**Spartan Stores Reports Fiscal 2004 Second-Quarter Financial Results;  
Financial Trends Improve Significantly**

*Positive sales trend continues for second consecutive quarter  
Consolidated net sales increase 3.8 percent*

GRAND RAPIDS, MICHIGAN--October 15, 2003--Spartan Stores, Inc., (Nasdaq: SPTN) today reported financial results for its fiscal 2004 second quarter ending September 13, 2003.

Second-quarter consolidated net sales increased 3.8 percent to \$491.4 million from last year's second-quarter sales of \$473.3 million. The sales increase represents the second consecutive quarter of year-over-year sales improvement and is the result of continuing positive retail comparable-store trends and an increase in distribution sales. The Company's renewed marketing, merchandising, and initial category management efforts, along with incremental sales from three new stores opened in fiscal 2003's third quarter, contributed to the sales improvement.

The Company reported second-quarter operating earnings of \$7.3 million, which reverses the trend of operating losses reported by the Company in the previous three quarters. The sequential improvement in the operating results was due to improved fixed cost leverage and improving gross margin rates in the retail division. On a year-over-year basis, second-quarter operating earnings declined by \$2.0 million primarily due to stronger promotional programs and the performance of stores open for less than one year.

Second-quarter net earnings, including discontinued operations, were \$1.8 million, or \$0.09 per diluted share, compared to a net loss of \$0.6 million, or \$(0.03) per diluted share, in last year's second quarter. Net earnings from continuing operations were \$2.7 million, or \$0.14 per diluted share, compared with \$4.0 million, or \$0.20 per diluted share, in fiscal 2003's second quarter.

Retail net sales for the quarter increased 3.9 percent to \$230.5 million from last year's \$221.8 million, representing the second consecutive quarter of significant retail sales improvement. Second-quarter comparable-store sales increased 0.7 percent, representing the second consecutive quarter of positive same-store sales growth. Grocery distribution net sales for the quarter increased 3.7 percent to \$260.9 million from last year's \$251.5 million.

"We are pleased to report that our positive retail and distribution sales momentum continued for the second quarter in a row despite very challenging market conditions," said Spartan Stores' President and Chief Executive Officer, Craig C. Sturken. "We are making strong progress on each of our top priorities, particularly with our sales growth initiatives. Restoring retail profitability has also been a top priority, and we are proud to have achieved a \$4.3 million retail operating profit in the second quarter. Our distribution business also remains solidly profitable.

"The swift financial and operational performance improvements are a direct result of the many operational changes made early in fiscal 2004's first quarter and the extraordinary efforts of our associates. The sales trends have continued to improve with the roll out of new retail and distribution merchandising and marketing programs and with the initial improvement in our category management practices. We continue to report particular strength in our retail comparable-store sales results, indicating that our merchandising and strategic changes are producing the desired positive outcome. Distribution sales are also improving as we gain new accounts and increase penetration with existing customers by delivering better services and programs that help customers improve their competitive market position."

Gross margin for the second quarter declined 10 basis points to 19.0 percent from 19.1 percent in last year's second quarter due to increased promotional activity. On a sequential quarter basis, however, the second quarter represented an increase in the overall gross profit margin rate of 50 basis points primarily due to the initial roll out of new merchandising and promotional programs in the retail division.

Second-quarter operating expenses increased \$4.7 million to \$86.1 million from \$81.4 million in the previous year's period. The increase was primarily due to higher operating costs associated with an increase in sales volumes, three new stores, insurance and higher advertising costs related to the Company's elimination of a joint retail and wholesale marketing program in fiscal 2003's third quarter. As a percentage of sales, operating expenses rose to 17.5 percent compared with 17.2 percent for the corresponding period last year.

For the 24-weeks ending September 13, 2003, the Company reported a 3.2 percent increase in consolidated net sales to \$953.9 million compared with \$924.8 million in last year's 24-week period. Operating earnings for the 24-week period were \$6.4 million compared with \$16.3 million in the corresponding period last year. Net loss for the year-to-date period, including the discontinued operations and the cumulative effect of a change in accounting principle, narrowed to \$4.3 million, or \$(0.22) per diluted share, compared with \$44.3 million, or \$(2.24) per diluted

share in the same period last year.

As the Company continued efforts to de-leverage its balance sheet, long-term debt, including current maturities, declined 15.6 percent to \$141.4 million as of September 13, 2003 from \$167.6 million at the end of fiscal 2004's first quarter. Working capital employed by the Company also declined by 17.5 percent to \$35.3 million at September 13, 2003 from \$42.8 million at June 21, 2003. The lower investment in working capital was due to the Company's continued effort to more efficiently manage inventory and the disposition of its Food Town grocery store operations.

Mr. Sturken explained, "We continue to expect sales and gross profit margins to improve during the remainder of fiscal 2004. Our cost reduction initiatives should also become more evident as we progress through the second half of fiscal 2004."

A telephone conference call to discuss the Company's second-quarter results is scheduled for 9:00 a.m. Eastern Time, Thursday, October 16, 2003. A live webcast of this conference call will be available on the Company's website, [www.spartanstores.com](http://www.spartanstores.com). Simply click on "Investor Information" and follow the links to the live webcast. The webcast will remain available for replay on the Company's website for approximately ten days.

Grand Rapids, Michigan-based Spartan Stores, Inc., (Nasdaq:SPTN) is the nation's ninth largest grocery distributor with warehouse facilities in Grand Rapids and Plymouth, Michigan. The Company distributes more than 40,000 private-label and national brand products to 330 independent grocery stores in Michigan. Spartan Stores also owns and operates 54 retail supermarkets and 21 deep-discount drug stores in Michigan and Ohio, including Ashcraft's Markets, Family Fare Supermarkets, Glen's Markets, Great Day Food Centers, Prevo's Family Markets and The Pharm.

This press release contains forward-looking statements about Spartan Stores' plans, strategies, objectives, goals, or expectations. These forward-looking statements are identifiable by words or phrases indicating that Spartan Stores or its management "expects," "anticipates," "projects," "plans," "believes," "estimates," "intends," or is "optimistic" or "confident", that a particular occurrence "will," "may," "could," "should," or "will likely" occur or that a particular event "will," "may," "should," "could" "is contingent upon," "is expected to" or "will likely" occur in the future or that there is a "trend" or "indications" toward, or "on track" toward a particular result or occurrence or similarly stated expectations. Accounting estimates, including but not limited to asset impairment charges, exit cost accruals and insurance loss reserves, are inherently forward-looking statements. These forward-looking statements are subject to a number of factors that could cause actual results to differ materially. Our ability to strengthen our retail store performance; improve sales growth; increase gross margin; reduce operating cost structures; improve financial and operational performance; satisfy contractual requirements and
