announcing its receipt of certification to the ISO 9001 Quality Standard:

FOR IMMEDIATE RELEASE

MONDAY, OCTOBER 15, 2001

PRECISION OPTICS CORPORATION ANNOUNCES CERTIFICATION TO ISO 9001
QUALITY STANDARD

ALSO RECOMMENDED FOR CE MARKING AND CERTIFICATION IN FOUR AREAS
RELATED TO MEDICAL DEVICE PRODUCTION

Gardner, Massachusetts -- Precision Optics Corporation, Inc. (Nasdaq:
POCI) has received official certification to the ISO 9001 international Quality
Standard for the Design, Manufacturing, Installation and Servicing of products.

Edgar Filing: PRECISION OPTICS CORPORATION INC - Form 8-K

This certification, widely sought by high-technology firms in many industries, was awarded following a comprehensive audit by Intertek Testing Services, a leading Registrar for ISO 9001.

Precision Optics has also been advised that it has met U.S. and international certification requirements in four additional categories based on standards specific to medical instruments. This achievement marks the company as one of a select few U.S.-based medical device and optical instrument designers and manufacturers that have successfully completed the required audits and complied with all five sets of quality requirements with no discrepancies.

This international recognition for state-of-the-art design and manufacturing quality reflects simultaneous compliance with standards in the United States, Canada, and Europe., including the coveted CE mark required for sales to the European community. It also provides external validation of Precision Optics' company-wide commitment to best practices across all departments and operations, underscoring the company's ability to develop and deliver products that consistently meet or exceed customer expectations.

ABOUT PRECISION OPTICS

Precision Optics Corporation, a leading manufacturer of optical thin films and optical instruments since 1984, designs and manufactures high-quality optical thin film coatings, medical instruments, and other advanced optical systems. Major applications for the Company's thin film coatings include DWDM filters used to increase the bandwidth capacity of fiber-optic telecommunications networks. The Company's medical instrumentation line includes laparoscopes, arthroscopes, endocouplers and a world-class 3-D endoscope for use in minimally invasive surgical procedures.
