acquired may be held as treasury stock, available for optional stock distributions, or maybe retired.

3. Investment Transactions -- The aggregate cost of securities purchased and the aggregate proceeds of securities sold during the six months ended June 30, 2006, excluding short-term investments, were \$44,532,787 and \$50,042,805, respectively.

Edgar Filing: CENTRAL SECURITIES CORP - Form N-CSRS

As of June 30, 2006, based on cost for Federal income tax purposes, the aggregate gross unrealized appreciation and depreciation for all securities were \$328,565,140 and \$6,348,574, respectively.

4. Operating Expenses -- The aggregate remuneration paid during the six months ended June 30, 2006 to officers and directors amounted to \$551,750, of which \$69,250 was paid as fees to directors who were not officers. Benefits to employees are provided through a profit sharing retirement plan. Contributions to the plan are made at the discretion of the Board of Directors, and each participant's benefits vest after three years. No contributions were made to the plan for the six months ended June 30, 2006.

Based on our review, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with standards established by the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended December 31, 2005 and financial highlights for each of the five years in the period ended December 31, 2005, and in our report dated January 27, 2006 we expressed an unqualified opinion on those financial statements.
