PROXY STATEMENT ANNUAL MEETING OF STOCKHOLDERS

To Be Held On June 5, 2001

This Proxy Statement is furnished to the holders of the Common Stock, \$.01 par value (the "Common Stock"), of Pegasystems Inc. (the "Company") in connection with the solicitation by and on behalf of the Board of Directors of the Company of proxies for use at the Annual Meeting of Stockholders of the Company to be held at One Main Street, Cambridge, Massachusetts, on Tuesday, June 5, 2001 at 1:30 p.m. local time, and at any adjournment(s) thereof. Each properly signed proxy will be voted in accordance with the instructions contained therein, and, if no choice is specified, the proxy will be voted in favor of the proposals set forth in the Notice of Annual Meeting.

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Company a written notice of revocation or a duly executed proxy bearing a later date, or by attending the Meeting and voting in person.

This Proxy Statement, the enclosed proxy and Annual Report to Stockholders for the year ended December 31, 2000, are being mailed to the stockholders on or about May 15, 2001. The Annual Report does not constitute any part of this Proxy Statement.

The entire cost of this solicitation will be paid by the Company. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation material to such beneficial owners.

Only stockholders of record of the Company's 32,613,692 shares of Common Stock outstanding as of the close of business on the record date, May 3, 2001, will be entitled to vote. Each share of Common Stock is entitled to one vote at the Meeting or any adjournment(s) thereof. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum at the Meeting. Shares voted to abstain or to withhold as to a particular matter as to which a nominee (such as a broker holding shares in street name for a beneficial owner) has no voting authority in respect of such matter will be deemed represented for quorum purposes. Under the Company's by-laws, such shares will not be deemed to be voting on such matter, and therefore will not be the equivalent of negative votes as to such matter. Votes will be tabulated by the Company's transfer agent subject to supervision of persons designated by the Board of Directors as inspectors.

The affirmative vote of the holders of a plurality of the shares represented at the Meeting, at which a quorum is present, is required for the election of Directors. Approval of other matters before the Meeting will require the affirmative vote at the Meeting, at which a quorum is present, of the holders of a majority of votes cast with respect to such matters.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

General

The Compensation Committee of the Board of Directors (the "Committee") is

Edgar Filing: PEGASYSTEMS INC - Form DEF 14A

composed entirely of Directors who are not employees of or consultants to the Company. The Committee, which as of May 31, 2001 consisted of Alexander V. d'Arbeloff, Edward A. Maybury and Edward Roberts, is responsible for recommending compensation and benefits for the executive officers of the Company to the Board of Directors and for administering the Company's stock plans. The Committee determines the compensation for the President. The Committee and the President together determine the compensation for the other executive officers of the Company.

Compensation Philosophy

The objective of the Committee is to provide an executive compensation program that aligns executive compensation with the achievement of specific company goals. The Committee believes that executive compensation should also reflect the value that an individual adds to the Company and that executive compensation should enable the Company to attract and retain key employees in an increasingly competitive industry environment.

8

Compensation Components

There are two compensation components for executive officers: cash compensation in the form of salary and merit pay, and non-cash compensation in the form of stock options.

Salary. Cash compensation in the form of salary is intended to reflect an executive's knowledge, skills, and level of responsibility as well as the economic and business conditions affecting the Company. The salary of each executive was determined by the Committee in part by analyzing published compensation surveys (the "Surveys") such as the annually-published Culpepper Surveys on Software Industry Executive and Administrative Pay, published surveys by The Survey Group, and Executive Alliance, and in addition, as a result of the Committee making an assessment of an executive's individual personal performance with respect to his or her attainment of specific company goals.

Merit Pay. Merit pay reflects the financial valuation of each executive's individual contribution to the Company over the review period. An executive's ability to achieve closure on critical projects, to attain required results, and to contribute positively to Company tone in the process are critical to ensuring the strong financial performance of the Company as a whole, and thus helps define the executive's financial value. Awards of merit payments are made at the discretion of the Board of Directors, based upon their opinions of executives' respective contributions to the Company. There is no pre-set amount allocated and available in a "merit pay pool" for executive officers.

Stock Options. The Committee uses stock options as a long-term, non-cash incentive and as a means of aligning the long-term interests of executives and stockholders. Stock options are awarded based upon the market price of the Common Stock on the date of grant and are linked to future performance of the Company's stock because they do not become valuable to the holder unless the price of the Company's stock increases above the price on the date of grant. The number of stock options granted to an executive as a form of non-cash compensation is determined by taking into consideration factors such as number of stock options previously granted to an executive, the executive's remaining options exercisable and the value of those stock options, as compared to the anticipated value that an executive will add to the Company in the future. Stock options are not necessarily granted to executives on an annual basis. Stock options were granted to certain executive officers during 2000.

Compensation of the Chief Executive Officer and All Other Executive Officers

The Committee, in its consideration of the salary, merit pay and stock option components of compensation for 2000 for the Chief Executive Officer and all other executive officers, made reference to the Surveys, which it believes represent compensation data from companies that are similar in nature to the Company. The salary, merit pay and stock option components of compensation that was determined for the Chief Executive Officer and all other executive officers was comparable with companies found in the Surveys.

The Surveys and the Pegasystems Inc. Performance Graph

The companies included in the Surveys differ from the companies included in the Goldman Sachs Technology Software Index, which is included in the Performance Graph following this report, in that the Goldman Sachs Technology Software Index includes only a select number of public companies which sell software, while the Surveys include public as well as private companies which sell software and integrated turnkey systems, and is therefore broader in scope. The Committee made reference to the Surveys and to the Executive Alliance in establishing executive compensation because the Surveys include companies that are in the software industry, as is the Company, and contain a broader range of companies that are likely to compete for the services of the Company's executive officers. For these reasons the Committee believes that the Goldman Sachs Technology Software Index may be an appropriate basis for comparing stock performance and the Surveys are an appropriate basis for determining compensation.

9

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation over \$1 million paid to its chief executive and its four other most highly compensated executives. Performance-based compensation is excluded from the compensation taken into account for purposes of the limit if certain requirements are met. The Company currently intends to structure its stock options granted to executives in a manner that complies with the performance-based requirements of the statute. The Committee believes that, given the general range of salaries and bonuses for executive officers of the Company, the \$1 million threshold of Section 162(m) will not be reached by any executive officer of the Company in the foreseeable future. Accordingly, the Committee has not considered what its policy regarding compensation not qualifying for federal tax deduction might be at such time, if ever, as that threshold is within range of any executive officer.

REPORT OF THE AUDIT COMMITTEE

Edgar Filing: PEGASYSTEMS INC - Form DEF 14A

The Audit Committee (the "Committee") oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls.

The Committee consists of three members, each of whom is independent (as defined by listing standards that govern companies the shares of which are listed on Nasdaq). The Committee operates under a written charter, approved by the Board of Directors, which is attached as Appendix A to the Proxy Statement.

In fulfilling its oversight responsibilities regarding the 2000 financial statements, the Committee reviewed with management the audited financial statements in the Annual Report, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The Committee's review included discussion with the outside auditors of matters required to be discussed pursuant to Statement of Auditing Standards No. 61 (Communication with Audit Committees).

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgment as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and received by the Committee.

10

The Committee discussed with the Company's independent auditors the overall scope and plans for their audits in 2001. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held seven (7) meetings during 2000.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2000, for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended, subject to shareholder approval, the selection of the Company's independent auditors for 2001.

All audit and non-audit services provided by Deloitte & Touche LLP are approved by the Audit Committee, which considers whether the provision of non-audit services is compatible with maintaining the auditor's independence.

In the event that ratification of the appointment of Deloitte & Touche LLP as the independent public accountants for the Company is not obtained at the upcoming Annual Meeting of Stockholders, the Board of Directors will reconsider its selection.

The affirmative vote of a majority of the shares present or represented and entitled to vote and voting at the Meeting is required to ratify the selection of the independent public accountants.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE TO APPROVE THE RATIFICATION OF THE SELECTION OF INDEPENDENT PUBLIC ACCOUNTANTS AND PROXIES SOLICITED BY THE BOARD WILL BE VOTED IN FAVOR THEREOF UNLESS A STOCKHOLDER HAS INDICATED OTHERWISE ON THE PROXY.
