PROSPECTUS SUPPLEMENT TO PROSPECTUS DATED JANUARY 9, 2002

5,000,000 Shares

[TEREX LOGO]

Common Stock

Our common stock is listed on The New York Stock Exchange under the symbol "TEX". The last reported sale price of our common stock on the New York Stock Exchange on April 17, 2002, was \$23.32 per share.

The underwriter has an option to purchase a maximum of 750,000 additional shares to cover over-allotments of shares.

Investing in our common stock involves risks. See "Risk Factors" on page S-4.

	Price to Public	Underwriting Discounts and Commissions	Proceeds to Terex
	-----	-----	-----
Per Share	\$21.750	\$0.545	\$21.205
Total.....	\$108,750,000	\$2,725,000	\$106,025,000

Delivery of the shares of common stock will be made on or about April 23, 2002.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the prospectus to which it relates is truthful or complete. Any representation to the contrary is a criminal offense.

Credit Suisse First Boston

The date of this prospectus supplement is April 18, 2002

FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference contain and refer to forward-looking statements that involve risks and uncertainties. Generally, the words "may," "expects," "intends," "anticipates," "plans," "projects," "estimates" or similar words are intended to identify forward-looking statements. However, the absence of these words does not mean that the statement is not forward-looking. We have based these forward-looking statements on our current expectations and projections about future events. These statements are not guarantees of future performance. It is possible that actual events and results will differ materially as future events are difficult to predict. In addition, many of the risks, uncertainties and assumptions about us are beyond our control. Some of these risks, uncertainties and assumptions are:

- o our business is highly cyclical and continuing weak general economic conditions may affect the sales of our products and our financial results for 2002;
- o construction and mining activity are affected by interest rates and government spending;
- o our ability to successfully integrate new businesses may affect our future performance;

Edgar Filing: TEREX CORP - Form 424B2

- o changes in our key management personnel;
- o our businesses are in very competitive industries and may be affected by pricing, product and other actions taken by our competitors;
- o changes in laws and regulations;
- o we manufacture and sell our products in many countries and we may be affected by changes in exchange rates between currencies, as well as international politics;
- o our ability to manufacture and deliver our products to customers on a timely basis; o the ability of our suppliers to supply us with parts and components at competitive prices on a timely basis;
- o our ability to pay dividends may be limited by the terms of our existing debt agreements and state law;
- o we have a significant amount of debt and our debt agreements contain a number of restrictive covenants; and
- o we are subject to various environmental laws and regulations.

The forward-looking statements made or referred to in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference reflect our expectations and projections at the time the statement was made. We do not undertake any obligation to update publicly any forward-looking statement which may result from changes in events, conditions, circumstances or expectations on which we have based any forward-looking statement.

-ii-

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained elsewhere in this prospectus supplement and the accompanying prospectus. This summary is not complete and may not contain all of the information that you should consider before investing in our common stock. You should read the entire prospectus supplement and the accompanying prospectus carefully, including the "Risk Factors" section and the documents incorporated by reference, which are described under "Information We Incorporate By Reference". References in this prospectus supplement to "Terex," "we," "our," and "us" are generally meant to refer to Terex Corporation and its subsidiaries, unless indicated otherwise.

The Company

We are a diversified global manufacturer of a broad range of equipment for the construction, infrastructure and mining industries. We are building a growing franchise under the Terex brand name. We remain focused on our mission of delivering products that are reliable and cost effective and producing equipment that improves our customers' return on invested capital. Our products are manufactured at 50 plants in the United States, Europe, Australia and Asia, and are sold primarily through a worldwide distribution network with over 2,000 locations to the global construction, infrastructure and surface mining markets.

Over the past several years, we have implemented a series of interrelated operational and strategic initiatives designed to create a competitive advantage in the marketplace. These initiatives include: (i) providing customers with lower cost products to increase their return on invested capital; (ii) implementing a variable cost structure with over 80% of cost of sales from purchased components; (iii) reducing selling expense and eliminating non-value-added functions throughout the organization; and (iv) increasing

Edgar Filing: TEREX CORP - Form 424B2

product and geographic diversity through internal development and acquisitions.

We currently operate in three business segments: Terex Americas, Terex Europe and Terex Mining. The focus of Terex Americas and Terex Europe is geographic. Terex Americas includes the business units located in North and South America, Australia and Asia, with the exception of those business units included within Terex Mining. Terex Europe includes the business units located in Europe, with the exception of those business units included within Terex Mining. While our operations are increasingly global, the geographic organization of these segments reflects our belief that our business is a local one that can best be developed and served by focusing our operations geographically and by developing local relationships among equipment users, distribution channels and suppliers.

The Terex Mining business segment includes the results of our mining, manufacturing and distribution operation in Tulsa, Oklahoma, and in Dortmund, Germany and certain sales offices in Australia, South America and Africa. The Terex Mining business is organized under product lines and not geographic lines because of the worldwide scope of our mining customers. In the mining industry, manufacturers and customers are located in various areas around the globe, with many customers operating multiple sites in widely dispersed locations, with the result that local geographic concerns are far less significant than a manufacturer's global range.

Our principal executive offices are located at 500 Post Road East, Westport, Connecticut 06880, and our telephone number is (203) 222-7170.

Terex Americas and Terex Europe

The Terex Americas and Terex Europe segments manufacture and sell telescopic mobile cranes (including rough terrain, truck and all terrain mobile cranes), tower cranes (including self erecting, hammerhead, flat top and luffing jib tower cranes), lattice boom cranes, utility aerial devices (including digger derricks and articulated aerial devices), telescopic material handlers (including container stackers and rough terrain, telescopic boom material handlers), truck mounted cranes (boom trucks), aerial work platforms, loader backhoes, excavators, wheeled loaders, loading machines, articulated and rigid off highway trucks, scrapers, crushing and screening equipment, asphalt pavers, concrete pavers, reclaimers/trimmers, pavement profilers, concrete plants, asphalt rollers, soil compactors, construction trailers, asphalt mixing plants, front discharge concrete mixers and related components and

S-1

replacement parts. In addition, the Terex Americas and Terex Europe segments manufacture and sell various light construction equipment, including mobile and portable floodlighting systems, concrete power trowels, concrete placement systems, concrete finishing systems, concrete mixers, power buggies, generators, traffic control products, and related components and replacement parts.

Terex Mining

The Terex Mining segment manufactures and sells large hydraulic excavators and high capacity surface mining trucks, and related components and replacement parts.

S-2

The Offering

Common Stock offered (a).....5,000,000 shares

Edgar Filing: TEREX CORP - Form 424B2

Common Stock to be outstanding after
the offering(a) (b).....43,646,787 shares

Dividend policy.....We do not plan to pay cash dividends in
the near term. We intend to retain all
future earnings to repay indebtedness and
to fund the development and growth of
our business. Moreover, our debt
instruments restrict the payment of cash
dividends.

Use of proceeds..... Repayment of existing debt and other
general corporate purposes.

New York Stock Exchange symbol.....TEX

Risk factors.....For a discussion of certain risks you
should consider before investing in the
Common Stock, see "Risk Factors."

(a) Excludes 750,000 shares of Common Stock that may be purchased by Credit
Suisse First Boston, the underwriter, to cover over-allotments, if any.

(b) Excludes a total of approximately 2,762,000 additional shares reserved for
issuance upon the exercise of outstanding options and equity rights.

S-3

RISK FACTORS

Investing in shares of our common stock can be risky. Before you invest in shares of our common stock, you should carefully consider the following factors and other information contained or incorporated in this prospectus supplement or the accompanying prospectus.

Risks Related to this Offering

Our significant debt levels may limit our future ability to obtain additional financing and to pursue business opportunities.

As of December 31, 2001, we had total debt of approximately \$1,055 million, which represented approximately 64% of our total capitalization. The proceeds from this offering will be used primarily to repay some of our debt and for general corporate purposes, including acquisitions. Assuming we repay this debt with all of the net proceeds from this offering, on a pro forma basis as of December 31, 2001, our total debt would have been approximately \$950 million, which would have represented approximately 58% of our total capitalization. However, there can be no assurance that we will use all of the net proceeds from this offering to repay debt.

There are several important consequences of having debt, including the following:

- o a portion of our cash from operating activities will be used to pay principal and interest on our debt;
- o competitive pressures and adverse economic conditions are more likely to have a negative effect on our business; and
- o our ability to make acquisitions and to take advantage of significant business opportunities may be negatively affected.

Edgar Filing: TEREX CORP - Form 424B2

Our ability to pay the required interest and principal payments on our debt depends on the future performance of our business. The performance of our business is subject to general economic conditions and other financial and business factors. Many of these factors are beyond our control. If we do not have enough cash flow in the future to pay the required interest or principal payments on our debt, we may be required to refinance all or a part of our debt or borrow additional amounts. We do not know if refinancing our debt will be possible at that time or if we will be able to find someone who will lend us more money.

In addition, because part of our debt bears interest at floating rates, an increase in interest rates could adversely affect our ability to make the required interest and principal payments on our debt.

Our inability to comply with the restrictive debt covenants contained in our existing debt agreements could lead to an acceleration of our debt under our debt agreements and possibly bankruptcy.

Our existing debt agreements contain a number of significant covenants. These covenants limit our ability to, among other things, borrow additional money, make capital expenditures, pay dividends, dispose of assets and acquire new businesses. These covenants also require us to meet certain financial tests. Changes in economic or business conditions, results of operations or other factors could cause us to default under our debt agreements. If we are unable to comply with these covenants, there would be a default under our debt agreements. A default, if not waived by our lenders, could result in acceleration of our debt and possibly bankruptcy.

Risks Related to Our Business

We may face limitations on our ability to integrate acquired businesses.

We expect to continue our strategy of identifying and acquiring businesses with complementary products and services which we believe will enhance our operations and profitability. We may pay for future acquisitions from internally generated funds, bank borrowings, public offerings, private sales of stock or bonds, or some

S-4

combination of these methods. However, we cannot give any assurance that we will be able to continue to find suitable businesses to purchase or that we will be able to raise the money necessary to complete future acquisitions.

In addition, we cannot guarantee that we will be able to successfully integrate any business we purchase into our existing business or that any acquired businesses will be profitable. The successful integration of new businesses depends on our ability to manage these new businesses and cut excess costs. If we are unable to complete the integration of new businesses in a timely manner, it could have a materially adverse effect on our results of operations and financial condition.

Our business is highly cyclical.

The demand for our products depends upon the general economic conditions of the markets in which we compete. Downward economic cycles result in reductions in sales of our products, which may reduce our profits. We anticipate continuing weak economic conditions in many of our end markets in the near-term, particularly during the first half of 2002. We have taken a number of steps to reduce our fixed costs and diversify our operations to decrease the negative impact of these cycles. There can be no assurance, however, that these steps

Edgar Filing: TEREX CORP - Form 424B2

will prevent the negative impact of poor economic conditions.

We operate in a highly competitive industry.

We compete in a highly competitive industry. To compete successfully, our products must excel in terms of quality, price, product line, ease of use, safety and comfort, and we must also provide excellent customer service. The greater financial resources of certain of our competitors may put us at a competitive disadvantage.

We rely on key management.

We rely on the management and leadership skills of Ronald M. DeFeo, Chairman of the Board, President and Chief Executive Officer. Mr. DeFeo has an employment agreement with us which expires on December 31, 2004. The loss of his services could have a significant, negative impact on our business.

We are subject to currency fluctuations and other risks from our international operations.

Our products are sold in over 100 countries around the world. Thus, our revenues are generated in foreign currencies, including the Euro, British Pound Sterling and Australian Dollar, while costs incurred to generate those revenues are only partly incurred in the same currencies. Since our financial statements are denominated in U.S. Dollars, changes in currency exchange rates between the U.S. Dollar and other currencies have had, and will continue to have, an impact on our earnings. To date, this impact has not been material on our earnings. To reduce this currency exchange risk, we may buy protecting or offsetting positions (known as "hedges") in certain currencies to reduce the risk of an adverse currency exchange movement. We have not engaged in any speculative or profit motivated hedging activities. Although we partially hedge our revenues and costs, currency fluctuations will impact our financial performance in the future.

Our international operations are also subject to a number of potential risks. Such risks include, among others, currency exchange controls, labor unrest, regional economic uncertainty, political instability, restrictions on the transfer of funds into or out of a country, export duties and quotas, domestic and foreign customs and tariffs, current and changing regulatory environments, difficulty in obtaining distribution support and potentially adverse tax consequences. These factors may have an adverse effect on our international operations in the future.

Compliance with environmental and other governmental regulations could be costly and require us to make significant expenditures.

We generate hazardous and nonhazardous wastes in the normal course of our manufacturing operations. As a result, we are subject to a wide range of federal, state, local and foreign environmental laws and regulations. These laws and regulations govern actions that may have adverse environmental effects and also require compliance with certain practices when handling and disposing of hazardous and nonhazardous wastes. These laws and regulations

S-5

also impose liability for the costs of, and damages resulting from, cleaning up sites, past spills, disposals and other releases of hazardous substances.

Compliance with these laws and regulations requires us to make expenditures. We do not expect that these expenditures will have a material adverse effect on its business or profitability.

Edgar Filing: TEREX CORP - Form 424B2

Restrictions on Dividends

Our ability to pay dividends on our common stock is limited under the terms of our existing debt agreements. In addition, Delaware law generally restricts us from paying dividends in circumstances where the payment would make our liabilities exceed our assets or where the payment would make us unable to pay our debts as they become due.

We do not plan on paying dividends on our common stock in the near term. Instead, we intend to retain any earnings to repay indebtedness and to fund the development and growth of our business. Any future payments of cash dividends will depend on our financial condition, capital requirements and earnings, as well as other factors that the Board of Directors may consider.

PRICE RANGE OF COMMON STOCK AND DIVIDEND POLICY

Our common stock is listed on the New York Stock Exchange under the symbol "TEX". The following table sets forth for the quarters indicated, the high and low sales prices of our common stock as reported on the New York Stock Exchange Composite Tape.

	Price Range	
	Low	High
2000		
First Quarter	\$11.13	\$28.88
Second Quarter.....	12.38	17.25
Third Quarter	12.00	19.50
Fourth Quarter.....	11.56	17.19
2001		
First Quarter	\$14.44	\$20.35
Second Quarter.....	16.75	24.50
Third Quarter	15.35	22.94
Fourth Quarter.....	15.78	19.00
2002		
First Quarter	\$15.59	\$23.17
Second Quarter (through April 17, 2002).....	22.53	24.49

The last reported sale of our common stock on the New York Stock Exchange Composite Tape on April 17, 2002 was \$23.32 per share. As of April 16, 2002, there were approximately 1,303 record holders of our common stock.

We did not declare or pay a cash dividend on our common stock in 2000, 2001 or to date in 2002, nor do we anticipate paying cash dividends on our common stock in the foreseeable future. Certain of our debt agreements contain restrictions as to the payment of cash dividends. In addition, payment of dividends is limited by Delaware law. We intend generally to retain any earnings to repay indebtedness and to fund the development and growth of our business. Any future payments of cash dividends will depend on our financial condition, capital requirements and earnings, as well as other factors that the Board of Directors may consider.

S-6

USE OF PROCEEDS

The net proceeds (after deducting the underwriting discount and further fees and expenses of approximately \$100,000) from the sale of the common stock

Edgar Filing: TEREX CORP - Form 424B2

offered hereby will be approximately \$106 million (or approximately \$122 million if the Underwriter's over-allotment option is exercised in full). Such proceeds will be used by us as follows:

- o to repay outstanding indebtedness under our \$300,000,000 revolving credit facility; and
- o for general corporate purposes which may include acquisitions and prepayment of debt.

Amounts due under our revolving credit facility currently bear interest at an all-in drawn cost of approximately 4.4% per annum. The revolving credit facility will terminate in March 2004. We have used amounts that we borrowed under our revolving credit facility for working capital and general corporate purposes. Terex has also used borrowings under our revolving credit facility to fund a portion of our recent acquisitions. We may reborrow the amounts that we repay under the revolving credit facility.

CAPITALIZATION

The following table shows our consolidated capitalization as of December 31, 2001, and as adjusted at that date as described in footnote (1) below. This table should be read together with the historical consolidated financial statements and related notes incorporated by reference in this prospectus supplement and the accompanying prospectus.

	As of December 31, 2001 (dollars in millions)	
	----- Historical -----	As Adjusted(1) -----
Cash and cash equivalents	\$ 250.4	\$ 250.4
	=====	=====
Notes payable and current portion of long-term debt	\$ 34.7	\$ 34.7
Long-term debt, less current portion.....	1,020.7	914.8
Stockholders' equity:		
Equity rights	0.5	0.5
Common stock, \$0.01 par value--authorized 150 million shares; 37.5 million shares issued, 42.5 million shares issued, as adjusted	0.4	0.5
Additional paid-in capital	532.4	638.3
Retained earnings	199.9	199.9
Accumulated other comprehensive income (loss)	(120.3)	(120.3)
Less cost of shares of common stock in treasury (1.1 million shares)	(17.5)	(17.5)
	-----	-----
Total stockholders' equity	595.4	701.4
	-----	-----
Total capitalization	\$1,650.8	\$1,650.9
	=====	=====

(1) Adjusted to reflect the net proceeds of \$105.9 million received by us from this offering and the repayment of \$105.9 million of our long-term debt. There can be no assurance that we will use all of the net proceeds from this offering for the repayment of our long-term debt. We may also use a

Edgar Filing: TEREX CORP - Form 424B2

portion of the net proceeds for general corporate purposes as described further under "Use of Proceeds."

S-7

SELECTED CONSOLIDATED FINANCIAL DATA (DOLLARS IN MILLIONS, EXCEPT PER SHARE AMOUNTS)

The following table sets forth our selected financial data for the five years ended December 31, 2001. The financial data for each of the five years in the period ended December 31, 2001 has been derived from our audited consolidated financial statements for these periods. The selected financial data is not necessarily indicative of our future results.

	Year Ended December 31,

- (1) Represents the effect of:
 *the 9.46% redemption premium and the pro rata write-off of debt origination costs and original issue discount on the redemption of a portion of our then existing senior secured notes; and *the early termination fee and the write-off of debt origination costs on the termination of the then existing domestic credit facility in April 1997.

(footnotes continued on following page)

S-8

(footnotes continued)

- (2) Includes a \$3.2 million nonrecurring charge as a result of the redemption of the redeemable preferred stock of one of our subsidiaries.
- (3) Represents the effect of:

Edgar Filing: TEREX CORP - Form 424B2

*the premium and the write-off of debt origination fees and original issue discount on the purchase of all of our then outstanding senior secured notes; and

*the fees and expenses and the write-off of debt origination costs on the early termination of certain of our then existing credit facilities.

- (4) Cost of goods sold includes \$12.9 million in nonrecurring charges related to the operations and closure of the Milwaukee facility in the fourth quarter of 1999.
- (5) Selling, general and administrative expenses include (\$0.6) in nonrecurring charges related to headcount reductions at O&K. Germany offset by a favorable legal settlement.
- (6) Includes the effect of the nonrecurring charges set forth in (4) and (5) above. Excluding these charges, income from operations would have been \$190.6 million.
- (7) Cost of goods sold includes \$9.9 million of nonrecurring charges related to the closing of the Terex distribution facility in the United Kingdom, an aggregate customer filing bankruptcy and the further integration of Terex's mining businesses.
- (8) Selling, general and administrative expenses include \$3.4 million in nonrecurring charges related to the closing of the Terex distribution facility in the United Kingdom, headcount reductions in the Company's mining business and due diligence costs associated with a large potential acquisition which did not come to fruition, offset partially by a curtailment gain related to one of Terex's pension plans.
- (9) Includes the effect of the nonrecurring charges set forth in (7) and (8) above. Excluding these charges, income from operations would have been \$211.6 million.
- (10) Cost of goods sold includes \$26.0 million in non-recurring charges related to restructuring and other charges.
- (11) Selling, general and administrative expenses include \$3.9 million in non-recurring charges related to restructuring and other charges.
- (12) Includes the effect of the non-recurring charges set forth in (10) and (11) above. Excluding these charges, income from operations would have been \$134.1 million.

S-9

DESCRIPTION OF COMMON STOCK

Our restated certificate of incorporation authorizes us to issue up to 150,000,000 shares of our common stock. As of April 16, 2002 we had 38,646,787 shares of our common stock outstanding.

The following is a summary of the material terms of our common stock. Because it is only a summary, it does not contain all the information that may be important to you. Accordingly, you should read carefully the more detailed provisions of our restated certificate of incorporation and amended and restated bylaws.

Edgar Filing: TEREX CORP - Form 424B2

Each outstanding share of our common stock entitles the holder to one vote, either in person or by proxy, on all matters submitted to a vote of stockholders, including the election of directors. There is no cumulative voting in the election of directors, which means that the holders of a majority of the outstanding shares of common stock can elect all of the directors then standing for election. Subject to preferences which may be applicable to any outstanding shares of preferred stock, holders of common stock have equal ratable rights to any dividends that may be declared by the board of directors out of legally available funds.

Holders of our common stock have no conversion, redemption or preemptive rights to subscribe for any of our securities. All outstanding shares of our common stock are fully paid and nonassessable. In the event of any liquidation, dissolution or winding-up of our affairs, holders of our common stock will be entitled to share ratably in our assets remaining after provision for payment of liabilities to creditors and preferences applicable to outstanding shares of preferred stock. The rights, preferences and privileges of holders of our common stock are subject to the rights of the holders of any outstanding shares of preferred stock.

Our restated certificate of incorporation provides that directors shall not be personally liable to us or our stockholders for monetary damages for breach of fiduciary duties as a director except to the extent otherwise required by Delaware law. Our amended and restated bylaws provide for indemnification of our officers and directors to the fullest extent permitted by Delaware law.

Our amended and restated bylaws provide that our stockholders must provide prior notice for nominations for election to the board of directors or for proposing matters which can be acted upon at stockholders meeting. This provision could be considered an "anti-takeover" provision.

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company.

CERTAIN UNITED STATES TAX CONSEQUENCES TO NON-UNITED STATES HOLDERS

A general discussion of certain United States federal income and estate tax consequences of the ownership and disposition of our common stock applicable to Non-U.S. Holders (as defined) is set forth below. In general, a "Non-U.S. Holder" is a person other than: (i) a citizen or resident (as defined for United States Federal income or estate tax purposes, as the case may be) of the United States; (ii) a corporation organized in or under the laws of the United States or a political subdivision thereof; (iii) an estate the income of which is subject to United States Federal income taxation regardless of its source; or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. trustees has the authority to control all substantial decisions of the trust. The discussion is based on current law and is provided for general information only. The discussion set forth in this section does not address aspects of United States Federal taxation other than income and estate taxation and does not address all aspects of Federal income and estate taxation. The discussion does not consider any specific facts or circumstances that may apply to a particular Non-U.S. Holder and does not address all aspects of United States Federal income tax law that may be relevant to Non-U.S. Holders that may be subject to special treatment under such law (for example, insurance companies, tax-exempt organizations, financial institutions or broker-dealers). Accordingly, prospective investors are urged to consult their tax advisors regarding the United States Federal, state, local and non-U.S. current and possible future income and other tax consequences of holding and disposing of our common stock.

Edgar Filing: TEREX CORP - Form 424B2

Dividends

In general, the gross amount of dividends paid to a Non-U.S. Holder will be subject to United States withholding tax at a 30% rate (or any lower rate prescribed by an applicable tax treaty) unless the dividends are effectively connected with a trade or business carried on by the Non-U.S. Holder within the United States. In determining the applicability of a tax treaty that provides for a lower rate of withholding, a Non-U.S. Holder will be required to file certain forms in order to claim the benefit of an applicable treaty rate. Dividends effectively connected with a trade or business carried on by a Non-U.S. Holder within the United States will generally not be subject to withholding (if the Non-U.S. Holder properly complies with applicable certification and disclosure requirements) and will generally be subject to United States Federal income tax at applicable graduated Federal income tax rates. Effectively connected dividends may be subject to different treatment under an applicable tax treaty depending on whether such dividends are attributable to a permanent establishment of the Non-U.S. Holder in the United States. In addition, in the case of a Non-U.S. Holder which is a corporation, effectively connected income may be subject to the branch profits tax (which is generally imposed on a foreign corporation at a rate of 30% of the deemed repatriation from the United States of "effectively connected earnings and profits") except to the extent that an applicable tax treaty provides otherwise. A Non-U.S. Holder eligible for a reduced rate of United States withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the Internal Revenue Service, also known as the IRS.

Sale of Common Stock

Generally, a Non-U.S. Holder will not be subject to United States Federal income tax on any gain realized upon the disposition of our common stock by him unless: (i) we have been, are, or become a "U.S. real property holding corporation" for Federal income tax purposes and certain other requirements are met; (ii) the gain is effectively connected with a trade or business carried on by the Non-U.S. Holder (or by a partnership, trust or estate in which the Non-U.S. Holder is a partner or beneficiary) within the United States; or (iii) our common stock is disposed of by an individual Non-U.S. Holder who holds our common stock as a capital asset and is present in the United States for 183 days or more in the taxable year of the disposition, and the gains are considered derived from sources within the United States. We believe that we have not been, are not currently and, based upon our current business plans, are not likely to become a U.S. real property holding corporation.

A Non-U.S. Holder also may be subject to tax pursuant to the provisions of United States tax law applicable to certain United States expatriates. Non-U.S. Holders should consult applicable treaties, which may exempt from United States taxation gains realized upon the disposition of our common stock in certain cases.

Estate Tax

Our common stock owned or treated as owned by an individual Non-U.S. Holder at the time of death will be includible in the individual's gross estate for United States Federal estate tax purposes, unless an applicable treaty provides otherwise, and may be subject to United States Federal estate tax.

Backup Withholding and Information Reporting

We must report annually to the IRS and to Non-U.S. Holders the amount of dividends paid to, and the tax withheld with respect to, each Non-U.S. Holder. These information reporting requirements apply regardless of whether withholding

Edgar Filing: TEREX CORP - Form 424B2

was reduced by an applicable tax treaty or if withholding was not required because the dividends were effectively connected with a trade or business in the United States of the Non-U.S. Holder. Copies of these information returns also may be made available under the provisions of a specific treaty or agreement to the tax authorities in the country in which the Non-U.S. Holder resides or is established. Under current law, United States backup withholding tax (which generally is a withholding tax, presently imposed at the rate of 30.5% on certain payments to persons that fail to furnish the information required under the United States information reporting and backup withholding rules) generally will apply to dividends paid on our common stock to a Non-U.S. Holder unless applicable certification requirements are met.

S-11

The payment of the proceeds from the disposition of our common stock to or through the United States office of a broker or a foreign office of a U.S. broker will be subject to information reporting and backup withholding unless the owner certifies its foreign status as described above or otherwise establishes an exemption and the broker has no actual knowledge to the contrary. The payment of the proceeds from the disposition of our common stock to or through a foreign office of a broker will not be subject to backup withholding and generally will not be subject to information reporting unless the broker is a U.S. person or a non-U.S. person with certain enumerated connections with the United States. Unless the broker has documentary evidence in its files that the owner is a Non-U.S. Holder and certain conditions are met or the holder otherwise establishes an exemption, information reporting and backup withholding generally will apply to dispositions through (a) a non-United States office of a United States broker and (b) a non-United States office of a non-United States broker that is either a "controlled foreign corporation" for United States Federal income tax purposes or a person 50% or more of whose gross income from all sources for a three year testing period was effectively connected with a United States trade or business.

Any amount withheld under the backup withholding rules from a payment to a Non-U.S. Holder would be allowed as a credit against such Non-U.S. Holder's United States Federal income tax and any amounts withheld in excess of such Non-U.S. Holder's United States Federal income tax liability would be refunded, provided that required information is furnished to the IRS.

THE FOREGOING DISCUSSION OF CERTAIN U.S. FEDERAL INCOME TAX AND ESTATE TAX CONSIDERATIONS IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE. ACCORDINGLY, EACH PROSPECTIVE NON-U.S. HOLDER OF SHARES OF OUR COMMON STOCK SHOULD CONSULT HIS, HER OR ITS OWN TAX ADVISOR WITH RESPECT TO THE FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated April 18, 2002, we have agreed to sell to Credit Suisse First Boston Corporation 5,000,000 shares of our common stock.

The underwriting agreement provides that the underwriter is obligated to purchase all the shares of common stock in the offering if any are purchased, other than those shares covered by the over-allotment option described below.

We have granted to the underwriter a 30-day option to purchase up to 750,000 additional shares at the initial public offering price less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of common stock.

The underwriter proposes to offer the shares of common stock initially at

Edgar Filing: TEREX CORP - Form 424B2

the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of \$0.327 per share. After the initial public offering the underwriter may change the public offering price and concession.

S-12

The following table summarizes the compensation and estimated expenses we will pay:

	Per Share		Total	
	Without Over-Allotment	With Over-Allotment	Without Over-allotment	With Over-allotment
Underwriting Discounts and Commissions paid by us.....	\$0.545	\$0.545	\$2,725,000	\$3,133,750
Expenses payable by us.....	\$0.020	\$0.017	\$100,000	\$100,000

We have agreed that, subject to certain exceptions, we will not offer, sell contract to sell, pledge or otherwise dispose of (other than bona fide pledges), directly or indirectly, or file with the Securities and Exchange Commission a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing, without the prior written consent of Credit Suisse First Boston Corporation for a period of 90 days after the date of this prospectus.

We and our officers and directors have agreed that, subject to certain exceptions, they will not offer, sell, contract to sell, pledge or otherwise dispose of (other than bona fide pledges), directly or indirectly, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of common stock or other securities, in cash or otherwise, or publicly disclose the intention to make any offer, sale, pledge or disposition, or to enter into any transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of Credit Suisse First Boston Corporation for a period of 90 days after the date of this prospectus.

We have agreed to indemnify the underwriter against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

Our common stock is listed on the New York Stock Exchange under the symbol "TEX".

In connection with the offering the underwriter may engage in stabilizing transactions, over-allotment transactions, syndicate covering transaction and penalty bids in accordance with Regulation M under the Exchange Act.

- o Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified

Edgar Filing: TEREX CORP - Form 424B2

maximum.

- o Over-allotment involves sales by the underwriter of shares in excess of the number of shares the underwriter is obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing shares in the open market.
- o Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriter will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. If the underwriter sells more shares than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

S-13

- o Penalty bids permit the underwriter to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange or otherwise and, if commenced, may be discontinued at any time.

NOTICE TO CANADIAN RESIDENTS

RESALE RESTRICTIONS

The distribution of the common stock in Canada is being made only on a private placement basis exempt from the requirement that we prepare and file a prospectus with the securities regulatory authorities in each province where trades of common stock are made. Any resale of the common stock in Canada must be made under applicable securities laws, which will vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the common stock.

REPRESENTATIONS OF PURCHASERS

By purchasing common stock in Canada and accepting a purchase confirmation a purchaser is representing to us and the dealer from whom the purchase confirmation is received that:

Edgar Filing: TEREX CORP - Form 424B2

- o the purchaser is entitled under applicable provincial securities laws to purchase the common stock without the benefit of a prospectus qualified under those securities laws,
- o where required by law, that the purchaser is purchasing as principal and not as agent, and
- o the purchaser has reviewed the text above under Resale Restrictions.

RIGHTS OF ACTION - ONTARIO PURCHASERS ONLY

Under Ontario securities legislation, a purchaser who purchases a security offered by this prospectus during the period of distribution will have a statutory right of action for damages, or while still the owner of the shares, for rescission against us in the event that this prospectus contains a misrepresentation. A purchaser will be deemed to have relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for the shares. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for the shares. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against us. In no case will the amount recoverable in any action exceed the price at which the shares were offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, we will have no liability. In the case of an action for damages, we will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of the shares as a result of the misrepresentation relied upon. These rights are in addition to, and without derogation from, any other rights or remedies available at law to an Ontario purchaser. The foregoing is a summary of the rights available to an Ontario purchaser. Ontario purchasers should refer to the complete text of the relevant statutory provisions.

S-14

ENFORCEMENT OF LEGAL RIGHTS

All of our directors and officers as well as the experts named herein may be located outside of Canada and, as a result, it may not be possible for Canadian purchasers to effect service of process within Canada upon us or those persons. All or a substantial portion of our assets and the assets of those persons may be located outside of Canada and, as a result, it may not be possible to satisfy a judgment against us or those persons in Canada or to enforce a judgment obtained in Canadian courts against us or those persons outside of Canada.

TAXATION AND ELIGIBILITY FOR INVESTMENT

Canadian purchasers of common stock should consult their own legal and tax advisers with respect to the tax consequences of an investment in the common stock in their particular circumstances and about the eligibility of the common stock for investment by the purchaser under relevant Canadian legislation.

LEGAL MATTERS

Certain legal matters in connection with the shares of common stock offered hereby will be passed upon for Terex by Robinson Silverman Pearce Aronsohn & Berman LLP, 1290 Avenue of the Americas, New York, New York 10104, and for the Underwriter by Skadden, Arps, Slate, Meagher & Flom LLP, Four Times Square, New York, New York 10036.

Edgar Filing: TEREX CORP - Form 424B2

INFORMATION WE INCORPORATE BY REFERENCE

The Securities and Exchange Commission allows us to "incorporate by reference" information that we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus supplement and the accompanying prospectus. We incorporate by reference the documents listed on page 24 of the accompanying prospectus.

S-15

PROSPECTUS

TEREX CORPORATION

Debt Securities
Preferred Stock
Common Stock
Warrants
Rights
Purchase Contracts
Units

We may offer from time to time the following types of securities:

- o our debt securities, in one or more series, which may be senior debt securities or subordinated debt securities, in each case consisting of notes or other unsecured evidences of indebtedness;
- o shares of our preferred stock;
- o shares of our common stock;
- o warrants to purchase any of the other securities that may be sold under this prospectus;
- o rights to purchase preferred stock or common stock;
- o purchase contracts to acquire any of the other securities that may be sold under this prospectus; and
- o any combination of these securities, individually or as units.

The securities will have an aggregate initial offering price of up to \$300,000,000. The securities may be offered separately or together in any combination and as separate series. We will provide specific terms of these securities in supplements to this prospectus. You should read this prospectus and any prospectus supplement, as well as the documents incorporated or deemed to be incorporated by reference in this prospectus, carefully before you invest.

Our common stock is traded on the New York Stock Exchange under the symbol "TEX." On January 7, 2002, the closing sale price of our common stock as reported on the New York Stock Exchange was \$17.87.

We will sell these securities directly, through agents, dealers or underwriters as designated from time to time, or through a combination of these

Edgar Filing: TEREX CORP - Form 424B2

methods. We reserve the sole right to accept, and together with our agents, dealers and underwriters reserve the right to reject, in whole or in part, any proposed purchase of securities to be made directly or through agents, underwriters or dealers. If any agents, dealers or underwriters are involved in the sale of any securities, the relevant prospectus supplement will set forth any applicable commissions or discounts. Our net proceeds from the sale of securities also will be set forth in the relevant prospectus supplement.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of securities unless accompanied by the applicable prospectus supplement.

The date of this prospectus is January 9, 2002.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using a "shelf" registration process. Under the shelf process, we may, from time to time, offer up to \$300,000,000 aggregate public offering price of the debt securities, preferred stock, common stock, warrants, rights, purchase contracts and units. In this prospectus we will refer to the debt securities, preferred stock, common stock, warrants, rights, purchase contracts and units collectively as the "securities." This prospectus provides you with a general description of the securities that we may offer. Each time that we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement also may add, update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with additional information described under the heading "Where You Can Find More Information." We may only use this prospectus

Edgar Filing: TEREX CORP - Form 424B2

to sell securities if it is accompanied by a prospectus supplement. We are only offering these securities in states where the offer is permitted.

The registration statement that contains this prospectus, including the exhibits to the registration statement, contains additional information about us and the securities offered under this prospectus. That registration statement can be read at the SEC's web site or at the SEC's offices referenced under the heading "Where You Can Find More Information."

ABOUT TEREX

We are a diversified global manufacturer of a broad range of equipment for the construction, infrastructure and mining industries. We are building a strong franchise under the Terex brand name by delivering reliable, cost-effective products designed to improve our customers' return on invested capital. Our products are manufactured at plants in the United States, Europe, Australia and Asia, and are sold primarily through a worldwide distribution network with over 1,000 locations to the global construction, infrastructure and surface mining markets.

We currently operate in three business segments: Terex Americas, Terex Europe and Terex Mining. The focus of Terex Americas and Terex Europe is geographic. Terex Americas includes the business units located in North and South America, Australia and Asia, with the exception of those business units included within Terex Mining. Terex Europe includes the business units located in Europe, with the exception of those business units included within Terex Mining. While our business is becoming increasingly global, the geographic organization of these segments reflect our belief that our business is a local one that can best be developed and served by focusing our operations geographically, rather than by product, and by developing local relationships among equipment users, distribution channels and the manufacturer.

2

The Terex Mining business segment includes the results of our mining operations in Tulsa, Oklahoma, and in Germany and certain sales offices in Australia, South America and Africa. The Terex Mining business is organized under product lines and not geographic lines because of the worldwide scope of the mining business. In the mining industry, manufacturers and customers are located in various areas around the globe, with many customers operating multiple sites in widely dispersed locations, with the result that local geographic concerns are far less significant than a manufacturer's global range.

Our principal executive offices are located at 500 Post Road East, Westport, Connecticut 06880, and our telephone number is (203) 222-7170.

Terex Americas and Terex Europe

The Terex Americas and Terex Europe segments manufacture and sell telescopic mobile cranes (including rough terrain, truck and all terrain mobile cranes), tower cranes (including self-erecting, hammerhead, flat top and luffing jib tower cranes), lattice boom cranes, utility aerial devices (including digger derricks and articulated aerial devices), telescopic material handlers (including container stackers and rough terrain, telescopic boom material handlers), truck-mounted cranes (boom trucks), aerial work platforms (including scissor, articulated boom and straight telescoping aerial work platforms), loader backhoes, articulated and rigid off-highway trucks, scrapers, crushing and screening equipment, asphalt pavers, asphalt mixing plants, and related components and replacement parts. In addition, the Terex Americas and Terex Europe segments manufacture and sell various light construction equipment, including mobile and portable floodlighting systems, concrete power trowels,

Edgar Filing: TEREX CORP - Form 424B2

concrete placement systems, concrete finishing systems, concrete mixers, generators, traffic control products, and related components and replacement parts.

Terex Mining

The Terex Mining segment manufactures and sells large hydraulic excavators and high capacity surface mining trucks, and related component and replacement parts.

RATIOS OF EARNINGS TO FIXED CHARGES

The following table sets forth our unaudited historical ratios of earnings to fixed charges for the periods indicated below:

	Year Ended December 31,					Nine Months Ended September 30,	
	1996	1997	1998	1999	2000	2000	2001
Ratio of earnings to fixed charges.....	-	1.6x	2.4x	2.1x	2.5x	2.8x	1.3x

In calculating the ratio of earnings to fixed charges, earnings consist of income (loss) from continuing operations before income taxes and extraordinary items plus fixed charges. Fixed charges consist of interest expense, preferred stock accretion, amortization of indebtedness issuance costs, and rental expense representative of the interest factor. Earnings were insufficient to cover fixed charges by \$42.2 million during the year ended December 31, 1996.

USE OF PROCEEDS

Unless we state otherwise in the applicable prospectus supplement, we expect to use the net proceeds from the sale of the securities for general corporate purposes, including capital expenditures, working capital, repayment or reduction of long-term and short-term debt and the financing of acquisitions and other business combinations. We may invest funds that we do not immediately require in short-term marketable securities.

3

DESCRIPTION OF DEBT SECURITIES

We may issue debt securities either separately, or together with, or upon the conversion of or in exchange for, other securities. The debt securities may be our unsecured and unsubordinated obligations or our subordinated obligations. We use the term "senior debt securities" to refer to the unsecured and unsubordinated obligations. We use the term "subordinated debt securities" to refer to the subordinated obligations. The subordinated debt securities of any series may be our senior subordinated obligations, subordinated obligations, junior subordinated obligations or may have such other ranking as is described in the relevant prospectus supplement. We may issue any of these types of debt securities in one or more series.

Our senior debt securities may be issued from time to time under a senior debt securities indenture with a trustee to be named in the senior debt securities indenture. Our subordinated debt securities may be issued from time to time under a subordinated debt securities indenture with a trustee to be named in the subordinated debt securities indenture, which will describe the specific terms of the debt securing series. We use the term "indenture" to refer

Edgar Filing: TEREX CORP - Form 424B2

to the senior debt securities indenture or the subordinated debt securities indenture. We use the term "indentures" to refer both the senior debt securities indenture and the subordinated debt securities indenture. We use the term "trustee" to refer to the trustee named in the senior debt securities indenture or the subordinated debt securities indenture. We use the term "trustees" to refer to both the trustee named in the senior debt securities indenture and the subordinated debt securities indenture.

The following summary of selected provisions of the indentures and the debt securities is not complete. Before making an investment in our debt securities, you should review the applicable prospectus supplement and the form of applicable indenture. That indenture will be filed with the Securities and Exchange Commission in connection with the offering of the specific debt securities.

Some of our operations are conducted through our subsidiaries. Accordingly, our cash flow and our ability to service our debt, including the debt securities, are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us, whether by dividends, loans or otherwise. The payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent upon the earnings of our subsidiaries and are subject to various business considerations. Our right to receive assets of any of our subsidiaries upon their liquidation or reorganization (and the consequent right of the holders of the debt securities to participate in those assets) will be effectively subordinated to the claims of that subsidiary's creditors (including trade creditors), except to the extent that we are recognized as a creditor of that subsidiary, in which case our claims would still be subordinate to any security interests in the assets of the subsidiary and any indebtedness of the subsidiary senior to that held by us.

General

We can issue an unlimited amount of debt securities under the indentures. We can issue debt securities from time to time and in one or more series as determined by us. In addition, we can issue debt securities of any series with terms different from the terms of debt securities of any other series and the terms of particular debt securities within any series may differ from each other, all without the consent of the holders of previously issued series of debt securities. The debt securities of each series will be our direct, unsecured obligations.

The applicable prospectus supplement relating to the series of debt securities will describe the specific terms of the debt securities being offered, including, where applicable, the following:

- o the title of the series of debt securities;
- o whether the debt securities of the series will be senior debt securities or subordinated debt securities;
- o any limit on the aggregate principal amount of debt securities of the series;
- o the name of the trustee and its corporate trust office;

4

- o whether the debt securities of the series are to be issuable in registered or bearer form or both and whether the debt securities of the series may be represented initially by a debt security in temporary or permanent global form, and, if so, the initial depository

Edgar Filing: TEREX CORP - Form 424B2

with respect to such temporary or permanent global debt security and the circumstances under which beneficial owners of interests in any such temporary or permanent global debt security may exchange such interests for debt securities of such series of like tenor and of any authorized form and denomination and the authorized newspapers for publication of notices to holders of bearer securities;

- o any other terms required to establish a series of bearer securities, including, but not limited to, tax compliance procedures;
- o the price or prices at which the debt securities of the series will be issued;
- o the person to whom any interest will be payable on any debt securities of the series, if other than the person in whose name the debt security is registered at the close of business on the regular record date for the payment of interest;
- o the date or dates on which the principal of and premium, if any, on the debt securities of the series is payable or the method or methods, if any, used to determine those dates;
- o the rate or rates at which the debt securities of the series will bear interest or the method or methods, if any, used to calculate those rate or rates;
- o the date or dates, if any, from which interest on the debt securities of the series will accrue, or the method or methods, if any, used to determine those dates;
- o the stated maturities of installments of interest, if any, on which any interest on the debt securities of the series will be payable and the regular record dates for any interest payable on any debt securities of the series which are registered securities;
- o the place or places where and the manner in which the principal of and premium, if any, and interest, if any, on the debt securities of the series will be payable and the place or places where the debt securities of the series may be presented for transfer and, if applicable, conversion or exchange and the place or places where notices and demands in respect of the debt securities of the series may be served on us;
- o our right, if any, to redeem the debt securities, and the period or periods within which, the price or prices at which and the terms and conditions upon which, the debt securities of the series may be redeemed, in whole or in part;
- o our obligation, if any, to redeem or purchase the debt securities of the series pursuant to any sinking fund or analogous provisions or at the option of a holder of such debt securities, the conditions, if any, giving rise to such obligation, and the period or periods within which, the price or prices at which and the terms and conditions upon which, the debt securities of the series shall be redeemed or purchased, in whole or part, and any provisions for the remarketing of such debt securities;
- o the denominations in which any registered securities of the series are to be issuable, if other than denominations of \$1,000 and any integral multiple thereof, and the denominations in which any bearer securities of the series are to be issuable, if other than denominations of \$5,000 and \$100,000;

Edgar Filing: TEREX CORP - Form 424B2

- o the currency or currencies, including composite currencies, of payment of principal or premium, if any, and interest, if any, on the debt securities of the series, if other than U.S. dollars, and, if other

5

than U.S. dollars, whether the debt securities of the series may be satisfied and discharged other than as provided in the applicable indenture;

- o if the amount of payments of principal of, premium, if any, and interest, if any, on the debt securities of the series is to be determined by reference to an index, formula or other method, or based on a coin or currency or currency unit other than that in which the debt securities of the series are stated to be payable, the manner in which these amounts are to be determined and the calculation agent, if any, with respect thereto;
- o if other than the principal amount thereof, the portion of the principal amount of the debt securities of the series which will be payable upon declaration or acceleration of the maturity thereof pursuant to an event of default;
- o if we agree to pay any additional amounts on any of the debt securities, and coupons, if any, of the series to any holder in respect of any tax, assessment or governmental charge withheld or deducted, the circumstances and procedures under which we will make these payments, and whether those additional amounts paid by us will be treated as interest or principal pursuant to the applicable indenture, and whether we will have the option to redeem these debt securities rather than pay these additional amounts;
- o whether the debt securities of the series are convertible or exchangeable into other debt or equity securities, and, if so, the terms and conditions upon which such conversion or exchange will be effected, including the initial conversion or exchange price or rate and any adjustments thereto, the conversion or exchange period and other conversion or exchange provisions;
- o whether the debt securities of the series are issuable upon the conversion or exchange of other debt or equity securities, and, if so, the terms and conditions upon which the issuance will be effected, including the time, manner and place for the issuance;
- o any terms applicable to debt securities of any series issued at an issue price below their stated principal amount, including the issue price thereof and the rate or rates at which the original issue discount will accrue;
- o whether the debt securities of the series are to be issued or delivered (whether at the time of original issuance or at the time of exchange of a temporary security of such series or otherwise), or any installment of principal or any premium or interest is to be payable only, upon receipt of certificates or other documents or satisfaction of other conditions in addition to those specified in the applicable indenture;
- o whether the debt securities of the series, in whole or any specified part, will not be defeasible pursuant to the applicable indenture and, if other than by an officers' certificate, the manner in which any election by us to defease the debt securities of the series will be

Edgar Filing: TEREX CORP - Form 424B2

evidenced;

- o any deletions from, modifications of or additions to the events of default or our covenants with respect to the debt securities of the series, whether or not these events of default or covenants are consistent with the events of default or covenants set forth in this prospectus and any change in the rights of the trustee or the requisite holders of the debt securities of the series to declare the principal amount of that series due and payable pursuant to the applicable indenture;
- o any special United States federal income tax considerations applicable to the debt securities of the series; and
- o any other terms of the debt securities of the series not inconsistent with the provisions of the applicable indenture.

6

The prospectus supplement relating to any series of subordinated debt securities being offered will also describe the subordination provisions applicable to that series, if different from the subordination provisions described in this prospectus. In addition, the prospectus supplement relating to a series of subordinated debt will describe our rights, if any, to defer payments of interest on the subordinated debt securities by extending the interest payment period.

Debt securities may be issued as original issue discount securities to be sold at a substantial discount below their principal amount. In the event of an acceleration of the maturity of any original issue discount security, the amount payable to the holder upon acceleration will be determined in the manner described in the applicable prospectus supplement. Special United States federal tax and other considerations applicable to original issue discount securities will be described in the applicable prospectus supplement. In addition, special United States federal tax considerations or other restrictions or terms applicable to any debt securities to be issued in bearer form, offered exclusively to non-United States holders or denominated in a currency other than United States dollars will be set forth in the applicable prospectus supplement.

The above is not intended to be an exclusive list of the terms that may be applicable to any debt securities and we are not limited in any respect in our ability to issue debt securities with terms different from or in addition to those described above or elsewhere in this prospectus, provided that the terms are not inconsistent with the applicable indenture. Any applicable prospectus supplement will also describe any special provisions for the payment of additional amounts with respect to the debt securities.

Subordination Provisions Relating to Subordinated Debt

Except as otherwise described in the applicable prospectus supplement relating to a series of subordinated debt securities, the subordinated debt securities will be issued under the subordinated debt securities indenture and will rank subordinated and junior in right of payment, to the extent set forth in the subordinated debt securities indenture, to all of our "senior indebtedness," which is defined below; if:

- o we default in the payment of any principal of, or premium, if any, or interest on any senior indebtedness when it becomes due and payable after any applicable grace period, and the default is continuing;
- o there is any other default in respect of our senior indebtedness which has occurred and is continuing which would permit the senior

Edgar Filing: TEREX CORP - Form 424B2

indebtedness to be accelerated;

- o there is any judicial proceeding pending regarding any default in respect of our senior indebtedness; and
- o the subordinated debt securities of the series are accelerated;

then, unless and until (i) the event of default is cured or waived or ceases to exist, (ii) any acceleration is rescinded or annulled, or (iii) any judicial proceeding is terminated, we cannot make any payment on account of or acquire the subordinated debt securities prior to the repayment in full of our outstanding senior indebtedness. Nevertheless, holders of subordinated debt securities may still receive and retain payments made:

- o from a trust of the type described in "--Discharge and Defeasance" below;
- o in our capital stock; or
- o in other securities which are payable no earlier than the final stated maturity date of the subordinated debt securities of the series, have terms no more restrictive than those of the subordinated debt securities of the series and are subordinated in right of payment to the senior indebtedness at least to the same extent as the subordinated debt securities of the series.

7

If there is any insolvency, bankruptcy, receivership, liquidation, reorganization, dissolution, winding up, assignment for the benefit of our creditors, marshalling of our assets and liabilities, or other similar proceeding, whether or not voluntary, relating to us, our creditors or our assets, then all senior indebtedness must be paid in full or otherwise provided for before any payment may be made to any holders of subordinated debt securities other than payments made:

- o from a trust of the type described in "--Discharge and Defeasance" below;
- o in our capital stock; or
- o in other securities which are payable no earlier than the final stated maturity date of the subordinated debt securities of the series, have terms no more restrictive than those of the subordinated debt securities of the series and are subordinated in right of payment to the senior indebtedness at least to the same extent as the subordinated debt securities of the series.

The subordinated debt securities indenture trustee and the holders of subordinated debt securities must return and deliver any payments of cash, property or securities received by them, other than any permitted payments described above, to the trustee or other paying agent for application to the payment of all senior indebtedness until all senior indebtedness is paid in full.

Unless otherwise specified with respect to a series of subordinated debt securities issued under the subordinated debt securities indenture, "senior indebtedness" under the subordinated debt securities indenture means the principal of, premium, if any, and interest on and any other amounts due on or in connection with any of the following indebtedness, incurred, assumed or guaranteed by us, whether or not outstanding on the date we issue any series of subordinated debt securities (including renewals, extensions and refundings of

Edgar Filing: TEREX CORP - Form 424B2

these obligations):

- o our obligations for borrowed money;
- o our obligations evidenced by bonds, debentures, notes or other similar instruments;
- o our capital lease obligations;
- o all obligations of the type referred to above of other persons secured by a lien on any of our assets, whether or not we have assumed those obligations; and
- o all obligations of the type referred to above of other persons for the payment of which we are responsible or liable as obligor or guarantor.

However, senior indebtedness does not include:

- o any indebtedness, including other series of debt securities issued under the subordinated debt securities indenture, created or evidenced by or outstanding pursuant to an instrument that expressly provides that the indebtedness is subordinated to any other indebtedness of ours, unless that indebtedness expressly provides that it will be senior to the subordinated debt securities of the series;
- o any indebtedness that by its terms states that it will not be senior in right of payment to the subordinated debt securities of the series; and
- o any indebtedness of ours to any of our affiliates or subsidiaries.

The subordinated debt securities indenture does not limit the amount of senior indebtedness that we may issue. We may issue senior subordinated debt securities under the subordinated debt securities indenture.

8

Form, Exchange, Registration and Transfer

The debt securities of a series may be issued as registered securities, as bearer securities (with or without coupons attached) or as both registered securities and bearer securities. Debt securities of a series may be issuable in whole or in part in the form of one or more global debt securities, as described below under "--Global Debt Securities." Unless otherwise indicated in an applicable prospectus supplement, registered securities will be issuable in denominations of \$1,000 and integral multiples thereof, and bearer securities will be issuable in denominations of \$5,000.

At the option of the holder, subject to the terms of the indentures and the limitations applicable to global securities described in the applicable prospectus supplement, the holder of the debt securities of any series can exchange the debt securities for other debt securities in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the indentures and the limitations applicable to global securities set forth in the applicable prospectus supplement, holders of the debt securities of any series may present the debt securities for exchange or for registration of transfer, duly endorsed or with the form of transfer endorsed thereon duly executed if so required by us or the security registrar, at the office of the security registrar or at the office of any transfer agent designated by us for this purpose. Unless otherwise provided in the debt securities of any series that the holder presents for transfer or exchange, we

Edgar Filing: TEREX CORP - Form 424B2

will make no service charge for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges.

In the event of any redemption of debt securities of any series, we will not be required to:

- o issue, register the transfer of or exchange debt securities of that series during a period beginning at the opening of business 15 days before any selection of debt securities of that series to be redeemed and ending at the close of business on the day of mailing of the relevant notice of redemption; or
- o register the transfer of, or exchange any debt securities of the series or portion thereof, called for redemption, except the unredeemed portion of any being redeemed in part.

Covenants

Except as permitted under "-- Mergers and Sales of Assets" and as otherwise specified in an applicable prospectus supplement, the indentures prohibit us from entering into a reorganization, restructuring, merger or similar transaction. All other covenants, if any, that will apply to a particular series of debt securities will be set forth in the indenture relating to such series of debt securities.

Payment and Paying Agents

Unless otherwise indicated in an applicable prospectus supplement, payment of principal of, premium, if any, and interest, if any, on debt securities of the series will be made at an office of the agency designated by us in accordance with the applicable indenture, except that at our option, payment of principal and premium, if any, or interest also may be made by check payable to payee and mailed to the address of payee as it appears in the debt securities registrar or by wire transfer to an account maintained by the payee. Unless otherwise indicated in an applicable prospectus supplement, payment of any installment of interest on debt securities of a series will be made to the person in whose name the debt security is registered at the close of business on the regular record date for the interest payment.

Global Debt Securities

The debt securities of a series may be issued in whole or in the form of one or more fully registered global securities. A debt security in global form will be deposited with, or on behalf of, a depository, which will be identified in an applicable prospectus supplement. Global debt securities are expected to be deposited with the

9

Depository Trust Company. A global debt security may be issued in either registered or bearer form and in either temporary or permanent form. Unless and until a debt security is exchanged in whole or in part for the individual debt security represented thereby, a debt security in global form may not be transferred except as a whole to the depository for the debt security or to a nominee or successor of the depository. If any debt securities of a series are issuable in global form, the applicable prospectus supplement will describe the circumstances, if any, under which beneficial owners of interests in a global debt security may exchange their interests for definitive debt securities of that series of like tenor and principal amount in any authorized form and denomination, the manner of payment of principal of, premium, if any, and interest, if any, on the global debt securities and the specific terms of the depository arrangement with respect to any global debt security.

Edgar Filing: TEREX CORP - Form 424B2

The specific terms of the depositary arrangement with respect to a series of debt securities will be described in the prospectus supplement relating to the series. We anticipate that the following provisions will generally apply to depositary arrangements.

Upon the issuance of a global security, the depositary will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by such global security to the accounts of institutions or persons, commonly known as participants, that have accounts with the depositary or its nominee. The accounts to be credited will be designated by the underwriters, dealers or agents. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold interests through participants. Ownership of interests in such global security will be shown on, and the transfer of those ownership interests will be effected only through, records maintained by the depositary (with respect to participants' interests) and such participants (with respect to the owners of beneficial interests in such global security). The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of the securities in definitive form. These limits and laws may impair the ability to transfer beneficial interests in a global security.

So long as the depositary, or its nominee, is the registered holder and owner of such global security, the depositary or such nominee, as the case may be, will be considered the sole owner and holder for all purposes of the debt securities and for all purposes under the applicable indenture. Except as set forth below or as otherwise provided in the applicable prospectus supplement, owners of beneficial interests in a global security will not be entitled to have the debt securities represented by such global security registered in their names, will not receive or be entitled to receive physical delivery of debt securities in definitive form and will not be considered to be the owners or holders of any debt securities under the applicable indenture or such global security. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of the depositary and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder of debt securities under the applicable indenture of such global security. We understand that under existing industry practice, in the event we request any action of holders of debt securities or if an owner of a beneficial interest in a global security desires to take any action that the depositary, as the holder of such global security is entitled to take, the depositary would authorize the participants to take such action, and that the participants would authorize beneficial owners owning through such participants to take such actions or would otherwise act upon the instructions of beneficial owners owning through them.

Payments of principal of and premium, if any, and interest, if any, on debt securities represented by a global security will be made to the depositary or its nominee, as the case may be, as the registered owner and holder of such global security, against surrender of the debt securities at the principal corporate trust office of the trustee. Interest payments will be made at the principal corporate trust office of the trustee or by a check mailed to the holder at its registered address. Payment in any other manner will be specified in the prospectus supplement.

We expect that the depositary, upon receipt of any payment of principal, premium, if any, of interest, if any, in respect of a global security, will credit immediately participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such global security as shown on the records of the depositary. We expect that payments by participants to owners of beneficial interests in a global security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers

Edgar Filing: TEREX CORP - Form 424B2

in bearer form or registered in 'street name,' and will be the responsibility of such participant. We are not responsible or liable (and neither is the trustee or our agent) for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in a global security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests or for any

10

other aspect of the relationship between the depository and its participants or the relationship between such participants and the owners of beneficial interests in such global security owning through such participants.

Unless and until it is exchanged in whole or in part for debt securities in definitive form, a global security may not be transferred except as a whole by the depository to a nominee of such depository or by a nominee of such depository to such depository or another nominee of such depository.

Unless otherwise provided in the applicable prospectus supplement, debt securities represented by a global security will be exchangeable for debt securities in definitive form of like tenor as such global security in denominations of \$1,000 and in any greater amount that is an integral multiple thereof if:

- o the depository notifies us and the trustee that it is unwilling or unable to continue as depository for such global security or if at any time the depository ceases to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within 90 days;
- o we, in our sole discretion, determine not to have all of the debt securities represented by a global security and notify the trustee thereof; or
- o there shall have occurred and be continuing an event of default or an event which, with the giving of notice or lapse of time, or both, would constitute an event of default with respect to the debt securities.

Any debt security that is exchangeable pursuant to the preceding sentence is exchangeable for debt securities registered in such names as the depository shall instruct the trustee. It is expected that such instructions may be based upon directions received by the depository from its participants with respect to ownership of beneficial interests in such global security. Subject to the foregoing, a global security is not exchangeable except for a global security or global securities of the same aggregate denominations to be registered in the name of the depository or its nominee.

Mergers and Sales of Assets

Each indenture provides that we may not consolidate with or merge into any other person or convey, transfer or lease our properties and assets substantially as an entirety to another person, unless, among other things:

- o we are the continuing corporation, or the resulting, surviving or transferee person (if other than us) is a corporation, partnership or trust organized and existing under the laws of the United States, any state thereof, or the District of Columbia, and that person expressly assumes all of our obligations under the applicable debt securities and the applicable indenture;
- o immediately after giving effect to the transaction, no event which is,

Edgar Filing: TEREX CORP - Form 424B2

or after notice or passage of time or both would be, an event of default (any such event, a "default") or event of default shall have occurred or be continuing under the applicable indenture; and

- o we deliver to the trustee an officers' certificate and an opinion of counsel to the effect that the consolidation, merger, conveyance, transfer or lease, as the case may be, complies with the indenture and that all conditions precedent provided in the indenture with respect to the transaction have been satisfied.

Upon the assumption of our obligations by a person to whom the properties or assets are conveyed or transferred, we will be discharged from all obligations under the applicable debt securities and the applicable indenture, except in the case of a lease of our properties and assets substantially as an entirety.

11

Events of Default

Each indenture provides that if an event of default occurs and is continuing with respect to a series of debt securities, the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of that series may declare the principal amount (or, if any of the debt securities of that series are original issue discount securities, that portion of the principal amount of the debt securities as may be specified by the terms thereof) of the debt securities of that series to be immediately due and payable. Under certain circumstances, the holders of a majority in aggregate principal amount of the outstanding debt securities of the series may rescind the declaration.

Under each indenture, unless otherwise specified with respect to a series of debt securities, the following events will constitute an event of default with respect to a series of debt securities:

- o default in payment of the principal of any debt security of the series or any required sinking fund payment;
- o default in payment of any interest or other amounts on any debt security of the series when due, continuing for 30 days;
- o with respect to each series of debt securities, failure to perform any other of our covenants applicable to that series, which failure continues for 60 days after written notice to us by the trustee or to us and the trustee by the holders of at least 25% in principal amount of the outstanding debt securities of that series specifying such failure, requiring it to be remedied and stating that such notice is a "Notice of Default";
- o specified events of bankruptcy or insolvency; and
- o any other event of default applicable to a series of debt securities as set forth in the applicable prospectus supplement.

The trustee will give notice to holders of the debt securities of any continuing default known to the trustee within 90 days after the occurrence of the default. However, the trustee may withhold notice of any default under the debt securities of a series, other than a payment default, if it determines that withholding the notice is in the interests of the holders.

The holders of a majority in principal amount of the outstanding debt securities of any series may direct the time, method and place of conducting any

Edgar Filing: TEREX CORP - Form 424B2

proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series so long as the direction does not conflict with any law or the indenture and subject to other limitations provided for in the applicable indenture. Before proceeding to exercise any right or power under the indenture at the direction of holders, the trustee will be entitled to receive from the holders reasonable security or indemnity satisfactory to it against the costs, expenses and liabilities which might be incurred by it in complying with the direction. With respect to each series of debt securities, no holder will have any right to pursue any remedy with respect to the applicable indenture or the debt securities, unless:

- o the holder has previously given the trustee written notice of a continuing event of default with respect to the debt securities of that series;
- o the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the series have made a written request to the trustee to pursue the remedy;
- o the holder or holders have offered to the trustee reasonable security or indemnity satisfactory to the trustee;

12

- o the holders of a majority in aggregate principal amount of the outstanding debt securities of the series have not given the trustee a direction inconsistent with the request within 60 days after receipt of the request; and
- o the trustee has failed to comply with the request within the 60-day period.

Notwithstanding the foregoing, the right of any holder of any debt security or coupon to receive payment of the principal of, premium, if any, and interest in respect of a debt security or payment of the coupon on the date specified for payment in the debt security or coupon representing the installment of interest (the "stated maturity" or "stated maturities") or to institute suit for the enforcement of payment may not be impaired or adversely affected without the holder's consent. The holders of at least a majority in aggregate principal amount of the outstanding debt securities of any series may waive an existing default with respect to that series and its consequences, other than (i) any default in any payment of the principal of, and premium, if any, or interest on, any debt security of the series, or (ii) any default in respect of the covenants or provisions in the applicable indenture which may not be modified without the consent of the holder of each outstanding debt security of the series affected as described in "-Modification and Waiver," below.

Each indenture provides for us to deliver to the trustee within 120 days after the end of each of our fiscal years an officers' certificate stating whether or not the signers know of any default that occurred during the last fiscal year.

Modification and Waiver

The indentures permit us and the applicable trustee to execute a supplemental indenture without the consent of the holders of the debt securities or any related coupons:

- o to evidence the succession of another corporation to us and the assumption by it of our obligations under the applicable indenture and the debt securities;

Edgar Filing: TEREX CORP - Form 424B2

- o to add to our covenants, agreements and obligations for the benefit of the holders of all the debt securities of any series or to surrender any right or power conferred in the applicable indenture upon us;
- o to provide that bearer securities may be registrable as to principal, to change or eliminate any restrictions (including restrictions relating to payment in the United States) on the payment of principal of and premium, if any, or interest, if any, on bearer securities, to permit bearer securities to be issued in exchange for registered securities, to permit bearer securities to be issued in exchange for bearer securities of other authorized denominations or to permit the issuance of debt securities in uncertificated form;
- o to establish the form or terms of debt securities of any series or coupons as permitted by the applicable indenture;
- o to provide for the acceptance of appointment under the applicable indenture of a successor trustee with respect to the debt securities of one or more series and to add to or change any provisions of that indenture as shall be necessary to provide for or facilitate the administration of the trusts by more than one trustee;
- o to cure any ambiguity, defect or inconsistency;
- o to add to, change or eliminate any provisions (which addition, change or elimination may apply to one or more series of debt securities), provided that the addition, change or elimination neither (a) applies to any debt security of any series that was created prior to the execution of the supplemental indenture and is entitled to the benefit of that provision nor (b) modifies the rights of the holder of any such debt security with respect to that provision;

13

- o to add events of default for the benefit of all or any series of debt securities;
- o to secure the debt securities; or
- o to make any other change that does not adversely affect the rights of any holder of the debt securities.

Each indenture also permits us and the applicable trustee, with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of the series affected by the supplemental indenture, to execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the indenture with respect to that series of debt securities or modify in any manner the rights of the holders of the debt securities of that series and any related coupons under the applicable indenture. However, the supplemental indenture will not, without the consent of the holder of each outstanding debt security affected thereby:

- o change the stated maturity of the principal of, or any installment of principal or interest on, the debt securities or any premium payable upon redemption thereof;
- o reduce the amount of principal of any original issue discount securities that would be due and payable upon declaration of acceleration of maturity thereof;
- o reduce the principal amount of, or premium, if any, or the rate of

Edgar Filing: TEREX CORP - Form 424B2

interest on, the debt securities;

- o change the place or currency of payment of principal and premium, if any, or interest, if any, on the debt securities;
- o impair the right to institute suit for the enforcement of any payment on or with respect to the debt securities;
- o reduce the percentage of the outstanding debt securities of any series necessary to modify or amend the indenture;
- o modify the foregoing requirements or reduce the percentage in principal amount of outstanding debt securities of any series necessary to waive any covenant or past default; or
- o in the case of subordinated debt securities, amend or modify any of the provisions of the applicable indenture relating to subordination of the debt securities in any manner adverse to the holders of the debt securities.

Holders of not less than a majority of the principal amount of the outstanding debt securities of any series may waive certain past defaults and may waive compliance by us with certain of the restrictive covenants described above with respect to the debt securities of that series.

Discharge and Defeasance

Unless otherwise indicated in an applicable prospectus supplement, each indenture provides that we may satisfy and discharge obligations thereunder with respect to the debt securities of any series by delivering to the trustee for cancellation all outstanding debt securities of the series or depositing with the trustee, after the outstanding debt securities have become due and payable, or will become due and payable within one year or will be called for redemption within one year, cash sufficient to pay at stated maturity or redemption all of the outstanding debt securities of the series and all other sums payable under the indenture with respect to the series.

In addition, unless otherwise indicated in an applicable prospectus supplement, each indenture provides that we may:

14

- o be discharged from our obligations in respect of the debt securities of a series ("defeasance and discharge"); or
- o cease to comply with specified restrictive covenants ("covenant defeasance"), including those described under "-Mergers and Sales of Assets";

and the omission will not be an event of default with respect to the debt securities of that series, in each case at any time prior to the stated maturity or redemption thereof, if we irrevocably deposit with the trustee, in trust:

- o sufficient funds in the currency or currency unit in which the debt securities are denominated to pay the principal of, premium, if any, and interest to stated maturity or redemption on, the debt securities of that series; or
- o that amount of direct obligations of, or obligations of the principal of, premium, if any, and interest on which are fully guaranteed by, the government which issued the currency in which the debt securities are denominated, and which are not subject to prepayment, redemption

Edgar Filing: TEREX CORP - Form 424B2

or call, as will, together with the predetermined and certain income to accrue thereon without consideration of any reinvestment thereof, be sufficient to pay when due the principal of, premium, if any, and interest to stated maturity or redemption on, the debt securities of that series.

The defeasance and discharge and covenant defeasance described above are effective only if, among other things, we deliver an opinion of counsel to the effect that (i) we have met all of the conditions precedent to the defeasance and the holders of the debt securities of the series will not recognize income, gain or loss for United States federal income tax purposes as a result of the defeasance, and will be subject to tax in the same manner as if no defeasance had occurred and (ii) in the case of defeasance and discharge, the opinion as to tax consequences is based upon an Internal Revenue Service ruling or a change in applicable federal income tax law.

Upon the defeasance and discharge, the holders of the debt securities of the series will no longer be entitled to the benefits of the applicable indenture, except for the purposes of registration of transfer and exchange of the debt securities of the series and replacement of lost, stolen or mutilated debt securities and may look only to the deposited funds or obligations for payment.

The Trustees under the Indentures

The trustees under the indentures, and/or one or more of their respective affiliates, may be lenders under our credit agreements and may provide other commercial banking, investment banking and other services to us and/or our subsidiaries and affiliates. Each trustee will be permitted to engage in other transactions with us and/or our subsidiaries and affiliates. However, if any trustee acquires any conflicting interest, as defined in the Trust Indenture Act, it must eliminate the conflict or resign.

The trustees will perform only those duties that are specifically set forth in the indentures, unless an event of default occurs and is continuing. In case an event of default occurs and is continuing, a trustee will exercise the same degree of care and skill as a prudent individual would exercise in the conduct of his or her own affairs.

Applicable Law

The debt securities and the indentures will be governed by and construed in accordance with the laws of the State of New York, except to the extent that the Trust Indenture Act is applicable.

Conversion or Exchange

If and to the extent indicated in the applicable prospectus supplement, the debt securities of any series may be convertible or exchangeable into other securities, the specific terms on which debt securities of any series may be so converted or exchanged will be set forth in the applicable prospectus supplement. These terms may include provisions for conversion or exchange, either mandatory, at the option of the holder, or at our option, in which case

15

the number of shares of other securities to be received by the holders of debt securities would be calculated as of a time and in the manner stated in the applicable prospectus supplement.

DESCRIPTION OF CAPITAL STOCK

Edgar Filing: TEREX CORP - Form 424B2

The following description of our common stock and preferred stock, together with the additional information we include in any applicable prospectus supplements, summarizes the material terms and provisions of the common stock and preferred stock that we may offer under this prospectus. For the complete terms of our common stock and preferred stock, please refer to our restated certificate of incorporation and amended and restated bylaws that are incorporated by reference into the registration statement which includes this prospectus. The General Corporation Law of Delaware may also affect the terms of these securities. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer, we will describe the particular terms of any series of these securities in more detail in the applicable prospectus supplement. If we indicate in a prospectus supplement, the terms of any common stock or preferred stock we offer under that prospectus supplement may differ from the terms we describe below.

Under our restated certificate of incorporation our authorized capital stock consists of 150,000,000 shares of common stock, \$0.01 par value per share, and 50,000,000 shares of preferred stock, \$0.01 par value per share. As of December 10, 2001, we had 36,325,414 shares of common stock outstanding and no shares of preferred stock outstanding. All outstanding shares of common stock are duly authorized, validly issued, fully paid and nonassessable.

Common Stock

Each outstanding share of our common stock entitles the holder to one vote, either in person or by proxy, on all matters submitted to a vote of stockholders, including the election of directors. There is no cumulative voting in the election of directors, which means that the holders of a majority of the outstanding shares of common stock can elect all of the directors then standing for election. Subject to preferences which may be applicable to any outstanding shares of preferred stock, holders of common stock have equal ratable rights to any dividends that may be declared by the board of directors out of legally available funds.

Holders of common stock have no conversion, redemption or preemptive rights to subscribe for any of our securities. All outstanding shares of common stock are fully paid and nonassessable. In the event of any liquidation, dissolution or winding-up of our affairs, holders of common stock will be entitled to share ratably in our assets remaining after provision for payment of liabilities to creditors and preferences applicable to outstanding shares of preferred stock. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of any outstanding shares of preferred stock.

Our restated certificate of incorporation provides that directors shall not be personally liable to us or our stockholders for monetary damages for breach of fiduciary duties as a director except to the extent otherwise required by Delaware law. Our amended and restated bylaws provide for indemnification of our officers and directors to the fullest extent permitted by Delaware law.

Our amended and restated bylaws provide that our stockholders must provide prior notice for nominations for election to the board of directors or for proposing matters which can be acted upon at a stockholders meeting. This provision could be considered an "anti-takeover" provision.

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company.

Preferred Stock

General

Our board of directors is authorized to issue shares of preferred stock

Edgar Filing: TEREX CORP - Form 424B2

from time to time up to an aggregate of 50,000,000 shares of our preferred stock, in one or more series or classes, and to fix for each series voting powers

16

and those preferences and relative participating, optional or other special rights and those qualifications, limitations or restrictions as are permitted by the Delaware General Corporation Law.

Our board of directors is authorized to determine the terms for each series of preferred stock, and the prospectus supplement will describe the terms of any series of preferred stock being offered, including:

- o the designation of the shares and the number of shares that constitute the series;
- o the dividend rate (or the method of calculation thereof), if any, on the shares of the series and the priority as to payment of dividends with respect to other classes or series of our capital stock and the payment date of dividends;
- o the dividend periods (or the method of calculation thereof);
- o the date from which dividends on the preferred stock shall accumulate, if applicable;
- o the voting rights of the shares;
- o the liquidation preference and the priority as to payment of the liquidation preference with respect to other classes or series of our capital stock and any other rights of the shares of the series upon our liquidation or winding-up;
- o whether the preferred stock will rank senior or junior to or on a parity with any other class or series of preferred stock;
- o whether or not and on what terms the shares of the series will be subject to redemption or repurchase at our option;
- o whether and on what terms the shares of the series will be convertible into or exchangeable for other securities;
- o the provision of a sinking fund, if any, for the preferred stock;
- o whether the shares of the series of preferred stock will be listed on a securities exchange;
- o any special United States federal income tax considerations applicable to the series; and
- o the other rights and privileges and any qualifications, limitations or restrictions of the rights or privileges of the series.

Dividends

Holders of shares of preferred stock shall be entitled to receive, when and as declared by our board of directors out of our funds legally available therefor, an annual cash dividend payable at the dates and at the rates, if any, per share per annum as set forth in the applicable prospectus supplement.

Unless otherwise set forth in the applicable prospectus supplement, each

Edgar Filing: TEREX CORP - Form 424B2

series of preferred stock will rank junior as to dividends to any preferred stock that may be issued in the future that is expressly senior as to dividends to that preferred stock. If we should fail at any time to pay accrued dividends on any senior shares at the time the dividends are payable, we may not pay any dividend on the junior preferred stock or redeem or otherwise repurchase shares of junior preferred stock until the accumulated but unpaid dividends on the senior shares have been paid or set aside for payment in full by us.

17

Unless otherwise set forth in the applicable prospectus supplement, no dividends (other than in common stock or other capital stock ranking junior to the preferred stock of any series as to dividends and upon liquidation) may be declared or paid or set aside for payment, nor may any other distribution be declared or made upon the common stock, or any of our other capital stock ranking junior to or on a parity with the preferred stock of that series as to dividends, nor may any common stock or any of our other capital stock ranking junior to or on a parity with the preferred stock of that series as to dividends be redeemed, purchased or otherwise acquired for any consideration (or any moneys be paid to or made available for a sinking fund for the redemption of any shares of any of that stock) by us (except by conversion into or exchange for other capital stock of ours ranking junior to the preferred stock of that series as to dividends) unless:

- o if that series of preferred stock has a cumulative dividend, full cumulative dividends on the preferred stock of that series have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof set apart for all past dividend periods and the then current dividend period; and
- o if such series of preferred stock does not have a cumulative dividend, full dividends on the preferred stock of such series have been or contemporaneously are declared and paid or declared and a sum sufficient for the payment thereof set apart for payment for the then current dividend period.

However, any monies deposited in any sinking fund with respect to any preferred stock in compliance with the provisions of the sinking fund may be applied to the purchase or redemption of that preferred stock in accordance with the terms of the sinking fund, regardless of whether at the time of the application full dividends, including cumulative dividends, upon shares of the preferred stock outstanding on the last dividend payment date have been paid or declared and set apart for payment. In addition, any junior or parity preferred stock or common stock may be converted into or exchanged for our stock ranking junior to the preferred stock as to dividends.

The amount of dividends payable for the initial dividend period or any period shorter than a full dividend period shall be computed on the basis of a 360-day year of twelve 30-day months, unless otherwise set forth in the applicable prospectus supplement. Accrued but unpaid dividends will not bear interest, unless otherwise set forth in the applicable prospectus supplement.

Redemption

All shares of any series of preferred stock will be redeemable to the extent set forth in the prospectus supplement relating to the series. All shares of any series of preferred stock will be convertible into shares of common stock or into shares of any other series of preferred stock to the extent set forth in the applicable prospectus supplement.

Liquidation Rights

Edgar Filing: TEREX CORP - Form 424B2

Unless otherwise set forth in the applicable prospectus supplement, in the event of our liquidation, dissolution or winding up, the holders of shares of each series of preferred stock are entitled to receive out of our assets available for distribution to stockholders, before any distribution of assets is made to holders of (i) any other shares of preferred stock ranking junior to that series of preferred stock as to rights upon liquidation, dissolution or winding up and (ii) shares of common stock, liquidating distributions per share in the amount of the liquidation preference specified in the applicable prospectus supplement for that series of preferred stock plus any dividends accrued and accumulated but unpaid to the date of final distribution. However, the holders of each series of preferred stock will not be entitled to receive the liquidating distribution of, plus such dividends on, those shares until the liquidation preference of any shares of our capital stock ranking senior to that series of the preferred stock as to the rights upon liquidation, dissolution or winding up shall have been paid (or a sum set aside therefor sufficient to provide for payment) in full.

If upon our liquidation, dissolution or winding up, the amounts payable with respect to the preferred stock, and any other preferred stock ranking as to any distribution on a parity with the preferred stock are not paid in full,

18

then the holders of the preferred stock and the other parity preferred stock will share ratably in any distribution of assets in proportion to the full respective preferential amount to which they are entitled. Unless otherwise specified in a prospectus supplement for a series of preferred stock, after payment of the full amount of the liquidating distribution to which they are entitled, the holders of shares of preferred stock will not be entitled to any further participation in any distribution of our assets. Neither a consolidation or merger of us with another corporation nor a sale of securities shall be considered a liquidation, dissolution or winding up of us.

Voting Rights

The holders of each series or class of preferred stock we may issue will have no voting rights, except as required by law and as described below or in the applicable prospectus supplement. Our board of directors may, upon issuance of a series or class of preferred stock, grant voting rights to the holders of that series or class to elect additional board members if we fail to pay dividends in a timely fashion.

Without the affirmative vote of a majority of the shares of any class of preferred stock then outstanding, we may not:

- o increase or decrease the aggregate number of authorized shares of that class;
- o increase or decrease the par value of the shares of that class; or
- o alter or change the powers, preferences or special rights of the shares of that class so as to affect them adversely.

If the amendment would adversely alter or change the powers, preferences or special rights of one or more series of a class of preferred stock, but not the entire class, then only the shares of the affected series will have the right to vote on the amendment.

Miscellaneous

The holders of our preferred stock will have no preemptive rights. All shares of preferred stock being offered by the applicable prospectus supplement

Edgar Filing: TEREX CORP - Form 424B2

will be fully paid and not liable to further calls or assessment by us. If we should redeem or otherwise reacquire shares of our preferred stock, then these shares will resume the status of authorized and unissued shares of preferred stock undesignated as to series, and will be available for subsequent issuance. There are no restrictions on repurchase or redemption of the preferred stock while there is any arrearage on sinking fund installments except as may be set forth in an applicable prospectus supplement. Payment of dividends on any series of preferred stock may be restricted by loan agreements, indentures and other transactions entered into by us. Any material contractual restrictions on dividend payments will be described or incorporated by reference in the applicable prospectus supplement.

When we offer to sell a series of preferred stock, we will describe the specific terms of the series in the applicable prospectus supplement. If any particular terms of a series of preferred stock described in a prospectus supplement differ from any of the terms described in this prospectus, then the terms described in the applicable prospectus supplement will be deemed to supersede the terms described in this prospectus.

No Other Rights

The shares of a series of preferred stock will not have any preferences, voting powers or relative, participating, optional or other special rights except as set forth above or in the applicable prospectus supplement, our charter or the applicable certificate of designation or as otherwise required by law.

Transfer Agent

The transfer agent and registrar for each series of preferred stock will be designated in the applicable prospectus supplement.

19

DESCRIPTION OF WARRANTS

We may issue, either separately or together with other securities, warrants for the purchase of any of the other types of securities that we may sell under this prospectus.

The warrants will be issued under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all to be set forth in the applicable prospectus supplement relating to any or all warrants in respect of which this prospectus is being delivered. Copies of the form of agreement for each warrant, which we refer to collectively as "warrant agreements," including the forms of certificates representing the warrants, which we refer to collectively as "warrant certificates" and reflecting the provisions to be included in such agreements that will be entered into with respect to the particular offerings of each type of warrant, have been or will be filed as exhibits to the registration statement of which this prospectus forms a part or as exhibits to documents which have been or will be incorporated by reference in this prospectus.

The following description sets forth certain general terms and provisions of the warrants to which any prospectus supplement may relate. The particular terms of the warrants to which any prospectus supplement may relate and the extent, if any, to which the general provisions may apply to the warrants so offered will be described in the applicable prospectus supplement. The following summary of certain provisions of the warrants, warrant agreements and warrant certificates does not purport to be complete and is subject to, and is qualified in its entirety by express reference to, all the provisions of the warrant agreements and warrant certificates, including the definitions therein of

Edgar Filing: TEREX CORP - Form 424B2

certain terms.

General

The prospectus supplement shall set forth the terms of the warrants in respect of which this prospectus is being delivered as well as the related warrant agreement and warrant certificates, including the following, where applicable:

- o the principal amount of, or the number of securities, as the case may be, purchasable upon exercise of each warrant and the initial price at which the principal amount or number of securities, as the case may be, may be purchased upon such exercise;

- o the designation and terms of the securities, if other than common stock, purchasable upon exercise thereof and of any securities, if other than common stock, with which the warrants are issued;

- o the procedures and conditions relating to the exercise of the warrants;

- o the date, if any, on and after which the warrants, and any securities with which the warrants are issued, will be separately transferable;

- o the offering price of the warrants, if any;

- o the date on which the right to exercise the warrants will commence and the date on which that right will expire;

- o a discussion of any material United States federal income tax considerations applicable to the exercise of the warrants;

- o whether the warrants represented by the warrant certificates will be issued in registered or bearer form, and, if registered, where they may be transferred and registered;

- o call provisions of the warrants, if any;

- o antidilution provisions of the warrants, if any; and

20

- o any other material terms of the warrants.

Exercise of Warrants

Each warrant will entitle the holder to purchase for cash that principal amount of or number of securities, as the case may be, at the exercise price set forth in, or to be determined as set forth in, the applicable prospectus supplement relating to the warrants. Unless otherwise specified in the applicable prospectus supplement, warrants may be exercised at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement at any time up to 5:00 p.m. New York City time on the expiration date set forth in the applicable prospectus supplement. After 5:00 p.m. New York City time on the expiration date, unexercised warrants will become void. Upon receipt of payment and the warrant certificate properly completed and duly executed, we will, as soon as practicable, issue the securities purchasable upon exercise of the warrant. If less than all of the warrants represented by the warrant certificate are exercised, a new warrant certificate will be issued for the remaining amount of warrants.

No Rights of Security Holder Prior to Exercise

Edgar Filing: TEREX CORP - Form 424B2

Prior to the exercise of their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon their exercise of the warrants, and will not be entitled to:

- o in the case of warrants to purchase debt securities, payments of principal of, premium, if any, or interest, if any, on the debt securities purchasable upon exercise; or

- o in the case of warrants to purchase equity securities, the right to vote or to receive dividend payments or similar distributions on the securities purchasable upon exercise.

Exchange of Warrant Certificates

Warrant certificates will be exchangeable for new warrant certificates of different denominations at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement.

DESCRIPTION OF RIGHTS

We may issue rights for the purchase of shares of preferred stock or common stock. Each series of rights will be issued under a separate rights agreement between us and a bank or trust company, all as set forth in the prospectus supplement relating to the particular issue of rights. The bank or trust company will act solely as our agent in connection with the certificates relating to the rights and will not assume any obligation or relationship of agency or trust for or with any holders of rights certificates or beneficial owners of rights. The rights agreement and the rights certificates relating to each series of rights have been or will be filed as exhibits to the registration statement of which this prospectus forms a part or as exhibits to documents which have been or will be incorporated by reference in this prospectus.

The applicable prospectus supplement will describe the terms of the rights to be issued, including the following where applicable:

- o the date for determining the stockholders entitled to the rights distribution;
- o the aggregate number of shares of preferred stock or common stock purchasable upon exercise of such rights and the exercise price;
- o the aggregate number of rights being issued;
- o the date, if any, on and after which such rights may be transferable separately;

21

- o the date on which the right to exercise such rights shall commence and the date on which such right shall expire;
- o any special United States federal income tax consequences; and
- o any other terms of such rights, including terms, procedures and limitations relating to the distribution, exchange and exercise of such rights.

DESCRIPTION OF PURCHASE CONTRACTS

We may issue, from time to time, purchase contracts, including contracts obligating holders to purchase from us and us to sell to the holders, a specified principal amount of debt securities or a specified number of shares of

Edgar Filing: TEREX CORP - Form 424B2

common stock or preferred stock or any of the other securities that we may sell under this prospectus at a future date or dates. The consideration payable upon settlement of the purchase contracts may be fixed at the time the purchase contracts are issued or may be determined by a specific reference to a formula set forth in the purchase contracts. The purchase contracts may be issued separately or as part of units consisting of a purchase contract and other securities or obligations issued by us or third parties, including United States treasury securities, securing the holders' obligations to purchase the relevant securities under the purchase contracts. The purchase contracts may require us to make periodic payments to the holders of the purchase contracts or units or vice versa, and the payments may be unsecured or prefunded on some basis. The purchase contracts may require holders to secure their obligations under the purchase contracts.

The prospectus supplement will describe the terms of any purchase contracts. The description in the prospectus supplement will not necessarily be complete and will be qualified in its entirety by reference to the purchase contracts, and, if applicable, collateral arrangements and depositary arrangements, relating to the purchase contracts.

DESCRIPTION OF UNITS

We may, from time to time, issue units comprised of one or more of the other securities that may be offered under this prospectus, in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time, or at any time before a specified date.

Any applicable prospectus supplement will describe:

- o the material terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- o any material provisions relating to the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and
- o any material provisions of the governing unit agreement that differ from those described above.

PLAN OF DISTRIBUTION

We may sell the debt securities, preferred stock, common stock, warrants, rights, purchase contracts or units (together referred to as the "offered securities") through underwriters or dealers, directly to one or more purchasers or investors, through agents, or through a combination of these methods.

This prospectus or the applicable prospectus supplement will set forth the terms of the offering of any offered securities, including:

- o the name or names of any underwriters, dealers or agents;

22

- o the price of the offered securities and the net proceeds to us from such sale;
- o any over-allotment options under which underwriters may purchase

Edgar Filing: TEREX CORP - Form 424B2

additional securities from us;

- o any underwriting commissions or other items constituting underwriters' compensation;
- o any initial public offering price; and
- o any securities exchanges on which such securities may be listed.

If underwriters are used in the sale, the offered securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The offered securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more investment banking firms or others, as designated. Unless otherwise set forth in the applicable prospectus supplement, the obligations of the underwriters or agents to purchase the offered securities will be subject to certain conditions precedent and the underwriters will be obligated to purchase all the offered securities if any are purchased. Any initial public offering price and any underwriting commissions or other items constituting underwriters' compensation may be changed from time to time.

If a dealer is utilized in the sale of any offered securities, we will sell those offered securities to the dealer, as principal. The dealer may then resell the offered securities to the public at varying prices to be determined by the dealer at the time of resale.

We may sell offered securities directly to one or more purchasers or investors, or through agents at a fixed price or prices, which may be changed, or at varying prices determined at time of sale. Unless otherwise indicated in the prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment.

If an applicable prospectus supplement indicates, we will authorize agents, underwriters or dealers to solicit offers by certain specified institutions to purchase offered securities from us at the public offering price set forth in the prospectus supplement under delayed delivery contracts providing for payment and delivery on a specified date in the future. These contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth the commission payable for solicitation of the contracts.

Under agreements entered into with us, agents and underwriters who participate in the distribution of the offered securities may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribution with respect to payments which the agents or underwriters may be required to make. Agents and underwriters may be customers of, engage in transactions with or perform services for us in the ordinary course of business.

LEGAL MATTERS

The validity of the securities offered by this prospectus will be passed upon by Robinson Silverman Pearce Aronsohn & Berman LLP, 1290 Avenue of the Americas, New York, New York 10104.

EXPERTS

The consolidated financial statements of Terex Corporation and PPM Cranes, Inc. as of December 31, 2000 and 1999 and for each of the three years in the period ended December 31, 2000 incorporated in this prospectus by reference to

Edgar Filing: TEREX CORP - Form 424B2

the Annual Report on Form 10-K of Terex Corporation for the year ended December 31, 2000 have been so incorporated in reliance on the reports of PricewaterhouseCoopers LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

23

WHERE YOU CAN FIND MORE INFORMATION

We are a reporting company and file annual, quarterly and special reports, proxy statements and other information with the Securities and Exchange Commission, or the SEC. You may read and copy such material at the Public Reference Room maintained by the SEC at 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for more information on the operation of the Public Reference Room. You can also find our SEC filings at the SEC's web site at <http://www.sec.gov>. In addition, you may inspect our SEC filings at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to "incorporate by reference" information that we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus, and information that we file later with the SEC will automatically update and supersede this information. We incorporate by reference the documents listed below and any future filings we will make with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934:

1. Annual Report on Form 10-K for the year ended December 31, 2000;
2. Quarterly Report on Form 10-Q for the calendar quarter ended March 31, 2001;
3. Quarterly Report on Form 10-Q for the calendar quarter ended June 30, 2001;
4. Quarterly Report on Form 10-Q for the calendar quarter ended September 30, 2001;
5. The Company's Notice of Annual Meeting of Stockholders and Proxy Statement dated April 2, 2001;
6. Current Report on Form 8-K dated March 14, 2001 and filed with the Securities and Exchange Commission on March 15, 2001;
7. Current Report on Form 8-K dated March 22, 2001 and filed with the Securities and Exchange Commission on March 23, 2001;
8. Current Report on Form 8-K dated June 27, 2001 and filed with the Securities and Exchange Commission on June 28, 2001;
9. Current Report on Form 8-K dated October 1, 2001 and filed with the Securities and Exchange Commission on October 2, 2001;
10. Current Report on Form 8-K dated December 5, 2001 and filed with the Securities and Exchange Commission on December 6, 2001;
11. Current Report on Form 8-K dated December 10, 2001 and filed with the Securities and Exchange Commission on December 11, 2001;

Edgar Filing: TEREX CORP - Form 424B2

12. Current Report on Form 8-K dated December 19, 2001 and filed with the Securities and Exchange Commission on December 19, 2001; and
13. The description of the Common Stock contained in the Company's Registration Statement on Form 8-A dated February 22, 1991, including any amendment or report filed with the Commission for the purpose of updating such description.

This prospectus is part of a registration statement we have filed with the SEC relating to the securities. As permitted by SEC rules, this prospectus does not contain all of the information included in the registration statement

24

and the accompanying exhibits and schedules we file with the SEC. You may refer to the registration statement and the exhibits and schedules for more information about us and our securities. The registration statement and exhibits and schedules are also available at the SEC's Public Reference Room or through its web site.
