PROXY STATEMENT

Edgar Filing: NANOGEN INC - Form DEF 14A

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Nanogen, Inc., a Delaware corporation ("Nanogen" or the "Company"), of proxies in the accompanying form to be used at the Annual Meeting of Stockholders to be held at the Hilton La Jolla Torrey Pines located at 10950 N. Torrey Pines Road, La Jolla, California 92037 on June 14, 2002, and any adjournment of the Annual Meeting (the "Annual Meeting"). The shares represented by the proxies received in response to this solicitation and not revoked will be voted at the Annual Meeting. A proxy may be revoked at any time before it is exercised by filing with the Secretary of the Company a written revocation or a duly executed proxy bearing a later date or by voting in person at the Annual Meeting. On the matters coming before the Annual Meeting for which a choice has been specified by a stockholder by means of the ballot on the proxy, the shares will be voted accordingly. If no choice is specified, the shares will be voted FOR the election of the nominees for Class I directors listed in this Proxy Statement and FOR approval of proposals 2, 3 and 4 described in the Notice of Annual Meeting and in this Proxy Statement.

Stockholders of record at the close of business on April 19, 2002 are entitled to notice of and to vote at the Annual Meeting. As of April 19, 2002 the Company had 21,674,602 shares of Common Stock outstanding and entitled to vote. Each holder of Common Stock is entitled to one vote for each share held as of the record date.

Directors are elected by a plurality vote. Accordingly, the director nominees who receive the most votes cast in their favor will be elected. Proposals 2, 3 and 4 will be decided by the affirmative vote of a majority of shares present in person or represented by proxy and entitled to vote on each such matter. Abstentions with respect to any matter are treated as shares present or represented and entitled to vote on that matter and thus have the same effect as negative votes. If shares are not voted by the broker who is the record holder of the shares, or if shares are not voted in other circumstances in which proxy authority is defective or has been withheld with respect to any matter, these non-voted shares are not deemed to be present or represented for purposes of determining whether stockholder approval of that matter has been obtained.

The Company will bear the expense of printing and mailing proxy materials. In addition to the solicitation of proxies by mail, solicitation may be made by the Company's directors, officers or other employees by personal interview, telephone or facsimile. No additional compensation will be paid to such persons for such solicitation. The Company will reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation materials to beneficial owners of the Company's Common Stock. Employees of Georgeson & Co. will also solicit proxies at an anticipated fee of approximately \$7,000 plus reasonable out-of-pocket expenses.

This Proxy Statement and the accompanying form of proxy are being mailed to stockholders on or about April 29, 2002.

IMPORTANT

Whether You Intend To Be Present At The Annual Meeting Or Not, We Urge You To Mark, Date And Sign The Enclosed Proxy And Return It At Your Earliest Convenience In The Enclosed Postage-Prepaid Return Envelope. This Will Not Limit Your Rights To Attend Or Vote At The Annual Meeting.

PROPOSAL 1 ELECTION OF DIRECTORS

The Company has three classes of directors, Class I, Class II and Class III each consisting of three directors, serving staggered three-year terms. Currently, one Class II director seat is vacant and such seat will remain vacant following the Annual Meeting as the Board of Directors has not yet identified a suitable candidate for such seat. Shares represented by the enclosed proxy cannot be voted for a greater number of persons than the number of nominees named. Two Class I directors are to be elected at the Annual Meeting for a term of three years expiring at the Annual Meeting in 2005 or until each such director's successor shall have been elected and qualified and one Class I director, Mr. Cam Garner, has chosen not to stand for reelection. REPORT TO STOCKHOLDERS ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors of the Company (the "Compensation Committee") is pleased to present its report on executive compensation. This report is provided by the Compensation Committee to assist stockholders in understanding the Compensation Committee's objectives and procedures in establishing the compensation of the Company's executive officers and describes the basis on which compensation determinations for 2001 were made by the Compensation Committee. In making its determination, the Compensation Committee has relied, in part, on geographic and competitive considerations, independent surveys of compensation of management of companies in the biotechnology industry, including companies included in the Nasdaq Pharmaceutical Stock Index used in the Company's Stock Price Performance Graph set forth in this proxy statement, and recommendations of management.

Compensation Philosophy And Objectives

The Compensation Committee believes that compensation of the Company's executive officers should:

Encourage creation of stockholder value and achievement of strategic corporate objectives.

Edgar Filing: NANOGEN INC - Form DEF 14A

Integrate compensation with the Company's annual and long-term corporate objectives and strategy, and focus executive behavior on the fulfillment of those objectives.

Recognize individual initiative, effort and accomplishment.

Provide a competitive total compensation package that enables the Company to attract and retain, on a long-term basis, high caliber personnel.

Provide a total compensation opportunity that is competitive with companies in the biotechnology industry, taking into account relative company size, stage of development, performance and geographic location as well as individual responsibilities and performance.

Align the interests of management and stockholders and enhance stockholder value by providing management with longer term incentives through equity ownership by management.

Key Elements Of Executive Compensation

The Compensation Committee has determined that compensation of executive officers will be based, in part, on the Company's achievements of its objectives established with the Board of Directors, the individual contributions and achievements of each executive officer and the financial position of the Company. The Company's existing compensation structure for executive officers generally includes a combination of base salary, bonus and stock options.

Base Salary

Compensation levels are largely determined through comparisons with companies of similar size and complexity in the biotechnology industry and companies with which the Company competes for key personnel. Cash compensation for the Company's executive officers in 2001 was at the higher end of the range of the companies reviewed. In establishing base salaries for 2001 the Committee considered, among other things, the Company's achievements in advancing its products and accomplishing other business objectives, and the individual contributions and achievements of each executive officer. Actual compensation is based on an evaluation of job responsibilities for the position, comparisons of compensation levels, Company achievements and individual performance. Individual performance is evaluated by reviewing organizational and management development progress against individual contributions and achievements and the degree to which teamwork and Company values are fostered. At the beginning of fiscal 2001, goals were established for the Company and approved by the Board of

13

Directors. Goals set for 2001 included: the release of at least five DNA-based research protocols; increase of the installed base of the NanoChip® Systems to between fifty-five to sixty-five by the end of the year; conversion of a number of development site customers into sales; expansion of the Company's intellectual property portfolio; settlement of the Company's litigation with Motorola, Genometrix and the Massachusetts Institute of Technology ("MIT"); formation of a joint venture with one of the Company's current collaboration partners, Aventis Research and Technologies, an affiliate of Hoechst AG ("Aventis"); receipt of additional government grants; achievement of certain Company revenue objectives; achievement of certain research and development milestones; progress in the Company's corporate collaborations; and attainment of certain financial objectives. Compensation levels for the executive officers are competitive within a range that the Committee considers to be reasonable and necessary.

Bonus

The Compensation Committee may award bonuses at the end of the fiscal year based on the Company's achievements and the individual's contributions to those achievements, if it deems such an award to be appropriate. Based on the Company's achievement of a number of key objectives in 2001: the release of five DNA-based research protocols; the increase of the installed base of the NanoChip® Systems to sixty-one by the end of the year; conversion of two development site arrangements into sales; expansion of the Company's intellectual property portfolio by adding twenty U.S. patents and seven foreign patents; settlement of the Company's litigation with Motorola, Genometrix and MIT; formation of Nanogen Recognomics GmbH, a company with Aventis; receipt of a government grant providing for a total of \$1.5 million over three years of continued funding for the Company's core technologies; progress in the Company's corporate collaborations; and attainment of certain financial objectives, the Committee decided to award cash bonuses for 2001 to officers and certain key employees.

Stock Options

The Company's 1997 Stock Plan, as amended, is administered by the Company's Compensation Committee, which is a committee of outside directors of the Company. The Compensation Committee believes that by providing those persons who have substantial responsibility for the management and growth of the Company with an opportunity to increase their ownership of Company stock, the best interests of stockholders and executives will be closely aligned. Therefore, executive officers, as well as all employees, are eligible to receive stock options from time to time, giving them the right to purchase shares of Common Stock of the Company at a specified price. The number of stock options granted to executive officers, including the Executive Chairman and Chief Executive Officer, is based on the Company's achievements during the year and the individual's contributions to those achievements, individual performance and a review of data on the range of aggregate annual option grants compared to the number of shares of stock outstanding for officers with similar duties and titles at biotechnology companies taking into account differences in such companies' stock prices, stage of development, achievements and the like.

Executive Chairman and Chief Executive Officer Compensation

The salaries paid to Howard C. Birndorf, the Company's Executive Chairman, and V. Randy White, Ph.D, the Company's Chief Executive Officer, were \$365,000 and \$159,540, respectively in 2001. In establishing Mr. Birndorf's and Dr. White's base salary, the Compensation Committee reviewed the results of a survey of executive salaries of the officers of similar companies in the biotechnology industry. In addition, the Committee recognized that Mr. Birndorf's and Dr. White's efforts were important in advancing the development and growth of the Company and the corporate objectives achieved in 2001. Corporate objectives achieved in 2001 included: the validation of the Company's first

five DNA-based research protocols for use on the NanoChip® Molecular Biology Workstation; increasing the installed base of the Company's NanoChip® System to sixty-one; converting two of our existing Development Site arrangements into sales transactions; expanding our intellectual property position for our core technology by adding twenty U.S. patents and seven foreign patents; settling our outstanding litigation with Motorola, Genometrix and MIT; formed Nanogen Recognomics GmbH; and the Company attaining certain financial objectives. The Committee determined that these accomplishments were critical to the Company's future growth and potential enhancement of stockholder value and, accordingly, determined to compensate Mr. Birndorf and Dr. White for their efforts on behalf of the Company. Mr. Birndorf and Dr. White were awarded bonuses of \$345,000 and \$100,000, respectively in 2001.

Mr. Birndorf and Dr. White are members of the Board of Directors, but did not participate in matters involving the evaluation of their own performance or the setting of their own compensation.

The Audit Committee also discussed and reviewed with the independent auditors all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees" and, with and without management present, discussed and reviewed the results of the independent auditors' examination of the Company's financial statements.

At the date of adoption of the 1997 Stock Plan a total of 342,419 shares of Common Stock were available for future issuance under the Prior Stock Plans, which shares are available for grants under the 1997 Stock Plan, and a further 2,241,341 shares were authorized by the Board

of Directors and approved by the Company's stockholders for further issuance thereunder. If any option granted under the Prior Stock Plans expires or terminates for any reason without having been exercised in full, then the unpurchased shares subject to that option will become available for additional option grants under the 1997 Stock Plan. Although currently, all awards are made under the 1997 Stock Plan, awards made under the Prior Stock Plans will continue to be administered in accordance with the 1993 Stock Plan or the 1995 Stock Option/Issuance Plan, as applicable (the 1997 Stock Plan together with the Prior Stock Plans are referred to as the "Stock Option Plans"). On January 22, 1999, the Board of Directors voted to amend the 1997 Stock Plan to reserve an additional 925,000 shares of Common Stock for issuance thereunder and the Company stockholders approved the amendment on June 30, 1999. On April 14, 2000, the Board of Directors voted to amend the 1997 Stock Plan to reserve an additional 1,000,000 shares of Common Stock for issuance under the 1997 Stock Plan and the Company's stockholders approved the amendment on June 6, 2000. On April 9, 2001, the Board of Directors voted to amend the 1997 Stock Plan to reserve for issuance thereunder an additional 1,500,000 shares of Common Stock and the Company's stockholders approved the amendment on June 13, 2001. On April 26, 2002, the Board of Directors voted to amend the 1997 Stock Plan to reserve for issuance thereunder an additional 750,000 shares of Common Stock, subject to the approval of the Company's stockholders at the 2002 Annual Meeting.

The following is a summary of the material terms and provisions of the 1997 Stock Plan. The summary, however, does not purport to be a complete description of all the provisions of the 1997 Stock Plan. Copies of the actual plan document may be obtained by any stockholder upon written request to the Secretary of the Company at the Company's principal offices in San Diego, California.

Description of the 1997 Stock Plan

Purpose

The purpose of the 1997 Stock Plan is to promote the interests of the Company and its stockholders by encouraging key individuals to acquire stock or to increase their proprietary interest in the Company. By providing the opportunity to acquire stock or receive other incentives, the Company seeks to attract and retain those key employees upon whose judgment, initiative and leadership the success of the Company largely depends. The Company's Board of Directors believes that the 1997 Stock Plan will constitute an important means of compensating key employees.

Shares Subject to the 1997 Stock Plan

The total number of restricted shares, stock units, options and SARs authorized for grant under the 1997 Stock Plan is 6,758,760 (which number includes the 750,000 share increase that stockholders are being asked to approve). This amount will be increased by any forfeited or unexercised shares under the Prior Stock Plans. Also, forfeited or unexercised shares under the 1997 Stock Plan generally become available for new grants under the 1997 Stock Plan. If any restricted shares, stock units, options or SARs are forfeited, or if options or SARs terminate for any other reason prior to exercise

20

(other than the exercise of a related SAR or option, and including any forfeiture or termination under the 1997 Stock Plan), then they again become available for awards under the 1997 Stock Plan.

Outstanding Grants

As of April 19, 2002, options for an aggregate of 3,402,460 shares of Common Stock were outstanding under the Stock Option Plans. As of April 19, 2001, approximately 177 employees, 5 directors and 5 consultants or advisors were eligible to participate in the 1997 Stock Plan. On April 19, 2002, the closing price of the Company's Common Stock on the Nasdaq National Market was \$4.12 per share. Of the options for 9,496,508 shares of Common Stock granted under the Stock Option Plans, options for 3,501,849 shares of Common Stock have been exercised. As of April 19, 2002, an aggregate of 4,338,677 shares of Common Stock (which number excludes the 750,000 share increase that stockholders are being asked to approve) are authorized, but unissued under the Stock Option Plans.

On January 26, 2001, the Compensation Committee authorized a plan for certain option holders whereby each holder could cancel certain of his or her vested and unvested options and receive a written promise from the Company to issue, on a one-for-one basis, new options to be granted and priced at the fair market value on August 29, 2001. This plan applied only to options granted to employees of the Company (excluding executive officers and directors) between January 1, 2000 and February 28, 2001. These options could not be exercised until August 29, 2001 or when they vest, whichever was later. The new options granted contain similar vesting schedules as the cancelled options. A total of 389,900 option shares were cancelled and 281,600 new option shares were subsequently granted under this program.

As of April 19, 2002, the following persons or groups had in total received restricted stock, stock units and/or options for shares of Common Stock under the Stock Option Plans: (i) the Executive Chairman, Chief Executive Officer and the other remaining officers named in

Edgar Filing: NANOGEN INC - Form DEF 14A

the Summary Compensation Table: Mr. Birndorf 1,295,828 shares; Dr. White 485,000; Mr. Gallahue 368,332 shares; Mr. Wills 135,000 shares; Ms. Pardee 174,000 shares and Mr. Bromley 207,500 shares; (ii) all current executive officers of the Company as a group: 2,284,160 shares; (iii) all current directors who are not executive officers as a group: 244,998 shares; (iv) the nominees for Class I directors: Mr. Birndorf 1,295,828 shares and Mr. Whelan no shares; (v) each associate of any of such current directors, executive officers or nominee: no shares; (vi) each person who has received five percent of options granted other than those included above: no shares; and (vii) all employees and consultants of the Company: approximately 9,251,510 shares.

Administration

The 1997 Stock Plan is administered by the Board of Directors or its delegate, currently the Compensation Committee. The Board of Directors, or its delegate, selects the employees of the Company who will receive awards, determines the size of any award and establishes any vesting or other conditions. Employees, directors, consultants and advisors of the Company (or any subsidiary of the Company) are eligible to participate in the 1997 Stock Plan, although incentive stock options may be granted only to employees. No individual may receive options or SARs covering more than 500,000 shares in any calendar year. The participation of the outside directors of the Company is limited to 25% of the shares available under the 1997 Stock Plan.

The 1997 Stock Plan provides for awards in the form of restricted shares, stock units, options or SARs, or any combination thereof. No payment is required upon receipt of an award, except that a recipient of newly issued restricted shares must pay the par value of such restricted shares to the Company.

21

Restricted Stock

Restricted shares are shares of Common Stock that are subject to repurchase by the Company at the employee's purchase price in the event that the applicable vesting conditions are not satisfied, and they are nontransferable prior to vesting (except for certain transfers to a trustee). Restricted shares have the same voting and dividend rights as other shares of Common Stock.

The recipient of restricted shares or stock units may pay all projected withholding taxes relating to the award with Common Stock rather than cash if permitted by the Compensation Committee.

Options

Options may include nonstatutory stock options ("NSOs") as well as incentive stock options ("ISOs") intended to qualify for special tax treatment. The term of an ISO cannot exceed 10 years (five years for 10% stockholders), and the exercise price of an ISO must be equal to or greater than the fair market value of the Common Stock on the date of grant (or 110% of fair market value at the date of grant for 10% stockholders). The exercise price of an NSO must be equal to or greater than the par value of the Common Stock on the date of grant.

The exercise price of an option may be paid in any lawful form permitted by the Board of Directors or its delegate, including (without limitation) the surrender of shares of Common Stock or restricted shares already owned for at least six months by the optionee. The Board of Directors or its delegate may likewise permit optionees to satisfy their withholding tax obligation upon exercise of an NSO by surrendering a portion of their option shares to the Company. The 1997 Stock Plan also allows the optionee to pay the exercise price of an option by giving "exercise/sale" or "exercise/pledge" directions or by promissory note.

Stock Appreciation Rights

A SAR permits the participant to elect to receive any appreciation in the value of the underlying stock from the Company, either in shares of Common Stock or in cash or a combination of the two, with the Board of Directors or its delegate having the discretion to determine the form in which such payment will be made. The amount payable on exercise of a SAR is measured by the difference between the market value of the underlying stock at exercise and the exercise price. SARs may, but need not, be granted in conjunction with options. Upon exercise of a SAR granted in tandem with an option, the corresponding portion of the related option must be surrendered and cannot thereafter be exercised. Conversely, upon exercise of an option to which a SAR is attached, the SAR may no longer be exercised to the extent that the corresponding option has been exercised. A participant may receive not more than 200,000 SARs within one calendar year. Unless otherwise permitted by the Board of Directors or its delegate, all options and SARs are nontransferable prior to the optionee's death.

Vesting

The Board of Directors or its delegate determines the number of restricted shares, stock units, options or SARs to be included in the award as well as the vesting and other conditions. The vesting conditions may be based on the employee's service, his or her individual performance, the Company's performance or other appropriate criteria. In general, the vesting conditions will be based on the employee's service after the date of grant. Vesting may be accelerated in the event of the employee's death, disability or retirement or in the event of a change in control with respect to the Company. The Board of Directors has in the past granted and may in the future grant options which provide for mandatory acceleration of vesting in the event of a change in control.

Other Provisions

For purposes of the 1997 Stock Plan, the term "change in control" is defined as any one of the following: (i) any person is or becomes the beneficial owner, directly or indirectly, of at least 50% of the combined voting power of the Company's outstanding securities ordinarily having the right to vote at elections of directors; (ii) upon a merger or consolidation of the Company with or into another corporation or entity or any other corporate reorganization in which over 50% of the combined voting power of the continuing or surviving entity immediately after the merger, consolidation or reorganization is owned by persons who were not stockholders of the Company immediately prior to the merger, consolidation or reorganization; or (iii) a change in the composition of the Board of Directors in which fewer than half of the incumbent Directors had been Directors 24 months prior to the change or were elected or nominated with the affirmative votes of Directors 24 months prior to the change.

The 1997 Stock Plan provides that if any payment (or transfer) by the Company causes the employee to recognize a "golden parachute" excise tax under Section 4999 of the Internal Revenue Code, as amended (the "Code"), then the Company shall make such cash payments as are necessary to reimburse the employee for all additional taxes caused thereby.

The Board of Directors is authorized, within the provisions of the 1997 Stock Plan, to amend the terms of outstanding restricted shares or stock units, to modify or extend outstanding options or SARs or to exchange new options for outstanding options, including outstanding options with a higher exercise price than the new options. On April 26, 2002, however, the Board of Directors amended the 1997 Stock Plan by removing the provision of the Plan permitting the Company to reprice options under the Plan without stockholder approval. The 1997 Stock Plan now requires that the Company can only reprice options with the consent of the Company's stockholders.

Members of the Company's Board of Directors who are not employees of the Company are eligible for awards under the 1997 Stock Plan. However, such outside directors are not eligible for ISO grants. Total shares available to outside directors is limited to 25% of total shares available under the 1997 Stock Plan.

Federal Income Tax Consequences

The following discussion of the federal income tax consequences of the 1997 Stock Plan as it relates to share awards, nonqualified stock options and incentive stock options is intended to be a summary of applicable federal law. State and local tax consequences may differ.

Share Awards

If a participant is awarded or purchases shares, the amount by which the fair market value of the shares on the date of award or purchase exceeds the amount paid for the shares will be taxed to the participant as ordinary income. The Company will be entitled to a deduction in the same amount provided it makes all required withholdings on the compensation element of the sale or award. The participant's tax basis in the shares acquired is equal to the share's fair market value on the date of acquisition. Upon a subsequent sale of any shares, the participant will realize capital gain or loss (long-term or short-term, depending on whether the shares were held for more than one year before the sale) in an amount equal to the difference between his or her basis in the shares and the sale price.

If a participant is awarded or purchases shares that are subject to a vesting schedule, the participant is deemed to receive an amount of ordinary income equal to the excess of the fair market value of the shares at the time they vest over the amount (if any) paid for such shares by the participant. The Company is entitled to a deduction equal to the amount of the income recognized by the participant.

Code Section 83(b) permits a participant to elect, within 30 days after the transfer of any shares subject to a vesting schedule to him or her, to be taxed at ordinary income rates on the excess of the fair market value of the shares at the time of the transfer over the amount (if any) paid by the participant for such shares. Withholding taxes apply at that time. If the participant makes a Section 83(b) election, any later appreciation in the value of the shares is not taxed as ordinary income, but instead is taxed as capital gain when the shares are sold or transferred.

Options

Incentive stock options and nonqualified stock options are treated differently for federal income tax purposes. Incentive stock options are intended to comply with the requirements of Section 422 of the Code. Nonqualified stock options need not comply with such requirements.

An optionee is generally not taxed on the grant or exercise of an incentive stock option. The difference between the exercise price and the fair market value of the shares on the exercise date will, however, be a preference item for purposes of the alternative minimum tax. If an optionee holds the shares acquired upon the exercise of an incentive stock option final for at least two years following grant and at least one year following exercise, the optionee's gain, if any, upon a subsequent disposition of such shares is a capital gain (or loss). The measure of the gain is the difference between the proceeds received on disposition and the optionee's basis in the shares (which generally equals the exercise price). If an optionee disposes of stock acquired pursuant to exercise of an incentive stock option before satisfying the one and two-year holding periods described above, the optionee will recognize both ordinary income and capital gain (or loss) in the year of disposition. The amount of the ordinary income will be the lesser of (i) the amount realized on disposition less the optionee's adjusted basis in the stock (usually the option price) or (ii) the difference between the fair market value of the stock on the exercise date and the option price. The balance of the consideration received on such a disposition will be capital gain if the stock had been held for at least one year following exercise of the incentive stock option. The Company is not entitled to an income tax deduction on the grant or exercise of an incentive stock option or on the optionee's disposition of the shares after satisfying the holding period requirement described above. If the holding periods are not satisfied, the Company will be entitled to a deduction in the year the optionee disposes of the shares, in an amount equal to the ordinary income recognized by the optionee.

An optionee is not taxed on the grant of a nonqualified stock option. On exercise, however, the optionee recognizes ordinary income equal to the difference between the option price and the fair market value of the shares on the date of exercise. The Company is entitled to an income tax deduction in the year of exercise in the amount recognized by the optionee as ordinary income. Any gain on subsequent disposition of the shares is a capital gain if the shares are held for at least one year following exercise. The Company does not receive a deduction for this gain.

Stock Incentive Plan Benefits

The Board is authorized, within the provisions of the 1997 Stock Plan, to issue new options, to amend the terms of outstanding restricted shares or stock units, to modify or extend outstanding options or SARs or to exchange new options for outstanding options, including outstanding options with a higher exercise price than the new options. Therefore, the benefits and amounts that will be received by each of the Named Executive Officers as a group and all other key employees are not determinable.

**The Board of Directors recommends a vote FOR the adoption of the amendment
of the Nanogen, Inc. 1997 Stock Incentive Plan.**

24

**PROPOSAL 3
ADOPTION OF 2002 STOCK BONUS PLAN**

On April 26, 2002, the Board of Directors of the Company adopted the 2002 Stock Bonus Plan (the "2002 Stock Bonus Plan"), subject to the approval of the Company's stockholders at the Annual Meeting. The Company's primary purpose of adopting the 2002 Stock Bonus Plan is to provide a mechanism by which the Company can issue shares of its Common Stock to its officers and certain employees in lieu of annual cash bonuses. The Board of Directors of the Company believes that providing such stock bonuses would (1) save the Company needed cash that it could use to fund its operations and (2) provide officers and certain employees with incentive stock bonuses that could increase in value upon the successful performance of the Company. The Board of Directors of the Company has authorized 250,000 shares of the Company Common Stock to be reserved under the 2002 Stock Bonus Plan for future issuance pursuant to the Plan.

The following is a summary of the material terms and provisions of the 2002 Stock Bonus Plan. The summary, however, does not purport to be a complete description of all the provisions of the 2002 Stock Bonus Plan. Copies of the actual plan document may be obtained by any stockholder upon written request to the Secretary of the Company at the Company's principal offices in San Diego, California.

Description of the 2002 Stock Bonus Plan

Purpose

The purpose of the 2002 Stock Bonus Plan is to promote the interests of the Company and its stockholders by increasing key individuals' proprietary interest in the Company by granting them additional shares of the Company's Common Stock as an annual bonus as opposed to a cash bonus. By providing the opportunity to receive such stock bonuses, the Company seeks to attract and retain those key employees upon whose judgment, initiative and leadership the success of the Company largely depends. The Company's Board of Directors believes that the 2002 Stock Plan will constitute an important means of compensating key employees.

Shares Subject to the 2002 Stock Bonus Plan

The total number of shares of the Company's Common Stock authorized for grant under the 2002 Stock Bonus Plan that stockholders are being asked to approve is 250,000. Shares withheld by the Company to pay any withholding tax due on the grant of such shares under the 2002 Stock Bonus Plan generally become available for new grants under the 2002 Stock Bonus Plan, however, such shares become treasury shares and the Company must collect from the recipients of such shares compensation equal to at least the par value of such shares.

Administration

The 2002 Stock Bonus Plan is administered by the Board of Directors or its delegate, currently the Compensation Committee. The Board of Directors, or its delegate, selects the employees of the Company who will receive awards, determines the size of any award and establishes any vesting or other conditions. Only officers and certain employees of the Company (or any subsidiary of the Company) are eligible to participate in the 2002 Stock Bonus Plan.

Vesting

The Board of Directors or its delegate determines the number of shares to be included in the award as well as the vesting and other conditions of the awards, if any. The vesting conditions may be based on the employee's service, his or her individual performance, the Company's performance or

25

other appropriate criteria. Vesting may be accelerated at the discretion of the Board of Directors based on performance of the employee, the employee's length of service with the Company, upon a change of control or in the event of the employee's death, disability or retirement.

Other Provisions

The 2002 Stock Bonus Plan provides that if any payment (or transfer) by the Company causes the employee to recognize a "golden parachute" excise tax under Section 4999 of the Internal Revenue Code, as amended (the "Code"), then the Company shall make such cash payments as are necessary to reimburse the employee for all additional taxes caused thereby.

Members of the Company's Board of Directors who are not employees of the Company are not eligible for awards under the 2002 Stock Bonus Plan.

Federal Income Tax Consequences

The following discussion of the federal income tax consequences of the 1997 Stock Bonus Plan as it relates to share awards and is intended to be a summary of applicable federal law. State and local tax consequences may differ.

If a participant is awarded shares that are not subject to vesting, the amount by which the fair market value of the shares on the date of award or purchase exceeds the amount paid for the shares will be taxed to the participant as ordinary income. The Company will be entitled to a deduction in the same amount provided it makes all required withholdings on the compensation element of the sale or award. The participant's tax basis in the shares acquired is equal to the share's fair market value on the date of acquisition. Upon a subsequent sale of any shares, the participant will realize capital gain or loss (long-term or short-term, depending on whether the shares were held for more than one year before the sale) in an amount equal to the difference between his or her basis in the shares and the sale price.

If a participant is awarded shares that are subject to a vesting schedule, the participant is deemed to receive an amount of ordinary income equal to the excess of the fair market value of the shares at the time they vest over the amount (if any) paid for such shares by the participant. The Company is entitled to a deduction equal to the amount of the income recognized by the participant, if any in the year in which the participant is taxed on the income.

Code Section 83(b) permits a participant to elect, within 30 days after the transfer of any shares subject to a vesting schedule to him or her, to be taxed at ordinary income rates on the excess of the fair market value of the shares at the time of the transfer over the amount (if any) paid by the participant for such shares. Withholding taxes apply at that time. If the participant makes a Section 83(b) election, any later appreciation in the value of the shares is not taxed as ordinary income, but instead is taxed as capital gain when the shares are sold or transferred. If the participant later forfeits the shares, he or she will get no deduction for the taxes paid. The Company will be able to take a deduction on the spread in the year in which the participant is taxed.

2002 Stock Bonus Plan Benefits

The Board is authorized, within the provisions of the 2002 Stock Plan, to issue new share awards at the fair market value price of shares of the Company's Common Stock on the day of grant. Therefore, the benefits and amounts that will be received by each of the Named Executive Officers as a group and all other key employees are not determinable.

The Board of Directors recommends a vote FOR the adoption of the Nanogen, Inc. 2002 Stock Bonus Plan.

26

PROPOSAL 4 RATIFICATION OF INDEPENDENT AUDITORS

The Board of Directors, upon recommendation of the Audit Committee, has appointed the firm of Ernst & Young LLP ("Ernst & Young") as the Company's independent auditors for the fiscal year ended December 31, 2002, subject to ratification by the stockholders. Representatives of Ernst & Young are expected to be present at the Company's Annual Meeting. They will have an opportunity to make a statement, if they desire to do so, and will be available to respond to appropriate questions.

Audit Fees. Total audit fees paid to Ernst & Young, including fees for professional services and expense relating to the audit of the Company's consolidated financial statements for the fiscal year ended December 31, 2001, as well as fees related to the timely review of the Company's quarterly financial information, totaled \$67,184.

Audit Related Fees. Total audit related fees paid to Ernst & Young, including consultations regarding accounting issues as well as fees related to the Company's registration statements filed with the SEC, totaled \$28,385.

Financial Information Systems Design and Implementation Fees. The Company did not engage Ernst & Young for professional services relating to financial information systems design and implementation for the fiscal year ended December 31, 2001.

All Other Fees. All other fees paid to Ernst & Young, including fees and expenses for legal, tax and management consulting services in connection with the establishment of the Company's majority-owned subsidiary, Nanogen Recognomics, located in Germany, totaled \$56,969.

The Audit Committee has determined that the rendering of non-audit services by Ernst & Young is compatible with maintaining the auditor's independence. The Audit Committee has considered the fees received by Ernst & Young for the provision of non-audit related services before recommending Ernst & Young as the independent auditor for the next fiscal year.

The Board of Directors recommends a vote FOR ratification of the appointment of Ernst & Young LLP.
