Registration Statement No. 333-161668
Filed Pursuant to Rule 433 of the
Securities Act of 1933

Statements contained in this presentation that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Also, when we use any of the words “anticipate,” “assume,” “believe,” “estimate,” “expect,” “intend,” or similar expressions, we are making forward-looking statements. These forward-looking statements are not guarantees and are based on our current intentions and current expectations and assumptions. These statements, intentions, expectations and assumptions involve risks and uncertainties, some of which are beyond our control that could cause actual results or events to differ materially from those we anticipate or project, such as: the ability of our tenants to make payments under their respective leases; our reliance on certain major tenants and our ability to re-lease properties that are currently vacant or that become vacant; our ability to obtain suitable tenants for our properties; changes in real estate market conditions and general economic conditions; the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations and illiquidity of real estate investments; our ability to sell properties at an attractive price; our ability to repay debt financing obligations; our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us; the loss of any member of our management team; our ability to comply with certain debt covenants; our ability to integrate acquired properties and operations into existing operations; continued availability of debt or equity capital; market conditions affecting our equity capital; changes in interest rates under our current credit facilities and under any additional variable rate debt arrangements that we may enter into in the future; our ability to implement successfully our selective acquisition strategy; our ability to maintain internal controls and procedures to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations and any potential fraud or embezzlement is thwarted or detected; changes in federal or state tax rules or regulations that could have adverse tax consequences; and our ability to qualify as a real estate investment trust for federal income tax purposes. You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. We undertake no obligation to update or revise any forward-looking statements as a result of new information, future events or otherwise. Monmouth Real Estate Investment Corporation (“Monmouth”) has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents Monmouth has filed with the SEC for more complete information about Monmouth and this offering. Funds From Operations

Funds from operations (“FFO”) is defined as net income (computed in accordance with generally accepted accounting principles), excluding preferred dividends and gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. The Company believes that FFO is helpful to investors as one of several measures of the performance of a REIT. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company’s financial performance. FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company’s FFO is calculated as follows:

- (1) Consists of the gain on sale of the Franklin, MA and Ramsey, NJ properties in 2008 and the South Brunswick, NJ property in 2007. These gains (losses) are included in discontinued operations.
-

Funds Available for Distribution

Funds Available from Distribution (“FAD”) is defined as net income (computed in accordance with generally accepted accounting principles), excluding preferred dividends and gains or losses from sales of depreciable assets, plus real estate-related amortization, plus (Gain) loss on securities transactions, net, plus other non-real estate amortization, less straight-line capital expenditures . FAD should be considered as a supplemental measure of operating performance used by REITs.

The Company believes that FAD is helpful to investors as one of several measures of the performance of a REIT. FAD excludes depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items are significant components in understanding the Company’s financial performance.

FAD (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FAD, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company’s FAD is calculated as follows:
