PROXY STATEMENT

This Proxy Statement is furnished to the shareholders of Insignia Systems, Inc. in connection with the Board of Directors' solicitation of proxies to be voted at the annual meeting of shareholders to be held on May 20, 2003 or any adjournment thereof (the "Meeting"). The mailing of this Proxy Statement to shareholders commenced on or about April 8, 2003.

All expenses in connection with solicitation of proxies will be borne by the Company. The Company will pay brokers, nominees, fiduciaries, or other custodians their reasonable expenses for sending proxy material to, and obtaining instructions from, persons for whom they hold stock of the Company. The Company expects to solicit proxies by mail, but directors, officers, and other employees of the Company may also solicit in person, by telephone, by telegraph or by mail. The Company's principal offices are located at 6470 Sycamore Court North, Maple Grove, Minnesota 55369.

Any proxy may be revoked at any time before it is voted by written notice, mailed or delivered to the Secretary of the Company, or by revocation in person at the Meeting; but if not so revoked, the shares represented by such proxy will be voted in the manner directed by the shareholder. If no direction is made, proxies received from shareholders will be noted "for" the proposals set forth in the Notice of Meeting.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

The Company has 12,202,920 shares of Common Stock, par value \$.01 per share (the "Common Stock") outstanding and entitled to vote at the Meeting. Each share of Common Stock is entitled to one vote. Only shareholders of record at the close of business on March 25, 2003 are entitled to vote at the meeting and at any continuation or adjournment thereof. The presence, in person or by proxy, of the holders of a majority of the shares of Common Stock entitled to vote at the meeting will constitute a quorum for the transaction of business.

Under Minnesota law, each item of business properly presented at a meeting of shareholders generally must be approved by the affirmative vote of the greater of: (1) the holders of a majority of the voting power of the shares present, in person or by proxy, and entitled to vote on that item of business; or (2) a majority of the voting power of the minimum number of the shares entitled to vote that would constitute a quorum for the transaction of business at the meeting. Votes cast by proxy or in person at the Meeting will be tabulated at the Meeting to determine whether or not a quorum is present. Abstentions will be treated as unvoted for purposes of determining the approval of the matter submitted to the shareholders for a vote. If a broker indicates on the proxy that it does not have discretionary authority as to certain shares to vote on a particular matter, those shares will not be considered as present and entitled to vote with respect to that matter.

REPORT OF COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

OVERVIEW AND PHILOSOPHY

The Compensation Committee of the Board of Directors (the "Committee") operates pursuant to a Charter adopted by the Board of Directors on February 24, 2003. The Charter includes a mission statement which states that the Committee's mission is to ensure that the Company's executive officers are compensated consistent with the following philosophy and objectives: (1) to support the Company's overall business strategy and objectives; (2) to attract, retain and motivate the best executives in the Company's industry; (3) to promote the Company's pay-for-performance philosophy; and (4) to ensure that the Company's compensation programs and practices are of the highest quality and designed with full consideration of all accounting, tax, securities law, and other regulatory requirements.

Pursuant to the Charter, the Committee is appointed by the Board and is comprised of between three and five outside directors. The main duties of the Committee, as described in the Charter, are as follows: (1) review and approve annual base salary and incentive compensation levels, employment agreements, and benefits of the Chief Executive Officer and other key executives; (2) review the performance of the Chief Executive Officer; (3) review and assess performance target goals established for bonus plans and determine if goals were achieved at the end of the plan year; (4) act as the administrative committee for the Company's Stock Plans, the Employee Stock Purchase Plan, and any other incentive plans established by the Company; (5) consider and approve grants of incentive stock options, nonqualified stock options, restricted stock or any combination to any employee; and (6) prepare the Report of the Compensation Committee for inclusion in the Annual Proxy Statement.

It is the intention of the Committee to utilize a pay-for-performance compensation strategy that is directly related to achieving the financial objectives of the Company. The primary elements of the executive compensation program are base salary, annual incentives, and long-term incentives.

BASE SALARY

Base salaries of the Company's executive officers are intended to be

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

competitive with the median base salaries paid by other corporations similar to the Company and to serve as a platform for performance-based (incentive) pay. Base salaries are determined for executive positions using compensation surveys, taking into account variables such as geography, job comparability, size of the company and nature of the business. In addition to base salary, executive officers are eligible to participate in the Company's employee benefit plans on the same terms as other employees.

ANNUAL INCENTIVES

No bonuses were paid to executive officers for the three fiscal years ended December 31, 2000, 2001 and 2002. The Company has adopted a bonus plan for its executive officers for 2003. Bonus payments are contingent on the performance of the Company.

LONG-TERM INCENTIVES

The 1990 Stock Plan, and now the 2003 Incentive Stock Option Plan, are the basis of the Company's long-term incentive plans for executive officers and other key employees. The objective of the plans is to align executives' long-term interests with those of the shareholders by creating a direct incentive for executives to increase shareholder value. The stock option grants allow executives to purchase shares of Company stock at a price equal to the fair market value of the stock on the date of grant over a term of five to ten years. The options generally vest and become exercisable over a period of two to four years following the date of grant. The award of option grants is consistent with the Company's objective to include in total compensation a long-term equity interest for executive officers, with greater opportunity for reward if long-term performance is sustained.

The Company also maintains the Employee Stock Purchase Plan, pursuant to which eligible employees can contribute up to ten percent of their base pay per year to purchase shares of Common Stock. The shares are issued by the Company at a price per share equal to 85 percent of market value on the first day of the offering period or the last day of the plan year, whichever is lower.

CHIEF EXECUTIVE OFFICER COMPENSATION

The Committee determines compensation for the Chief Executive Officer on an annual basis. Mr. Drill's current base salary was established by the Compensation Committee, and became effective January 1, 2002. The Committee believes that this base salary is consistent and competitive with salaries paid to Chief Executive Officers of companies of similar size and type. Mr. Drill has not received a bonus for the past five years.

CONCLUSION

The Committee believes that the executive compensation plan discussed in this Proxy Statement is consistent with the overall corporate strategy for continued growth in earnings and shareholder value.

Gordon Stofer, Chairman Erwin Kelen W. Robert Ramsdell Frank Trestman

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors is responsible for providing independent objective oversight of the Company's financial reporting system by overseeing and monitoring management's and the independent auditors' participation in the financial reporting process. The Audit Committee is comprised of independent directors, and acts under a written charter first

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

adopted and approved by the Board of Directors on October 23, 1991. On April 7, 2003, the Board of Directors approved a revised charter. A copy of the charter is attached as an appendix. Each of the members of the Audit Committee is independent as defined by the Nasdaq listing standards.

Page 6

The Audit Committee reviewed and discussed the audited financial statements with management and Ernst & Young LLP. Management represented to the Audit Committee that the Company's financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the financial statements with management and the independent auditors. The discussions with Ernst & Young LLP also included the matters required by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

Ernst & Young LLP provided to the Audit Committee the written disclosures and the letter regarding its independence as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). The Committee discussed with the independent auditors the auditors' independence from management and the Company and considered the compatibility of nonaudit services with the auditors' independence.

Based on the discussions with management and Ernst & Young LLP, the Audit Committee's review of the representations of management and the report of Ernst & Young LLP, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2002 filed with the Securities and Exchange Commission.

SUBMITTED BY THE AUDIT COMMITTEE:

Erwin Kelen Gordon Stofer Frank Trestman

The preceding report shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 (the "1993 Act") or the Securities Exchange Act of 1934 (the "1934 Act"), except to the extent the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under the 1993 Act or the 1934 Act.

AUDITORS

Ernst & Young LLP, independent auditors, have been the Company's auditors since 1990. A representative of Ernst & Young LLP is expected to be present at the Meeting, and will be given the opportunity to make a statement and will be available to answer appropriate questions.

AUDIT AND AUDIT RELATED FEES

The aggregate fees billed to the Company during fiscal 2002 by Ernst & Young LLP for professional services rendered for the audit of the Company's annual financial statements, reviews of the financial statements included in the Company's Form 10-Q's for fiscal 2002 and services provided in connection with statutory and regulatory filings related to those periods were \$69,000. Other consultations including services in connection with the private placement and

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

ValuStix transactions in 2002 were \$8,600.

ALL OTHER FEES

Other than audit fees, the aggregate fees billed to the Company by Ernst & Young LLP for the most recent fiscal year, none of which related to financial information systems design and implementation fees, were \$24,400. This figure includes fees for all nonaudit services such as tax-related services. The Audit Committee determined that the non-audit services performed by Ernest & Young LLP are not incompatible with maintaining Ernst & Young LLP's independence with respect to the Company.

ITEM I APPROVAL OF AN AMENDMENT TO THE COMPANY'S ARTICLES OF INCORPORATION

The Board of Directors has approved, and is recommending to the shareholders for approval at the Meeting, an amendment to Article V of the Articles of Incorporation, to divide the Board of Directors into three separate "classes". The members of each class would serve for a term of three years, with one class to be elected each year. The directors of the Company currently serve until their successors are elected, or until their prior resignation, removal or incapacity.

PURPOSES AND EFFECTS OF PROPOSED CHANGE IN THE ELECTION AND TERM OF DIRECTORS

The Board of Directors believes that the three-year staggered terms provide stability and will ensure that a majority of the Company's directors at any given time have prior experience as directors of the Company. Directors who have experience with the Company and knowledge about its business are a valuable resource and are better positioned to make the fundamental decisions that are best for the Company and its shareholders. The Board observes that numerous well-respected U.S. corporations and institutional investors have classified boards.

In addition, the Board of Directors believes that electing directors to staggered three-year terms enhances long-term strategic planning. The Board continuity made possible by the classified board structure is essential to the proper oversight of the Company. The Board of Directors believes a classified board is appropriate for the Company and ensures responsible, knowledgeable representation of the long-term interests of the Company and its shareholders. The annual election of only one-third of the Board also helps to prevent abrupt changes in corporate policies, based on misplaced short-term objectives that might result if the entire Board could be replaced in one year.

Moreover, the Board believes that electing directors to three-year terms enhances the independence of non-management directors by providing them with a longer assured term of office. Three-year terms for directors assist the Company in attracting director candidates who are willing to make a longer-term commitment to the Company.

The Board of Directors also believes that a classified board structure enhances the Board's ability to negotiate the best results for shareholders in a takeover situation. A classified board encourages a person seeking to obtain control of the Company to negotiate with the Board. At least two annual meetings will be required to effect a change in control of the Board. This gives the incumbent directors the time and leverage necessary to evaluate the adequacy and fairness of any takeover proposal, negotiate on behalf of all shareholders, and weigh alternative methods of maximizing shareholder value for all shareholders. It is important to note, however, that although the classified board is intended to cause a person seeking to obtain control of the Company to negotiate with the Board, the existence of a classified board will not, in fact, prevent a person from accomplishing a hostile acquisition.

Page 10

AMENDMENT TO ARTICLES OF INCORPORATION

If approved, Article V of the Company's Articles of Incorporation would be amended and restated as follows:

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

ARTICLE V.
DIRECTORS

The board of directors shall be divided into three classes as nearly equal in number as possible. The members of each class shall be elected for a term of three years (or for a shorter period when necessary to ensure that the Board is divided into three equal classes), and until their successors are elected and qualified. One class of directors shall be elected annually.

EFFECTIVE DATE OF PROPOSED AMENDMENT

The proposed amendment to Article V of the Articles of Incorporation of the Company, if adopted by the required vote of the shareholders, will become effective upon filing with the Minnesota Secretary of State. The directors elected at the Meeting will be designated in classes, with such designation to become effective at the time the amendment becomes effective.

SHAREHOLDER APPROVAL AND BOARD RECOMMENDATION

The affirmative vote of holders of a majority of the shares of Common Stock present and entitled to vote at the Meeting is required to approve the proposed amendment. If the amendment is not approved by the shareholders, the Company's Articles of Incorporation, which currently do not specify classes or definite terms for directors, will continue in effect and the election and term of directors will not change.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSED AMENDMENT TO THE COMPANY'S ARTICLES OF INCORPORATION.

ITEM II
ELECTION OF DIRECTORS

Contingent on the effectiveness of the Amendment of Article V of the Articles of Incorporation to divide the Board of Directors into three separate classes, the Board of Directors has fixed at seven the size of the Board of Directors with each director designated in one of three classes. Class One shall be scheduled for reelection in 2004, Class Two in 2005, and Class Three in 2006. The Board has nominated as the management slate the current seven members. It is anticipated that proxies will be voted for the management slate, and that each nominee will serve if elected. Should any nominee be unable to serve, the persons named in the proxies may in their discretion vote for a substitute. If the Amendment does not become effective, each director shall serve until his successor is elected, or until his prior resignation, removal or incapacity.

The names and ages of the management slate of nominees, their principal occupations and other information is set forth below, based upon information furnished to the Company by the nominees.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

their service on the Board of Directors, other than reimbursement of reasonable out-of-pocket expenses incurred on behalf of the Company. Beginning in 2003, outside directors will receive a fee of \$10,000 per year and \$1,000 for each Board meeting that they attend. In addition, the Chair of each committee will receive \$1,000 for each meeting of the committee, and members of the committee will receive \$500 for each meeting of the committee, that they attend. The 2003 Incentive Stock Option Plan provides for the grant to each non-employee director of a non-qualified option to purchase 10,000 shares of common stock at the time the director is first elected or appointed to the Board, and grants of non-qualified options for 5,000 shares each year that the director is re-elected. All grants have an exercise price equal to the closing market price on the date of grant.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE "FOR" ELECTION OF THE MANAGEMENT SLATE OF NOMINEES.

Page 13

ITEM III APPROVAL OF 2003 INCENTIVE STOCK OPTION PLAN

On February 24, 2003, the Board of Directors adopted, subject to shareholder approval, the 2003 Incentive Stock Option Plan (the "2003 Plan"). The 2003 Plan replaces the 1990 Stock Plan (the "1990 Plan"). Substantially all of the shares reserved for issuance under the 1990 Plan were either issued or covered by outstanding options, and the 1990 Plan included a number of provisions that had become obsolete. The Board of Directors deemed it prudent to adopt a new plan containing all provisions currently required by applicable laws and regulations, and to permit the continued grant of options to attract, retain and motivate key employees and directors.

Options previously granted under the 1990 Plan will remain in effect until they are exercised or expire according to their terms. All future option grants will be made under the 2003 Plan, provided the shareholders approve the 2003 Plan at the Annual Meeting.

SUMMARY OF THE PLAN

The 2003 Plan provides for the granting of stock options to employees, non-employee directors, consultants and advisors. There are currently 140 employees, and five non-employee directors, who are eligible to receive options under the 2003 Plan. An aggregate of 350,000 shares of Common Stock have been issued or reserved for issuance under the 2003 Plan. Shares covered by expired or terminated stock options may be used for subsequent awards under the 2003 Plan.

The 2003 Plan is administered by the Compensation Committee, whose members are appointed by the Board. The Committee has the power to select recipients, make grants of stock options, and adopt regulations and procedures for the 2003 Plan. Non-employee directors receive automatic option grants for 10,000 shares in the year in which they are first appointed or elected to the Board, and option grants for 5,000 shares each year they are re-elected.

The 2003 Plan permits the grant of both stock options that qualify as "incentive stock options" under the Internal Revenue Code and options that do not so qualify ("non-qualified options"). Incentive stock options differ as to their tax treatment and are subject to a number of limitations under the Internal Revenue Code. Incentive stock options may only be granted to employees, and may not be granted with an exercise price less than 100% of the fair market

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

value of the Common Stock on the date of the grant (or, for an option granted to a person holding more than 10% of the Company's voting stock, at less than 110% of fair market value). The 2003 Plan states that the maximum number of shares for which any person may be granted options in any year shall not exceed 100,000 shares.

Following an optionee's death or disability, the optionee's options may be exercised by the optionee (or the optionee's legal representative or legatee) for a period of one year or until the expiration of the stated term of the option, whichever is less. If an optionee's employment with the Company terminates for any other reason, the optionee's options will remain exercisable for 90 days or until the expiration of the stated term, whichever is less, except if such optionee is terminated for conduct which is contrary to the best interest of the Company, or violates any written nondisclosure agreement, the optionee's options will immediately terminate. Options may not be transferred other than by will or the laws of descent and distribution, and during the lifetime of an optionee may be exercised only by the optionee.

The term of each option, which is fixed by the Committee at the time of grant, may not exceed ten years from the date the option is granted (except that an incentive option granted to a person holding more than 10% of the Company's voting stock may be exercisable only for five years). Options may be made exercisable in whole or in installments, as determined by the Committee. The vesting of options will be accelerated upon a change in control of the Company.

Page 14

FEDERAL INCOME TAX TREATMENT

Generally the grant of either an incentive stock option or a non-qualified option under the 2003 Plan will not cause recognition of income by the optionee or entitle the Company to an income tax deduction. Upon exercise of an option, the tax treatment will generally vary depending on whether the option is an incentive stock option or a non-qualified option. The exercise of an incentive stock option will generally not cause recognition of income by the optionee or entitle the Company to a tax deduction. However, the amount by which the fair market value of the shares obtained exceeds the exercise price on the date of exercise is an item of tax preference to the optionee for alternative minimum tax purposes.

The exercise of a non-qualified option will generally cause the optionee to recognize taxable income equal to the difference between the exercise price and the fair market value of the stock obtained on the day of exercise. The Company must then in most cases obtain from the optionee funds to meet tax withholding requirements arising from that income recognition. The exercise of a non-qualified option will also generally entitle the Company to an income tax deduction equal to the amount of the income recognized by the exercising option holder.

The foregoing discussion of the federal income tax treatment of options is necessarily general and any option holder should consult his tax advisor as to his own particular circumstances and applicable laws and regulations.

REGISTRATION WITH THE SEC

Upon approval of the 2003 Plan, the Company will file a Registration Statement on Form S-8 with the SEC to register the 350,000 shares reserved under the 2003 Plan.

APPENDIX II

INSIGNIA SYSTEMS, INC. 2003 INCENTIVE STOCK OPTION PLAN (Adopted by Board of Directors February 24, 2003)

1. PURPOSE. The purpose of this Plan is to provide a means whereby Insignia Systems, Inc. (the "Company"), may be able, by granting options to purchase stock in the Company, to attract, retain and motivate capable and loyal employees, directors, consultants and advisors of the Company and its subsidiaries, for the benefit of the Company and its shareholders. Both incentive stock options which qualify for favorable tax treatment under Section 422 of the Internal Revenue Code (the "Code"), and nonqualified stock options which do not qualify for favorable tax treatment, may be granted under the Plan.

2. RESERVATION OF SHARES. A total of 350,000 shares of the authorized but unissued shares of Common Stock of the Company, par value \$.01 per share, is reserved for issue upon the exercise of options granted under the Plan. If any

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

option expires or terminates for any reason without having been exercised in full, the unpurchased shares covered thereby shall become available for additional options which may be issued to persons eligible under the Plan so long as it remains in effect. Shares reserved for issue as provided herein shall cease to be reserved upon termination of the Plan.

3. ADMINISTRATION. The Plan shall be administered by the Compensation Committee of the Board of Directors (the "Committee"). The Committee shall be appointed by the Board of Directors and shall be comprised solely of two or more "non-employee directors" within the meaning of SEC Rule 16b-3. Each member of the Committee shall also be an "outside director" within the meaning of Code Section 162(m). The Committee shall have the full power to construe and interpret the Plan and to establish and amend rules and regulations for its administration. The Committee shall determine which persons shall be granted options hereunder, the number of shares for which each option shall be granted, the types of options to be granted, and any limitations on the exercise of options in addition to those imposed by this Plan. The Committee may also waive any restrictions on the exercise of outstanding options and approve amendments to outstanding options, provided there is no conflict with the terms of the Plan. The Committee shall apply such criteria as it deems appropriate in determining the persons to whom options are granted and the number of shares to be covered by each option.

4. ELIGIBILITY. An option may be granted to any employee, director, consultant or advisor of the Company or its subsidiaries, except that no consultant or advisor shall be granted options in connection with the offer and sale of securities in a capital raising transaction on behalf of the Company. The maximum number of shares for which any person may be granted options under the Plan in any year is limited to 100,000 shares.

1

5. OPTION GRANTS TO OUTSIDE DIRECTORS. Each outside director of the Company shall automatically be granted an option to purchase 10,000 shares of Common Stock immediately upon first being appointed or elected as a director. Each outside director shall also automatically be granted an option to purchase 5,000 shares of Common Stock immediately upon each re-election as a director, or on the anniversary of the prior year's grant in any year in which there is no meeting of the shareholders at which directors are elected. In no event shall a director receive more than one grant in any fiscal year.

The period within which an option granted to an outside director must be exercised shall be the earlier of (a) five years from the date of grant, or (b) 90 days after the director ceases to be a director for any reason. Options granted to outside directors shall be immediately exercisable in full when granted.

6. EXERCISE PRICE. The per share exercise price for each option shall be determined by the Committee at the time of grant, provided that the per share exercise price for any incentive stock option, and any option granted to an outside director, shall be not less than the fair market value of the Common Stock on the date the option is granted. In making such determination, the Committee shall rely on market quotations, if available, but if not available, upon independent appraisals of the stock or such other information deemed appropriate by the Committee.

7. CHANGES IN PRESENT STOCK. In the event of a recapitalization, merger, consolidation, reorganization, stock dividend, stock split or other change in capitalization affecting the Company's present capital stock, appropriate

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

adjustment may be made by the Committee in the number and kind of shares and the option price of shares which are or may become subject to options granted or to be granted hereunder.

8. EXERCISE OF OPTION. Receipt by the Company of a written notice from an optionee, specifying the number of shares to be purchased, and accompanied by payment of the purchase price for such shares, shall constitute exercise of the option as to such shares. The date of receipt by the Company of such written notice shall be the date of exercise of the option. The Company may accept payment from a broker and, upon receipt of written instructions from the optionee, deliver the purchased shares to the broker.

9. OPTION AGREEMENT PROVISIONS. Each option granted under the Plan shall be evidenced by a Stock Option Agreement executed by the Company and the optionee, and shall be subject to the following terms and conditions, and such other terms and conditions as may be prescribed by the Committee:

- (a) PAYMENT. The full purchase price of the shares acquired upon exercise of an option shall be paid in cash, certified or cashier's check, or in the form of Common Stock of the Company with a market value equal to the option exercise price and free and clear of all liens and encumbrances.

2

The Committee in its sole discretion may also permit the "cashless exercise" of an option. In the event of a cashless exercise, the optionee shall surrender the option to the Company, and the Company shall issue the optionee the number of shares determined as follows:

$X = Y (A-B) / A$ where:

X = the number of shares to be issued to the optionee.

Y = the number of shares with respect to which the option is being exercised.

A = the closing sale price of the Common Stock on the date of exercise, or in the absence thereof, the fair market value on the date of exercise.

B = the option exercise price.

- (b) EXERCISE PERIOD. The period within which an option must be exercised shall be fixed by the Committee, and shall not exceed ten years from the date of grant for an incentive stock option. The Committee may provide that an option will vest and become exercisable upon the completion of specified periods of employment, or the attainment of specified performance goals. To the extent exercisable, an option may be exercised in whole or in part. Outstanding unvested options shall become immediately exercisable in full in the event the Company is acquired by merger, purchase of all or substantially all of the Company's assets, or purchase of a majority of the outstanding stock by a single party or a group acting in concert.
- (c) RIGHTS OF OPTIONEE BEFORE EXERCISE. The holder of an option shall not have the rights of a shareholder with respect to the shares

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

covered by his or her option until such shares have been issued to him or her upon exercise of the option.

- (d) NO RIGHTS TO CONTINUED EMPLOYMENT. Nothing in the Plan or in any Stock Option Agreement entered into pursuant hereto shall be construed to confer upon any optionee any right to continue in the employ of his or her employer or interfere in any way with the right of his or her employer to terminate his or her employment at any time.
- (e) DEATH OF OPTIONEE. Upon the death of an optionee, the option, or any portion thereof, may be exercised to the extent the optionee was entitled to do so at the time of the optionee's death, by his or her executor or administrator or other person entitled by law to the optionee's rights under

3

the option, at any time within one year subsequent to the date of death. The option shall automatically expire one year after the optionee's death to the extent not exercised.

- (f) DISABILITY OF OPTIONEE. If an optionee is an employee of the Company or its subsidiaries, and if the optionee's employment is terminated due to his or her disability, the optionee may, within one year of such termination, exercise any unexercised portion of the option to the extent he or she was entitled to do so at the time of such termination. The option shall automatically expire one year after such termination to the extent not exercised.
- (g) OTHER TERMINATION OF EMPLOYMENT. If an optionee is an employee of the Company or its subsidiaries, and if the optionee's employment is terminated other than by death, disability, or conduct which is contrary to the best interests of his or her employer, the optionee may, within 90 days of such termination, exercise any unexercised portion of the option to the extent he or she was entitled to do so at the time of such termination. The option shall automatically expire 90 days after such termination to the extent not exercised. If the optionee's employment is terminated by his or her employer for conduct which is contrary to the best interests of his or her employer, or if the optionee violates any written nondisclosure agreement with his or her employer, as determined in either case by the optionee's employer in its sole discretion, the unexercised portion of the optionee's option shall automatically expire at that time. Inter-company transfers and approved leaves of absence for up to 90 days shall not be considered termination of employment.
- (h) NON-TRANSFERABILITY OF OPTION. No option shall be transferable by the optionee other than by will or by the laws of descent and distribution, and each option shall be exercisable during the optionee's lifetime only by the optionee. No option may be attached or subject to levy by an optionee's creditors.
- (i) DATE OF GRANT. The date on which the Committee approves the granting of an option shall be considered the date on which such option is granted.

10. ADDITIONAL PROVISIONS FOR INCENTIVE STOCK OPTIONS.

Edgar Filing: INSIGNIA SYSTEMS INC/MN - Form DEF 14A

- (a) DOLLAR LIMIT. Each option granted to an employee shall constitute an incentive stock option, provided that no more than \$100,000 of such options (based upon the fair market value of the underlying shares as of the date of grant) can first become exercisable for any employee in any calendar year. To the extent an option grant exceeds the \$100,000 limitation, it shall constitute a non-qualified stock option. Each Stock

4

Option Agreement with an employee shall specify the extent to which it is an incentive and/or non-qualified stock option. For purposes of applying the \$100,000 limitation, options granted under this Plan and all other incentive stock option plans of the Company and any parent or subsidiary corporation shall be included.

- (b) TEN PERCENT SHAREHOLDERS. No incentive stock option shall be granted to any employee who at the time directly or indirectly owns more than 10 percent of the combined voting power of all classes of stock of the Company or of a parent or subsidiary corporation, unless the exercise price is not less than 110 percent of the fair market value of such stock on the date of grant, and unless the option is not exercisable more than five years after the date of grant.

11. RESTRICTIONS ON TRANSFER. During any period in which the offering of the shares under the Plan is not registered under federal and state securities laws, an optionee shall agree in his or her option agreement that he or she is acquiring shares under the Plan for investment purposes, and not for resale, and that the shares cannot be resold or otherwise transferred except pursuant to registration or unless, in the opinion of counsel for the Company, registration is not required.

Any restrictions upon shares acquired upon exercise of an option pursuant to the Plan and the Stock Option Agreement shall be binding upon the optionee, and his or her heirs, executors, and administrators.
