FOR IMMEDIATE RELEASE

CGI Reports Strong Growth in Fiscal 2002

Montreal, November 5, 2002 - CGI Group Inc. (NYSE: GIB; TSX: GIB.A), a leading provider of end-to-end information technology and business processing services, today reported audited results for the year ended September 30, 2002. All figures are in Canadian dollars unless otherwise indicated.

Fiscal Year 2002 Highlights

- o Revenue of \$2,169.6 million was 39.0% higher than in fiscal 2001.
- o Net earnings for the year increased 51.0% to \$135.8 million, from comparable cash net earnings of \$89.9 million reported for fiscal 2001.
- o Basic net earnings per share of \$0.36 for fiscal 2002 were up over comparable cash net earnings per share of \$0.30 reported for fiscal 2001, after giving effect to a 26.0% increase in the weighted average number of shares outstanding.
- o EBITDA, EBIT and net earnings margins all improved from last year, reflecting improved synergies realized from acquisitions and new outsourcing contracts.
- o Cash flow from operating activities was \$177.4 million.
- o The current backlog of signed contracts stands at \$10.4 billion with a weighted average remaining contract term of 7.7 years.
- o The current pipeline of bids for large outsourcing contracts being reviewed by potential clients remains robust at \$5 billion.

"CGI delivered a very strong year of growth, despite a challenging operating environment," said Serge Godin, chairman and CEO. "In Canada, where market conditions remain stable, our position as the leading provider of end-to-end IT services and our deep client partnerships helped us win new contracts, add-on projects, renewals and extensions for outsourcing, systems integration and consulting services."

Mr. Godin added, "The systems integration and consulting business in the US and in France is still difficult and a return to solid spending levels is not expected before 2004. In the meantime, we are leveraging our existing client relationships in these geographies and becoming even more aggressive in the US IT and business process outsourcing markets, where demand is strong and expected to remain strong."

In fiscal 2002, CGI made five acquisitions, invested in one joint venture company and booked over \$3.5 billion in contract wins, renewals and extensions. As at September 30, 2002, CGI and its affiliated companies employed 14,600 people in 60 offices around the world.

Fourth Quarter Results (See also: Q4 MD&A filed with Sedar & Edgar and available at www.cgi.com) Revenue for the fourth quarter ended September 30, 2002 increased 23.8% to \$571.9 million, from \$461.9 million in the same quarter last year, and was up 3.3% sequentially over third quarter revenue of \$553.4 million. The year-over-year organic growth of 20.6% was driven by a combination of new client wins, renewals, and add-on projects from existing clients.

In the fourth quarter, revenue from long-term outsourcing contracts represented 75% of the Company's total revenue, including 16% from business processing services, while project oriented consulting and systems integration work represented 25%. Geographically, clients in Canada represented 76% of revenue; clients in the US represented 18%; and all other regions, 6%. Revenue from clients in the financial services sector remained strong, representing 40% of revenue; while telecom represented 25%; manufacturing, retail and distribution clients, 14%; government clients, 13%; utilities and services, 6%; and healthcare, 2%. The changes in revenue mix, when compared to the third quarter, were primarily a result of revenue recognized by Innovapost, a joint-venture with Canada Post, for IT outsourcing contracts.

Earnings before depreciation and amortization of fixed assets, amortization of contract costs and other long-term assets, interest and income taxes ("EBITDA")¹ for the fourth quarter increased 21.2% to \$82.4 million, compared with \$68.0 million in the same quarter a year ago, and increased 1.5% on a sequential basis compared with \$81.2 million reported in the third quarter. The EBITDA margin was 14.4% in the fourth quarter, compared with 14.7% in last year's fourth quarter and 14.7% at the end of the third quarter.

Earnings before interest and income taxes ("EBIT"), was \$60.1 million in the fourth quarter, up 19.1% over last year's fourth quarter EBIT of \$50.5 million, but down 3.7% over third quarter EBIT of \$62.4 million. The EBIT margin was 10.5% for the quarter, compared with 10.9% in last year's fourth quarter and

Edgar Filing: CGI GROUP INC - Form 6-K

11.3% in the third quarter. The decrease in EBIT compared to last quarter is related to higher amortization of contract costs and other long-term assets, specifically the ramp-up of Innovapost, as well as certain enterprise license agreements purchased in the third and fourth quarters.

1 EBITDA is equal to earnings before depreciation and amortization, interest and income taxes. EBITDA is presented because it is a widely accepted financial indicator of a company's ability to service and incur debt. EBITDA should not be considered by an investor as an alternative to operating income or net earnings, as an indicator of operating performance or of cash flows or as a measure of liquidity. Because EBITDA is not a measurement determined in accordance with Canadian GAAP, EBITDA as presented may not be comparable to similarly titled measures of other companies.

Net earnings in the fourth quarter were \$35.5 million, up 30.3% against comparable earnings before amortization of goodwill (cash net earnings)² of \$27.3 million in the same quarter a year ago, but down slightly from \$36.5 million reported in the third quarter. Net earnings per share were \$0.09 for the quarter, compared with cash net earnings per share of \$0.08 reported in last year's fourth quarter, and \$0.10 reported in the third quarter of fiscal 2002. The net margin was 6.2%, compared with 6.6% in the third quarter and cash net margin of 5.9% in the fourth quarter of fiscal 2001. The sequential decrease is reflective of the EBIT decrease explained above. Earnings per share were calculated on 380.3 million weighted average shares outstanding, an increase of 10.7% more shares outstanding year-over-year.

CGI continues to maintain a strong balance sheet and cash position, which together with bank lines are sufficient to support the Company's growth strategy and represent a competitive strength when proposing on outsourcing contracts. At September 30, 2002, the total credit facility available amounted to \$249.1 million. Additionally, as of September 30, 2002, CGI had cash and cash equivalents of \$104.2 million, compared with \$122.9 million as of June 30, 2002. The decrease in cash is primarily a result of the reimbursement of the Libor advance debt for US\$20 million and the purchase of an enterprise license agreement.

Fourth Quarter Operating Highlights

CGI's growth prospects and solid backlog were improved during the quarter as a result of investments and operational initiatives. In the quarter, CGI:

- o Announced \$521.1 million in new contract bookings, renewals and extensions.
- o Closed the acquisition of privately-held IMPLETECH International Inc. with revenue valued at \$5 million. Twenty professionals, located mostly in Toronto, joined CGI with a focus on enterprise resource planning (ERP) implementation to clients within the automotive, food and beverage, pharmaceutical and industrial/electronic sectors.
- o Signed its first finance and accounting business process services outsourcing contract with GrafTech International Ltd (formerly UCAR International Inc.) (NYSE: GTI), a 10-year contract valued at US\$36 million. CGI will deploy best practices to optimize transactional activities, including accounts payable and accounts receivable as well as perform certain analytical functions such general accounting, cost accounting and analysis activities.

Initiatives and Outlook

As stated in September, CGI expects base revenue for its 2003 fiscal year to be between \$2.4 and \$2.6 billion and net earnings per share to be in the range of \$0.43 to \$0.47. This guidance is based on information known today about market conditions and demand for its services and excludes the impact of any acquisition or large outsourcing contract contributing more than \$100 million per year in revenue.

Margin improvement is a critical financial objective and will be realized in future quarters through further synergies from large outsourcing contracts, ongoing integration of acquisitions and a gradual reduction in SG&A expenses.

Mr. Godin added, "Our 2003-2005 strategic plan focuses on realizing CGI's vision -- to become a world-class leader in information technology and business process outsourcing, recognized as a partner of choice by our clients. We will provide our clients with quality services and value, our members with challenging opportunities to grow and we will generate solid returns for our shareholders. Our objective is to achieve double-digit growth over each of the next three years

2 In accordance with recommendations of the Canadian Institute of Chartered Accountants (CICA), effective October 1, 2001 CGI stopped recording the amortization of goodwill. As such, net earnings and earnings before amortization of goodwill (cash net earnings) are equivalent. For purposes of clarity and ease of comparison, CGI compares net earnings results to cash net earnings figures provided in year-over-year comparisons.

in order to reach \$3.5 billion in revenues by fiscal 2005, with continued improvement in our key financial ratios."

"To realize our vision, our priority is on execution. CGI's growth has been and will continue to be driven by our disciplined financial approach to growth - winning smaller contracts, renewals and add-on projects; securing large IT & BPO outsourcing contracts, and making niche as well as large strategic acquisitions. Our pipeline of \$5 billion in outstanding proposals is made up of large and mid-sized contracts, including a growing number of opportunities from US-based clients. Our financial position which is as strong as ever, our unique global delivery model, and our deep client relationships give us confidence in the ability to turn our pipeline into backlog and deliver even better results going forward."

Notes to the Consolidated Financial Statements
 For the twelve months ended September 30, 2002
 (tabular amounts only are in thousands of Canadian dollars, except share data)
 (unaudited)

Note 1 - Summary of significant accounting policies

These interim Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements of the Company and notes thereto for the year ended September 30, 2001.

These interim Consolidated Financial Statements have been prepared in accordance with Canadian generally accepted accounting principles, using the same accounting policies as outlined in Note 2 to the Consolidated Financial Statements for the year ended September 30, 2001, except as noted below. Certain comparative figures in the Consolidated Financial Statements have been reclassified to conform to the current period presentation.

On October 1, 2001, the Company adopted the recommendations of the Canadian Institute of Chartered Accountants ("CICA") Handbook Sections 1581, Business Combinations, and 3062, Goodwill and Other Intangible Assets. Under the revised Section 1581, all business combinations are accounted for using the purchase method. Additionally, under Section 3062, goodwill and intangible assets with an indefinite life are no longer amortized to earnings and are assessed for impairment on an annual basis, including a transitional impairment test whereby any resulting impairment is charged to opening retained earnings. In fiscal 2002, the effect of the non-amortization of goodwill will result in an increase in the consolidated net earnings of approximately \$28,800,000. During the second quarter ended March 31, 2002, the Company completed the transitional impairment test and concluded that no goodwill impairment charge needed to be recorded. The Company intends to perform its annual review of goodwill as of September 30 of each year. Based on the impairment test performed as of September 30, 2002, the Company concluded that no goodwill impairment charge was required.

On April 1, 2002, the Company early adopted the recommendations of Handbook Section 3870, Stock-Based Compensation and Other Stock-Based Payments. This Section establishes standards for the recognition, measurement and disclosure of stock-based compensation made in exchange for goods and services and requires the use of the fair value method to account for awards to non-employees and direct awards of stock to employees and encourages, but does not require, the use of the fair value method to account for stock-based compensation costs arising from awards to employees. The Section also requires pro forma disclosure relating to net earnings and earnings per share figures as if the fair value method of accounting had been used. The Company has chosen not to use the fair value method to account for stock-based compensation costs arising from awards to employees. The pro forma disclosure is presented in Note 3.

Note 2 - Preparation of Consolidated Financial Statements

Edgar Filing: CGI GROUP INC - Form 6-K

Amortization of incentives related to outsourcing contracts

During the year ended September 30, 2002, the Company modified the presentation of the amortization related to incentives granted on outsourcing contracts based on recently issued EITF 01-9, Accounting for consideration given by a vendor to a customer, by the Financial Accounting Standards Board's Emerging Issues Task Force ("EITF"). The amortization of incentives is now presented as a reduction of revenue as opposed to being shown as amortization of contract costs and other long-term assets. Furthermore, the Company also reclassified discounts granted on an existing outsourcing contract which were previously presented in the costs of services, selling and administrative expenses. For comparative purposes, revenue for the quarter and year ended September 30, 2001 has been reduced by \$7,111,000 and \$20,924,000 respectively, amortization of contract costs and other long-term assets has been reduced by \$4,611,000 and \$10,274,000 respectively and costs of services, selling and administrative expenses has been reduced by \$2,500,000 and \$10,650,000 respectively.

Foreign currency translation adjustment

During the quarter ended December 31, 2001, the Company revised the calculation of the foreign currency translation adjustment in order to use the current rate as opposed to the historical rate upon translation of the goodwill related to its self-sustaining foreign subsidiaries. This adjustment resulted in an increase of \$21,197,000 of the foreign currency translation adjustment and goodwill as at September 30, 2001.

Page 4

Accounts receivable and deferred revenue

During the year ended September 30, 2002, the Company's management changed the presentation related to accounts receivable and deferred revenue for the month-end advance billing on outsourcing contracts. Accordingly, accounts receivable and deferred revenue were both reduced by \$34,511,000 as at September 30, 2001.

Goodwill and integration liability

During the quarter ended June 30, 2002, the Company reviewed its interpretation of the accounting treatment for integration costs accrued for in connection with business acquisitions; accordingly, the integration liability originally accrued for in 2001 in connection with the acquisition of IMRglobal Corp. ("IMRglobal" or "IMR") was reduced by \$20,810,000. As a result, goodwill and future income tax assets recorded in connection with the acquisition also decreased by \$17,027,000 and \$3,783,000 respectively.

Note 3 - Capital stock, stock options and warrants

Capital stock - Class A subordinate shares carrying one vote per share, participating equally with Class B shares with respect to the payment of dividends and convertible into Class B shares under certain conditions in the event of certain takeover bids on Class B shares.

Class B shares, carrying 10 votes per share, participating equally with Class A subordinate shares with respect to the payment of dividends and convertible at any time at the option of the holder into Class A subordinate shares.

Stock options - Under a Stock option plan for certain employees and directors of the Company and its subsidiaries, the Board of Directors may grant, at its discretion, options to purchase company stock to certain employees and directors

Edgar Filing: CGI GROUP INC - Form 6-K

of the Company and of its subsidiaries. The exercise price is established by the Board of Directors but may not be lower than the average closing price for Class A subordinate shares over the five business days preceding the date of the grant. Options generally vest one to three years from the date of the grant and must be exercised within a 10 year period, except in the event of retirement, termination of employment or death.

Had compensation cost been determined using the fair value method at the day of grant for awards granted since October 1, 2001 under this stock option plan, the Company's pro forma net earnings, basic and diluted earnings per share would have been \$34,354,000, \$0.09 and \$0.09, respectively, for the quarter ended September 30, 2002 and would have been \$131,669,000, \$0.35 and \$0.35 respectively for the year ended ended September 30, 2002. These pro forma amounts include a compensation cost based on a weighted-average grant date fair value of \$4.27 per stock option for 1,096,101 stock options (net of cancellation) granted during the year ended September 30, 2002, as calculated using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 4.60%, dividend yield of 0.0%, expected volatility of 48.7% and expected life of five years. As permitted by the Handbook Section 3870, the pro forma disclosure omits the effect of awards granted before October 1, 2001.

In connection with a business acquisition completed in fiscal 2001, where outstanding stock options of the acquiree became options to acquire CGI Class A subordinate shares, the Company recorded 3,357,962 vested options out of a total of 8,424,502 options outstanding as a purchase consideration of \$16,519,000 representing the estimated fair value of the outstanding vested stock options of the acquiree at the date of acquisition.

Warrants - In connection with the signing of a strategic outsourcing contract and of a business acquisition, the Company granted warrants entitling the holders to subscribe to up to 5,118,210 Class A subordinate shares. The exercise prices were determined using the average closing price for Class A subordinate shares at a date and for a number of days around the respective transaction dates. The warrants vest upon signature of the contract, or date of business acquisition, and have an exercise period of five years. As at September 30, 2002 and 2001, there were 5,118,210 warrants issued and outstanding, 4,000,000 of which are exercisable at a price of \$6.55 per share and expire April 30, 2006, and the remaining 1,118,210 are exercisable at a price of \$8.78 per share expiring June 13, 2006. The fair values of the warrants, totaling \$19,655,000, were estimated at their respective grant dates using the Black-Scholes option pricing model with the following assumptions: risk-free interest rate of 4.9%, dividend yield of 0.0%, expected volatility of 57.7% and expected life of five years.

In addition to the warrants to purchase up to 5,118,210 Class A subordinate shares referred to above and issued in connection with the signing of a strategic outsourcing contract and of a business acquisition (the "Initial Warrants"), CGI issued to the Majority Shareholders and BCE warrants (the "Pre-emptive Rights Warrants") to subscribe in the aggregate up to 3,865,014 Class A subordinate shares and 697,044 Class B shares pursuant to the exercise of their pre-emptive rights contained in the articles of incorporation of CGI, with

substantially similar terms and conditions as those of the Initial Warrants. The Pre-emptive Rights Warrants may be exercised by BCE and the Majority Shareholders only to the extent that the holders of the Initial Warrants exercise such Initial Warrants.

Edgar Filing: CGI GROUP INC - Form 6-K

Furthermore, subject to regulatory approval, the Company has undertaken in favor of a holder of Initial Warrants to purchase up to 4,000,000 Class A subordinate shares to issue promptly after April 30, 2006 (the "Expiration Date") replacing warrants (the "Extended Warrants") to purchase Class A subordinate shares equal to the number of Class A subordinate shares not purchased by such holder under terms of the Initial Warrants on the Expiration Date. The Extended Warrants will have substantially similar terms and conditions as those of the Initial Warrants, except for the exercise price which will be based upon the closing price of the Class A subordinate shares on the Toronto Stock Exchange ("TSX") on the date preceding the issuance of the Extended Warrants.

The following table presents the number of all shares, stock options and warrants outstanding as at September 30:

Note 4 - Investments in subsidairies and joint ventures

For all business acquisitions, the Company began recording the results of operations of the acquired entities as of their respective effective acquisition dates.

During fiscal 2002, the Company completed five acquisitions of IT consulting firms for considerations ranging between \$2,100,000 and \$7,000,000, for an aggregate consideration of \$24,988,000 including acquisition costs of approximately \$503,000 and the issuance of 210,739 Class A subordinate shares at a price of \$10.73 per share. The Company acquired 100% of the outstanding shares of the businesses except in two cases, where assets were acquired.

The acquisitions were accounted for using the purchase method and the total initial purchase price allocation is as follows:

	\$
Non cash working capital items	(2,686)
Future income taxes	933
Fixed assets	1,271
Contract costs and other long-term assets	2,166

Cash (including acquisition cost)	20,121
Balance of purchase price	2,606
Issuance of 210,739 Class A subordinate shares (2)	2,261
	24,988

(1) Goodwill includes an amount of \$9,292,000 for tax purposes. Of the total goodwill amount, \$10,986,000 is included in the US and Asia Pacific segment and the remaining \$12,063,000 is included in the Canada and Europe segment.

(2) The per share value of the shares issued as consideration for one of the

business acquisitions was determined using the average closing share price on the TSX over a reasonable period before and after the date the terms of the business combination were agreed to and announced.

In May 2002, the Company acquired, for a cash consideration of \$26,000,000, a 49% interest in a newly created joint venture, Innovapost. The Company also paid, through Innovapost, an incentive payment of \$26,000,000 to Canada Post Corporation, its partner in the joint venture, for the signing of a 10 year outsourcing contract. The aggregate consideration paid of \$52,000,000 was accounted for as contract costs and other long-term assets in accordance with its substance and will be amortized over the term of the contract.

During the year, the Company sold its Australian and Japanese operations for an aggregate cash consideration of \$10,365,000 with no resulting gain.

During the quarter ended June 30, 2002, the Company finalized the purchase price allocation to the assets and liabilities acquired from Confederation des caisses populaires et d'economie Desjardins du Quebec on May 1, 2001. From the initial purchase price allocation as per Note 9 to the Consolidated Financial Statements of the Company for the year ended September 30, 2001, this assessment resulted in a decrease of the integration costs accrual of \$2,864,000, a decrease of goodwill of \$1,805,000 and a decrease of future income tax assets of \$1,059,000.

Furthermore, during the twelve months ended September 30, 2002, the Company reviewed the purchase price allocation of IMRglobal acquired on July 27, 2001. From the initial purchase price allocation as per Note 9 to the Consolidated Financial Statements of the Company for the year ended September 30, 2001, the reclassification resulted in a decrease of non cash working capital items of \$3,947,000, an increase of contract costs and other long-term assets of \$7,577,000, a decrease of goodwill of \$978,000 and a decrease of future income tax assets of \$2,652,000.

The schedule below reflects the payments made and the remaining balance of accrued acquisition and integration costs related to IMR.
