**PROXY STATEMENT
2005 Annual Meeting of Shareholders**

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Key Technology, Inc. (the "Company") of proxies to be voted at the 2005 Annual Meeting of Shareholders of the Company to be held beginning at 8:00 a.m. on Wednesday, February 2, 2005 at the Company's executive offices located at 150 Avery Street, Walla Walla, Washington, and at any adjournments or postponements thereof. If proxies in the accompanying form are properly executed, dated and returned prior to the voting at the meeting, the shares represented thereby will be voted as instructed on the proxy. If no instructions are given, shares will be voted FOR the nominees for election as director. The persons named as proxies will use their discretionary authority on such other business as may properly come before the meeting or any adjournments or postponements thereof.

Any proxy may be revoked by a shareholder prior to its exercise upon written notice to the Secretary of the Company, by delivering a duly executed proxy bearing a later date, or by the vote of a shareholder cast in person at the Annual Meeting. The cost of soliciting proxies will be borne by the Company. American Stock Transfer & Trust Company has been retained by the Company to act as registrar and transfer agent, in return for which the Company pays a monthly fee of \$833.00. Its services also include the solicitation of voted proxies from brokers, nominees, institutions and individuals. In addition to solicitation by mail, proxies may be solicited personally, without additional compensation, by the Company's officers and employees or by telephone, facsimile, electronic transmission or express mail. The Company will reimburse brokerage houses, banks and other custodians, nominees and fiduciaries for their reasonable expenses incurred in forwarding proxies and proxy material to their principals. This proxy statement and the accompanying form of proxy are first being mailed to shareholders on or about January 5, 2005.

VOTING

Holders of record of the Company's Common Stock and Series B Convertible Preferred Stock on December 3, 2004 will be entitled to vote at the Annual Meeting or any adjournments or postponements thereof. As of that date, there were, on an as-converted basis, 5,083,752 shares of Common Stock outstanding and entitled to vote, which amount includes 126,379 shares of Series B Preferred, converted for voting purposes to 84,252 shares of Common Stock. A majority of outstanding shares as of December 3, 2004, or 2,541,877 shares, will constitute a quorum for the transaction of business at the Annual Meeting. Each share of Common Stock entitles the holder to one vote on the election of directors and on any other matter that may properly come before the meeting. The Series B Preferred is entitled,

on an as-converted basis, to the same voting rights as the Common Stock, with one vote for each share as converted to Common Stock. Both the Common Stock and the Series B Preferred vote together as a single class on all matters. Abstentions and broker non-votes will be counted toward the quorum requirement for the Annual Meeting, but will not be counted for or against any proposal. Directors are elected by a plurality of the votes cast by holders of the shares entitled to vote in the election at a meeting at which a quorum is present. All other matters will be approved if the number of votes cast by such holders in favor of the proposal exceeds the number of votes cast opposing the proposal. Shareholders are not entitled to cumulative voting in the election of directors.

ITEM 1 ELECTION OF DIRECTORS

The Board of Directors is composed of six directors. The directors are divided into three classes, each of which is comprised of two directors. One class is elected each year for a three-year term. The two nominees recommended by the Nominating and Corporate Governance Committee and nominated by the Board of Directors for election as directors at this year's Annual Meeting, to serve until the Annual Meeting of Shareholders in 2008 or until their respective successors are elected and qualified, are Thomas C. Madsen and Kirk W. Morton.

Unless marked otherwise, proxies received will be voted FOR the election of each of the nominees.

If a nominee is unable or unwilling to serve as a director at the date of the Annual Meeting or any adjournment or postponement thereof, the proxies may be voted for a substitute nominee designated by the proxy holders or by the present Board of Directors to fill such vacancy, or for the other nominee named without nomination of a substitute, or the number of directors on the Board may be reduced accordingly. The Board of Directors has no reason to believe that either of the nominees will be unwilling or unable to serve if elected a director.

The Board of Directors recommends a vote FOR the election of Messrs. Madsen and Morton.

The following table sets forth certain information about each nominee for election to the Company's Board of Directors, each continuing director and each executive officer who is not also a director. During fiscal 2004, the Board of Directors held four meetings. No director attended fewer than 75% of the total number of meetings of the Board of Directors and the committees of which he was a member during the period of such director's service for fiscal 2004.

The Board of Directors does not currently have a policy with regard to the attendance of board members at its annual meeting of shareholders. All of the six then-current directors attended the Company's 2004 Annual Meeting of Shareholders.

The Board of Directors has determined that a majority of its directors presently meet the independence standards under the applicable Nasdaq rules. These directors are Messrs. Pelo, Shannon, Stonecipher, and Washburn.

The Audit Committee consists of three members, Mr. Pelo, Chairman, Mr. Stonecipher, and Mr. Washburn. Mr. Stonecipher was appointed to the Audit Committee in August 2004. All of the Audit Committee members are currently independent, as defined under the rules of The Nasdaq Stock Market. The Audit Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at www.key.net. The function of the Audit Committee is to review the performance and recommend to the Board of Directors the appointment of the Company's independent public accountants, to review and approve the scope and proposed cost of the yearly audit, to review the financial information provided to shareholders and others, to review the Company's internal controls, and to consult with and review recommendations made by the Company's independent public accountants with respect to financial statements, financial records and internal controls, and to make such

other recommendations to the Board of Directors as it deems appropriate from time-to-time. The Audit Committee met eleven times during fiscal 2004.

The Compensation Committee consists of two members, Mr. Shannon, Chairman, and Mr. Washburn. The Compensation Committee operates under a written charter adopted by the Board of Directors, which is available on the Company's website at www.key.net. The Compensation Committee is charged with reviewing and approving corporate goals and objectives relevant to compensation of the Company's Chief Executive Officer, evaluating the Chief Executive Officer's performance in light of those goals and objectives, and determining and approving the compensation level of the Chief Executive Officer based on this evaluation. The Compensation Committee is also charged with, among other matters, considering and making recommendations to the Board of Directors regarding the compensation of the senior executives of the Company; and considering, reviewing and granting awards under stock incentive plans and administering such plans. The Compensation Committee met three times during fiscal 2004.

The newly-formed Nominating and Corporate Governance Committee consists of four members, Mr. Washburn, Chairman, Mr. Pelo, Mr. Shannon, and Mr. Stonecipher, all of whom were appointed by the full Board of Directors and are independent directors as defined under the rules of the Nasdaq Stock Market. The Nominating and Corporate Governance Committee operates under a written charter, adopted by the Board of Directors on November 17, 2004 as presented in Appendix A. The charter is available on the Company's website at www.key.net. The Nominating and Corporate Governance Committee met three times during fiscal 2004.

The Nominating and Corporate Governance Committee receives suggestions for potential director nominees from many sources, including members of the Board, advisors, and shareholders. Any such nominations, together with appropriate biographical information, should be submitted to the Nominating and Corporate Governance Committee in accordance with the Company's policies governing submissions of nominees discussed below. Any candidates submitted by a shareholder or shareholder group are reviewed and considered by the Nominating and Corporate Governance Committee in the same manner as all other candidates.

Qualifications for consideration as a board nominee may vary according to the particular areas of expertise being sought as a complement to the existing board composition. However, minimum qualifications include high level leadership experience in business activities, breadth of knowledge about issues affecting the Company, experience on other boards of directors, preferably public company boards, and time available for meetings and consultation on Company matters. The Nominating and Corporate Governance Committee seeks a diverse group of candidates who possess the background, skills and expertise to make a significant contribution to the Board, to the Company and its shareholders. The Nominating and Corporate Governance Committee, in addition to any other board members as may be desirable, evaluate potential nominees, whether proposed by shareholders or otherwise, by reviewing their qualifications, reviewing results of personal and reference interviews and reviewing such other information as may be deemed relevant. Candidates whose evaluations are favorable are then chosen by a majority of the members of the Nominating and Corporate Governance Committee to be recommended for selection by the Board of Directors. The Board of Directors selects and recommends candidates for nomination as directors for shareholders to consider and vote upon at the annual meeting. The Company does not currently employ an executive search firm, or pay a fee to any other third party to locate qualified candidates for director positions.

A shareholder wishing to nominate a candidate for election to the Company's Board of Directors at any annual meeting at which the Board of Directors has determined that one or more directors will be elected shall submit a written notice of his or her nomination of a candidate to the Company's Secretary at its principal executive offices. The submission must be received at the Company's principal executive offices not less than 120 calendar days before the date the Company's proxy statement was released to shareholders in connection with the previous year's annual meeting. For the 2006 annual meeting, this date would be September 7, 2005. However, if the Company did not hold an annual meeting the previous year, or if the date of this year's annual meeting has been changed by more than 30 days from the date of the previous year's meeting, then the deadline is a reasonable time before the Company begins to print and mail its proxy materials.

A shareholder's notice to the Secretary in order to be valid must set forth (i) the name and address, as they appear on the Company's books, of the shareholder nominating such candidate; (ii) the class and number of shares of the Company which are beneficially owned by the shareholder; (iii) the name, age, business address and residence address of each nominee proposed in the notice; (iv) the principal occupation or employment of the nominee; (v) the class and number of shares of the Company stock beneficially owned by the nominee, if any; (vi) a description of all arrangements or understandings between the shareholder and each nominee and any other persons pursuant to which the shareholder is making the nomination; and (vii) any other information required to be disclosed in solicitations of proxies for election of directors or information otherwise required pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, relating to any person that the shareholder proposes to nominate for election or re-election as a director, including the nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected.

Compensation of Directors

The member of the Board of Directors who is an employee of the Company is not separately compensated for serving on the Board of Directors. Independent directors are paid an annual retainer of \$12,000 plus reimbursement of expenses. To reflect additional responsibilities of the chairman of the Audit Committee, the chairman of the Audit Committee receives an additional annual retainer of \$2,500. Subject to the terms of the Company's 2003 Restated Employees' Stock Incentive Plan, independent directors are granted annual non-statutory stock options to purchase 5,000 shares of Common Stock at the current market price on the date of grant. Mr. Madsen, who is a consultant to the Company, is also granted an annual non-statutory stock option to purchase 5,000 shares of Common Stock at the current market price on the date of grant.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

On July 14, 2003, the Company entered into a Consulting Agreement with Thomas C. Madsen to be in effect from January 1, 2004 through December 31, 2006. The agreement provides for a monthly fee of \$6,250 to be paid to Mr. Madsen, wherein Mr. Madsen, as an independent contractor, is responsible for all attributable taxes. The agreement contains a non-compete provision whereby Mr. Madsen will not solicit for hire or assist others in the solicitation for hire of any employees of the Company, or engage in any activity, whether directly or through or on behalf of one or more entities or other persons, that competes directly or indirectly with any product or service provided by the Company to its customers in any geographic region then served by the Company.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

With respect to fiscal 2004, the Compensation Committee of the Board of Directors reviewed and assumed responsibility for oversight of the determination of the salary, incentive and stock option compensation for the executive officers of the Company. The two members of the Compensation Committee are not eligible to participate in any of the Company's incentive compensation plans, but did receive nondiscretionary grants under the Company's 2003 Restated Employees' Stock Incentive Plan. Mr. Morton made recommendations to the members of the Compensation Committee regarding the compensation of the other executive officers of the Company, but did not participate in the determination of his own compensation. As used in this report, the term "Compensation Committee" refers to Messrs. Shannon and Washburn.

It is the Company's policy to offer competitive compensation opportunities for its employees based on a combination of factors, including corporate performance, business unit performance and the individual's personal contribution to the business. There are three basic elements to executive officer compensation: base salary, management incentive compensation, and stock incentives in the form of stock options granted at market value.

Base Salary

In reaching the determinations concerning fiscal 2004 executive officer base salaries, the Compensation Committee considered the recommendations of the Chief Executive Officer, individual performance, and the Company's financial performance.

Management Incentive Compensation

The Company's bonus program, in the form of its Management Incentive Plan, is designed to tie executive compensation to the Company's performance. The program blends objective factors for

funding the Management Incentive Plan with subjective evaluations of each participant's contributions to the success of the Company.

In fiscal year 2004, the Company re-evaluated the structure of its Management Incentive Plan bonus program. A single metric - Net Income, measured as a percentage of sales - replaced the dual metrics that the Company had used in fiscal year 2003. An annual goal was established for the Company's consolidated results and, if a minimum target percentage for Net Income as a percentage of total revenue was reached, eligible executives and other individuals would have earned bonuses equal to a pre-determined percentage of the individual's base salary. If the Company's results exceeded the minimum, successively higher levels of return on sales would have led to higher percentages of the individual's base salary being paid in bonus.

In addition to the minimum target percentage for return on sales, payment of bonuses would also be conditioned on the attainment of Net Income, measured in dollars, greater than a predetermined percentage of the prior year's Net Income, also measured in dollars.

For fiscal year 2004, the Company's Net Income did not meet the minimum percentage of sales required in order to trigger payment under the Management Incentive Plan and no bonuses were paid.

Stock Incentive Compensation

The Compensation Committee believes that stock ownership by executive officers and key employees provides valuable incentives for such persons to benefit as the Company's Common Stock price increases and that stock option-based incentive compensation arrangements help align the interests of executives, employees and shareholders. To facilitate these objectives, the Board of Directors, or the Compensation Committee, since 1989, has granted stock options to executive officers and key employees through the 2003 Restated Employees' Stock Incentive Plan (the Plan) and predecessor plans.

Pursuant to this Plan, four individuals who are currently independent directors of the Company and one consultant director, were granted options during fiscal 2004 to purchase an aggregate of 25,000 shares at a price equal to fair market value at the date of grant. Five of the grants provided that one-hundred percent of such options were to become exercisable one year from the date of grant. The grant awarded to Mr. Stonecipher was an initial grant awarded to him as a new director, and provided that one-quarter of such options were to become exercisable one year from the date of grant and the remaining options in one-quarter increments on the anniversary date of the original grant in each of the Company's next three succeeding fiscal years. All of the options have ten-year terms.

Compensation of the Chief Executive Officer

Mr. Morton's compensation is determined by the Compensation Committee using the same general philosophy and in the same manner as described for all executive officers, through base salary, management incentive compensation and stock options. In evaluating annual compensation for Mr. Morton, the Compensation Committee examined the operating performance of the Company for the prior year, as well as the projections and expectations for the current year. In fiscal 2004, Mr. Morton's annual base salary remained at \$220,000. In fiscal 2004, Mr. Morton was not awarded any bonus under the Management Incentive Plan nor was he awarded any stock options.

The Compensation Committee believes that the policies and plans described above provide competitive levels of compensation and effectively link executive and shareholder interests. Moreover,

the directors believe such policies and plans are consistent with the long-term investment objectives appropriate to the business in which the Company is engaged.

The following table sets forth information, as of December 3, 2004, with respect to the beneficial ownership of the Company's Common Stock and Series B Preferred by each person who is known to the Company to be the beneficial owner of more than five percent of the Company's outstanding Common Stock or Series B Preferred, by each director or nominee for director, by each named executive officer, and by all directors and executive officers as a group. Unless otherwise indicated, each person has sole voting power and sole investment power. Each beneficial owner of shares of Series B Preferred is deemed by the Securities and Exchange Commission to be a beneficial owner of Common Stock on an as converted basis because the Series B Preferred is immediately convertible into two-thirds of a share of Common Stock. Therefore, in indicating a person's beneficial ownership of shares of Common Stock, it has been assumed that such person has converted into Common Stock all shares of Series B Preferred of which such person is a beneficial owner. For these reasons, the table contains duplications in the numbers of shares and percentages of Common Stock and Series B Preferred.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission (the "Commission"). Officers, directors and greater than ten percent beneficial owners are required by Commission regulations to furnish the Company with copies of all forms they file pursuant to Section 16(a).

Based solely on the Company's review of the copies of such forms it received and written representations from reporting persons required to file reports under Section 16(a), to the Company's knowledge all of the Section 16(a) filing requirements applicable to such persons with respect to fiscal 2004 were complied with.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The information contained in this report shall not be deemed to be soliciting material, or to be filed with, or incorporated by reference in future filings with the SEC, or subject to the liabilities of Section 18 of the Exchange Act, except to the extent that the Company specifically incorporates it by reference into a document filed under the Securities Act of 1933 or the Exchange Act.

The Audit Committee of the Board of Directors of Key Technology, Inc. is composed of three non-employee directors who meet the independence standards of the Nasdaq Stock Market. The members of the Audit Committee are John E. Pelo, chairman, Charles H. Stonecipher and Donald A. Washburn. The Board has determined that Mr. Pelo qualifies as an audit committee financial expert under federal securities laws. The Audit Committee operates under a written charter adopted by the Board of Directors. Among other things, the Audit Committee recommends to the Board of Directors, subject to shareholder ratification, the selection of the Company's independent registered public accountants (the "public accountants"). The Audit Committee has adopted a policy for the pre-approval of services provided by the independent auditors, a copy of which is attached as Appendix B to the Company's Proxy Statement.

Management is responsible for the Company's internal controls and the financial reporting process. The Company's public accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with management and the public accountants of the Company. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated audited financial statements with management and the Company's public accountants. The Audit Committee discussed with the public accountants the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (Codification of Statements on Auditing Standards, AU § 380).

The Company's public accountants also provided to the Audit Committee the written disclosures and letter required by Independence Standards Board Standard No. 1 (Independence Discussions with

Audit Committees). The Audit Committee discussed with the Company's public accountants that firm's independence and considered whether the non-audit services provided by the Company's public accountants were compatible with maintaining the independence of such public accountants.

Based upon the Audit Committee's discussion with management and the public accountants and the Audit Committee's review of the representations of management and the report of the public accountants to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2004 filed with the Securities and Exchange Commission.

In compliance with the Sarbanes-Oxley Act, the Audit Committee has established procedures, including receipt, retention, and treatment of complaints, for confidential, anonymous reporting of employee concerns with regard to accounting controls or auditing matters.

APPENDIX B

KEY TECHNOLOGY, INC.
Policy Regarding Procurement of Audit Services and Non-Audit Services

The primary purpose of this policy is to ensure that Key Technology, Inc. (the "Company") engages its public accountants to provide only audit and non-audit services that are compatible with maintaining the independence of the public accountants. The Audit Committee of the Board of Directors of the Company recognizes that investor confidence in public companies is based in part on the maintenance of independence, in fact and in appearance, by the public accounting firms that perform financial statement audits for those companies.

The Audit Committee believes that it is desirable to establish a formal policy to define the basis upon which the Company's external auditors may be engaged to provide audit and non-audit services. All services provided by the external auditor require pre-approval by the Audit Committee. The pre-approval of audit and non-audit services may be given at any time up to a year before commencement of the specified service. Although *de minimis* exceptions are permitted under applicable law, the Audit Committee's policy is to pre-approve all audit and non-audit services. This policy applies to the Company and all subsidiaries and other entities directly or indirectly owned by the Company that are included in the Company's consolidated financial statements. Audit services, audit related services and tax services must be pre-approved annually by the Audit Committee. This policy is to be reviewed annually by the Audit Committee.

The Audit Committee may delegate to one or more designated member(s) of the Audit Committee (a Designated Member), who is independent as defined under the standards of the Nasdaq Stock Market, the authority to grant pre-approvals of permitted services to be provided by the Company's external auditor. The decisions of a Designated Member to pre-approve a permitted service shall be reported to the Audit Committee at the next regularly scheduled meeting.

For purposes of this policy, independent auditor services are classified into the following categories:

Permitted Services

Audit Services/Audit Related Services

These services generally are highly correlated with the role of an independent auditor. Such services include matters such as analysis and interpretation of accounting principles and their application, support for financings and similar transactions, and other services that have bearing on the Company's financial statements on which the external auditor provides its opinion. The following are examples of permitted audit and audit related services that may be pre-approved as permitted services:

- Audits of consolidated financial statements, including reviews of quarterly financial statements, consultation on accounting issues, internal control work, attendance at Audit Committee meetings, use of specialists in connection with the foregoing and other services integral to audits of financial statements.
 - Assistance in the implementation of new accounting principles.
 - Audits of opening balance sheets of acquired companies.
- Audits and accounting consultation on acquisitions, dispositions and discontinued operations.

- Compliance letters, agreed-upon procedures, reviews and similar reports based on audited financial statements.
- Audits of financial statements and transactions that are used by lenders, filed with government and regulatory bodies and similar reports.
- Audits or reviews of financial statements of subsidiaries or affiliates of the Company as may be requested by the Audit Committee.
 - Reporting on management's internal control assertions.
- Services that result from the role of the firm as independent auditor, such as reviews of SEC filings, letters to underwriters and other services related to financings.
 - Employee benefit plan audits and reviews of relevant filings.
 - Assistance in reviews and tests of internal control and related systems.
- Assessment of the design and implementation of internal accounting controls (e.g., in connection with implementation of an ERP system or as a result of reviews of existing systems).
 - Foreign statutory audits and other regulatory reports.

Tax Services

These services are expressly permitted under this policy and do not affect the external auditors independence. It is in the best interest of the Company to utilize the best service provider available, particularly where knowledge of the Company is deemed advantageous, provided independence is not impaired. The following are examples of permitted tax services:

- Tax return and tax accrual reviews, consultations and assistance.
- Tax planning and other noncompliance related consultation or services, including employee benefit taxes.
 - Expatriate tax services, including return preparation and consultation on employment issues.
 - Tax consulting related to VAT and other foreign operations issues.
- Tax/legal assistance in the Netherlands to comply with corporate statutory and business related issues.

Additional Services Requiring Specific Approval

These services are permitted under the policy and do not affect the external auditor's independence as auditors, but also require the specific pre-approval of the Audit Committee prior to the engagement. The following are examples of additional services that must be specifically approved in advance by the Audit Committee:

- Business process improvement advisory services and process re-engineering support services.
 - Employee benefit plan advisory services.
- Operational consulting (e.g., efficiency and effectiveness improvement services in areas such as supply chain management, customer relationship management, financial and performance management, etc.).
 - Cash management and treasury advisory services.
- Strategic planning support (e.g., corporate, business unit, information technology).
 - Non-financial technology planning, evaluation, design or implementation.
 - Merger integration assistance and change management consulting services.

- Forensic and other investigative services if directed by the Board of Directors or the Audit Committee, or outside counsel engaged by the Board, its Audit Committee or the Company's CEO or CFO.
 - M&A transactional assistance.
- Assessment of the design and implementation of risk management controls.

Prohibited Services

Prohibited services are those services that may not be provided by the independent auditors as they are considered by statute or in the Audit Committee's opinion to be incompatible with the role of an independent auditor. Any questions or interpretations of such matters should be addressed to the Chairman of the Audit Committee. The Company may not engage the independent auditors to provide the non-audit services described below:

- Bookkeeping or other services related to accounting records or financial statements (e.g., recording journal entries, reconciling accounts, processing data, preparing financial statements, etc.).
 - Internal audit services.
- Appraisals, valuation services or fairness opinions or contribution-in-kind reports.
 - Signing tax returns (including payroll tax returns) on behalf of the Company.
 - Actuarial services.
 - Signing or co-signing checks.
 - Acting as agent for the Company.
- Management or human resources functions (managerial position search and evaluation activities).
 - Payroll services.
- Broker-Dealer services (including underwriting, investment adviser services, investment banking and investment management).
 - Maintaining custody of the Company funds.
- Acting in a capacity equivalent to that of the Company management or employee, or performing any decision-making, supervisory or ongoing monitoring functions for the Company.
 - Financial information systems design and/or implementation.
 - Legal services.
- Expert witness or testimony services, except where specifically related to the Company's accounting policy, procedure, or audited financial statements.

Public Accountants Independence Responsibilities

The responsibility for ensuring that the Company's public accountants are engaged to perform only those services that are compatible with maintaining the firm's independence from the Company rests with its public accountants, the Company's Chief Financial Officer and the Audit Committee. Annually, the Company will prepare a summary of the fees paid to the external auditors for audit and other permitted services for inclusion in the Company's proxy statement prepared in connection with its annual meeting of shareholders.
