MONARCH CASINO & RESORT, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Monarch Casino & Resort, Inc. ("Monarch"), a Nevada corporation, was incorporated in 1993. Monarch's wholly owned subsidiary, Golden Road Motor Inn, Inc. ("Golden Road"), operates the Atlantis Casino Resort (the "Atlantis"), a hotel/casino facility in Reno, Nevada. Unless stated otherwise, the "Company" refers collectively to Monarch and its Golden Road subsidiary.

The consolidated financial statements include the accounts of Monarch and Golden Road. Intercompany balances and transactions are eliminated.

Interim Financial Statements

The accompanying condensed consolidated financial statements for the three and nine-month periods ended September 30, 2006 and 2005 are unaudited. In the opinion of management, all adjustments, (which include normal recurring adjustments) necessary for a fair presentation of the Company's financial position and results of operations for such periods, have been included. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2005. The results for the three and nine-month periods ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006, or for any other period.

Use of Estimates

In preparing these financial statements in conformity with U.S. generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the respective periods. Actual results could differ from those estimates.

Self-insurance Reserves

The Company reviews self-insurance reserves at least quarterly. The amount of reserve is determined by reviewing the actual expenditures for the previous twelve-month period and reviewing reports prepared by third party plan administrators for any significant unpaid claims. The reserve is accrued at an amount that approximates amounts needed to pay both reported and unreported claims as of the balance sheet dates, which management believes are adequate.

Inventories

Inventories, consisting primarily of food, beverages, and retail merchandise, are stated at the lower of cost or market. Cost is determined on a first-in, first-out basis.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation and amortization. Since inception, property and equipment have been depreciated principally on a straight-line basis over the estimated service lives as follows:

Land improvements	15-40 years
Buildings	30-40 years
Building improvements	15-40 years
Furniture	5-10 years
Equipment	5-20 years

In accordance with Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment and Disposal of Long-Lived Assets," the Company evaluates the carrying value of its long-lived assets for impairment at least annually or whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable from related future undiscounted cash flows. Indicators which could trigger an impairment review include legal and regulatory factors, market conditions and operational performance. Any resulting impairment loss, measured as the difference between the carrying amount and the fair value of the assets, could have a material adverse impact on the Company's financial condition and results of operations.

Casino Revenues

Casino revenues represent the net win from gaming activity, which is the difference between wins and losses. Additionally, net win is reduced by a provision for anticipated payouts on slot participation fees, progressive jackpots and any pre-arranged marker discounts.

Promotional Allowances

The Company's frequent player program, Club Paradise, allows members, through the frequency of their play at our casino, to earn and accumulate point values which may be redeemed for a variety of goods and services at the Atlantis. Point values may be applied toward room stays at the hotel, food and beverage consumption at any of the food outlets, gift shop items as well as goods and services at the spa and beauty salon. Point values earned may also be applied toward off-property events such as concerts, shows and sporting events. Point values may not be redeemed for cash.

Awards under the frequent player program are recognized as promotional expenses at the time of redemption.

The retail value of hotel, food and beverage services provided to customers without charge is included in gross revenue and deducted as promotional allowances. The cost associated with complimentary food, beverage, rooms and merchandise redeemed under the program is recorded in casino costs and expenses.

Income Taxes

Income taxes are recorded in accordance with the liability method specified by SFAS No. 109 "Accounting for Income Taxes." Under the asset and liability approach for financial accounting and reporting for income taxes, the following basic principles are applied in accounting for income taxes at the date of the financial statements: (a) a current liability or asset is recognized for the estimated taxes payable or refundable on taxes for the current year; (b) a deferred income tax liability or asset is recognized for the estimated future tax effects attributable to temporary differences and carryforwards; (c) the measurement of current and deferred tax liabilities and assets is based on the provisions of the enacted tax law; (d) the effects of future changes in tax laws or rates are not anticipated; and (e) the measurement of deferred income taxes is reduced, if necessary, by the amount of any tax benefits that, based upon available evidence, are not expected to be realized.

Allowance for Doubtful Accounts

The Company extends short-term credit to its gaming customers. Such credit is non-interest bearing and due on demand. In addition, the Company also has receivables due from hotel guests which are primarily secured with a credit card at the time a customer checks in. An allowance for doubtful accounts is set up for all Company receivables based upon the Company's historical collection and write-off experience, unless situations warrant a specific identification of a necessary reserve related to certain receivables. The Company charges off its uncollectible receivables once all efforts have been made to collect such receivables. The book value of receivables therefore approximates net realizable value.

Stock Based Compensation

On January 1, 2006, the Company adopted the provisions of SFAS 123R requiring the measurement and recognition of all share-based compensation under the fair value method. The Company implemented SFAS 123R using the modified prospective transition method.

Concentrations of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of bank deposits and trade receivables. The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. Concentrations of credit risk with respect to trade receivables are limited due to the large number of customers comprising the Company's customer base. The Company believes it is not exposed to any significant credit risk on cash and accounts receivable.

Certain Risks and Uncertainties

A significant portion of the Company's revenues and operating income is generated from patrons who are residents of northern California specifically and the greater northwest portion of the United States in general. A change in general economic conditions or the extent and nature of casino gaming in California, Washington or Oregon could adversely affect the Company's operating results. On September 10, 1999, California lawmakers approved a constitutional amendment that gave Native American tribes the right to offer slot machines and a range of house-banked card games. On March 7, 2000, California voters approved the constitutional amendment. Several Native American casinos have opened in northern California since passage of the constitutional amendment. A large Native American casino facility opened in the Sacramento area, one of our primary feeder markets, in June of 2003. Other new Native American casinos are under construction in the northern California market, as well as other markets the Company currently serves, that could have an impact on the Company's financial position and results of operations.

In addition, the Company relies on non-conventioneer visitors partially comprised of individuals flying into the Reno area. The general threat of terrorism combined with the ongoing situation in Iraq and other parts of the Middle East could have an adverse effect on the Company's revenues from this segment. The terrorist attacks that took place in the United States on September 11, 2001, were unprecedented events that created economic and business uncertainties, especially for the travel and tourism industry. The potential for future terrorist attacks, the national and international responses, and other acts of war or hostility including the ongoing situation in Iraq and other parts of the Middle East, have created economic and political uncertainties that could materially adversely affect our business, results of operations, and financial condition in ways we cannot predict.

A change in regulations on land use requirements with regard to development of new hotel casinos in the proximity of the Atlantis could have an adverse impact on our business, results of operations, and financial condition.

The Company also markets heavily to Reno-area residents. A major casino-hotel operator that successfully focuses on local resident business in Las Vegas has announced plans to develop hotel-casino properties in Reno. The competition for this market segment is likely to increase and could impact the Company's business.

NOTE 2. STOCK-BASED COMPENSATION

The amount, frequency, and terms of share-based awards the Company grants may vary based on competitive practices, Company operating results, and government regulations.

The Company maintains three stock option plans, consisting of the Directors' Stock Option Plan, the Executive Long-term Incentive Plan, and the Employee Stock Option Plan (the "Plans"), which collectively provide for the granting of options to purchase up to 2,250,000 common shares. The exercise price of stock options granted under the Plans is established by the respective plan committees, but the exercise price may not be less than the market price of the Company's common stock on the date the option is granted. The Company stock options typically vest on a graded schedule, typically in equal, one-third increments, although the respective stock option committees have the discretion to impose different vesting periods or modify existing vesting periods. Options expire ten years from the grant date. By their amended terms, the Plans will expire in June 2013.

Current year stock option activity as of and for the nine months ended September 30, 2006:

Options	Shares	Exercise Price	Weighted Average	
			Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at beginning of period	1,117,558	\$13.25	-	-
Granted	141,633	26.32	-	-
Exercised	(180,658)	11.88	-	-
Forfeited	(120,000)	13.70	-	-
Expired	-	-	-	-
Outstanding at end of period	958,533	\$15.39	8.7 yrs.	\$3,836,874
Exercisable at end of period	149,224	\$12.28	8.1 yrs.	\$1,061,156

Expense Measurement and Recognition

On January 1, 2006, the Company adopted the provisions of SFAS 123R requiring the measurement and recognition of all share-based compensation under the fair value method. The Company implemented SFAS 123R using the modified prospective transition method.

Accordingly, for the three and nine-month periods ended September 30, 2006, the Company recognized share-based compensation for all current award grants and for the unvested portion of previous award grants based on grant date fair values. Prior to fiscal 2006, the Company accounted for share-based awards under the disclosure-only provisions of SFAS No. 123, as amended by SFAS No. 148, but applied APB No. 25 and related interpretations in accounting for the Plans, which resulted in pro-forma compensation expense only for stock option awards. Prior period financial statements have not been adjusted to reflect fair value share-based compensation expense under SFAS 123R.

With the adoption of SFAS 123R, we changed our method of expense attribution for fair value share-based compensation from the straight-line approach to the accelerated approach for all awards granted. The Company anticipates the accelerated method will provide a more meaningful measure of costs incurred and be most representative of the economic reality associated with unvested stock options outstanding. Unrecognized costs related to all share-based awards outstanding at September 30, 2006 totaled approximately \$3.6 million and is expected to be recognized over a weighted average period of 1.6 years.

The Company uses historical data and projections to estimate expected employee, executive and director behaviors related to option exercises and forfeitures.

The Company estimates the fair value of each stock option award on the grant date using the Black-Scholes valuation model incorporating the assumptions noted in the following table. Option valuation models require the input of highly subjective assumptions, and changes in assumptions used can materially affect the fair value estimate. Option valuation assumptions for options granted during each quarter were as follows:

	Three Months Ended September 30,	
	2006	2005
Expected volatility	45.5%	N/A
Expected dividends	0.0%	N/A
Expected life (in years)		
Directors' Plan	2.5	N/A
Executive Plan	8.4	N/A
Employee Plan	3.2	N/A
Weighted average risk free rate	5.1%	N/A
Weighted average grant date fair value per share of options granted	\$6.59	N/A
Total intrinsic value of options exercised	\$28,286	\$45,754
Cash received for all stock option exercises	\$113,881	\$18,815
Tax benefit realized for tax return deductions	\$114,173	\$36,370

The Company did not award any stock options during the three month period ended September 30, 2005. The risk-free interest rate is based on the U.S. treasury security rate in effect as of the date of grant. The expected lives of options are based on historical data of the Company. In 2006, the Company determined that an implied volatility is more reflective of market conditions and a better indicator of expected volatility.

Reported stock based compensation expense was classified as follows:

	Three Months Ended September 30, 2006	Nine Months Ended September 30, 2006
--	---	---

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

Casino	\$ 7,775	\$ 37,553
Food & beverage	6,869	39,894
Hotel	7,050	36,742
Selling, general & administrative	466,841	2,634,447
Total stock-based compensation, before taxes	488,535	2,748,636
Tax benefit	(170,987)	(962,022)
Total stock-based compensation, net of tax	\$317,548	\$1,786,614

The following table illustrates the effect on net income and net income per common share as if the Company had applied the fair value recognition provisions of SFAS No. 123 to all outstanding stock option awards for periods presented prior to the Company's adoption of SFAS No. 123R:

	Three Months Ended September 30, 2005	Nine Months Ended September 30, 2005
Net income, as reported	\$7,087,214	\$16,135,026
Pro forma share-based compensation, net of tax	(258,930)	(771,010)
Pro forma net income	\$6,828,284	\$15,364,016
Basic earnings per share,		
As reported:	\$0.38	\$0.86
Pro forma:	\$0.36	\$0.82
Diluted earnings per share,		
As reported:	\$0.37	\$0.85
Pro forma:	\$0.36	\$0.81

NOTE 3. EARNINGS PER SHARE

The Company reports "basic" earnings per share and "diluted" earnings per share in accordance with the provisions of SFAS No. 128, "Earnings Per Share." Basic earnings per share is computed by dividing reported net earnings by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect the additional dilution for all potentially dilutive securities such as stock options. On March 31, 2005, the Company split its common stock on a 2 for 1 basis. The following is a reconciliation of the number of shares (denominator) used in the basic and diluted earnings per share computations (shares in thousands):

	Three Months Ended September 30, 2006		2005	
	Shares	Per Share Amount	Shares	Per Share Amount
Basic	19,059	\$0.39	18,868	\$ 0.38
Effect of Dilutive Stock				
Options	187	(0.01)	236	(0.01)
Diluted	19,246	\$0.38	19,104	\$ 0.37

	Nine Months Ended September 30, 2006		2005	
	Shares	Per Share Amount	Shares	Per Share Amount
Basic	18,966	\$0.89	18,840	\$0.86
Effect of Dilutive Stock				
Options	298	(0.01)	243	(0.01)
Diluted	19,264	\$0.88	19,083	\$0.85

Excluded from the computation of diluted earnings per share for the 2005 three and nine-month periods are 20,000 and 38,300 options, respectively, where the exercise prices are greater than the market price as their effects would be anti-dilutive in the computation of diluted earnings per share. Excluded from the computation of diluted earnings per share for the 2006 three and nine-month periods are 151,633 and 121,633 options, respectively.

NOTE 4. RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48 ("FIN 48") "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109," to clarify certain aspects of accounting for uncertain tax positions, including issues related to the recognition and measurement of those tax positions. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company is in the process of evaluating the impact of the adoption of this interpretation on the Company's results of operations and financial condition.

NOTE 5. RELATED PARTY TRANSACTIONS

On July 26, 2006, the Company made a formal offer to purchase the 18.95-acre shopping center adjacent to its Atlantis Casino Resort Spa (the "Shopping Center"), which is owned by Biggest Little Investments, L.P. ("BLI"). The Company's offer was formulated and delivered by a committee comprised of the Company's independent directors. On October 16, 2006, the Committee of the Independent Directors received a letter from counsel to BLI advising the Company that BLI, through its general partner, Maxum, L.L.C., had "decided that such offer is not in the best interest of the partnership's limited partners and, therefore, will not be entering into negotiations with Monarch." The Committee of the Independent Directors is considering this response to determine what action, if any should be taken.

Three of the Company's principal stockholders have ownership interests in the general partner of BLI, Maxum LLC, and beneficially own limited partnership interests in BLI. The sole manager of Maxum LLC, Ben Farahi, is one of the Company's principal stockholders and, as of May 23, 2006, resigned from his positions as Co-Chairman of the Board, Secretary, Treasurer and Chief Financial Officer of Monarch.

The Company does not have any ownership, options to purchase (except with respect to the driveway discussed below) or first rights of refusal over or control of the Shopping Center. The Company does not have management control over or with respect to the Shopping Center. As of March 27, 2006, based on disclosures in BLI's Form 10-KSB, there were approximately 1,534 holders of BLI units owning an aggregate of 180,937 units (including units held by affiliates of BLI's general partner).

The Company currently rents various spaces in the Shopping Center which it uses as office and storage space, and paid rent of approximately \$21,800 and \$67,800 plus common area expenses for the three and nine months ended September 30, 2006, respectively, and approximately \$14,900 and \$43,750 plus common area expenses for the three and nine months ended September 30, 2005, respectively.

In addition, a driveway that is being shared between the Atlantis and the Shopping Center was completed on September 30, 2004. As part of this project, in January 2004, the Company leased a 37,368 square-foot corner section of the Shopping Center for a minimum lease term of 15 years at an annual rent of \$300,000, subject to increase every 60 months based on the Consumer Price Index ("CPI"). The Company began paying rent to the Shopping Center on September 30, 2004. The Company also uses part of the common area of the Shopping Center and pays its proportional share of the common area expense of the Shopping Center. The Company has the option to renew the lease for three five-year terms, and at the end of the extension periods, the Company has the option to purchase the leased section of the Shopping Center at a price to be determined based on an MAI Appraisal. The leased space is being used by the Company for pedestrian and vehicle access to the Atlantis, and the Company may use a portion of the parking spaces at the Shopping Center. The total cost of the project was \$2.0 million; the Company was responsible for two thirds of the total cost, or \$1.35 million. The cost of the new driveway is being depreciated over the initial 15-year lease term; some components of the new driveway are being depreciated over a shorter period of time. The Company paid approximately \$75,000 and \$225,000 plus common area maintenance charges for its leased driveway space at the Shopping Center during each of the three and nine-months ended September 30, 2006 and 2005,

respectively.

The Company is currently leasing sign space from the Shopping Center. The lease took effect in March 2005 for a monthly cost of \$1. The lease was renewed for another year for a monthly lease of \$1,000 effective January 1, 2006. The Company paid \$3,000 and \$9,000 for the leased sign at the Shopping Center for the three and nine-months ended September 30, 2006, respectively, and did not make any payments for the three and nine months ended September 30, 2005.

The Company is currently leasing billboard advertising space from affiliates of its controlling stockholders for a total cost of \$0 and \$21,000 for the three and nine months ended September 30, 2006, respectively, and \$10,500 and \$28,000 for the three and nine months ended September 30, 2005, respectively.

Additionally, the Company is currently renting storage space and, through May 2006, the Company also rented office space from a company affiliated with Monarch's controlling stockholders and expensed approximately \$7,000 and \$21,000 for such spaces for each of the three and nine-month periods ended September 30, 2006 and expensed approximately \$7,000 and \$21,000 for the three and nine-month periods ended September 30, 2005.

The Company accounts for its rental expense using the straight-line method over the original lease term. Rental increases based on the change in the CPI are contingent and accounted for prospectively.

Four principal stockholders hold 39% beneficial ownership of the Company's outstanding common shares as of September 30, 2006.

On September 23, 2003, the Company entered into an option agreement with an affiliate of its controlling stockholders to purchase property in South Reno for development of a new hotel casino. The Company, through the current property owner, filed an application with the City of Reno for both master plan and zoning changes for 13 acres of the property. On January 20, 2005, the City of Reno Planning Commission approved the application for zoning change on the property; the Reno City Council would next have to approve the application. On April 13, 2005, the Reno City Council rejected the application for master plan and zoning change. As a result of the City Council's decision, the Company expensed in 2005 a charge of approximately \$289,000 in gaming development costs related to the potential new hotel casino. The option agreement was set to expire on September 15, 2005, and the Company's Board of Directors voted to let the agreement expire on such date without exercising the Company's option to purchase.

NOTE 6. COMMITMENTS AND CONTINGENCIES

On March 10, 2003, the Company announced a plan to repurchase up to 500,000 shares (adjusted for the 2 for 1 stock split effective March 31, 2005), or 2.6%, of the Company's common stock in open market transactions (the "First Plan"). During 2003, the Company purchased 360,000 shares (adjusted for the 2 for 1 stock split mentioned above) pursuant to the First Plan and made no subsequent purchases. On September 28, 2006, the Company's Board of Directors terminated the First Plan and authorized a second stock repurchase plan (the "Second Plan").

Under the Second Plan, the Board of Directors authorized a program to repurchase up to 1,000,000 shares of the Company's common stock in the open market or in privately negotiated transactions from time to time, in compliance with Rule 10b-18 of the Securities and Exchange Act of 1934, subject to market conditions, applicable legal requirements and other factors. The Second Plan does not obligate the Company to acquire any particular amount of common stock and the plan may be suspended at any time at the Company's discretion. As of September 30, 2006, the Company made no purchases pursuant to the Second Plan.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our unaudited consolidated financial statements and the accompanying notes. Certain information included herein contains statements that may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, such as statements relating to anticipated expenses, capital spending and financing sources. Some of the forward-looking statements can be identified by the use of forward-looking terms such as "believes," "expects," "may," "will," "should," "could," "seek," "intends," "plans," "estimates," "anticipates," or other comparable terms. Such forward-looking information involve important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made herein. These risks and uncertainties include, but are not limited to, those discussed herein and elsewhere in our Form 10-K for the year ended December 31, 2005 and in our Form 10-Q for the periods ended March 31, 2006 and June 30, 2006.

OVERVIEW

Monarch Casino & Resort, Inc., through its wholly-owned subsidiary, Golden Road Motor Inn, Inc. ("Golden Road"), owns and operates the tropically-themed Atlantis Casino Resort, a hotel/casino facility in Reno, Nevada (the "Atlantis"). Monarch was incorporated in 1993 under Nevada law for the purpose of acquiring all of the stock of Golden Road. The principal asset of Monarch is the stock of Golden Road, which holds all of the assets of the Atlantis.

Our sole operating asset, the Atlantis, is a hotel/casino resort located in Reno, Nevada. Our business strategy is to maximize the Atlantis' revenues, operating income and cash flow primarily through our casino, our food and beverage operations and our hotel operations. We derive our revenues by appealing to middle to upper-middle income Reno residents, emphasizing slot machine play in our casino. We capitalize on the Atlantis' location for locals, tour and travel visitors and conventioners by offering exceptional service, value and an appealing theme to our guests. Our hands-on management style focuses on customer service and cost efficiencies.

We are currently working on expansion plans for our existing Atlantis facility which will add approximately 116,000 square feet in the form of an expanded casino floor and various additional amenities. We expect to begin construction in early 2007.

Unless otherwise indicated, "Monarch," "Company," "we," "our" and "us" refer to Monarch Casino & Resort, Inc. and its Golden Road subsidiary.

OPERATING RESULTS SUMMARY

During the third quarter of 2006, we exceeded all previously reported Company quarterly casino, hotel and net revenue amounts, as well as previously reported record income from operations, net income and earnings per share amounts. Higher selling, general and administrative expenses; however, pushed the operating margin for the quarter lower than that of the third quarter of 2005.

(in millions, except per share and margin amounts)	Three Months Ended		Percentage Increase (Decrease) Third Quarter '06 vs. '05
	September 30, 2006	2005	
Casino revenues	\$27.7	\$25.4	9.1%

Edgar Filing: MONARCH CASINO & RESORT INC - Form 10-Q

Food and beverage revenues	10.9	10.2	6.9%
Hotel revenues	8.1	7.3	11.0%
Other revenues	1.4	1.3	7.7%
Net revenues	41.9	38.5	8.8%
Income from operations	11.4	11.2	1.8%
Net income	\$7.4	\$7.1	4.2%
Earnings per share - Diluted	\$0.38	\$0.37	2.7%
Operating margin	27.1%	29.1%	(2.0) pts.

(in millions, except per share and margin amounts)	Nine Months Ended September 30,		Percentage Increase (Decrease) First Nine Months '06 vs. '05
	2006	2005	
Casino revenues	\$77.6	\$70.3	10.4%
Food and beverage revenues	30.8	28.6	7.7%
Hotel revenues	20.6	18.7	10.2%
Other revenues	3.8	3.5	8.6%
Net revenues	115.2	104.9	9.8%
Income from operations	26.0	25.6	1.6%
Net income	\$17.0	\$16.1	5.6%
Earnings per share - Diluted	\$0.88	\$0.85	3.5%
Operating margin	22.6%	24.4%	(1.8) pts.

Some significant items that affected our third quarter results in 2006 are listed below. These items are discussed in greater detail elsewhere in our discussion of operating results and in the Liquidity and Capital Resources section.

- Increases in all our revenue centers, including 9.1% in our casino, 6.9% in our food and beverage, 11.0% in our hotel and 7.7% in our other revenue centers, led to an increase of 9.0% in our gross revenues. This increase, partially offset by a 7.5% increase in promotional allowances, led to a net 8.8% increase in our net revenues.
- Effective January 1, 2006, we began recognizing expense related to the issuance of stock options in accordance with SFAS 123R. For the third quarter, the Company recorded \$489,000 of stock option expense (pre-tax) with no corresponding charge in the prior year. Of this total, \$467,000 was reported as SG&A with the balance reported as operating expense in the appropriate revenue center expense line consistent with the assignment of the respective employee receiving the stock option benefit.
- The Company recognized approximately \$15,000 of expense during the quarter related to amortization of fees related to its New Credit Facility (see "THE CREDIT FACILITY" below). We did not incur any other interest

expense during the quarter as all bank related debt was paid off in the first quarter of 2006. We incurred approximately \$302,000 in interest expense during the third quarter of 2005.

CAPITAL SPENDING AND DEVELOPMENT

Capital expenditures at the Atlantis totaled approximately \$4.2 million and \$5.2 million during the first nine months of 2006 and 2005, respectively. During the nine months ended September 30, 2006, our capital expenditures consisted primarily of acquisitions of gaming and computer equipment, the installation of a casino high-definition video display system, renovation of our Java Coast Gourmet Coffee and pastry bar, initial design and planning expenditures associated with our Atlantis expansion and ongoing property public area renovations and upgrades. During last year's first nine months, capital expenditures consisted primarily of the replacement of and upgrade to a more energy efficient ventilation and cooling system, acquisitions of gaming and computer systems equipment and continued renovations to the facility.

Future cash needed to finance ongoing maintenance capital spending is expected to be made available from operating cash flow, the New Credit Facility (see "THE CREDIT FACILITY" below) and, if necessary, additional borrowings.

RESULTS OF OPERATIONS

Comparison of Operating Results for the three-month periods ended September 30, 2006 and 2005.

For the three-month period ended September 30, 2006, the Company's net income was \$7.4 million, or \$0.38 per diluted share, on net revenues of \$41.9 million, an increase over net income of \$7.1 million, or \$0.37 per diluted share, on net revenues of \$38.3 million for the three months ended September 30, 2005. Income from operations for the three months ended September 30, 2006 totaled \$11.4 million, a 1.8% increase over the \$11.2 million for the same period in 2005. Net income, net revenues and income from operations for the third quarter of 2006 represent new all-time quarterly records for the Company. Compared to last year's third quarter net income increased 4.2%, net revenues increased 8.8% and income from operations increased 1.8%.

Casino revenues totaled \$27.7 million in the third quarter of 2006, a 9.1% increase over the \$25.4 million in the third quarter of 2005, which was primarily due to increases in slot, poker and keno revenues combined with increased table games revenue driven by a higher table game win percentage in the third quarter of 2006 as compared to the same quarter in 2005. Casino operating expenses amounted to 32.4% of casino revenues in the third quarter of 2006, compared to 32.2% in the third quarter of 2005, with the slight difference representing slightly increased direct operating costs, increased payroll and benefit expenses and increased complimentary expense as a percentage of casino revenues.

Food and beverage revenues totaled \$10.9 million in the third quarter of 2006, a 6.9% increase from \$10.2 million in the third quarter of 2005, due primarily to a 3.6% increase in the average revenue per food cover combined with an approximate 4.0% increase in the number of food covers served during the quarter. Food and beverage operating expenses amounted to 47.2% of food and beverage revenues during the third quarter of 2006, compared with 47.8% in the 2005 third quarter. The slight margin improvement is due to generally lower costs of sales, payroll and benefit expenses and direct operating costs as a percentage of food and beverage revenues and the effects of menu pricing increases implemented by the Company.

Hotel revenues were \$8.1 million for the third quarter of 2006, an increase of 11.0% from the \$7.3 million reported in the 2005 third quarter. This increase was the result of increases in both the average daily room rate ("ADR") and hotel occupancy. Both the 2006 and 2005 third quarter revenues included a \$3 per occupied room energy surcharge. During the third quarter of 2006, the Atlantis experienced a 99.9% occupancy rate, as compared to 97.4% during the same

period in 2005. The Atlantis' ADR was \$80.79 in the third quarter of 2006 compared to \$74.69 in the third quarter of 2005. Hotel operating expenses as a percent of hotel revenues decreased slightly to 27.2% in the 2006 third quarter, compared to 27.7% in the 2005 third quarter. The improved margin is primarily due to the increased ADR combined with lower payroll and benefit expenses partially offset by increased direct operating expense as a percentage of hotel revenues.

Promotional allowances increased to \$6.2 million in the third quarter of 2006 compared to \$5.8 million in the third quarter of 2005. The dollar increase is attributable to continued promotional efforts to generate additional revenues. Promotional allowances as a percentage of gross revenues decreased slightly to 12.9% during the third quarter of 2006, from 13.1% in the third quarter of 2005.

Other revenues increased 7.7% to \$1.4 million in the 2006 third quarter compared to \$1.3 million in the same period last year.

Depreciation and amortization expense was \$2.1 million in each of the 2006 and 2005 third quarters, respectively. Depreciation expense relates primarily to property and equipment purchased in the ordinary course of business to replace old and obsolete equipment with newer, more current equipment.

SG&A expenses amounted to \$11.7 million in the third quarter of 2006, a 21.9% increase from \$9.6 million in the third quarter of 2005. The increase was the result of expenses related to stock options expense under the provisions of SFAS 123R, increased marketing and promotional expenditures, increased payroll and benefit costs, increased energy costs, increased bad debt expense and increased legal and accounting fees. Of the \$2.1 million increase in SG&A expense, approximately \$467,000 was from recurring stock option expense for which there was no comparable charge in 2005 as the requirements of SFAS 123R were implemented on January 1, 2006. As a percentage of net revenues, SG&A expenses increased to 27.8% in the third quarter of 2006 from 25.1% in the third quarter of 2005.

The Company did not have any outstanding debt during the 2006 third quarter and, as a result, did not incur any interest expense related to debt during the period. The Company did however, recognize approximately \$15,000 of expense related to the amortization of fees related to the New Credit Facility (see "THE CREDIT FACILITY" below). Interest expense for the third quarter of 2005 was \$302,000.

Comparison of Operating Results for the nine-month periods ended September 30, 2006 and 2005.

For the nine months ended September 30, 2006, the Company earned net income of \$17.0 million, or \$0.88 per diluted share, on net revenues of \$115.2 million, an increase from net income of \$16.1 million, or \$0.85 per diluted share, on net revenues of \$104.9 million during the nine months ended September 30, 2005. Income from operations for the 2006 nine-month period totaled \$26.0 million, compared to \$25.6 million for the same period in 2005. Net revenues increased 9.8%, and net income increased 5.6% when compared to the nine-month period ended September 30, 2005.

Casino revenues for the first nine months of 2006 totaled \$77.6 million, a 10.4% increase from \$70.3 million for the first nine months of 2005, reflecting increases in all gaming revenue areas. Casino operating expenses amounted to 32.8% of casino revenues for the nine months ended September 30, 2006, compared to 33.7% for the same period in 2005, primarily due to reduced complimentary expense and reduced direct operating costs as a percentage of casino revenues, partially offset by a slight increase in payroll and benefit costs as a percentage of casino revenues.

Food and beverage revenues totaled \$30.8 million for the nine months ended September 30, 2006, an increase of 7.7% from the \$28.6 million for the nine months ended September 30, 2005, due to an approximate 2.1% increase in the number of covers served combined with a 6.2% increase in the average revenue per cover. Food and beverage operating expenses decreased to 47.6% of food and beverage revenues during the 2006 nine-month period, when compared to 49.1% for the same period in 2005. The improvement is due to higher average revenue per cover,

reduced costs of sales, reduced payroll and benefit costs and reduced direct operating costs as a percentage of food and beverage revenues.

Hotel revenues for the first nine months of 2006 increased 10.2% to \$20.6 million from \$18.7 million for the first nine months of 2005, primarily due to increased ADR. Hotel revenues for the first nine months of 2006 and 2005 also include a \$3 per occupied room energy surcharge. The Atlantis experienced an increase in the ADR during the 2006 nine-month period to \$71.20, compared to \$65.27 for the same period in 2005. The occupancy rate increased slightly to 95.4% for the nine-month period in 2006, from 94.5% for the same period in 2005. Hotel operating expenses in the first nine months of 2006 were 30.7% of hotel revenues, an improvement when compared to 31.4% for the same period in 2005. The improved margin was due to the increased ADR and reduced payroll and benefit costs as a percentage of hotel revenues, partially offset by a slight increase in direct operating costs as a percentage of hotel revenue.

Promotional allowances increased to \$17.7 million in the first nine months of 2006 compared to \$16.2 million in the same period of 2005. The increase is attributable to continued efforts to generate additional revenues. However, promotional allowances as a percentage of gross revenues remained flat at 13.3% during the nine months ended September 30, 2006 and 2005, respectively.

Other revenues were \$3.8 million for the nine months ended September 30, 2006, an 8.6% increase from \$3.5 million in the same period in 2005.

Depreciation and amortization expense was \$6.4 million in the first nine months of 2006, an increase of 1.6% compared to \$6.3 million in the same period last year. This depreciation expense primarily relates to property and equipment acquired in the ordinary course of business as part of the Company's ongoing capital expenditures to replace old and obsolete equipment with newer, more current equipment.

Selling, general and administrative expenses increased 24.5% to \$35.1 million in the first nine months of 2006, compared to \$28.2 million in the first nine months of 2005, primarily as a result of expenses related to stock options under the requirements of SFAS 123R, increased marketing and promotional expenditures, increased bad debt expense, increased energy costs and increased legal and accounting expenses. Included in the \$6.9 million increase in SG&A expense was approximately \$1.4 million from recurring stock option expense and an additional approximate \$1.2 million related to the accelerated vesting of stock options from the departure of a former executive officer. As a percentage of net revenue, SG&A expenses increased to 30.4% in the 2006 nine-month period from 26.9% in the same period in 2005.

Interest expense for the first nine months of 2006 totaled \$75,000, a decrease of 91.6%, compared to \$891,000 for the same period one year earlier. The decrease reflects the Company's reduction in debt outstanding (see "THE CREDIT FACILITY" below).

LIQUIDITY AND CAPITAL RESOURCES

We have historically funded our daily hotel and casino activities with net cash provided by operating activities.

For the nine months ended September 30, 2006, net cash provided by operating activities totaled \$25.3 million, an increase of 3.6% compared to the same period last year. Net cash used in investing activities totaled \$4.2 million and \$5.1 million in the nine months ended September 30, 2006 and 2005, respectively. During the first nine months of 2006 and 2005, net cash used in investing activities was used primarily in the purchase of property and equipment and continued property renovations and upgrades. Net cash used in financing activities totaled \$5.3 million for the first nine months of 2006 compared to \$20.2 million for the same period last year. Net cash used in financing activities was primarily for debt reduction in both periods. During the first nine months of 2006, the Company paid off its \$8.1

million December 31, 2005 bank debt balance. As a result, at September 30, 2006, the Company increased its cash balance to \$28.7 million compared to \$10.9 million at September 30, 2005, and \$12.9 million at December 31, 2005. As a result of paying off our debt, we began investing our surplus cash in stable, short-term investments, such as certificates of deposit. These investments may be subject to market risk.

The Company has a reducing revolving credit facility with a group of banks (see "THE CREDIT FACILITY" below). At September 30, 2006, the Company had no balance outstanding on the New Credit Facility (as defined below). At September 30, 2006, we had \$24 million available to be drawn down under the New Credit Facility should we require such funds.

OFF BALANCE SHEET ARRANGEMENTS

A driveway was completed and opened on September 30, 2004, that is shared between the Atlantis and a shopping center directly adjacent to the Atlantis. The shopping center is controlled by our controlling stockholders (the "Shopping Center"). As part of this project, in January 2004, the Company leased a 37,368 square-foot corner section of the Shopping Center for a minimum lease term of 15 years at an annual rent of \$300,000, subject to increase every 60 months based on the Consumer Price Index. The Company also uses part of the common area of the Shopping Center and pays its proportional share of the common area expense of the Shopping Center. The Company has the option to renew the lease for three five-year terms, and at the end of the extension periods, the Company has the option to purchase the leased section of the Shopping Center at a price to be determined based on an MAI Appraisal. The leased space is being used by the Company for pedestrian and vehicle access to the Atlantis, and the Company may use a portion of the parking spaces at the Shopping Center. The total cost of the project was \$2.0 million; we were responsible for two thirds of the total cost, or \$1.35 million. The cost of the new driveway is being depreciated over the initial 15-year lease term; some components of the new driveway are being depreciated over a shorter period of time. The Company paid approximately \$75,000 for its leased driveway space at the Shopping Center during the three months ended September 30, 2006.

On September 23, 2003, the Company entered into an option agreement with an affiliate of its controlling stockholders to purchase property in South Reno for development of a new hotel casino. The Company, through the current property owner, filed an application with the City of Reno for both master plan and zoning changes for 13 acres of the property. On January 20, 2005, the City of Reno Planning Commission approved the application for zoning change on the property; the Reno City Council would next have to approve the application. On April 13, 2005, the Reno City Council rejected the application for master plan and zoning change. As a result of the City Council's decision, the Company expensed during 2005, a charge of approximately \$289,000 in gaming development costs related to the potential new hotel casino. The option agreement was set to expire on September 15, 2005, and the Company's Board of Directors voted to let the agreement expire on such date without exercising the Company's option to purchase.

CRITICAL ACCOUNTING POLICIES

A description of our critical accounting policies and estimates can be found in Item 7 - "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Form 10-K for the year ended December 31, 2005 ("2005 Form 10-K"). For a more extensive discussion of our accounting policies, see Note 1, Summary of Significant Accounting Policies, in the Notes to the Consolidated Financial Statements in our 2005 Form 10-K filed on March 16, 2006.

On January 1, 2006, we adopted the provisions of SFAS 123R requiring the measurement and recognition of all share-based compensation under the fair value method. We implemented SFAS 123R using the modified prospective transition method.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". The statement is effective for financial statements issued for fiscal years beginning after November 15, 2007. We are currently evaluating the provisions of SFAS No. 157 to determine its impact on our future financial statements.

OTHER FACTORS AFFECTING CURRENT AND FUTURE RESULTS

The constitutional amendment approved by California voters in 1999 allowing the expansion of Indian casinos in California has had an impact on casino revenues in Nevada in general, and many analysts have continued to predict the impact will be more significant on the Reno-Lake Tahoe market.

The extent of this continued impact is difficult to predict, but the Company believes that the impact on the Company will continue to be mitigated to some extent due to the Atlantis' emphasis on Reno-area residents as a significant base of its business, as well as its proximity to the Reno-Sparks Convention Center. However, if other Reno-area casinos continue to suffer business losses due to increased pressure from California Indian casinos, they may intensify their marketing efforts to Reno-area residents as well.

The Company also believes that unlimited land-based casino gaming in or near any major metropolitan area in the Atlantis' key non-Reno marketing areas, such as San Francisco or Sacramento, could have a material adverse effect on its business.

In the past few years, a number of California Indian tribes have signed compacts with the state that have resulted in significant expansion of Indian gaming operations. The State of California is in the process of negotiating similar compacts with additional Indian tribes.

Other factors that may impact current and future results are set forth herein and in our quarterly reports on Form 10-Q for the periods ended March 31, 2006 and June 30, 2006 and our annual report on Form 10-K for the year ended December 31, 2005.

COMMITMENTS AND CONTINGENCIES

Contractual cash obligations for the Company as of September 30, 2006 over the next five years are as follows:

Contractual Cash Obligations	Total	Payments Due by Period			
		Less Than 1 Year	1 to 3 Years	4 to 5 Years	More Than 5 Years
Long-Term Debt	\$ -	\$ -	\$ -	\$ -	\$ -
Operating Leases (1)	4,810,000	370,000	740,000	740,000	2,960,000
Purchase Obligations (2)	1,993,000	1,993,000	-	-	-
Total Contractual Cash Obligations	\$6,803,000	\$2,363,000	\$740,000	\$740,000	\$2,960,000

(1) Operating leases include \$370,000 per year in lease and common expense payments to the shopping center adjacent to the Atlantis (see "OFF BALANCE SHEET ARRANGEMENTS").

(2) Our open purchase order commitments total approximately \$2.0 million. Of the total purchase order commitments, approximately \$1.8 million are cancelable by the Company upon providing a 30-day notice.

The Company believes that its existing cash balances, cash flow from operations, reducing revolving credit facility and availability of equipment financing, if necessary, will provide the Company with sufficient resources to fund its

operations, meet its existing debt obligations, and fulfill its capital expenditure requirements; however, the Company's operations are subject to financial, economic, competitive, regulatory, and other factors, many of which are beyond its control.

We currently expect to fund expansions of the Atlantis expected to begin in early 2007 from cash flows from operations.

If the Company is unable to generate sufficient cash flow, it could be required to adopt one or more alternatives, such as reducing, delaying, or eliminating planned capital expenditures, selling assets, restructuring debt, or obtaining additional equity capital.

THE CREDIT FACILITY

In 1997 we entered into an \$80 million reducing revolving term loan credit facility with a consortium of banks that was to expire on June 30, 2004 (the "Original Credit Facility").

On February 20, 2004, the Original Credit Facility was refinanced (the "New Credit Facility") for \$50 million, which included a \$46 million payoff of the unpaid balance of the Original Credit Facility. The amount of the New Credit Facility, which is also a reducing revolving facility, could have been increased by up to \$30 million on a one-time basis, if requested by us before the second anniversary of the closing date of the New Credit Facility. We did not make this request, and, therefore, the \$30 million increase is currently not available to us. At our option, borrowings under the New Credit Facility will accrue interest at a rate designated by the agent bank at its base rate (the "Base Rate") or at the London Interbank Offered Rate ("LIBOR") for one, two, three or six month periods. The rate of interest paid by us will include a margin added to either the Base Rate or to LIBOR that is tied to our ratio of funded debt to EBITDA (the "Leverage Ratio"). Depending on our Leverage Ratio, this margin can vary between 0.25 percent and 1.25 percent above the Base Rate, and between 1.50 percent and 2.50 percent above LIBOR (under the Original Credit Facility, this margin varied between 0.00 percent and 2.00 percent above the Base Rate, and between 1.50 percent and 3.50 percent above LIBOR). At September 30, 2006, the Company had no Base Rate loans outstanding and had no LIBOR loans outstanding. At September 30, 2006, we had \$24 million available to be drawn down under the New Credit Facility.

We may utilize proceeds from the New Credit Facility for working capital needs and general corporate purposes relating to the Atlantis and for ongoing capital expenditure requirements at the Atlantis.

The New Credit Facility is secured by liens on substantially all of the real and personal property of the Atlantis, and is guaranteed by Monarch. The Original Credit Facility was guaranteed individually by certain controlling stockholders of the Company. These individuals were not required to provide any personal guarantees for the New Credit Facility and, therefore, going forward, we will no longer incur guarantee fee expenses.

The New Credit Facility contains covenants customary and typical for a facility of this nature, including, but not limited to, covenants requiring the preservation and maintenance of our assets and covenants restricting our ability to merge, transfer ownership of Monarch, incur additional indebtedness, encumber assets, and make certain investments. The New Credit Facility also contains covenants requiring us to maintain certain financial ratios and provisions restricting transfers between Monarch and its affiliates. The New Credit Facility also contains provisions requiring the achievement of certain financial ratios before we can repurchase our common stock. We currently meet such ratio requirements.

The maturity date of the New Credit Facility is February 23, 2009. Beginning June 30, 2004, the maximum principal available under the Credit Facility will be reduced over five years by an aggregate of \$30.875 million in equal increments of \$1.625 million per quarter with the remaining balance due at the maturity date. We may prepay

borrowings under the New Credit Facility without penalty (subject to certain charges applicable to the prepayment of LIBOR borrowings prior to the end of the applicable interest period). Amounts prepaid under the New Credit Facility may be re-borrowed so long as the total borrowings outstanding do not exceed the maximum principal available. We may also permanently reduce the maximum principal available under the New Credit Facility at any time so long as the amount of such reduction is at least \$500,000 and a multiple of \$50,000. We also benefited from a reduced loan amortization schedule, from \$3 million per quarter under the Original Credit Facility to \$1.625 million per quarter under the New Credit Facility.

As of September 30, 2006, our Leverage Ratio had been equal to or less than one-to-one for the third consecutive quarter. Per the New Credit Facility, if we achieve a Leverage Ratio equal to or less than one-to-one for two consecutive quarters, our scheduled reduction for the next consecutive fiscal quarter is waived. Management has assumed that we will maintain a leverage ratio equal to or less than one-to-one for the remaining term of the New Credit Facility and, therefore, no principal reductions would be due on any new amounts the Company may borrow on the New Credit Facility until the New Credit Facility matures in 2009.

We paid various one-time fees and other loan costs upon the closing of the refinancing of the New Credit Facility that will be amortized over the term of the New Credit Facility using the straight-line method.

SHORT-TERM DEBT

At September 30, 2006, we had no short-term debt outstanding.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market risks and prices, such as interest rates, foreign currency exchange rates and commodity prices. We do not have any cash or cash equivalents as of September 30, 2006, that are subject to market risks. In the second quarter of 2006, we began investing excess cash in stable, short-term investments qualifying as cash equivalents with original maturities of 30 days or less, such as certificates of deposit, which may be subject to market risk; however, we do not believe such market risks to be material.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, (the "Evaluation Date"), an evaluation was carried out by our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined by Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon the evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

We also evaluated changes in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

This evaluation was carried out under the supervision, and with the participation, of our Chief Executive Officer and Chief Financial Officer. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that there have been no significant changes in internal controls or in other factors that have materially affected, or would be reasonably likely to materially affect, our internal control over financial reporting.

Our management does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, but not absolute, assurance that the objectives of a control system are met. Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of a control. Because the design of a control system is based upon certain assumptions about the likelihood of future events, there can be no assurance that any design will succeed in achieving our stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Monarch previously has disclosed litigation filed against it on January 27, 2006, by Kerzner International Limited ("Kerzner") owner of the Atlantis, Paradise Island, Bahamas in the United States District Court, District of Nevada, Case No. 2:06-cv-00102, seeking declaratory judgment prohibiting Monarch from using the name "Atlantis" in connection with offering casino services other than at Monarch's Atlantis Casino Resort located in Reno Nevada, and particularly prohibiting Monarch from using the "Atlantis" name in connection with offering casino services in Las Vegas, Nevada; injunctive relief enforcing the same; unspecified compensatory and punitive damages; and other relief. Monarch believes Kerzner's claims to be entirely without merit and is defending vigorously against the suit. Further, Monarch has filed a counterclaim against Kerzner seeking to enforce the license agreement granting Monarch the exclusive right to use the Atlantis name in association with lodging throughout the state of Nevada; to cancel Kerzner's registration of the Atlantis mark for casino services on the basis that the mark was fraudulently obtained by Kerzner; and declaratory relief on these issues. On April 17, 2006 the court issued an order granting Monarch's motion to transfer venue of the lawsuit to the unofficial Northern District of Nevada. The new case number assigned to the matter is 3:06-cv-00232-ECR(RAM). Litigation currently is in the discovery phase.

We are party to other claims that arise in the normal course of business. Management believes that the outcomes of such claims will not have a material adverse impact on our financial condition, cash flows or results of operations.

ITEM 1A. RISK FACTORS

Our business prospects are subject to various risks and uncertainties that impact our business. You should carefully consider the following discussion of risks, and the other information provided in this quarterly report on Form 10-Q. Other risk factors are disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 and in our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2006 and June 30, 2006. Furthermore, additional risks that are presently unknown to us or that we currently deem immaterial may also impact our business.

ITEM 6. EXHIBITS

Exhibits

Exhibit No. Description

31.1 Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of John Farahi, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

32.2 Certification of Ronald Rowan, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

EXHIBIT INDEX

Exhibit Number	Page Description	Number
31.1	Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002	28
31.2	Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002	29
32.1	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002	30
32.2	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002	31

CERTIFICATIONS PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, John Farahi, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Monarch Casino & Resort, Inc., a Nevada Corporation;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(d)-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's first fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control and reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
