Common shares	\$ 8.54	6.54

This analysis should be read in conjunction with Central Fund's financial statements prepared in accordance with Canadian GAAP included in its 2007 Annual Report and the accompanying MD&A.

The change in net assets as reported in U.S. dollars from period to period is primarily a result of the changing market prices of gold and silver and the proportion of each held by the Company. Changes in the value of the U.S. dollar relative to the Canadian dollar will also have an impact on net assets when reported in Canadian dollars.

Net assets increased by \$204.1 million in the first quarter essentially due to the unrealized appreciation of holdings during the quarter.

<b>Net income per share:</b>		
<i>Class A shares</i>	\$ 1.63	0.67
<i>Common shares</i>	\$ 1.63	0.67

Net income (inclusive of unrealized appreciation of holdings) for the three months ended January 31, 2008 was \$204.1 million compared to \$73.2 million for the same period in 2007. Virtually all of the net income for the three month period was due to unrealized appreciation of holdings. Certain expenses, such as administration fees which are scaled, have varied in proportion to net asset levels, or, in the case of stock exchange fees, with market capitalization based on the number of Class A shares issued. Safekeeping fees and bullion insurance costs increased, reflecting the higher prices of gold and silver bullion. Administration fees increased to \$760,954 from \$612,328 for the three months based on the increased assets under administration.

## Edgar Filing: CENTRAL FUND OF CANADA LTD - Form 6-K

Expenses as a percentage of average month-end net assets for the three-month period ended January 31, 2008 were 0.10%, compared to 0.11% for the same three-month period in 2007. For the twelve months ended January 31, 2008, the expense ratio was 0.42% compared to 0.45% for the prior twelve-month period.

Central Fund of Canada Limited operates as a specialized investment holding company which invests primarily in long-term holdings of allocated, segregated and unencumbered gold and silver bullion and does not actively speculate with regard to short-term changes in gold and silver prices. At January 31, 2008, the Class A shares of Central Fund were backed 98.4% by gold and silver bullion and may be purchased or sold with ease on either the American Stock Exchange (CEF) or The Toronto Stock Exchange (CEF.A in Canadian dollars and CEF.U in U.S. dollars).
