### Common Stock

On May 14, 2009, Ship Finance International Limited, or the Company, declared a quarterly dividend with respect to the first quarter of 2009 in the amount of \$0.30 on each of its outstanding shares of common stock, or Common Shares, payable to shareholders of record as of May 27, 2009, which we refer to as the Record Date. The Company's outstanding Common Shares commenced trading ex-dividend on the New York Stock Exchange, or the NYSE, on May 22, 2009, and the dividend will be payable on or about July 6, 2009.

Shareholders will be paid a dividend on each outstanding Common Share in cash, or upon the election of the holder of such Common Share, may instruct the Company to retain the cash that would otherwise have been paid as such dividend in exchange for newly issued Common Shares of the Company in the manner set forth in this prospectus supplement. Any additional Common Shares issued in lieu of cash will be freely tradable on the NYSE upon their issuance. Shareholders electing to receive the dividend in newly issued Common Shares of the Company will receive 0.0265 Common Shares for each Common Share held by such shareholder on the Record Date, representing a value of \$0.30 based upon the volume-weighted average price of the Common Shares of \$11.90 on the NYSE during the three trading days ending May 21, 2009, less a five percent (5%) discount.

Each shareholder electing to receive the dividend in additional Common Shares will receive a number of additional Common Shares equal to 0.0265 multiplied by the aggregate number of Common Shares held by such shareholder on the Record Date, rounded down to the nearest whole Common Share. The amount in cash equal to the balance of the dividend to such shareholder that has not been applied to the issuance of additional Common Shares will be contributed by the Company to a charitable organization, as defined in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended, determined by the Company.

Holders that owned outstanding Common Shares as of the Record Date that were registered in their own name will receive by mail an election form to be completed and returned to the Company's transfer agent in accordance with the instructions contained in the election form. Holders that beneficially owned outstanding Common Shares as of the Record Date that were registered in the name of a broker, dealer or other nominee should contact the registered holder of such Common Shares as soon as possible and instruct such registered holder if they wish to elect to receive additional Common Shares in lieu of cash. All shareholder elections must be received by the Company or its agent not later than 5:00 p.m., New York City time, on June 26, 2009, which we refer to as the Shareholder Response Date. Shareholders are advised to contact their brokers, dealers or other nominees to ensure timely processing of their elections.

No action is required to be taken by shareholders wishing to receive a cash dividend.

Each shareholder is advised to carefully review this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein before making its decision of whether to elect to receive additional Common Shares of the Company.

The Company's principal shareholders, Hemen Holding Ltd. and Farahead Investment Inc., who collectively own approximately 42.4% of our Common Shares and are indirectly controlled by Mr. John Fredriksen, have informed us that they will elect to receive all of their dividends in additional Common Shares.

Our Common Shares are listed on the NYSE under the symbol "SFL." The last reported sale price of our Common Shares on the NYSE on May 21, 2009 was \$11.96 per share.

Investing in our Common Shares involves risks. For an in-depth discussion of these risks, please refer to the section entitled "Risk Factors" beginning on page S-1 of this prospectus supplement.

## CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Matters discussed in this prospectus supplement may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include, but are not limited to, statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

Ship Finance International Limited, or the Company, desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement pursuant to this safe harbor legislation. This prospectus supplement and any other written or oral statements made by us or on our behalf may include forward-looking statements, which reflect our current views with respect to future events and financial performance. The words "believe," "anticipate," "intend," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect" and similar expressions identify forward-looking statements.

The forward-looking statements in this document are based upon various assumptions, many of which are based, in turn, upon further assumptions, including, without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors and matters discussed elsewhere herein, important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies, fluctuations in currencies and interest rates, general market conditions including fluctuations in charterhire rates and vessel values, changes in demand in the markets in which we operate, changes in demand resulting from changes in the Organization of the Petroleum Exporting Countries' petroleum production levels and world-wide oil consumption and storage, developments regarding the technologies relating to oil exploration, changes in market demand in countries which import commodities and finished goods and changes in the amount and location of the production of those commodities and finished goods, increased inspection procedures and more restrictive import and export controls, changes in our operating expenses, including bunker prices, drydocking and insurance costs, performance of our charterers and other counterparties with whom we deal, timely delivery of vessels under construction within the contracted price, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents, piracy or political events, and other important factors described under the heading "Risk Factors" in this prospectus supplement, in the accompanying prospectus, and in our annual report on Form 20-F for the year ended December 31, 2008, as well as those described from time to time in the reports filed by us with the SEC.

This prospectus supplement may contain assumptions, expectations, projections, intentions and beliefs about future events. These statements are intended as forward-looking statements. We may also from time to time make forward-looking statements in our periodic reports that we will file with the SEC, in other information sent to our security holders, and in other written materials. We caution that assumptions, expectations, projections, intentions and beliefs about future events may and often do vary from actual results and the differences can be material.

We undertake no obligation to publicly update or revise any forward-looking statement contained in this prospectus supplement, whether as a result of new information, future events or otherwise, except as required by law. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this prospectus supplement might not occur, and our actual results could differ materially from those anticipated in these forward-looking statements.

## RISK FACTORS

An investment in our Common Shares involves a high degree of risk, including the risks we face described in the accompanying prospectus and the documents incorporated by reference herein. Our business, financial condition, and results of operations could be materially and adversely affected by any of these risks. The trading price of our Common Shares could decline due to any of these risks, and you may lose all or part of your investment. This prospectus supplement, the accompanying prospectus, and the documents incorporated by reference herein also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks we face described in the accompanying prospectus and the documents incorporated by reference herein.

Before you decide to invest in our Common Shares, you should carefully consider the risks and the discussion of risks under the heading "Risk Factors" beginning on page 3 of the accompanying prospectus and in our annual report for the year ended December 31, 2008 on Form 20-F, filed with the SEC on March 24, 2009. In addition, you should also carefully consider the risk set forth below, as well as other information included in this prospectus supplement, the accompanying prospectus and the documents we have incorporated by reference in this prospectus supplement that summarize the risks that may materially affect our business. Please refer to the sections entitled "Where You Can Find Additional Information" in this prospectus supplement and in the accompanying prospectus for discussions of these other filings.

The market price of our Common Shares is volatile and may change significantly prior to the payment of the dividend.

The number of additional Common Shares that shareholders may receive in lieu of the \$0.30 cash dividend on each outstanding Common Share has been determined based on the volume-weighted average price of the Common Shares of \$11.90 on the NYSE during the three trading days ending May 21, 2009, less a five percent (5%) discount. The number of Common Shares that will be issued on or about July 6, 2009, the dividend payment date, will not be adjusted to reflect changes in the market price of the Company's Common Shares prior to the dividend payment date. The value of the Common Shares issued to shareholders electing to receive the dividend in Common Shares may be significantly less than or greater than the value of those Common Shares on the Record Date or the date of this prospectus supplement.

## DIVIDEND POLICY

We seek to pay a regular quarterly dividend, the amount of which is based on our contracted revenues and growth prospects. Our goal is to increase our quarterly dividend as we grow the business, but the timing and amount of dividends, if any, is at the discretion of our board of directors and will depend upon our operating results, financial condition, cash requirements, restrictions in terms of financing arrangements and other relevant factors.

The Company has paid 20 consecutive quarterly dividends as of April 2009, and has declared a 21st consecutive dividend that will be payable on or about July 6, 2009 with respect to the first quarter of 2009. The declaration and payment of dividends with respect to future quarters, if any, will be determined at the sole discretion of our board of directors.
