CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities Offered	Maximum Aggregate Offering Price	Amount of Registration Fee(1)
SPDR TRUST, Series 1 Knock-in REX	$5,200,000	$204.36

(1) Pursuant to Rule 457(p) under the Securities Act of 1933, filing fees of $94,671.00 have already been paid with respect to unsold securities that were previously registered pursuant to a Registration Statement on Form F-3 (No. 333-89136) of ABN AMRO Bank N.V. (the "Prior Registration Statement"), which was initially filed on May 24, 2002 and for which a post-effective amendment was filed on September 17, 2003 and have been carried forward. On July 14, 2008 an additional filing fee of $10,000 was paid. The $204.36 fee with respect to the $5,200,000 Knock-in Securities linked to the SPDR TRUST, Series 1 due March 17, 2009 sold pursuant to this registration statement is offset against those filing fees, and $5,631.08 remains available for future registration fees. No additional fee has been paid with respect to this offering.

8.25% (ANNUALIZED) SIX MONTH KNOCK-IN REVERSE EXCHANGEABLE SECURITIES LINKED TO THE SPDR TRUST, SERIES 1 DUE MARCH 17, 2009

THE SECURITIES DO NOT GUARANTEE ANY RETURN OF PRINCIPAL AT MATURITY. Instead, the payout at maturity will be based on the performance of the shares of the SPDR Trust, Series 1, which we refer to as the Underlying Fund, during the life of the Securities, and in certain circumstances described below, we will exchange each Security at maturity for a predetermined number of the shares of the Underlying Fund rather than the principal amount of the Securities. THE MARKET VALUE OF THOSE SHARES OF THE UNDERLYING FUND WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO.

SECURITIES	8.25% (Annualized) Six Month Knock-in Reverse Exchangeable Securities linked to the SPDR Trust Series 1 due March 17, 2009.
PRINCIPAL AMOUNT	$5,200,000
UNDERLYING FUND	The SPDR Trust Series 1, an exchange traded fund which we refer to as the Underlying Fund.
INTEREST RATE	8.25% per annum, payable monthly in arrears on the 17th of each month commencing on October 17, 2008 and ending on the maturity date.

ISSUE PRICE	100%
SETTLEMENT DATE	September 17, 2008
PRICING DATE	September 12, 2008
MATURITY DATE	March 17, 2009
INITIAL PRICE	$126.11, 100% of the closing price per share of the Underlying Fund on the pricing date. (The initial price is subject to adjustment for certain corporate events affecting the Underlying Fund, which we describe in "Description of Securities --Discontinuance of the Underlying Fund; Alteration of Method of Calculation").
FINAL PRICE	100% of the closing price per share of the Underlying Fund on the determination date.
KNOCK-IN LEVEL	$100.89, 80% of the initial price.
REDEMPTION AMOUNT	7.930 shares of the Underlying Fund for each $1,000 principal amount of Securities, which is equal to $1,000 divided by the initial price.
DETERMINATION DATE	March 12, 2009, subject to adjustment in certain circumstances which we describe in "Description of the Securities -- Determination Date."
PAYMENT AT MATURITY	The payment at maturity, if any, is based on the performance of the Underlying Fund, and will consist of an amount in cash as follows: (i) if the closing price of the Underlying Fund on the primary U.S. exchange or market for the Underlying Fund has not fallen below the knock-in level on any trading day from but not including the pricing date to and including the determination date, we will pay you the principal amount of each Security in cash. (ii) if the closing price of the Underlying Fund on the primary U.S. exchange or market for such Underlying Fund has fallen below its knock-in level on any trading day from but not including the pricing date to and including the determination date: a) if the closing price of the Underlying Fund on the determination date is at or above the initial price of the Underlying Fund, we will pay you the principal amount of each Security in cash; or b) if the closing price of the Underlying Fund on the determination date is below the initial price of the Underlying Fund, we will deliver to you a number of shares of the Underlying Fund equal to the Redemption Amount. If due to events beyond our reasonable control, as

determined by us in our sole discretion, shares of the Underlying Fund are not available for delivery at maturity we may pay you, in lieu of the Redemption Amount, the cash value of the Redemption Amount, determined by multiplying the Redemption Amount by the Closing Price of the Underlying Fund on the Determination Date.

IF WE DELIVER SHARES OF THE UNDERLYING FUND AT MATURITY, THE MARKET VALUE OF THOSE SHARES WILL BE LESS THAN THE PRINCIPAL AMOUNT OF EACH SECURITY AND COULD BE ZERO. IN SUCH A CASE, YOU WILL LOSE SOME OR ALL OF YOUR INITIAL PRINCIPAL INVESTMENT.

The payment at maturity is subject to adjustment in certain circumstances as described in "Description of the Securities in this pricing supplement.

GUARANTEE	The Securities will be fully and unconditionally guaranteed by ABN AMRO Holding N.V.
DENOMINATIONS	The Securities may be purchased in denominations of $1,000 and integral multiples thereof.
NO AFFILIATION WITH SPDRS	The SPDR Trust Series 1, which we refer to as the Underlying Fund is not an affiliate of ours and is not involved with this offering in any way. The obligations represented by the Securities are our obligations, not those of the Underlying Fund. Investing in the Securities is not equivalent to investing in the Underlying Fund. We are not affiliated with the sponsor of the Underlying Fund and the sponsor of the Underlying Fund is not involved with this offering in any way. The obligations represented by the Securities are our obligations, not those of the Underlying Fund or the sponsor of the Underlying Fund.
LISTING	We do not intend to list the Securities on any securities exchange.

THE SECURITIES ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION OR ANY OTHER FEDERAL AGENCY.

THE SECURITIES INVOLVE RISKS NOT ASSOCIATED WITH AN INVESTMENT IN CONVENTIONAL DEBT SECURITIES. SEE "RISK FACTORS" BEGINNING ON PS-8.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these Securities, or determined if this Pricing Supplement or the accompanying Prospectus Supplement or Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The agents are not obligated to purchase the Securities but have agreed to use reasonable efforts to solicit offers to purchase the Securities. TO THE EXTENT THE FULL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES BEING OFFERED BY THIS PRICING SUPPLEMENT IS NOT PURCHASED BY INVESTORS IN THE OFFERING, ONE OR MORE OF OUR AFFILIATES HAS AGREED TO PURCHASE THE UNSOLD PORTION, WHICH MAY CONSTITUTE A SUBSTANTIAL PORTION OF THE TOTAL AGGREGATE PRINCIPAL AMOUNT OF THE SECURITIES, AND TO HOLD SUCH SECURITIES FOR INVESTMENT PURPOSES. SEE "HOLDING OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES" UNDER THE HEADING "RISK FACTORS" AND "PLAN OF DISTRIBUTION." This Pricing Supplement and the accompanying

Prospectus Supplement and Prospectus may be used by our affiliates in connection with offers and sales of the Securities in market-making transactions.

PRICE $1,000 PER SECURITY

	PRICE TO PUBLIC	AGENT'S COMMISSIONS(1)	PROCEEDS TO ABN AMRO BANK N.V.
Non-Principal Protected Securities	100%	1.75%	98.25%
Total	$5,200,000	$91,000	$5,109,000

(1) For additional information see "Plan of Distribution" in this pricing supplement.

ABN AMRO INCORPORATED

In this Pricing Supplement, the "Bank," "we," "us" and "our" refer to ABN AMRO Bank N.V. and "Holding" refers to ABN AMRO Holding N.V., our parent company. We refer to the Securities offered hereby and the related guarantees as the "Securities" and to each individual security offered hereby as a "Security."

Reverse Exchangeable(SM) and ABN Notes(SM) are service marks of ABN AMRO Bank N.V.

ANY SECURITIES ISSUED, SOLD OR DISTRIBUTED PURSUANT TO THIS PRICING SUPPLEMENT MAY NOT BE OFFERED OR SOLD (I) TO ANY PERSON/ENTITY LISTED ON SANCTIONS LISTS OF THE EUROPEAN UNION, UNITED STATES OR ANY OTHER APPLICABLE LOCAL COMPETENT AUTHORITY; (II) WITHIN THE TERRITORY OF CUBA, SUDAN, IRAN AND MYANMAR; (III) TO RESIDENTS IN CUBA, SUDAN, IRAN OR MYANMAR; OR (IV) TO CUBAN NATIONALS, WHEREVER LOCATED.

SUMMARY

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are interest paying, non-principal protected securities issued by us, ABN AMRO Bank N.V. and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities are senior notes of ABN AMRO Bank N.V. and have a maturity of six months. These Securities combine certain features of debt and equity by offering a fixed interest rate on the principal amount while the payment at maturity is determined based on the performance of the SPDR Trust Series 1, which we refer to as the Underlying Fund. THEREFORE YOUR INITIAL PRINCIPAL INVESTMENT IS AT RISK.

The Securities have certain features that make them what we refer to as "Knock-in Reverse Exchangeable Securities." This means that if the closing price of the Underlying Fund on the primary U.S. securities exchange or organized market for the Underlying Fund, which we refer to as the relevant exchange, never falls below a certain price level, which we call the knock-in level, on any trading day from but not including the pricing date to and including the determination date (such period, the "Knock-in Period"), then we will pay you in cash the principal amount of each Security at maturity. On the other hand, if the closing price of the Underlying Fund on the relevant exchange falls below its knock-in level on any trading day during the Knock-in Period, then the payment at maturity will depend on the closing price of the Underlying Fund on the determination date. In this latter case, if the closing price of the Underlying Fund on the determination date is equal to or greater than the initial price, we will pay you in cash the principal amount of each Security you hold; if the closing price of the Underlying Fund on the determination date is less than the initial price, we will deliver to you, in exchange for each $1,000 principal amount of Securities, a number of shares of the Underlying Fund equal to the Redemption Amount.

WHY IS THE INTEREST RATE ON THE SECURITIES HIGHER THAN THE INTEREST RATE PAYABLE ON YOUR CONVENTIONAL DEBT SECURITIES WITH THE SAME MATURITY?

The Securities offer a higher interest rate than the yield that would be payable on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating. This is because the investor in the Securities, indirectly sells a put option to us on the Underlying Fund shares. The premium due to you for this put option is combined with a market interest rate on our senior debt to produce the higher interest rate.

WHAT ARE THE CONSEQUENCES OF THE INDIRECT PUT OPTION THAT I HAVE SOLD YOU?

The put option you indirectly sell to us creates the feature of exchangeability. If the closing price of the Underlying Fund on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, and on the determination date the closing price per shares of the Underlying Fund is less than the initial price, you will receive a fixed number of shares of the Underlying Fund for each Security you hold, which we call the redemption amount. On the other hand, if the closing price of the Underlying Fund on the relevant exchange falls below the knock-in level, and on the determination date the closing price per Underlying Share is equal to or greater than the initial price, you will receive $1,000 for each Security you hold. Because of the exchangeability of the Securities, and because we will determine whether you will receive cash or Underlying Fund shares by reference to the closing price of the Underlying Fund on the determination date, such securities are generally referred to as "reverse exchangeable securities." However, because this feature of exchangeability is created only if the closing price of the Underlying Fund on the relevant exchange falls below the knock-in level on any trading day during the Knock-in Period, we call the Securities "Knock-in Reverse Exchangeable Securities."

PS-3

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES AND HOW IS THIS AMOUNT CALCULATED?

The payment, if any, you will receive at maturity for each $1,000 principal amount of Securities, is based on the performance of the Underlying Fund, and will consist of a cash payment calculated as follows:

i) If the closing price of the Underlying Fund on the primary U.S. exchange or market for such Underlying Fund has not fallen below the knock-in level on any trading day from but not including the pricing date to and including the determination date, we will pay you the principal amount of each Security in cash.

ii) If the closing price of the Underlying Fund on the primary U.S. exchange or market for such Underlying Fund has fallen below the knock-in level on any trading day from but not including the Pricing Date to and including the Determination Date:

a) in the event that the closing price of the Underlying Fund on the determination date is at or above the initial price, we will pay you the principal amount of each Security in cash; or

b) in the event that the closing price of the Underlying Fund on the determination date is below the initial price we will deliver to you a number of shares of the Underlying Fund equal to the Redemption Amount.

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the Underlying Fund are not available for delivery at maturity we may pay you, in lieu of the Redemption Amount, the cash value of the Redemption Amount, determined by multiplying the Redemption Amount by the Closing Price of the Underlying Fund on the Determination Date.

The payment at maturity is subject to adjustment in certain circumstances, which we describe in "Description of Securities -- Adjustment Events."

HOW ARE THE REDEMPTION AMOUNT AND KNOCK-IN LEVEL DETERMINED?

The Redemption Amount for each $1,000 principal amount of the Securities is equal to $1,000 divided by the initial price. Since shares of the Underlying Fund are held in book entry form, no stock certificates are issued. Accordingly, any shares of the Underlying Fund which are delivered to you will be delivered in book entry form and will include any fractional shares you are entitled to receive, after aggregating your total holdings of the Securities based on the closing price of the Underlying Fund on the determination date.

The knock-in level is 80% of the initial price.

The initial price and consequently the redemption amount and knock-in level are subject to adjustment for certain corporate events affecting the Underlying Fund, which we describe in "Description of Securities -- Adjustment Events."

WHAT INTEREST PAYMENTS CAN I EXPECT ON THE SECURITIES?

The Securities pay interest at a rate of 8.25% per annum. The interest rate is fixed at issue and is payable monthly in arrears. This means that irrespective of whether the Securities are exchanged at maturity for cash or the stock redemption amount, you will be entitled to monthly interest payments on the full principal amount of the Securities you hold, payable in cash. Interest on the Securities will be computed and accrue on the basis of a 360-day year of twelve 30-day months, or in the case of an incomplete month, the actual number of days elapsed from and including the most recent interest payment date, or if no interest has been paid, from the issue or other interest accrual date, to but excluding the earlier of the next interest payment date or the maturity date.

CAN YOU GIVE ME EXAMPLES OF THE PAYMENT I WILL RECEIVE AT MATURITY DEPENDING ON THE PERFORMANCE OF THE UNDERLYING FUND?

If, for example, in a hypothetical offering, the interest rate was 10% per annum, the initial price of the underlying fund was $145.00 per share and the knock-in level for such offering was 80% then the knock-in level would be $116.00 per share or 80% of the initial price and the redemption amount would be 6.897 shares of the Underlying Fund, or $1,000 divided by $145.00.

If the hypothetical closing price of that underlying fund had fallen below its knock-in level of $116.00 on any trading day from but not including the pricing date to and including the determination date, then payment at maturity would depend on the closing price of the Underlying Fund on the determination date. In this case, if the closing price of the Underlying Fund on the determination date is $136.00 per share, which is below the initial price,

you would receive 6.897 shares of the underlying fund for each $1,000 principal amount of the securities. Since shares of the Underlying Fund are held in book entry form we would deliver shares of the Underlying Fund in book entry form which allows us to deliver fractions of a share. You would receive on the maturity date for each $1,000 principal amount of the securities 6.897 shares of the underlying. In addition, over the life of the securities you would have received interest payments at a rate of 10% per annum.

IN THIS HYPOTHETICAL EXAMPLE, THE MARKET VALUE OF THOSE 6.897 SHARES OF THE UNDERLYING FUND THAT WE WOULD DELIVER TO YOU AT MATURITY FOR EACH $1,000 PRINCIPAL AMOUNT OF SECURITY WOULD BE $937.99, WHICH IS LESS THAN THE PRINCIPAL AMOUNT OF $1,000, AND YOU WOULD HAVE LOST A PORTION OF YOUR INITIAL INVESTMENT.

If, on the other hand, the closing price of the underlying fund on the determination date is $150.00 per share, which is above the initial price level, you will receive $1,000 in cash for each $1,000 principal amount of the securities regardless of the knock-in level having been breached. In addition, over the life of the Securities you would have received interest payments at a rate of 10% per annum.

Alternatively, if the closing price of the underlying fund never falls below its knock-in price on any trading day from but not including the pricing date to and including the determination date, at maturity you would receive $1,000 in cash for each $1,000 principal amount of the Securities you hold regardless of the closing price of the underlying fund on the determination date. In addition, over the life of the Securities you would have received interest payments of 10% per annum.

THESE EXAMPLES ARE FOR ILLUSTRATIVE PURPOSES ONLY AND ARE BASED ON A HYPOTHETICAL OFFERING. IT IS NOT POSSIBLE TO PREDICT THE CLOSING PRICE OF THE UNDERLYING FUND ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES. FOR EACH OFFERING WE WILL SET THE INITIAL PRICE AND KNOCK-IN LEVEL AND REDEMPTION AMOUNT (SUBJECT TO ADJUSTMENT FOR CERTAIN EVENTS AFFECTING THE UNDERLYING FUND) ON THE DATE WE PRICE THE SECURITIES, WHICH WE REFER TO AS THE PRICING DATE. IT IS NOT POSSIBLE, HOWEVER, TO PREDICT THE CLOSING PRICE OF THE UNDERLYING FUND ON THE DETERMINATION DATE OR AT ANY TIME DURING THE LIFE OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Sensitivity Analysis of Total Return of the Securities at Maturity" the total return of owning the Securities through maturity for various hypothetical closing prices of the Underlying Fund on the determination date in the case where the knock-in level has been breached and in the case where the knock-in level has not been breached.

DO I GET ALL MY PRINCIPAL BACK AT MATURITY?

YOU ARE NOT GUARANTEED TO RECEIVE ANY RETURN OF PRINCIPAL AT MATURITY. If the closing price of the Underlying Fund falls below the knock-in level on any trading day during the Knock-in Period, and the closing price of the Underlying Fund is below the initial price on the determination date, we will deliver to you shares of the Underlying Fund at maturity. The market value of those shares of the Underlying Fund at the time you receive those shares will be less than the principal amount of the Securities and could be zero.

IS THERE A LIMIT TO HOW MUCH I CAN EARN OVER THE LIFE OF THE SECURITIES?

Yes. The amount payable under the terms of the Securities will never exceed the principal amount of the Securities payable at maturity plus interest payments you earn over the life of the Securities.

DO I BENEFIT FROM ANY APPRECIATION IN THE UNDERLYING FUND OVER THE LIFE OF THE SECURITIES?

No. The amount paid at maturity for each $1,000 principal amount of the Securities will not exceed $1,000. As a result, if the Underlying Fund has appreciated above its price level on the pricing date, the payment you receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in $1,000 denominations or in integral multiples thereof.

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be limited. You should

be willing to hold your Securities until the maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging of the transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

TELL ME MORE ABOUT ABN AMRO BANK N.V.

ABN AMRO Bank N.V. is an international banking group offering a wide range of banking products and financial services worldwide through our network of offices and branches. ABN AMRO Holding N.V. is the parent company of ABN AMRO Bank N.V. Holding's main purpose is to own the Bank and its subsidiaries. All of the Securities issued by the Bank hereunder are fully and unconditionally guaranteed by Holding.

On November 2, 2007 a consortium (the "Consortium") of the Royal Bank of Scotland Group plc, Fortis SA/NV and Fortis N.V., and Banco Santander Central Hispano SA, which had made a tender offer for the shares of Holding, announced that approximately 98.8% of the shares of Holding had been tendered to the Consortium as of October 31, 2007.

Holding is no longer listed on Euronext or the New York Stock Exchange but files periodic reports with the SEC. ABN AMRO Bank N.V. is rated AA- by Standard & Poor's and Aa2 by Moody's

WHERE CAN I FIND OUT MORE ABOUT THE UNDERLYING FUND?

Because the Underlying Fund is an investment company registered under the Investment Company Act of 1940, as amended, the Underlying Fund is required to file periodically certain financial and other information specified by the Commission which is available to the public. You should read "Public Information Regarding the Underlying Fund" in this Pricing Supplement to learn how to obtain public information regarding the Underlying Fund and other important information. The historical highest intra-day price, lowest intra-day price and last day closing price of the Underlying Fund for each quarter since 2003 are set forth under the heading "Public Information Regarding the Underlying Fund" in this Pricing Supplement.

WHO WILL DETERMINE WHETHER THE CLOSING PRICE OF THE UNDERLYING FUND HAS FALLEN BELOW ITS KNOCK-IN LEVEL, THE CLOSING PRICE OF THE UNDERLYING FUND ON THE DETERMINATION DATE, THE REDEMPTION AMOUNT AND THE INITIAL PRICE?

We have appointed ABN AMRO Incorporated, which we refer to as AAI, to act as calculation agent for Wilmington Trust Company, the trustee for the Securities and Citibank, N.A., the securities administrator. As calculation agent, AAI will determine whether the closing price of the Underlying Fund has fallen below the knock-in level, the closing price of the Underlying Fund on the determination date, redemption amount and the initial price. The calculation agent may adjust the initial price of the Underlying Fund and consequently the redemption amount and knock-in level, which we describe in the section called "Description of Securities -- Discontinuance of the Underlying Fund; Alteration of Method of Calculation."

WHO INVESTS IN THE SECURITIES?

The Securities are not suitable for all investors. The Securities might be considered by investors who:

- seek a higher interest rate than the current dividend yield on the Underlying Fund or the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating;
- are willing to accept the risks associated with owning equity in the form of an exchange traded fund in general and shares of the Underlying Fund in particular and the risk that they could lose their entire investment;
- do not expect to participate in any appreciation in the price of the Underlying Fund; and

- and are willing to hold the Securities until maturity.

You should carefully consider whether the Securities are suited to your particular circumstances before you decide to purchase them. In addition, we urge you to consult with your investment, legal, accounting, tax and other advisors with respect to any investment in the Securities.

WHAT ARE SOME OF THE RISKS IN OWNING THE SECURITIES?

Investing in the Securities involves a number of risks. We have described the most significant risks relating to the Securities under the heading "Risk Factors" in this Pricing Supplement which you should read before making an investment in the Securities.

Some selected risk considerations include:

- CREDIT RISK. Because you are purchasing a security from us, you are assuming our credit risk. In addition, because the Securities are fully and unconditionally guaranteed by Holding, you are assuming the credit risk of Holding in the event that we fail to make any payment or delivery required by the terms of the Securities.

- PRINCIPAL RISK. The Securities are not principal protected, which means there is no guaranteed return of principal. If the closing price of the Underlying Fund falls below the knock-in level on any trading day during the Knock-in Period and the closing price of the Underlying Fund on the determination date is less than its initial price, we will deliver to you a fixed number of shares of the Underlying Fund with a market value less than the principal amount of the Securities which value may be zero.

- LIQUIDITY AND MARKET RISK. We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. The value of the Securities in the secondary market, if any, will be subject to many unpredictable factors, including then prevailing market conditions.

WHAT IF I HAVE MORE QUESTIONS?

You should read "Description of Securities" in this Pricing Supplement for a detailed description of the terms of the Securities. The Securities are senior notes issued as part of our ABN Notes(SM) program and guaranteed by Holding. The Securities offered by the Bank will constitute the Bank's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all our other present and future unsecured and unsubordinated obligations. The guarantee of Holding will constitute Holding's unsecured and unsubordinated obligations and rank pari passu without any preference among them and with all Holding's other present and future unsecured and unsubordinated obligations. You can find a general description of our ABN Notes(SM) program in the accompanying Prospectus Supplement. We also describe the basic features of this type of note in the sections called "Description of Notes" and "Notes Linked to Commodity Prices, Single Securities, Baskets of Securities or Indices".

You may contact our principal executive offices at Gustav Mahleraan 10, 1082 PP Amsterdam, The Netherlands. Our telephone number is (31-20) 628-9393.

RISK FACTORS

This section describes the most significant risks relating to the Securities. For a discussion of certain general risks associated with your investment in the Securities, please refer to the section entitled "Risk Factors" beginning on page S-3 of the accompanying prospectus supplement. YOU SHOULD CAREFULLY CONSIDER WHETHER THE SECURITIES ARE SUITED TO YOUR PARTICULAR CIRCUMSTANCES BEFORE YOU DECIDE TO PURCHASE THEM. IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

THE SECURITIES ARE NOT ORDINARY SENIOR NOTES; THERE IS NO GUARANTEED RETURN OF PRINCIPAL

The Securities combine limited features of debt and equity. The terms of the Securities differ from those of ordinary debt securities in that we will not pay you a fixed principal amount in cash at maturity if the closing price of the Underlying Fund has fallen below the knock-in level on any trading day during the Knock-in Period and, in addition, the closing price of the Underlying Fund is below the initial price on the determination date. In such event, we will exchange each Security you hold for a number of shares of the Underlying Fund equal to the redemption amount. Such shares will have a market value of less than the principal amount of the Securities, and such value may be zero. You cannot predict the future performance of the Underlying Fund based on its historical performance. ACCORDINGLY, YOU COULD LOSE SOME OR ALL OF YOUR INITIAL PRINCIPAL INVESTMENT IN THE SECURITIES.

INVESTMENT IN THE SECURITIES IS NOT THE SAME AS A DIRECT INVESTMENT IN THE STOCKS THAT COMPRISE THE S&P 500 INDEX(R) OR IN THE S&P 500 INDEX(R) OR IN THE SPDR TRUST, SERIES 1

An investment in the Securities is not the same as a direct investment in the stocks (or any other securities) that comprise the S&P 500 Index(R) or in the S&P 500 Index(R) or in the SPDR Trust, Series 1. This is due in part to the fact that the calculation agEnT does not adjust the valuation of the Underlying Fund, and therefore the return on the Securities, for the payment of cash dividends on the stocks (or any other securities) that comprise the S&P 500 Index(R) or the stocks held by the SPDR Trust, Series 1. IN addition, the return on your Securities could be less than if you had invested directly in the stocks (or any other securities) comprising the S&P 500 Index(R) or held by the Underlying Fund because you will only participate in the change in the value of thE Underlying Fund over the term of the Securities, the return on the Securities does not account for the return associated with the reinvestment of dividends that you would have received if you had invested directly in the stocks (or any other securities) comprising the Underlying Fund and because there are management fees charged by the Underlying Fund. You will not receive any payment of dividends on any of the stocks (or any other securities) comprising the Underlying Fund.

ADJUSTMENTS TO THE UNDERLYING FUND COULD ADVERSELY AFFECT THE VALUE OF THE SECURITIES

The objective of the Underlying Fund is to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P 500 Index(R). The Underlying Fund at any time will consist of as many stocks whicH comprise the S&P 500 Index(R), which we refer to as Index Securities, as is practicable. Periodically, S&P may (i) determine thaT total shares outstanding have changed in one or more component Index Securities due to secondary offerings, repurchases, conversions or other corporate actions; (ii) determine that the available float shares of one or more of the Index Securities may have changed due to corporate actions, purchases or sales of securities by holders or other events, or (iii) replace one or more Index Securities due to mergers, acquisitions, bankruptcies, or other market conditions, or if the issuers of such Index Securities fail to meet the criteria for inclusion in the S&P 500 Index(R). The Underlying Fund aggregates certain of these adjustments and changes thE composition of the Underlying Fund at least monthly. Any of these actions could adversely affect the prices of the Index Securities and/or the Underlying Fund and, consequently, the value of the Securities.

THE SECURITIES WILL NOT PAY MORE THAN THE STATED PRINCIPAL AMOUNT AT MATURITY

The amount paid at maturity of the Securities in cash or Underlying Fund shares will not exceed the principal amount of the Securities. If the closing price of the Underlying Fund on the determination date is equal to or exceeds the initial price (regardless of whether the knock-in level has been previously breached), you will receive the principal amount of the Securities irrespective of any appreciation in the share price of the Underlying Fund. You will not receive Underlying Fund shares or any other asset equal to the value of the shares of the Underlying Fund. As a result, if the Underlying Fund has appreciated above its closing price level on the pricing date, the payment you

receive at maturity will not reflect that appreciation. UNDER NO CIRCUMSTANCES WILL YOU RECEIVE A PAYMENT AT MATURITY GREATER THAN THE PRINCIPAL AMOUNT OF THE SECURITIES THAT YOU HOLD AT THAT TIME.

WE DO NOT INTEND TO LIST THE SECURITIES ON ANY SECURITIES EXCHANGE; SECONDARY TRADING MAY BE LIMITED

You should be willing to hold your Securities until the maturity date. We do not intend to list the Securities on any securities exchange; accordingly, there may be little or no secondary market for the Securities and information regarding independent market pricing for the Securities may be limited. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the Securities easily. Upon completion of the offering, our affiliate has informed us that it intends to purchase and sell the Securities from time to time in off-exchange transactions, but it is not required to do so. If our affiliate does make such a market in the Securities, it may stop doing so at any time. In addition, the total principal amount of the Securities being offered is not being purchased by investors in the offering, and one or more of our affiliates has agreed to purchase the unsold portion. Such affiliate or affiliates intend to hold the Securities for investment purposes, which may affect the supply of Securities available for secondary trading and therefore adversely affect the price of the Securities in any secondary trading. If a substantial portion of any Securities held by our affiliates were to be offered for sale following this offering, the market price of such Securities could fall, especially if secondary trading in such Securities is limited or illiquid.

MARKET PRICE OF THE SECURITIES INFLUENCED BY MANY UNPREDICTABLE FACTORS

The value of the Securities may move up and down between the date you purchase them and the determination date when the calculation agent determines the amount, if any, to be paid to the holders of the Securities on the maturity date.

Several factors, many of which are beyond our control, will influence the value of the Securities, including:

- the market price of the Underlying Fund, in particular, whether the market price of the Underlying Fund has fallen below the knock-in level;

- the volatility (frequency and magnitude of changes) in the price of the Underlying Fund;

- o the dividend rate on the Underlying Fund and the equity securities held by the Underlying Fund. While dividend payments, if any, on the Underlying Fund and the equity securities held by the Underlying Fund are not paid to holders of the Securities, such payments may have an influence on the market price of the Underlying Fund and therefore on the Securities;

- o interest and yield rates in the market;

- o economic, financial, political and regulatory or judicial events that affect the stock markets generally and which may affect the closing prices of the Underlying Fund and/or the Securities;

- o the time remaining to the maturity of the Securities; and

- o the creditworthiness of the Bank as issuer of the Securities and Holding as the guarantor of the Bank's obligations under the Securities. Any person who purchases the Securities is relying upon the creditworthiness of the Bank and Holding and has no rights against any other person. The Securities constitute the general, unsecured and unsubordinated contractual obligations of the Bank and Holding.

Some or all of these factors will influence the price that you will receive if you sell your Securities in the secondary market, if any, prior to maturity. For example, you may have to sell your Securities at a substantial discount from the principal amount if at the time of sale the market price of the Underlying Fund is at, below, or not sufficiently above its knock-in level. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices."

THE UNDERLYING FUND IS NOT ACTIVELY MANAGED

The Underlying Fund is not actively managed by traditional methods, and therefore the adverse financial condition of one or more issuers of stocks which comprise the S&P 500 Index(R) will not result in the elimination of such stock or stocks from the UnderlyinG Fund unless such stock or stocks are removed from the S&P 500 Index(R). Because payment, if any, at maturity of the Securities iS linked to the performance of the Underlying Fund, this may adversely affect the value of the Securities and the return, if any, on the Securities.

THE UNDERLYING FUND MAY NOT ALWAYS BE ABLE EXACTLY TO REPLICATE THE PERFORMANCE OF THE S&P 500 INDEX

It is possible that, for a short period, the Underlying Fund may not fully replicate the performance of the S&P 500 Index due to the temporary unavailability of certain Index Securities in the secondary market or due to other extraordinary circumstances. In addition, the Underlying Fund is not able to replicate exactly the performance of the S&P 500 Index because the total return generated by the Underlying Fund is reduced by its expenses and transaction costs incurred in adjusting the actual balance of the Underlying Fund. Because payment, if any, at maturity of the Securities is linked to the performance of the Underlying Fund, this may adversely affect the value of the Securities and the return, if any, on the Securities.

THE INCLUSION OF COMMISSIONS AND COST OF HEDGING IN THE ISSUE PRICE IS LIKELY TO ADVERSELY AFFECT SECONDARY MARKET PRICES

Assuming no change in market conditions or any other relevant factors, the price, if any, at which the selling agents are willing to purchase Securities in secondary market transactions will likely be lower than the issue price, since the issue price included, and secondary market prices are likely to exclude, commissions paid with respect to the Securities, as well as the profit component included in the cost of hedging our obligations under the Securities. In addition, any such prices may differ from values determined by pricing models used by the selling agents, as a result of dealer discounts, mark-ups or other transaction costs.

AN INCREASE IN THE VALUE OF THE UNDERLYING FUND WILL NOT INCREASE THE RETURN ON YOUR INVESTMENT

Owning the Securities is not the same as owning the Underlying Fund. Accordingly, the market value of your Securities may not have a direct relationship with the market price of the Underlying Fund, and changes in the market price of the Underlying Fund may not result in a comparable change in the market value of your Securities. If the price per share of Underlying the Fund increases above its initial price, the market value of the Securities may not increase. It is also possible for the price of the Underlying Fund to increase while the market price of the Securities declines.

WE MAY NOT BE ABLE TO DELIVER SHARES OF THE UNDERLYING FUND AT MATURITY

If due to events beyond our reasonable control, as determined by us in our sole discretion, shares of the Underlying Fund are not available for delivery at maturity we may pay you, in lieu of the Redemption Amount, the cash value of the Redemption Amount, determined by multiplying the Redemption Amount by the Closing Price of the Underlying Fund on the Determination Date. Accordingly, if you have sold Underlying Fund shares and your sale is to settle on the maturity date or you have otherwise agreed to deliver Underlying Fund shares on the maturity date, your trade may fail in the event we do not deliver shares of the Underlying Fund to you.

POTENTIAL CONFLICTS OF INTEREST; NO SECURITY INTEREST IN SHARES OF THE UNDERLYING FUND HELD BY US

We and our affiliates may carry out hedging activities that minimize our risks related to the Securities, including trading in shares of the Underlying Fund. In particular, on or prior to the date of this Pricing Supplement, we, through our affiliates, hedged our anticipated exposure in connection with the Securities by taking positions in the Underlying Fund, futures or options contracts on Underlying Fund listed on major securities markets, and/or other instruments that we deemed appropriate in connection with such hedging. Such hedging is carried out in a manner designed to minimize any impact on the price of the Underlying Fund. Our purchase activity, however, could potentially have increased the initial price of the Underlying Fund, and therefore inadvertently increased the level

below which we would deliver to you at maturity cash in an amount less than the principal amount of your Securities.

Through our affiliates, we are likely to modify our hedge position throughout the life of the Securities by purchasing and selling shares of the Underlying Fund, futures or options contracts on the Underlying Fund listed on major securities markets or positions in other securities or instruments that we may wish to use in connection with such hedging. Although we have no reason to believe that our hedging activity or other trading activities that we, or any of our affiliates, engage in or may engage in has had or will have a material impact on the price of the Underlying Fund, we cannot give you any assurance that we have not or will not affect such price as a result of our hedging or trading activities. It is possible that we or one of more of our affiliates could receive substantial returns from these hedging activities while the value of the Securities may decline. We or one or more of our affiliates may also engage in trading shares of the Underlying Fund and other investments relating to the Underlying Fund on a regular basis as part of our or its general broker-dealer and other businesses, for proprietary accounts, for other accounts under management or to facilitate transactions for customers, including block transactions. Any of these activities could adversely affect the price of the Underlying Fund and, therefore, the value of the Securities. We or one or more of our affiliates may also issue or underwrite other securities or financial or derivative instruments with returns linked or related to changes in the value of the Underlying Fund. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely affect the value of the Securities. It is also possible that any advisory services that we or our affiliates provide in the course of any business with the issuers of any of the stocks which comprise the Underlying Fund or their affiliates could lead to actions on the part of an issuer of any of the stocks that comprise the Underlying Fund which might adversely affect the value of the Underlying Fund.

The indenture governing the Securities does not contain any restrictions on our ability or the ability of any of our affiliates to sell, pledge or otherwise convey all or any portion of the shares of the Underlying Fund acquired by us or our affiliates. Neither we nor Holding nor any of our affiliates will pledge or otherwise hold shares of the Underlying Fund for the benefit of holders of the Securities in order to enable the holders to exchange their Securities for shares of the Underlying Fund under any circumstances. Consequently, in the event of a bankruptcy, insolvency or liquidation involving us or Holding, as the case may be, any shares of the Underlying Fund that we or Holding own will be subject to the claims of our creditors or Holding's creditors generally and will not be available specifically for the benefit of the holders of the Securities.

NO SHAREHOLDER RIGHTS IN THE UNDERLYING FUND

As a holder of the Securities, you will not have voting rights or rights to receive dividends or other distributions or other rights that holders of shares of the Underlying Fund would have.

Because neither we nor Holding nor any of our affiliates are affiliated with the sponsor or trustee of the Underlying Fund, we have no ability to control or predict the actions of such entities, including any actions of the type that would require the calculation agent to adjust the initial price and consequently the knock-in level and payment at maturity, and have no ability to control the public disclosure of these actions or any other events or circumstances affecting such entities. NEITHER THE UNDERLYING FUND NOR THE SPONSOR OF THE UNDERLYING FUND IS INVOLVED IN THE OFFER OF THE SECURITIES IN ANY WAY AND HAVE ANY OBLIGATION TO CONSIDER YOUR INTEREST AS A HOLDER OF THE SECURITIES IN TAKING ANY CORPORATE ACTIONS THAT MIGHT AFFECT THE VALUE OF YOUR SECURITIES. NONE OF THE MONEY YOU PAY FOR THE SECURITIES WILL GO TO THE UNDERLYING FUND OR THE SPONSOR OF THE UNDERLYING FUND.

INFORMATION REGARDING THE UNDERLYING FUND

Neither we nor Holding nor any of our affiliates assume any responsibility for the accuracy or adequacy of the information about the Underlying Fund contained in this Pricing Supplement or in any of its publicly available filings. AS AN INVESTOR IN THE SECURITIES, YOU SHOULD MAKE YOUR OWN INVESTIGATION INTO THE UNDERLYING FUND. NEITHER WE NOR HOLDING NOR ANY OF OUR AFFILIATES HAVE ANY AFFILIATION WITH THE UNDERLYING FUND, AND ARE NOT RESPONSIBLE FOR ITS PUBLIC DISCLOSURE OF INFORMATION, WHETHER CONTAINED IN SEC

FILINGS OR OTHERWISE.

LIMITED ANTIDILUTION PROTECTION

AAI, as calculation agent, will adjust the initial price and consequently the payment at maturity and knock-in level for certain events affecting the Underlying Fund. The calculation agent is not required to make an adjustment for every corporate action which affects the Underlying Fund. IF AN EVENT OCCURS THAT DOES NOT REQUIRE THE CALCULATION AGENT TO ADJUST THE AMOUNT PAYABLE AT MATURITY, THE MARKET PRICE OF THE SECURITIES MAY BE MATERIALLY AND ADVERSELY AFFECTED.

HOLDINGS OF THE SECURITIES BY OUR AFFILIATES AND FUTURE SALES

Certain of our affiliates have agreed to purchase for investment the portion of the Securities that has not been purchased by investors in this offering, which initially they intend to hold for investment purposes. As a result, upon completion of this offering, our affiliates may own a substantial portion of the aggregate principal amount of the Securities. Circumstances may occur in which our interests or those of our affiliates could be in conflict with your interests.

POTENTIAL CONFLICTS OF INTEREST BETWEEN HOLDERS OF SECURITIES AND THE CALCULATION AGENT

As calculation agent, AAI will calculate the payout, if any, to you at maturity of the Securities. AAI and other affiliates may carry out hedging activities related to the Securities, including trading in shares of the Underlying Fund, as well as in other instruments related to the Underlying Fund. AAI and some of our other affiliates also trade the Underlying Fund on a regular basis as part of their general broker dealer businesses. Any of these activities could influence AAI's determinations as calculation agent and any such trading activity could potentially affect the price of the Underlying Fund and, accordingly could affect the payout on the Securities. AAI IS AN AFFILIATE OF ABN AMRO BANK N.V.

In addition, if certain events occur as defined under "Description of Securities -- Discontinuance of the Underlying Fund; Alteration of Method of Calculation" the calculation agent may adjust the initial price and consequently the knock-in level and amount, if any, payable at maturity to reflect such event. The calculation agent's adjustment to the Securities may be influenced by, among other things, our or our affiliates' hedging transactions with respect to the Securities and our or their ability to hedge our obligations under the Securities following those reorganization events. While we do not currently anticipate the occurrence of such an event, there can be no assurance that such an event will not occur or that the calculation agent's adjustments upon such an event will not adversely affect the value of the Securities.

Moreover, the issue price of the Securities includes the agents' commissions and certain costs of hedging our obligations under the Securities. Our affiliates through which we hedge our obligations under the Securities expect to make a profit. Since hedging our obligations entails risk and may be influenced by market forces beyond our affiliates' control, such hedging may result in a profit that is more or less than initially projected.

TAX TREATMENT

You should also consider the tax consequences of investing in the Securities. Significant aspects of the tax treatment of the Securities are uncertain. We do not plan to request a ruling from the U.S. Internal Revenue Service (the "IRS") or from the Dutch authorities regarding the tax treatment of the Securities, and the IRS, the Dutch authorities or a court may not agree with the tax treatment described in the accompanying Prospectus Supplement or this Pricing Supplement. Please read carefully the sections entitled "United States Federal Taxation" below and "Taxation in the Netherlands" in the accompanying Prospectus Supplement. You should consult your tax advisor about your own situation.

THE SPDR TRUST, SERIES 1 DISCLAIMER

The Securities are not sponsored, endorsed, sold or promoted by the Underlying Fund, the Sponsor or the Trustee of the Underlying Fund or any of its or their affiliates (together referred to as the Fund Parties) and none of the Fund Parties makes any representation or warranty, express or implied, regarding the advisability of investing in securities generally or the Securities particularly. None of the Fund Parties has any obligation to take the needs of

the holders of the Securities into consideration in determining, comprising or calculating the Underlying Fund. None of the Fund Parties is responsible for and has not participated in any determination or calculation made with respect to issuance or redemption of the Securities. None of the Fund Parties has any obligation or liability in connection with the administration, marketing or trading of the Securities.

HYPOTHETICAL TOTAL RETURN OF THE SECURITIES AT MATURITY

The following tables set out the total return to maturity of a Security, based on the assumptions outlined below and several variables, which include (a) whether the closing price of the Underlying Fund has fallen below the knock-in level on any trading day during the Knock-in Period and (b) several hypothetical closing prices for the Underlying Fund on the determination date. The information in the tables is based on hypothetical market values for the Underlying Fund. We cannot predict the market price or the closing price of the Underlying Fund on the determination date or at any time during the life of the

Securities. THE ASSUMPTIONS EXPRESSED BELOW ARE FOR ILL
