### About CGI

Founded in 1976, CGI is the fourth largest independent information technology (IT) services firm in North America, based on its headcount of 13,700 professionals. CGI's annualized revenue run-rate totals CDN\$2.1 billion (US\$1.3 billion). CGI's order backlog currently totals CDN\$9.1 billion (US\$5.7 billion). CGI provides end-to-end IT services and business solutions to more than 3,000 clients in countries such as the United States, Canada, the United Kingdom and France from more than 60 offices. CGI's shares are included in the TSE 100 Composite Index as well as the S&P/TSE Canadian Information Technology and Canadian MidCap Indices.

### CGI Reports Strong Growth in Second Quarter of Fiscal 2002

CGI reported strong unaudited results for its second quarter ended March 31, 2002. All figures are in Canadian dollars unless otherwise indicated.

#### Second Quarter Highlights

- o Revenue of \$539.2 million was 44.2% higher than the comparable period one year ago and 3.5% higher sequentially. Year-over-year organic growth was 14.9% in the second quarter
- o Net earnings in the second quarter increased 49.5% to \$33.2 million, from comparable cash net earnings of \$22.2 million in the same quarter a year ago. Net earnings per share of \$0.09 for the quarter were up 12.5% over comparable cash net earnings per share of \$0.08 reported for the second quarter of

## Edgar Filing: CGI GROUP INC - Form 6-K

fiscal 2001, despite a 31.7% increase in weighted average number of shares outstanding

- o Operating cash flow was up 63.9% year-over-year to \$57.4 million
- o Backlog of signed contracts stands at \$9.1 billion with a weighted average remaining contract term of 6.8 years
- o Current pipeline of bids for large outsourcing contracts being reviewed by potential clients remains robust at \$5 billion
- o In accordance with new Canadian Institute of Chartered Accountants recommendations, we concluded our assessment of the goodwill and will not record any impairment loss.

We are pleased with the financial results achieved in the quarter. The strong year-over-year and sequential growth was a function of solid demand for our IT services from new and existing clients, in all verticals and across all geographic areas, especially in Canada. While achieving strong financial results, we also continued to strengthen our operations and position ourselves for future growth, particularly in the US market.

### Operating Highlights

In order for CGI to focus more intently on geographical areas with the highest growth potential, namely North America and Europe, CGI's Australian and Japanese operations were recently divested in separate transactions. The combined revenue for these two units had been approximately \$9 million on an annualized basis, and there was no impact on the consolidated statement of earnings for the sale of these units.

On April 2, 2002, we acquired Albany, New York based Rapid Application Developers, Inc. ("RAD") as part of our ongoing, niche acquisition strategy. RAD was acquired to enhance CGI's presence in the state government sector in Northeast United States. RAD had revenue last year of US\$4.2 million in the government sector.

Finally, in a continuing effort to maximize the opportunities for CGI's future growth, we made adjustments to our organizational structure. Effective immediately, Satish Sanan becomes Vice-Chairman of CGI, reporting directly to me, and is responsible for pursuing large IT and business process services outsourcing opportunities in the US. Daniel Rocheleau, Executive Vice-President and Chief Engineering Officer, will continue his responsibility for the development of large strategic outsourcing and partnership initiatives for CGI in Canada and Europe. Michael Roach, who already managed more than 70% of CGI's operations as President, Canada & Europe, becomes President and Chief Operating Officer, with responsibility for the continuity of all CGI operations. Joseph Saliba becomes President, US, assuming operational responsibilities for the US in addition to leading the Business Process Services unit. Joseph now reports to Michael Roach.

CGI's opportunity for growth as a leading North American provider of IT services is tremendous and we are fully intent on leveraging our potential. Especially in the US, where we see increasing demand for our service offering, we believe that these adjustments to our organizational structure will strengthen our ability to pursue new business initiatives and improve operational efficiencies.

Our strong growth will continue to be driven by a combination of strategic acquisitions and organic growth initiatives. Additionally, we have established a diversified client base of more than 3,000 companies and enjoy strong recurring revenue from long-term outsourcing contracts. As such, CGI's continued growth is not solely dependent on winning large IT and business process outsourcing contracts. However, our position as the leading IT services provider in Canada and our growing recognition in the US, partly a result of a number of successful marketing initiatives, has fueled a robust pipeline of \$5 billion in outstanding proposals. Our strong financial position, flexible client partnerships, and unique global delivery model give us confidence in the ability to turn this

## Edgar Filing: CGI GROUP INC - Form 6-K

pipeline into backlog and deliver even stronger results going forward.

Serge Godin  
Chairman and Chief Executive Officer  
April 23, 2002

Management's Discussion and Analysis of Financial Position and Results of Operations Second quarter ended March 31, 2002

The following discussion and analysis should be read in conjunction with financial statements for the six months ended March 31, 2002, with the Management's Discussion and Analysis of Financial Position and Results of Operations ("MD&A") in the fiscal 2001 annual report, including the section on risks and uncertainties; and with the notes to the financial statements for the second quarter of fiscal year 2002 and in the fiscal 2001 annual report. All dollar amounts are in Canadian dollars unless otherwise indicated.

### Revenue

Revenue for the second quarter ended March 31, 2002 increased 44.2% to \$539.2 million, from \$374.0 million in the same quarter last year, and was up 3.5% sequentially over first quarter revenue of \$520.8 million. Organic growth represented 14.9% during the quarter. In addition to good organic growth in the quarter, the increase in revenue also reflects the contribution of acquisitions completed in the past year.

In the second quarter, revenue from long-term outsourcing contracts represented 72% of the Company's total revenue, including 15% from business processing services, while project oriented consulting and systems integration work represented 28%. Geographically, contribution to revenue was similar to last quarter, with clients in Canada representing 72%; clients in the US representing 21%; and all other regions, 7%. CGI improved its position as a leading IT services provider in the financial services sector, which represented 41% of revenue; while telecom represented 25%; government, 16%; manufacturing, retail and distribution, 15%; utilities and services, 2%; and healthcare, 1%.

For the first six months of fiscal 2002, revenue increased 49.7% to \$1,060.0 million, up from \$708.2 million in the corresponding period of 2001.

### Operating Expenses

The costs of services, selling and administrative expenses were \$454.7 million, or 43.5% higher than the prior year. Total operating expenses, which also include research and development, represented 85.1% of revenue, an improvement from 85.6% in the second quarter of fiscal 2001 and a slight improvement from an expense ratio of 85.2% in the first quarter of fiscal 2002.

### Depreciation and Amortization

Depreciation and amortization of fixed assets increased to \$11.3 million, from \$7.9 million in the previous year. The year-over-year increase reflected the fact that additional business and assets were acquired in the course of acquisitions and through the signing of large outsourcing contracts.

Amortization of contract costs and other long-term assets increased year-over-year to \$11.9 million, from \$6.3 million in fiscal 2001, mainly as a result of the capitalization of contract costs following the signing of large outsourcing contracts.

Sequentially, the increase in depreciation and amortization of fixed assets was negligible. The decrease in amortization of contract costs and other long-term assets, quarter over quarter, stems from the fact that no new major outsourcing contract was initiated in the quarter, thus resulting in no incremental

## Edgar Filing: CGI GROUP INC - Form 6-K

amortization. The decrease also reflects the fact that certain contract costs had been fully amortized in the previous quarter.

### Income Taxes

The effective income tax rate was 41.6% in the second quarter of fiscal 2002 compared with 43.6% for the second quarter of fiscal 2001 and 41.3% for the first quarter of fiscal 2002. The decrease in the effective income tax rate compared with last year is a result of the combined effect of two developments. First, there was a reduction in the tax loss incurred by foreign subsidiaries (namely in the US and Europe) in the second quarter of 2002 over the same period in 2001, for which a valuation allowance had been provided against the future tax benefit. Second, there was a general Canadian statutory tax rate reduction in fiscal 2002 compared with fiscal 2001.

### Amortization of Goodwill, Net of Income Taxes

Effective October 1, 2001, CGI stopped amortizing goodwill. Accordingly, net earnings reported for quarters since October 1, 2001 and earnings before amortization of goodwill (cash net earnings) reported for quarters prior to that date, are equivalent. For purposes of clarity and ease of comparison, CGI compares net earnings results to cash net earnings figures provided in year-over-year comparisons.

### Net Earnings

Net earnings in the second quarter of fiscal 2002 increased 49.5% to \$33.2 million, against comparable cash net earnings of \$22.2 million in the same quarter a year ago, and were 8.4% higher sequentially, compared with \$30.6 million reported in the first quarter. Net earnings per share of \$0.09 for the quarter were up 12.5% over \$0.08 reported for the second quarter of fiscal 2001, and comparable to \$0.08 reported in the first quarter. Net earnings per share increased, despite a 31.7% year-over-year and 2.8% sequential increase in weighted average number of shares outstanding. The net margin improved to 6.2%, compared with 5.9% in the first quarter and 4.1% in the second quarter of fiscal 2001.

Net earnings for the first six months of fiscal 2002 totalled \$63.8 million, an increase of 66.4% from \$38.3 million reported for the same period one year ago. Net earnings per share of \$0.17 in the period were up 21.4% over comparable cash net earnings of \$0.14 reported in the first six months of 2001.

### Liquidity and Financial Resources

CGI maintains a strong balance sheet and cash position, which together with bank credit lines are sufficient to support the Company's growth strategy and represent a competitive strength when proposing on outsourcing contracts. At March 31, 2002, the total credit facilities available amounted to \$218.1 million. At March 31, 2002, CGI had cash and cash equivalents of \$152.5 million, compared with \$155.8 million at December 31, 2001.

Operating cash flow (operating cash flow represents cash provided by operating activities before changes in working capital items) in the second quarter improved to \$57.4 million, compared with \$35.0 million in the second quarter a year ago and \$43.3 million in the first quarter of fiscal 2002. The year-over-year and sequential improvements in operating cash flow

### Management's Discussion and Analysis of Financial Position and Results of Operations Second quarter ended March 31, 2002

largely reflect the improvement in net earnings along with an increase in the depreciation of fixed assets, the amortization of contract costs and other long-term assets and deferred credits and other long-term liabilities related to the acquisitions and large outsourcing contracts closed in the year and changes

## Edgar Filing: CGI GROUP INC - Form 6-K

in future income taxes.

As at March 31, 2002, CGI's long-term debt totalled \$38.6 million, compared with \$54.7 million at December 31, 2001.

### Accounting Changes

On October 1, 2001, the Company adopted the new recommendations of the Canadian Institute of Chartered Accountants ("CICA") Handbook Sections 1581, Business Combinations, and 3062, Goodwill and Other Intangible Assets. Under the revised Section 1581, all business combinations are accounted for using the purchase method. Additionally, under Section 3062, goodwill and intangible assets with an indefinite life are no longer amortized to earnings and are assessed for impairment on an annual basis, including a transitional impairment test whereby any resulting impairment will be charged to opening retained earnings. In fiscal 2002, the effect of the non-amortization of goodwill will result in an increase in the consolidated net earnings of approximately \$28,800,000. The Company has completed the transitional impairment test and concluded that no goodwill impairment charge needs to be recorded.

The CICA also issued Handbook Section 3870, Stock-based Compensation and Other Stock-based Payments. This new section, which is effective for fiscal years commencing on or after January 1, 2002, establishes standards for the recognition, measurement and disclosure of stock-based compensation made in exchange for goods and services. The section requires the use of the fair value method to account for awards to non-employees and direct awards of stock to employees and encourages, but does not require, the use of the fair value method to account for stock-based compensation costs arising from awards to employees. The new standard requires pro forma disclosures relating to net earnings and earnings per share figures as if the fair value method of accounting had been used. The Company is currently evaluating the effect that implementation will have on its Consolidated Financial Statements.

### Forward-Looking Statements

All statements in this MD&A that do not directly and exclusively relate to historical facts constitute "forwardlooking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements represent CGI Group Inc.'s intentions, plans, expectations and beliefs, and are subject to risks, uncertainties and other factors, of which many are beyond the control of the Company. These factors could cause actual results to differ materially from such forward-looking statements.

These factors include, and are not restricted to, the timing and size of contracts, acquisitions and other corporate developments; the ability to attract and retain qualified employees; market competition in the rapidly evolving information technology industry; general economic and business conditions; foreign exchange and other risks identified in the MD&A in CGI Group Inc.'s Annual Report or Form 40-F filed with the U.S. Securities and Exchange Commission ("SEC"); the Company's Annual Information Form filed with the Canadian securities commissions; on the Registration Statement on Form F-4 filed with the SEC in connection with the acquisition of IMRglobal; and with the Forms 10-K and 10-Q of IMRglobal filed with the SEC for the periods ended December 31, 2000 and March 31, 2001 respectively. All of the risk factors included in these filed documents are included here by reference. CGI disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Notes to the Consolidated Financial Statements  
(tabular amounts only are in thousands of Canadian dollars, except share data)  
(unaudited)

### Note 1 - Summary of significant accounting policies

These interim Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements of the Company and notes thereto for the year ended September 30, 2001.

These interim Consolidated Financial Statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies as outlined in Note 2 to the Consolidated Financial Statements for the year ended September 30, 2001, except as noted below. Certain comparative figures in the Consolidated Financial Statements have been reclassified to conform to the current period presentation.

On October 1, 2001, the Company adopted the new recommendations of the Canadian Institute of Chartered Accountants ("CICA") Handbook Sections 1581, Business Combinations, and 3062, Goodwill and Other Intangible Assets. Under the revised Section 1581, all business combinations are accounted for using the purchase method. Additionally, under Section 3062, goodwill and intangible assets with an indefinite life are no longer amortized to earnings and are assessed for impairment on an annual basis, including a transitional impairment test whereby any resulting impairment will be charged to opening retained earnings. In fiscal 2002, the effect of the non-amortization of goodwill will result in an increase in the consolidated net earnings of approximately \$28,800,000. The Company has completed the transitional impairment test and concluded that no goodwill impairment charge needs to be recorded.

The CICA also issued Handbook Section 3870, Stock-based Compensation and Other Stock-based Payments. This new section which is effective for fiscal years commencing on or after January 1, 2002, establishes standards for the recognition, measurement and disclosure of stock-based compensation made in exchange for goods and services. The section requires the use of the fair value

## Edgar Filing: CGI GROUP INC - Form 6-K

method to account for awards to non-employees and direct awards of stock to employees and encourages, but does not require, the use of the fair value method to account for stock-based compensation costs arising from awards to employees. The new standard requires pro forma disclosures relating to net earnings and earnings per share figures as if the fair value method of accounting had been used. The Company is currently evaluating the effect that implementation will have on its Consolidated Financial Statements.

### Note 2 - Capital stock and warrants

Capital stock - Class A subordinate shares carrying one vote per share, participating equally with Class B shares with respect to the payment of dividends and convertible into Class B shares under certain conditions in the event of certain takeover bids on Class B shares.

Class B shares, carrying 10 votes per share, participating equally with Class A subordinate shares with respect to the payment of dividends and convertible at any time at the option of the holder into Class A subordinate shares.

Options - Under a Stock option plan for certain employees and directors of the Company and its subsidiaries, the Board of Directors may grant, at its discretion, options to purchase company stock to certain employees and directors of the Company and of its subsidiaries. The exercise price is established by the Board of Directors but may not be lower than the average closing price for Class A subordinate shares over the five business days preceeding the date of grant. Options generally vest one to three years from the date of the grant and must be exercised within a 10-year period, except in the event of retirement, termination of employment or death.

Warrants - In connection with the signing of a strategic outsourcing contract and of a business acquisition, the Company granted warrants entitling the holders to subscribe to up to 5,118,210 Class A subordinate shares. The exercise prices were determined using the average closing price for Class A subordinate shares at a date and for a number of days around the respective transaction dates. The warrants vest upon signature of the contracts or date of business acquisition and have an exercise period of five years. As at March 31, 2002, there were 5,118,210 warrants issued and outstanding, 4,000,000 of which are exercisable at a price of \$6.55 per share and expire April 30, 2006 and remaining 1,118,210 are exercisable at a price of \$8.88 per share expiring June 13, 2006. The fair values of the warrants were estimated at their respective grant dates at \$19,655,000 using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 4.9%, dividend yield of 0.0%, expected volatility of 57.7% and expected life of five years.

In addition to the warrants to purchase up to 5,118,210 Class A subordinate shares referred to above and issued in connection with the signing of a strategic outsourcing contract and of a business acquisition the "Initial Warrants", CGI issued to the Majority Shareholders and BCE warrants (the "Pre-emptive Rights Warrants") to subscribe in the aggregate up to 3,865,014 Class A subordinate shares and 697,044 Class B shares pursuant to the exercise of their pre-emptive rights contained in the articles of incorporation of CGI, with substantially similar terms and conditions as those of the Initial Warrants. The Pre-emptive Rights Warrants may be exercised by BCE and the Majority Shareholders only to the extent that the holders of the Initial Warrants exercise such Initial Warrants.

### Notes to the Consolidated Financial Statements

(tabular amounts only are in thousands of Canadian dollars, except share data)  
(unaudited)

Note 2 - Capital stock and warrants (cont'd)

## Edgar Filing: CGI GROUP INC - Form 6-K

Furthermore, subject to regulatory approval, the Company has undertaken in favour of a holder of Initial Warrants to purchase up to 4,000,000 Class A subordinate shares to issue promptly after April 30, 2006 (the "Expiration Date") replacing warrants (the "Extended Warrants") to purchase Class A subordinate shares equal to the number of Class A subordinate shares not purchased by such holder under terms of the Initial Warrants on the Expiration Date. The Extended Warrants will have substantially similar terms and conditions as those of the Initial Warrants, except for the exercise price which will be based upon the closing price of the Class A subordinate shares on the TSE on the date preceding the issuance of the Extended Warrants.

The following table presents information concerning capital stock issued and paid and all stock options and warrants as at March 31, 2002:

Note 3 - Business acquisition

During the three months ended March 31, 2002, the Company finalized the purchase price allocation of IMRglobal Corp. ("IMR") acquired by the Company on July 27, 2001. From the initial price allocation as per Note 9 to the Consolidated Financial Statements of the Company for the year ended September 30, 2001, this final assessment resulted in an increase of Contract costs and other long-term assets of \$7,577,000, a decrease of Goodwill of \$4,925,000 and a decrease of Future income taxes of \$2,652,000.

During the three months ended March 31, 2002, the Company also finalized the initial purchase price allocation for other acquisitions completed during 2001. In addition, AGTI Consulting Services Inc., in which the Company holds a 49% interest, increased its interest in one of its own subsidiary. The net effect of these transactions totalled \$1,301,000 as follows:

	Total
-----	
	\$
Working capital items	103
Fixed assets	26
Goodwill	1,172
-----	
	1,301

Note 4 - Segmented information

Effective October 1, 2001, the Company changed its organizational structure. The Company has three strategic business units ("SBU"), organized according to the following breakdown: Canada and Europe, US and Asia Pacific, and Business Process Services ("BPS"). The Company evaluates each SBU's performance under this structure and reports segmented information on that basis.

The following presents information on the Company's operations based on its new organizational structure.

As at and for the three months ended March 31, 2002	Canada and Europe	US and Pacific	exp BPS
	\$	\$	\$
Revenue	445,540	82,107	22,387
Operating expenses	360,062	75,552	17,652
-----			
Earnings before the under-noted:	85,478	6,555	4,735
Depreciation and amortization	18,588	2,648	1,075
-----
