 Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01. Other Events.

Edgar Filing: ALLIANT ENERGY CORP - Form 8-K

As part of rebuttal testimony filed on September 8, 2008 with the Public Service Commission of Wisconsin, Wisconsin Power and Light Company (WPL), a wholly owned subsidiary of Alliant Energy Corporation, is updating WPL s cost estimate for capital expenditures for its proposed addition of a new third unit of the Nelson Dewey Generating Station in Cassville, Wisconsin to an estimated range of \$1.2 billion to \$1.3 billion, which is an increase from the previously disclosed range of \$1.1 billion to \$1.2 billion. Primary drivers of the increase are escalations of major equipment costs and subsistence costs to attract labor. Cost estimates represent WPL s total escalated construction expenditures and exclude allowance for funds used during construction, if applicable.

Separately, the Iowa Utilities Board (IUB) recently changed the start of technical hearings on the ratemaking principles docket associated with Interstate Power and Light Company s (IPL), a wholly owned subsidiary of Alliant Energy Corporation, proposed addition of a new unit at the Sutherland Generating Station in Marshalltown, Iowa from September 15, 2008 to October 6, 2008. IPL plans to respond to the IUB s order requiring additional information on the docket by September 12, 2008.

This Current Report on Form 8-K includes forward-looking statements. These forward-looking statements can be identified as such because the statements include words such as estimate, estimated, plans or other words of similar import. Similarly, statements that describe future plans or strategies are also forward-looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those currently anticipated. Actual results could be affected by such factors as: state regulatory actions or local government actions which delay, prevent or alter the proposed plans, including inability to obtain all necessary approvals and permits; unanticipated construction issues, delays or expenditures including increased costs of labor, materials and equipment; failure of equipment and technology to perform as expected; current or future litigation, regulatory investigations, proceedings or inquiries that could impede the implementation of WPL s and IPL s plans; political conditions in WPL s and IPL s service territories; changes to WPL s and IPL s access to capital markets; and economic conditions in WPL s and IPL s service territory. These factors should be considered when evaluating the forward-looking statements and undue reliance should not be placed on such statements. The forward-looking statements included herein are made as of the date hereof and Alliant Energy, IPL and WPL undertake no obligation to update publicly such statements to reflect subsequent events or circumstances.
