Call 1-800-225-6292 or visit www.pioneerfunds.com for the most recent month-end performance results. Current performance may be lower or higher than the performance data quoted.

Performance data shown represents past performance. Past performance is no guarantee of future results. Investment return and market price will fluctuate, and your shares may trade below NAV, due to such factors as interest rate changes, and the perceived credit quality of borrowers.

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

Total investment return does not reflect broker sales charges or commissions. All performance is for common shares of the Trust.

Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering and, once issued, shares of closed-end funds are sold in the open market through a stock exchange and frequently trade at prices lower than their NAV. NAV is total assets less total liabilities, which includes preferred shares, divided by the number of common shares outstanding.

When NAV is lower than market price, dividends are assumed to be reinvested at the greater of NAV or 95% of the market price. When NAV is higher, dividends are assumed to be reinvested at market price.

The performance table and graph do not reflect the deduction of fees and taxes that a shareowner would pay on Trust distributions or the redemption of Trust shares.

Index comparison begins on 12/31/04. The CSFB Leveraged Loan Index is designed to mirror the investible universe of the \$US-denominated leveraged loan market. As of March 30, 2001, the Index included \$148 billion in tradable term loans. Index returns are calculated monthly, assume reinvestment of dividends and, unlike Trust returns, do not reflect any fees, expenses or sales charges. You cannot invest directly in an Index.

PORTFOLIO MANAGEMENT DISCUSSION 5/31/05

The first shareholder report for Pioneer Floating Rate Trust covers the period since the Trust's inception on December 23, 2004, through May 31, 2005. In the report, portfolio managers Mark Okada and Joseph Dougherty of Highland Capital Management LP discuss the investment process, strategy and outlook.

Q: How did the Trust perform during the period?

A: Since inception on December 23, 2004 through May 31, 2005, Pioneer Floating Rate Trust returned 0.63% at net asset value and -10.55% at market price. From December 31, 2004, through May 31, 2005, the Trust's benchmark, the Credit Suisse First Boston (CSFB) Leveraged Loan Index, returned 1.79%. At the end of May, the Trust was selling at a discount of market price to net asset value of -6.73%. The Trust's net asset value return reflects the expenses associated with the start-up costs of the Trust, including payments made in connection with the issuance of preferred shares in March. From the end of December 2004 through May 2005, the Federal funds target rate rose 0.75%. During the same period, the yield on the Three-Month London Interbank Offering Rate (LIBOR) rose from 2.56% to 3.34%. LIBOR stands for the London Interbank Offered Rate and is the rate of interest at which banks borrow funds from other banks, in marketable size, in the London Interbank market.

Q: What were the principal strategies used in managing the Trust?

A: In keeping with the Trust's mandate, we invested over 80% of assets in senior floating-rate loans (senior loans). Senior loans are extensions of credit made by a bank or other lender to a company, typically secured by the assets of the borrower. Historically, senior loans have offered higher yields than short-term Treasury securities. They also have greater risk.

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

Senior loans generally pay interest at rates that are based on recognized lending rates, such as LIBOR, plus a premium. Rates on senior loans reset regularly to maintain a spread over these widely accepted floating base rates. At the end of the period, the Trust had about 11% in higher-yielding second lien loans and other types of floating-rate debt securities. Finally, we had a relatively small allocation, about 2%, in high-yield bonds. During the period, the yield curve began to flatten (short-term yields rose and longer-term yields declined). Historically, a flattening yield curve has been a precursor to a slowing economy. In this environment, investors became more risk-averse and tended to shift from lower-quality investments,

5

Pioneer Floating Rate Trust

PORTFOLIO MANAGEMENT DISCUSSION 5/31/05

(continued)

such as high-yield bonds, to higher-quality investments. As a result, prices on lower-quality securities declined, and our relatively low allocation to such securities proved to be beneficial.

We diversified the Trust among more than 200 issuers in approximately 30 industries. The top five industries represented in the Trust were cable, telecommunications, housing, gaming and leisure and utilities. At the end of the period, the credit quality breakdown of the portfolio was as follows: BBB (2%), BB (19%), B (58%), CCC (7%) and not-rated (14%).

Q: What was the investment environment like for senior loans during the period?

A: The market environment was mixed during the period, as senior loans enjoyed strong demand in the face of continued interest senior-rate hikes by the Federal Reserve Bank. Lower default rates may also have been instrumental in boosting investor interest in loans. The short duration of loan funds, which can reduce interest-rate risk in fixed-income portfolios, was also attractive to investors. (Expressed in years, duration measures a fund's price sensitivity to changes in interest rates. A shorter duration is usually advantageous when interest rates rise.)

During 2004, loan funds experienced record inflows of assets. As a result, the average credit spread (or premium) over LIBOR contracted as tracked by the CSFB Leveraged Loan Index, from 286 basis points on December 31, 2004 to 268 basis points on May 31, 2005. Despite this narrowing, the spread contraction for senior loans has been less pronounced than that in other fixed-income asset classes, such as high-yield bonds.

In late March, as a result of various market technicals, the average secondary market senior loan price began to drop. This trend appears to have reversed itself for the most part. Therefore, while asset values declined slightly for what appears to be technical reasons, the situation provided us with an opportunity to purchase additional assets at attractive prices for the Trust.

6

Pioneer Floating Rate Trust

7

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

Q: What is your outlook?

A: Relative to other asset classes, we believe that bank loans should continue to provide an attractive risk/return trade-off and an effective diversification vehicle. Historically, bank senior loans have produced positive long-term total returns for shareholders with significantly less volatility than other asset classes. We are currently in a rising interest-rate environment and believe the Fed is likely to continue boosting interest rates at a measured pace over the next several months. History has shown that the bank senior loans, as an asset class, have held up well during periods of rising interest rates.

Pioneer Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS 5/31/05 (unaudited)

1. Organization and Significant Accounting Policies

Pioneer Floating Rate Trust (the "Trust") was organized as a Delaware business trust on October 6, 2004. Prior to commencing operations on December 23, 2004, the Trust had no operations other than matters relating to its organization and registration as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, and the sale and issuance to Pioneer Funds Distributor, Inc., an affiliate of Pioneer Investment Management, Inc. ("PIM"), the Trust's investment adviser, a wholly owned indirect subsidiary of UniCredito Italiano S.p.A. (UniCredito Italiano), of 5,240 shares of beneficial interest at an aggregate purchase price of \$100,084. PIM has agreed to pay all the Trust's organizational expenses and to pay the amount by which the aggregate offering costs (other than the sales load) exceed \$0.04 per share of the common share offering. The investment objective of the Trust is to provide a high level of current income. The Trust will, as a secondary objective, also seek preservation of capital to the extent consistent with its primary goal of high current income.

The Trust invests primarily in senior floating rate loans ("Senior Loans"). The Trust may also invest in other floating and variable rate instruments, including second lien loans, and high yield, high risk corporate bonds. The Trust may invest in Senior Loans and other securities of any credit quality, including Senior Loans and other investments that are rated below investment grade, or are unrated but are determined by the investment subadviser to be of equivalent credit quality, commonly referred to as "junk bonds" and are considered speculative. These securities involve greater risk of loss, are subject to greater price volatility, and are less liquid, especially during periods of economic uncertainty or change, than higher rated debt securities.

The Trust's financial statements have been prepared in conformity with U.S. generally accepted accounting principles that require the management of the Trust to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income, expenses and gains and losses on investments during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Trust

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

Pioneer Floating Rate Trust

in preparation of its financial statements, which are consistent with those generally accepted in the investment company industry:

A. Security Valuation

Security transactions are recorded as of trade date. Senior Loans are valued in accordance with guidelines established by the Board of Trustees. Senior Loans are valued at the mean between the last available bid and asked prices from one or more brokers or dealers as obtained from Loan Pricing Corporation. For the limited number of Senior Loans for which no reliable price quotes are available, such Senior Loans will be valued by Loan Pricing Corporation through the use of pricing matrices to determine valuations. If the pricing service does not provide a value for the Senior Loans, the investment subadviser will value the Senior Loans at fair value, which is intended to approximate market value.

Fixed income securities are valued at prices supplied by independent pricing services, which consider such factors as Treasury spreads, yields, maturities and ratings. Valuations may be supplemented by dealers and other sources, as required. Equity securities are valued at the last sale price on the principal exchange where they are traded. Securities for which quotations are not readily available are valued at their fair values as determined by, or under the direction of, the Board of Trustees. Trading in foreign securities is substantially completed each day at various times prior to the close of the NYSE. The values of such securities used in computing the net asset value of the Trust's shares are determined as of such times. The Trust may also use the fair value of a security, including a non U.S. security, when the closing market price on the principal exchange where the security is traded no longer accurately reflects the value of the security as of the close of the exchange. As of May 31, 2005, the Trust had no fair valued securities. Temporary cash investments are valued at amortized cost.

Discount and premium on debt securities are accreted or amortized daily, respectively, on an effective yield to maturity basis and are included in interest income. Premiums and discounts related to certain mortgage-backed securities are amortized or accreted in proportion to the underlying paydowns. Interest income, including income on interest bearing cash accounts, is recorded on an accrual basis.

27

Pioneer Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS 5/31/05 (unaudited) (continued)

The Trust's investments in foreign markets or countries with limited developing markets may subject the Trust to greater degree of risk than in a developed market. These risks include disruptive political or economic conditions and the possible imposition of adverse governmental laws or currency exchange restrictions.

Gains and losses on sales of investments are calculated on the identified cost method for both financial reporting and federal income tax purposes.

B. Foreign Currency Translation

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

The books and records of the Trust are maintained in U.S. dollars. Amounts denominated in foreign currencies are translated into U.S. dollars using current exchange rates.

Net realized gains and losses on foreign currency transactions represent, among other things, the net realized gains and losses on foreign currency contracts, disposition of foreign currencies and the difference between the amount of income accrued and the U.S. dollars actually received. Further, the effects of changes in foreign currency exchange rates on investments are not segregated in the Statement of Operations from the effects of changes in market price of those securities but are included with the net realized and unrealized gain or loss on investments.

C. Federal Income Taxes

It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net realized capital gains, if any, to its shareowners. Therefore, no federal income tax provision is required.

The amounts and characterizations of distributions to shareowners for financial reporting purposes are determined in accordance with federal income tax rules. Therefore, the source of the Trust's distributions may be shown in the accompanying financial statements as either from or in excess of net investment income or net realized gain on investment transactions, or from paid-in capital, depending on the type of book/tax differences that may exist.

The tax character of current year distributions paid will be determined at the end of the current fiscal year.

28

Pioneer Floating Rate Trust

D. Repurchase Agreements

With respect to repurchase agreements entered into by the Trust, the value of the underlying securities (collateral), including accrued interest received from counterparties, is required to be at least equal to or in excess of the repurchase agreement at the time of purchase. The collateral for all repurchase agreements is held in safekeeping in the customer-only account of the Trust's custodian, or subcustodians. PIM is responsible for determining that the value of the collateral remains at least equal to the repurchase price.

E. Automatic Dividend Reinvestment Plan

All common shareowners automatically participate in the Automatic Dividend Reinvestment Plan (the "Plan"), under which participants receive all dividends and capital gain distributions (collectively, "dividends") in full and fractional common shares of the Trust in lieu of cash. Shareowners may elect not to participate in the Plan. Shareowners not participating in the Plan receive all dividends and capital gain distributions in cash. Participation in the Plan is completely voluntary and may be terminated or resumed at any time by notifying Mellon Investor Services LLC, the agent for shareowners in administering the Plan (the

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

"Plan Agent"), prior to any dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Whenever the Trust declares a dividend on common shares payable in cash, participants in the Plan will receive the equivalent in common shares acquired by the Plan Agent either (i) through receipt of additional unissued but authorized common shares from the Trust or (ii) by purchase of outstanding common shares on the New York Stock Exchange or elsewhere. If, on the payment date for any dividend the net asset value per common share is equal to or less than the market price per share plus estimated brokerage trading fees ("market premium"), the Plan Agent will invest the dividend amount in newly issued common shares. The number of newly issued common shares to be credited to each account will be determined by dividing the dollar amount of the dividend by the net asset value per common share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance does not exceed 5%. If, on the payment date for any dividend, the net asset value per common share is greater than the market value

29

Pioneer Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS 5/31/05 (unaudited) (continued)

("market discount"), the Plan Agent will invest the dividend amount in common shares acquired in open-market purchases. There are no brokerage charges with respect to newly issued common shares. However, each participant will pay a pro rata share of brokerage trading fees incurred with respect to the Plan Agent's open-market purchases. Participating in the Plan does not relieve shareowners from any federal, state or local taxes which may be due on dividends paid in any taxable year. Shareowners holding Plan shares in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan.

2. Management Agreement

The Trust has entered into an advisory agreement with PIM. Management fees are calculated daily at the annual rate of 0.70% of the Trust's average daily managed assets. "Managed assets" is the average daily value of the Trust's total assets minus the sum of the Trust's liabilities, which liabilities exclude debt related to leverage, short-term debt and the aggregate liquidation preference of any outstanding preferred shares. At May 31, 2005, \$447,945 was payable to PIM related to management fees.

In addition, under PIM's management and administration agreements, certain other services and costs are paid by PIM and reimbursed by the Trust. For the year period ended May 31, 2005, the Trust recorded \$13,986 as "Administrative reimbursements" on the Statement of Operations.

The adviser has engaged Highland Capital Management, L.P. to act as the Trust's investment subadviser ("Subadviser") and manage the Trust's investments. Under the terms of the subadvisory agreement, for its services, the Subadviser is entitled to a subadvisory fee from PIM at an annual rate of 0.35% of the Trust's average daily managed assets. The fee will be paid monthly in arrears. The Trust does not pay a fee to the Subadviser.

30

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

Pioneer Floating Rate Trust

The Trust has entered into an administration agreement with the Adviser, pursuant to which the Adviser will provide certain administrative and accounting services to the Trust. The Adviser has appointed Princeton Administrators, L.P. ("Princeton") as the sub-administrator to the Trust to perform certain of the Adviser's administration and accounting obligations to the Trust. Under the administration agreement, the Trust pays the Adviser a monthly fee equal to 0.07% of the Trust's average daily managed assets up to \$500 million and 0.03% for average daily managed assets in excess of \$500 million. The Adviser and not the Trust, is responsible for paying the fees of Princeton, which is affiliated with Merrill, Lynch & Co.

Also, PIM has agreed for the first three years of the Trust's investment operations to limit the Trust's total annual expenses [excluding offering costs for common and preferred shares, interest expense, the cost of defending or prosecuting any claim or litigation to which the Trust is a party (together with any amount in judgment or settlement), indemnification expenses or taxes incurred due to the failure of the Trust to qualify as a regulated investment company under the Code or any other non-recurring or non-operating expenses] to 0.95% of the Trust's average daily managed assets. The dividend on any preferred shares is not an expense for this purpose. For the period ended May 31, 2005, the Trust's expenses were not reduced under such arrangements.

3. Forward Foreign Currency Contracts

The Trust may enter into any contracts that obligate the Trust to deliver currencies at specified future dates. At the maturity of a contract, the Trust must make delivery of the foreign currency. Alternatively, prior to the settlement date of a portfolio hedge, the Trust may close out such contracts by entering into an offsetting hedge contract. At May 31, 2005, the Trust had no outstanding portfolio hedges or forward currency settlement contracts.

31

Pioneer Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS 5/31/05 (unaudited) (continued)

4. Unfunded Corporate Loans:

As of May 31, 2005, the Trust had unfunded loan commitments of approximately \$4,786,000, which would be extended at the option of the borrower, pursuant to the following loan agreements:

Borrower	Unfunded Commitment (in thousands)
Advanced Medical Optics, Inc.	\$1,000
Celanese Holdings, LLC	\$ 766
Cricket Communications, Inc.	\$1,000
LNR Property Corp.	\$ 134

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

Trump Entertainment Resorts Holdings	\$1,000
Warner Chilcott Donovan	\$ 331
Warner Chilcott Dovobet	\$ 66

5. Transfer Agents

Pioneer Investment Management Shareholder Services, Inc. ("PIMSS"), a wholly owned indirect subsidiary of UniCredito Italiano, through a sub-transfer agency agreement with Mellon Investor Services LLC, provides substantially all transfer agent and shareowner services related to the Trust's common shares at negotiated rates. Deutsche Bank Trust Company Americas is the transfer agent, registrar, dividend paying agent and redemption agent with respect to the Trust's Auction Market Preferred Shares ("AMPS"). The Trust pays Deutsche Bank Trust Company Americas an annual fee, as is agreed to from time to time by the Trust and Deutsche Bank Trust Company Americas, for providing such services.

6. Trust Shares

There are an unlimited number of common shares of beneficial interest authorized. Of the 24,330,240 common shares of beneficial interest outstanding at May 31, 2005, PIM owned 5,240 shares.

32

Pioneer Floating Rate Trust

Transactions in common shares of beneficial interest for the period December 23, 2004 (commencement of investment operations) to May 31, 2005 were as follows:

Shares issued in connection with initial public offering	22,550,000
Shares issued from underwriters' over-allotment option exercised	1,775,000
Shares outstanding at beginning of period	5,240

Shares outstanding at end of period	24,330,240
	=====

Offering costs of \$973,000 incurred in connection with the Trust's offering of common shares have been charged to paid-in capital.

The Trust may classify or reclassify any unissued common shares of beneficial interest into one or more series of preferred shares of beneficial interest. On March 28, 2005, the Trust reclassified and issued 9,380 common shares into three series of AMPS as follows: Series M7-3,130, Series W7-3,125 and Series TH7-3,125. Offering costs of \$351,729 and underwriting discounts of \$2,345,000 have been charged to paid-in capital.

Dividends on Series M7, Series W7 and Series TH7 are cumulative at a rate which is reset every seven days based on the results of an auction. Dividend rates ranged from 3.00% to 3.35% during the period ended May 31, 2005.

The Trust may not declare dividends or make other distributions on its common

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares would be less than 200%.

The AMPS are redeemable at the option of the Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared. The AMPS are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Trust as set forth in the Agreement and Declaration of Trust are not satisfied.

33

Pioneer Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS 5/31/05 (unaudited) (continued)

The holders of AMPS have voting rights equal to the holders of the Trust's common shares (one vote per share) and will vote together with holders of the common shares as a single class. However, holders of AMPS are also entitled to elect two of the Trust's Trustees. In addition, the Investment Company Act of 1940, as amended, requires that along with approval by shareowners that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares and (b) take any action requiring a vote of security holders, including, among other things, changes in the Trust's subclassification as a closed-end investment company or changes in its fundamental investment restrictions.

7. Subsequent Event

PIONEER FUNDS

APPROVAL OF AUDIT, AUDIT-RELATED, TAX AND OTHER SERVICES PROVIDED BY THE INDEPENDENT AUDITOR

SECTION I - POLICY PURPOSE AND APPLICABILITY

The Pioneer Funds recognize the importance of maintaining the independence of their outside auditors. Maintaining independence is a shared responsibility involving Pioneer Investment Management, Inc ("PIM"), the audit committee and the independent auditors.

The Funds recognize that a Fund's independent auditors: 1) possess knowledge of the Funds, 2) are able to incorporate certain services into the scope of the audit, thereby avoiding redundant work, cost and disruption of Fund personnel and processes, and 3) have expertise that has value to the Funds. As a result, there are situations where it is desirable to use the Fund's independent auditors for services in addition to the annual audit and where the potential for conflicts of interests are minimal. Consequently, this policy, which is intended to comply with Rule 210.2-01(C) (7), sets forth guidelines and procedures to be followed by the Funds when retaining the independent audit firm to perform audit, audit-related tax and other services under those circumstances, while also maintaining independence.

Approval of a service in accordance with this policy for a Fund shall also

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

constitute approval for any other Fund whose pre-approval is required pursuant to Rule 210.2-01(c) (7) (ii).

In addition to the procedures set forth in this policy, any non-audit services that may be provided consistently with Rule 210.2-01 may be approved by the Audit Committee itself and any pre-approval that may be waived in accordance with Rule 210.2-01(c) (7) (i) (C) is hereby waived.

Selection of a Fund's independent auditors and their compensation shall be determined by the Audit Committee and shall not be subject to this policy.

(g) Disclose the aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant.

The Fund's independent auditor, Ernst & Young LLP ("E&Y"), has advised the Securities and Exchange Commission, the Public Company Accounting Oversight Board, and the Audit Committee of the Fund's Board of Trustees that certain non-audit work performed by E&Y's China affiliate raised questions regarding E&Y's independence with respect to its performance of audit services for the Fund. In July 2004, E&Y became aware that member firms in China ("E&Y China") provided certain tax services to offices of UniCredito Italiano, S.p.A. ("UCI"), a member of the Fund's Investment Company Complex. The services included receipt and disbursement of

Edgar Filing: Pioneer Floating Rate Trust - Form N-CSR

monies transferred to E&Y China by UCI in payment of individual expatriate income taxes due on returns prepared by E&Y China for certain UCI employees located in China from October 1998 to May 2003. E&Y became auditors of the Fund in May 2002. These expatriate tax services were discontinued in May 2003. The fees received by E&Y China for all such services totaled \$3,685.

The Fund's Audit Committee and E&Y have discussed the matter, including the nature of the services provided, the personnel involved in providing the services and the fees received by E&Y for performing the services. E&Y has informed the Audit Committee that based on its internal reviews and the de minimis nature of the services provided and fees received, it does not believe its independence with respect to the Fund has been impaired.
