You may lose some or all of your principal at maturity. Any payment on the notes is subject to the credit risk of JPMorgan Chase Financial Company LLC, as issuer of the notes and the credit risk of JPMorgan Chase & Co., as guarantor of the notes. Automatic Call If the closing level of each Index on any Review Date is greater than or equal to its Call Value, the notes will be automatically called for a cash payment, for each \$1,000 principal amount note, equal to (a) \$1,000 plus (b) the Call Premium Amount applicable to that Review Date, payable on the applicable Call Settlement Date. No further payments will be made on the notes. Payment at Maturity If the notes have not been automatically called and the Final Value of each Index is greater than or equal to its Trigger Value, your payment at maturity per \$1,000 principal amount note will be calculated as follows: \$1,000 + (\$1,000 × Contingent Minimum Return) If the notes have not been automatically called and the Final Value of either Index is less than its Trigger Value, your payment at maturity per \$1,000 principal amount note will be calculated as follows: \$1,000 + (\$1,000 × Lesser Performing Index Return) If the notes have not been automatically called and the Final Value of either Index is less than its Trigger Value, you will lose more than 30.00% of your principal amount at maturity and could lose all of your principal amount at maturity. \* In each case, to be determined on the Pricing Date, but not less than such amounts \*\* Reflects Call Premium Amounts equal to the minimum Call Premium Amounts set forth herein, for illustrative purposes. The “total return” as used above is the number expressed as a percentage, that results from comparing the payment on the applicable payment date per \$1,000 principal amount note to \$1,000. The hypothetical returns on the notes shown above apply only if you hold the notes for their entire term or until automatically called. These hypotheticals do not reflect fees or expenses that would be associated with any sale in the secondary market. If these fees and expenses were included, the hypothetical returns and hypothetical interest payments shown above would likely be lower. Capitalized terms used but not defined herein shall have the meaning set forth in the preliminary pricing supplement.

J.P. Morgan Structured Investments | 1 800 576 3529 | [jpm\\_structured\\_investments@jpmorgan.com](mailto:jpm_structured_investments@jpmorgan.com) Selected Risks

- Your investment in the notes may result in a loss. The notes do not guarantee any return of principal.
- Any payment on the notes is subject to the credit risks of JPMorgan Chase Financial Company LLC and JPMorgan Chase & Co. Therefore the value of the notes prior to maturity will be subject to changes in the market's view of the creditworthiness of JPMorgan Chase Financial Company LLC or JPMorgan Chase & Co.
- The appreciation potential of the notes is limited to the Call Premium paid on the notes if the notes are not automatically called.
- Your ability to receive the Contingent Minimum Return may terminate on the final Review Date if the notes have not been automatically called.
- You are exposed to the risks of the decline in the level of each Index.
- Your payment at maturity will be determined by the Lesser Performing Index.
- The automatic call feature may force a potential early exit.
- The benefit provided by the Trigger Value may terminate on the final Review Date.
- No interest payments, dividend payments or voting rights.
- As a finance subsidiary, JPMorgan Chase Financial Company LLC has no independent operations and has limited assets.
- JPMorgan Chase & Co. is currently one of the companies that make up the S&P 500® Index.
- You are exposed to the risks associated with small capitalization companies. Selected Risks (continued)
- The estimated value of the notes will be lower than the original issue price (price to public) of the notes.
- The estimated value of the notes is determined by reference to an internal funding rate.
- The estimated value of the notes does not represent future values and may differ from others' estimates.
- The value of the notes, which may be reflected in customer account statements, may be higher than the then current estimated value of the notes for a limited time period.
- Lack of liquidity: J.P. Morgan Securities LLC (who we refer to as JPMS) intends to offer to purchase the notes in the secondary market but is not required to do so. The price, if any, at which JPMS will be willing to purchase notes from you in the secondary market, if at all, may result in a significant loss of your principal.
- Potential conflicts: We and our affiliates play a variety of roles in connection with the issuance of notes, including acting as calculation agent and hedging our obligations under the notes, and making the assumptions used to determine the pricing of the notes and the estimated value of the notes when the terms of the notes are set. It is possible that such hedging or other trading activities of J.P. Morgan or its affiliates could result in substantial returns for J.P. Morgan and its affiliates while the value of the notes decline.
- The tax consequences of the notes may be uncertain. You should consult your tax adviser regarding the U.S. federal income tax consequences of an investment in the notes. The risks identified above are not exhaustive. Please see "Risk Factors" in the applicable product supplement and underlying supplement and "Selected Risk Considerations" in the applicable pricing supplement for additional information.
