BRAVO! FOODS INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Note 1 - Interim Periods

The accompanying unaudited consolidated financial statements include the accounts of Bravo! Foods International, Corp. and its wholly owned Chinese subsidiary China Premium Foods (Shanghai) Co., Ltd. (the "Company"). The Company is engaged in the sale of flavored milk products and flavor ingredients in the United States, Canada and Mexico and the co-production, marketing and distribution of branded dairy and snack food products in the People's Republic of China.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10QSB and Article 10 of Regulation S-X. All significant inter-company accounts and transactions have been eliminated in consolidation. The consolidated financial statements are presented in U.S. dollars. Accordingly, the accompanying financial statements do not include all the information and

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for fair presentation have been included. Operating results for the three or six month period ended June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report for the year ended December 31, 2002.

As shown in the accompanying consolidated financial statements, the Company has suffered operating losses and negative cash flow from operations since inception and has an accumulated deficit of \$27,507,581, a capital deficit of \$2,011,861, negative working capital of \$1,725,247 and is delinquent on certain of its debts at June 30, 2003. Further, the Company's auditors stated in their report on the Company's Consolidated Financial Statements for the year ended December 31, 2002, that these conditions raise substantial doubt about the Company's ability to continue as a going concern. Management plans to improve gross profit margins in its U.S. and China operations and obtain additional financing. While there is no assurance that funding will be available or that the Company will be able to improve its profit margins, the Company is continuing to actively seek equity and/or debt financing. No assurances can be given that the Company will be successful in carrying out its plans. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Revenue Recognition

The Company sells flavor ingredients and production rights (collectively referred to as "kits") to processor dairies in the U.S., China, Canada and Mexico and also sells flavored milk products in the U.S. Revenue is recognized when the goods are shipped, and title and the risk and reward of ownership have been passed to the customer and possible return of goods can be reasonably estimated. The criteria to meet this guideline are: 1) persuasive evidence of an arrangement exists, 2) delivery has occurred or services have been rendered, 3) the price to the buyer is fixed or determinable and 4) collectibility is reasonably assured.

The Company follows the final consensus reached by the Emerging Issues Task Force (EITF) 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent". Pursuant to EITF 99-19, sales of kits made directly to customers by the Company are reflected in the statement of operations on a gross basis, whereby the total amount billed to the customer is recognized as revenue. Sales of kits made through intermediaries, in which the Company's role is similar to that of an agent, are reflected on a net basis, which represents the amount earned by the Company in the transaction.

F-5

BRAVO! FOODS INTERNATIONAL CORP. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In May 2002, the Company entered into a program with two processor dairies pursuant to which the Company sells flavored milk products to retail stores (referred to as "unit sales"). The Company benefits from the difference between the prices charged by processor dairies to produce the product for the Company and the price paid by retail stores to purchase the product. The Company bears the responsibility for paying food brokers fees,

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

transportation and delivery expenses. The Company recognizes revenue on the net basis and recognizes the aforementioned expenses as selling expenses. Expenses for samples, slotting fees and certain promotions are treated as a reduction of reported revenue.

Stock-based Compensation

The Company has adopted the intrinsic value method of accounting for employee stock options as permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation" (SFAS No. 123) and discloses the pro forma effect on net loss and loss per share as if the fair value based method had been applied. For equity instruments, including stock options, issued to non-employees, the fair value of the equity instruments or the fair value of the consideration received, whichever is more readily determinable, is used to determine the value of services or goods received and the corresponding charge to operations.

The following table illustrates the effect on net loss and loss per share as if the Company had applied the fair value recognition provision of SFAS No. 123 to stock-based employee compensation.

	Six Months Ended June 30,

Note 2 - Capital Deficit

On January 2, 2003, the Company issued 100,000 shares of common stock to an employee. This common stock will be issued under a Form S-8 registration statement to be filed in the third quarter of 2003. In January 2003, the Company recorded \$28,000 of compensation expense based upon a signing bonus for this grant.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

On January 2, 2003 the Company granted options for 100,000 shares of common stock to Mr. Toulan pursuant to an employment contract. These

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

options vested immediately, expire on December 30, 2007 and have an exercise price of \$0.40 per share.

Further, the Company granted options for 200,000 shares of common stock to Mr. Toulan pursuant to an employment contract. These options have an exercise price of \$0.40 per share. Options for 100,000 shares vest on each of December 31, 2003 and 2004, and expire on each of December 30, 2008 and December 30, 2009, respectively.

On February 4, 2003, the Company issued 30,000 shares of common stock to Keshet, LP, upon the conversion of 480 shares of Series G Convertible Preferred stock.

On February 21, 2002, the Company issued 50,000 shares of non-voting Series J 8% Convertible Preferred stock, having a stated value of \$10.00 per Preferred J share, and common stock warrants to Mid-Am Capital, L.L.C. ("Mid-AM") for the aggregate purchase price of \$500,000. Each preferred share is convertible to 40 shares of the Company's common stock at a per common share conversion price of \$0.25, representing 2,000,000 shares of common stock underlying the preferred. The issued warrants entitle the holder to purchase 33.33 shares of common stock for each share of Series J Convertible Preferred stock issued at an exercise price of \$0.30 per common stock share, representing 1,666,667 shares of common stock underlying the warrants. The warrants are exercisable for a five-year period. The February 21, 2003 closing market trading price was \$0.23 per share. This private offering was made to Mid-Am, an accredited investor, pursuant to Rule 506 of Regulation D and Section 4(2) of the Securities Act of 1933. In accordance with EITF 00-27, the Company recorded a deemed dividend of \$274,720 related to a beneficial conversion feature.

On April 14, 2003, the Company issued 50,000 shares of common stock to Keshet, LP, upon the conversion of 596 shares of Series G Convertible Preferred, at a conversion price of \$0.148. The conversion included accrued and unpaid dividends on the preferred converted.

On April 22, 2003, the Company issued 50,000 shares of common stock to The Keshet Fund, LP, upon the conversion of 595 shares of Series G Convertible Preferred, at a conversion price of \$0.148. The conversion included accrued and unpaid dividends on the preferred converted.

On May 22, 2003, the Company issued 100,000 shares of common stock to Keshet, LP, upon the conversion of 607 shares of Series G Convertible Preferred, at a conversion price of \$0.076. The conversion included accrued and unpaid dividends on the preferred converted.

\$0.20, representing 2,500,000 shares of common stock underlying the preferred. The issued warrants entitle the holder to purchase 40 shares of common stock for each share of Series J Convertible Preferred stock issued at an exercise price of \$0.25 per common stock share, representing 2,000,000 shares of common stock underlying the warrants. The warrants are exercisable for a five-year period. The May 22, 2003 closing market trading price was \$0.12 per share. In addition, the following adjustments were made to prior issued Warrants for the purpose of facilitating future fund raising by the Company arising out of the exercise of the Warrants by Holder. The Purchase Price, as defined in the Warrants No. 1 and 2, has been reduced to \$0.25, subject to further adjustment as described in the Warrants. The Warrant Stock provided for in Warrant No.1 has been increased by 1,500,000 shares. The Warrant Stock provided for in Warrant No. 2 has been increased by 333,333 shares. The Expiration Date, as defined in the respective Warrants, remains as stated (see page 23 for explanation). The trading price Call Option trigger set forth in Section 9 (b) of the Warrants has been reduced from \$1.75 to \$0.75 per share. This private offering was made to Mid-Am, an accredited investor, pursuant to Rule 506 of Regulation D and Section 4(2) of the Securities Act of 1933. The value of the warrants, \$92,491, was determined using the Black-Scholes model.

Note 3 - Adoption of New Accounting Standards

In November 2002, the FASB issued Interpretation No. 45 ("FIN No. 45"), "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN No. 45 expands on the accounting guidance of Statements No. 5, 57, and 107 and incorporates without change the provisions of FASB Interpretation No. 34, which is being superseded. FIN No. 45 will affect leasing transactions involving residual guarantees, vendor and manufacturer guarantees, and tax and environmental indemnities. All such guarantees will need to be disclosed in the notes to the financial statements starting with the period ending after December 15, 2002. For guarantees issued after December 31, 2002, the fair value of the obligation must be reported on the balance sheet. Existing guarantees will be grandfathered and will not be recognized on the balance sheet. The Company's Certificate of Incorporation provides that the Company "shall be empowered to indemnify" to the full extent of its power to do so, all directors and officers, pursuant to the applicable provisions of the Delaware General Corporation Law. The Company has adopted the position that it will indemnify its officers and directors to the full extent permitted under Section 145 of the Delaware General Corporation Law. There was no impact on our financial position and results of operations due to the application of FIN No. 45.

In January 2003, FASB issued FASB Interpretation No. 46 (FIN No. 46), "Consolidation of Variable Interest Entities," an interpretation of Accounting Research Bulletin No. 51, "Consolidated Financial Statements." FIN No. 46 explains how to identify variable interest entities and how an enterprise assesses its interest in a variable entity to decide whether to consolidate that entity. FIN No. 46 requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among parties involved. FIN No. 46 is effective immediately for variable interest entities after January 31, 2003, and to variable interest entities in which an enterprise obtained an interest after that date. FIN No. 46 applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. The adoption of FIN No. 46 did not have a material effect on the Company's financial position and results

of operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - SIX MONTHS ENDED JUNE 30, 2003

FORWARD-LOOKING STATEMENTS

Statements that are not historical facts, including statements about the Company's prospects and strategies and the Company's expectations about growth contained in this report are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent the present expectations or beliefs concerning future events. The Company cautions that such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other things, the uncertainty as to the Company's future profitability; the uncertainty as to whether the Company's new business model can be implemented successfully; the accuracy of the Company's performance projections; and the Company's ability to obtain financing on acceptable terms to finance the Company's operations until profitability.

OVERVIEW

The Company's business model includes obtaining license rights from Warner Brothers, Inc., granting production and marketing rights to processor dairies to produce Looney Tunes(TM) flavored milk and generating revenue primarily through the sale of "kits" to these dairies. The price of the "kits" consists of an invoiced price for a fixed amount of flavor ingredients per kit used to produce the flavored milk and a fee charged to the dairies for the production, promotion and sales rights for the branded flavored milk. In the United States, the Company also generates revenue from the unit sales of finished Looney Tunes(TM) flavored milks to retail consumer outlets.

The Company's new product introduction and growth expansion continues to be expensive and the Company reported a net loss of 1,348,029 for the six months ended June 30, 2003. As shown in the accompanying financial statements, the Company has suffered operating losses and negative cash flows from operations since inception and at June 30, 2003 has an accumulated deficit, a capital deficit, is delinquent on certain debts and has negative working capital. These conditions give rise to substantial doubt about the Company's ability to continue as a going concern. As discussed herein, the Company plans to work toward profitability in the Company's U.S. and China operations in 2003 and obtain additional financing. While there is no assurance that funding will be available or that the Company will be able to improve the Company's operating results, the Company is continuing to seek equity and/or debt financing. No assurances can be given, however, that the Company will be successful in carrying out the Company's plans.

CRITICAL ACCOUNTING POLICIES

Estimates

This discussion and analysis of the Company's consolidated financial condition and results of operations are based on the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, the Company evaluates the Company's estimates, including those related to reserves for bad debts and valuation allowance for deferred tax assets. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which forms the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ materially from these estimates under different assumptions or conditions. The Company's use of estimates, however, is quite limited as the Company has adequate time to process and record actual results from operations.

Revenue recognition

Pre 2002

Prior to 2002, the Company recognized revenue on a net basis, when it received net kit revenues from Quality Chek'd, a national dairy cooperative that coordinated and implemented the kit sales to its member dairy processors. The Company did not record cost of sales under this model because it benefited only by the net amount received, and the Company did not have the unilateral discretion to determine the sales price of kits. This practice existed from the third quarter of 2000 until its phase out during the third quarter of 2002.

United States - Production Agreements with Jasper Products and Shamrock Farms

Commencing in the first quarter 2002, the Company recognized revenue in the United States at the gross amount of its invoices for the sale of kits at the shipment of flavor ingredients to Jasper Products and Shamrock Farms, two processor dairies with whom the Company has production contracts for extended shelf life and aseptic long life milk. Revenue recognition is based upon the Company's role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production right fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and its credit risk to pay for ingredients if processors do not pay ingredient suppliers. The revenue generated by the production contracts under this model is allocated as follows: 95% of the revenue is for the processors' purchase of flavor ingredients; the balance of 5% represents fees charged by the Company to the processors for production rights. The price of production rights is based upon the Company's cost of the Warner Bros. Looney Tunes (tm) intellectual property licenses, which in the U.S. is 5% of the total cost of a kit sold to the processor dairy under the production agreement. The Company recognizes revenue on the gross amount of "kit" invoices to the dairy

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

processors and simultaneously records as cost of good sold the cost of flavor ingredients paid by the processor

11

dairies to the ingredients supplier. The recognition of revenue generated from the sale of production rights associated with the flavor ingredients is complete upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped.

The processor dairies charge the Company with the cost of producing Looney Tunes(tm) flavored milk. The Company is responsible for freight charges from processor dairies to retail destinations, promotion costs and product returns of product owing to defects and out of date products. In addition, the Company pays the fee charged by food brokers retained by the Company to generate sales of the Looney Tunes(tm) flavored milk products to retail outlets. In return, the Company is entitled to keep the difference between the cost charged by processor dairies and the wholesale price determined by the Company and charged to retail outlets. The Company treats this second earning event as "product sales revenue" when the revenue is realized or realizable and accrue any estimated expenses which are related to the Company's revenue at the end of each reporting period. Because the Company benefits only from the price difference and does not own the inventory, it recognizes the revenue generated through this model at net.

In the second quarter of 2003, the Company consolidated its out sourced processing with Jasper Products, which is currently the sole processor for the Company in the United States. This consolidation will result in greater efficiencies in the cost of processing and freight charges.

International Sales and U.S. Sales to Parmalat

The Company sells "kits" to processors in Mexico, Canada, China and to Parmalat in the United States. The kits include the cost of flavor ingredients and rights to produce, market, distribute and sell the Looney Tunes(tm) flavored milk to retailers. As a matter of convenience, processors purchase the flavor ingredients for the kits directly from a designated ingredients supplier and are invoiced by the Company for the full price of the "kits" with a credit for the cost of flavor ingredients purchased by the processors. The Company is directly responsible for the administration of these sales, including the collection of receivables. Dairy processors are responsible for production, marketing, distribution and sales of the Looney Tunes(TM) flavored milk to retailers. The normal production cycle for processors' utilization of purchased flavor ingredients has ranged from 6 weeks in Mexico, 4 weeks for Parmalat (U.S.) and 3 weeks for Canada. This type of sale was initiated at the end of 2001 with Mexico; Parmalat and Canada were added in the third quarter of 2002.

The Company recognizes revenue at the gross amount of kit invoices after shipment of flavor ingredients based upon the Company's role as the principal in these transactions, its discretion in establishing kit prices (including the price of flavor ingredients and production right fees), its development and refinement of flavors and flavor modifications, its discretion in supplier selection and the Company's credit risk to pay for ingredients if processors do not pay ingredient suppliers. The Company attributes the majority of the kit price to the sale of flavor ingredients (95% in the U.S., for example) and the balance (5% in the U.S.) to the Company's grant of production rights to processor dairies. The price of production rights is formulated to cover the Company's costs of the Warner

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

Bros. Looney Tunes(TM) intellectual property licenses, which currently amount to 5% of the total cost of kits sold to the processors under the production agreements for the U.S., 7% for Mexico, 5% for Canada and 3% for China. The Company's recognition of revenue generated from the sale of production rights associated with the flavor ingredients is upon shipment of the ingredients to the processor, given the short utilization cycle of the ingredients shipped.

RESULTS OF OPERATIONS

Financial Condition at June 30, 2003

As of June 30, 2003, we had an accumulated deficit of \$27,507,581 and cash on hand of \$91,235 and reported total shareholders' deficit of \$2,011,861

For this same period of time, we had revenue of \$751,900 and general and administrative expenses of \$1,291,131.

After net interest expenses of \$4,079, cost of goods sold of \$122,535, product development of \$1,654 and selling expenses of \$680,530 incurred in the operations of the Company and its Chinese subsidiary, we had a net loss of \$1,348,029.

Six Months Ended June 30, 2003 Compared to Six Months Ended June 30, 2002

Consolidated Revenue

We had revenues for the six months ended June 30, 2003 of \$751,900, with cost of sales of \$122,535, resulting in a gross margin of \$629,365. Of the \$751,900, \$601,375 was from sales in the U.S. operation, \$93,770 from sales in Mexico, \$28,187 from sales in Canada and \$28,568 from sales in China. Our revenue for the six months ended June 30, 2003 increased by \$7,500 a 1% increase compared to revenue of \$744,440 for the same period in 2002.

Consolidated Cost of Sales

We incurred cost of goods sold of \$122,535 for the six months ended June 30, 2003, \$74,471 of which was incurred in our U.S. operation, \$29,910 in Mexico, \$10,402 in Canada and \$7,752 in China. Our cost of goods sold in 2003 increased by \$46,048, a 60% increase compared to \$76,487 for the same period in 2002. The increase in cost of goods sold reflects additional costs associated with the full implementation of the kit sales model in 2002 and the unit sale model in 2003.

In Mexico, Canada, China and the United States, the Company's revenue is generated in part by the sale of kits to dairy processors. Each kit consists of flavor ingredients for the Company's Slammers Looney Tunes(TM) flavored milks and production rights to manufacture and sell the milks. In line with the Company's revenue recognition policies, the Company recognizes the full invoiced kit price as revenue and credits the processor dairies with the cost of the raw flavor ingredients, which the Company records as cost of goods sold. In addition to kit sales revenue, in the United States the Company is responsible for the sale of finished Slammers and Slim Slammers Looney Tunes(TM) flavored milk (referred to as "unit sales") to retail outlets. For these unit sales, the Company also

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

recognizes as revenue the difference between the prices charged by the processor dairies to produce the milk and the price that the Company charges to the retail outlets that purchase the milk directly from the processor dairies. Since the Company benefits from only the difference between two prices, it does not record any costs of goods sold against this revenue event.

13

Segmented revenues and costs of sales

The table set forth on page F-9 of this report presents revenue by source and type against costs of goods sold, as well as combined gross revenues and gross margins. Revenues from Canada are generated by kit sales to Farmers Dairy, a Halifax dairy processor. Revenues from Mexico are generated from kit sales to Neolac, a dairy processor in central Mexico. In the United States, revenues are generated by kit sales Parmalat, which is responsible for marketing and sales, and kit sales to independent dairy processors that produce extended shelf life and aseptic long life Slammers Looney Tunes(TM) product. Revenues from these sales are recorded under "US Kit Sales" in the table. The Company's sale of ESL and aseptic product generates revenue recorded as "US Unit Sales."

United States (Jasper, Shamrock and Parmalat Sales)

Revenues for the six months ended June 30, 2003 from kit sales in the United States decreased from \$644,512 for the same period in 2002 to approximately \$375,315 in 2003. In the period ended June 30, 2002, the Company recognized \$407,868 in kit sales through Quality Chek'd. and \$236,644 from sales to two independent dairy processors. In the same period in 2003, the Company had \$2,737 in kit sales through Quality Chek'd. and \$372,578 from Jasper Products and Shamrock Farms. The decrease in kit sales in 2003 is the result of a "pipeline effect" of initial kit orders precipitated by the transition from Quality Chek'd member dairy processors to the Jasper Products and Shamrock Farms processors.

In addition to kit sales, in the six months ended June 30, the Company had revenues of approximately \$226,000 from selling finished product unit sales to retail outlets. The Company did not have unit sales for the same period in 2002.

Revenues from kit sales in the periods ended June 30, 2002 reflected the above mentioned "pipeline effect" and the implementation of a business plan under which the Company took control of all sales on a kit level. Total United States sales decreased by \$43,137 from \$644,512 for the six months ended June 30, 2002 to \$601,375 for the same period in 2003. The 6.7% decrease in sales in the United States for the six months ended June 30, 2003 is the result of two factors. First, the payment of "slotting fees" to retail stores that were not required in the period ended June 30, 2002. Slotting fees are a reduction to revenue and accordingly reduce the gross sales figures. Second, insufficient resources exist for the Company to promote sales effectively against increased competition in the single serve flavored milk market segment.

The Company incurred cost of sales of approximately \$ 74,000, attributable to United States sales in the period ended June 30, 2003, an increase of \$4,000 from \$70,000 for the same period in 2002. The slight increase in cost of goods sold against less revenue is the result of the full implementation of the direct recognition of revenue by the Company,

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

with associated costs of goods sold, as opposed to the net revenue recognized through Quality Chek'd for the six months ended June 30, 2002.

In the period ended June 30, 2003, the Company's gross margin for U.S. sales of approximately \$526,000, decreased by \$48,000, or by 8.3%, from \$574,000 for the same period in 2002. The decrease in gross margin was the result of the phasing out of sales through Quality Chek'd and impact of contra revenue on the reported gross sales numbers.

14

Mexico and Canada

Revenues from Mexico and Canada are for kit sales only. Revenues for the period ended June 30, 2003 from kit sales in Mexico increased 109% from approximately \$44,700 for the same period in 2002 to approximately \$94,000 in 2003. The increase was the result of greater market penetration and brand awareness in Mexico. Canadian sales decreased 39.2% from approximately \$46,000 for the six months ended June 30, 2002 to approximately \$28,000 for the period ended June 30, 2003. The decrease in reported kit sales to Canada is the result of an accounting adjustment for a \$15,558 marketing allowance required to be booked as contra-revenue.

For the period ended June 30, 2003, the Company had gross profit of approximately \$64,000 for sales in Mexico and \$18,000 for sales in Canada.

China

Revenues from China are for kit sales only. Revenues for the period ended June 30, 2003 from kit sales in China increased from approximately \$9,000 for the six months ended June 30, 2002 to approximately \$28,000 for the period ended June 30, 2003. The increase was the result of the greater market penetration and brand awareness in China. The Company did not have sales in its China operation for the period ended March 31, 2003. The lack of sales was the result of the set up of a new processing plant by our third party dairy processor in Beijing. The advent of SARS in Beijing contributed to the delayed commencement of production at this new processing facility.

Consolidated Operating Expenses

The Company incurred selling expenses of \$680,530 for the period ended June 30, 2003, all of which were incurred in the Company's North America Bravo! operations. The Company's selling expense for this period increased by approximately \$663,000, a 3785% increase compared to selling expense of approximately \$17,000 for the same period in 2002. The increase in selling expenses in the current period was due mainly to the fact that the Company adopted the refined business plan in the U.S. for the Company's North America Bravo! operations, which recognizes revenue for unit sales as well as the selling expenses associated with that revenue.

Of the increase of \$663,000, approximately \$229,000 was incurred for freight and delivery expense, approximately \$59,000 was related to food brokerage fees, approximately \$53,000 was related to marketing, approximately \$51,000 for sample expenses, \$192,000 for reclamation of product approaching sell by dates, \$54,000 for promotions and \$16,000 for advertising expense due to the continued ramp-up of the national United States sales program. As a percentage of total revenue, the Company's

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

selling expense increased from approximately 2.35% of total revenue for the period ended June 30, 2002, when the Company reorganized a significant portion of its revenues on a net basis, to approximately 90.5% of total revenue for the current period in 2003. The high reclamation costs have resulted from the rapid expansion of sales and distribution into new markets for the Company's Slammers milk products. In those markets where sales have not met initial estimates, the Company reclaims

15

product for disposition as the product approaches "sell by" dates. As markets mature, the Company believes that reclamation costs will significantly decrease.

The Company incurred general and administrative expenses for the period ended June 30, 2003 of approximately \$1,291,000, consisting of \$1,218,000 in its North America operations and \$73,000 in its China operations. The Company's general and administrative expenses for this period decreased by approximately \$925,000, a 41.7% decrease compared to approximately \$2,216,000 for the same period in 2002, consisting of \$2,171,000 in our U.S. operation and \$45,000 in our China operation. The decrease for the current period in 2003 is the result mainly of cost reductions in salaries and overhead expenses, in addition to the lack of non-cash items added to the 2002 expenses as required by accounting rules.

As a percentage of total revenue, the Company's general and administrative expenses decreased from 297% in the period ended June 30, 2002, to 171% for the current period in 2003, as a result of the Company's cost cutting measures and the absence of non-cash items. The Company anticipates a reduction of these expenses through cost cutting efforts and the refinement of business operations to continue.

Interest Expense

The Company incurred net interest expense for the period ended June 30, 2003 of approximately \$4,000 related to its U.S. operations. Interest expense decreased by approximately \$17,000, an 81% decrease, compared to approximately \$21,700 for the same period in 2002, almost all of which was incurred in the U.S. The decrease was due to the fact that the Company paid a \$250,000 loan in 2002.

Loss Per Share

The Company accrued dividends payable of approximately \$530,000, including deemed dividends, to various series of preferred stock during the six months ended June 30, 2002. The Company's accrued dividends decreased for this period by approximately \$82,000 from approximately \$612,000 for the six months ended June 30, 2002. This 13.3% decrease was due to decreased financing activities and the conversion of a portion of the preferred stock. The Company's loss per share was \$0.07 for the six months ended June 30, 2003 compared to a \$0.13 loss per share of for the same period in 2002. This decrease in the loss per share was the result of the increase in the weighted average number of shares outstanding for the comparable periods, combined with the decrease in net loss before accrued dividends of approximately \$239,747, from \$1,587,776 for the six months ended June 30, 2002 to \$1,348,029 for the same period in 2003.

Three Months Ended June 30, 2003 Compared to the Three Months Ended June 30, 2002

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

Revenue

The Company had revenues for the three months ended June 30, 2003 of \$354,470, with cost of sales of \$42,173, resulting in a gross profit of \$312,297, or 88% of sales. Of the

16

\$354,470, \$292,000 was from sales in the Company's U.S. operation, \$28,568 from sales in China, and \$33,906 from sales in Mexico. The Company did not report any sales for Canada in the three months ended June 30, 2003. Our revenue for the three months ended June 30, 2003 decreased by \$141,709, a 28.5% decrease compared to revenue of \$496,179 for the three months ended June 30, 2002. The decrease in revenue in the United States for the three months ended June 30, 2003 is the result of two factors: first, the payment of "slotting fees" to retail stores that were not required in the period ended June 30, 2003, and marketing allowances, which fees and allowances reduce revenue and therefore reduce the gross sales figures; and second, insufficient resources for the Company to promote sales effectively against increased competition in the single serve flavored milk market segment.

Cost of Goods Sold

The Company incurred cost of goods sold of \$42,173 for the three months ended June 30, 2003, most of which was incurred in our U.S. operation in the second quarter. Our cost of goods sold for this period decreased by \$29,831, a 41.4% decrease compared to \$72,004 for the three months ended June 30, 2002.

Operating Expense

The Company incurred selling expenses for the three months ended June 30, 2003 of \$319,455 consisting of \$323,105 in our U.S. operation and a \$3,650 credit adjustment in China. Selling expenses increased for the three months ended June 30, 2003 by \$312,227, a 4391% increase compared to the selling expense of \$7,228 for the three months ended June 30, 2002. The increase in selling expenses is the result of the adoption of the refined business plan in the U.S. for the Company's North America Bravo! operations, including the costs associated with the sale of finished product to retail establishments through brokers and distributors.

The Company incurred general and administrative expenses for the three months ended June 30, 2003 of \$518,661, consisting primarily of \$508,707 in our the U.S. operation. General and administrative expenses for the three months ended June 30, 2003 decreased by \$990,283, a 65.6% decrease compared to \$1,508,944 for the same period in 2002. This decrease was due to the change in the Company's sales policies that resulted in the reporting of certain expenses as selling expenses rather than as general and administrative expenses, the significant cutting of expenses in China through a reduction in staff and office space, and the overall reduction of administrative expenses.

Interest Expense

The Company incurred interest expense for the three months ended June 30, 2003 of \$2,035 consisting primarily of \$2,000 in our U.S. operation. Interest expense for the three months ended June 30, 2003 decreased by \$8,524, an 81% decrease compared to \$10,559 for the same period in 2002.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

Net Loss/Operating Income

The Company had a net loss in its U.S operations for the three months ended June 30, 2003 of \$529,014 compared with a net loss of \$1,102,556 for the same period in 2002. The net

17

loss decrease amounted to \$573,542 or 52% compared to the same period in 2002. The decrease in net loss resulted from significant efforts to reduce general and administrative expenses in our U.S. and China operations, combined with reduced non-cash general and administrative items in the three months ended June 30, 2003. For the three months ended June 30, 2003, the Company's China operations had operating income of \$15,431.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2003, the Company reported that net cash used in operating activities was approximately \$995,000, net cash provided by financing activities was approximately \$877,000 and net cash used in investing activities was \$15,000. The Company had a negative working capital of approximately \$1,725,000 as of June 30, 2003.

Compared to approximately \$1,151,000 of net cash used in operating activities in the period ended June 30, 2002, the Company's current year net cash used in operating activities decreased by approximately \$156,000 to \$995,000. This decrease was the result of continuing efforts of the Company to reduce expenses through the refinement of its business plan and the reduction of salaries at the senior management level and general office expenditures.

Changes in accounts receivable in this current period in 2003 resulted in a cash increase of approximately \$97,000, compared to a cash decrease in receivables of approximately \$166,000 for the same period in 2002, having a net result of an increase of approximately \$263,000. The increase in accounts payable and accrued liabilities in the period ended June 30, 2002 contributed to a cash increase of approximately \$94,000, whereas the changes in accounts payable and accrued liabilities for the current period in 2003 amounted to an increase of approximately \$324,000. The Company has adopted and will keep implementing cost cutting measures to lower the Company's costs and expenses and to pay the Company's accounts payable and accrued liabilities by using cash and equity instruments. The Company's cash flow generated through operating activities was inadequate to cover all of the Company's cash requirements in the period ended June 30, 2003, and the Company had to rely on equity financing to cover expenses.

The Company's cash used in investing activities was approximately \$15,400 for computer equipment in the United States.

The Company's net cash provided by financing activities for the period ended June 30, 2003 was approximately \$877,000. New cash provided by financing activities for the same period in 2002 was approximately \$965,000, for a net decrease of approximately \$88,000. The decrease was due to limiting financing activities to the issuance of Series J preferred stock with total proceeds of approximately \$1,000,000 in this current period. The Company paid approximately \$123,000 for Warner Bros.' guaranteed royalty payments during the period ended June 30, 2003.

The remaining proceeds were used for working capital purposes.

Edgar Filing: BRAVO FOODS INTERNATIONAL CORP - Form 10QSB

Notwithstanding total cash proceeds of approximately \$1,000,000, the Company owed approximately \$147,000 as of June 30, 2003 for Warner Bros. license guaranteed royalty payments. The China license has

18

been extended for a 90-day period to October 29, 2003, while the Company and Warner Bros. negotiate the terms of a one-year extension for this license.

Going forward, the Company's primary requirements for cash consist of (1) the continued development of its business in the United States and on an international basis; (2) general overhead expenses for personnel to support the new business activities; and (3) payments of guaranteed royalty payments to Warner Bros. under existing licensing agreements. The Company estimates that the Company's need for financing to meet the Company's cash needs for operations will continue to the fourth quarter of 2003, when cash supplied by operating activities will enable us to meet the anticipated cash requirements for operation expenses. The Company anticipates the need for additional financing in 2003 to reduce the Company's liabilities and to improve its shareholders' equity status. No assurances can be given that the Company will be able to obtain additional financing or that operating cash flows will be sufficient to fund the Company's operations.

The Company currently has monthly working capital needs of approximately \$225,000. The Company has incurred and continues to incur significant selling and other expenses in order to increase retail sales. Certain of these expenses, such as slotting fees and freight charges, will be reduced as a function of unit sales costs as the Company expands its sales markets and increases its sales within established markets. Freight charges will be reduced as the Company is able to ship more full truck-loads of product given the reduced per unit cost associated with full truck loads. Similarly, slotting fees, which are paid to warehouses or chain stores as initial set up or shelf space fees, are essentially one-time charges per new customer. Slotting fees and promotional discounts reduced the Company's unit sales revenue for the period ended June 30, 2003 by approximately \$34,000 and the Company's Parmalat kit revenue by approximately \$36,000. A continued increase in sales to existing customers increases the Company's gross margin on those sales. The Company believes that, along with the increase in the Company's unit sales volume, the average unit selling expense and associated costs will decrease, resulting in gross margins sufficient to mitigate the Company's cash needs. In addition, the Company is actively seeking additional financing to support its operational needs and to develop an expanded promotional program for the Company's products.

The Company is continuing to explore the sale for Slammers flavored milk in new and expanded markets, including school districts. Presently, the Company is aggressively pursuing this market through trade/industry shows and individual direct contacts. The implementation of such a school based program, if viable, could have an impact on the level of the Company's revenue during 2003.

In June 2002, the Company executed an exclusive aseptic tetra-brik production agreement with a division of Parmalat USA Corp. for Looney Tunes(tm) flavored milk, as well as the Company's new Slammers Fortified Reduced Fat Milk(TM). The Company launched this new aseptic tetra-brik product in September 2002 and launched Slim Slammers, a low fat, no sugar added version of this product in November 2002. The Company expects this product to have a continued positive impact upon the Company's revenues in 2003:

19

DEBT STRUCTURE

The Company holds five licenses for Looney Tunes(TM) characters and names from Warner Bros. Each license is structured to provide for the payment of guaranteed royalty payments to Warner Bros. The Company accounts for these guaranteed payments as debt and licensing rights as assets. The following is a summary of guaranteed royalty payments due to Warner Bros. as of June 30, 2003.

International Paper

During the process of acquiring from American Flavors China, Inc. the 52% of equity interest in Hangzhou Meilijian, the Company issued an unsecured promissory note to assume the American Flavors' debt owed to a supplier, International Paper. The face value of that note was \$282,637 at an interest rate of 10.5% per annum, without collateral. The note has 23 monthly installment payments of \$7,250 with a balloon payment of \$159,862 at the maturity date of July 15, 2000. On July 6, 2000, International Paper agreed to extend the note to July 1, 2001, and the principal amount was adjusted due to different interest calculation. International Paper imposed a charge of \$57,000 to renegotiate the note owing the failure of Hangzhou Meilijian to pay for certain packing material, worth more than \$57,000 in 1999. The current outstanding balance is \$187,743. The Company is delinquent in its payments under this note.

Individual Loans

On November 6 and 7, 2001, respectively, the Company received the proceeds of two loans aggregating \$100,000 from two offshore lenders. The two promissory notes, one for \$34,000 and the other for \$66,000, were payable February 1, 2002 and bear interest at the annual rate of 8%. These loans are secured by a general security interest in all the Company's assets. On February 1, 2000, the parties agreed to extend the maturity dates until the completion of the anticipated Series H financing. On June 18, 2002, the respective promissory note maturity dates were extended by agreement of the parties to December 31, 2002. On June 18, 2002, the Company agreed to extend the expiration dates of warrants issued in connection with the Company's Series D and F preferred until June 17, 2005

and to reduce the exercise price of certain of those warrants to \$1.00, in partial consideration for the maturity date extension. The holders of these notes have agreed to extend the maturity dates.

EFFECTS OF INFLATION

The Company believes that inflation has not had any material effect on its net sales and results of operations.

EFFECT OF FLUCTUATION IN FOREIGN EXCHANGE RATES

The Company's Shanghai subsidiary is located in China. It buys and sells products in China using Chinese renminbi as the functional currency. Based on Chinese government regulation, all foreign currencies under the category of current account are allowed to freely exchange with hard currencies. During the past two years, the China operations have not been significant. There were no significant changes in exchange rates.

NEW ACCOUNTING ANNOUNCEMENTS NOT YET ADOPTED

In November 2002, the FASB issued Interpretation No. 45 ("FIN No. 45"), "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." FIN No. 45 expands on the accounting guidance of Statements No. 5, 57, and 107 and incorporates without change the provisions of FASB Interpretation No. 34, which is being superseded. FIN No. 45 will affect leasing transactions involving residual guarantees, vendor and manufacturer guarantees, and tax and environmental indemnities. All such guarantees will need to be disclosed in the notes to the financial statements starting with the period ending after December 15, 2002. For guarantees issued after December 31, 2002, the fair value of the obligation must be reported on the balance sheet. Existing guarantees will be grandfathered and will not be recognized on the balance sheet. The Company's Certificate of Incorporation provides that the Company "shall be empowered to indemnify" to the full extent of its power to do so, all directors and officers, pursuant to the applicable provisions of the Delaware General Corporation Law. The Company will indemnify its officers and directors to the full extent permitted under Section 145 of the Delaware General Corporation Law. The Company has determined that there has been no impact due to the application of FIN No. 45 on our financial position and results of operations.

In January 2003, FASB issued FASB Interpretation No. 46 (FIN No. 46), "Consolidation of Variable Interest Entities," an interpretation of Accounting Research Bulletin No. 51, "Consolidated Financial Statements." FIN No. 46 explains how to identify variable interest entities and how an enterprise assesses its interest in a variable entity to decide whether to consolidate that entity. FIN No. 46 requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among parties involved. FIN No. 46 is effective immediately for variable interest entities after January 31, 2003, and to variable interest entities in which an enterprise obtained an interest after that date. FIN No. 46 applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. The adoption of FIN No. 46 is not expected to have a material effect on the Company's financial position and result of operations.
