Great Lakes REIT

Notes to Consolidated Financial Statements

(Unaudited)

Dollars in thousands, except per share data

1. Basis of Presentation

Great Lakes REIT, a Maryland real estate investment trust (the "Company"), was formed in 1992 to invest in income-producing real property. The principal business of the Company is the ownership, management, leasing, renovation and acquisition of suburban office properties, primarily located in the Midwest region of the United States. At September 30, 2002, the Company owned and operated 36 properties, primarily located in suburban areas of Chicago, Milwaukee, Detroit, Columbus, Minneapolis, Denver and Cincinnati. The Company leases office space to over 500 tenants that are engaged in a variety of businesses.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries and controlled partnership. Intercompany accounts and transactions have been eliminated in consolidation.

The accompanying consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States. These statements should be read in conjunction with the Company's most recent year-end audited financial statements, which are contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 (the "2001 10-K"). In the opinion of management, the financial statements herein contain all adjustments (which are normal and recurring) necessary for a fair statement of financial results for the interim periods. For further information, refer to the consolidated

Edgar Filing: GREAT LAKES REIT - Form 10-Q

financial statements and notes thereto included in the 2001 10-K.

2. Derivatives and Hedging Activities

In October 2001, the Company entered into two separate interest rate swap agreements with notional amounts of \$25,000 each. One agreement has a term of two years and fixes the interest rate on \$25,000 of the Company's unsecured bank credit facility outstanding at a maximum of 4.12% per annum. The second swap agreement has a term of three years and fixes the interest rate on \$25,000 of the Company's unsecured bank credit facility outstanding at a maximum of 4.73% per annum. The Company is exposed to credit loss in the event of non-performance by counterparties under these agreements, but the Company does not expect non-performance by any of these counterparties. The amount of such exposure is generally limited to the amount of any payments due but not yet received from the counterparty.

At September 30, 2002, the fair value of the swap agreements was a liability of \$1,147 and is reflected as accumulated other comprehensive income (loss) in the consolidated balance sheet as of September 30, 2002.

3. Segment Information

The Company has two reportable segments, distinguished by property type. The property types are office and office service center and represent 92% and 8% (as measured by square feet) of the Company's overall portfolio, respectively. Office buildings are generally single-story or multi-story buildings used by tenants for office activities. The buildings generally have common area lobbies and other amenities, including food service areas, atriums and limited underground parking facilities. Office service center buildings generally are one-story buildings with no common areas. Tenant spaces

8

generally have less than 100% office use with the non-office space used for showroom, technical or light storage purposes. As of September 30, 2002, the properties were leased to more than 500 tenants, no single tenant accounted for more than 5% of the aggregate annualized base rent of the Company's portfolio and only 20 tenants individually represented more than 1% of the aggregate annualized base rent.

The Company evaluates performance and makes investment decisions in part based on net operating income, which is total property revenues (rental, reimbursement, parking, telecommunications, tenant service and other income), less property operating expenses and real estate taxes. Net operating income is a widely recognized industry measure of a property's performance.

The following table represents a summary report of segment information for the three months ended September 30, 2002 and 2001:

4. Property Acquisitions

Edgar Filing: GREAT LAKES REIT - Form 10-Q

On January 30, 2002, the Company acquired Two Riverwood Place, a 99,500 square foot multi-story office building located in Pewaukee, Wisconsin, for a contract price of \$8,095.

On August 1, 2002, the Company acquired 1111 Touhy Avenue, Des Plaines, Illinois, a 148,000 square foot multi-story office building, for a contract price of \$10,050.

5. Property Dispositions

The Company sold its property located at 160 Hansen Court, Wood Dale, Illinois, on April 22, 2002 for a contract price of \$2,322, resulting in a gain on sale of \$1,035 in the second quarter of 2002.

The Company sold its property located at 3400 Dundee Road, Northbrook, Illinois, on July 1, 2002 for a contract price of \$8,175, resulting in a gain on sale of \$3,770 recognized in the third quarter of 2002.

The Company sold its property located at 305, 315 and 325 Eisenhower Parkway, Ann Arbor, Michigan, on August 31, 2002 for a contract price of \$21,800, resulting in a gain on sale of \$2,360 recognized in the third quarter of 2002.

6. Earnings per Share

The unvested restricted common share grants (166,664 shares at September 30, 2002) are excluded from the common shares used to compute basic earnings per share. The unvested restricted common shares are included in the shares used to compute fully diluted earnings per share using the treasury stock method whereby the unamortized deferred compensation related to these shares is assumed to be the exercise value of these shares.

The Company has 40,199 operating partnership units held by non-affiliates of the Company outstanding at September 30, 2002, which are convertible to common shares on a one for one basis at the option of the holder.

7. Goodwill

In June 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets, effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill will no longer be amortized but will be subject to annual impairment tests in accordance with these Statements.

The Company has performed the required impairment tests of goodwill as of September 30, 2002, and has determined that goodwill is not impaired as of that date.

10

8. Impairment of Assets

In August 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144, Accounting for Impairment or Disposal of Long-lived Assets, which is effective for fiscal years beginning after December 15, 2001. The provisions of this statement did not affect the Company's financial position and results of operations for the quarter ended September 30, 2002.

The Company recognizes impairment losses for its properties when indicators of impairment are present and a property's expected undiscounted cash flows are not sufficient to recover the property's carrying amount.

9. Discontinued Operations

The components of discontinued operations for the three and nine months ended September 30, 2002 and 2001 are outlined below and include the results of operations through the date of each respective sale for the three and nine months ended September 30, 2002 (or all operations of properties held for sale) and all operations for the three and nine months ended September 30, 2001 for the following:

10. Subsequent Events

On October 1, 2002, the Company acquired eight medical office buildings in metropolitan Chicago totaling 459,000 square feet for a contract price of \$59,561. In connection with this acquisition, the Company entered into a one-year mortgage loan in an amount of \$36,000. The loan is due October 1, 2003 and bears interest at LIBOR plus 1.85% for the first six months of the loan term and LIBOR plus 2.5% for the second six months of the loan term.

On October 15, 2002, the Company acquired 387 Shuman Boulevard, Naperville, Illinois, a 107,000 square foot multi-story office building, for a contract price of \$7,820.

11

ITEM 2. Management's Discussion and Analysis of Results of Operations and Financial Condition (Dollars in thousands)

The following is a discussion and analysis of the consolidated financial condition and results of operations for the Company for the three and nine months ended and as of September 30, 2002. The following should be read in conjunction with the consolidated financial statements and related notes appearing elsewhere herein and the consolidated financial statements and related notes contained in the 2001 10-K.

Trends

In 2001, occupancy rates in the markets in which the Company's properties are located, primarily the suburban areas of Chicago, Milwaukee, Detroit, Columbus, Minneapolis, Denver and Cincinnati, continued to decline due to increases in supply and decreases in demand for office space. As a result, the overall portfolio occupancy of the Company's properties declined from 92% at the end of 2000 to 88% at the end of 2001, and 83% at September 30, 2002. Occupancy declines in the Company's portfolio of properties adversely impact the Company's results of operations. The Company does not expect that the conditions in the markets in which it operates will improve in the remainder of 2002 or in 2003. As a result, the Company expects that overall portfolio occupancy will remain at approximately 83% through the end of 2002 and that revenues and net income will decrease in 2002 as compared to 2001. Operating results for the three and nine months ended September 30, 2002, are consistent with these trends as income from continuing operations decreased as compared to the same periods ended September 30, 2001.

As of November 1, 2002, several tenants were in default under their leases for failure to make rent payments. Several other tenants that are not currently in default are experiencing financial difficulties which may lead to lease defaults. These tenant defaults may adversely impact the

Company's revenue in the remainder of 2002 and in 2003.

Legion Insurance Company, which leases 58,000 square feet of space at Milwaukee Center and represented 1.48% of the Company's aggregate portfolio annualized base rent as of December 31, 2001, was placed in rehabilitation by the Pennsylvania Department of Insurance on April 1, 2002. After completing its review, the Pennsylvania Department of Insurance has recommended to the Commonwealth Court that Legion Insurance Company be liquidated. The Commonwealth Court has not yet approved the recommendation of the Pennsylvania Department of Insurance. Based on currently available information, the Company believes it is more likely than not that Legion will fulfill all terms of its lease in 2002 and 2003. Legion Insurance Company is current on its rental payments to date.

Jones Cyber Solutions, Ltd., which leases 43,000 square feet of office space at 116 Inverness Drive, Englewood, Colorado, is in default under the terms of its lease that expires January 31, 2006. The Company expects to negotiate a settlement with this tenant whereby the Company will receive rent through March 31, 2003 at which time the lease will terminate.

Three months ended September 30, 2002 compared to 2001

In analyzing the operating results for the three months ended September 30, 2002, the changes in rental and reimbursement income, real estate taxes and other property operating expenses from 2001 are due principally to: (i) the addition of a full year's operating results in 2002 of properties acquired in 2001 compared to the partial year's operating results from the dates of their respective acquisitions in 2001, (ii) the addition of operating results of properties acquired in 2002 from the dates of acquisition and (iii) changes in operations of properties during 2002 compared to 2001 due to occupancy declines. Other property operating expenses include contract services, repairs, maintenance, utilities, personnel,

12

insurance and other costs directly associated with the leasing, management and operation of the properties.

	Rental income	Reimbursement income	Real estate taxes	Property operating expenses
Increase due to properties acquired in 2001	\$ 312	\$ 124	\$ 232	\$ 228
Increase due to properties acquired in 2002	815	73	156	185
Increase (decrease) in 2002 as compared to 2001	(853)	(289)	(415)	(129)
	\$ 274	\$ (92)	\$ (27)	\$ 284

Telecommunications income decreased by \$92 during the quarter ended September 30, 2002 as compared to 2001 as certain tenants who paid these rentals in early 2001 discontinued their businesses later in 2001.

Tenant service income increased by \$21 in the quarter ended September 30, 2002 as compared to 2001 due to the sale of certain engineering services.

Interest income decreased by \$53 during the quarter ended September 30, 2002, as compared to 2001 as certain interest-bearing employee share loans were repaid during 2002.

General and administrative expenses increased by \$108 during the quarter ended September 30, 2002 as compared to 2001 due to certain state income taxes paid during the third quarter of 2002.

Interest expense increased by \$131 during the quarter ended September 30, 2002 as compared to 2001 due to higher amounts outstanding under the unsecured bank credit facility and long-term debt during 2002 offset in part by lower interest rates on the unsecured bank credit facility in 2002.

Depreciation and amortization expenses increased by \$444 during the quarter ended September 30, 2002 as compared to 2001 because the Company had a gross book value of depreciable assets of \$458,007 at September 30, 2002 as compared to \$431,342 at September 30, 2001.

Edgar Filing: GREAT LAKES REIT - Form 10-Q

Nine months ended September 30, 2002 compared to 2001

In analyzing the operating results for the nine months ended September 30, 2002, the changes in rental and reimbursement income, real estate taxes and other property operating expenses from 2001 are due principally to: (i) the addition of a full year's operating results in 2002 of properties acquired in 2001 compared to the partial year's operating results from the dates of their respective acquisitions in 2001, (ii) the addition of operating results of properties acquired in 2002 from the dates of acquisition and (iii) changes in operations of properties during 2002 compared to 2001 due to occupancy declines. Other property operating expenses include contract services, repairs, maintenance, utilities, personnel, insurance and other costs directly associated with the leasing, management and operation of the properties.

	Rental income	Reimbursement income	Real estate taxes	Property operating expenses
Increase due to properties acquired in 2001	\$ 2,232	\$ 1,367	\$ 702	\$ 1,129
Increase due to properties acquired in 2002	1,298	211	169	329
Increase (decrease) in 2002 as compared to 2001	(1,838)	(749)	(164)	(525)
Total	\$ 1,692	\$ 829	\$ 707	\$ 933

13

Telecommunications income decreased by \$251 during the nine months ended September 30, 2002 as compared to 2001 as certain tenants who paid these rentals in the 2001 discontinued their businesses in 2001.

Tenant service income decreased by \$27 in the nine months ended September 30, 2002 as compared to 2001 as tenants' use of additional services declined with the decline in portfolio occupancy.

Interest income decreased by \$167 during the nine months ended September 30, 2002, as compared to 2001 as certain interest bearing employee share loans were repaid in early 2002.

Interest expense increased by \$621 during the nine months ended September 30, 2002 as compared to 2001 due to higher amounts outstanding under the unsecured bank credit facility and long-term debt during 2002 offset in part by lower interest rates on the unsecured bank credit facility in 2002.

Depreciation and amortization expenses increased by \$1,160 during the nine months ended September 30, 2002 as compared to 2001 because the Company had a gross book value of depreciable assets of \$458,007 at September 30, 2002 as compared to \$431,342 at September 30, 2001.

Segment Operations

The Company has two reportable segments, distinguished by property type. The property types are office and office service center. Office buildings are generally single-story or multi-story buildings used by tenants for office activities. The buildings generally have common area lobbies and other amenities including food service areas, atriums and limited underground parking facilities. Office service center buildings generally are one-story buildings with no common areas. Tenant spaces generally have less than 100% office use with the non-office space used for showroom, technical or light storage purposes.

The net income for the office segment is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2002	2001	2002	2001
Net operating income	\$ 13,109	\$ 13,169	\$ 40,014	\$ 39,666
Interest expense	(3,584)	(3,462)	(10,667)	(10,072)
Depreciation	(4,624)	(4,126)	(13,137)	(11,912)

	Three months ended September 30,		Nine months ended September 30,	
Segment net income	\$ 4,901	\$ 5,581	\$ 16,210	\$ 17,682

The decrease in net income for the three months and nine months ended September 30, 2002 as compared to 2001 was due to declining occupancies in this segment.

The net income for the office service center segment is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2002	2001	2002	2001
Net operating income	\$ 697	\$ 773	\$ 1,915	\$ 2,309
Interest expense	(223)	(214)	(667)	(641)
Depreciation	(256)	(286)	(852)	(856)
Segment net income (loss)	\$ 218	\$ 273	\$ 396	\$ 812

The decrease in net income for the three months and nine months ended September 30, 2002 as compared to 2001 was due declining occupancies in this property segment.

Liquidity and Capital Resources

The Company expects to meet its short-term liquidity requirements principally through its working capital and net cash provided by operating activities. The Company considers its cash provided by operating activities to be adequate to meet operating requirements and to fund the payment of dividends in order to comply with certain federal income tax requirements applicable to real estate investment trusts ("REITs"). The Company's Board of Trustees regularly reviews the level of the Company's dividend payments and will continue or adjust such levels based on the Company's operating results and expectations regarding future results.

The Company is a party to a \$150,000 unsecured bank credit facility that matures on March 23, 2004. Borrowings under the unsecured bank credit facility bear interest at LIBOR plus 1.0% to 1.2%, depending on overall Company leverage. The unsecured bank credit facility contains financial covenants, including requirements for a minimum tangible net worth, maximum liabilities to asset values, debt service coverage and net property operating income. The unsecured bank credit facility also contains restrictions on, among other things, indebtedness, investments, dividends, liens, mergers and development activities. The Company has received a commitment from an institutional lender for \$165,000 mortgage loan secured by several of its properties. This loan, which is expected to fund in late November 2002, will retire the unsecured bank credit facility. The closing is subject to customary closing conditions and completion of the loan documents. Accordingly, there can be no assurance that the loan will be completed on the terms and conditions contemplated.

The Company expects to meet its short-term liquidity requirements for any property acquisitions and significant capital improvements through property dispositions and additional borrowings under its unsecured bank credit facility. The Company had \$36,550 available for future borrowings under the unsecured bank credit facility at September 30, 2002.

The Company expects to meet its long-term liquidity requirements (such as scheduled mortgage debt maturities, property acquisitions and significant capital improvements) through long-term collateralized and uncollateralized borrowings, the issuance of debt or equity securities and targeted property dispositions.

The Company sold its property located at 160 Hansen Court, Wood Dale, Illinois, on April 22, 2002 for a contract price of \$2,322, resulting in a gain on sale of \$1,035 recognized in the second quarter of 2002.

Edgar Filing: GREAT LAKES REIT - Form 10-Q

The Company sold its property located at 3400 Dundee Road, Northbrook, Illinois, on July 1, 2002 for a contract price of \$8,175, resulting in a gain on sale of \$3,770 recognized in the third quarter of 2002.

The Company sold its property located at 305, 315 and 325 Eisenhower Parkway, Ann Arbor, Michigan, on August 31, 2002 for a contract price of \$21,800, resulting in a gain on sale of \$2,360 recognized in the third quarter of 2002.

On August 1, 2002, the Company acquired 1111 Touhy Avenue, Des Plaines, Illinois, a 148,000 square foot office building, for a contract price of \$10,050. Funds for the purchase came from the sale of 160 Hansen Court and borrowings under the Company's unsecured bank credit facility.

On October 1, 2002, the Company acquired eight medical office buildings in metropolitan Chicago totaling 459,000 square feet for a contract price of \$59,600. In connection with this acquisition, the Company entered into a one-year mortgage loan in an amount of \$36,000. The loan is due October 1, 2003 and bears interest at LIBOR plus 1.85% for the first six months of the loan term and LIBOR plus 2.5% for the second six months of the loan term. Funds for this acquisition came from the sale of the Ann Arbor properties and the \$36,000 loan described above.

15

On October 15, 2002, the Company acquired 387 Shuman Boulevard, Naperville, Illinois, a 108,000 square foot multi-story office building, for a contract price of \$7,820. Funds for the purchase came from borrowings under the Company's unsecured bank credit facility.

Forward-Looking Statements

This report contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that involve numerous risks and uncertainties. Statements in this report regarding: trends in occupancy rates in the markets in which the Company's properties are located; the Company's expectations for overall portfolio occupancy rates; revenues; net income; agreements with, and other issues related to, tenants in default or tenants facing financial difficulties; rental rates; rental rate increases; leasing activity; acquisition and disposition volume and opportunities; future growth prospects, if any; the future strength of Midwestern office markets; the anticipated effect of tenant defaults; and anticipated market and other economic conditions are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on what the Company believes to be reasonable assumptions and management's current expectations; however, actual results may vary from those implied by such forward-looking statements. Key factors that may cause actual results to differ from projected results include changes in: interest rates; conditions in the financial markets generally and the market for real estate finance specifically; local and/or national economic conditions; the pace of office space development and sub-lease availability; tenant office space demand; the financial position of the Company's tenants, including changes that may lead to increases in tenant defaults; actual tenant default rates compared to anticipated default rates; and other risks inherent in the real estate business. Many of these factors are beyond the Company's ability to control or predict. Forward-looking statements are not guarantees of performance. For forward-looking statements made in this report, the Company claims the protection of the safe harbor for forward-looking statements made in the Private Securities Litigation Reform Act of 1995. The Company assumes no obligation to update or supplement forward-looking statements.

ITEM 3. MARKET RISK (Dollars in thousands)

The Company's interest income is sensitive to changes in the general levels of U.S. short-term interest rates.

The Company's interest expense is sensitive to changes in the general level of U.S. short-term and long-term interest rates as the Company has outstanding indebtedness at fixed and variable rates.

The Company's variable rate debt under the unsecured bank credit facility bears interest at LIBOR plus 1% to 1.2% per annum depending on the Company's overall leverage. Increases in LIBOR rates would increase the Company's interest expense and reduce its cash flow. Conversely, declines in LIBOR rates would decrease the Company's interest expense and increase its cash flow. In October 2001, the Company entered into two separate interest rate swap agreements with notional amounts of \$25,000 each. One agreement has a term of two years and fixes the interest rate on \$25,000 of the Company's unsecured credit facility at a maximum of 4.12%. The second swap agreement has a term of three years and fixes the interest rate on \$25,000 of the Company's unsecured bank credit facility at a maximum of 4.73% per annum.

Edgar Filing: GREAT LAKES REIT - Form 10-Q

At September 30, 2002, the Company had \$198,123 of fixed rate debt outstanding at an average rate of 6.41% (including the effect of the two swap agreements). If the general level of interest rates in the United States were to fall, the Company would not likely have the opportunity to refinance this fixed rate debt prior to maturity at lower effective interest rates due to prepayment restrictions and penalties on its fixed rate debt.

In general, the Company believes long-term fixed rate debt is preferable as a financing vehicle for its operations due to the long-term fixed contractual rental income the Company receives from its

16

tenants. As a result, 74% of the Company's long-term debt outstanding at September 30, 2002 bears interest at fixed rates (including the debt affected by the swap agreements). The Company may, as market conditions warrant, enter into additional fixed rate long-term debt instruments on either a secured or unsecured basis.

A tabular presentation of interest rate sensitivity is as follows:

	Interest Rate Sensitivity					
	Principal Amount by Expected Maturity					
	Average Interest Rate					
	2002	2003	2004	2005	2006	Thereafter
Liabilities:						
Fixed Rate						
Mortgage loans payable	\$ 998	\$ 14,716	\$ 6,465	\$ 4,146	\$ 24,162	\$ 97,636
Average interest rate	6.96%	7.05%	7.71%	6.88%	6.69%	7.05%
Fixed Rate						
Bank loan payable(1)			\$ 25,000			
Bank loan payable(2)			\$ 25,000			
Average Interest rate						
Variable Rate						
Bank loan payable(3)			\$ 64,450			
Average interest rate(4)						
Bonds payable		\$ 375	\$ 415	\$ 460	\$ 505	\$ 1,865
Average interest rate	(5)	(5)	(5)	(5)	(5)	(5)

- (1) The maximum interest rate is 4.12% per annum until December 2003.
- (2) The maximum interest rate is 4.73% per annum until December 2004.
- (3) The variable rate bank debt under the unsecured bank credit facility payable accrues interest at LIBOR plus 1.2% per annum.
- (4) The average interest rate on the variable rate bank debt for the nine months ended September 30, 2002 was 3.4% per annum.
- (5) The average interest rate on the bonds payable for the nine months ended September 30, 2002 was 3.8% per annum.

Item 4. Controls and Procedures

The Company maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Within the 90-day period prior to the filing of this report, an evaluation was carried out under the supervision and with the participation of the Company's management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the Company's disclosure controls and procedures. Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective.

Subsequent to the date of their evaluation, there have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls.
