for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If delivery of the prospectus is expected to be made pursuant to Rule 434, please check the following box.

CALCULATION OF REGISTRATION FEE

TITLE OF EACH CLASS OF SECURITIES TO BE REGISTERED	AMOUNT TO BE REGISTERED	PROPOSED MAXIMUM OFFERING PRICE PER UNIT	PROPOSED MAXIMUM AGGREGATE OFFERING PRICE
common stock, par value \$0.01 per share, underlying preferred stock	2,144,750 shares(1)	\$1.00 ((2))	\$2,144,750
common stock, par value \$0.01 per share, underlying warrants	932,500 shares(1)	\$2.00 ((2))	\$1,865,000
common stock, par value \$0.01 per share, underlying warrants	186,500 shares(1)	\$1.00 ((2))	\$186,500
TOTAL.....	3,263,750 shares(1)		\$4,196,250

(1) The Registrant has completed a private placement to accredited investors of units consisting of shares of the Registrant's Series A Convertible Preferred Stock and Warrants to purchase shares of the Registrant's Common Stock (the "Private Placement"). The Registrant is registering for resale (i) 1,865,000 shares of Common Stock issuable upon conversion of shares of the Series A Convertible Preferred Stock, (ii) 279,750 shares of Common Stock, representing the Registrant's estimate of the maximum number of shares of Common Stock issuable upon conversion of accrued dividends on the shares of Series A Convertible Preferred Stock, (iii) 932,500 shares of Common Stock issuable upon exercise of the Common Stock Purchase Warrants issued to the purchasers in the Private Placement, and (iv) 186,500 shares of Common Stock issuable upon the exercise of the Common Stock Purchase Warrants issued to the placement agent in the Private Placement. Pursuant to Rule 416 under the Securities Act, the shares being registered hereunder include such indeterminate number of shares of Common Stock as may be issuable with respect to the shares being registered hereunder as a result of stock splits, stock dividends or similar transactions affecting the shares to be offered by the selling shareholders..

(2) Represents the higher of: (i) the exercise prices of the convertible security and (ii) the offering price of securities of the same class as the common stock underlying the convertible security calculated in accordance with Rule 457(c) under the Securities Act, for the purpose of calculating the registration fee pursuant to Rule 457(g) under the Securities Act.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

(3) All of which registration fee has previously been paid.

The Registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

PRELIMINARY PROSPECTUS

SUBJECT TO COMPLETION DATED JUNE 14, 2005

SYSCAN IMAGING, INC.

3,263,750 SHARES OF COMMON STOCK

This prospectus relates to the public offering of up to 3,263,750 shares of our common stock, par value \$0.001 per share, for sale by the selling stockholders for their own account. These shares include up to 1,865,000 shares of common stock issuable upon conversion of the Series A Convertible Preferred Stock, 279,750 shares of common stock issuable as a result of the conversion of accrued dividends on the shares of Series A Convertible Preferred Stock and up to 1,119,000 shares of common stock issuable upon the exercise of warrants. We will pay the expenses of registering these shares.

Our common stock is quoted on the NASD's Over The Counter Bulletin Board (OTCBB) under the symbol "SYII". On June 13, 2005, the closing sales price for the common stock on the OTCBB was \$0.80 per share.

To the extent they wish to sell their shares of our common stock as provided for herein, the selling stockholders may offer and sell such shares on a continuous or delayed basis in the future. These sales may be conducted in the open market or in privately negotiated transactions and at market prices, fixed prices or negotiated prices. We will not receive any of the proceeds from the sale of the shares of common stock owned by the selling stockholders, but we will receive funds from the exercise of their warrants upon exercise. Any such proceeds will be used by us for working capital and general corporate purposes. Prospective investors should read this prospectus and any amendment or supplement hereto together with additional information described under the heading "Available Information."

Our principal executive offices are located at 1772 Technology Drive, San Jose, California 95110. Our telephone number is (408) 436-9888.

AN INVESTMENT IN THE SHARES OF OUR COMMON STOCK BEING OFFERED BY THIS PROSPECTUS INVOLVES A HIGH DEGREE OF RISK. YOU SHOULD READ THE "RISK FACTORS" SECTION BEGINNING ON PAGE 4 BEFORE YOU DECIDE TO PURCHASE ANY SHARES OF OUR COMMON STOCK.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ADEQUACY OR ACCURACY OF THE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this prospectus is _____, 2005.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

You should rely only upon the information contained in this prospectus and the registration statement of which this prospectus is a part. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. We are not making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume the information appearing in this prospectus is accurate only as of the date on the front cover of this prospectus. Our business, financial condition, results of operations and prospects may have changed since that date. This prospectus is based on information provided by us and other sources that we believe are reliable. We have summarized certain documents and other information in a manner we believe to be accurate, but we refer you to the actual documents for a more complete understanding of what we discuss in this prospectus. In making an investment decision, you must rely on your own examination of our business and the terms of the offering, including the merits and risks involved.

PROSPECTUS SUMMARY

THE FOLLOWING SUMMARY HIGHLIGHTS SELECTED INFORMATION CONTAINED IN THIS PROSPECTUS. THIS SUMMARY DOES NOT CONTAIN ALL OF THE INFORMATION YOU SHOULD CONSIDER BEFORE INVESTING IN THE SECURITIES. BEFORE MAKING AN INVESTMENT DECISION, YOU SHOULD READ THE ENTIRE PROSPECTUS CAREFULLY, INCLUDING THE RISK FACTORS SECTION, THE FINANCIAL STATEMENTS AND THE NOTES TO THE FINANCIAL STATEMENTS. IN THIS PROSPECTUS AND ANY AMENDMENT OR SUPPLEMENT HERETO, UNLESS OTHERWISE INDICATED, THE TERMS "SYSCAN IMAGING, INC.", "SYII", "WE", "US", AND "OUR" REFER AND RELATE TO SYSCAN IMAGING, INC. AND ITS CONSOLIDATED SUBSIDIARIES.

OUR BUSINESS

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

We are in the business of developing, designing and delivering imaging technology solutions. We currently have 14 issued patents held by us all of which are U.S. patents. Our technology is also covered by 5 issued patents in Taiwan. We also have 3 patent applications currently pending with the US Patent & Trademark Office, 2 of which relate to image display technology and one of which relates to image scanning. Our approach to research and development (R&D) is focused on creating new deliverable and marketable technologies. We sell our products to clients' throughout the world, including the United States, Canada, Europe, South America, Australia and Asia. We intend to expand our business and product offerings into the much larger image display market where we intend to leverage our experience and expertise. We also believe that we may benefit from a level of transfer of technologies from image capture to image display.

Our wholly-owned operating subsidiary, Syscan, Inc. ("SI"), was incorporated on May 1, 1995, under the laws of the State of California and is headquartered in San Jose with additional strategic offices in Arnhem (the Netherlands). Our majority stockholder is Syscan Imaging Limited, which is wholly-owned by Syscan Technology Holdings Limited. Syscan Technology Holdings Limited is a publicly-held company incorporated in Bermuda whose shares are listed on The Growth Enterprise Market of The Stock Exchange of Hong Kong Limited.

Our strategy is to expand our image capture product line and technology while leveraging our assets in other areas of the imaging industry. We are actively shipping five image capture products under the Travel Scan marquee or their OEM counterparts. The Travel Scan series features portable lightweight scanning in color and black & white with low power consumption that requires no power adapter. In addition to the Travel Scan product line, we also manufacture and sell the Contact Image Sensor (CIS) Modules that we use in our products and separately as a component to other manufacturers. These manufacturers, that we sell our modules to, integrate our modules into their products. The product application typically includes check and currency scanners, copiers, and fax machines, and they resell the finished product to the retailer.

We intend to expand our image capture product line with three new products, each of which we intend to release in 2005. The first product is a high-quality true-duplex high-speed A4 scanner in which our customers have expressed interest. Several OEM and VAR brands have formally agreed to partner with us in the product launch. The second product is an A6 scanner that follows in the footsteps of the current 662 but is high speed and allows true duplex scanning, allowing image capture of both sides of a two-sided document simultaneously. The third product is a specialized security document scanner that utilizes infrared light sources to help in the process of identifying fraudulent or tampered with documents. With the growing concerns over Homeland Security and the implementation of the Patriot Act in the United States, we believe this product has the ability to address these evolving security requirements and needs. We believe that this product not only addresses today's security scanning needs, but also anticipates the proliferation of new technologies such as digital watermarking.

1

Over the past twelve months we have begun focusing our sales and marketing efforts substantially towards the vertical markets such as the Value Added Reseller (VAR) and small-office-home-office (SOHO) markets. We believe focusing on these markets is the most effective way to showcase our technological capabilities and manufacturing efficiencies, while enabling us to maintain higher margins, and require fewer resources than working directly with the mass retailers.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

While we continue to grow our presence in image capture technology, we have begun creating, through research and development, new technology solutions for the substantially larger, image display market. More specifically we are creating products and technologies to accent and enhance the Liquid Crystal Display (LCD) television market. Our first image display product, expected to be available for delivery during 2006 is the Syscan View Tech image/video display processor. The View Tech control board is a highly integrated, high performance video processor that combines state-of-the-art scaling and video processing techniques for displaying analog and digital video/graphics on a LCD-TV/DTV display. We believe that this product will provide advanced image processing that will greatly enhance LCD display quality. Its state-of-the-art design incorporates a system-on-chip (SOC) that improves any pixilated multimedia video. The next product/technology that we are developing is a Light Emitting Diode (LED) backlighting solution to replace the industries current standard Cold Cathode Fluorescent Lamp (CCFL). The principal behind this technology is related to the proprietary technology used in our image capture products. The benefits are substantial, including longer life, higher dimming ratio, sharper contrast, and near high definition resolution without filters, all at a performance value.

In addition to future products and technologies in various stages of research and development, one of our objectives is to acquire companies in the image capture and display industry that could compliment our business model, improve our competitive positioning and expand our offerings to the marketplace, of which there can be no assurance, and of which we do not currently have any acquisitions targeted. In identifying potential acquisition candidates we will seek to acquire companies with varied distribution channels, rich intellectual property (IP) and high caliber engineering personnel.

We intend to finance our research and development, commercialization and distribution efforts and our working capital needs primarily through cash flow generated from operations, our line of credit and through funding from other sources, including debt financing and equity financing. While there can be no assurance that such sources will provide adequate funding for our operations, management believes such sources will be available to us.

Our principal executive offices are located at 1772 Technology Drive, San Jose, California 95110 and our phone number (408) 436-9888.

SERIES A PREFERRED STOCK FINANCING

On March 15, 2005, we sold \$1.865 million of our Series A Preferred Stock to accredited investors. Net proceeds from the financing will be used for marketing and sales, research and development opportunities and for general working capital purposes.

The Series A Preferred Stock is convertible into shares of our common stock at a conversion price of \$1.00 per share and each holder is entitled to receive interest at a rate of 5.0% per annum. In connection with the financing, we also issued to the selling stockholders common stock purchase warrants to purchase up to 932,500 shares of our common stock at a price equal to \$2.00 per share. Starboard Capital Markets, LLC, an NASD member firm, acted as placement agent in the sale of our Series A Preferred Stock and received a cash commission of \$186,500 and warrants to purchase up to 186,500 shares of our common stock at an exercise price of \$1.00 per share.

We have agreed, pursuant to a registration rights agreement, to register

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

the shares of common stock underlying the Series A Preferred Stock and warrants, and are fulfilling our agreement by filing the registration statement of which this prospectus is a part with the Securities and Exchange Commission.

THE OFFERING

Outstanding Common Stock 23,110,515 shares as of the date of this prospectus.

Common Stock Offered Up to 3,263,750 shares of common stock, including up to 1,865,000 shares of common stock issuable upon conversion of the Series A Preferred Stock, 279,750 shares of common stock issuable as a result of the conversion of accrued dividends on the shares of Series A Convertible Preferred Stock, up to 932,500 shares of common stock issuable upon the exercise of warrants, which warrants have an exercise price of \$2.00 per share, and up to 186,500 shares of common stock issuable upon the exercise of warrants, which have an exercise price of \$1.00 per share.

Proceeds We will not receive any proceeds from the sale of the common stock issuable upon conversion of the Series A Preferred Stock that may be sold pursuant to this prospectus. We will, however, receive proceeds upon the exercise of the warrants which, if all such warrants are exercised in full, would be \$2,051,500. The selling stockholders are under no obligation to exercise their warrants. Proceeds, if any, received from the exercise of warrants will be used for general corporate purposes.

Risk Factors The securities offered hereby involve a high degree of risk. See "Risk Factors."

OTC Bulletin Board Symbol SYII

[remainder of page intentionally left blank]

3

RISK FACTORS

AN INVESTMENT IN OUR SECURITIES IS EXTREMELY RISKY. YOU SHOULD CAREFULLY CONSIDER THE FOLLOWING RISKS, IN ADDITION TO THE OTHER INFORMATION PRESENTED IN THIS PROSPECTUS BEFORE DECIDING TO PURCHASE OUR SECURITIES. IF ANY OF THE FOLLOWING RISKS ACTUALLY MATERIALIZE, OUR BUSINESS AND PROSPECTS COULD BE SERIOUSLY HARMED, THE PRICE AND VALUE OF OUR SECURITIES COULD DECLINE AND YOU COULD LOSE ALL OR PART OF YOUR INVESTMENT.

RISKS RELATING TO OUR BUSINESS

BECAUSE WE DEPEND ON A SMALL NUMBER OF KEY CUSTOMERS, OUR BUSINESS COULD BE ADVERSELY AFFECTED IF WE FAIL TO RETAIN THESE CLIENTS AND/OR OBTAIN NEW CLIENTS AT A LEVEL SUFFICIENT TO SUPPORT OUR OPERATIONS AND/OR BROADEN OUR CLIENT BASE.

During the three months ended March 31, 2005 four of our customers accounted for approximately 89% of total revenues. During the year ended December 31, 2004 three of our customers accounted for approximately 69% of total revenues. During the year ended December 31, 2003, three customers accounted for approximately 59% of total revenues. The loss of any of our

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

largest clients could have a material adverse effect on our business.

FOR EACH OF THE THREE MONTHS ENDED MARCH 31, 2005 AND THE YEAR ENDED DECEMBER 31, 2004 WE SUFFERED A NET LOSS AND WE MAY CONTINUE TO INCUR LOSSES FOR THE FORESEEABLE FUTURE.

During the three months ended March 31, 2005 we sustained an operating loss and during the fiscal year ended December 31, 2004, we had a decrease in revenues and we sustained an operating loss and cannot be sure that we will again operate profitably in the future. During the three months ended March 31, 2005 we had a net loss of \$23,165, as compared to net income of \$14,841 for the three months ended March 31, 2004. During the fiscal year ended December 31, 2004, our revenues decreased by \$1.4 million from \$7.457 million for the year ended December 31, 2003 to \$6.058 million for the year ended December 31, 2004. In addition, we had a net loss of approximately \$180,000 for the year ended December 31, 2004, as compared to net income of \$835,232 for the year ended December 31, 2003.

WE OUTSOURCE THE MANUFACTURING OF OUR IMAGE SCANNING PRODUCTS TO SYSCAN TECHNOLOGY HOLDINGS LIMITED (STH), THE PARENT COMPANY OF OUR MAJORITY SHAREHOLDER, AND IF THE OPERATIONS OF STH ARE INTERRUPTED OR IF OUR ORDERS EXCEED THE MANUFACTURING CAPABILITIES OF STH, WE MAY NOT BE ABLE TO DELIVER OUR PRODUCTS TO CUSTOMERS ON TIME.

We currently utilize the manufacturing services of STH the parent company of our majority stockholder to manufacture all of our current products. STH serves as the exclusive manufacturer of all current and future image capture products to be produced by us, although there is no written agreement between us and STH. STH operates a single facility and if our customers place orders for large quantities of our products, or if STH's other customers place large orders of products, we may not be able to produce our products in sufficient quantities. In addition, if the operations of STH were halted or restricted, even temporarily, or they are unable to fulfill large orders, we could experience business interruption, increased costs, damage to our reputation and loss of our customers. For the year ended December 31, 2004, STH reported a net loss of \$3.06 million on revenues of \$24.6 million and had a working capital deficit of \$14.8 million. In the event that STH's financial condition worsens and they are unable to continue to support their infrastructure and manufacturing operations, they may be forced to cease their operations. Although we have the right to utilize other manufacturers at any time, identifying and qualifying a new manufacturer to replace STH as the manufacturer of our products could take several months during which time, we would likely lose customers and our revenues could be materially delayed and/or reduced.

4

BECAUSE OF OUR RELATIONSHIP WITH STH, CONFLICTS OF INTEREST MAY ARISE BETWEEN US AND STH.

Our majority stockholder is a wholly-owned subsidiary of STH and our Chairman of the Board and Chief Executive Officer was formerly an officer of STH and beneficially owns approximately 5.33% of STH's outstanding capital stock. In addition, Darwin Hu our Chairman and Chief Executive Officer serves as a director of our majority stockholder Syscan Imaging Limited, which is wholly-owned by STH. This could create, or appear to create, potential conflicts of interest when members of our senior management are faced with decisions that could have different implications for us and for STH. For example, conflicts of interest could arise between us and STH in various areas such as fundraising, competing for new business opportunities, and other areas. In addition, STH serves as the exclusive manufacturer of our products. No assurance can be given

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

as to how potentially conflicted members of our management team will evaluate their fiduciary duties to us and our majority stockholder, respectively, or how such individuals will act under such circumstances. Furthermore, the appearance of conflicts, even if such conflicts do not materialize, might adversely effect the public's perception of us.

WE DEPEND ON A LIMITED NUMBER OF SUPPLIERS FOR OUR COMPONENTS AND RAW MATERIALS AND ANY INTERRUPTION IN THE AVAILABILITY OF THESE COMPONENTS AND RAW MATERIALS USED IN OUR PRODUCT COULD REDUCE OUR REVENUES.

We rely on a limited number of suppliers for the components and raw materials used in our image scanning products. Although there are many suppliers for each of our component parts and raw materials, we are dependent on a single or limited number of suppliers for many of the significant components and raw materials. This reliance involves a number of significant risks, including:

- unavailability of materials and interruptions in delivery of components and raw materials from our suppliers;
- manufacturing delays caused by such unavailability or interruptions in delivery; and
- fluctuations in the quality and the price of components and raw materials.

We do not have any long-term or exclusive purchase commitments with any of our suppliers. Our failure to maintain existing relationships with our suppliers or to establish new relationships in the future could also negatively affect our ability to obtain our components and raw materials used in our products in a timely manner. If we are unable to obtain ample supply of product from our existing suppliers or alternative sources of supply, we may be unable to satisfy our customers' orders which could reduce our revenues and adversely affect our relationships with our customers.

OUR BUSINESS COULD BE ADVERSELY AFFECTED IF WE FAIL TO ADAPT TO EMERGING AND EVOLVING MARKETS.

The markets for our products are changing rapidly and evolving and, therefore, the ultimate level of demand for our products is subject to substantial uncertainty. Most of our historic revenue was generated from selling image scanning products only. We expect that our future revenues will be generated by the sale of image scanning and image display products. We intend to expend significant resources towards developing our image display products. Any significant decline in demand for image scanning and/or image display products could materially and adversely affect our business and prospects.

IF WE SHOULD EXPERIENCE RAPID GROWTH, SUCH GROWTH COULD STRAIN OUR MANAGERIAL AND OPERATIONAL RESOURCES, WHICH COULD ADVERSELY AFFECT OUR BUSINESS.

5

Any rapid growth that we may experience would most likely place a significant strain on our managerial and operational resources. If we continue to acquire other companies, we will be required to manage multiple relationships with various clients, strategic partners and other third parties. Further growth (organic or by acquisition) or an increase in the number of strategic relationships may increase this strain on existing managerial and operational resources, inhibiting our ability to achieve the rapid execution necessary to implement our growth strategy without incurring additional corporate expenses.

WE DEPEND ON OUR MANAGEMENT. IF WE FAIL TO RETAIN KEY PERSONNEL, OUR BUSINESS COULD BE ADVERSELY AFFECTED.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

There is intense competition for qualified personnel in the areas in which we operate. The loss of existing personnel or the failure to recruit additional qualified managerial, technical and sales personnel, as well as expenses in connection with hiring and retaining personnel could adversely affect our business. We also depend upon the performance of our executive officers and key employees in particular, Messrs. Darwin Hu and William Hawkins. Although we have entered into employment agreements with each of Messrs. Hu and Hawkins, the loss of either of these individuals could have a material adverse effect upon us. In addition, we have not obtained "key man" life insurance on the lives of either Messrs. Hu or Hawkins.

We will need to attract, train and retain more employees for management, engineering, research and development, sales and marketing and support positions. As noted above, competition for qualified employees, particularly engineers and research and development personnel, continues to be intense. Consequently, we may not be able to attract, train and retain the personnel we need to continue to offer our products to current and future customers in a cost effective manner, if at all.

IF WE FAIL TO RAISE CAPITAL THAT WE MAY NEED TO SUPPORT AND INCREASE OUR OPERATIONS, OUR BUSINESS COULD BE ADVERSELY AFFECTED.

Our future capital uses and requirements will depend on numerous factors, including:

- the extent to which our products gain market acceptance;
- the level of revenues from current and future products;
- the expansion of operations;
- the costs and timing of product developments and sales and marketing activities;
- the costs related to acquisitions of technology or businesses; and
- competitive developments.

We may require additional capital in order to continue to support and increase our sales and marketing efforts, continue to expand and enhance the products we offer to current and future customers and fund potential acquisitions. This capital may not be available on terms acceptable to us, if at all. In addition, we may be required to spend greater-than-anticipated funds if unforeseen difficulties arise in the course of these or other aspects of our business. As a consequence, we will be required to raise additional capital through public or private equity or debt financings, collaborative relationships, bank facilities or other arrangements. We cannot assure you that such additional capital will be available on terms acceptable to us, if at all. Any additional equity financing is expected to be dilutive to our stockholders, and debt financing, if available, may involve restrictive covenants and increased interest costs. Our inability to obtain sufficient financing may require us to delay, scale back or eliminate some or all of our expansion programs or to limit the marketing of our products. This could have a material and adverse effect on our business.

6

WE HAVE NOT PAID DIVIDENDS IN THE PAST AND DO NOT EXPECT TO PAY DIVIDENDS IN THE FUTURE, AND ANY RETURN ON INVESTMENT MAY BE LIMITED TO THE VALUE OF YOUR STOCK.

We have never paid any cash dividends on our common stock and do not anticipate paying any cash dividends on our common stock in the foreseeable future and any return on investment may be limited to the value of your stock. We plan to retain any future earnings to finance growth.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

OUR MAJORITY STOCKHOLDER, SYSCAN IMAGING LIMITED, AND ITS PARENT COMPANY STH OWN AND CONTROL A SIGNIFICANT NUMBER OF THE OUTSTANDING SHARES OF OUR COMMON STOCK AND WILL CONTINUE TO HAVE SIGNIFICANT OWNERSHIP OF OUR VOTING SECURITIES FOR THE FORESEEABLE FUTURE.

Syscan Imaging Limited, our majority stockholder, and STH, its parent company, beneficially own approximately 82.1% of our outstanding common stock. As a result, these entities will have the ability to control our affairs and business, including the election of directors and subject to certain limitations, approval or preclusion of fundamental corporate transactions. This concentration of ownership of our common stock may:

- delay or prevent a change in the control;
- impede a merger, consolidation, takeover or other transaction involving us; or
- discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us.

THE AUTHORIZATION AND ISSUANCE OF "BLANK CHECK" PREFERRED STOCK COULD HAVE AN ANTI-TAKEOVER EFFECT DETRIMENTAL TO THE INTERESTS OF OUR STOCKHOLDERS.

Our certificate of incorporation allows the Board of Directors to issue preferred stock with rights and preferences set by our board without further stockholder approval. The issuance of shares of this "blank check preferred" under particular circumstances could have an anti-takeover effect. For example, in the event of a hostile takeover attempt, it may be possible for management and the board to endeavor to impede the attempt by issuing shares of blank check preferred, thereby diluting or impairing the voting power of the other outstanding shares of common stock and increasing the potential costs to acquire control of us. Our Board of Directors has the right to issue blank check preferred without first offering them to holders of our common stock, as the holders of our common stock have no preemptive rights.

WE MAY NOT BE ABLE TO COMPLY WITH THE SARBANES-OXLEY ACT.

The enactment of the Sarbanes-Oxley Act in July 2002 created a significant number of new corporate governance requirements and additional requirements may be enacted in the future. Although we expect to implement the requisite changes to become compliant with existing and new requirements when they do apply to us, we may not be able to do so, or to do so in a timely manner.

RISKS RELATED TO OUR INTELLECTUAL PROPERTY AND TECHNOLOGY

UNAUTHORIZED USE OF OUR PROPRIETARY TECHNOLOGY AND INTELLECTUAL PROPERTY WILL ADVERSELY AFFECT OUR BUSINESS AND RESULTS OF OPERATIONS.

Our success and competitive position depend in large part on our ability to obtain and maintain intellectual property rights protecting our products. We currently and may in the future rely on a combination of patents, copyrights, trademarks, service marks, trade secrets, confidentiality provisions and licensing arrangements to establish and protect our intellectual property and proprietary rights. Unauthorized parties may attempt to copy aspects of our products or to obtain, license, sell or otherwise use information that we regard as proprietary. Policing unauthorized use of our products is difficult and we may not be able to protect our technology from unauthorized use. Additionally, our competitors may independently develop technologies that are substantially the same or superior to ours and that do not infringe our rights. In these cases, we would be unable to prevent our competitors from selling or licensing these similar or superior technologies. In addition, the laws of some foreign countries do not protect our proprietary rights to the same extent as the laws of the United States.

Third parties have claimed and may claim in the future that we are infringing their intellectual property, and we could be exposed to significant litigation or licensing expenses or be prevented from selling our products if such claims are successful. From time to time, we are subject to claims that we or our customers may be infringing or contributing to the infringement of the intellectual property rights of others. We may be unaware of intellectual property rights of others that may cover some of our technologies and products. If it appears necessary or desirable, we may seek licenses for these intellectual property rights. However, we may not be able to obtain licenses from some or all claimants, the terms of any offered licenses may not be acceptable to us, and we may not be able to resolve disputes without litigation. Any litigation regarding intellectual property could be costly and time-consuming and could divert the attention of our management and key personnel from our business operations. In the event of a claim of intellectual property infringement, we may be required to enter into costly royalty or license agreements. Third parties claiming intellectual property infringement may be able to obtain injunctive or other equitable relief that could effectively block our ability to develop and sell our products.

THE MARKETS IN WHICH WE OPERATE ARE HIGHLY COMPETITIVE AND RAPIDLY CHANGING, AND WE MAY BE UNABLE TO COMPETE SUCCESSFULLY.

There are a number of companies that develop or may develop products that compete in our targeted markets; however, currently we are unaware of any one company that competes with us in all of our product areas. The individual markets in which we compete are highly competitive, and are subject to rapid technology changes. Within image capture, we compete directly with Plustek, Mustek and Silitek. Within Image Display, we will compete with Sony, Samsung, Sharp, Sanyo and Phillips. In image scanning, we compete with numerous companies, some of which are our private label partners. In addition, a number of smaller companies in both image scanning and image display technologies are in some markets competitive with our solutions. Current and potential competitors have established, or may establish, cooperative relationships among themselves or with third parties to increase the ability of their technologies to address the needs of our prospective customers. Most of our competitors in each of the markets in which we compete have significantly greater financial, technical and marketing resources than us. These competitors may be able to respond more rapidly than we can to new or emerging technologies or changes in customer requirements. They may also devote greater resources to the development, promotion and sale of products than we do.

The market for image scanning and image display products is rapidly evolving. Significant technological changes could render our products obsolete. We must adapt to this rapidly changing market by continually improving the functionality and features of our products to meet clients' needs. If we are unable to develop new products and enhance functionalities or technologies to adapt to these changes in a cost-effective and timely manner, our business could be materially and adversely affected.

RISKS RELATING TO ACQUISITIONS

ANY ACQUISITIONS WE MAKE COULD RESULT IN DILUTION TO OUR EXISTING SHAREHOLDERS AND COULD BE DIFFICULT TO INTEGRATE WHICH COULD CAUSE DIFFICULTIES IN MANAGING OUR BUSINESS, RESULTING IN A DECREASE TO THE VALUE OF YOUR INVESTMENT.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

We believe that we will need to make strategic acquisitions of other businesses in order to achieve growth and profitability. Evaluating acquisition targets is difficult and acquiring other businesses involves risk. Our consummation of the acquisition of other businesses would subject us to a number of risks, including the following:

- difficulty in integrating the acquired operations and retaining acquired personnel;
- limitations on our ability to retain acquired sales and distribution channels and customers;
- diversion of management's attention and disruption of our ongoing business; and
- limitations on our ability to incorporate acquired technology and rights into our product offerings and maintain uniform standards, controls, procedures and policies.

Furthermore, we may incur indebtedness or issue equity securities to pay for future acquisitions. The issuance of equity or convertible debt securities would be dilutive to our then existing shareholders.

RISKS RELATING TO OUR COMMON STOCK

THE LIMITED PRIOR PUBLIC MARKET AND TRADING MARKET MAY CAUSE POSSIBLE VOLATILITY IN OUR STOCK PRICE.

There has only been a limited public market for our securities and there can be no assurance that an active trading market in our securities will be maintained. The Over-The-Counter Bulletin Board (OTCBB) is an unorganized, inter-dealer, over-the-counter market which provides significantly less liquidity than NASDAQ and the national securities exchange, and quotes for securities quoted on the OTCBB are not listed in the financial sections of newspapers as are those for NASDAQ and the national securities exchange. In addition, the overall market for securities in recent years has experienced extreme price and volume fluctuations that have particularly affected the market prices of many smaller companies. The trading price of our common stock is expected to be subject to significant fluctuations including, but not limited to, the following:

- quarterly variations in operating results and achievement of key business metrics;
- changes in earnings estimates by securities analysts, if any;
- any differences between reported results and securities analysts' published or unpublished expectations;
- announcements of new products by us or our competitors;
- market reaction to any acquisitions, joint ventures or strategic investments announced by us or our competitors;
- demand for our products;
- shares being sold pursuant to Rule 144 or upon exercise of warrants and options or conversion of Series A Preferred Stock; and
- general economic or stock market conditions unrelated to our operating performance.

These fluctuations, as well as general economic and market conditions, may have a material or adverse effect on the market price of our common stock.

THERE ARE LIMITATIONS IN CONNECTION WITH THE AVAILABILITY OF QUOTES AND ORDER INFORMATION ON THE OTCBB.

Trades and quotations on the OTCBB involve a manual process and the market information for such securities cannot be guaranteed. In addition, quote

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

information, or even firm quotes, may not be available. The manual execution process may delay order processing and intervening price fluctuations may result in the failure of a limit order to execute or the execution of a market order at a significantly different price. Execution of trades, execution reporting and the delivery of legal trade confirmation may be delayed significantly. Consequently, one may not be able to sell shares of our common stock at the optimum trading prices.

9

THERE ARE DELAYS IN ORDER COMMUNICATION ON THE OTCBB.

Electronic processing of orders is not available for securities traded on the OTCBB and high order volume and communication risks may prevent or delay the execution of one's OTCBB trading orders. This lack of automated order processing may affect the timeliness of order execution reporting and the availability of firm quotes for shares of our common stock. Heavy market volume may lead to a delay in the processing of OTCBB security orders for shares of our common stock, due to the manual nature of the market. Consequently, one may not be able to sell shares of our common stock at the optimum trading prices.

PENNY STOCK REGULATIONS MAY IMPOSE CERTAIN RESTRICTIONS ON MARKETABILITY OF OUR SECURITIES.

The SEC has adopted regulations which generally define a "penny stock" to be any equity security that has a market price (as defined) of less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. As a result, our shares of common stock are subject to rules that impose additional sales practice requirements on broker-dealers who sell such securities to persons other than established clients and "accredited investors". For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchase of such securities and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the transaction, of a risk disclosure document mandated by the SEC relating to the penny stock market. The broker-dealer must also disclose the commission payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, monthly statements must be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks. Consequently, the "penny stock" rules may restrict the ability of broker-dealers to sell our shares of common stock and may affect the ability of investors to sell such shares of common stock in the secondary market and the price at which such investors can sell any of such shares.

Investors should be aware that, according to the SEC, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include:

- control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- manipulation of prices through pre-arranged matching of purchases and sales and false and misleading press releases;
- "boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

- the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

Our management is aware of the abuses that have occurred historically in the penny stock market.

10

THERE IS A RISK OF MARKET FRAUD.

OTCBB securities are frequent targets of fraud or market manipulation. Not only because of their generally low price, but also because the OTCBB reporting requirements for these securities are less stringent than for listed or NASDAQ traded securities, and no exchange requirements are imposed. Dealers may dominate the market and set prices that are not based on competitive forces. Individuals or groups may create fraudulent markets and control the sudden, sharp increase of price and trading volume and the equally sudden collapse of the market price for shares of our common stock.

THERE IS LIMITED LIQUIDITY ON THE OTCBB.

When fewer shares of a security are being traded on the OTCBB, volatility of prices may increase and price movement may outpace the ability to deliver accurate quote information. Due to lower trading volumes in shares of our common stock, there may be a lower likelihood of one's orders for shares of our common stock being executed, and current prices may differ significantly from the price one was quoted by the OTCBB at the time of one's order entry.

THERE IS A LIMITATION IN CONNECTION WITH THE EDITING AND CANCELING OF ORDERS ON THE OTCBB.

Orders for OTCBB securities may be canceled or edited like orders for other securities. All requests to change or cancel an order must be submitted to, received and processed by the OTCBB. Due to the manual order processing involved in handling OTCBB trades, order processing and reporting may be delayed, and one may not be able to cancel or edit one's order. Consequently, one may not be able to sell shares of our common stock at the optimum trading prices.

INCREASED DEALER COMPENSATION COULD ADVERSELY AFFECT THE STOCK PRICE.

The dealer's spread (the difference between the bid and ask prices) may be large and may result in substantial losses to the seller of shares of our common stock on the OTCBB if the stock must be sold immediately. Further, purchasers of shares of our common stock may incur an immediate "paper" loss due to the price spread. Moreover, dealers trading on the OTCBB may not have a bid price for shares of our common stock on the OTCBB. Due to the foregoing, demand for shares of our common stock on the OTCBB may be decreased or eliminated.

ADDITIONAL AUTHORIZED SHARES OF OUR COMMON STOCK AND PREFERRED STOCK AVAILABLE FOR ISSUANCE MAY ADVERSELY AFFECT THE MARKET.

We are authorized to issue 50,000,000 shares of our common stock. As of the date hereof, there were 23,110,515 shares of common stock issued and outstanding. However, the total number of shares of our common stock issued and outstanding does not include shares reserved in anticipation of the exercise of options or warrants or the conversion of our Series A Preferred Stock. As of the date hereof, we had outstanding Series A Preferred Stock, stock options and

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

warrants to purchase approximately 6,389,000 shares of our common stock, the exercise or conversion prices of which range between \$0.01 and \$2.50 per share, and we have reserved shares of our common stock for issuance in connection with the potential exercise thereof. In addition, our board of directors approved the issuance of up to 300,000 options to purchase shares of our common stock to certain of our consultants, in connection with the execution of a consulting agreement, at an exercise price of \$0.01 per share, which agreement, as of the date hereof, has not been entered into by us with such consultants. Of the reserved shares, a total of 1,980,000 shares are currently reserved for issuance in connection with our 2002 Stock Option Plan, of which options to purchase an aggregate of 1,980,000 shares have been allocated to employees under the plan but are subject to shareholder approval. A significant number of such options and warrants contain provisions for cashless exercise. To the extent such options or warrants are exercised, the holders of our common stock will experience further dilution. In addition, in the event that any future financing should be in the form of, be convertible into or exchangeable for, equity securities, and upon the exercise of options and warrants, investors may experience additional dilution.

11

The exercise of the outstanding derivative securities will reduce the percentage of common stock held by our stockholders. Further, the terms on which we could obtain additional capital during the life of the derivative securities may be adversely affected, and it should be expected that the holders of the derivative securities would exercise them at a time when we would be able to obtain equity capital on terms more favorable than those provided for by such derivative securities. As a result, any issuance of additional shares of common stock may cause our current stockholders to suffer significant dilution which may adversely affect the market.

In addition to the above-referenced shares of common stock which may be issued without stockholder approval, we have 1,940,000 shares of authorized preferred stock, the terms of which may be fixed by our Board of Directors. We currently have 60,000 shares of Series A Preferred Stock authorized, 18,650 of which are issued and outstanding. While we have no present plans to issue any shares of preferred stock other than the Series A Preferred Stock, our Board of Directors has the authority, without stockholder approval, to create and issue one or more series of such preferred stock and to determine the voting, dividend and other rights of holders of such preferred stock. The issuance of any of such series of preferred stock may have an adverse effect on the holders of common stock.

SHARES ELIGIBLE FOR FUTURE SALE MAY ADVERSELY AFFECT THE MARKET.

From time to time, certain of our stockholders may be eligible to sell all or some of their shares of common stock by means of ordinary brokerage transactions in the open market pursuant to Rule 144, promulgated under the Securities Act of 1933 (Securities Act), subject to certain limitations. In general, pursuant to Rule 144, a stockholder (or stockholders whose shares are aggregated) who has satisfied a one-year holding period may, under certain circumstances, sell within any three-month period a number of securities which does not exceed the greater of 1% of the then outstanding shares of common stock or the average weekly trading volume of the class during the four calendar weeks prior to such sale. Rule 144 also permits, under certain circumstances, the sale of securities, without any limitation, by our stockholders that are non-affiliates that have satisfied a two-year holding period. Any substantial sale of our common stock pursuant to Rule 144 or pursuant to any resale prospectus may have a material adverse effect on the market price of our securities.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

DIRECTOR AND OFFICER LIABILITY IS LIMITED.

As permitted by Delaware law, our certificate of incorporation limits the liability of our directors for monetary damages for breach of a director's fiduciary duty except for liability in certain instances. As a result of our charter provision and Delaware law, stockholders may have limited rights to recover against directors for breach of fiduciary duty. In addition, our certificate of incorporation provides that we shall indemnify our directors and officers to the fullest extent permitted by law.

NOTE ON FORWARD LOOKING STATEMENTS

Certain statements contained in this prospectus constitute "forward-looking statements" as that term is defined under the Private Securities Litigation Reform Act of 1995 and releases issued by the Securities and Exchange Commission and within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. The words "believe," "expect," "anticipate," "intend," "estimate," "plan" and other expressions which are predictions of or indicate future events and trends and which do not relate to historical matters identify forward-looking statements. Reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially from those expressed or implied by such forward-looking statements include, among other things, those listed under "Risk Factors" and elsewhere in this prospectus.

We operate in a very competitive and rapidly changing environment. New risks emerge from time to time and it is not possible for our management to predict all risks, nor can we assess the impact of all risks on our business or the extent to which any risk, or combination of risks, may cause actual results to differ from those contained in any forward-looking statements. All forward-looking statements included in this prospectus are based on information available to us on the date of this prospectus. Except to the extent required by applicable laws or rules, we undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained throughout this prospectus.

13

BUSINESS

GENERAL

We develop, design and deliver imaging technology solutions offering businesses and consumers market-leading USB powered mobile imaging scanning solutions that facilitate the way information is stored, shared and managed in business and personal use. We market and distribute our products indirectly

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

through a global network of resellers, system integrators, value-added resellers, and distributors; and directly to businesses and consumers through a dedicated direct sales force. Our products may be viewed on our website at www.syscaninc.com. We believe that the value of our mobile image scanning solutions is best realized in vertical markets that are information and process intensive, such as healthcare, security, financial services, legal and government.

We have developed our business model around intellectual property (IP) driven products sold primarily to Private Label brands, Value-Added-Reseller's (VAR's) and Original Equipment Manufacturer's (OEM's). Our core experience, expertise, and resources lend themselves to developing new technology solutions and implementing them into useable finished products. Going forward we plan on leveraging our current IP and these core competencies in other areas of the imaging market. To that end, we have allocated certain resources over the past year to exploiting various crossover technologies to the LCD display technology arena and have filed related patent applications.

Our corporate headquarters and executive offices are located at 1772 Technology Drive, San Jose, California 95110. Our telephone number is 408-436-6151. We have additional offices in Arnhem, Netherlands. Our Annual Reports on Form 10-KSB, Quarterly Reports on Form 10-QSB, Proxy Statements relating to our annual meetings of stockholders, Current Reports on Form 8-K and amendments to these reports are available free of charge on our website at www.syscaninc.com, as well as from the SEC's website at www.sec.gov.

BACKGROUND

On April 2, 2004, we completed our acquisition of 100% of the issued and outstanding capital stock of Syscan, Inc., pursuant to a Share Exchange Agreement dated March 29, 2004. Pursuant to the agreement, the sole shareholder of Syscan, Inc., Syscan Imaging Limited, received 18,773,514 post-reverse split shares of our common stock in exchange for all of the issued and outstanding capital stock of Syscan, Inc. In connection with the issuance of our common stock to Syscan Imaging Limited, Syscan Imaging Limited beneficially became the owner of 81.2% of our issued and outstanding voting securities.

Upon completion of the reverse acquisition, we changed our name to Syscan Imaging, Inc. and effectuated a 1-for-10 reverse split of our common stock.

Our wholly-owned subsidiary, Syscan Inc., was founded in Silicon Valley in 1995 to develop and manufacture a new generation of CIS (CMOS-Complimentary Metal Oxide Silicon) imaging sensor devices. During the late 1990's, Syscan Inc. established many technical milestones and was granted numerous patents based on their linear imaging technology (Contact Image Sensors). Our patented CIS and mobile imaging scanner technology provides very high quality images but at extremely low power consumption, allowing us to deliver very compact scanners in a form ideally suited for the mobile computer user who needs to scan and/or fax documents while away from their office.

This "enabling" technology is found in a variety of applications such as document management, ID card and passport security scanners, bank note/check verification, business card readers, scanning 2D bar codes and optical mark readers used in lottery terminals. We have grown to be one of the largest OEM -- private label manufacturers of mobile scanning systems and contact image sensor modules for a large number of major brands such as PENTAX, COREX and VISIONEER. Our vertically integrated design and manufacturing model allows rapid time-to-market for these leading companies. Our manufacturing is completed in China by a wholly-owned subsidiary of the parent company of our majority stockholder, which provides a low-cost manufacturing base for these industrial and consumer products.

MARKET OPPORTUNITY

IMAGE SCANNING

In the past decade, information has become an increasingly important source of capital for businesses and enterprises, and the speed and sophistication of information exchange is often a defining characteristic of the most successful entities worldwide. Many organizations define their strategy, assess their ability to compete and manage their customer relationships based on the quality, diversity and availability of their information products, services and resources. The medium and optimal format for vital business information is wide and varied, and includes paper, electronic files and Web content.

Confronted by exponentially increasing information through more and more channels, consumers and business personnel employ a variety of resources for retrieving information, conducting transactions and performing their jobs. The Internet and related corporate infrastructure have emerged as a powerful global communications network and channel for business. These electronic systems have fundamentally changed the way organizations and consumers obtain information, communicate, purchase goods and conduct business.

Businesses around the world share a common motivation to improve operating efficiency and enhance customer service. Customer satisfaction, employee productivity and company operating results can often be linked to an organization's ability to effectively manage, utilize and communicate information.

We believe there is a significant opportunity for our solutions to help simplify the way people access, share, manage and use information in business and in daily life. Our strategy is to deliver premier, comprehensive imaging technologies. Our imaging solutions eliminate the need to manually reproduce documents, automate the integration of documents into business systems, and enable the use of electronic documents and forms over the Internet, through mobile faxing and other business applications. Our products and technologies deliver a measurable return on investment to our customers.

IMAGE DISPLAY

The television has over time revolutionized the way the masses worldwide live their lives. It provides an audiovisual experience that delivers information and entertainment directly into our homes and businesses. Since its introduction in 1930's the TV has become a ubiquitous part of life for the majority worldwide. In 1936 there were a mere 200 TV sets in use worldwide, by 1945 that number had risen to approximately 7,000 in the United States alone and by 1948 the number of TV's in use in the US surpassed one million. An estimated 180 million TV's were sold worldwide in 2004.

Since its introduction the mechanics of the TV have changed very little, relying in large part on the Cathode Ray Tube (CRT). This technology provided the best picture but weight and bulkiness became limiting factors to screen size topping out at around forty inches. It was the introduction of the VCR that primarily drove the demand for larger screen sizes in order to bring the movie theater experience into the home. In response to this demand, various types of projection models were introduced. Originally the projection models solved the screen size issue but the picture quality and viewing angle could not match that of the CRT models and they were still bulky taking up valuable floor space.

OUR MARKETS AND SOLUTIONS

We are the leading manufacturer of USB powered mobile image scanning devices that allow users to incorporate images and documents in digital applications, systems and devices. Our products and technologies automate manual processes and help enterprises, professionals and consumers increase productivity, reduce costs and save time. We currently deliver premier, comprehensive technologies and products in the imaging scanning market and plan to expand our business to include new technologies based on our current patented IP and products for the image display market, specifically the LCD TV market.

OVERVIEW OF IMAGE SCANNING MARKET

The Internet has changed many things, including the way people create and share information. The ease and popularity of email has reduced people's dependency on fax machines and postal service, while magazines and newspapers now deliver as much information through Web-based material as they do in print. Almost every office worker and many consumers at home use a computer, and a vast majority of those are connected to the Internet or a network. Despite advances in technology and networks, businesses are still confronted with productivity challenges associated with creating, sharing and working with documents

We believe there is a market opportunity for mobile image scanners that maximize value and efficiency for information and document processes. Our imaging solutions simplify the way businesses and consumers store and share documents.

Despite the broad use of computing systems in enterprises, the majority of business information is still maintained in paper form. The proliferation of PDF as a digital document standard has allowed for the simple scanning, storage and sharing of important documents. Enterprises, workgroups and individuals seek solutions that integrate paper and static PDF documents into their business processes, allowing them to automate the way they store, use and share information. From printing, signing, scanning, sending and then storing important documents to scanning various pictures and graphs for use in a power point presentation image scanning has become a viable enhancement to paper storage. Our solutions are used in professional office settings, particularly in the government, legal, finance, real estate and education sectors.

DIGITAL PAPER MANAGEMENT. As the volume and complexity of corporate data continues to multiply, organizations are increasingly challenged in their efforts to manage all of their paper and digital documents. The wide dispersion of documents makes finding information even more difficult, time-consuming and costly. As a result, businesses need solutions that allow individuals, workgroups or the entire organization to more efficiently organize, find and share business documents.

Our digital paper management solutions, convert paper into digital documents that can be easily archived, retrieved and shared. Our image scanning devices can be used to preserve an image of a document exactly as it appears on paper. Third party software then automatically indexes the scanned image, so that it can be stored together with other digital documents on a desktop, over a network or within an enterprise content management system. In a single search, users can quickly find scanned documents and existing digital files that match the search criteria.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

These digital documents can then be transferred into email, print and other business applications. This streamlines the flow of documents between workers, decreasing the time and costs associated with managing and using paper documents. Our solutions are packaged with comprehensive third party software that assist the user in moving images into established file systems to simplify the transfer of documents between desktop and enterprise content management systems.

OVERVIEW OF IMAGE DISPLAY MARKET

The image display market as specifically related to the LCD flat panel display (FPD) TV is evolving at a rapid pace. Various new technologies have been vying for mass acceptance driven predominately by pricing and visual performance. To date Plasma technology has been the leader in delivering a price performance value in the larger screen sizes typically 42" and up. With this technology comes certain long-term challenges. While Plasma technology continues to be viable many believe that the LCD format is likely to be the long-term leader as the size to price ratios converge. The FPD-TV market is currently in the process of major transition, as several technologies challenge plasma technology as the dominant force in large format displays. This transition, we believe, will happen over the next 24-36 months as the major (tier 1) competitors lead the way. The current market leaders are Samsung, Sony, Sanyo and Toshiba with other 1st tier suppliers being Phillips, LG, Sampo, Panasonic and Hitachi. Some of these tier one competitors compete under different brand names and in collaboration with regional brands in the international markets. The tier 2 competitors add another 15-30 (considering on private label brands) competitors to the already crowded marketplace. In short, there are roughly 30-40 different competitors worldwide in the FPD-TV market worldwide. Several of the tier one suppliers have already announced emerging FPD-TV technology, such as Sony in June 2004 disclosing that it would transition to LCD technology in the coming years and further scheduling the introduction of the first commercially available light-emitting diode (LED) backlit LCD display.

OUR COMPETITIVE STRENGTHS

CORE TECHNOLOGY ASSETS. In recent years, we have developed and acquired technology assets, intellectual property and industry expertise in mobile image capture. A significant investment in capital and time would be necessary to replicate our current capabilities. We continue to invest in the advancement of our technologies to maintain our market leading position and to develop new applications. As of March 31, 2005, we had 8 full-time employees in research and development, and our technologies were covered by 14 U.S. issued patents held by us. all of which are U.S. patents. Our technology is also covered by 5 issued patents in Taiwan. We also have 3 patent applications currently pending with the US Patent & Trademark Office, 2 of which relate to image display technology and one of which relates to image scanning.

BROAD DISTRIBUTION CHANNELS. We maintain an extensive network of resellers to address the needs of specific markets, such as financial, legal, healthcare and government. We believe that our extensive channel relationships increase the difficulty for competitors to develop a similar channel network and make it difficult for our products to be displaced. In addition, our far-reaching channel network enables us to introduce new products quickly and effectively throughout the global marketplace.

LEADING MARKET SHARE. We are the market leader in USB powered mobile image scanning. Organizations tend to look to established market leading vendors when making product selections. As the established manufacture in our markets, we believe we can target and win more partnership arrangements and new customers than our competition.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

INTERNATIONAL FOCUS. Our international experience and diverse heritage allow us to efficiently compete on a global basis. We recognize cultural and language benefits in both manufacturing and sales.

17

OUR STRATEGY

PURSUE HIGH GROWTH MARKETS IN IMAGE SCANNING. We intend to leverage our technologies and market leadership to expand our opportunities in mobile and other markets. We also intend to pursue emerging opportunities to use our technology within consumer devices, and other widespread devices. To expand our position in mobile image scanning, we intend to introduce new versions of our products and applications; complete new license agreements with customers and partners that will resell our technologies; and make strategic acquisitions that we believe complement our existing solutions and resources in various evolving markets.

EXPAND IMAGE SCANNING SOLUTIONS. We intend to enhance the value of our imaging scanning solutions for enterprises to address the proliferation of security related applications, the expanded use of content management systems, and the widespread adoption of networked multifunction and digital image scanning devices. We intend to introduce new products or new versions of existing products to take advantage of these growth opportunities. We also plan to enhance our software development toolkits so our technologies can be integrated with more third-party solutions.

FOCUS ON SPECIFIC VERTICAL MARKETS. We intend to focus our marketing and sales resources to generate demand and deliver solutions in specific vertical markets. The value of our solutions is best realized in vertical markets that are information and process intensive, such as healthcare, telecommunications, financial services, legal and government. In addition, we intend to offer custom versions of certain applications and products for specific vertical markets such as medical, legal and utilities.

EXPAND WORLDWIDE CHANNELS. We intend to expand our global channel network and build upon our existing distribution channels, especially in Europe, Asia and Latin America. In particular, we intend to replicate our successful North American value-added reseller channel in Europe. Along these lines, we intend to add sales employees in different geographic regions and launch programs and events to help recruit new partners for our channel network.

PURSUE STRATEGIC ACQUISITIONS. We will selectively pursue strategic acquisitions of companies in the image capture and display industry that could complement our business model, improve our competitive positioning and expand our offerings to the marketplace, of which there can be no assurance. In identifying potential acquisition candidates we will seek to acquire companies with varied distribution channels, rich intellectual property (IP) and high caliber engineering personnel.

Over the past twelve months we have begun focusing our sales and marketing efforts substantially towards the vertical markets such as the Value Added Reseller (VAR) and small-office-home-office (SOHO) markets. We believe focusing on these markets is the most effective way to showcase our technological capabilities and manufacturing efficiencies, while enabling us to maintain higher margins, and require fewer resources than working directly with the mass retailers.

For the FPD-TV market, we are concentrating our efforts and investment towards an LCD product that uses LED's as a backlight source. Most of our LCD

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

FPD-TV strategy is leveraged on core technologies and market synergy that we established in the image capture (scanning) market since our scanner devices utilize LED's as a light source, and the precise control of this light source is a critical capability in the performance and ultimate market success of this new technology. In order to meet the competitive requirements, we believe that we will need a collaborator (or partner) that has significant experience in the FPD panel design and tooling. A partner also reduces the time-to-market and overall risk associated with entry into the marketplace.

18

PRODUCTS

IMAGE SCANNING PRODUCTS

TRAVEL SCAN AND SENSOR PRODUCTS

We are actively shipping five image capture products under the Travel Scan marquee or their OEM counterparts. The Travel Scan series features portable lightweight scanning in color and black & white with low power consumption that requires no power adapter. The A4 (letter size) scanners represented approximately 34% of our sales during the three months ended March 31, 2005 and 27% of our sales during the previous year 1st quarter ended March 31, 2004. The A5, is a unique security document scanner which has emerged as a rapidly expanding market for Syscan. The A5 scanner currently represents approximately 3% of our sales during the three months ended March 31, 2005 and 2% of our sales for the quarter ended March 31, 2004. The A6 scanner is ideal for photos, checks, passports and various identification cards. The 662 is our first product geared towards, and being implemented in, the fast growing security industry. The 662 is our best selling product and represented approximately 53% of our sales during the three months ended March 31, 2005 and 43% of our sales during the 3 months ended March 31, 2004. Our fourth product representing approximately 9% of our sales during the three months ended March 31, 2005 and 4% of our sales during the 3 months ended March 31, 2004, is the A8 Business Card scanner. Concluding our product categories is the image sensor and licensing group of products which represents less than 1% of our sales during the three months ended March 31, 2005 and over 21% of our sales during the 3 months ended March 31, 2004.

PRODUCTS IN DEVELOPMENT

We intend to expand our image capture product line with three new products, each of which we intend to release in 2005. The first product is a high-quality true-duplex high-speed A4 scanner in which our customers have expressed interest. Several OEM and VAR brands have formally agreed to partner with us in the product launch. The second product is an A6 scanner that follows in the footsteps of the current 662 but is high speed and allows true duplex scanning, allowing image capture of both sides of a two-sided document simultaneously. The third product is a specialized security document scanner that utilizes infrared light sources to help in the process of identifying fraudulent or tampered with documents. With the growing concerns over Homeland Security and the implementation of the Patriot Act in the United States, we believe this product has the ability to address these evolving security requirements and needs. We believe that this product not only addresses today's security scanning needs, but also anticipates the proliferation of new technologies such as digital watermarking.

IMAGE DISPLAY PRODUCTS

VIEW TECH CONTROL BOARD

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Our first image display product, expected to be available for delivery during 2006 is the Syscan View Tech image/video display processor. The View Tech control board is a highly integrated, high performance video processor that combines state-of-the-art scaling and video processing techniques for displaying analog and digital video/graphics on a LCD-TV/DTV display. We believe that this product will provide advanced image processing that will greatly enhance LCD display quality. Its state-of-the-art design incorporates a system-on-chip (SOC) that improves any pixilated multimedia video.

FUTURE PRODUCTS

The next product/technology that we are developing is a Light Emitting Diode (LED) backlighting solution to replace the industries current standard Cold Cathode Fluorescent Lamp (CCFL). The principal behind this technology is related to the proprietary technology used in our image capture products. We believe the benefits of LED backlighting are substantial, including longer life, higher dimming ratio, sharper contrast, and near high definition resolution without filters, all at a performance value.

19

SALES, DISTRIBUTION AND FULFILLMENT

We market and distribute our products indirectly through a global network of OEM's, system integrators, value-added resellers and regional distributors.

We have established relationships with more than 30 channel partners, including leading system vendors, value-added resellers and regional distributors, through which we market and distribute our products and solutions. In image scanning, companies such as Visioneer and Xerox include our technology in their scanners, as well as multifunction devices that combine multiple capabilities.

In addition our products are sold through a variety of retail and e-tail channels including but not limited to CDW, Ingram Micro, Outpost.com and Fry's Electronics.

MANUFACTURING

All of our products are manufactured by Syscan Technology Holdings (STH), the parent company of our majority stockholder. We and STH have established an internal-pricing agreement that is updated on a semi-annual basis. STH serves as the exclusive manufacturer of all current and future image capture products to be produced by us. We believe, for quality control and pricing reasons that this type of relationship is more favorable then could be attained from unaffiliated third-parties. We purchase and provide STH with critical parts and components necessary to manufacture our products.

STH warrants the products it manufactures for us against defects in material and workmanship for a period of 12 months after the completion of manufacture. After such 12 month period, STH has agreed to provide repair services for the products to us at its customary hourly repair rate plus the cost of any parts, components or items necessary to repair the products.

Since STH is the primary manufacturer of all of our current products, if the operations of STH are interrupted or if our orders or orders of other STH clients exceed the manufacturing capabilities of STH, STH may not be able to deliver our products to us on time and we may not be able to deliver our products to our customers on time, which could adversely affect our business,

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

reduce our revenues and significantly harm our relationship with our customers. We have the right at anytime to engage third parties to manufacture some or all of our products.

We believe that it could take approximately three to six months to secure a third-party manufacturer to supplement STH's manufacturing capabilities and approximately six to twelve months to replace STH as our sole manufacturer. Although we believe that there are a number of third-party manufacturers (other than STH) available to us, we cannot assure that we would be able to secure another manufacturer on terms favorable to us, or at all, or how long it would take us to secure such manufacturing.

SUPPLIERS

All of the raw materials, parts, components and other items that are required to manufacture our products are purchased by us. We rely on a single or limited number of suppliers for such raw materials, parts, components and other items. Although there are many suppliers for each of these raw materials, parts, components and other items, we are dependent on a limited number of suppliers for many of the significant raw materials and components. We do not have any long-term or exclusive purchase commitments with any of such suppliers. Our failure to maintain existing relationships with our suppliers or to establish new relationships in the future could also negatively affect our ability to obtain the raw materials and components used in the manufacture of our products in a timely manner. If we are unable to obtain ample supply of product from our existing suppliers or alternative sources of supply, we may be unable to satisfy our customers' orders which could reduce our revenues and adversely affect our relationship with our customers.

20

PROPRIETARY TECHNOLOGY

We exploit our proprietary technology, trade secrets, know-how, continuing technological innovations and licensing opportunities to maintain our competitive position. We rely on patent law, copyright law, trade secret laws, secrecy, technical measures, licensee agreements and non-disclosure agreements to protect our technology, trade secrets and other proprietary rights. Our policy is to file patent applications to protect technology, inventions and improvements that are important to the development of our business, to maintain a technological advantage over our competitors and to in some cases generate licensing revenue. In this regard, we have obtained patents that directly relate to our products. Our mobile imaging scanning technologies are covered by numerous patents and patent applications owned by us. We currently have 14 issued patents held by us all of which are U.S. patents. Our technology is also covered by 5 issued patents in Taiwan. We also have 3 patent applications currently pending with the US Patent & Trademark Office, 2 of which relate to image display technology and one of which relates to image scanning. These patents expire on various dates between 2017 and 2022.

We require our employees to execute confidentiality and invention assignment agreements in order to protect our proprietary technology and other proprietary rights. We also rely on trade secrets and proprietary know-how to protect our proprietary rights.

RESEARCH AND DEVELOPMENT

The market for our products and services is characterized by rapid technological change, frequent new product introductions and enhancements, evolving industry standards, and rapidly changing client requirements. As a

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

result, we believe that our future growth is highly dependent on the timely and efficient introduction of new and updated products and technology. As of March 31, 2005, we employed or directly contracted 8 people in research and development, 2 of whom are located in international locations. Our employees based in overseas facilities extend our global focus while often lowering our overall cost of research and development. To promote efficiency in our research and development efforts, we have organized the effective use of global development teams and a comprehensively integrated development process. In addition, we have developed and refined our time-to-market process, which contributes to cost-effective resource management while promoting technology sharing across programs.

Our future success will depend in part on our ability to anticipate changes, enhance our current products, develop and introduce new products that keep pace with technological advancements and address the increasingly sophisticated needs of our clients. Our research and development expenses for the three months ended March 31, 2005, the twelve months ending December 31, 2004 and the twelve months ended December 31, 2003 were \$175,997, \$528,417 and \$799,825, respectively. We expect that we will continue to commit significant resources to research and development in the future, specifically with respect to the LCD market. To date we have not capitalized any research and development expenses and all costs have been expensed as incurred.

21

INTERNATIONAL OPERATIONS

Our international operations include research and development, customer support and sales and marketing. Our international research and development is conducted in the US and China. Additionally, sales and support offices are located in the US, the Netherlands and China to support our current international customers and to expand our international revenue opportunities.

Geographic revenue classification is based on the country in which the sale is invoiced. Revenue for the three months ended March 31, 2005 and 2004 was 98% North America and 2% international. Revenue for the twelve months ended December 31, 2004 was 93% North America and 7% international, versus 80% North America and 20% international for the year ended December 31, 2003.

Additional financial information relating to foreign and domestic sales and operations for each of the three months ended March 31, 2005 and the three months ended March 31, 2004 is set forth in Note 3, "Due to Geographic Sales and Significant Customers," of the Notes to Consolidated Financial Statements for the three months ended March 31, 2005. Additional financial information relating to foreign and domestic sales and operations for each of the twelve months ended December 31, 2004 and the twelve months ended December 31, 2003 is set forth in Note 1, "Geographic Sales and Significant Customers," of the Notes to Consolidated Financial Statements for the year ended December 31, 2004.

COMPETITION

There are a number of companies that develop or may develop products that compete in our targeted markets; however, we are unaware of any one company that competes with us in all of our product areas. The individual markets in which we compete are highly competitive, and are subject to rapid technology changes. Within image capture, we compete directly with Plustek, Mustek and Silitek. Within Image Display, we will compete with Sony, Samsung, Sharp, Sanyo and Phillips. In image scanning, we compete with numerous companies, some of which are our private label partners. In addition, a number of smaller companies in both image scanning and image display technologies are in some markets

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

competitive with our solutions. Current and potential competitors have established, or may establish, cooperative relationships among themselves or with third parties to increase the ability of their technologies to address the needs of our prospective customers. Most of our competitors in each of the markets in which we compete have significantly greater financial, technical and marketing resources than us. These competitors may be able to respond more rapidly than we can to new or emerging technologies or changes in customer requirements. They may also devote greater resources to the development, promotion and sale of products than we do.

EMPLOYEES

As of March 31, 2005, we employed 18 people on a full-time basis, 12 in the United States and 6 internationally. Of the total, 8 were in product research and development, 2 in sales and marketing, 4 in operations and support, and 4 in finance and administration. From time-to-time, as the need arises, we contract with STH for the use of certain of their R&D and engineering personnel. None of our employees located in the United States or internationally are represented by unions or collective bargaining agreements. We have experienced no work stoppages and believe that our employee relations are good. We have utilized the services of consultants, third-party developers, and other vendors in our sales, development, manufacturing activities and finance and administration functions.

RECENT FINANCINGS

On March 15, 2005, we sold \$1,865,000 of our Series A Convertible Preferred Stock to institutional and accredited retail investors in a private offering pursuant to exemption from registration under Section 4(2) of the Securities Act of 1933, as amended (the "SECURITIES ACT"). We intend to use the net proceeds from the financing for sales, marketing, research and development and for working capital and general corporate purposes. Starboard Capital Markets, LLC, an NASD member firm, acted as placement agent in the sale of the Preferred Stock, for which it received \$186,500 in commissions and 186,500 warrants to purchase shares of our common stock at an exercise price equal to \$1.00 per share. We also paid legal fees of \$25,000 to counsel for the Investors and incurred \$35,000 in legal fees from our own corporate counsel. The net proceeds of this offering to us after the payment of commissions, fees and other expenses of the offering were approximately \$1,618,500.

22

In connection with the financing, we also issued to the purchasers common stock purchase warrants to purchase up to an aggregate of 932,500 shares of our common stock at an exercise price of \$2.00 per share. The warrants are exercisable for a period of five years from the date of issuance. We have agreed, pursuant to a registration rights agreement, to register the shares of common stock issuable upon conversion of the Preferred Stock and upon exercise of the warrants with the Securities and Exchange Commission.

DESCRIPTION OF PROPERTY

Our corporate headquarters are located at 1772 Technology Drive, San Jose, CA 95110, where we operate under a lease agreement expiring in November 2006. Our offices contain 5,300 square feet of office space and our monthly rental expense is approximately \$8,000. We also maintain a sales office in the Netherlands at IJsselburcht 3, Lorentz Building, Suite 201, 6825 BS Arnhem, Netherlands. The lease is on a month-to-month basis at a monthly rate of \$480.

We believe that our current facilities are adequate for our current

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

operations.

LEGAL PROCEEDINGS

On May 20, 2003, Syscan, Inc., our wholly-owned subsidiary, filed a lawsuit captioned Syscan v. PPL (Case No. C03-02367 VRW) in United States District Court, Northern District of California in San Francisco. Syscan alleges claims against Portable Peripheral Co., Ltd., Image Recognition Integrated Systems, Inc., Cardreader Inc., and Targus, Inc. for patent infringement. We are claiming that our various A-6 and A-8 mobile scanners sold by defendants in the United States have infringed upon our patents including US Patent Nos. 6,054,707 (Portable Scanners Capable of Scanning both Opaque and Transparent Materials), 6,275,309 (Lightweight Mobile Scanners) and 6,459,506 Lightweight Dual-mode Mobile Scanner Powered from a Universal Serial Bus Port). We are seeking: (1) a temporary restraining order, preliminary injunction and permanent injunction against defendants, restraining defendants from patent infringement and unfair competition; (2) treble damages due to defendants' willful infringement; (3) punitive damages; (4) accounting of unjust enrichment by defendants, resulting from defendants' unfair competition; and (5) attorney's fees and costs.

The defendants are jointly represented by PPL's counsel. PPL has initiated counterclaims against us for patent invalidity. This case is currently pending for claim construction. We intend to continue this case unless a reasonable settlement amount from defendants or a licensing agreement to our satisfaction is entered. We have not yet been able to quantify our damage claim against PPL. We intend to vigorously pursue this claim and we deny PPL's counterclaim of patent invalidity.

Other than as disclosed above, we are not a party to any material legal proceedings. We from time to time experience routine litigation in the normal course of our business. We do not believe that any pending litigation will have a material adverse effect on our financial condition, results of operations or cash flows.

23

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the shares of common stock issuable upon conversion of the Series A Preferred Stock by the selling stockholders. If and when all of the warrants held by the selling stockholders are exercised, we will receive the proceeds from the exercise of those warrants. If these warrants are exercised in full, we may receive up to \$2,051,500, which we intend to use for working capital and other general corporate purposes.

SELLING STOCKHOLDERS

Up to an aggregate of 3,263,750 shares of common stock may be offered under this prospectus consisting of up to (i) 1,865,000 shares of common stock issuable upon conversion of Series A Preferred Stock, (ii) 279,750 shares of Common Stock, representing our estimate of the maximum number of shares of Common Stock issuable upon conversion of accrued dividends on the shares of Series A Convertible Preferred Stock, and (iii) up to 1,119,000 shares of common stock issuable upon the exercise of warrants.

All proceeds of this offering will be received by the selling stockholders for their own account. We may receive proceeds in connection with the exercise of the warrants, the underlying shares associated with which may, in turn, be sold by the selling stockholders. As used in this prospectus, the term "selling

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

stockholder" includes the selling stockholders listed below and their transferees, assignees, pledgees, donees or other successors.

On March 15, 2005, we consummated the sale of 18,650 shares of our Series A Preferred Stock for gross proceeds of \$1,865,000. The Series A Preferred Stock bears interest at a rate equal to 5% per annum. The Series A Preferred Stock is convertible, under certain conditions, into shares of our common stock at a price equal to \$1.00 per share. In connection with the financing, we also issued to the purchasers of the Series A Preferred Stock common stock purchase warrants to purchase up to 932,500 shares of our common stock at a price equal to \$2.00 per share. We also issued an aggregate of 186,500 warrants to Starboard Capital Markets, LLC and its affiliates, to purchase common stock at a price equal to \$1.00 per share, as compensation for its services as placement agent in our Series A Preferred Stock offering. For its services as placement agent in our Series A Preferred Stock offering, Starboard Capital Markets, LLC received a ten percent (10%) cash commission and warrants to purchase up to ten percent (10%) of the number of shares of common stock into which the Series A Preferred Stock sold in the offering was initially convertible, at an exercise price equal to the initial conversion price of the Series A Preferred Stock. Of the 186,500 warrants to which Starboard Capital Markets, LLC was entitled to receive as compensation for its placement agent services, it allocated an aggregate of 139,875 warrants to two of its registered representatives: Michael Hamblett (93,250 warrants) and Anthony Spatacco (46,625 warrants). Each of Messrs. Hamblett and Spatacco acquired the warrants in their ordinary course of business and at the time of their acquisition of the warrants they did not have any agreements, understandings or arrangements with any other persons, either directly or indirectly, to dispose of the warrants or the shares of common stock issuable upon exercise of the warrants.

The following table sets forth, to our knowledge, certain information about the selling stockholders as of the date of this prospectus. None of the selling stockholders, other than Starboard Capital Markets, LLC, is a registered broker-dealer

Beneficial ownership is determined in accordance with Rule 13d-3 promulgated by the Securities and Exchange Commission, and generally includes voting or investment power with respect to securities. In computing the number of shares beneficially owned by the holder and the percentage ownership of the holder, shares of common stock issuable upon conversion of the note and upon exercise of the warrant held by the holder that are currently convertible or are exercisable within 60 days after the date of the table are deemed outstanding.

24

The percent of beneficial ownership for the selling stockholder is based on 23,110,515 shares of common stock outstanding as of the date hereof. Shares of common stock subject to warrants, options and other convertible securities that are currently exercisable or exercisable within 60 days of the date hereof, are considered outstanding and beneficially owned by a selling stockholder who holds those warrants, options or other convertible securities for the purpose of computing the percentage ownership of that selling stockholder but are not treated as outstanding for the purpose of computing the percentage ownership of any other stockholder.

The following table sets forth information as of that date regarding beneficial ownership of our common stock by each of the selling stockholders before and immediately after the offering. Actual ownership of the shares is subject to conversion of the Series A Preferred Stock and exercise of the warrants.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

The shares of common stock being offered under this prospectus may be offered for sale from time to time during the period the registration statement of which this prospectus is a part remains effective, by or for the account of the selling stockholders.

After the date of effectiveness of the registration statement of which this prospectus is a part, the selling stockholders may have sold or transferred, in transactions covered by this prospectus or in transactions exempt from the registration requirements of the Securities Act, some or all of its common stock. Information about the selling stockholders may change over time.

Any changed information will be set forth in an amendment to the registration statement or supplement to this prospectus, to the extent required by law.

- (18) The number of shares being registered for Mr. Moran includes 15,000 shares issuable upon the conversion of preferred stock and 7,500 shares issuable upon the exercise of warrants.

27

The selling stockholders and we are not making any representation that any shares covered by the prospectus will or will not be offered for sale or resale. The selling stockholders reserve the right to accept or reject, in whole or in part, any proposed sale of shares. The shares offered by this prospectus may be offered from time to time by the selling stockholder named above.

28

PLAN OF DISTRIBUTION

Selling stockholders may offer and sell, from time to time, the shares of our common stock covered by this prospectus. The term selling stockholders includes donees, pledgees, transferees or other successors-in-interest selling securities received after the date of this prospectus from a selling stockholder as a gift, pledge, partnership distribution or other non-sale related transfer. The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. Sales may be made on one or more exchanges or in the over-the-counter market or otherwise, at prices and under terms then prevailing or at prices related to the then current market price or in negotiated transactions. The selling stockholders may sell their securities by one or more of, or a combination of, the following methods:

- o purchases by a broker-dealer as principal and resale by the broker-dealer for its own account pursuant to this prospectus;
- o ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- o block trades in which the broker-dealer so engaged will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o an over-the-counter distribution in accordance with the rules of the NASDAQ National Market;

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

- o in making short sales or in transactions to cover short sales;
- o in put or call option transactions relating to the shares;
- o in privately negotiated transactions; and
- o in options, swaps or derivatives transactions.

The selling stockholders may effect these transactions by selling shares directly to purchasers or to or through broker-dealers, which may act as agents or principals. These broker-dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agents or to whom they sell as principals, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions). The selling stockholders have advised us that they have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their securities.

To the extent required, we may amend or supplement this prospectus to describe a specific plan of distribution. In connection with distributions of the securities or otherwise, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions. In connection with those transactions, broker-dealers or other financial institutions may engage in short sales of shares of our common stock in the course of hedging the positions they assume with selling stockholders. The selling stockholders may also sell shares of our common stock short and redeliver the securities to close out their short positions. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions that require the delivery to the broker-dealer or other financial institution of securities offered by this prospectus, which securities the broker-dealer or other financial institution may resell pursuant to this prospectus, as supplemented or amended to reflect the transaction. The selling stockholders may also loan or pledge securities to a broker-dealer or other financial institution, and, upon a default, the broker-dealer or other financial institution, may affect sales of the loaned or pledged securities pursuant to this prospectus, as supplemented or amended to reflect the transaction.

29

The selling stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus. In effecting sales, broker-dealers or agents engaged by the selling stockholders may arrange for other broker-dealers to participate. Broker-dealers or agents may receive commissions, discounts or concessions from the selling stockholders in amounts to be negotiated immediately prior to the sale.

In offering the securities covered by this prospectus, the selling stockholders and any broker-dealers who execute sales for the selling stockholders may be treated as "underwriters" within the meaning of the Securities Act in connection with sales. Any profits realized by the selling stockholders and the compensation of any broker-dealer may be treated as underwriting discounts and commissions.

The selling stockholders and any other person participating in a distribution will be subject to the Securities Exchange Act of 1934 (Exchange Act). The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the securities by the selling stockholders and other participating persons. In addition, Regulation M

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

may restrict the ability of any person engaged in the distribution of the securities to engage in market-making activities with respect to the particular security being distributed for a period of up to five business days prior to the commencement of the distribution. This may affect the marketability of the securities and the ability of any person or entity to engage in market-making activities with respect to the securities. We have informed the selling stockholders that the anti-manipulation rules of the SEC, including Regulation M promulgated under the Exchange Act, may apply to their sales in the market.

We will make copies of this prospectus available to the selling stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the securities against certain liabilities, including liabilities arising under the Securities Act. We have agreed to indemnify the selling stockholders and the selling stockholders have agreed to indemnify us against certain liabilities in connection with the offering of the shares, including liabilities arising under the Securities Act.

At the time a particular offer of securities is made, if required, a prospectus supplement will be distributed that will set forth the number of securities being offered and the terms of the offering, including the name of any underwriter, dealer or agent, the purchase price paid by any underwriter, any discount, commission and other item constituting compensation, any discount, commission or concession allowed or re-allowed or paid to any dealer, and the proposed selling price to the public.

We are paying all expenses and fees in connection with the registration of the shares. The selling stockholders will bear all brokerage or underwriting discounts or commissions paid to broker-dealers in connection with the sale of their shares.

30

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT

The following table sets forth the names and ages our current directors and executive officers, the principal offices and positions with us held by each person and the date such person became a director or executive officer. Each year the stockholders elect the members of our Board of Directors.

Our directors and executive officers are as follows:

NAME	YEAR FIRST ELECTED AS AN OFFICER OR DIRECTOR	AGE	POSITION(S) HELD
Darwin Hu	2004	53	President, Chief Executive Officer and Chairman
William Hawkins	2004	49	Chief Operating Officer, Acting Chief Financial Officer and Secretary
David Clark	2004	37	Senior Vice President of Business Development and Director
Peter Mor	2004	55	Director

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Lawrence Liang

2004

69 Director

There are no family relationships between any director, executive officer, or person nominated or chosen to become a director or executive officer.

DARWIN HU became our Chairman, President and Chief Executive Officer on April 2, 2004, in connection with our acquisition of Syscan, Inc. Prior thereto, Mr. Hu was the President and Chief Executive Officer of Syscan, Inc., our wholly-owned subsidiary. Mr. Hu has over 21 years of experience in the high-tech industry and has held various management related positions within organizations related to color graphic imaging input scanning, display output and imaging communication product development, manufacturing and sales and marketing. Before joining Syscan, Inc. in April 1998, Mr. Hu held senior management positions at Microtek, Xerox, OKI, AVR, DEST, Olivetti and Grundig. Mr. Hu holds a bachelor's degree in Engineering Science from National Cheng-Kung University, Taiwan, and a master's degree in Computer Science and Engineering from California State University, Chico, USA.

WILLIAM HAWKINS became our Chief Operating Officer and Secretary on April 2, 2004, in connection with our acquisition of Syscan, Inc. Mr. Hawkins has held various management positions at Syscan, Inc., our wholly-owned subsidiary, since 1999, including V.P. of Sales and Marketing, President and General Manager Syscan Imaging Group. Prior thereto, Mr. Hawkins' product focus has been primarily in the imaging systems and computer peripheral markets, including senior positions with General Electric (UK), Kaman Aerospace, British Aerospace Engineering, Gartner Research and Per Scholas. Mr. Hawkins received a bachelor's degree in physics from the University of Maryland in 1978 and an MBA from Johns Hopkins University in Management of Technology Concentration (MOT).

DAVID CLARK has been our Senior Vice President of Business Development and a director since July 15, 2004. From October, 2003 to July, 2004 Mr. Clark was President of Nautical Vision, Inc. a market specific image display company where he created and implemented the company's business plan which involved product sourcing, sales and marketing and general management. From June, 2001 to October, 2003, Mr. Clark actively invested in and consulted to a diverse group of companies in addition to being involved in residential development. Mr. Clark was President and CEO of Homebytes.com from November, 1998 to May of 2001, where he was primarily responsible for raising in excess of twenty five million dollars in funding from investors including America Online, FBR Technology Venture Partners, PNC Bank, and Bank of America, as well as being instrumental in the acquisition of a key competitor of Homebytes.com. Prior thereto Mr. Clark was the head of distribution and a director of Take Two Interactive (NASDAQ:TTWO) which was a result of TTWO's acquisition of Inventory Management Systems, Inc. (I.M.S.I.), of which Mr. Clark was a co-founder and President. Prior to founding I.M.S.I., Mr. Clark held various management positions with Acclaim Entertainment (NASDAQ:AKLM), and the Imagesoft division of SONY Music (NYSE:SNE). Mr. Clark received a B.S. in Business from the State University of New York at Binghamton in 1990.

31

PETER MOR has been a director since April 2, 2004. Mr. Mor has been the Senior Vice President of Engineering & Operations of Focus Enhancements since February 1, 2005. Prior to joining Focus Enhancements, Mr. Mor served as a Vice President of Engineering of SONY Corp. from July 23, 1999 to January 31, 2005 where he is responsible for research and development of SONY's VAIO Notebook and Desktop PCs, accessories and web based network services. Prior thereto, Mr. Mor has extensive experience in engineering, operations and manufacturing, as well as off-shore manufacturing, international outsourcing and procurement and ODM

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

management. Prior to joining SONY Corp., since 1980 Mr. Mor held various senior positions with AMAX Engineering, AVR Technologies, Fujitsu Computer Products of America, XEROX and QUME. Mr. Mor holds a master's degree in Computer Science from the University of Oregon and a bachelor's degree in Electrical Engineering from National Cheng-Kung University, Taiwan.

LAWRENCE LIANG has been a director since April 2, 2004. Since 1984 Mr. Liang has been the President and Vice President of Genoa Systems Corporation, a graphics company that developed the flicker free and true color technologies in the late 1980's, the President of Telecom Marketing, a marketing consultant for telecommunications infrastructure, and the President of Cwaves Technology, a wireless LAN/WAN company. Mr. Liang has also worked for IBM's Technology Component Division to help develop semiconductor products and RISC CPU Instruction sets. Mr. Liang also spent five years in IBM's Disk Drive division in Silicon Valley where he held various management positions. Mr. Liang holds a master's degree in Applied Mathematics from the City University of New York.

BOARD COMMITTEES

Our board of directors does not currently have any committees. We intend to establish an audit committee which we expect will be comprised of a majority of our independent directors.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that our directors and executive officers and persons who beneficially own more than 10% of our common stock (referred to herein as the "reporting persons") file with the SEC various reports as to their ownership of and activities relating to our common stock. Such reporting persons are required by the SEC regulations to furnish us with copies of all Section 16(a) reports they file. Based solely upon a review of copies of Section 16(a) reports and representations received by us from reporting persons, and without conducting any independent investigation of our own, in 2004, we believe all Forms 3, 4 and 5 were timely filed with the SEC by such reporting persons.

CODE OF ETHICS

Our Board of Directors has adopted a Code of Ethics which is applicable to all of our chief executive officers, senior financial officers and members of our board of directors, including our principal executive officer and principal financial officer, principal accounting officer or controller, or other persons performing similar functions.

32

Any amendment of our Code of Ethics or waiver thereof applicable to any of our principal executive officer, principal financial officer and controller, principal accounting officer, directors or persons performing similar functions will be disclosed on our website within 5 days of the date of such amendment or waiver. In the case of a waiver, the nature of the waiver, the name of the person to whom the waiver was granted and the date of the waiver will also be disclosed.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

For information regarding securities authorized for issuance under Equity Compensation Plans, and the equity compensation plan information table see "Market for Common Equity and Related Stockholder Matters."

SECURITY OWNERSHIP OF MANAGEMENT AND
CERTAIN BENEFICIAL OWNERS

The following table sets forth as of the date of this prospectus information regarding the beneficial ownership of our common stock based upon the most recent information available to us for: (i) each person known by us to own beneficially more than five (5%) percent of our outstanding common stock, (ii) each of our officers and directors, and (iii) all of our officers and directors as a group. Unless otherwise indicated, each of the persons listed below has sole voting and investment power with respect to the shares beneficially owned by them. As of the date of this prospectus there were 23,110,515 shares of our common stock outstanding.

NAME AND ADDRESS OF BENEFICIAL OWNER(1)	NUMBER OF COMMON SHARES BENEFICIALLY OWNED (2)	PERCENTAGE OF COMMON SHARES BENEFICIALLY OWNED
Darwin Hu (3)	500,000	2.1%
William Hawkins (4)	333,334	1.4%
David Clark (5)	316,667	1.4%
Peter Mor (6)	-0-	-0-
Lawrence Liang (6)	-0-	-0-
Syscan Imaging Limited(7)	18,773,514	81.2%
All Directors and Officers as a group (5 persons) (3)-(6)	1,150,001	4.8%
* less than one percent		

(1) Unless otherwise indicated, the address of each person listed below is c/o Syscan Imaging, Inc., 1772 Technology Drive, San Jose, California 95110.

(2) Pursuant to the rules and regulations of the Securities and Exchange Commission, shares of common stock that an individual or group has a right to acquire within 60 days pursuant to the exercise of options or warrants are deemed to be outstanding for the purposes of computing the percentage ownership of such individual or group, but are not deemed to be outstanding for the purposes of computing the percentage ownership of any other person shown in the table.

(3) Includes 500,000 shares of common stock issuable upon the exercise of options issued to Mr. Hu in connection with his employment agreement with us. Does not include 560,000 shares issuable upon the exercise of options granted pursuant to our Amended and Restated 2002 Stock Option Plan, 420,000 of which are not exercisable within 60 days of the date hereof and all of which are subject to stockholders approval of the Amended and Restated Stock Option Plan under which such options were issued. Also does not include 1,000,000 shares underlying options issued to Mr. Hu in connection with the execution of his employment agreement with us which are not exercisable within 60 days of the date hereof. Mr. Hu also disclaims beneficial ownership of any shares of common stock held by Syscan Imaging Limited, our majority-stockholder, of which Mr. Hu is a director.

(4) Includes 333,334 shares of common stock issuable upon the exercise of options issued to Mr. Hawkins in connection with his employment agreement with us. Does not include 360,000 shares issuable upon the exercise of options granted pursuant to our Amended and Restated 2002 Stock Option Plan, 270,000 of which are not exercisable within 60 days of the date hereof and all of which are subject to stockholders approval of the Amended and Restated Stock Option Plan under which such options were issued. Also does not include 666,666 shares

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

underlying options issued to Mr. Hawkins in connection with the execution of his employment agreement with us which are not exercisable within 60 days of the date hereof.

(5) Includes 50,000 shares of common stock and 266,667 shares of common stock issuable upon the exercise of options issued to Mr. Clark in connection with his employment agreement with us. Does not include 400,000 shares issuable upon the exercise of options granted pursuant to our Amended and Restated 2002 Stock Option Plan, 300,000 of which are not exercisable within 60 days of the date hereof and all of which are subject to stockholders approval of the Amended and Restated Stock Option Plan under which such options were issued. Also does not include 533,333 shares underlying options issued to Mr. Clark in connection with the execution of his employment agreement with us which are not exercisable within 60 days of the date hereof.

34

(6) Does not include 80,000 shares issuable upon the exercise of options granted pursuant to our Amended and Restated 2002 Stock Option Plan, 60,000 of which are not exercisable within 60 days of the date hereof and all of which are subject to stockholders approval of the Amended and Restated Stock Option Plan under which such options were issued.

(7) The sole shareholder of Syscan Imaging Limited is Syscan Technology Holdings Limited, a publicly-held company whose shares are listed on The Growth Enterprise Market of The Stock Exchange of Hong Kong Limited. The address for Syscan Imaging Limited is Unit 808, 8th floor, K. Wah Centre, 191 Java Road, North Point Hong Kong.

35

DESCRIPTION OF SECURITIES

GENERAL

The following description of our capital stock does not purport to be complete and is subject to and qualified in its entirety by our certificate of incorporation and bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part, and by the applicable provisions of Delaware law.

Our authorized capital stock consists of 50,000,000 shares of common stock, and 2,000,000 shares of blank-check preferred stock, 60,000 of which have been designated Series A Preferred Stock. As of the date of this prospectus, our outstanding capital stock consists of 23,110,515 shares of common stock, \$.001 par value and 18,650 shares of Series A Preferred Stock, \$.001 par value. These figures do not include securities to be issued pursuant to our Amended and Restated 2002 Stock Option Plan.

COMMON STOCK

As of the date of this prospectus, we have 23,110,515 shares of common stock outstanding, held of record by approximately 359 stockholders. The holders of common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Subject to preferential rights with respect to any outstanding preferred stock, holders of common stock are entitled to receive ratably such dividends as may be declared by the board of directors out of funds legally available therefor. In the event of our

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities and satisfaction of preferential rights of any outstanding preferred stock.

Our common stock has no preemptive or conversion rights or other subscription rights. There are no sinking fund provisions applicable to the common stock. The outstanding shares of common stock are fully paid and non-assessable.

PREFERRED STOCK

We have authorized 2,000,000 shares of preferred stock, of which an aggregate of 60,000 have been designated Series A Preferred Stock and of which 18,650 are outstanding as of the date of this prospectus. The issuance of preferred stock with voting and conversion rights may adversely affect the voting power of the holders of common stock, including voting rights, of the holders of common stock. In certain circumstances, such issuance could have the effect of decreasing the market price of the common stock. Notwithstanding the broad discretion granted to our Board of Directors with respect to designating the terms and conditions of any series of preferred stock, our Board of Directors has agreed to refrain from issuing shares of preferred stock, unless such designation and issuance are approved by a majority of our independent directors who do not have an interest in the transactions and who have access to and consulted with (at our expense) our counsel or counsel of their choosing.

SERIES A PREFERRED STOCK

In March 2005, we sold an aggregate of 18,650 shares of our Series A Preferred Stock, the material terms of which are described below:

36

PREFERRED STOCK CONVERSION RIGHTS. All or any portion of the stated value of Preferred Stock outstanding may be converted into common stock at anytime by the purchasers. The initial fixed conversion price of the preferred stock is \$1.00 per share ("CONVERSION PRICE"). The Conversion Price is subject to anti-dilution protection adjustments, on a full ratchet basis, at anytime that the preferred stock is outstanding and prior to the effective date of the registration statement required to be filed pursuant to the Registration Rights Agreement, upon our issuance of additional shares of common stock, or securities convertible into common stock, at a price that is less than the then Conversion Price.

DIVIDENDS. The Preferred Stock accrues dividends at a rate of 5% per annum, payable semiannually on July 1 and January 1 in cash, by accretion of the stated value or in shares of common stock. Subject to certain terms and conditions, the decision whether to accrete dividends to the stated value of the Preferred Stock or to pay for dividends in cash or in shares of common stock, shall be at our discretion.

REDEMPTION. On March 15, 2008 (the "REDEMPTION DATE"), all of the outstanding Preferred Stock shall be redeemed for a per share redemption price equal to the stated value on the Redemption Date (the "REDEMPTION PRICE"). The Redemption Price is payable by us in cash or in shares of common stock at our discretion and shall be paid within five trading days after the Redemption Date. In the event we elect to pay all or some of the Redemption Price in shares of common stock, the shares of common stock to be delivered to the purchasers shall be valued at 85% of the fifteen-day volume weighted average price of the common stock on the Redemption Date.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

RIGHT TO COMPEL CONVERSION. If, on any date after March 15, 2006, (A) the closing market price per share of our common stock for ten (10) consecutive trading days equals at least \$4.00 (subject to adjustment for certain events), and (B) the average reported daily trading volume during such ten-day period equals or exceeds 100,000 shares, then we shall have the right, at our option, to convert, all, but not less than all, of the outstanding shares of Preferred Stock at the Conversion Price; provided that there shall be an effective registration statement covering the resale of the shares of common stock underlying the preferred stock at all times during such 10-day period and during the 30-day notice period to the holders thereof.

RESTRICTIONS ON CONVERSION OF PREFERRED STOCK. No holder of our Preferred Stock is entitled to receive shares upon payment of dividends on the Preferred Stock, or upon conversion of the Preferred Stock held by such holder if such receipt would cause such holder to be deemed to beneficially own in excess of 4.999% of the outstanding shares of our common stock on the date of issuance of such shares (such provision may be waived by such holder upon 61 days prior written notice to us). In addition, no individual holder is entitled to receive shares upon payment of dividends on the Preferred Stock, or upon conversion of the Preferred Stock held by such holder if such receipt would cause such holder to be deemed to beneficially own in excess of 9.999% of the outstanding shares of our common stock on the date of issuance of such shares (such provision may be waived by such holder upon 61 days prior written notice to us).

REGISTRATION RIGHTS. Pursuant to the terms of a Registration Rights Agreement between us and the holders of the preferred stock, we are obligated to file a registration statement on Form SB-2 registering the resale of shares of our common stock issuable upon conversion of the preferred stock and exercise of the warrants. We are required to file the registration statement on or before April 24, 2005 and have the registration statement declared effective on or before July 13, 2005. If the registration statement is not declared effective within the timeframe described, or if the registration is suspended other than as permitted in the Registration Rights Agreement, we will be obligated to pay each holder a fee equal to 1.0% of such holders purchase price of the Preferred Stock during the first 90 days, and 2.0% for each 30 day period thereafter (pro rated for partial periods), that such registration conditions are not satisfied.

37

RIGHT OF FIRST REFUSAL. Subject to certain conditions, we have granted the holders a right of first refusal, for a period until one (1) year from the effective date of the registration statement required to be filed in connection with the purchase of the Preferred Stock, to participate in any subsequent financing that we conduct.

VOTING RIGHTS. Holders of the Preferred Stock shall have no voting rights. However, so long as any shares of Preferred Stock are outstanding, we shall not, without the affirmative vote of the holders of a majority of the shares of the Preferred Stock then outstanding, (a) alter or change adversely the powers, preferences or rights given to the Preferred Stock or alter or amend the Series A Certificate of Designation, (b) authorize or create any class of stock ranking as to dividends or distribution of assets upon a liquidation senior to or otherwise PARI PASSU with the Preferred Stock, (c) amend our certificate or articles of incorporation or other charter documents so as to affect adversely any rights of the holders of the Preferred Stock, (d) increase the authorized number of shares of Preferred Stock, or (e) enter into any agreement with respect to the foregoing.

LIQUIDATION PREFERENCE. Upon our liquidation, dissolution or winding up, whether voluntary or involuntary (a "LIQUIDATION"), the holders of the Preferred

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Stock shall be entitled to receive out of our assets, whether such assets are capital or surplus, for each share of Preferred Stock an amount equal to the stated value per share before any distribution or payment shall be made to the holders of any of our securities with rights junior to the Preferred Stock, and if our assets shall be insufficient to pay in full such amounts, then the entire assets to be distributed to the holders of the Preferred Stock shall be distributed among such holders ratably in accordance with the respective amounts that would be payable on such shares if all amounts payable thereon were paid in full.

ANTI-DILUTION. Holders of the Preferred Stock are entitled to full ratchet anti-dilution protection for issuances of common stock or common stock equivalents, prior to the effective date of the registration statement covering the resale of the shares of common stock underlying the Preferred Stock, at less than the Conversion Price. Holders of Preferred Stock also have standard anti-dilution protection for splits, dividends, subdivisions, distributions, reclassifications and combinations of our common stock.

WARRANTS

We have outstanding warrants to purchase an aggregate of up to 1,119,000 shares of our Common stock. 932,500 of such warrants are exercisable at \$2.00 per share and 186,500 of such warrants are exercisable at \$1.00 per share, all of which were issued in connection with our Series A Preferred Stock financing. The warrants are exercisable through March 15, 2010 and must be exercised by the payment of cash, except if there is no effective registration statement covering the resale of the shares of Common stock underlying the warrants, a holder may exercise their warrants on a cashless basis.

Holders of the warrants are entitled to full ratchet anti-dilution protection for issuances of common stock or common stock equivalents, prior to the effective date of the registration statement covering the resale of the shares of common stock underlying the Preferred Stock, at less than the exercise price of such warrants. Holders of warrants also have standard anti-dilution protection for splits, dividends, subdivisions, distributions, reclassifications and combinations of our common stock.

None of the individual holders of the Warrants are entitled to exercise any such Warrant held by them, if such exercise would cause such holder to be deemed to beneficially own in excess of 4.999% of the outstanding shares of our Common stock on the date of issuance of such shares.

38

ANTI-TAKEOVER LAW

We are subject to Section 203 of the Delaware General Corporation Law, which restricts certain transactions and business combinations between a corporation and an "interested stockholder" (as defined in Section 203) owning 15% or more of the corporation's outstanding voting stock, for a period of three years from the date the stockholder becomes an interested stockholder. Subject to certain exceptions, unless the transaction is approved by the board of directors and the holders of at least two-thirds of our outstanding voting stock (excluding shares held by the interested stockholder), Section 203 prohibits significant business transactions such as a merger with, disposition of assets to, or receipt of disproportionate financial benefits by the interested stockholder, or any other transaction that would increase the interested stockholder's proportionate ownership of any class or series of the corporation's stock. The statutory ban does not apply if, upon consummation of the transaction in which any person becomes an interested stockholder, the

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

interested stockholder owns at least 85% of the outstanding voting stock of the corporation (excluding shares held by persons who are both directors and officers or by certain employee stock plans).

TRANSFER AGENT AND REGISTRAR

Interwest Transfer Company is the transfer agent for our common stock. The address for Interwest Trust Company is 1981 East Murray Holladay Road, Salt Lake City, Utah 84117.

[remainder of page intentionally left blank]

39

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our certificate of incorporation provides that all our directors, officers, employees and agents shall be entitled to be indemnified by us to the fullest extent permitted under the Delaware General Corporation Law, provided that they acted in good faith and that they reasoned their conduct or action was in, or not opposed to, the best interest of our company.

Our Bylaws provide for indemnification of our officers, directors and others who become a party to an action on our behalf by us to the fullest extent not prohibited under the Delaware General Corporation Law. Further, we maintain officer and director liability insurance.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

[remainder of page intentionally left blank]

40

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THE FOLLOWING DISCUSSION AND ANALYSIS OF OUR FINANCIAL CONDITION AND RESULTS OF OPERATIONS SHOULD BE READ IN CONJUNCTION WITH OUR CONSOLIDATED FINANCIAL STATEMENTS AND RELATED NOTES APPEARING ELSEWHERE IN THIS PROSPECTUS. THIS DISCUSSION AND ANALYSIS CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS, UNCERTAINTIES AND ASSUMPTIONS. THE ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF CERTAIN FACTORS, INCLUDING, BUT NOT LIMITED TO, THOSE WHICH ARE NOT WITHIN OUR CONTROL.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Management's discussion and analysis of financial condition and results of operations (MD&A) is provided as a supplement to the accompanying consolidated financial statements and footnotes to help provide an understanding of our financial condition, changes in financial condition and results of operations. The MD&A is organized as follows:

- o OVERVIEW. This section provides a general description of our business, as well as recent developments that we believe are important in understanding the results of operations and to anticipate future trends in those operations.
- o CRITICAL ACCOUNTING POLICIES. This section provides an analysis of the significant estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.
- o RESULTS OF OPERATIONS. This section provides an analysis of our results of operations for the three months ended March 31, 2005 compared to the same period in 2004 and the year ended December 31, 2004 compared to the same period in 2003. A brief description is provided of transactions and events, including related party transactions that impact the comparability of the results being analyzed.
- o LIQUIDITY AND CAPITAL RESOURCES. This section provides an analysis of our financial condition and cash flows as of and for the quarter ended March 31, 2005 and for the year ended December 31, 2004.

The following management's discussion and analysis should be read in conjunction with our consolidated unaudited financial statements for the three months ended March 31, 2005 and 2004, the consolidated audited financial statements for the fiscal years ended December 31, 2004 and 2003 and related notes to those financial statements.

OVERVIEW

Management's Discussion and Analysis (MD&A) contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of factors discussed in this prospectus, as well as factors not within our control. We undertake no duty to update any forward-looking statement to conform the statement to actual results or changes in our expectations.

On April 2, 2004, we completed our acquisition of 100% of the issued and outstanding capital stock of Syscan, Inc., pursuant to a Share Exchange Agreement ("Agreement") dated March 29, 2004. Pursuant to the Agreement, the sole stockholder of Syscan, Inc., Syscan Imaging Limited, received 18,773,514 post-reverse split shares of our common stock in exchange for all of the issued and outstanding capital stock of Syscan, Inc. In connection with the issuance of our common stock to Syscan Imaging Limited, Syscan Imaging Limited beneficially became the owner of 81.2% of our issued and outstanding voting securities.

Upon completion of the reverse acquisition, we changed our name to Syscan Imaging, Inc. from Bank Engine Technologies, Inc. and effectuated a 1-for-10 reverse split of our common stock. Pursuant to the Agreement, the following persons were appointed to our board of directors: Darwin Hu, Wai Cheung, Peter Mor and Lawrence Liang. Michael Xirinachs resigned as Chairman and Chief

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Executive Officer, but remained as a director until his resignation on July 19, 2004. Concurrent with the closing on April 2, 2004, the Board of Directors appointed Darwin Hu as our President and Chief Executive Officer, Stephen Yim as our Chief Financial Officer (Mr. Yim was subsequently terminated as our Chief Financial Officer on February 4, 2005) and William Hawkins as our Chief Operating Officer and Secretary. A more detailed description of this transaction is set forth in our Current Report on Form 8-K dated April 2, 2004, filed with the Securities and Exchange Commission on April 19, 2004.

We are in the business of developing, designing and delivering imaging technology solutions. We currently have 14 issued patents held by us all of which are U.S. patents. Our technology is also covered by 5 issued patents in Taiwan. We also have 3 patent applications currently pending with the US Patent & Trademark Office, 2 of which relate to image display technology and one of which relates to image scanning. Our approach to research and development (R&D) is focused on creating new deliverable and marketable technologies. We sell our products to clients' throughout the world, including the United States, Canada, Europe, South America, Australia and Asia. We intend to expand our business and product offerings into the much larger image display market where we intend to leverage our experience and expertise. We also believe that we may benefit from a level of transfer of technologies from image capture to image display.

Our wholly-owned operating subsidiary, Syscan, Inc. ("SI"), was incorporated on May 1, 1995, under the laws of the State of California and is headquartered in San Jose with additional strategic offices in Arnhem (the Netherlands). Our majority stockholder is Syscan Imaging Limited, which is wholly-owned by Syscan Technology Holdings Limited. Syscan Technology Holdings Limited is a publicly-held company incorporated in Bermuda whose shares are listed on The Growth Enterprise Market of The Stock Exchange of Hong Kong Limited.

Our strategy is to expand our image capture product line and technology while leveraging our assets in other areas of the imaging industry. We are actively shipping five image capture products under the Travel Scan marquee or their OEM counterparts. The Travel Scan series features portable lightweight scanning in color and black & white with low power consumption that requires no power adapter. The A4 (letter size) scanners represented approximately 34% of our sales during the three months ended March 31, 2005 and 27% of our sales during the quarter ended March 31, 2004. The A5, is a unique security document scanner which has emerged as a rapidly expanding market for Syscan. The A5 scanner currently represents approximately 3% of our sales during the three months ended March 31, 2005 and 2% of our sales for the quarter ended March 31, 2004. The A6 scanner is ideal for photos, checks, passports and various identification cards. The 662 is our first product geared towards, and being implemented in, the fast growing security industry. The 662 is our best selling product and represented approximately 53% of our sales during the three months ended March 31, 2005 and 43% of our sales during the 3 months ended March 31, 2004. Our fourth product representing approximately 9% of our sales during the three months ended March 31, 2005 and 4% of our sales during the 3 months ended March 31, 2004, is the A8 Business Card scanner.

In addition to the Travel Scan product line, we also manufacture and sell the Contact Image Sensor (CIS) Modules that we use in our products and separately as a component to other manufacturers. These manufacturers, that we sell our modules to, integrate our modules into their products. The product application typically includes check and currency scanners, copiers, and fax machines, and reselling of the finished products to the end-users. The CIS business represented less than 1% of our sales during the three months ended

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

March 31, 2005 and approximately 21% of our overall sales during the 3 months ended March 31, 2004. This dramatic shift is directly due to our efforts to convince our CIS product customers to allow Syscan to manufacture their "finished" imaging product and not simply to sell them a subassembly of their product.

We intend to expand our image capture product line with three new products, each of which we intend to release in 2005. The first product is a high-quality true-duplex high-speed A4 scanner in which our customers have expressed interest. First customer shipments of this new product will begin in June (2005). Several OEM and VAR brands have already agreed to partner with us in this product launch. The second product is an A6 scanner that follows in the footsteps of the current 662 but is high speed and allows true duplex scanning, allowing image capture of both sides of a two-sided document simultaneously. We expect revenue from this product by the 4th quarter (2005). The third product, scheduled to be introduced in October (2005), is a specialized security document scanner that utilizes infrared light sources to help in the process of identifying fraudulent or tampered with documents. With the growing concerns over Homeland Security and the implementation of the Patriot Act in the United States, we believe this product has the ability to address these evolving security requirements and needs. We believe that this product not only addresses today's security scanning needs, but also anticipates the proliferation of new technologies such as digital watermarking.

Over the past twelve months we have begun focusing our sales and marketing efforts substantially towards the vertical markets such as the Value Added Reseller (VAR) and small-office-home-office (SOHO) markets. We believe focusing on these markets is the most effective way to showcase our technological capabilities and manufacturing efficiencies, while enabling us to maintain higher margins, and require fewer resources than working directly with the mass retailers.

While we continue to grow our presence in image capture technology, we have begun creating, through research and development, new technology solutions for the substantially larger, image display market. More specifically we are creating products and technologies to accent and enhance the Liquid Crystal Display (LCD) television market. Our first image display product, expected to be available for delivery during 2006 is the Syscan View Tech image/video display processor. The View Tech control board is a highly integrated, high performance video processor that combines state-of-the-art scaling and video processing techniques for displaying analog and digital video/graphics on a LCD-TV/DTV display. We believe that this product will provide advanced image processing that will greatly enhance LCD display quality. Its state-of-the-art design incorporates a system-on-chip (SOC) that improves any pixilated multimedia video. The next product/technology that we are developing is a Light Emitting Diode (LED) backlighting solution to replace the industries current standard Cold Cathode Fluorescent Lamp (CCFL). The principal behind this technology is related to the proprietary technology used in our image capture products. The benefits are substantial, including longer life, higher dimming ratio, sharper contrast, and near high definition resolution without filters, all at a performance value.

In addition to future products and technologies in various stages of research and development, one of our objectives is to acquire companies in the image capture and display industry that could compliment our business model, improve our competitive positioning and expand our offerings to the marketplace, of which there can be no assurance. In identifying potential acquisition candidates we will seek to acquire companies with varied distribution channels, rich intellectual property (IP) and high caliber engineering personnel.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, accounts receivable and allowance for doubtful accounts, inventories, intangible and long-lived assets, and income taxes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used or changes in the accounting estimate that are reasonably likely to occur could materially change the financial statements. We believe the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

REVENUE RECOGNITION

Revenues consist of sales of merchandise, including optical image capturing devices, modules of optical image capturing devices, and chips and other optoelectronic products. Revenue is recognized when the product is shipped and the risks and rewards of ownership have transferred to the customer. We recognize shipping and handling fees as revenue, and the related expenses as a component of cost of sales. All internal handling charges are charged to selling, general and administrative expenses.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

We present accounts receivable, net of allowances for doubtful accounts, to ensure accounts receivable are not overstated due to uncollectibility. The allowances are calculated based on detailed review of certain individual customer accounts, historical rates and an estimation of the overall economic conditions affecting our customer base. We review a customer's credit history before extending credit. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. In the event that our trade receivables became uncollectible after exhausting all available means of collection, we would be forced to record additional adjustments to receivables to reflect the amounts at net realizable value. The effect of this entry would be a charge to income, thereby reducing our net profit. Although we consider the likelihood of this occurrence to be remote based on past history and the current status of our accounts, there is a possibility of this occurrence.

INVENTORIES

Inventories consist of finished goods, which are stated at the lower of cost or net realizable value, with cost computed on a first in, first-out basis. Provision is made for obsolete, slow-moving or defective items where appropriate. The amount of any provision of inventories is recognized as an expense in the period the provision occurs. The amount of any reversal of any

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

provision is recognized as other income in the period the reversal occurs. Our inventory purchases and commitments are made in order to build inventory to meet future shipment schedules based on forecasted demand for our products. We perform a detailed assessment of inventory for each period, which includes a review of, among other factors, demand requirements, product life cycle and development plans, component cost trends, product pricing and quality issues.

44

Based on this analysis, we record adjustments to inventory for excess, obsolescence or impairment, when appropriate, to reflect inventory at net realizable value. Revisions to our inventory adjustments may be required if actual demand, component costs or product life cycles differ from our estimates. In the event we were unable to sell our products, the demand for our products diminished, other competitors offered similar or better technology, and/or the product life cycles deteriorated causing quality issues, we would be forced to record an adjustment to inventory for impairment or obsolescence to reflect inventory at net realizable value. The effect of this entry would be a charge to income, thereby reducing our net profit. Although we consider the likelihood of this occurrence to be remote based on our forecasted demand for our products, there is a possibility of this occurrence.

INTANGIBLE AND LONG-LIVED ASSETS

We evaluate our intangible assets and long-lived assets, which represent goodwill, long-term investments, and fixed assets, for impairment annually and when circumstances indicate the carrying value of an asset may not be recoverable. If impairment exists, an adjustment is made to write the asset down to its fair value, and a loss is recorded as the difference between the carrying value and fair value would be charged to operations. We do not believe any impairment exists for any of these types of assets for the financial statement periods presented.

INCOME TAXES

We account for income taxes under the provisions of Statement of Financial Accounting Standards ("SFAS" No. 109), "Accounting for Income Taxes," whereby deferred income tax assets and liabilities are computed for differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred income tax assets to the amount expected to be realized.

CONTINGENCIES

Currently, there are no outstanding legal proceedings or claims, other than that disclosed in Note 8 of the Consolidated Financial Statements. The outcomes of potential legal proceedings and claims brought against us are subject to significant uncertainty. SFAS 5, ACCOUNTING FOR CONTINGENCIES, requires that an estimated loss from a loss contingency such as a legal proceeding or claim should be accrued by a charge to income if it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. Disclosure of a contingency is required if there is at least a reasonable possibility that a loss has been incurred. In determining whether a loss should be accrued we evaluate, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. Changes in these factors could materially impact our financial position or results of operations.

RESULTS OF OPERATIONS

THREE MONTHS ENDED MARCH 31, 2005 COMPARED TO MARCH 31, 2004

REVENUE

Product revenues increased to \$1.708 million for the quarter ended March 31, 2005 from \$1.506 million for the same period in fiscal 2004, an increase of approximately \$202,000 or approximately 13.4%. This increase in revenues for the period is primarily the result of improved product sales and marketing efforts to shift our business emphasis to less seasonal sensitive channels. Once again, scanner imaging products represented over 97% of our revenues during the first quarter. During the quarter ended March 31, 2005 four of our customers accounted for approximately 90% of total revenues. During the same period ended March 31, 2004, eight customers accounted for approximately 90% of total revenues. The loss of any of these larger clients could have a material adverse effect on our business.

COST OF SALES

Cost of goods sold (COGS) includes all direct costs related to the transfer of scanners, imaging modules and services related to the delivery of those items manufactured in China. COGS was approximately 64.6% for the quarter ended March 31, 2005 compared to 68.9% for the same period in 2004. Our COGS decreased as a percentage of revenues primarily as a result of slightly higher gross margins and better pricing in the VAR channel than originally projected. We expect that our COGS will remain the same or slightly higher during 2005 as a result of higher fuel costs in Mainland China.

GROSS PROFIT

Gross profit increased 4.3 % for the quarter ended March 31, 2005, \$604,343 or 35.4% from \$467,908 or 31.1% of net revenues for the same period in 2004. This increase in gross profit is a direct result of increased value-added software content to our products. We anticipate that our gross profit margins may continue to increase as we gain better control over our source parts cost and logistics.

SELLING AND MARKETING

Selling and marketing expenses include payroll, employee benefits and other costs associated with sales, marketing and account management personnel. Other direct selling and marketing costs include market development funds and promotions (retail channels only), tradeshow, website support costs, warehousing, logistics and certain sales representative fees. Selling and marketing expenses decreased to \$152,100 for the quarter ended March 31, 2005 from \$194,300 for the same period in 2004, a decrease of \$42,200 or approximately 21.7%. The decrease during the quarter ended March 31, 2005 is primarily attributable to better efficiency in our OEM relationships and lower retail promotion and marketing activities.

GENERAL AND ADMINISTRATIVE

General and administrative (G&A) costs include payroll, employee benefits, and other headcount-related costs associated with the finance, legal, facilities and certain human resources, as well as other professional and administrative fees. General and administrative expenses increased to \$296,500 for the quarter ended March 31, 2005 from \$147,400 for the same period in fiscal 2004, an

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

increase of \$149,100 or approximately 101.1%. The increase for the quarter ended March 31, 2005 is primarily attributable to additional personnel costs and outside fees incurred in connection with our public listing compliance expense.

RESEARCH AND DEVELOPMENT

The Research and Development (R&D) costs include payroll, employee benefits, and other headcount-related costs associated with the product design, development, compliance testing, documentation and transition to production. R&D expenses increased to \$176,000 for the quarter ended March 31, 2005 from \$113,300 for the same period in fiscal 2004, an increase of \$62,700 or approximately 55.3%. The increase for the quarter ended March 31, 2005 is primarily attributable to a greater emphasis on the development of new products than during the same period in the previous year.

46

OTHER INCOME (EXPENSE)

Our other income (expense) for the quarters ended March 31, 2005 and 2004 was immaterial to the overall financial statements for both periods presented.

NET (LOSS) EARNINGS

Net loss for the quarter ended March 31, 2005 was approximately \$(23,200) compared to net earnings of approximately \$14,850 during the same period in 2004. The decrease in net earnings was primarily the result of the substantial increase in G&A and R&D expenses as the company prepares to meet future revenue growth from new products.

TWELVE MONTHS ENDED DECEMBER 31, 2004 COMPARED TO DECEMBER 31, 2003

REVENUE

Product revenues decreased to \$6.058 million for the year ended December 31, 2004 from \$7.457 million for the same period in fiscal 2003, a decrease of \$1.4 million or approximately 18.8%. The decrease in revenues for the year ended December 31, 2004 as compared to the same period in fiscal 2003 is the result of delayed new product introductions. Scanner products and imaging modules comprised approximately 99% of our revenues during each of these periods. Our revenue mix has been gradually trending towards the Value Added Reseller (VAR) and small office home office (SOHO) markets, which is a result of our efforts to appeal to customers in these sales channels. During the year ended December 31, 2004 three of our customers accounted for approximately 69% of total revenues. During the year ended December 31, 2003, three customers accounted collectively for approximately 59% of total revenues. The loss of any of our largest clients could have a material adverse effect on our business.

COST OF SALES

Cost of goods sold (COGS) includes all direct costs related to the transfer of scanners, imaging modules and services related to the delivery of those items manufactured in China. A relatively small percentage (<1%) of COGS is due to engineering services provided by us. COGS was approximately 68.8% for the year ended December 31, 2004 compared to 68.2% for the same period in 2003. COGS increased as a percentage of revenues for the year ended December 31, 2004 as compared to the same period in 2003 primarily as a result of higher gross margins and better pricing elasticity than projected. We anticipate that our COGS may continue to increase during 2005 as a result of higher source costs from Mainland China as market insecurities and higher fuel prices persist.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

GROSS PROFIT

Gross profit decreased to \$1,890,000 or 31.2% of net revenues for the year ended December 31, 2004 from \$2,367,000, or 31.7% of net revenues for the same period in 2003. The decrease in gross profit is primarily a result of a change in payment terms, with our Mainland China supplier during the 3rd and 4th quarters of 2004. We anticipate that our gross profit margins may continue to decrease as our main supplier's source costs and logistics costs are projected to continue to rise during 2005, which will result in our paying higher prices for the purchase of our products.

47

SELLING AND MARKETING

Selling and marketing expenses include payroll, employee benefits and other costs associated with sales, marketing and account management personnel. Other direct selling and marketing costs include market development funds and promotions (retail channels only), tradeshow, website support costs, warehousing, logistics and certain sales representative fees. Selling and marketing expenses increased to \$745,557 for the year ended December 31, 2004 from \$635,966 for the same period in 2003, an increase of \$109,000 or approximately 17%. The increase during the year ended December 31, 2004 is primarily attributable to changes in staffing and marketing activities related to the display imaging (LCD panel) group.

GENERAL AND ADMINISTRATIVE

General and administrative costs include payroll, employee benefits, and other headcount-related costs associated with the finance, legal, facilities and certain human resources, as well as legal and other professional and administrative fees. General and administrative expenses increased to \$827,294 for the year ended December 31, 2004 from \$625,156 for the same period in fiscal 2003, an increase of \$202,138 or approximately 32.3%. The increase for the year ended December 31, 2004 is primarily attributable to additional personnel costs in China, outside fees incurred in connection with our public listing compliance expenses and the addition of senior financial management personnel.

OTHER INCOME (EXPENSE)

Our other income for the year ended December 31, 2004 was \$31,521 compared to \$529,650 during the same period of 2003, a decrease of \$498,129. Other income in 2004 primarily consisted of collection of a former receivable written off and sale of inventory previously considered slow-moving. Other income in 2003 also consisted of former receivables written off and subsequently sold.

NET (LOSS) EARNINGS

Net loss for the year ended December 31, 2004 was \$(179,866) compared to net earnings of \$835,232 during the same period in 2003. The decrease in net earnings was primarily the result of a decrease in other income of \$498,129, an increase in general and administrative expenses of \$202,138, an increase in selling and marketing expenses of \$109,000 and a slight increase in COGS and a decrease in gross profit margin.

RELATED PARTY TRANSACTIONS

We purchase significantly all of our finished scanner imaging products from the parent company of our majority stockholder, Syscan Technology Holdings

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Limited ("STH"). Our Chairman and CEO, Darwin Hu, was formerly the CEO of STH, and beneficially owns approximately 5.33% of the issued and outstanding capital stock of STH. The following is a summary of significant related party transactions, which were carried out in the normal course of our business, during the three months ended March 31, 2005 and 2004 and the years ended December 31, 2004 and 2003:

The following is a summary of significant related party purchases from entities that are wholly-owned subsidiaries of STH. The transactions were carried out in the normal course of our business.

48

	MARCH 31, 2005	MARCH 31, 2004
SYSCAN Intervision Limited, a wholly-owned subsidiary of STH (purchases)	\$0.000M	\$1.084M
	=====	=====
SYSCAN Lab Limited Company Limited, a wholly-owned subsidiary of STH (purchases)	\$1.266M	\$--
	=====	=====
	DECEMBER 31, 2004	DECEMBER 31, 2003
SYSCAN Intervision Limited, a wholly-owned subsidiary of STH (purchases)	\$3.825M	\$4.480M
	=====	=====
SYSCAN Optoelectronics Technology (Shenzhen) Company Limited, a wholly-owned subsidiary of STH (purchases)	\$0.520M	\$--
	=====	=====

AMOUNTS DUE TO/FROM RELATED PARTIES ARE UNSECURED, INTEREST-FREE AND REPAYABLE ON DEMAND AND CONSISTED OF THE FOLLOWING AS OF MARCH 31, 2005:

Due from STH	\$ 345,998
Due from Majority Stockholder	100,000
Due from various subsidiaries wholly-owned by STH	1,711,021
	=====
Total	\$ 2,157,019
	=====

LIQUIDITY AND CAPITAL RESOURCES

THREE MONTHS ENDED MARCH 31, 2005

Cash and cash equivalents were approximately \$1,800,000 as of March 31, 2005 compared to \$687,000 at December 31, 2004 and working capital at March 31, 2005 was approximately \$5,232,000 compared to \$3,747,000 at December 31, 2004. The increase in cash and working capital is primarily attributable to the cash proceeds of approximately \$1,618,000 received from our convertible preferred stock offering completed in March 2005.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

OPERATING ACTIVITIES. Net cash flows (used in) / provided by operating activities was (\$500,715) and \$365,264 for the quarter ended March 31, 2005 and 2004, respectively. Net cash provided by operating activities for both periods primarily reflects net income and net changes in operating assets and liabilities such as accounts receivable, inventory and accounts payable. Cash generated by operating activities for 2004 is primarily explained by (i) decreases in accounts receivable representing cash collections from the prior year's fourth quarter and (ii) increases in inventory levels as we built up inventories to respond to forecasted demand for our products from the prior year's fourth quarter. Cash used by operating activities for 2005 is explained by (i) increases in accounts receivable due to increased sales and (ii) increases in inventory levels as we built up inventories to respond to forecasted demand for our products from the prior year's fourth quarter.

49

INVESTING ACTIVITIES. Net cash flows used in investing activities during the three months ended March 31, 2005 and 2004 consisted of cash paid for capital expenditures.

FINANCING ACTIVITIES. Net cash flows provided by (used in) financing activities for the quarter ended March 31, 2005 and 2004 was \$1,618,500 and (\$846,072), respectively. Cash flows generated from financing activities for the first quarter of 2005 primarily represents cash received from the sale of our Series A preferred stock offering. For both periods presented, advances to and/or repayments from related party receivables and payables were made in the ordinary course of business.

We have financed our activities primarily with cash flows from operations and borrowings under our credit facilities. We have a \$1,000,000 bank line of credit, which bears interest at prime plus one percent, which is secured by all of our general business assets. The subject bank line of credit had \$700,000 outstanding as of March 31, 2005. We believe that our line of credit or other financing arrangements, existing working capital and anticipated cash flows from operations will be adequate to satisfy our operating and capital requirements for the next 12 months at our current run rate and without any further expansion. In order to implement our growth strategy and expansion into the image display area, additional funds will be required.

Our plans for the next twelve months include continuing to increase our presence in the image capture market, heavily investing our resources into the image display market and adding future products and technologies to our current product offerings. Additionally, we intend to seek to identify acquisition candidates in the image capture and display industry that we believe could compliment our business model, improve our competitive positioning and expand our offerings to the marketplace, of which there can be no assurance. In identifying potential acquisition candidates, we will seek to acquire companies with varied distribution channels, rich intellectual property (IP) and high caliber engineering personnel.

To finance our business expansion plans, we plan to aggressively pursue additional sources of funds, the form of which will vary depending on the prevailing market and other conditions, and may include the issuance and sale of debt or equity securities. However, there is no assurance that such additional funds will be available for us to finance our expansion plans. Furthermore, there is no assurance the net proceeds from any successful financing arrangement will be sufficient to cover cash requirements as we expand our business operations.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

CONCENTRATION OF CREDIT RISK

CONCENTRATION OF CREDIT RISK FOR CASH HELD AT BANKS. We maintain cash balances at several banks. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000.

CONCENTRATION OF CREDIT RISK DUE TO GEOGRAPHIC SALES AND SIGNIFICANT CUSTOMERS. We operate in a single industry segment - scanner and fax modules. We market our products in the United States, Europe and the Asia Pacific region through our sales personnel and independent sales representatives.

Our geographic sales as a percent of total revenue were as follows for the quarters ended March 31:

	2005	2004
	-----	-----
United States	98%	97.6%
Asia Pacific	0.4%	0.1%
Europe and others	1.6%	2.3%

50

Sales to major customers as a percentage of total revenues were as follows for the quarters ended March 31:

	2005	2004
	-----	-----
Customer A	26%	20%
Customer B	26%	33%
Customer C	23%	16%
Customer D	14%	4%
Customer E	--	11%

CONCENTRATION OF CREDIT RISK DUE TO ACCOUNTS RECEIVABLE. Financial instruments that potentially subject us to a concentration of credit risk consist primarily of trade receivables. Our customers are concentrated in the industrial/consumer electronics channels and with major original equipment manufacturers. As of March 31, 2005, the concentration was approximately 87% (3 customers). The loss of any of these customers could have a material adverse effect on our results of operations, financial position and cash flows.

CONCENTRATION OF CREDIT RISK DUE TO SIGNIFICANT VENDORS. For each of the years ended March 31, 2005 and 2004, our purchases have primarily been concentrated with the wholly-owned subsidiary of our majority stockholder. If this vendor was unable to provide materials in a timely manner and we were unable to find alternative vendors, our business, operating results and financial condition would be materially adversely affected.

CONCENTRATION OF CREDIT RISK DUE TO PRODUCT SALES. We had 3 different product categories in the first quarter of 2005 and 3 different products during the same period in 2004 that each accounted for more than 10% of sales. If any of these products were to become obsolete or unmarketable and we were unable to successfully develop and market alternative products, our business, operating results and financial condition could be adversely affected.

YEAR ENDED DECEMBER 31, 2004

Cash and cash equivalents were approximately \$687,403 as of December 31, 2004 compared to approximately \$1,020,000 as of December 31, 2003, a decrease of approximately 32.6%. Working capital at December 31, 2004 was approximately

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

\$3,747,520 as compared to approximately \$3,940,000 at December 31, 2003, a decrease of approximately 4.9%. The decrease in cash and working capital is primarily attributable to our prepayment of certain tooling expenses, an increase in legal fees as a result of the acquisition, and trade show expenses.

OPERATING ACTIVITIES. Net cash flows used in operating activities was \$26,009 and \$41,540 for the year ended December 31, 2004 and 2003, respectively. Net cash used in operating activities for 2004 primarily reflects net loss adjusted by cash collections from accounts receivables offset by prepayments for deposits and payments on outstanding debt. Net cash used in operating activities for 2003 primarily reflects net income adjusted for a reversal of provision for slow-moving inventories increased by trade receivables and an increase in accounts payable and other accruals.

INVESTING ACTIVITIES. Net cash flows provided by (used in) investing activities during each of 2004 and 2003 were minimal.

FINANCING ACTIVITIES. Net cash flows provided by (used in) financing activities for the year ended December 31, 2004 and 2003 was (\$308,389) and \$728,775, respectively. Cash flows from financing activities for 2004 consists of advances under our line of credit totaling \$700,000 to fund working capital and funds advanced under a letter of credit totaling \$233,036 for goods shipped on account. For both periods presented, advances to and/or repayments from related party receivables and payables were made in the ordinary course of business.

51

We have financed our activities primarily with cash flows from operations and borrowings under our credit facilities. We have a \$1,000,000 bank line of credit, which bears interest at prime plus one percent, which is secured by all of our general business assets. The subject bank line of credit had \$700,000 outstanding as of December 31, 2004. In March 2005, we sold an aggregate of \$1.865 million of our Series A Convertible Preferred Stock to accredited investors. We believe that our line of credit or other financing arrangements, existing working capital and anticipated cash flows from operations will be adequate to satisfy our operating and capital requirements for the next 12 months at our current run rate and without any further expansion. In order to implement our growth strategy and expansion into the image display area, additional funds will be required.

Our plans for the next twelve months include continuing to increase our presence in the image capture market, heavily investing our resources into the image display market and adding future products and technologies to our current product offerings. Additionally, we intend to seek to identify acquisition candidates in the image capture and display industry that we believe could compliment our business model, improve our competitive positioning and expand our offerings to the marketplace, of which there can be no assurance. In identifying potential acquisition candidates, we will seek to acquire companies with varied distribution channels, rich intellectual property (IP) and high caliber engineering personnel.

To finance our business expansion plans, we plan to aggressively pursue additional sources of funds, the form of which will vary depending on the prevailing market and other conditions, and may include the issuance and sale of debt or equity securities. However, there is no assurance that such additional funds will be available for us to finance our expansion plans. Furthermore, there is no assurance the net proceeds from any successful financing arrangement will be sufficient to cover cash requirements as we expand our business operations.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

CONCENTRATION OF CREDIT RISK

CONCENTRATION OF CREDIT RISK FOR CASH HELD AT BANKS. We maintain cash balances at several banks. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000.

CONCENTRATION OF CREDIT RISK DUE TO GEOGRAPHIC SALES AND SIGNIFICANT CUSTOMERS. We operate in a single industry segment - scanner and fax modules. We market our products in the United States, Europe and the Asia Pacific region through our sales personnel and independent sales representatives.

Our geographic sales as a percent of total revenue were as follows for the years ended December 31:

	2004	2003
	-----	-----
United States	93%	80%
Asia Pacific	2%	13%
Europe and others	5%	7%

Sales to major customers as a percentage of total revenues were as follows for the years ended December 31:

52

	2004	2003
	-----	-----
Customer A	38%	41%
Customer B	16%	9%
Customer C	15%	9%

CONCENTRATION OF CREDIT RISK DUE TO ACCOUNTS RECEIVABLE. Financial instruments that potentially subject us to a concentration of credit risk consist primarily of trade receivables. Our customers are concentrated in the industrial/consumer electronics channels and with major original equipment manufacturers. As of December 31, 2004 and 2003, the concentration was approximately 89% (2 customers) and 82% (5 customers), respectively. The loss of any of these customers could have a material adverse effect on our results of operations, financial position and cash flows.

CONCENTRATION OF CREDIT RISK DUE TO SIGNIFICANT VENDORS. For each of the years ended December 31, 2004 and 2003, our purchases have primarily been concentrated with the wholly-owned subsidiary of our majority stockholder. If this vendor was unable to provide materials in a timely manner and we were unable to find alternative vendors, our business, operating results and financial condition would be materially adversely affected.

CONCENTRATION OF CREDIT RISK DUE TO PRODUCT SALES. We had 4 different products in 2004 and 2 different products in 2003 that each accounted for more than 10% of sales. If any of these products were to become obsolete or unmarketable and we were unable to successfully develop and market alternative products, our business, operating results and financial condition could be adversely affected.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any transactions, agreements or other contractual arrangements that constitute off-balance sheet arrangements.

CONTRACTUAL OBLIGATIONS

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Our Contractual Obligations and Commercial Commitments are detailed below:

Contractual Obligations	Payments Due by Period				
	Less Total	Than 1 Year	1-3 Years	4 - 5 Years	After 5 Years
Line of Credit (1)	\$ 700,000	\$ 700,000	--	--	--
Letter of credit (2)	\$ 233,036	\$ 233,036	--	--	--
Operating Leases (3)	\$ 180,500	\$ 106,000	\$ 74,500	--	--
Total Cash Contractual Obligations	\$ 1,113,536	\$ 1,039,036	\$ 74,500	--	--

(1) LINE OF CREDIT - We have a line of credit to borrow up to \$1,000,000, bearing interest at the rate of prime plus 1%, (6.75% at March 31, 2005) and secured by all of our assets. Interest payments are due monthly and all unpaid interest and principal is due in full on August 24, 2005. Upon certain events of defaults as more fully described in the agreement, the default variable interest rate increases to prime plus 3%. We had \$300,000 available for use at March 31, 2005.

53

(2) LETTER OF CREDIT - We issue letters of credit in the normal course of business. The amount outstanding as of March 31, 2005, represents one letter of credit for goods shipped to a related entity, expiring in April 2005.

(3) OPERATING LEASES - We are committed under various non-cancelable operating leases which expire through November 2006. Future minimum rental commitments are as follows: 2005-\$106,000 and 2006-\$101,000. Rent expense charged to operations was approximately \$28,000 for the three months ended March 31, 2005 (2004: \$25,000) and \$95,000 for the year ended December 31, 2004 (2003: \$99,000).

54

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

MANUFACTURING

All of our products are manufactured by Syscan Technology Holdings (STH), the parent company of our majority stockholder. We and STH have established an internal-pricing agreement that is updated on a semi-annual basis. STH currently serves as the manufacturer of all current image capture products produced by us. We believe, for quality control and pricing reasons, this type of relationship is more favorable than could be attained from unaffiliated third-parties. We purchase and provide STH with critical parts and components necessary to

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

manufacture our products.

We purchase significantly all of our finished scanner imaging products from the parent company of our majority stockholder, Syscan Technology Holdings Limited ("STH"). Our Chairman and CEO, Darwin Hu, was formerly the CEO of STH, and beneficially owns approximately 5.33% of the issued and outstanding capital stock of STH. The following is a summary of significant related party transactions, which were carried out in the normal course of our business, during the three months ended March 31, 2005 and 2004 and the years ended December 31, 2004 and 2003:

THE FOLLOWING IS A SUMMARY OF SIGNIFICANT RELATED PARTY PURCHASE TRANSACTIONS, WHICH WERE CARRIED OUT IN THE NORMAL COURSE OF OUR BUSINESS:

THREE MONTHS ENDED MARCH 31:	2005	2004
	-----	-----
SYSCAN Intervision Limited, a wholly-owned subsidiary of STH (purchases)	\$ 0.000M	\$ 1.084M
	=====	=====
SYSCAN Lab Limited Company Limited, a wholly-owned subsidiary of STH (purchases)	\$ 1.266M	\$ --
	=====	=====
Year ended December 31:	2004	2003
	-----	-----
SYSCAN Intervision Limited	\$3,825,482	\$4,418,415
	=====	=====
SYSCAN Optoelectronics Technology (Shenzhen) Company Limited	\$ 520,200	\$ --
	=====	=====

AMOUNTS DUE TO/FROM RELATED PARTIES ARE UNSECURED, INTEREST-FREE AND REPAYABLE ON DEMAND AND CONSISTED OF THE FOLLOWING AS OF MARCH 31, 2005 AND DECEMBER 31, 2004:

55

AMOUNTS DUE FROM RELATED PARTIES:	MARCH 31, 2005
Due from STH	\$ 345,998
Due from Majority Stockholder	100,000
Due from various subsidiaries wholly-owned by STH	1,711,021

	=====
	DECEMBER 31, 2004
AMOUNTS DUE FROM RELATED PARTIES:	
Due from STH	\$ 345,998
Due from Majority Stockholder	100,000

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Due from various subsidiaries wholly-owned by STH	1,818,989

TOTAL	\$ 2,264,987
	=====

In April 2005 we entered into employment agreements with each of Darwin Hu, our Chief Executive Officer, William Hawkins, our Chief Operating Officer and Acting Chief Financial Officer, and David Clark, our Senior Vice President of Business Development. In connection therewith we granted options to each of Messrs. Hu, Hawkins and Clark to purchase 1,500,000, 1,000,000 and 800,000 shares of our common stock, respectively, at an exercise price of \$0.01 per share. Such options shall vest one-third on the execution date of the employment agreement, one-third on April 3, 2006 and one-third on April 2, 2007. Pursuant to such employment agreements, each of Messrs. Hu, Hawkins and Clark shall be entitled to receive annual salaries of \$200,000, \$160,000 and \$150,000, respectively.

Other than those described above, we have no material transactions which involved or are planned to involve a direct or indirect interest of a director, executive officer, greater than 5% stockholder or any family member of such parties.

We believe that all of the transactions set forth above were made on terms no less favorable to us than could have been obtained from unaffiliated third parties. All future transactions between us and our officers, directors and principal shareholders and their affiliates will be on terms no less favorable than could be obtained from unaffiliated third parties and will be approved by the independent members of our board of directors.

To the best of our knowledge, other than as set forth above, there were no material transactions, or series of similar transactions, or any currently proposed transactions, or series of similar transactions, to which we were or are to be a party, in which the amount involved exceeds \$60,000, and in which any director or executive officer, or any security holder who is known by us to own of record or beneficially more than 5% of any class of our common stock, or any member of the immediate family of any of the foregoing persons, has an interest.

56

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

MARKET INFORMATION. Our common stock has been listed and quoted on the OTC Bulletin Board since December 1998. From January 1, 2003 through April 1, 2004 our common stock traded under the symbol "BKET" and since April 2, 2004 under the symbol "SYII". All prices reflected herein have been adjusted to reflect the 1-for-10 reverse split of our common stock that was effected on April 2, 2004.

The following chart sets forth the high and low sale prices for each quarter during the fiscal years ended December 31, 2003 and 2004, respectively, and the first quarter ended March 31, 2005. Such prices represent quotations between dealers, without dealer markup, markdown or commissions, and may not represent actual transactions.

	HIGH	LOW
	----	---
2003 BY QUARTER		
January 1 - March 31	\$1.90	\$0.20

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

April 1 - June 30	\$0.50	\$0.20
July 1 - September 30	\$0.50	\$0.15
October 1 - December 31	\$1.50	\$0.25

2004 BY QUARTER

January 1 - March 31	\$4.20	\$0.70
April 1 - June 30	\$4.75	\$1.10
July 1 - September 30	\$4.26	\$1.40
October 1 - December 31	\$4.10	\$2.05

2005 BY QUARTER

January 1 - March 31	\$3.25	\$1.20
April 1 - June 13	\$1.30	\$0.53

On June 13, 2005, the closing sale price for shares of our common stock in the over-the-counter market, as reported by NASD's OTCBB was \$0.80.

No prediction can be made as to the effect, if any, that future sales of shares of our common stock or the availability of our common stock for future sale will have on the market price of our common stock prevailing from time-to-time. Sales of substantial amounts of our common stock in the public market could adversely affect the prevailing market price of our common stock.

RECORD HOLDERS. As of the date hereof there were 359 record holders of our common stock. As of the date hereof there were 23,110,515 shares of common stock issued and outstanding.

DIVIDENDS. We have not paid dividends on our common stock in the past and do not anticipate doing so in the foreseeable future. We currently intend to retain future earnings, if any, to fund the development and growth of our business. The holders of our Series A Preferred Stock are entitled to receive dividends at a rate of 5% per annum, payable in cash or shares of our common stock, on a cumulative basis.

57

EQUITY COMPENSATION PLAN INFORMATION

	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the table above) (c)
Equity compensation plans approved by security holders	200,000	\$ 2.00	0
Equity compensation plans not approved by security holders	5,700,000	\$0.708	1,465,000
Total	5,900,000	\$0.752	1,465,000

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

(1) Includes up to 300,000 options previously approved by the independent members of the board of director to be issued to consultants to us in connection with the execution of previously approved consulting agreements. None of such 300,000 options have been issued as of the date hereof.

58

EXECUTIVE COMPENSATION

The following table sets forth, for the fiscal years indicated, all compensation awarded to, paid to or earned by the following type of executive officers for the fiscal years ended December 31, 2002, 2003 and 2004: (i) individuals who served as, or acted in the capacity of, our principal executive officer for the fiscal year ended December 31, 2004; and (ii) our other most highly compensated executive officers, who together with the principal executive officer are our most highly compensated officers whose salary and bonus exceeded \$100,000 with respect to the fiscal years ended December 31, 2004, 2003 and 2002 and who were employed by us at the end of fiscal year 2004.

SUMMARY COMPENSATION TABLE*

NAME AND PRINCIPAL POSITION	YEAR	ANNUAL COMPENSATION			AWARDS	
		SALARY (\$)	BONUS (\$)	OTHER ANNUAL COMPENSATION (\$)	RESTRICTED STOCK AWARD (S) (\$)	SECURITIES UNDER OPTION
Darwin Hu, Chief Executive Officer and Chairman	2004	200,000	--	--	--	
	2003	200,000	--	--	--	
	2002	200,000	--	--	--	
William Hawkins Chief Operating Officer, Acting Chief Financial Officer and Secretary	2004	160,000	--	--	--	
	2003	160,000	--	--	--	
	2002	160,000	--	--	--

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

-
- (1) As of December 31, 2004, the market value of a share of common stock was \$3.10.
 - (2) On February 4, 2005, Mr. Yim was terminated as our Chief Financial Officer and the Board of Directors agreed to allow 55,000 options to immediately vest. Additionally, 165,000 options expired immediately upon such termination. The 55,000 options are exercisable through May 4, 2005. As of the date hereof, all of the options have expired.

No shares were exercised by named executive officers in fiscal year ended December 31, 2004.

60

As of December 31, 2004, options to purchase a total of 2,200,000 shares of common stock were granted under our 2002 Amended and Restated Stock Option Plan, at an exercise price of \$2.00 per share. One-fourth of the options granted vest on the first anniversary, one-fourth of the options granted vest on the second anniversary, one-fourth of the options granted vest on the third anniversary and one-fourth of the options vest on the fourth anniversary. The options expire on the ten year anniversary of their grant date.

All options described above have been issued pursuant to the 2002 Amended and Restated Stock Option Plan described below and are subject to shareholder approval.

2002 AMENDED AND RESTATED STOCK OPTION PLAN

DESCRIPTION OF THE 2002 PLAN

THE PURPOSE OF THE 2002 PLAN. The purpose of the 2002 Plan is to provide additional incentive to our directors, officers, employees and consultants to us who are primarily responsible for our management and growth. Each option shall be designated at the time of grant as either an incentive stock option (an "ISO") or as a non-qualified stock option (a "NQSO").

Each option shall be designated at the time of grant as either an incentive stock option (an "ISO") or a non-qualified stock option (a "NQSO"). The Board of Directors believes that the ability to grant stock options to employees which qualify for ISO treatment provides an additional material incentive to certain key employees. The Internal Revenue Code requires that ISOs be granted pursuant to an option plan that receives shareholder approval within one year of its adoption. We adopted the 2002 Plan in order to comply with this statutory requirement and preserve its ability to grant ISOs.

The benefits to be derived from the 2002 Plan, if any, are not quantifiable or determinable.

ADMINISTRATION OF THE PLAN. The 2002 Plan shall be administered by the Board of Directors, or by any committee that we may in the future form and to which the Board of Directors may delegate the authority to perform such functions (in either case, the "Administrator"). The Board of Directors shall appoint and remove members of the committee in its discretion in accordance with applicable laws. In the event that we establish such a committee and are required to comply with Rule 16b-3 under the Exchange Act and Section 162(m) of the Internal Revenue Code (the "Code"), the committee shall, in the Board of Director's discretion, be comprised solely of "non-employee directors" within

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

the meaning of said Rule 16b-3 and "outside directors" within the meaning of Section 162(m) of the Code. Notwithstanding the foregoing, the Administrator may delegate non-discretionary administrative duties to any of our employees as it deems proper and the Board of Directors, in its absolute discretion, may at any time and from time to time exercise any and all rights and duties of the Administrator under the 2002 Plan.

Subject to the other provisions of the 2002 Plan, the Administrator shall have the authority, in its discretion: (i) to grant options; (ii) to determine the fair market value of the Common Stock subject to options; (iii) to determine the exercise price of options granted; (iv) to determine the persons to whom, and the time or times at which, options shall be granted, and the number of shares subject to each option; (v) to interpret the 2002 Plan; (vi) to prescribe, amend, and rescind rules and regulations relating to the 2002 Plan; (vii) to determine the terms and provisions of each option granted (which need not be identical), including but not limited to, the time or times at which options shall be exercisable; (viii) with the consent of the optionee, to modify or amend any option; (ix) to defer (with the consent of the optionee) the exercise date of any option; (x) to authorize any person to execute on our behalf any instrument evidencing the grant of an option; and (xi) to make all other determinations deemed necessary or advisable for the administration of the 2002 Plan. The Administrator may delegate non-discretionary administrative duties to any of our employees as it deems proper.

61

SHARES OF STOCK SUBJECT TO THE 2002 PLAN. Subject to the conditions outlined below, the total number of shares of stock which may be issued under options granted pursuant to the 2002 Plan shall not exceed 200,000 shares of Common Stock, \$.001 par value per share. In April 2004, the Board of Directors unanimously voted to increase the total number of shares of stock which may be issued under options granted pursuant to the 2002 Plan from 200,000 to 2,200,000 and subsequently increased in July 2004 to 3,200,000. Our stockholders will be asked to ratify the increase in the authorized number of shares of stock that may be issued under the 2002 Plan at the next annual meeting of stockholders.

The number of shares of Common Stock subject to options granted pursuant to the 2002 Plan may be adjusted under certain conditions. If our stock changed by reason of a stock split, reverse stock split, stock dividend, recapitalization, combination or reclassification, appropriate adjustments shall be made by the Board of Directors in (i) the number and class of shares of stock subject to the 2002 Plan, and (ii) the exercise price of each outstanding option; provided, however, that we shall not be required to issue fractional shares as a result of any such adjustments. Each such adjustment shall be subject to approval by the Board of Directors in its sole discretion.

In the event of the proposed dissolution or liquidation of us, the Administrator shall notify each optionee at least thirty days prior to such proposed action. To the extent not previously exercised, all options will terminate immediately prior to the consummation of such proposed action; provided, however, that the Administrator, in the exercise of its sole discretion, may permit exercise of any options prior to their termination, even if such options were not otherwise exercisable. In the event that we merge or consolidate with or into another corporation or entity in which we do not survive, or in the event of a sale of all or substantially all of our assets in which our shareholders receive securities of the acquiring entity or an affiliate thereof, all options shall be assumed or equivalent options shall be substituted by the successor corporation (or other entity) or a parent or subsidiary of such successor corporation (or other entity); provided, however, that if such successor does not agree to assume the options or to substitute

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

equivalent options therefor, the Administrator, in the exercise of its sole discretion, may permit the exercise of any of the options prior to consummation of such event, even if such options were not otherwise exercisable.

PARTICIPATION. Every person who at the date of grant of an option is an employee of ours or of any Affiliate (as defined below) of our is eligible to receive NQSOs or ISOs under the 2002 Plan. Every person who at the date of grant is a consultant to, or non-employee director of, us or any Affiliate (as defined below) of us is eligible to receive NQSOs under the 2002 Plan. The term "Affiliate" as used in the 2002 Plan means a parent or subsidiary corporation as defined in the applicable provisions (currently Sections 424(e) and (f), respectively) of the Code. The term "employee" includes an officer or director who is an employee of ours. The term "consultant" includes persons employed by, or otherwise affiliated with, a consultant.

OPTION PRICE. The exercise price of a NQSO shall be not less than 85% of the fair market value of the stock subject to the option on the date of grant. To the extent required by applicable laws, rules and regulations, the exercise price of a NQSO granted to any person who owns, directly or by attribution under the Code (currently Section 424(d)), stock possessing more than 10% of the total combined voting power of all of our classes of stock or of any Affiliate (a "10% Shareholder") shall in no event be less than 110% of the fair market value of the stock covered by the option at the time the option is granted. The exercise price of an ISO shall be determined in accordance with the applicable provisions of the Code and shall in no event be less than the fair market value of the stock covered by the option at the time the option is granted. The exercise price of an ISO granted to any 10% Percent Shareholder shall in no event be less than 110% of the fair market value of the stock covered by the Option at the time the Option is granted.

62

TERM OF THE OPTIONS. The Administrator, in its sole discretion, shall fix the term of each option, provided that the maximum term of an option shall be ten years. ISOs granted to a 10% Shareholder shall expire not more than five years after the date of grant. The 2002 Plan provides for the earlier expiration of options in the event of certain terminations of employment of the holder.

RESTRICTIONS ON GRANT AND EXERCISE. Except with the express written approval of the Administrator which approval the Administrator is authorized to give only with respect to NQSOs, no option granted under the 2002 Plan shall be assignable or otherwise transferable by the optionee except by will or by operation of law. During the life of the optionee, an option shall be exercisable only by the optionee.

TERMINATION OF THE 2002 PLAN. The 2002 Plan shall become effective upon adoption by the Board or Directors; provided, however, that no option shall be exercisable unless and until written consent of the our shareholders, or approval of our shareholders voting at a validly called shareholders' meeting, is obtained within twelve months after adoption by the Board of Directors. If such shareholder approval is not obtained within such time, options granted pursuant to the 2002 Plan shall be of the same force and effect as if such approval was obtained except that all ISOs granted pursuant to the 2002 Plan shall be treated as NQSOs. Options may be granted and exercised under the 2002 Plan only after there has been compliance with all applicable federal and state securities laws. The 2002 Plan shall terminate within ten years from the date of its adoption by the Board of Directors.

TERMINATION OF EMPLOYMENT. If for any reason other than death or permanent and total disability, an optionee ceases to be employed by us or any of our

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Affiliates (such event being called a "Termination"), options held at the date of Termination (to the extent then exercisable) may be exercised in whole or in part at any time within three months of the date of such Termination, or such other period of not less than thirty days after the date of such Termination as is specified in the Option Agreement or by amendment thereof (but in no event after the expiration date of the option (the "Expiration Date")); provided, however, that if such exercise of the option would result in liability for the optionee under Section 16(b) of the Exchange Act, then such three-month period automatically shall be extended until the tenth day following the last date upon which optionee has any liability under Section 16(b) (but in no event after the Expiration Date). If an optionee dies or becomes permanently and totally disabled (within the meaning of Section 22(e)(3) of the Code) while employed by us or an Affiliate or within the period that the option remains exercisable after Termination, options then held (to the extent then exercisable) may be exercised, in whole or in part, by the optionee, by the optionee's personal representative or by the person to whom the option is transferred by devise or the laws of descent and distribution, at any time within twelve months after the death or twelve months after the permanent and total disability of the optionee or any longer period specified in the Option Agreement or by amendment thereof (but in no event after the Expiration Date). "Employment" includes service as a director or as a consultant. For purposes of the 2002 Plan, an optionee's employment shall not be deemed to terminate by reason of sick leave, military leave or other leave of absence approved by the Administrator, if the period of any such leave does not exceed 90 days or, if longer, if the optionee's right to reemployment by us or any Affiliate is guaranteed either contractually or by statute.

AMENDMENTS TO THE PLAN. The Board of Directors may at any time amend, alter, suspend or discontinue the 2002 Plan. Without the consent of an optionee, no amendment, alteration, suspension or discontinuance may adversely affect outstanding options except to conform the 2002 Plan and ISOs granted under the 2002 Plan to the requirements of federal or other tax laws relating to ISOs. No amendment, alteration, suspension or discontinuance shall require Shareholder approval unless (i) shareholder approval is required to preserve incentive stock option treatment for federal income tax purposes or (ii) the Board of Directors otherwise concludes that shareholder approval is advisable.

63

TAX TREATMENT OF THE OPTIONS. Under the Code, neither the grant nor the exercise of an ISO is a taxable event to the optionee (except to the extent an optionee may be subject to alternative minimum tax); rather, the optionee is subject to tax only upon the sale of the Common Stock acquired upon exercise of the ISO. Upon such a sale, the entire difference between the amount realized upon the sale and the exercise price of the option will be taxable to the optionee. Subject to certain holding period requirements, such difference will be taxed as a capital gain rather than as ordinary income. Optionees who receive NQSOs will be subject to taxation upon exercise of such options on the spread between the fair market value of the Common Stock on the date of exercise and the exercise price of such options. This spread is treated as ordinary income to the optionee, and we are permitted to deduct as an employee expense a corresponding amount. NQSOs do not give rise to a tax preference item subject to the alternative minimum tax.

EMPLOYMENT AGREEMENTS

The independent members of our board of directors have approved the terms of each of the employment agreements described below. On April 26, 2005, we entered into the employment agreements described below with each of the following persons.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Darwin Hu as our President and Chief Executive Officer. The agreement provides for an initial term of three years, an annual salary to Mr. Hu of \$200,000 and an annual bonus to be determined by our board of directors. In connection with the agreement, Mr. Hu was issued non-qualified options to purchase up to 1,500,000 shares of our common stock at an exercise price of \$0.01 per share. One-third of the options vested on the date of execution of the employment agreement, one-third shall vest on April 3, 2006 and one-third shall vest on April 2, 2007. The agreement also provides for the executive's ability to participate in our health insurance program. In the event that Mr. Hu's employment is terminated other than with good cause, he will receive a payment of the lesser of his then remaining salary due pursuant to the employment agreement or six months of base salary at his then current annual salary.

William Hawkins as our Chief Operating Officer. The agreement provides an initial term of three years, an annual salary to Mr. Hawkins of \$160,000 and an annual bonus to be determined by our board of directors. In connection with the agreement, Mr. Hawkins was issued non-qualified options to purchase up to 1,000,000 shares of our common stock at an exercise price of \$0.01 per share. One-third of the options vested on the date of execution of the employment agreement, one-third shall vest on April 3, 2006 and one-third shall vest on April 2, 2007. The agreement also provides for the executive's ability to participate in our health insurance program. In the event that Mr. Hawkins' employment is terminated other than with good cause, he will receive a payment of the lesser of his then remaining salary due pursuant to the employment agreement or six months of base salary at his then current annual salary.

David Clark as our Senior Vice President of Business Development. The agreement provides for an initial term of three years, an annual salary to Mr. Clark of \$150,000 and an annual bonus to be determined by our board of directors. In connection with the agreement, Mr. Clark was issued non-qualified options to purchase up to 800,000 shares of our common stock at an exercise price of \$0.01 per share. One-third of the options vested on the date of execution of the employment agreement, one-third shall vest on April 3, 2006 and one-third shall vest on April 2, 2007. The agreement also provides for the executive's ability to participate in our health insurance program. In the event that Mr. Clark's employment is terminated other than with good cause, he will receive a payment of the lesser of his then remaining salary due pursuant to the employment agreement or six months of base salary at his then current annual salary.

FINANCIAL STATEMENTS

See Financial Statements beginning on Page F-1.

LEGAL MATTERS

The law firm of Ellenoff, Grossman & Schole LLP, of New York, New York, is passing on the validity of our common stock. An associate of this firm is the beneficial owner of 16,666 shares of our common stock which was received in settlement of legal fees owed to such associate's prior law firm.

EXPERTS

The financial statements for the years ended December 31, 2004 and 2003 included in this prospectus have been included in reliance on the report of Clancy and Co., P.L.L.C., independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

AVAILABLE INFORMATION

We file annual, quarterly and special reports, proxy statements and other information with the Securities and Exchange Commission. You may read and copy any document we file at the Commission's public reference rooms at 450 Fifth Street, N.W., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. We also make available free of charge our annual, quarterly and current reports, proxy statements and other information upon request. To request such materials, please contact William Hawkins at 1772 Technology Drive, San Jose, California 95110. Additionally, please note that we file our SEC reports electronically. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at <http://www.sec.gov>. Our Internet address is <http://www.syscaninc.com>. Our website and the information contained therein or connected thereto are not incorporated into this prospectus.

We have filed with the Commission a registration statement (which contains this prospectus) on Form SB-2 under the Securities Act relating to the common stock being offered pursuant to this prospectus. This prospectus does not contain all of the information set forth in the registration statement and the exhibits and schedules to the registration statement. Please refer to the registration statement and its exhibits and schedules for further information with respect to us and the common stock. Statements contained in this prospectus as to the contents of any contract or other document are not necessarily complete and, in each instance, we refer you to the copy of that contract or document filed as an exhibit to the registration statement. You may read and obtain a copy of the registration statement and its exhibits and schedules from the SEC.

SYSCAN IMAGING, INC. AND SUBSIDIARIES
CONDENSED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2005
(UNAUDITED)

1 - STATEMENT OF INFORMATION FURNISHED

The accompanying unaudited condensed consolidated financial statements of Syscan Imaging, Inc. ("Syscan", "the Company", "we" or "our") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-QSB and Article 10 of Regulation S-X. Accordingly, they do not include all information and disclosures necessary for a presentation of our financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States.

In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows for all periods presented have been made. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results may differ from these estimates. The results of operations for the period ended March 31, 2005 are not necessarily indicative of the operating results that may be expected for the entire year ending December 31, 2005. These financial statements should be read in conjunction with the

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Management's Discussion and Analysis included in the Company's financial statements and accompanying notes thereto as of and for the year ended December 31, 2004, filed with the Company's Annual Report on Form 10-KSB.

2 - BACKGROUND AND BASIS OF PRESENTATION

BACKGROUND

We develop, design and deliver imaging technology solutions offering businesses and consumers market-leading USB powered mobile imaging scanning solutions that facilitate the way information is stored, shared and managed in business and personal use. We market and distribute our products indirectly through a global network of resellers, system integrators, value-added resellers, and distributors; and directly to businesses and consumers through a dedicated direct sales force. Our products may be viewed on our website at www.syscaninc.com. We believe that the value of our mobile image scanning solutions is best realized in vertical markets that are information and process intensive, such as healthcare, security, financial services, legal and government.

We have developed our business model around intellectual property (IP) driven products sold primarily to Private Label brands, Value-Added-Reseller (VAR's) and Original Equipment Manufacturer's (OEM's). Our core experience, expertise, and resources lend themselves to developing new technology solutions and implementing them into useable finished products. Going forward we plan on leveraging our current IP and these core competencies in other areas of the imaging market. To that end we have allocated certain resources over the past year to exploiting various crossover technologies to the LCD display technology arena and have accordingly filed related patent applications.

Our corporate headquarters and executive offices are located at 1772 Technology Drive, San Jose, California 95110. Our telephone number is 408-436-6151. We have additional offices in Arnhem, Netherlands.

On April 2, 2004, we completed our acquisition of 100% of the issued and outstanding capital stock of Syscan, Inc., ("Syscan") pursuant to a Share Exchange Agreement ("Agreement") dated March 29, 2004. Pursuant to the Agreement, the sole shareholder of Syscan, Inc., Syscan Imaging Limited, received 18,773,514 post-reverse split shares of our common stock in exchange for all of the issued and outstanding capital stock of Syscan, Inc. In connection with the issuance of our common stock to Syscan Imaging Limited, Syscan Imaging Limited beneficially became the owner of 81.2% of our issued and outstanding voting securities. Upon completion of the reverse acquisition, we changed our name to Syscan Imaging, Inc. and effectuated a 1-for-10 reverse split of our common stock.

Our wholly-owned subsidiary, Syscan Inc., was founded in Silicon Valley in 1995 to develop and manufacture a new generation of CIS (CMOS-Complimentary Metal Oxide Silicon) imaging sensor devices. During the late 1990's, Syscan Inc. established many technical milestones and was granted numerous patents based on their linear imaging technology (Contact Image Sensors). Our patented CIS and mobile imaging scanner technology provides very high quality images but at extremely low power consumption, allowing us to deliver very compact scanners in a form ideally suited for the mobile computer user who needs to scan and/or fax documents while away from their office. Syscan's manufacturing is completed at an affiliated China-based facility, which provides a low-cost manufacturing base for these industrial and consumer products. Syscan's products are ideally suited for the mobile computer user who needs to scan and/or fax documents while away from their office.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

BASIS OF PRESENTATION

As a result of the reverse acquisition, the financial statements of the Company become those of Syscan and thus, the consolidated financial statements of the Company represent the activities of its 100% owned subsidiary, Syscan. Although the Company is the legal acquirer, Syscan will be treated as having acquired the Company for accounting purposes and all of the operations reported represent the historical financial statements of Syscan. All intercompany transactions are eliminated in consolidation.

The Company does not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, changes in financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources that is expected to be material.

3 - CONCENTRATION OF CREDIT RISK

Financial instruments that potentially expose the Company to a concentration of credit risk are as follows:

CASH HELD AT BANKS. We maintain cash balances at several banks. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000.

DUE TO GEOGRAPHIC SALES AND SIGNIFICANT CUSTOMERS. We operate in a single industry segment - scanner and fax modules. We market our products in the United States, Europe and the Asia Pacific region through our sales personnel and independent sales representatives.

Our geographic sales as a percent of total revenue were as follows for the quarters ended March 31:

	2005	2004
	-----	-----
United States	98%	97.6%
Asia Pacific	0.4%	0.1%
Europe and others	1.6%	2.3%

Sales to major customers as a percentage of total revenues were as follows for the quarters ended March 31:

	2005	2004
	-----	-----
Customer A	26%	20%
Customer B	26%	33%
Customer C	23%	16%
Customer D	14%	4%
Customer E	--	11%

DUE TO ACCOUNTS RECEIVABLE. Financial instruments that potentially subject the Company to a concentration of credit risk consist primarily of trade receivables. Our customers are concentrated in the industrial/consumer electronics channels and with major original equipment manufacturers. As of March 31, 2005, the concentration was approximately 87% (3 customers). The loss of any of these customers could have a material adverse effect on our results of operations, financial position and cash flows.

DUE TO SIGNIFICANT VENDORS. For each of the three months ended March 31, 2005 and 2004, our purchases have primarily been concentrated with the wholly-owned

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

subsidiary of our majority stockholder. If this vendor was unable to provide materials in a timely manner and we were unable to find alternative vendors, our business, operating results and financial condition would be materially adversely affected.

F-5

DUE TO PRODUCT SALES. We had 3 different product categories in the first quarter of 2005 and 3 different products during the same period in 2004 that each accounted for more than 10% of sales. If any of these products were to become obsolete or unmarketable and we were unable to successfully develop and market alternative products, our business, operating results and financial condition could be adversely affected.

4 - PREFERRED STOCK

The Company has authorized 2,000,000 shares of preferred stock, of which an aggregate of 60,000 have been designated Series A Preferred Stock and of which 18,650 shares are outstanding.

On March 15, 2005, the Company sold \$1,865,000 of its Series A Convertible Preferred Stock to institutional and accredited retail investors in a private offering pursuant to exemption from registration under Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"). Starboard Capital Markets, LLC, an NASD member firm, acted as placement agent in the sale of the Preferred Stock, for which it received \$186,500 in commissions and 186,500 warrants to purchase shares of the Company's common stock at an exercise price equal to \$1.00 per share. The net proceeds of this offering to the Company after the payment of commissions, legal fees and other expenses of the offering were approximately \$1,618,500.

In connection with the financing, the Company also issued to the purchasers common stock purchase warrants to purchase up to an aggregate of 932,500 shares of the Company's common stock at an exercise price of \$2.00 per share. The warrants are exercisable for a period of five years from the date of issuance. Pursuant to a registration rights agreement, the Company has registered the shares of common stock issuable upon conversion of the Preferred Stock and upon exercise of the warrants with the Securities and Exchange Commission on Form SB-2.

The warrants must be exercised by the payment of cash, except if there is no effective registration statement covering the resale of the shares of Common stock underlying the warrants, a holder may exercise their warrants on a cashless basis. Holders of the warrants are entitled to full ratchet anti-dilution protection for issuances of common stock or common stock equivalents, prior to the effective date of the registration statement covering the resale of the shares of common stock underlying the Preferred Stock, at less than the exercise price of such warrants. Holders of warrants also have standard anti-dilution protection for splits, dividends, subdivisions, distributions, reclassifications and combinations of our common stock. None of the individual holders of the Warrants are entitled to exercise any such Warrant held by them, if such exercise would cause such holder to be deemed to beneficially own in excess of 4.999% of the outstanding shares of our Common stock on the date of issuance of such shares.

PREFERRED STOCK CONVERSION RIGHTS. All or any portion of the stated value of Preferred Stock outstanding may be converted into common stock at anytime by the purchasers. The initial fixed conversion price of the preferred stock is \$1.00 per share ("Conversion Price"). The Conversion Price is subject to anti-dilution protection adjustments, on a full ratchet basis, at anytime that the preferred

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

stock is outstanding and prior to the effective date of the registration statement required to be filed pursuant to the Registration Rights Agreement, upon our issuance of additional shares of common stock, or securities convertible into common stock, at a price that is less than the then Conversion Price.

DIVIDENDS. The Preferred Stock accrues dividends at a rate of 5% per annum, payable semiannually on July 1 and January 1 in cash, by accretion of the stated value or in shares of common stock. Subject to certain terms and conditions, the decision whether to accrete dividends to the stated value of the Preferred Stock or to pay for dividends in cash or in shares of common stock, shall be at our discretion.

REDEMPTION. On March 15, 2008 (the "Redemption Date"), all of the outstanding Preferred Stock shall be redeemed for a per share redemption price equal to the stated value on the Redemption Date (the "Redemption Price"). The Redemption Price is payable by us in cash or in shares of common stock at our discretion and shall be paid within five trading days after the Redemption Date. In the event we elect to pay all or some of the Redemption Price in shares of common stock, the shares of common stock to be delivered to the purchasers shall be valued at 85% of the fifteen-day volume weighted average price of the common stock on the Redemption Date.

F-6

RIGHT TO COMPEL CONVERSION. If, on any date after March 15, 2006, (A) the closing market price per share of our common stock for ten (10) consecutive trading days equals at least \$4.00 (subject to adjustment for certain events), and (B) the average reported daily trading volume during such ten-day period equals or exceeds 100,000 shares, then we shall have the right, at our option, to convert, all, but not less than all, of the outstanding shares of Preferred Stock at the Conversion Price; provided that there shall be an effective registration statement covering the resale of the shares of common stock underlying the preferred stock at all times during such 10-day period and during the 30-day notice period to the holders thereof.

RESTRICTIONS ON CONVERSION OF PREFERRED STOCK. No holder of our Preferred Stock is entitled to receive shares upon payment of dividends on the Preferred Stock, or upon conversion of the Preferred Stock held by such holder if such receipt would cause such holder to be deemed to beneficially own in excess of 4.999% of the outstanding shares of our common stock on the date of issuance of such shares (such provision may be waived by such holder upon 61 days prior written notice to us). In addition, no individual holder is entitled to receive shares upon payment of dividends on the Preferred Stock, or upon conversion of the Preferred Stock held by such holder if such receipt would cause such holder to be deemed to beneficially own in excess of 9.999% of the outstanding shares of our common stock on the date of issuance of such shares (such provision may be waived by such holder upon 61 days prior written notice to us).

REGISTRATION RIGHTS. Pursuant to the terms of a Registration Rights Agreement between us and the holders of the preferred stock, we are obligated to file a registration statement on Form SB-2 registering the resale of shares of our common stock issuable upon conversion of the preferred stock and exercise of the warrants. We are required to file the registration statement on or before April 24, 2005 and have the registration statement declared effective on or before July 13, 2005. If the registration statement is not declared effective within the timeframe described, or if the registration is suspended other than as permitted in the Registration Rights Agreement, we will be obligated to pay each holder a fee equal to 1.0% of such holders purchase price of the Preferred Stock during the first 90 days, and 2.0% for each 30 day period thereafter (pro rated

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

for partial periods), that such registration conditions are not satisfied.

RIGHT OF FIRST REFUSAL. Subject to certain conditions, we have granted the holders a right of first refusal, for a period until one (1) year from the effective date of the registration statement required to be filed in connection with the purchase of the Preferred Stock, to participate in any subsequent financing that we conduct.

VOTING RIGHTS. Holders of the Preferred Stock shall have no voting rights. However, so long as any shares of Preferred Stock are outstanding, we shall not, without the affirmative vote of the holders of a majority of the shares of the Preferred Stock then outstanding, (a) alter or change adversely the powers, preferences or rights given to the Preferred Stock or alter or amend the Series A Certificate of Designation, (b) authorize or create any class of stock ranking as to dividends or distribution of assets upon a liquidation senior to or otherwise pari passu with the Preferred Stock, (c) amend our certificate or articles of incorporation or other charter documents so as to affect adversely any rights of the holders of the Preferred Stock, (d) increase the authorized number of shares of Preferred Stock, or (e) enter into any agreement with respect to the foregoing.

LIQUIDATION PREFERENCE. Upon our liquidation, dissolution or winding up, whether voluntary or involuntary (a "Liquidation"), the holders of the Preferred Stock shall be entitled to receive out of our assets, whether such assets are capital or surplus, for each share of Preferred Stock an amount equal to the stated value per share before any distribution or payment shall be made to the holders of any of our securities with rights junior to the Preferred Stock, and if our assets shall be insufficient to pay in full such amounts, then the entire assets to be distributed to the holders of the Preferred Stock shall be distributed among such holders ratably in accordance with the respective amounts that would be payable on such shares if all amounts payable thereon were paid in full.

ANTI-DILUTION. Holders of the Preferred Stock are entitled to full ratchet anti-dilution protection for issuances of common stock or common stock equivalents, prior to the effective date of the registration statement covering the resale of the shares of common stock underlying the Preferred Stock, at less than the Conversion Price. Holders of Preferred Stock also have standard anti-dilution protection for splits, dividends, subdivisions, distributions, reclassifications and combinations of our common stock.

F-7

5 - RELATED PARTY TRANSACTIONS

The Company purchases significantly all of its finished scanner imaging products from the parent company of its majority stockholder, Syscan Technology Holdings Limited ("STH"). Our Chairman and CEO, Darwin Hu, was formerly the CEO of STH, and beneficially owns approximately 5.33% of the issued and outstanding capital stock of STH.

The following is a summary of significant related party purchases from entities that are wholly-owned subsidiaries of STH. The transactions were carried out in the normal course of our business.

6 - COMMITMENTS AND CONTINGENCIES

OPERATING LEASES - The Company is committed under various non-cancelable operating leases which expire through November 2006. Future minimum rental commitments are as follows: 2005-\$106,000 and 2006-\$101,000. Rent expense charged to operations was approximately \$28,000 for the quarter ended March 31, 2005 (2004: \$25,000).

LINE OF CREDIT - The Company has a line of credit to borrow up to \$1,000,000, bearing interest at the rate of prime plus 1% and secured by all of the assets of the Company. Interest payments are due monthly and all unpaid interest and principal is due in full on August 24, 2005. Upon certain events of defaults as more fully described in the agreement, the default variable interest rate increases to prime plus 3%. The Company had \$300,000 available for use at March 31, 2005.

LETTERS OF CREDIT - The Company issues letters of credit in the normal course of business. The amount outstanding as of March 31, 2005, represents one letter of credit for goods shipped to a related entity.

EMPLOYMENT AGREEMENTS - The Company maintains employment agreements with its executive officers which extend through 2008. The agreements provide for a base salary, annual bonus to be determined by the Board of Directors, termination payments, stock options, non-competition provisions, and other terms and conditions of employment. In addition, the Company maintains employment agreements with other key employees with similar terms and conditions.

LITIGATION, CLAIMS AND ASSESSMENTS - On May 20, 2003, Syscan, Inc., the Company's wholly-owned subsidiary, filed a lawsuit named SYSCAN, INC. V. PORTABLE PERIPHERAL CO., LTD. ("PPL"), IMAGING RECOGNITION INTEGRATED SYSTEMS, INC., CARDREADER INC. AND TARGUS INC. (Case No. C03-02367 VRW) in United States District Court, Northern District of California. Syscan alleges claims against the above-mentioned parties for patent infringement of patent nos. 6,054,707, 6,275,309 and 6,459,506, and unfair competition. Syscan expects to continue the case unless a reasonable settlement amount from the defendants or a licensing agreement to the satisfaction of Syscan is entered.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

Syscan is seeking: (1) a temporary restraining order, preliminary injunction and permanent injunction against defendants, restraining defendants from patent infringement and unfair competition; (2) treble damages due to defendants' willful infringement; (3) punitive damages; (4) accounting of unjust enrichment by defendants, resulting from defendants' unfair competition; and (5) attorney's fees and costs.

The defendants are jointly represented by PPL's counsel. PPL has initiated counterclaims against Syscan for patent invalidity. Syscan has not yet been able to quantify its damage claim against PPL. Syscan intends to vigorously pursue this claim and denies PPL's counterclaim of patent invalidity.

The Company experiences routine litigation in the normal course of its business and does not believe that any pending litigation will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

7 - EARNINGS PER SHARE

Earnings (loss) per share ("EPS") is computed in accordance with SFAS No. 128 "Earnings Per Share." Basic EPS is computed using weighted average shares outstanding. Diluted EPS is computed using weighted average shares outstanding plus additional shares issued as if in-the-money options were exercised (utilizing the treasury stock method). All shares for both periods presented are basic eps.

The following table represents the computation of weighted average diluted shares outstanding:

	THREE MONTHS ENDED 3/31/05	THREE MONTHS ENDED 3/31/04
	-----	-----
Numerator-net earnings (loss)	\$ (23,165)	\$ 14,841
	=====	=====
Denominator:		
Weighted average shares used in computing basic EPS	23,110,515	21,082,935
Net effect of dilutive common shares	--	34,034
	-----	-----
Weighted average shares used in computed diluted EPS	23,110,515	21,116,969
	=====	=====
Basic Earnings Per Share	--	--
Diluted Earnings Per Share	--	--

8 - STOCK OPTIONS

STOCK OPTIONS OUTSTANDING

The Company has a stock option plan, the objectives of which include attracting and retaining the best personnel, providing for additional performance incentives, and promoting the success of the Company by providing directors, consultants, and key employees the opportunity to acquire common stock. The plan is administered by the Board of Directors, which determine among other things, those individuals who shall receive options, the time period during which the options may be partially or fully exercised, the number of common stock to be issued upon the exercise of the options and the option exercise price.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

The maximum term of the plan is ten years and options may be granted to officers, directors, consultants, employees, and similar parties who provide their skills and expertise to the Company.

Options granted under the plans have a maximum term of ten years and shall be at an exercise price that may not be less than 85% of the fair market value of the common stock on the date of the grant. Options are non-transferable and if a participant ceases affiliation with the company for a reason other than death or permanent and total disability, the participant will have 90 days to exercise the option subject to certain extensions. In the event of death or permanent and total disability, the option holder or their representative may exercise the option within one (1) year. Any unexercised options that expire or that terminate upon an employee's ceasing to be employed by the Company become available again for issuance under the plan, subject to applicable securities regulation. The plan may be terminated or amended at any time by the Board of Directors.

F-9

No options were granted, forfeited, canceled or exercised during the three months ended March 31, 2005. (See Note 9)

Information about options outstanding and exercisable at March 31, 2005 is summarized below:

Range of exercise prices	Weighted-Average Remaining Contractual Number outstanding	Life (Years)	Weighted-Average Exercise Price
\$0.90-\$2.50	60,000	1.75	\$1.17

BOARD OF DIRECTOR APPROVED STOCK OPTIONS SUBJECT TO SHAREHOLDER APPROVAL

On April 2, 2004, the Company's Board of Directors authorized the increase in the number of stock options available under the 2002 Stock Option Plan (the "Plan") from 200,000 to 2,200,000. On July 21, 2004, the Company's Board of Directors further authorized the increase in the number of stock options available under the 2002 Stock Option Plan from 2,200,000 to 3,200,000. The subject increases are subject to stockholder ratification at the next annual or special meeting of stockholders, which has not been obtained as of the date of issuance of these financial statements.

On April 13, 2004, the Company's Board of Directors authorized an aggregate of 1,700,000 options under the Plan to certain individuals at \$1.50 per share, and expiring through April 2014. These options were canceled by the Board of Directors on May 7, 2004. On July 21, 2004, the Company's Board of Directors further authorized an aggregate of 2,200,000 options under the 2002 Stock Option Plan to be issued to certain individuals at \$2.00 per share and expiring through July 2014, of which 165,000 have been canceled as a result of an employment termination subsequent to year end and 55,000 options exercisable through May 4, 2005. The grant of the above options are subject to stockholder ratification of the Company's increase in the number of stock options available for grant under the Plan. The Company plans to obtain stockholder approval at its annual or special meeting of stockholders, which has not yet been scheduled as of the date of issuance of these financial statements.

9 - SUBSEQUENT EVENTS

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

On April 26, 2005, the Company entered into employment agreements with its executive officers, the terms of which were previously approved by the independent members of the Company's board of directors. The employment agreements extend through 2008 and provide for a base salary, annual bonus to be determined by the Board of Directors, termination payments, stock options, non-competition provisions, and other terms and conditions of employment. In addition, the Company maintains employment agreements with other key employees with similar terms and conditions.

Total options granted under the agreements with the Company's executive officers were 3,300,000, exercisable at \$0.01 per share. One-third of the options vest on the date of execution of the employment agreement, one-third vest on April 3, 2006 and one-third vest on April 2, 2007.

Additionally, the Company issued an aggregate of 400,000 options exercisable at \$0.01 per share to two of its key employees in connection with the execution of employment agreements with such individuals. One-third of such options vest on April 26, 2005, one-third vest on April 3, 2006 and one-third vest on April 2, 2007.

F-10

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Syscan Imaging, Inc.

We have audited the accompanying consolidated balance sheet of Syscan Imaging, Inc. (a Delaware Corporation) and Subsidiaries (the "Company") as of December 31, 2004, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for the years ended December 31, 2004 and 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2004, and the consolidated results of its operations and its cash flows for the periods indicated, in conformity with generally accepted accounting principles in the United States of America.

Clancy and Co., P.L.L.C.

F-15

SYSCAN IMAGING, INC. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2004

NOTE 1 - BACKGROUND, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BACKGROUND

On April 2, 2004, Syscan Imaging, Inc. (formerly known as "BankEngine Technologies, Inc." and referred to herein as the "Company") completed its acquisition of 100% of the issued and outstanding capital stock of Syscan, Inc. ("Syscan"), pursuant to a Share Exchange Agreement ("Agreement") dated March 29, 2004, in exchange for 20,859,459 shares of the Company's common stock. Pursuant to the Agreement, the sole stockholder of Syscan, Syscan Imaging Limited, received 18,773,514 post-reverse split shares of the Company's common stock in exchange for all of the issued and outstanding capital stock of Syscan. In connection with the issuance of the Company's common stock to Syscan Imaging Limited, Syscan Imaging Limited beneficially became the owner of 81.2% of the issued and outstanding securities of the Company. Its ultimate holding company is Syscan Technology Holdings Limited, a company which is incorporated in Bermuda and its shares are listed on The Growth Enterprise Market of The Stock Exchange of Hong Kong Limited. (See Note 6)

Syscan, Inc. ("Syscan") was incorporated on May 1, 1995, under the laws of the State of California. Syscan is headquartered in San Jose, California, and is principally engaged in the design, development and marketing of Contact Image Sensor ("CIS") modules for use in scanners and fax machines. Syscan's manufacturing is completed at an affiliated China-based facility, which provides a low-cost manufacturing base for these industrial and consumer products. Syscan's products are ideally suited for the mobile computer user who needs to scan and/or fax documents while away from their office.

BASIS OF PRESENTATION

As a result of the reverse acquisition, the financial statements of the Company become those of Syscan and thus, the consolidated financial statements of the Company represent the activities of its 100% owned subsidiary, Syscan. Although the Company is the legal acquirer, Syscan will be treated as having acquired the Company for accounting purposes (recapitalization) and all of the operations reported represent the historical financial statements of Syscan. (See Note 6)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION - The consolidated financial statements include the

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

accounts of the Company and its subsidiaries. The results of subsidiaries acquired or disposed of during the periods presented are consolidated from or to their effective dates of acquisition or disposal. All significant inter-company balances and transactions have been eliminated in consolidation.

USE OF ESTIMATES - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management makes its best estimate of the ultimate outcome for these items based on historical trends and other information available when the financial statements are prepared. Changes in estimates are recognized in accordance with the accounting rules for the estimate, which is typically in the period when new information becomes available to management. Actual results could differ from those estimates.

F-16

FAIR VALUE OF FINANCIAL INSTRUMENTS - For certain of the Company's financial instruments, including cash and cash equivalents, trade receivables and payables, prepaid expenses and other current assets, amounts due to / from related parties, and other payables and accruals, the carrying amounts approximate fair values due to their short maturities.

RELATED PARTY TRANSACTIONS - A related party is generally defined as (i) any person that holds 10% or more of the Company's securities and their immediate families, (ii) the Company's management, (iii) someone that directly or indirectly controls, is controlled by or is under common control with the Company, or (iv) anyone who can significantly influence the financial and operating decisions of the Company. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

CASH AND CASH EQUIVALENTS - The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

CONCENTRATION OF CREDIT RISK - Financial instruments that potentially expose the Company to a concentration of credit risk are as follows:

CASH HELD AT BANKS - The Company maintains cash balances at several banks. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000.

GEOGRAPHIC SALES AND SIGNIFICANT CUSTOMERS - The Company operates in a single industry segment that being scanner and fax modules. The Company markets its products in the United States, Europe and the Asia Pacific region through its sales personnel and independent sales representatives.

The Company's geographic sales as a percent of total revenue are as follows:

	2004	2003
	-----	-----
United States	93%	80%
Asia Pacific	2%	13%
Europe and others	5%	7%

Sales to major customers, as a percentage of total revenues, are as follows:

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

	2004 -----	2003 -----
A	38%	41%
B	16%	9%
C	15%	9%

TRADE RECEIVABLES - The Company's customers are concentrated in the personal computer industry, motherboard manufacturers and original equipment manufacturers. As of December 31, 2004 and 2003, the concentration was approximately 89% (2 customers) and 82% (5 customers), respectively. The loss of any of these customers could have a material adverse effect on the Company's results of operations, financial position and cash flows.

SIGNIFICANT VENDORS - For the years ended December 31, 2004 and 2003, the Company's purchases of finished scanner imaging products have primarily been concentrated with one vendor that is a subsidiary of the Company's majority stockholder. If this vendor was unable to provide materials in a timely manner and the Company was unable to find alternative vendors, the Company's business, operating results and financial condition would be materially adversely affected.

F-17

PRODUCT SALES - The Company had 4 (2003: 2) different products, respectively, that each accounted for more than 10% of sales. If any of these products were to become obsolete or unmarketable and the Company was unable to successfully develop and market alternative products, the Company's business, operating results and financial condition could be adversely affected.

INVENTORIES - Inventories consist of finished goods, which are stated at the lower of cost or net realizable value, with cost computed on a first-in, first-out basis. Provision is made for obsolete, slow-moving or defective items where appropriate. The amount of any provision of inventories is recognized as an expense in the period the provision occurs. The amount of any reversal of any provision is recognized as other income in the period the reversal occurs. There was no provision recorded at December 31, 2004.

FIXED ASSETS - Fixed assets, stated at cost, are depreciated over the estimated useful lives of the assets using the straight-line method over periods ranging from three to ten years. Significant improvements and betterments are capitalized. Routine repairs and maintenance are expensed when incurred. Gains and losses on disposal of fixed assets are recognized in the statement of operations based on the net disposal proceeds less the carrying amount of the assets.

LONG-LIVED ASSETS - Long-lived assets, such as fixed assets, are reviewed for impairment when circumstances indicate the carrying value of an asset may not be recoverable. For assets that are to be held and used, an impairment loss is recognized when the estimated undiscounted cash flows associated with the asset or group of assets is less than their carrying value. If impairment exists, an adjustment is made to write the asset down to its fair value, and a loss is recorded as the difference between the carrying value and fair value. Fair values are determined based on quoted market values, discounted cash flows or internal and external appraisals, as applicable. Assets to be disposed of are carried at the lower of carrying value or estimated net realizable value.

LONG-TERM INVESTMENTS - Long-term investments are carried at cost less provision for any impairment in value. Income from long-term investments is accounted for to the extent of dividends received or receivable. Upon disposal of investments, any profit and loss thereon is accounted for in the statement of operations.

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

REVENUE RECOGNITION - Revenues consist of product sales including optical image capturing devices, modules of optical image capturing devices, and chips and other optoelectronic products. Revenue is recognized when the product is shipped and the risks and rewards of ownership have transferred to the customer. The Company recognizes shipping and handling fees as revenue, and the related expenses as a component of cost of sales. All internal handling charges are charged to selling, general and administrative expenses.

ALLOWANCE FOR DOUBTFUL ACCOUNTS AND RETURN ALLOWANCES - The Company presents accounts receivable, net of allowances for doubtful accounts and returns, to ensure accounts receivable are not overstated due to uncollectibility. The allowances are calculated based on detailed review of certain individual customer accounts and an estimation of the overall economic conditions affecting the Company's customer base. The Company reviews a customer's credit history before extending credit. If the financial condition of its customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. There was no allowance for doubtful accounts at December 31, 2004, as management believes all of its accounts receivable are collectible.

RESEARCH AND DEVELOPMENT EXPENSES - Research and development costs are expensed as incurred and amounted to \$528,417 in 2004 (2003: \$799,825).

ADVERTISING COSTS - Advertising costs are expensed as incurred and amounted to approximately \$31,000 in 2004 (2003: \$89,000).

INCOME TAXES - The Company accounts for income taxes under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes," whereby deferred income tax assets and liabilities are computed for differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary, to reduce deferred income tax assets to the amount expected to be realized.

F-18

INTANGIBLE ASSETS - Intangible assets represents goodwill arising from the excess of the purchase consideration over the fair value of the net assets at the date of acquisition of subsidiaries. Goodwill arising in a business combination initiated after June 30, 2001 is not amortized. Negative goodwill is charged to the statement of operations as the carrying amount of the asset cannot be reduced to below zero. The amount was immaterial to the financial statements as a whole.

COMPREHENSIVE INCOME - The Company includes items of other comprehensive income by their nature in a financial statement and displays the accumulated balance of other comprehensive income separately in the equity section of the balance sheet.

FOREIGN CURRENCY TRANSLATION - The reporting currency used in the preparation of these consolidated financial statements is U.S. dollars. Local currencies are the functional currencies for the Companies subsidiaries. For the purpose of consolidation, assets and liabilities of subsidiaries with functional currencies other than U.S. dollars are translated into U.S. dollars at the applicable rates of exchange in effect at the balance sheet date and income and expense items are translated into U.S. dollars at the average applicable rates during the year. Translation gains and losses resulting from fluctuations in exchange rates are

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

recorded as a separate component of other comprehensive income within stockholders' equity as cumulative translation adjustments. Gains and losses resulting from foreign currency transactions are included in results of operations.

EARNINGS PER SHARE - Basic earnings per share ("EPS") are calculated using net earnings (numerator) divided by the weighted-average number of shares outstanding (denominator) during the reporting period. Diluted earnings or loss per share is based on the weighted average number of common shares outstanding and dilutive common stock equivalents. All earnings or loss per share amounts in the financial statements are basic earnings or loss per share, as defined by SFAS No. 128, "Earnings Per Share." Diluted earnings or loss per share does not differ materially from basic earnings or loss per share for all periods presented. Convertible securities that could potentially dilute basic earnings per share in the future such as options are not included in the computation of diluted earnings per share because to do so would be antidilutive. All per share and per share information are adjusted retroactively to reflect stock splits and changes in par value.

STOCK-BASED COMPENSATION - The Company accounts for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees." Compensation cost for stock options, if any, is measured as the excess of the quoted market price of the Company's stock at the date of grant over the amount an employee must pay to acquire the stock. SFAS No.123, "Accounting for Stock-Based Compensation," established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans. The Company has elected to remain on its current method of accounting as described above, and has adopted the disclosure requirements of SFAS No. 123. In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure, amending FASB No. 123, and "Accounting for Stock-Based Compensation". This statement amends Statement No. 123 to provide alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation. See Note 10 for a description of the stock-based compensation plan.

Had compensation expense for the Company's stock-based compensation plans been determined under SFAS No. 123, based on the fair market value at the grant dates, the Company's pro forma net earnings and pro forma net earnings per share would have been reflected as follows at December 31:

F-19

	2004	2003
	-----	-----
Net earnings (loss), as reported	\$ (179,866)	\$ 835,232

	=====	=====

RECENT ACCOUNTING PRONOUNCEMENTS - The Financial Accounting Standards Board

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

issued the following new accounting pronouncements during 2004:

In March 2004, the EITF reached consensus on EITF Issue No. 03-6, "Participating Securities and the Two Class Method under FASB Statement No. 128" ("EITF 03-6"). EITF 03-6 addresses a number of questions regarding the computation of earnings per share by companies that have issued securities other than common stock that contractually entitle the holder to participate in the dividends and earnings of the company when, and if, it declares dividends on its common stock. EITF 03-6 also provides further guidance in applying the two-class method of calculating earnings per share, clarifying what constitutes a participating security and how to apply the two-class method of computing earnings per share once it is determined that a security is participating, including how to allocate undistributed earnings to such a security. EITF 03-6 is effective for fiscal periods beginning after March 31, 2004 and requires retroactive restatement of prior earning per share amounts. This statement does not affect the Company.

In June 2004, the FASB issued EITF Issue No. 02-14, "Whether an Investor Should Apply the Equity Method of Accounting to Investments Other Than Common Stock." EITF Issue No. 02-14 addresses whether the equity method of accounting applies when an investor does not have an investment in voting common stock of an investee but exercises significant influence through other means. EITF Issue No. 02-14 states that an investor should only apply the equity method of accounting when it has investments in either common stock or in-substance common stock of a corporation, provided that the investor has the ability to exercise significant influence over the operating and financial policies of the investee. The accounting provisions of EITF Issue No. 02-14 are effective for the reporting period beginning after September 15, 2004. This statement does not affect the Company.

In November 2004, the FASB issued SFAS No. 151, "Inventory Costs, an amendment of ARB No. 43, Chapter 4." The amendments made by SFAS No. 151 clarify that abnormal amounts of idle facility expense, freight, handling costs, and wasted materials (spoilage) should be recognized as current-period charges and require the allocation of fixed production overheads to inventory based on the normal capacity of the production facilities. The guidance is effective for inventory costs incurred during fiscal years beginning after November 23, 2004. The Company does not believe the adoption of SFAS No. 151 will have a material impact on our financial position, results of operations or cash flows.

In December 2004, the FASB issued a revision of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" (SFAS 123R). SFAS 123R supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. SFAS 123R establishes standards for the accounting for transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. SFAS 123R does not change the accounting guidance for share-based payment transactions with parties other than employees provided in SFAS 123 as originally issued and EITF Issue No. 96-18, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services." SFAS 123R is effective for interim reporting period that begins after June 15, 2005. The Company is evaluating the requirements of SFAS 123R and expects that the adoption of SFAS 123R will have a material impact on the Company's consolidated results of operations and earnings per share. The Company has not yet determined the method of adoption or the effect of adopting SFAS 123R, and it has not determined whether the adoption will result in amounts that are similar to the current pro forma disclosures under SFAS 123

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

In December 2004, the FASB issued SFAS No. 152, "Accounting for Real Estate Time-Sharing Transactions - an amendment of FASB Statements No. 66 and 67," which discusses the accounting and reporting of real estate time-sharing transactions. This Statement is effective for financial statements for fiscal years beginning after June 15, 2005, and restatement of previously issued financial statements is not permitted. This statement does not affect the Company.

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets - an amendment of APB Opinion No. 29." The guidance in APB Opinion No. 29, "Accounting for Nonmonetary Transactions," is based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged and provided an exception to the basic measurement principle (fair value) for exchanges of similar productive assets. That exception required that some nonmonetary exchanges, although commercially substantive, be recorded on a carryover basis. This Statement eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance--that is, transactions that are not expected to result in significant changes in the cash flows of the reporting entity. The provisions of this Statement are effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005, applied prospectively. This statement does not affect the Company.

NOTE 2 - RELATED PARTY TRANSACTIONS

The Company purchases significantly all of its finished scanner imaging products from the parent company of its majority stockholder, Syscan Technology Holdings Limited ("STH"). The Company's Chairman and CEO, Darwin Hu, was formerly the CEO of STH, and beneficially owns approximately 5.33% of the issued and outstanding capital stock of STH.

THE FOLLOWING IS A SUMMARY OF SIGNIFICANT RELATED PARTY PURCHASES FROM ENTITIES THAT ARE WHOLLY-OWNED SUBSIDIARIES OF STH. THE TRANSACTIONS WERE CARRIED OUT IN THE NORMAL COURSE OF THE COMPANY'S BUSINESS.

	2004 -----	2003 -----
SYSCAN Intervision Limited	\$3,825,482 =====	\$4,418,415 =====
SYSCAN Optoelectronics Technology (Shenzhen) Company Limited	\$ 520,200 =====	\$ -- =====

AMOUNTS DUE TO / FROM RELATED PARTIES ARE UNSECURED, INTEREST-FREE AND REPAYABLE ON DEMAND AND CONSISTED OF THE FOLLOWING:

AMOUNTS DUE FROM RELATED PARTIES:

Due from STH	\$ 345,998
Due from majority stockholder	100,000
Due from various subsidiaries wholly-owned by STH	1,818,989 -----
	\$2,264,987 =====

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

F-21

NOTE 3 - FIXED ASSETS

Fixed assets consist of the following:

Computer and office equipment	\$ 24,767
Furniture	2,565

Total	27,332
Less accumulated depreciation	3,347

Net book value	\$ 23,985
	=====

Depreciation expense charged to operations in 2004 was \$3,279 (2003: \$7,938).

NOTE 4 - LONG-TERM INVESTMENT

Long-term investment consists of an equity interest in CMOS Sensor, Inc. ("CMOS"), a California corporation, which is principally engaged in the research and development of infra-red sensors and CMOS sensors. On June 26, 2002, the Company acquired 100% equity interest of Syscan Laser Technology Ltd. ("Syscan Laser") from Syscan Holdings Limited, a fellow subsidiary of the Company, for total consideration of \$1. At the date of acquisition, Syscan Laser held 9.7% equity interest (representing 750,000 shares purchased at \$0.80 per share) in CMOS. On October 29, 2003, the Company acquired 100% equity interest of Leadbuilt Technology Limited ("Leadbuilt") from Syscan InterVision Limited, a fellow subsidiary of the Company, for total consideration of \$1. At the date of acquisition, Leadbuilt held 6.4% (representing 500,000 shares purchased at \$0.80 per share) equity interest in CMOS. As a result of both transactions, the Company increased its equity interest in CMOS from 9.7% to 16.1%. The Company's directors are of the opinion that the underlying value of the long-term investment is not less than the carrying value at December 31, 2004.

NOTE 5 - OTHER INCOME (EXPENSE), NET

Other income (expense), net consists of the following:

	2004	2003
	-----	-----
Interest income	\$ 5,966	\$ 12,266
Write back of provision of inventories	--	408,034
Write back of provision for bad debts	41,178	
Loss on disposal of fixed assets	(15,623)	
Recovery of trade receivables written off	--	109,350
	-----	-----
	\$ 31,521	\$ 529,650
	=====	=====

NOTE 6 - STOCKHOLDERS' EQUITY

On April 2, 2004, the Company completed its acquisition of 100% of the issued and outstanding capital stock of Syscan pursuant to an Agreement dated March 29, 2004, in exchange for 20,859,459 shares of the Company's common stock. As part of the reorganization of the Company on April 2, 2004, the common shares of the Company were subject to a reverse split of 1 share for each 10 shares outstanding. The predecessor entity, Syscan Imaging, Inc., signed an employment agreement in December 2003, for a term of 2 years for a total amount of \$200,000 and 500,000 options as detailed in Note 10. Upon the reorganization on April 2, 2004, the employment agreement was settled in full for 200,000 post reverse

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

split common shares. Additionally, advances from a shareholder on behalf of the predecessor entity in the amount of \$11,500 to pay liabilities and \$11,976 to acquire equipment were converted to 23,476 common shares.

Immediately prior to the Agreement, the Company had 2,027,580 shares of common stock issued and outstanding. The acquisition was accounted for as recapitalization of Syscan because the shareholders of Syscan controlled the Company after the acquisition. Syscan was treated as the acquiring entity for accounting purposes and the Company was the surviving entity for legal purposes. The combined company is considered to be a continuation of the operations of Syscan. The issued and outstanding common stock of Syscan prior to the completion of the acquisition was restated to reflect the 21,082,935 common stock issued by the Company.

F-22

NOTE 7 - INCOME TAXES

Provision for income taxes for all periods presented represents the minimum franchise tax due (\$800) in the State of California. No provision for Hong Kong Profits Tax has been made for the periods presented as the Company and its subsidiaries operating in Hong Kong have no assessable profits during the years being reported.

The Company believes sufficient uncertainty exists regarding the realizability of the net operating loss carryforwards and other timing differences for the periods presented. Accordingly, a valuation allowance has been provided for the entire amount related thereto. The valuation allowance increased (decreased) by approximately \$142,000 (2003: (\$223,000)).

As of December 31, 2004, the Company has available net operating loss carryforwards for federal and state income tax purposes of approximately \$16,000,000 and \$12,000,000, which expire through 2024 and 2014, respectively. State net operating loss carryforwards are based on federal net operating losses, which are limited to certain percentages and carryover periods based on the year incurred. For taxable years beginning in 2002 and 2003, the State of California suspended the net operating loss carryover deduction for two years for losses incurred before January 1, 2002, and for one year for losses incurred after January 1, 2002. Pursuant to the Tax Reform Act of 1986, annual utilization of the Company's net operating loss carryforwards may be limited if a cumulative change in ownership of more than 50% is deemed to occur within any three-year period.

THE NET DEFERRED INCOME TAX ASSET CONSISTED OF THE FOLLOWING:

	2004	2003
	-----	-----
Deferred tax assets		
Federal net operating loss carryforwards	\$5,633,000	\$5,423,000
State net operating loss carryforwards	1,080,000	1,025,000
Capitalized R&D Expenses	932,000	1,122,000
Tax credit carryforwards	708,000	643,000
	-----	-----
	8,353,000	8,213,000
Less valuation allowance	8,353,000	8,211,000
	-----	-----
	--	2,000
Deferred tax liability		
Excess tax over book depreciation	--	(2,000)
	-----	-----

NOTE 10 - STOCK OPTION AWARDS

STOCK OPTIONS OUTSTANDING

The Company has a stock option plan, the objectives of which include attracting and retaining the best personnel, providing for additional performance incentives, and promoting the success of the Company by providing directors, consultants, and key employees the opportunity to acquire common stock. The plan is administered by the Board of Directors, which determine among other things, those individuals who shall receive options, the time period during which the options may be partially or fully exercised, the number of common stock to be issued upon the exercise of the options and the option exercise price.

The maximum term of the plan is ten years and options may be granted to officers, directors, consultants, employees, and

Options granted under the plans have a maximum term of ten years and shall be at an exercise price that may not be less than 85% of the fair market value of the common stock on the date of the grant. Options are non-transferable and if a participant ceases affiliation with the company for a reason other than death or permanent and total disability, the participant will have 90 days to exercise the option subject to certain extensions. In the event of death or permanent and total disability, the option holder or their representative may exercise the option within one (1) year. Any unexercised options that expire or that terminate upon an employee's ceasing to be employed by the Company become available again for issuance under the plan, subject to applicable securities

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

regulation. The plan may be terminated or amended at any time by the Board of Directors.

The Company has the following options outstanding as of December 31, 2004:

As part of an employment agreement signed in December 2003, the employee received 500,000 options to acquire shares of the company at \$0.09 per share for a term of 2 years. Following the restructuring of the Company on April 2, 2004, and in connection with the 1-for-10 reverse split, the options were re-issued as 50,000 options to acquire shares at \$0.90 per share. The estimated fair value of the options on the date of grant using the Black-Scholes option pricing model is \$29,526, based on a risk free interest rate of 1.91%, an expected volatility of 100%, an expected life of 2 years and no dividend yield.

The Company issued 100,000 options to its former legal counsel in consideration of services rendered. The options are exercisable at \$0.25 per share for a term expiring December 2006. These options have been re-issued as 10,000 options to acquire shares at \$2.50 per share following the reverse split in April 2004. The estimated fair value of the options on the date of grant using the Black-Scholes option pricing model is \$3,824, based on a risk free interest rate of 3%, an expected volatility of 100%, an expected life of 2 years and no dividend yield.

F-25

Information about options outstanding and exercisable at December 31, 2004, is summarized below:

Range of exercise prices	Number outstanding	Weighted-Average Remaining Contractual Life (Years)	Weighted-Average Exercise Price
\$0.90-\$2.50	60,000	2	\$1.17

BOARD OF DIRECTOR APPROVED STOCK OPTIONS SUBJECT TO SHAREHOLDER APPROVAL

On April 2, 2004, the Company's Board of Directors authorized the increase in the number of stock options available under the 2002 Stock Option Plan (the "Plan") from 200,000 to 2,200,000. On July 21, 2004, the Company's Board of Directors further authorized the increase in the number of stock options available under the 2002 Stock Option Plan from 2,200,000 to 3,200,000. The subject increases are subject to stockholder ratification at the next annual or special meeting of stockholders, which has not been obtained as of the date of issuance of these financial statements.

On April 13, 2004, the Company's Board of Directors authorized an aggregate of 1,700,000 options under the Plan to certain individuals at \$1.50 per share, and expiring through April 2014. These options were canceled by the Board of Directors on May 7, 2004. On July 21, 2004, the Company's Board of Directors further authorized an aggregate of 2,200,000 options under the 2002 Stock Option Plan to be issued to certain individuals at \$2.00 per share and expiring through July 2014, of which 165,000 have been canceled as a result of an employment termination subsequent to year end and 55,000 options exercisable through May 4, 2005. The grant of the above options are subject to stockholder ratification of the Company's increase in the number of stock options available for grant under the Plan. The Company plans to obtain stockholder approval at its annual or special meeting of stockholders, which has not yet been scheduled as of the date of issuance of these financial statements.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Our certificate of incorporation provides that all our directors, officers, employees and agents shall be entitled to be indemnified by us to the fullest extent permitted under the Delaware General Corporation Law, provided that they acted in good faith and that they reasoned their conduct or action was in, or not opposed to, the best interest of our company.

Our Bylaws provide for indemnification of our officers, directors and others who become a party to an action on our behalf by us to the fullest extent not prohibited under the Delaware General Corporation Law. Further, we maintain officer and director liability insurance.

ITEM 25. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION.

The following table sets forth estimated expenses expected to be incurred in connection with the issuance and distribution of the securities being registered. All such expenses will be paid by us.

Securities and Exchange Commission Registration Fee.....	\$ 493.92
Printing and Engraving Expenses.....	\$ *
Accounting Fees and Expenses.....	\$ *

Legal Fees and Expenses.....	\$ *
Blue Sky Qualification Fees and Expenses.....	\$ *
Miscellaneous.....	\$ *
TOTAL.....	\$ 493.92

* To be updated by amendment.

ITEM 26. RECENT SALES OF UNREGISTERED SECURITIES.

In the last three years, we sold the following unregistered securities:

On March 15, 2005, we sold \$1,865,000 of our Series A Convertible Preferred Stock. Starboard Capital Markets, LLC, an NASD member firm, acted as placement agent in the sale of the Preferred Stock, for which it received \$186,500 in commissions and 186,500 warrants to purchase shares of our common stock, par value \$.001 per share at an exercise price equal \$1.00 per share.

In connection with the financing, we also issued to the purchasers common stock purchase warrants to purchase up to an aggregate of 932,500 shares of our Common Stock at an exercise price of \$2.00 per share. The Warrants are exercisable for a period of five years from the date of issuance. We have agreed, pursuant to a registration rights agreement, to register the shares of Common Stock issuable upon conversion of the Preferred Stock and upon exercise of the Warrants with the Securities and Exchange Commission.

In July 2004, we granted options to purchase up to 2,200,000 shares of our common stock to our officers, directors and employees pursuant to our 2002 Stock Option Plan. The options are exercisable for a period of ten years from the date of grant at an exercise price of \$2.00 per share. The options vest equally over a four year period beginning in July 2005.

II-1

On April 2, 2004, in connection with our acquisition of Syscan, Inc., we issued an aggregate of 20,859,459 shares of its common stock to Syscan Imaging Limited in exchange for 100% of the issued and outstanding common stock of Syscan, Inc. Syscan Imaging Limited simultaneously transferred 2,085,945 shares of our common stock it was entitled to receive in connection with its sale of Syscan, Inc. to Emerald Asset Advisors pursuant to a consulting agreement entered into between the parties, as compensation for Emerald's services in connection with the acquisition of Syscan, Inc. by us.

On April 2, 2004, we issued a total of 223,476 shares of our \$0.001 par value per share common stock at a value of \$1.00 per share to Michael Xirinachs, a former director of the company, upon the completion of the April 2, 2004, Share Exchange Agreement acquisition: (i) as settlement of loans payable totaling \$23,476; and (ii) settlement in full of an employment contract signed in December 2003 for 200,000 post-reverse split common shares.

In February 2004, we sold 50,000 shares of our common stock at purchase price of \$1.00 per share to one accredited investor. We used the proceeds from this sale for working capital and general corporate purposes.

In December 2003, we issued 10,000 shares of our common stock to Paul Ankorn (former director) and 10,000 shares of our common stock to William Campbell (former director) as compensation for serving on our board of directors.

On April 2, 2002, Cyberstation Computers and Support Inc., an Ontario corporation ("Cyberstation") and formerly a wholly-owned subsidiary of ours,

Edgar Filing: SYSCAN IMAGING INC - Form SB-2/A

entered into a common stock purchase agreement by and among Platinum Telecommunications, Inc. ("Platinum") and Mr. Zeeshan Saeed (the "Seller"). Pursuant to the agreement, Cyberstation acquired seventy percent (70%) of the issued and outstanding shares of common stock of Platinum (the "Platinum Shares") in consideration for 1,800,000 shares of our common stock, par value \$0.001 per share.

Other than as specifically set forth above, all of the above offerings and sales were deemed to be exempt under Section 4(2) of the Securities Act. No advertising or general solicitation was employed in offering the securities. In each instance, the offerings and sales were made to a limited number of persons, who were either (i) accredited investors, (ii) business associates of ours, (iii) our employees, or (iv) our executive officers or directors. In addition, the transfer of such securities was restricted by us in accordance with the requirements of the Securities Act. With respect to the issuances to accredited investors, in addition to representations by them, we have made independent determinations that they were accredited or sophisticated investors, capable of analyzing the merits and risks of their investment, and that they understood the speculative nature of their investment. With respect to our business associates, employees and executive officers or directors, in addition to representations by them, they were provided with detailed information and had access to all material information about us, and we have made independent determinations that they were capable of analyzing the merits and risks of their investment, and that they understood the speculative nature of their investment. Furthermore, all of the above-referenced persons were provided with access to our filings with the Securities and Exchange Commission.

ITEM 28. UNDERTAKINGS.

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:
 - (i) Include any prospectus required by Sections 10(a)(3) of the Act;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;
 - (iii) To include any material information with respect to the plan of
